GENERAL

The 1933-34 budget has been prepared along the same general lines that have been followed at the institution for the past twenty years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1933, and ending June 30, 1934.

In order to prepare the reports required for proper administration of the University, it has been found necessary to change the method of numbering accounts. Beginning July 1, 1931, all financial transactions have carried two account numbers, the first of which is known as the "Department Number" and identifies the department concerned. The second is known as the "Budget Number" and indicates which of the department's budgets is affected. This identification is uniformly used whether the transaction affects payroll items, supply, expense and equipment budgets, or income budgets. The "Fund Number" formerly used in connection with payroll is discontinued, being replaced by the payroll "Budget Number." The "Department Number" is, in most cases, the same as that which has been used in connection with payroll for several years. The "Budget Number" is entirely changed. It is always a four-digit figure, the first digit of which indicates whether the budget covers payroll, income, or supplies, expense and equipment budgets as follows:

- | | |
|--|--|
| 1. Payroll budget | 6. Special Supplies, Expense and Equipment |
| 2. Supplies, Expense and Equipment | 7. Income creditable to 6 |
| 3. Income creditable to 2 | 8. Special Supplies, Expense and Equipment |
| 4. Special Supplies, Expense and Equipment | 9. Income creditable to 8 |
| 5. Income creditable to 4 | |

Numbers 4 to 9 are provided for departments having one or more special budgets.

The last three digits of the "Budget Number" indicate the fund to which the budget belongs, such as:

100 Support Fund	404 Soils Investigations
200 Adams Fund	500 Service Enterprises
201 Hatch Fund	501 Intercollegiate Athletics
400 Agricultural Extension	

(A complete list of funds is contained in 1933-34 Printed Budget.)

For example a payroll budget on Support Fund is "Budget Number" 1100 and a supply budget on Support Fund is "Budget Number" 2100, while a supply budget on the Hatch Fund is "Budget Number" 2201. It is obvious from the above statement that such budgets as 1100 and 2100 may be found in nearly every department and therefore are not by themselves sufficient identification of an account. **Both "Department Number" and "Budget Number" must be used, the "Department Number" being stated first and "Budget Number" second.** Forms for requisitions, authorizations, invoices, cash receipt vouchers, journal vouchers, and transfers of funds have been changed to conform to this arrangement and are available at the General Storehouse. In the meantime the old forms can be used, by entering both the "Department" and "Budget" numbers in the space formerly used for Budget. For example, Department 2216 Budget 2100 may be written in the budget space as 2216-2100, the **Department number always being written first.** In connection with payroll transactions it has been customary to require the following information: payroll item number, department number *and fund number.* From July 1, 1931, it has been changed to payroll item number, department number *and payroll budget number.* The payroll budget number is given at the top of each payroll and each page in the printed budget.

At the meeting of the Board of Regents on June 2, 1928, the following salary schedule and classification of persons in the secretarial, clerical, and stenographic service of the University were approved:

I. For those just entering university service:

	1st Yr.	2nd Yr.	3rd Yr.	4th Yr.	5th Yr. and After
Class 1.....	\$ 780	\$ 840	\$ 900		
Class 2.....	840	900	960		
Class 3.....	960	1,020	1,080		
Class 4.....	960	1,020	1,080	\$1,140	\$1,200
Class 5.....	1,020	1,080	1,140	1,200	
Class 6.....	1,200	1,260	1,320	1,380	
Class 7.....	1,380	1,440	1,500	1,560	
Class 8.....	1,500	1,600	1,700	1,800	

NOTE 1.—The above salaries are maximum. It is allowable for officials to engage persons at a lower salary than above stated in case a person is engaged who is not well prepared for the work and must be expected to grow into the position.

NOTE 2.—The above salaries are not guaranteed except upon recommendation of the head of the department concerned. The object of the schedule is to guarantee to department heads the approval of the higher salary if they recommend it but it is understood that it will not be recommended unless the work of appointee is satisfactory.

II. For those promoted from a position in one salary classification to a higher classification.

When a position is filled by the promotion of a person from a position of lower classification, the salary will be that indicated for the first year in the table above except where that figure is the same or less than the person is receiving in the lower classification. In such case, the person will be granted an increase of \$60 per year in salary when accepting the new position.

III. The year of service in the above schedules means the fiscal year from July 1 to July 1.

Provided a person employed from as early as November 1 will be regarded as having rendered a year of service by the following July 1st. Those employed after November 1st will not be qualified for advance in salary until the second succeeding July 1st, unless special exception is made for them at the time of their employment.

REVENUE

From State Funds

The year 1933-34 is the first year of the 1933-1935 biennium. For general support from state funds there is available \$563,000 less than for 1932-33. The legislature appropriated for 1933-34 \$2,800,000 or \$475,000 less than for each of the two previous years, and the 23/100 Mill Tax and Swamp Land Interest were estimated at \$88,000 less than these previous years.

For special purposes the legislature decreased the appropriations for 1933-34 over 1932-33 by \$176,280. The detail of these reduced appropriations is shown in the schedule below.

The total reduction from all state appropriations is \$739,280 or 55 per cent of the total reduction made in the 1933-34 budget over the previous year.

From Federal Funds

In 1932-33 the Federal government appropriated \$365,916 to the University. As a result of the rigid economy measures instituted by the government, 44 per cent of the aggregate amount received last year from federal funds was cut 25 per cent or \$40,278, as shown in detail below.

From University Income

The total decrease in University income such as student fees, miscellaneous sales, hospital receipts, etc., amounts to \$241,745. Approximately \$162,000 of this decrease is from reduced tuition fees in the Regular and Summer Sessions and in the General Extension Division. The decreases from each of all these miscellaneous sources of income are shown in detail in the following schedule.

EXPENDITURES

The income of the University from practically every source for 1933-34 has been drastically reduced. As shown in the preceding schedule this total decrease amounts to \$1,354,038, or a 16 per cent decrease over the previous year.

To meet this reduced income of over one and a third million dollars, it was necessary to curtail expenditures drastically. This curtailment was effected as follows:

A general salary reduction to go in effect July 1, 1933 was approved by the Board of Regents on May 9, 1933. This plan of reduction exempted the first \$1,200 of each salary, a 10 per cent reduction on the second \$1,200 or portion thereof, a 15 per cent reduction on the third \$1,200 or portion thereof, and a 20 per cent reduction on all salary above \$3,600.

This salary reduction along with the elimination of vacant positions and the reduction of miscellaneous items and other salary adjustments reduced the expenditures by \$802,132 or approximately 60 per cent of the reduced income.

The remaining necessary reduction of 40 per cent, or \$551,906, was effected in supplies, expense, and equipment items.
