

Description of tables in the database : 1936 USFS_Survey_Database_Forest_Covers		
Includes all units, and only forest cover types (<i>jack pine, Norway pine, white pine, Northern hardwoods, oak, scrub oak, aspen, spruce-fir, black spruce, tamarack, cedar, bottomland and swamp hardwoods</i>)		
Name	Type	Description
Ac_Ownshp	ORIGINAL DATA	Acres of each ownership group in each cover type in each unit; excludes non-forested cover types (Grassland, Brush land, Marsh or Bog, Wooded pasture, and shelterbelt)
Ac_SzCov	ORIGINAL DATA	Acres of each size class in each cover type in each unit; excludes non-forested cover types (Grassland, Brush land, Marsh or Bog, Wooded pasture, and shelterbelt) and the "all" size class associated with non-forested cover types
Ac_Unit_TABLE	QUERY_TABLE	Acres and unit name of each 1936 Survey unit
BA_Sp_TABLE	QUERY_TABLE	Average basal area per acre by species, size class and cover type
BA_SzCov_TABLE	QUERY_TABLE	Average basal area per acre by size class and cover type; all species combined
Lookup_Ac_County	LOOKUP	Proportion of 1936 Survey units made up by counties
Lookup_Cover	LOOKUP	1936 Survey cover type names
Lookup_Ownshp	LOOKUP	1936 Survey ownership types and corresponding FIA (the Forest Inventory and Analysis Program) ownership groups
Lookup_Sp	LOOKUP	1936 Survey species and species groups
Lookup_Sz	LOOKUP	1936 Survey size classes and corresponding FIA (the Forest Inventory and Analysis Program) stand size classes
Lookup_Unit	LOOKUP	1936 Survey units
PerAc_Vol_Calc_TABLE	QUERY_TABLE	Per-acre volume data calculated to include unit 4 per-acre values; VolTable_Ttl/Ac_SzCov; Scrib BF (Scribner Thousand Board Foot) and Int'l BF (International ¼-inch Thousand Board Foot)
StandStock_PerAc	ORIGINAL DATA	Per-acre data for each species from original stand and stock tables by size class, cover type and unit; excludes non-forested cover types (Grassland, Brush land, Marsh or Bog, Wooded pasture, and shelterbelt) and the "all" size class associated with non-forested cover types; shown as original actual values
TPA_State_NoUnit4_TABLE	QUERY_TABLE	Recalculated trees per acre at statewide scale; all units combined, areas without TPA (Tree per acre) data excluded (all of Unit 4, majority of Unit 6)
TtlTr_TABLE	QUERY_TABLE	Total tree counts by DBH (Diameter at breast height), species, size class, cover, and unit
VolTable_Ttl	ORIGINAL DATA	Per unit data for each species from original volume tables by size class, cover type and unit; excludes non-forested cover types (Grassland, Brush land, Marsh or Bog, Wooded pasture, and shelterbelt) and the "all" size class associated with non-forested cover types; shown as actual values converted from abbreviated values (e.g. 1,000,000 BF for 1000 MBF)
