Order of Events

Prelude Concert

From 12:30 p.m. to 1:00 p.m., music is provided by Dean Billmeyer, D.M.A., Associate Professor of Music and University organist.

Processional

Prelude and Fugue in G Major, BWV 541 J.S. Bach
Adagio in G Minor Tomaso Albinoni
Rhosymedre R. Vaughan Williams

At 1:00 p.m., the macebearer and the United States flag marshal march onto the stage, heralding the arrival of the academic procession of candidates. In the procession are administrators, faculty, distinguished guests, and regents. The order of the march of candidates is as follows:

Doctor of Philosophy	Master's Degree
Doctor of Education	Post-Baccalaurate Certificate
Doctor of Musical Arts	

Crown Imperial March William Walton
March from *The Birds of Aristophanes* Charles Hubert Hastings Perry

The National Anthem

As soloist Brian Rush-Williams steps to the microphone, the entire audience will stand and join in singing the national anthem:

O, say! can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming,
Whose broad stripes and bright stars, thro' the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
O, say does that star-spangled banner yet wave
O'er land of the free and the home of the brave?

Speaking for the University

Victor Bloomfield, Ph.D., Vice Provost for Research and Interim Dean of the Graduate School

Introduction of the Honorary Doctorate Recipient

Dean Bloomfield

Presentation of the Honorary Doctorate

Dr. John Gulliver, Professor and Head, Department of Civil Engineering and Dr. Andrew Drescher, Professor, Department of Civil Engineering, will present the degree of Doctor of Science, *honoris causa* to Zenon Mróz. Dr. Mróz holds an M.Sc. degree from the Warsaw University of Technology and Ph.D. and D.Sc. degrees from the Institute of Fundamental Technological Research, Polish Academy of Sciences, Warsaw. The honorary doctorate from the University of Minnesota recognizes Dr. Mróz's contributions to knowledge through authorship of seminal publications in applied mechanics of solids and structures, particularly in the area of constitutive modeling of materials, optimal design, and sensitivity analysis of structures.

Conferring of the Honorary Doctorate Degree	Regent Maureen K. Reed
Introduction of Commencement Speaker	Dean Bloomfield
Commencement Address	“Not Everything That Can Be Counted Matters.” Dr. Ronald Phillips, Regents Professor, Department of Agronomy and Plant Genetics; McKnight Presidential Chair in Genomics; Director of the Center for Microbial and Plant Genomics
Presentation of Candidates for Post-Baccalaureate Certificates and Master’s Degrees	Associate Dean of the Graduate School Shirley Nelson Garner, Ph.D., will present the candidates for post-baccalaureate certificates, professional master’s, master of science, and master of arts degrees to Dean Bloomfield and the audience. All the candidates will proceed across the stage as they are presented.
Presentation of Candidates for Doctoral Degrees	Associate Dean of the Graduate School George Green, Ph.D. will present the candidates for the degrees of Doctor of Education, Doctor of Musical Arts, and Doctor of Philosophy to Dean Bloomfield and the audience. Each new doctoral candidate will be hooded.
Conferring of Degrees	Regent Reed will confer certificates and degrees upon the candidates.
Closing Remarks	Dean Bloomfield
Hail! Minnesota	The audience will rise and join in singing the University’s alma mater: Minnesota, hail to thee! Hail to thee, our college dear! Thy light shall ever be A beacon bright and clear; Thy sons and daughters true Will proclaim thee near and far; They will guard thy fame And adore thy name; Thou shalt be their Northern Star.
Recessional	The graduates will leave their seats. The audience is requested to remain seated until those in the academic procession have marched out. Toccata, from Symphony V Charles-Marie Widor
Commencement Reception	The commencement reception in the lobby of Northrop Memorial Auditorium immediately follows the ceremony. All candidates and their guests are invited.

The Academic Costume

Academic gowns date back to the 14th century, when they served two functions of nearly equal importance: to indicate the academic rank of the wearer and to keep the scholar warm in the drafty stone halls of academia.

The markings, cut, and colors of the modern-day academic costume—cap, gown, and sometimes hood—indicate the academic degree, the field of study, and the institution that granted the degree.

Master's gowns, black and untrimmed, have pointed sleeves. Doctor's gowns in the United States traditionally have been black with velvet front facings and crossbars on the sleeves, but in recent years a number of universities have adopted gowns of distinctive school colors.

A new University of Minnesota Ph.D. gown and matching tam made their appearance in 1988 to celebrate the centenary of the first Minnesota doctor of philosophy degree. The new Minnesota gown is maroon, trimmed with black velvet chevrons and gold metallic braid. The traditional gown may still be worn.

The Minnesota hood, which may be worn by anyone with a doctoral degree from the University of Minnesota, is black with a maroon chevron on gold. Each institution has its own pattern of colors on the hood, worn around the neck and down the back of the gown. The length and shape of the hood identify the most advanced degree the wearer has earned, and the velvet edging shows the field: blue for doctor of philosophy, light blue for doctor of education, and pink for the doctor of musical arts.

At commencement ceremonies hoods are worn by those who already have the doctoral degree. Degree candidates wear gowns appropriate for the degree they are about to receive, and new doctorates are hooded on stage.

The Mace

The University of Minnesota mace was carried for the first time in 1961 by Regents Professor of Physics Alfred O.C. Nier at the inauguration of President O. Meredith Wilson. Art professor Philip Morton designed the mace: a crystal sphere four inches in diameter surmounted by the North

Star, symbol of the state of Minnesota, on a solid aluminum handle set with the University regents seal.

The Northrop Organ

Built in 1932-1935, the Northrop Auditorium Organ, Æolian-Skinner Op. 892, is located above the auditorium's stage and behind the proscenium, and is played from a four-manual console located in the orchestra pit. Containing 80 independent stops and 108 ranks of pipes, the Northrop Organ is one of the finest extant examples of a late-romantic concert organ by the premier manufacturer of its era.

In 1999, the Northrop Organ received a Special Citation from the Organ Historical Society. The Society's citations program has been likened to the National Register of Historic Places. The citation of the Northrop Organ reflects the increased awareness of the importance of organs of this vintage that have remained intact and tonally and technologically unaltered.

Persons interested in events that feature the Northrop Organ may contact the Friends of the Northrop Organ, c/o the School of Music, University of Minnesota, 2106 Fourth Street South, Minneapolis, Minnesota 55455.

Northrop Memorial Auditorium

Northrop Memorial Auditorium, completed in 1929, was built to hold the entire student body of the 1920's. Since then, this 4,800-seat auditorium continues to fulfill its original purpose as a center for the arts and student life. From music and theatre performances to graduation ceremonies, Northrop has played a vital role in the history of the University. The inscription on the façade of Northrop was written by former Graduate School dean and University of Minnesota president Guy Stanton Ford. Capturing the mission of the University, the inscription reads:

*Founded in faith that men are ennobled by
understanding
Dedicated to the advancement of learning and
the search for truth
Devoted to the instruction of youth and the
welfare of the state.*

The University of Minnesota

The University of Minnesota, ranked among the nation's top public universities, reflects the commitment to education of a state that is only 20th in population. It is almost alone among universities in the United States in its combination of three characteristics: an international research university, a land-grant institution with a strong tradition of education and public service, and a metropolitan academic community.

The Twin Cities campus, the University's largest campus, is made up of 20 colleges and offers the full range of academic and professional degrees. A comprehensive campus in Duluth offers undergraduate and graduate programs. The Morris campus offers a four-year liberal arts program. Crookston offers associate and baccalaureate degrees in technical, career-oriented programs. Through the University of Minnesota Extension Service, the University is present in each of Minnesota's 87 counties.

The University is the primary center in Minnesota (and parts of the surrounding region) for instruction and research in the health sciences, law, engineering, agriculture, and forestry: it offers all of the graduate-level programs in these fields.

When the University was founded as a preparatory school in 1851, Minnesota had been a territory for just two years, and statehood was still seven years away. The school was built on not much more than the pioneers' faith in education. The University struggled financially in its early years and was forced to close during the Civil War. It reopened in 1867.

Two students received bachelor of arts degrees at the first commencement in June 1873. Since then, the University has granted more than 600,000 degrees. Students earn undergraduate and graduate degrees in more than 370 fields of study.

The Duluth campus joined the University in 1947, the Morris campus opened in 1960, and the Crookston campus in 1966. Enrollment in Fall 2003 was 63,769 on all four campuses. Enrollment was 49,474 on the Twin Cities campus, 10,114 at Duluth, 1,861 at Morris, and 2,320 at Crookston.

University alumni include seven Nobel Prize winners (most recently Daniel McFadden, Ph.D., '62, economics), a former chief justice of the United States, two former vice presidents, the heads of Fortune 500 companies, pioneers in medicine, civil rights leaders, top journalists, and men and women who have achieved distinction in every field.

Alumni and their families and friends are always welcome at the University. Alumni are invited to continue their relationship with the University through the University of Minnesota Alumni Association and its college groups.

The Graduate School

Before 1900, only a handful of American universities had graduate schools to promote, coordinate, and integrate graduate education on their campuses. The University of Minnesota joined the growing movement in 1905 when the regents established the Graduate School as a separate college and named University engineering professor Henry T. Eddy to the deanship. Eight years later, Guy Stanton Ford, a historian and future University of Minnesota president, was named dean. Ford envisioned a community of scholars unified by a single administrative voice. Believing that graduate education begins with able faculty skilled as investigators in the field, Ford worked to attract some of the best teachers and researchers to Minnesota. He obtained funding for research, libraries, laboratories, and financial aid for graduate students. When he left the deanship in 1938, the organizational structure and traditions that today govern graduate education at the University of Minnesota had been established.

The adaptability and flexibility of Ford's legacy became apparent in the 1940s when World War II transformed America's view of the world—and of education. Thousands of returning service men and women took advantage of the GI Bill to come to the University of Minnesota. Although the initial wave of students primarily affected undergraduate education, by 1950 some 6,000 graduate students called the University home. Between 1940 and 1960, the University awarded more than 3,000 doctoral degrees, three fourths of the total number of Ph.D.'s granted up to that time.

Today the Graduate School has more than 3,300 faculty members and more than 10,000 students and offers degrees in approximately 150 fields.
