Budget Summary Statement

GENERAL

The 1967-68 budget has been prepared along the same general lines that have been followed at the institution for the past fifty-two years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of University Services, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1967, and ending June 30, 1968.

All allotments and estimates of income as shown in this budget carry the account numbers to which these entries are made. All accounting codes of the University of Minnesota were revised on July 1, 1961. The new codes represent expansion and revision in accordance with the recommendations of Volume I of "College and University Business Administration" compiled by the National Committee on the Preparation of a Manual on College and University Business Administration, and published by the American Council on Education in 1952.

The accounting code revised on July 1, 1961 contains thirteen digits as follows:

Fund	Department	Budget	Class
XXXX	XXXX	XX	XXX

The fund number identifies the fund group, e.g., Current, Endowment, Plant, etc., and also identifies the source of funds within the current fund group, e.g., 0100—General Operations and Maintenance Fund, 0200-0299—Federal Funds, etc.

The department number represents the further breakdown of the fund, and is not necessarily a unique number, but must be used in conjunction with the fund number and budget number as an accounting code.

The budget number represents an objective breakdown of allotments and expenditures within a given fund and department. Payroll budgets are identified by "01." Supply, expense and equipment budgets are designated by even numbers, "02," "04," "06," "08," etc. Income budgets are identified by odd numbers, "03," "05," "07," "09," etc. Asset accounts are designated by "00" for the budget number.

The income and expense classifications are indicated in the last three digits of the accounting codes.

Other sections of this index list the codes of accounts in fund and functional order.

NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with University of Minnesota Civil Service Class Specifications. All appointments and adjustments made during the year must conform to these specifications. Copies are available in the Department of Civil Service Personnel.

REVENUE

These general considerations as approved by the Board of Regents have been made the basis of the 1967-68 budget:

1. Collegiate enrollment in the fall of 1967 (excluding the General Extension Division and Summer Session) was estimated at 47,465, including 1250 at Morris, 5100 at Duluth, 250 at Crookston, and 900 Ph.D. candidates. This compares with 44,800 estimated for the fall of 1966, including 1150 at Morris, 4900 at Duluth, and 870 Ph.D. candidates.

2. The Legislature appropriated the sum of \$3,054,318 for academic salary increases, promotions, and fringe benefits. This amount provided a total of 9% for salaries and fringe benefits.

3. No tuition increases were made in the 1967-68 budget.

4. The 1967 Legislature provided a new pay plan for all State Civil Service employees. This plan provided for a minimum increase of 8% for all State employees. By a provision of the appropriation act, the University must pay salaries and benefits comparable to the State. The 1967-68 budget reflects the new salaries in accordance with provisions of the new plan.

5. The 1967 Legislature provided 50% of the funds necessary to finance general Civil Service merit increases for 1967-68. Merit increases up to 50% of the Civil Service staff were made on the recommendations of Department Heads. These increases for the most part were given to correct inequities in the new pay plan.

6. The following floors in fixed rates will prevail in 1967-68:

Floors

Assistant Professor and Research Associate	\$775 per month
Instructor and Research Fellow	730 per month
Research Specialist	500 per month

Fixed Rates

Teaching Associate I	630 per month
Teaching Associate II	700 per month
Teaching Assistant and Administrative Fellow	560 per month
Research Assistant	540 per month

7. The sum of \$1,151,787 was provided by the 1967 Legislature for additional academic positions. These funds were allotted to colleges on a discretionary basis administratively after careful study of needs and priorities. The sum of \$671,987 was budgeted for additional Civil Service positions to colleges and administrative units for enrollment related rates, and \$86,222 was allotted to staff buildings which are scheduled to be completed in 1967-68. All Civil Service positions were allotted on a judgmental basis after careful study of needs and priorities.

8. All Civil Service miscellaneous help budgets were increased by 8% to compensate for new minimum rates in the revised pay plan.

9. The sum of \$433,430 was allotted to colleges and administrative units to supplement supplies, expense and equipment budgets to offset price level increases. In addition the sum of \$223,713 was allotted to offset the cost of supplies and equipment for additional students.

10. The 1967 Legislature approved a comprehensive insurance and health benefit plan for all University employees. This plan was implemented on April 1, 1967.
