The project on which this presentation is based was completed in collaboration with the City of Brooklyn Park as part of the 2016—2017 Resilient Communities Project (RCP) partnership. RCP is a program at the University of Minnesota’s Center for Urban and Regional Affairs (CURA) that connects University faculty and students with Minnesota communities to address strategic projects that advance local resilience and sustainability.

The contents of this report represent the views of the authors, and do not reflect those of RCP, CURA, the Regents of the University of Minnesota, or the City of Brooklyn Park.

# Agenda

1. Evaluation Purpose
  2. Evaluation Approach
  3. Data Collection Tools
  4. Data Analysis
-

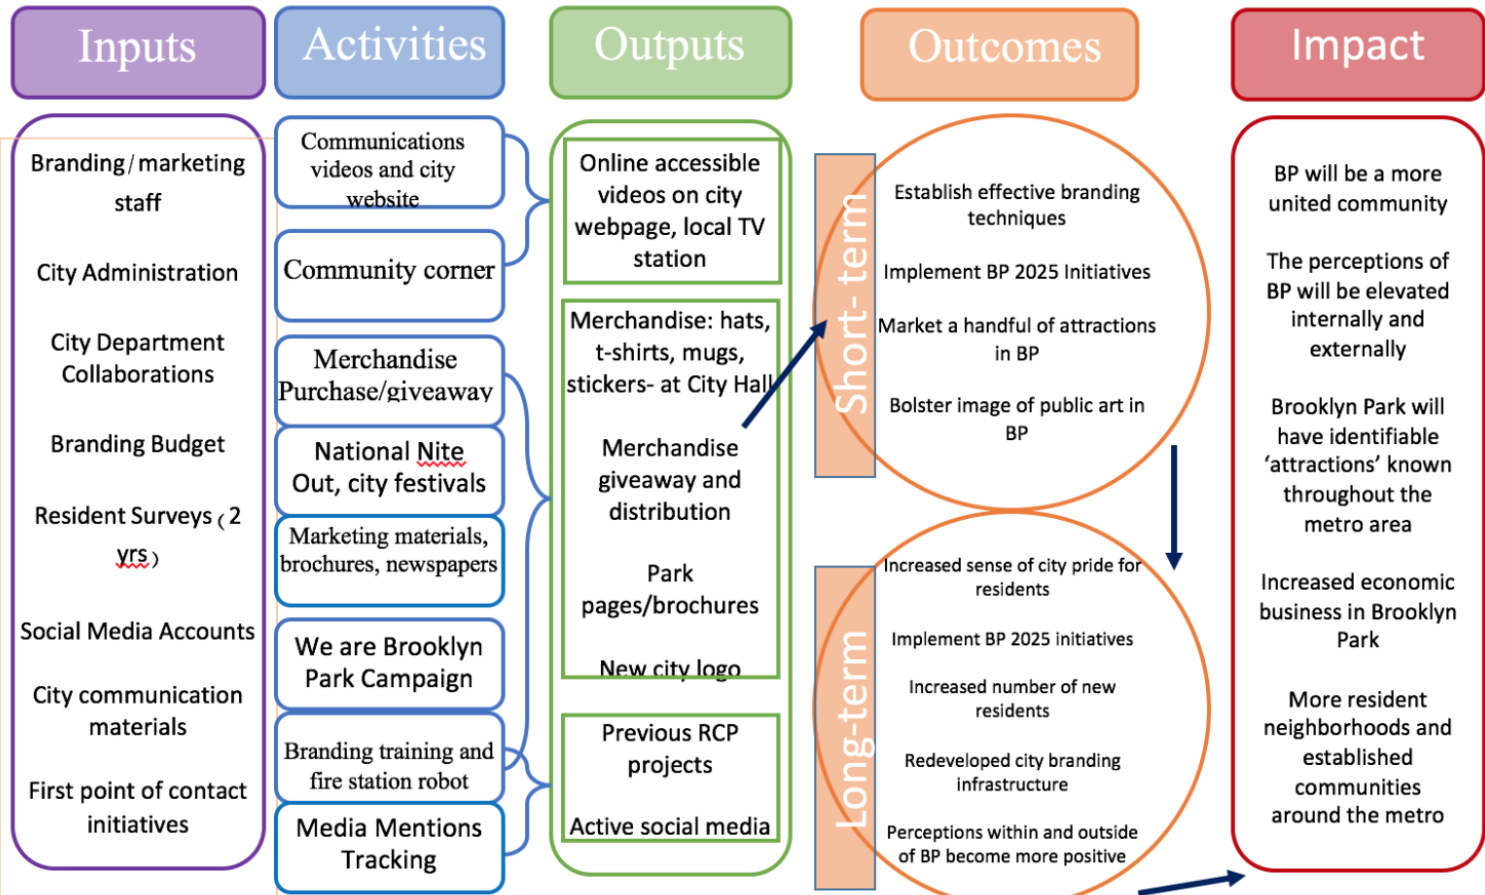

# 1.

## Evaluation Purpose

The purpose of this evaluation is to support the refinement of Brooklyn Parks communication strategies by assessing public perceptions. This information will be used to guide their future branding initiative. The evaluation is intended to be used by the project facilitator in the Community Development Department and the assistant City Manager of Brooklyn Park.

# Brooklyn Park Branding Logic Model

# Logic Mode

- Assumptions:**
- Perception of high crime rates
  - City has a north/south divide
  - BP has few 'attractions'
  - Urban/suburban complex
  - Diverse resident population draws and diverts new residents

# Stakeholder Analysis

# Comparable City: Richmond Virginia

## Challenges:

- Negative perceptions regarding safety and cleanliness

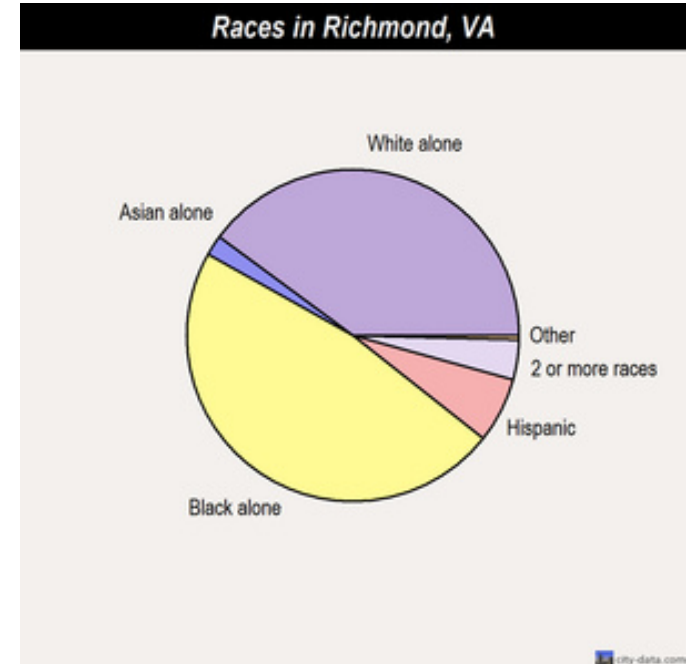

## Vision:

- Innovation Economy

## Strategies:

- Position as Tourism Gateway
  - Designate Heritage District
  - Develop targeted marketing campaign
- Brand and Promote
  - Develop branding system
  - Designate Arts and Culture Districts
  - Develop Marketing and Promotion campaign to residents and employees
- Develop Key Sites
  - Implement public-private partnerships
  - Formulate detailed design/development plan for key catalyst sites

targeted

# 2.

## Evaluation Approach

Development

Evaluation: Project focus  
is adaptive learning

Developmental approach:

- Stems from stakeholder analysis, comparison city, and logic model
- Allows to redefine the branding initiatives
- Appropriate for branding project where opinions of people are constantly changing
- Dynamic, so it allows to create new strategies

Limitations:

- Do not always yield definitive answers
- Focusing on the relationship between the program process and outcomes

Evaluation Questions:

1. What branding techniques have been or are currently being successful in Brooklyn Park?
2. What branding techniques have the broadest influence in Brooklyn Park?
3. What techniques are most resourcefully feasible?
4. How will Brooklyn Park continue to monitor the success of the branding?

# 3.

## Data Collection Tools

- Focus Groups
- Opinion Polls
- Outcome Mapping

# Tool #1: Focus Groups

---

- **Focus groups** allow for the exploration of thoughts and opinions of residents and business owners in BP
- **Focus Groups** can capture stories that go beyond simple ‘yes’ and ‘no’ responses to questions
- **Focus Groups** will help the BP team to
  - Understand how residents and business owners perceive Brooklyn Park
  - Learn if and how people are experiencing the re-branding initiatives
  - Discover what residents and business owners value about Brooklyn Park- why they *choose* Brooklyn Park
  - Receive suggestions for how to improve the city perception

# Tool #1: Focus Group: Logistics

**Focus Groups** consist of

- 6-10 participants
- A moderator
- An assistant moderator (to transcribe notes)

Total of 6 focus groups are recommended

- 3 for residents
- 3 for business owners

Hour long sessions with 7-8 questions per session

Conducted at City Hall with varying dates/times  
per group

# Tool #2: Opinion Polls

---

**Opinion Polls** are the most feasible way to evaluate the perception of the Brooklyn Park. Minimal resources are required for these polls, but they can yield great results if done by randomly selecting participants.

**Opinion Polls** can help

- capture both current and shifting perceptions of Brooklyn Park by the stakeholders
- capture the Exposure of the BP brand

**Opinion polls** will help the BP team to:

- Expand communication strategies through Brooklyn Park's social media platforms and city meetings

# Tool #2: Opinion Polls: Logistics

- YouTube poll in a form of an ad before a popular video
- Poll on BP is Facebook page
- Opinion polls on iPad during city events

The Opinion polls:

- Data analyst to create a random sample
- Can reach 1000 responders
- Can be customized to analyze the responders specific to desired regions.
- Can result a statistically significant results

- Youtube poll should be customized to reach 1000 people in the U.S or MN*
- Facebook poll should be customized to reach 1000 people in the BP or MN*

---

# Tool #2: Opinion Poll Questions

## YouTube Poll Question

Do you have a favorable opinion about the city of Brooklyn Park, Minnesota?

Yes

No

N/A

## Facebook and IPAD Questions

Has your opinion about the city of Brooklyn Park changed positively?

Yes

No

N/A

Has your opinion about the city of Brooklyn Park changed negatively?

Yes

No

N/A

# Tool #3: Outcome Mapping

**Outcome Mapping** is a tool that allows for the monitoring of development initiatives

**Outcome Mapping** is appropriate for the Brooklyn Park initiative because:

- it is a development initiative

- Can enhance the usefulness of data collection from the other recommended tools

**Outcome Mapping** will help the Brooklyn Park team to specify:

- targeted stakeholders

- Expected changes in behavior

# Tool #3: Outcome Mapping: Logistics

Outcome mapping consists of

- 18 to 25 participants
- One to two facilitators

Total of 3 days of workshops

- Each day roughly 6-7 hours
- Conducted in a central location for participants

Supplies needed include

- Day by day agenda
- Worksheets to complete each step

# Tool #3: Outcome Mapping

## The Structure

### Stage 1: Intentional Design

Step 1: Vision

Step 2: Mission

Step 3: Boundary Partners

Step 4: Outcome Challenges

Step 5: Progress Markers

Step 6: Strategy Maps

Step 7: Organizations Practices

### Stage 2: Outcomes and Performance Monitoring

Step 8: Monitoring Priorities

Step 9: Outcome Journals

Step 10: Strategy Journals

Step 11: Performance Journals

### Stage 3: Evaluation Planning

Step 12: Evaluation Plan

# 4.

## Data Analysis

### Data analysis achievements:

- Gain a general assessment of the branding initiative
- Define desired influence initiative will have on stakeholders
- Analyze the impact of current and future initiatives will have on the city
- Show effectiveness of different aspects of branding initiatives

### Limitations:

- Low response rates
- Difficulty in establishing causal connections
- No baseline measurements
- Skewed population sample
- Reliance on participation

Questions?
