

AGENDA ITEMS REQUESTED FOR 1/24/80 FCC MEETING WITH THE PRESIDENT

1. Relationships between the Faculty and the Regents. GB

(a) How is the present situation with a student Regent and student representatives (and Faculty Consultative Committee members attending as members of the public) perceived? Has faculty attendance helped? Should it take a more active form? informally? formally?

(b) Since we obviously cannot prevent all "end runs" to the Regents, should we discuss the topic openly at the next dinner meeting?

(c) Do individual faculty relationships with the Regents blunt the formal procedures of the SCC?

(d) Could the Faculty Representative to the Legislature play a more active role in relating between the SCC and other faculty members and the Regents? - *Regents' Representative to the Legislature*

(e) How are the present dinners between the Regents and the FCC perceived by the Regents?

(f) Have there been any "signals" from the Regents regarding Senate reorganization and the Board of Student Publications? *Discontinue*  
Grievance matters? the 'E', Academic Staff personnel system?

2. Search committees and advisability of presidential staff chairing such.
