GENERAL

The 1951-52 budget has been prepared along the same general lines that have been followed at the institution for the past thirty-seven years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1951, and ending June 30, 1952.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four-digit number and is assigned to the departments in order as shown in the Budget Index on page Index 69. The "Budget Number" is also a four-digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, Physical Plant, and Trust Fund departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For Service Enterprise Departments, the first digit of the "Budget Number" is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in Fund Index on page Index 65.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for Service Enterprise Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with the "Class Specifications for Positions in the Classified Service" which were revised July 1, 1945, together with subsequent amendments printed and distributed to all departments of the University. All appointments and adjustments made during the year must conform to these specifications.

REVENUE

The total available funds received from the State for general maintenance for the year 1951-52 totaled \$14,136,654, an increase of \$1,935,820 over 1950-51. The rapid increase in the cost of living made necessary cost-of-living adjustments for both Academic and Civil Service staff. The rise in the commodity index for supplies used in teaching, research, and maintenance was only partially covered by a 10 per cent increase granted to departments over the 1950-51 budget allotment. The Regents in planning the 1951-52 budget were faced with the following problems: Loss of revenue caused by a declining student enrolment, particularly veterans; commitments to pay Civil Service employees a five-step cost-of-living adjustment in addition to the normal merit increase; and increased supply, expense, and equipment costs. The deficit caused by these commitments was to be borne by staff and activities reductions and tuition increases.

The staff and activities reduction was to be borne by both academic and nonacademic activities. All departments shared in an across-the-board reduction in the relation that their total budgeted salaries and wages bore to the total budgeted salaries and wages of the University. Furthermore, academic departments only were allotted a further reduction based on weighted credit-hour decreases from the peak reached after the war. It was this weighted credit-hour formula which was used when funds were allocated during the period of expansion following the war, and it was felt by the Administrative Committee that this should be the basis for retrenchment.

The following fee changes were recommended by the Fee Committee, and will be made effective fall quarter, 1951:

1. All Academic appointees giving 25 per cent or more of full-time service, and all full-time Civil Service appointees, when enrolled in the Graduate School be required to pay tuition at the Graduate School resident rate regardless of source of funds, resident status of curriculum pursued.
2. All Academic appointees giving 25 per cent or more of full-time service, and all full-time Civil Service appointees, when enrolled in the final year of a Master's degree curriculum in an undergraduate college be required to pay tuition at the respective college resident rate regardless of source of funds or resident status.
3. The present credit-hour rates for the Graduate School were eliminated and that:
 - a. All students carrying 6 credits or less will be required to pay one-half tuition.
 - b. All students carrying more than 6 credits will be required to pay full tuition.
4. An increase of \$25 per quarter for nonresident fees in all colleges was made.
5. An increase of \$3 per quarter was made in the resident fee of all colleges.

The changes in budgeted revenue are as follows:

For General Purposes—Unrestricted

The funds for general purposes—unrestricted increased \$1,288,604 over 1950-51. This is composed of the following: Increase in Maintenance and Mill-tax appropriation, \$1,944,565; decrease in student fees, \$694,067; and increase in Permanent University Fund interest, \$38,106.

For Special Purposes—Restricted

The University appropriations for special purposes include the University Hospitals and various appropriations for research and public service. The Hospitals appropriation for 1951-52 is \$1,095,864, an increase of \$242,779 over 1950-51. Psychopathic Hospital maintenance increased from \$179,835 in 1950-51 to \$216,956 in 1951-52, an increase of \$37,121. Appropriations for special research and public service totaled \$1,034,500, an increase of \$153,000 over the 1950-51 total of \$881,500.

The 1951-52 Federal Government appropriation totals \$1,282,213, an increase of \$46,868 over the 1950-51 appropriation.

University-dedicated income from all funds for instructional purposes increased \$137,188 in the 1951-52 budget. This includes a decrease in instructional Trust Funds totaling \$16,965.

The net increase in general funds from all sources for Administration, Teaching and Research, Extension and Maintenance totals \$1,905,560.

For Special Purposes—Noneducational

Funds budgeted for noneducational purposes include Service Enterprise funds, Revolving funds, and Trust funds. These are mainly revolving and self-balancing funds which because of their nature are not adaptable to a printed budget. These funds increased \$81,300 in the 1951-52 budget.
