DULUTH--Two UMD faculty members have been honored by major appointments.

Dr. Robert H. Heller, professor and head of geology, recently was named to the nine-man technical advisory board of the Iron Range Resources and Rehabilitation Commission.

Heller also represented the American Geological Institute at the 16th annual conference last week of the National Commission on Teacher Education and Professional Standards, NEA at Pennsylvania State University.

Dr. Pershing B. Hofslund, associate professor of biology, has been made an honorary member of the Cornell University Laboratory of Ornithology. The appointment was made by Cornell President D. W. Malott.
