

Formation of Norms in a Blog Community

Comments

I liked this article; it gave me some interesting insights on explicit and emerging rules/norms. Two comments, however, on further ideas for analysis:

- there is no discussion of the formation of norms as such in the article (in spite of its title.. :-))
- there are different kinds of rules/norms (explicit, emerging, architectural) which should be analytically separated and discussed.

I have a little bit elaborated on this [here](#) and would be happy to get some feedback .. :)
