

## AIR OPERATIONS PLANNING MAP SERIES

# Scott Glacier

Projection: WGS84 Polar Stereographic Orientation: True North  
 Central Meridian: 150 W Standard Parallel: 71 S

Map scale 1:1,000,000 when printed at 28"x24"

•	Estimated Spot Heights (feet)	■	Ice Shelf
—	Contours (1000 ft interval)	■	Rock Outcrop

### WARNINGS:

This map is not an air navigation chart and it is not intended for in-flight navigation. Spot heights do not always denote the highest point of the feature. Contours and spot heights are in feet. Contours are derived from a variety of sources of variable accuracy. They should only be used as an indication of topographic relief.

Place names derived from the USGS Board on Geographic Names (BGN). Names approved by the Advisory Committee on Arctic Names (ACAN).

Compiled by Mike Clementz, Polar Geospatial Center, May 2015
