Budget Summary Statement

GENERAL

The 1965-66 budget has been prepared along the same general lines that have been followed at the institution for the past fifty years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of University Services, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1965, and ending June 30, 1966.

All allotments and estimates of income as shown in this budget carry the account numbers to which these entries are made. All accounting codes of the University of Minnesota were revised on July 1, 1961. The new codes represent expansion and revision in accordance with the recommendations of Volume I of "College and University Business Administration" compiled by the National Committee on the Preparation of a Manual on College and University Business Administration, and published by the American Council on Education in 1952.

The accounting code revised on July 1, 1961 contains thirteen digits as follows:

Fund	Department	Budget	Class
XXXX	XXXX	XX	XXX

The fund number identifies the fund group, e.g., Current, Endowment, Plant, etc., and also identifies the source of funds within the current fund group, e.g., 0100—General Operations and Maintenance Fund, 0200-0299—Federal Funds, etc.

The department number represents the further breakdown of the fund, and is not necessarily a unique number, but must be used in conjunction with the fund number and budget number as an accounting code.

The budget number represents an objective breakdown of allotments and expenditures within a given fund and department. Payroll budgets are identified by "01." Supply, expense and equipment budgets are designated by even numbers, "02," "04," "06," "08," etc. Income budgets are identified by odd numbers, "03," "05," "07," "09," etc. Asset accounts are designated by "00" for the budget number.

The income and expense classifications are indicated in the last three digits of the accounting codes.

Other sections of this index list the codes of accounts in fund and functional order.

NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with University of Minnesota Civil Service Class Specifications. All appointments and adjustments made during the year must conform to these specifications. Copies are available in the Office of Civil Service Personnel.

REVENUE

These general considerations as approved by the Board of Regents have been made on the basis of the 1965-66 budget:

1. Collegiate enrollment in the fall of 1965 (excluding the General Extension Division was estimated at 42,000 (including the 1,050 at Morris; 4,100 at Duluth; and 800 Ph.D. candidates), compared with 38,180 students estimated in the 1964-65 budget (780 at Morris; 3,480 at Duluth; and 800 Ph.D. candidates).

2. The Legislature appropriated \$1,521,644 for academic salary increases, promotions and fringe benefits. In addition, the sum of \$394,043 was added from increased tuition to provide a total of 7 percent for salaries and fringe benefits.

3. Tuition for resident students was increased \$13.00 per quarter and non-resident tuition was increased \$35.00 to \$70.00 per quarter. Incidental fees increased from \$20.00 per quarter to \$27.00 per quarter.

4. The 1965 Legislature approved a revised pay plan by which selected classes within the University as well as State Classified Service received pay range changes in accordance with the results of a survey of wages paid in the Twin Cities and Minnesota. The law provided that no merit or longevity increases would be paid in 1965-66.

5. The following floors and fixed rates will prevail in 1965-66:

<i>Floors</i>	
Assistant Professor and Research Associate	\$725.00 per month
Instructor and Research Fellow	625.00 per month
<i>Fixed Rates</i>	
Teaching Associate I	555.55 per month
Teaching Associate II	600.00 per month
Teaching Assistant I	488.88 per month
Teaching Assistant II	522.22 per month
Teaching Assistant III	555.55 per month
Research Assistant	488.88 per month
Administrative Fellows (Same rates as Teaching Assistants)	

6. The Legislature provided the sum of \$2,483,177 for additional academic positions for 1965-66. This will provide approximately 228 positions in the budget. These funds were allotted to colleges on a discretionary basis administratively after a careful study of needs and priorities.

7. The sum of \$454,423 was allotted for additional Civil Service positions to colleges and administrative units and \$47,749 to staff buildings to be completed in 1965-66. All Civil Service positions were allotted on a judgmental basis administratively after careful study of needs and priorities.

8. Miscellaneous help budgets (Civil Service) were increased 5.5% to compensate for the new pay plan.

9. The sum of \$282,252 was allotted to colleges and administrative units to supplement supply, expense and equipment budgets.
