## 75<sup>th</sup> Minnesota Nutrition Conference

---

The Minnesota Nutrition Conference is the upper Midwest's premier educational event for livestock industry professionals and nutrition consultants to update their knowledge of beef, dairy, poultry, swine and equine nutrition. Nationally recognized speakers present the latest research-based concepts in livestock feeding and nutrition at the conference.

This annual event is presented by the Department of Animal Science, University of Minnesota, and University of Minnesota Extension.

The Minnesota Nutrition Conference is made possible by the generous support of industry sponsors, the dedication of the conference planning committee, and the time and effort of the speakers.
