

Student Representatives to the Board of Regents 1971-present

This list of all students who have served as student representatives to the Board of Regents was compiled from information on file in the Board of Regents Office and the minutes of Board meetings since 1971. When possible, the chairs and campus representation designations are noted.

Note that the number of student representatives has varied since the first student representatives were selected. In addition, while the first student representatives were selected on a calendar year basis, in 1986 the process changed to coincide with the academic calendar year of July - June. For consistency, this document lists all student representatives on the academic calendar year.
