The academic year has now arrived when the students are expected to be on the campus. A number of the teaching assistants are now in the process of preparing to frame a general course of study which is to be presented to a meeting of the general faculty for discussion and advice.

The current rate for skilled catalogers is $60 per month. Owing to the increasing work of the Library demands a library staff which is more adequate in numbers and in training than we have at present. We are to develop a library at all commensurate with the resources for book purchase, and for a trained and permanent staff.

The following report of the special committee appointed to consider the request of the District of Columbia to confer an honorary degree upon the late President, Washington, is now on the agenda. We believe that it is inexpedient for the University to confer an honorary degree upon such a distinguished statesman and stateswoman as President Washington.
