A MESSAGE FROM THE PRESIDENT

Having now passed my first anniversary as President of the Minnesota Medical Foundation, I have a heightened appreciation of the work the Foundation does. Eivind Hoff, Executive Director, and Tom Patterson, Assistant Director, have done an excellent job of keeping me informed. The copies of correspondence alone overwhelm.

The Foundation offices in Powell Hall buzz with activity. Financial counseling for medical students is an ongoing service. Faculty members are in and out to discuss research grants. I have had the pleasure of personally handing research grant checks to investigators who express nothing shy of elation over finding support for their projects in these times of tight money.

The Foundation has developed a host of friends — students, faculty, medical alumni of the University of Minnesota and supporters of medical education everywhere. MMF continues to earn a respected place on the medical scene in Minnesota.

MMF’s fiscal year ended June 30, 1971, is reviewed in this issue of the Medical Bulletin. The statements of income and expenditures don’t nearly tell the full story. All of the Foundation’s activities are attended to by volunteers, assisted by our full-time staff of four.

This has been another banner year of increased service to the Medical School. There is a great deal yet to be done and a growing responsibility to all of you who have answered our calls for help. To all of MMF’s friends, I express my personal thanks.

John W. Frost
President
MMF ANNUAL MEETING

Nearly 100 persons attended the 33rd Annual Membership Meeting of the Minnesota Medical Foundation Oct. 27 in St. Paul. Dr. Robert A. Good was guest speaker (see back cover).

PRESIDENTS HONORED
Seven of the eight living past presidents attended the meeting and received special recognition. MMF's first president, Dr. Erling S. Platou is deceased. The second president, Dr. Owen H. Wangensteen, was unable to attend. All other past presidents and their wives attended. They are, in the order they served: Dr. Wesley Spink, Dr. Herman E. Drill, Dr. Arnold Lazarow, Dr. Corrin H. Hodgson, Dr. Vernon D. E. Smith, Dr. Karl W. Anderson, and M. E. Herz.

TRUSTEES
Seven new Trustees were elected and two Trustees whose terms expired this year were re-elected. The new Trustees are, in alphabetical order: Paul J. Alexander, M.D., Hibbing pathologist; Reuben Berman, M.D., Minneapolis internist; Carl B. Heggstad, M.D., professor of anatomy at the University of Minnesota; William O. Nord, associate director of investment research and assistant vice president of Investors Diversified Services; Richard L. Varco, M.D., professor of surgery; James A. Watson, president of Gamble's, and C. Paul Winchell, M.D., professor of medicine.

Lewis W. Lehr, vice president for medical products, 3M Company, and Harold Van Every, insurance planning consultant, The Banker's Life, were re-elected. All were elected to four year terms.

The Minnesota Medical Foundation extends special thanks to outgoing Trustees Dr. O. M. Heiberg, M. E. Herz, Dr. Charles Neumeister, Dr. Charles Sheppard, Dr. H. P. Van Cleve, T. R. Anderson, and Dr. Elizabeth Lowry.

Other current Trustees are listed below, alphabetically and by term expiration:

Terms Expire 1972
Wallace D. Armstrong, M.D., Dennis J. Kane, M.D., Fred Kolouch, M.D., Donn Mosser, M.D., John S. Najarian, M.D., E. B. Osborn, John F. Perry, Jr., M.D., Arthur E. Sethre, M.D., Francis B. Tiffany, M.D.
At left, Dr. and Mrs. R. J. Leiferman and daughters Kristin, far left and Wendi. At right, Dr. and Mrs. Robert W. Gibbs.

(L-R) Dr. Frank S. McKinney, Dr. Henry Bakkila, Dr. Sol Austrian, Dr. Edward L. Strem, Dr. R. J. Vacarella and Dr. Richard E. Sand.

Mrs. Mead Cavert and Dr. Frank S. McKinney.

(L-R) Dr. and Mrs. Michael Koch, MMF Past President Dr. Arnold Lazarow, Mrs. Lazarow, Dr. Donald B. Wetlaufer.
MMF Past Presidents
Dr. H. E. Drill, left, and Dr. Wesley W. Spink, with Mrs. Spink.

Clockwise from Dr. Wesley Spink (center, facing camera), Dr. Davitt Felder, Mrs. Spink, Dr. B. J. Kennedy, Mrs. Felder.

(L-R) Dr. O. M. Heiberg, Dr. Elmer Paulson, Dr. D. E. Nealy.

(L-R) Dr. John Najarian, MMF Vice President; Donald Jondahl, Treasurer; Mrs. Eivind Hoff, Dr. Robert A. Good, Eivind Hoff, Executive Director of MMF, and Dr. John W. Frost, President.
MMF'S 1971 ACHIEVEMENTS AT A GLANCE

Student Aid
Medical students of the University of Minnesota continue to be a focal point for much of the activity of the Minnesota Medical Foundation. For the year ended June 30, 1971, a total of $109,850 in MMF Scholarships were granted to 133 medical students. The five-year picture for Scholarships looks like this:

<table>
<thead>
<tr>
<th>Year</th>

<tr>
<td>67</td>
<td>64</td>
<td>$34,200</td>
</tr>
</tbody>
</table>

Students have made good use of other MMF programs, including financial counseling, loans, and research grants. In 1971, students again relied heavily on the loan programs of MMF to help them over financial emergencies. A total of 262 short-term loans worth $55,377 were issued last year. None were lost. The average loan was $250 for 90 days. No interest or carrying charges were levied. Since inception of the Emergency Loan Fund in 1959, 2460 loans totalling $429,065 have been processed.

Research
MMF's total outlay for faculty and medical student research projects in the year ended June 30, 1971, reached $351,410. A portion of that amount, $58,870, was in the form of a 10-year, no-interest loan to help equip research laboratories for the University's department of OB-GYN.

Minority Aid Programs
When the Medical School began its minority student program three years ago, the Minnesota Medical Foundation was there to help with $3,000 in aid for each of two students on the program. The program grew and MMF provided $26,300 toward its support last year, all raised by MMF from outside sources. The Board of Trustees of the Foundation has already gone on record guaranteeing a minimum of $20,000 in support of the program for the current year. There are now a total of 23 minority students in the Medical School.

Career Opportunities in the Health Sciences (COHS) is a special program to draw talented minority high school students into health science careers. Students are given health science counseling by Medical School faculty and students and are paid a stipend for summer work in the University's medical research laboratories. A total of 29 students were involved in the program this past year. MMF contributed $7,110 to support of the COHS program for the past year. There is already evidence that the program is successful. COHS started with six students. Five of the six were still in the program this past year. One was enrolled at the University of Minnesota. Three started at the University this fall. One entered pre-med at Dartmouth on scholarship.

Membership
Centurion Club Memberships ($100-A-Year) accounted for $35,585 of MMF's income for 1971, compared with $5,900 in 1970. Total membership was down 205, from 1606 in 1970 to 1401 in 1971. However, dollar income from memberships was up $18,849, from $44,570 in 1970 to $63,419 in 1971, due to the swing to Centurion giving.

Faculty and Student Awards
Two Distinguished Teaching Awards were conferred on faculty members chosen in a medical student poll, with $1,000 cash honoraria. This program was conducted jointly by MMF and the Minnesota State Medical Association. The 1971 winners were Dr. Richard Popplele, associate professor of physiology, and Dr. Robert W. ten Bensel, associate professor of pediatrics. They were the 17th and 18th recipients of the award.

1971's Most Promising Clinical Practitioner Award of $250, by poll of the senior class, to Darrell L. Carter.

1971's Student Research Award of $500, by faculty selection, to John Repine.

1971's Cyrus P. Barnum Jr. Memorial Teaching Award, with $400 honorarium, for the outstanding young teacher in biochemistry, to William E. Brown.

1971's C. J. Watson Award with $500 honorarium from the Minneapolis Society of Internal Medicine, for the outstanding research paper by a resident or fellow in any clinical department, to Russell F. Hanson.

Publishing
Circulation of the Medical Bulletin, published by the Minnesota Medical Foundation for the benefit of the Medical School and the Minnesota Medical Alumni Association, was enlarged to include all physicians in the state of Minnesota, whether or not they are alumni of the University's Medical School.

Totals
The Minnesota Medical Foundation reported total income of $667,717 for the year ended June 30, 1971, $411,939 from gifts and $255,778 from investment earnings. Total expenditures were $730,835, including $74,144 for administration of all programs and services of the Foundation.

The Minnesota Medical Foundation now has 276 written pledges promising more than $250,000 in future funds for student aid through the SCHOLARSHIP APPRECIATION FUND. All pledges are from former scholarship recipients who have promised to restore scholarship funds they were once awarded by the Foundation, in order to guarantee the future of the Foundation's financial aid programs for medical students. About $30,000 in cash donations have been received for this fund. The goal is reacquisition of more than half a million dollars in scholarship aid distributed since the student aid programs were initiated in 1949.

The Minnesota Medical Foundation gratefully acknowledges the pledges and cash gifts of the following alumni:

From left, Dr. William C. Bernstein, Dr. John C. Grant, Dr. Henry Quist.

431 ATTEND MEDICAL REUNION

The October 22 Minnesota Medical Alumni Reunion Banquet at the St. Paul Hilton was the biggest ever, with 431 attending.

The 1971 Harold S. Diehl Awards for 1971 were presented to William C. Bernstein and John C. Grant.

Dr. Bernstein was graduated from the Medical School in 1927. He is a respected national leader in academic proctology and member of the faculty of the University of Minnesota, where he teaches medical students and surgical residents. He has been a productive contributor to numerous investigations extending knowledge and enhancing practice in colon-rectal surgery.

Dr. Grant was graduated from the Medical School in 1942, and has had an active general practice in Sauk Center, Minn. for many years. He is also an accomplished church organist, choir master and leader in his community.

NEW BOARD MEMBERS

At the business meeting of the alumni reunion program, three new Minnesota Medical Alumni Association Board members were elected and three whose terms expired were re-elected. New Board members are Duane Engstrom, '57; John Nilsen, '57, and Lois Anselment, '62. Those re-elected were: Irving Bernstein, '42; George Janda, '47 and Ted Palm, '45.

CLASS OF '31

The class of 1931 held a special 40th anniversary reunion dinner in connection with the reunion of activities of the Minnesota Medical Alumni Association.

O. L. Norman Nelson was emcee at the gourmet dinner, which featured corn-fed wild duck from Canada as the main entree. Vernon D. E. Smith provided the game from one of his hunting expeditions, much to the delight of approximately 75 in attendance. Reminiscences of student life in the 1930's was entertainingly presented in slides and commentary by S. Lane Arey. Each class member present spoke briefly and Eivind Hoff conveyed greetings from the Medical School and the Minnesota Medical Foundation.

It was an evening of warm fellowship, ending on a pledge to meet again in 1981 for the 50th anniversary.
ALUMNI DEATHS
Clyde B. Abbott—1931
William A. Brand—1904
Died in Redwood Falls, Minn., where he had practiced medicine for 70 years. He was 95.
Paul G. Bunker—1928
Died at the age of 66 in Aberdeen, S.D., where he was an ENT specialist. In 1970 he won the Distinguished Service Award of the South Dakota State Medical Association.
Raymond W. Dowidat—1936
On the staff of V.A. Hospital in Saginaw, Mich. Died May 20, at 62, of bronchopneumonia and hemorrhage from gastrointestinal tract.
Lester E. Erickson—1924
Died at 71, April 24, in Boynton Beach, Fla., of cerebral artery thrombosis.
Clifford O. Erickson—1934
One of the founders of the Minneapolis Clinic of Psychiatry and Neurology. Died Oct. 25, after a long illness. He was 63. He was a past president of the Minnesota Psychiatric Society and was a clinical associate professor of psychiatry at the University of Minnesota.
Fred R. Farthing—1931
Died May 4, at age 65, of arteriosclerotic heart disease with pulmonary edema.
Charles W. Fogarty—1938
Specialist in internal medicine. Died in St. Paul, Minn.
Bruce W. Jarvis—1914
Died Jan. 18, at age 84, in St. Paul, Minn. Was a Methodist medical missionary in China and India.
Erwin T. Lietzke—1930
Died May 26 at age 65 of cancer of the pancreas. On the staff of McKennan Hospital in Sioux Falls. County health officer for years.
Joseph C. Michael—1913
Died in early September at Valley View Nursing Home, Jordan, Minn., at age 82. He was a specialist in psychiatry and neurology, a former clinical professor at the University of Minnesota.
George Alfred Miners—1920
Died April 11 in Las Vegas Sun-rise Hospital of arteriosclerotic heart disease, at the age of 76.
Nicolai F. Musachio—1938
Died in September at Foley, Minn., where he practiced for many years.
Henry B. Nactigall—1938
Former medical director of Pepsi-Co, Inc., died recently at age 56.
Richard P. Neary—1932
Died November 6 in Minneapolis at age 63. He had a private practice in Minneapolis for 38 years.
George Ernst Nelson Jr.—1949
Died Sept. 27 in Minneapolis of carcinomatosis. He was 46. He was an orthopedic surgeon in Minneapolis and was on the staff of Fairview and St. Mary's Hospitals. He was also an assistant professor of orthopedic surgery at the University of Minnesota.
Louis Odessky—1935
Died in New York June 5 of cerebrovascular accident at age 60. Certified by the American Board of Pathology. He was on staffs of the St. Clare's and Parkchester General Hospitals in New York.
Carl Andrew Peterson—1942
Died July 8 in California of heart failure at age 54. Certified by the American Board of Pathology. Served on the faculty of the University of Minnesota and at Stanford University School of Medicine, Palo Alto.
Joel L. E. Peterson—1927
Died Oct. 5 at the age of 75. He practiced all his life in St. Paul.
Samuel T. Sandell—1936
Died in Duluth Sept. 20 at 63.

2 RETIRED FACULTY DEATHS REPORTED
The recent deaths of Angus Laverne Cameron, 80, and Henry V. Hanson, 82, both former faculty members of the Medical School, have been reported to the Medical Bulletin.

Dr. Cameron was a member of the founders group of the American Board of Surgery. He died in Grand Forks, N.D., May 31.

Dr. Hanson, a native of Hutchinson, Minn., died in Tucson, Ariz.
Letters to the Editor

CORRECTIONS

To the editor:
I wish you would look at page 4 of the last issue of the Medical Bulletin. The contrived results for plasma calcium, phosphorus and alkaline phosphatase of a simulated patient are given along with the normal range of these three items in the plasma for patients of the age and sex of the illustrative case.

Unless I am very badly mistaken, the computer has badly slipped, or else the laboratory which reported the results is entirely undependable. It is possible that the results for the alkaline phosphatase and phosphorus have been interchanged, but I do not understand the blood calcium value of 115 with a normal range of 15 to 95.

I have been teaching for wrong circumstances with respect to the normal plasma concentrations and enzyme activities for these many years?

Yours Sincerely,
W. D. Armstrong
Professor and Head,
Department of Biochemistry
University of Minnesota

Editor's Note:
Alas, to err is human and neither the computer nor the laboratory can be faulted. Of course, Dr. Armstrong is right. In setting the story in type, the order of the tests, but not the values, was inadvertently jumbled. To correct, reschedule the tests to put calcium first, phosphorus second and alkaline phosphatase last, as follows:

<table>
<thead>
<tr>
<th>TEST</th>
<th>VALUE</th>
<th>NORMAL FOR AGE AND SEX</th>
</tr>
</thead>
<tbody>
<tr>
<td>CALCIUM</td>
<td>10.7</td>
<td>8.1 - 10.1</td>
</tr>
<tr>
<td>PHOSPHORUS</td>
<td>2.0</td>
<td>2.2 - 3.9</td>
</tr>
<tr>
<td>ALK PTASE</td>
<td>115.0</td>
<td>15 - 95</td>
</tr>
</tbody>
</table>

Telegram to Alumni Reunion:
Best wishes to Class of '46 for another reunion at our 50th. Terribly sorry not to be with you. Somebody please take good notes and send them on to us.

Fondly,
Jerry Kaufman, M.D. '46

To O. L. Norman Nelson, '31:
Nice to hear from Minnesota. Eva Shaperman was my maiden name (Class of '31). I do think you will remember that I am married to Dr. Philip E. Gordon — for ever but 36 years to be exact.

I remember seeing you about five years ago and you have not aged. 40 years is a long time and I don't know how many I will recognize or remember — but

I will be there in spirit. Impossible to come to Minneapolis at this time. I have retired and am kept busy with hobbies that I missed while practicing.

Phil has become a specialist in physical medicine and rehabilitation. He is still very active, although I do think he misses the variety hustle and bustle of general practice. It's nice in San Diego, but I still miss Minnesota.

Best wishes and have a good time at the reunion.

Eva Shaperman Gordon, M.D.
MMF COULD BENEFIT FROM PRESSURES OF 1969 TAX REFORM LAW

The stringent regulations on foundations under the Tax Reform Act of 1969 are forcing many smaller private and family foundations to liquidate and transfer their assets to larger eligible institutions. Other private foundations may need to increase their contributions to public charitable organizations in order to maintain their foundation charters under the new tax laws.

The Minnesota Medical Foundation has been approved as an eligible charitable organization by the Internal Revenue Service and is classified as a public foundation.

If you are a principal in a private foundation and are considering termination, we suggest that you consider transferring assets to the Minnesota Medical Foundation. Or, if your foundation must increase its contributions this year because of the new tax reform act, we would appreciate your thinking of the Minnesota Medical Foundation and its good works.

Also, if you know of other private foundations considering termination, we would appreciate your mentioning the work of the Minnesota Medical Foundation.

Write to:
Eivind O. Hoff
Executive Director
Minnesota Medical Foundation
Box 193 — University Hospitals
Minneapolis, Minn. 55455

WHERE THERE’S A WILL THERE’S A WAY

The making of a will is the most important single step in your estate planning. A will is essential if you wish to control the ultimate distribution of your estate. If you have not drawn up a will, we suggest you do so. If you have a will, we suggest you examine it periodically to see that it reflects your current thinking on the distribution of your estate.

We also suggest that your will include a bequest to the Minnesota Medical Foundation, to benefit medical education and medical research at the University of Minnesota.

Larger bequests can create a permanent memorial to honor the donor.
If raising money for a good cause is really like pulling teeth, that might explain why Dental School Alumni have been outshining Medical School Alumni in building a $100-a-year membership club.

The Minnesota Medical Foundation, which operates solely for the benefit of the Medical School of the University of Minnesota, has 325 Centurion Club members at this writing. Many of those aren’t even alumni of the Medical School, but rather interested faculty members and friends. We are very grateful to our Centurion Club members. We just think there should be more of them.

The Dental School Alumni “Century Club” now has 500 members “and counting.” Expectations are for 700 members.

Should Medical School Alumni do less?

The Minnesota Medical Foundation has set its 1972 goal at 500 Centurion Club members. We’ve switched to a calendar year membership program to facilitate your year-end giving for the greatest tax benefit.

One of our Centurion Club members has pointed out that federal tax credits bring the cost of a Centurion gift to only 14 to 18 cents a day for the average physician. Pennies for progress!

Please join the Centurion Club today. You may use the form attached.

Thank you.

Eivind O. Hoff
Executive Director
Dr. Robert A. Good, Regent's professor of the University of Minnesota and nationally-acclaimed immunobiologist, was guest speaker at the 33rd Annual Membership Meeting of the Minnesota Medical Foundation, held in St. Paul Oct. 27.

Dr. Good spoke about the role of "Experiments of Nature," or "accidental" discoveries in the advancement of medical science, particularly immunobiology.

At the conclusion of his remarks, he was presented with a Minnesota Medical Foundation check for $75,000, the largest single grant given to date by the Minnesota Medical Foundation. The check was presented to Dr. Good by Dr. John W. Frost, president of the Minnesota Medical Foundation. Dr. Frost is chief of medicine at St. Paul-Ramsey Hospital.

The grant will be used to purchase and install an electron microscope and peripheral equipment in the department of pathology. Dr. Good is head of the department.

He is also an American Legion Memorial Research Professor and University of Minnesota Regent's Professor of Pediatrics and Microbiology. He received an Albert Lasker Medical Research Award in 1970. Since the Lasker Award was first given 25 years ago, 21 of its recipients have won Nobel prizes.

Dr. Good was born in Crosby, Minn. He attended Minneapolis public schools and was a Phi Beta Kappa graduate of the University of Minnesota in 1944. He was graduated first in his class of 110 from the University of Minnesota Medical School in 1946. He received a Ph.D. in anatomy from the University in 1947.
