RECESSIONAL	

Following the program, graduates and guests are invited to a reception on the fifth floor of Unit F.

Significance of the School Pin

This pin has been the symbol of our School of Nursing since September of 1913. The antique lamp represents the metaphysical sciences. The telescope represents the physical sciences. The plow represents the industrial arts. The artist's palette represents the fine arts. These are the four dimensions of a baccalaureate education. The crosses above and below are St. George's crosses, which have stood for "unselfish service" for centuries. We are proud of this 70 year heritage.

The University of Minnesota School of Nursing graduating class of 1987 would like to thank the nursing faculty, our families and friends, and each other for encouragement, support and love through our college career. We appreciate your influence through this milestone, and we are truly grateful that you can share this happy occasion with us.
