May 4, 2007

Congratulations to all the members of the University of Minnesota Medical School Class of 2007. Today you will be receiving your doctoral hoods and entering the second phase of your education as a physician. Soon you will be starting your residencies, whether here in Minnesota or across the country. You have all worked very hard to get to this point in your academic careers, aided in no small part by the dedication and devotion of your families, partners, and friends.

You will be heading into many different careers in medicine, from specialty practice to primary care and from practice in small rural communities to large academic medical centers. However, wherever you go and whatever your specialty, you will be connected by the mission of the medical profession that connects us all. You will be engaged in some way in improving the lives of patients through diagnosing, treating, and preventing disease. You will see many changes in the way medicine is practiced and in what we know about human health and disease during the years of your practice. So, the commitment to learning you possessed long before you started medical school must continue to guide your practice throughout your careers.

You also will be guided by the traits that have characterized medicine from its inception; namely to insure the welfare of your patients, to exhibit compassion, and to remember that the communication between doctor and patient is the highest form of the art of medicine. The Hippocratic Oath (Modern Version), which you will recite today, should be your guide as you meet the health-care needs of an increasingly diverse society.

Today you will receive your doctoral hoods. The colors of the hoods that you will receive today, maroon and gold, represent the University of Minnesota Medical School and the proud traditions of medicine here that we pass on to our graduates. The green velvet symbolizes the medical profession.

On behalf of all of the faculty and staff of the University of Minnesota Medical School, I would like to say that we wish you well and congratulate you on your very significant achievements. We are extremely proud of you and of all that you have accomplished. Wherever you go in your medical careers, you will always be part of Minnesota medicine. We will welcome you back at any time to visit with us. You represent the future of medicine. We know that, because of you, the future of medicine in this country is very bright indeed.

Sincerely yours,

Deborah E. Powell, M.D.
Dean of the Medical School
Assistant Vice President for Clinical Sciences

OATH FOR NEW PHYSICIANS

As a physician, I solemnly promise to use my skill and compassion to practice medicine to the best of my ability.

I accept earnestly the responsibility of caring for my patients; I will do so with kindness and understanding.

I will listen with empathy and respond with honesty to the concerns we share. What occurs between us will be confidential.

I will strive to be an educator of my patients, my colleagues and myself. I will honor my profession, seeking to improve it both by scholarly inquiry and thoughtful consultation.

I humbly recognize my limitations and my need for the knowledge, support and inspiration of others.

I will endeavor to alleviate suffering and to honor and value life even though I realize that death is not always the enemy.

My primary responsibility is to my patients and I will treat them with dignity and respect.

In the presence of my teachers, my family, and my friends I make these promises solemnly and freely. With this oath I willingly assume the rewards and responsibilities of a physician.

Administered to the Graduating Class
