GENERAL

The 1931-32 budget has been prepared along the same general lines that have been followed at the institution for the past nineteen years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1931, and ending June 30, 1932.

In order to prepare the reports required for proper administration of the university, it has been found necessary to change the method of numbering accounts. Beginning July 1, 1931, all financial transactions will carry two account numbers, the first of which will be known as the "Department Number" and will identify the department concerned. The second will be known as the "Budget Number" and will indicate which of the department's budgets is affected. This identification will be uniformly used whether the transaction affects payroll items, supply, expense and equipment budgets, or income budgets. The "Fund Number" formerly used in connection with payroll is discontinued, being replaced by the payroll "Budget Number." The "Department Number" is, in most cases, the same as that which has been used in connection with payroll for several years. The "Budget Number" is entirely changed. It is always a four-digit figure, the first digit of which indicates whether the budget covers payroll, income, or supplies, expense and equipment budgets as follows:

- | | |
|--|--|
| 1. Payroll budget | 6. Special Supplies, Expense and Equipment |
| 2. Supplies, Expense and Equipment | 7. Income creditable to 6 |
| 3. Income creditable to 2 | 8. Special Supplies, Expense and Equipment |
| 4. Special Supplies, Expense and Equipment | 9. Income creditable to 8 |
| 5. Income creditable to 4 | |

Numbers 4 to 9 are provided for departments having one or more special budgets.

The last three digits of the "Budget Number" indicate the fund to which the budget belongs, such as:

- | | |
|----------------------------|-------------------------------|
| 100 Support Fund | 404 Soils Investigations |
| 200 Adams Fund | 500 Service Enterprises |
| 201 Hatch Fund | 501 Intercollegiate Athletics |
| 400 Agricultural Extension | |

(A complete list of funds is contained in 1931-32 Printed Budget.)

For example a payroll budget on Support Fund will be "Budget Number" 1100 and a supply budget on Support Fund would be "Budget Number" 2100, while a supply budget on the Hatch Fund would be "Budget Number" 2201. It is obvious from the above statement that such budgets as 1100 and 2100 may be found in nearly every department and therefore are not by themselves sufficient identification of an account. Both "Department Number" and "Budget Number" must be used, the "Department Number" being stated first and "Budget Number" second. Forms for requisitions, authorizations, invoices, cash receipt vouchers, journal vouchers, and transfers of funds are being changed to cover the above arrangement and will be available at the General Storehouse. In the meantime the old forms can be used, by entering both the "Department" and "Budget" numbers in the space formerly used for Budget. For example, Department 2216 Budget 2100 may be written in the budget space as 2216-2100, the Department number always being written first. In connection with payroll transactions it has been customary to require the following information: payroll item number, department number *and fund number*. From July 1, 1931, it will be changed to payroll item number, department number *and payroll budget number*. The payroll budget number is given at the top of each payroll and each page in the printed budget.

Summer Session

The summer quarter budget, divided between the first and second terms, is included in the printed budget this year in the same manner as other departments and colleges of the University. Any changes in the printed budget will require the usual President's forms for appointments, resignations, transfers, or salary adjustments. The payroll covering each term should be prepared in sufficient time so that the checks may be ready for delivery on the last day of each session.

REVENUE**From State Funds**

The year 1931-32 is the first year of the 1931-33 Biennium. The legislature provided an appropriation of \$3,275,000 for each year of this biennium. This is an increase of \$50,000 from this source for 1931-32 over 1930-31, but only \$25,000 over the year 1928-29.

The Millage tax estimate has been decreased \$10,000 over last year.

The legislature increased the appropriation for hospital maintenance \$15,000 a year for the 1931-33 Biennium. The University will therefore receive \$165,000 this year from the state and \$165,000 from county reimbursements.

Other special appropriations of the legislature as shown below make a net increase of \$153,000 from State Funds.

From Federal Funds

The net increase in Federal Funds amounts to \$14,089 for the year 1931-32. The Co-operative Extension Fund is a new Federal appropriation amounting to \$25,000.

The decrease in the Smith-Lever, Supplementary Smith-Lever, and Capper-Ketcham Funds amounts to \$10,611. This decrease in these funds is due to a redistribution of federal funds among the several states, which distribution is based on relative rural populations.

The total increase in income from the University itself amounts to \$49,573. Included in this is an increase in the estimate of Student Fees of \$10,000, and an increase in the estimate of Hospital income of \$5,000. The estimate of the Permanent University Fund interest has been increased \$20,000.
