Minnesota Nutrition Conference

University of Minnesota Research Update, *and* Pre-conference Symposium "Corn-2011 and Beyond"

Proceedings

September 20-21, 2011

Owatonna, Minnesota

72nd Minnesota Nutrition Conference

The Minnesota Nutrition Conference provides a forum for livestock nutritionists and feed industry professionals to update their knowledge of beef, dairy, poultry, swine, and equine nutrition. Internationally renowned researchers bring the latest concepts in livestock nutrition to the upper Midwest.

The Minnesota Nutrition Conference is presented by the Department of Animal Science, University of Minnesota, and University of Minnesota Extension.

College of Food, Agricultural
and Natural Resource Sciences

UNIVERSITY OF MINNESOTA

UNIVERSITY OF MINNESOTA
EXTENSION

The University's mission, carried out on multiple campuses and throughout the state, is threefold: research and discovery, teaching and learning, and outreach and public service.

The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities and employment without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status or sexual orientation.

DISCLAIMER: References to commercial products or services are intended for informational and educational purposes only, and do not necessarily reflect the views or opinions of the Department of Animal Science, University of Minnesota Extension, or the University of Minnesota as a whole.

Table of Contents

Sponsor Index	1
Conference Planning Committee	4
Speakers	5
<i>Pre-conference Symposium "Corn - 2011 and Beyond"</i>	
The Future of Corn Production in the Upper Midwest	10
- J. Coulter	
Obtaining Optimum Utilization of Distillers Grains in Feedlot Diets	15
- G. Crawford	
Corn Silage Fiber Digestibility: Key Points, Historical Trends, and Future Opportunities	30
- H. Jung and J. Lauer	
Use of Corn Co-Products in Diets Fed to Swine.....	47
- H. Stein	
<i>University of Minnesota Livestock Research Update</i>	
Nutritional Strategies to Improve Colostrum Yield in Dairy Cattle	62
- N. Litherland, W. Weich, L. Davis, S. Emanuele, and H. Blaloc	
Effect of Modified Distillers Grains with Solubles and Crude Glycerin in Finishing Diets on Beef Quality	64
- K. McClelland, J. Jaderborg, D. Paulus, J. Popowski, G. Crawford, A. DiCostanzo, and R. Cox	
Effects of Farrowing System on Agonistic Behaviors of Growing Pigs at Mixing.....	65
- L. Wang and Y. Li	
Round-bale Feeder Design Affects Hay Waste and Economics During Horse Feeding	66
- K. Martinson, J. Wilson, K. Cleary, W. Lazarus, W. Thomas, and M. Hathaway	
Preliminary Studies in Light Weight Turkey Syndrome	67
- A. Calvert, S. Noll, S. Goyal, Y. Chander, C. Logue, J. Sherwood, T. Johnson, K. Nagaraja, and A. Ziegler	
Montbeliarde-sired Crossbreds Compared to Pure Holsteins for Body Size, Dry Matter Intake, and Profit During the First 150 Days of First Lactation	69
- A. Hazel, L. Hansen, B. Heins, T. Seykora, and J. Linn	
Distance Learning and Communications Options Available to Pork Industry Producers and Professionals from the University of Minnesota	71
- M. Whitney	
Equine Grazing Preferences and Persistence of Twelve Cool-season Grasses	72
- E. Allen, K. Martinson, and C. Sheaffer	
Group Feeding Calves for an Organic Production System	74
- B. Heins	
Negative DCAD During a 42-day Dry Period	76
- W. Weich, E. Block, and N. Litherland	

Ruminant Session

If Calves Could Talk, What Would They Say About Their Feeding Program?	79
- A. Kertz	
Considerations for Optimizing Low-starch Diets for Dairy Cattle	94
- J. Firkins	
Lactational Responses to Corn Distillers Grains: A Meta-analysis with Focus on Diet Fermentability and Protein Quality	108
- D. Beede, M. Hollmann, and M. Allen	
Minding Our P's and K's - Ruminant Nutrition and the Environment	125
- T. Nennich	
Innovations in Feed Grain Evaluation for Lactating Dairy Cows	137
- P. Hoffman and R. Shaver	
Nutrition and Management Programs for Newly Received Feedlot Cattle	151
- C. Krehbiel, C. Richards, and D. Step	
Prevalence of <i>Escherichia coli</i> O157 in Cattle Fed Distillers Grains in Feedlots and Harvested Through a Commercial Abattoir in Minnesota	167
- R. Fink	
Supplementation and Management Programs for Growing Beef Calves	175
- J. Sexten	

Non-ruminant Session

Oxidative Stress in Sows and Effects on Reproductive Performance	188
- S. Kim, Y. Zhao, and G. Voilque	
Digestibility of Dietary Fiber by Growing Pigs	202
- P. Urriola	
Estimation of Amino Acid Requirements for Modern Sows	216
- S. Moehn, D. Franco, C. Levesque, R. Samuel, and R. Ball	
New Technologies to Aid in Evaluation of Alternative Feedstuffs	228
- G. Shurson	
Gut Environment for Improved Bird Performance and Health	249
- T. Applegate	
Faecal, Urinary and Circulatory Phosphorus Flow in Poultry	259
- C. Coon, R. Ekmay, and M. Manangi	
Overview of DDGS Nutrition in Poultry	283
- S. Noll	
Salmonella Control in Poultry	289
- B. Hargis	

Equine Session

Carbohydrates: What Do We Know? Analyses and Feeds	305
- M. Hall	
AAFCO Regulations Pertaining to Carbohydrate Inclusion on Feed Tags	308
- R. Ten Eyck	
Roundtable Discussion: Industry Implication for Carbohydrate Inclusion on Feed Tags	311
- R. Johnson, J. Reynolds, and J. Young	

Sponsor Index

On behalf of the Minnesota Nutrition Conference Planning Committee and the conference participants, we proudly acknowledge and thank our sponsors for their generous contributions to this educational meeting.

Thank You!

2011 Speakers

Elizabeth Allen

MS Research Assistant
Department of Animal Science
University of Minnesota, St. Paul, MN

Todd Applegate

Professor & Extension Poultry Specialist
Department of Animal Sciences
Purdue University, West Lafayette, IN

David Beede

C.E. Meadows Endowed Chair Professor-Dairy
Cattle Nutrition & Management
Department of Animal Science
Michigan State University, East Lansing, MI

Alamanda Calvert

MS Research Assistant
Department of Animal Science
University of Minnesota, St. Paul, MN

Craig Coon

Professor & Poultry Nutritionist
Department of Poultry Science
University of Arkansas, Fayetteville, AR

Jeff Coulter

Assistant Professor & Extension Corn
Agronomist
Department of Agronomy & Plant Genetics
University of Minnesota, St. Paul, MN

Grant Crawford

Assistant Extension Professor-Beef Cattle
University of Minnesota Extension
Hutchinson, MN

Ryan Fink

Research Associate
Department of Food Science & Nutrition

Promoting the vital work of Minnesota farmers since 1978.

“Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has.” ~ Margaret Mead

WHO CARES...

Who cares that one extra egg, one extra lactation, or even one extra kilo of weight gain, will make the difference between profit and loss for thousands of farmers this year?

Alltech does!

In fact, so do the 2,200 people worldwide, who produce the Alltech range of patented, natural feed ingredients. Ingredients with the sole purpose to boost your profitability.

Supported by 30 years of research, 150 PhD theses, 70 masters' theses and over 300 peer reviewed papers, Alltech delivers.

These ingredients have been shown to promote animal health and performance through improved nutrition ... *naturally*.

So the next time you ask the question, who cares? Remember at Alltech...

Alltech[®] DOES!
