Top Aggies honored at 1990 reunion

Peter E. Fehr '50

Peter Fehr left the East Grand Forks, Minnesota, farm he grew up on in 1950 to become a physician. His dream was to serve as a missionary doctor.

That dream came true. In 1958 he and his wife Doris went to Cameroon, West Africa, where they spent 10 years at Barso Baptist Hospital. During that time he was the only doctor at the hospital of 120 beds.

A decade later he returned to Minneapolis for health reasons, went back to graduate school to get his speciality degree in OB-GYN, and practiced in Minneapolis for 12 years. During the next six years he directed a high risk pregnancy program in St. Paul.

Since he left training he has served as a clinical teaching faculty member.

"That means service without pay," Fehr said.

For his many hours of service over the

18 years he was awarded the first clinical professorship in OB ever given to a person still actively practicing the specialty.

Peter has served his community through his church at the local, national and international levels. He has served on countless committees, boards, as a Sunday school teacher, deacon and moderator and is currently serving as chairman of the board of trustees of North American Baptist Seminary in Sioux Falls, South Dakota. He is also completing a five year international term as vice president of the Baptist World Alliance.

See Fehr on page 5.

Marvin E. Jensen '45

Marvin E. Jensen has over 36 years of research and management experience in irrigation and water management and is currently director of the Colorado Institute for Irrigation Management.

He has published more than 100 scientific and technical papers in addition to planning and editing the "Design and Operation of Farm Irrigation Systems".

He participated with engineers and sci-

Milton O. Warner '20

For the first time in many years one of the Top Aggies could not attend the reunion. Milton Warner had great plans for the big celebration. He rented a bus to bring eight of his family with him to the reunion. But his wife fell and broke her arm, and that changed plans for their family.

Milton met his wife Ethel in Warren, Minnesota, where she had her first teaching position. He needed help in math, and she tutored him, leading to their marriage. Milton and Ethel celebrated their 65th Wedding Anniversary in 1989, and they have two daughters, six grandchildren and 12 great-grandchildren.

Following graduation from NWSA, Milton went to the University of Minnesota, Minneapolis where he worked and taught at the University for 10 years. He has both Minnesota and Iowa Morticians Licenses. He spent a few years in Mankato, Minnesota, before settling in Spencer, Iowa.

Milton has been extremely active in the community and was named Citizen of the

Year in 1981. He received the Governor's Award for Older Outstanding Citizen in 1982 and received Northwestern Iowa's Award for Outstanding Older Citizen in 1983. He is an active member of the Grace United Methodist Church serving on several committees in addition to singing in the church choir. His love of music dates back to his days in Minneapolis when he sang in the Twin Cities Civic Chorus with the Minneapolis Symphony Orchestra. He was an active member of the Barber Shop Quartet group in addition to appearing in several plays for the Spencer Drama Club.

He is currently serving on the Clay County Council on Aging, Golden K Kiwanis, and the house committee of the Senior Citizens Center, The Masonic Order, and Meals on Wheels. He works with RSVP and is a member of SCORE, a group of older executives who serve in an advisory capacity for small business firms.

"Your ability to use the knowledge, discipline and integrity acquired at the Northwest School has lead to much success for you. We commend you for your compassion and dedication to your profession, family and community, and the inspiration you give to us all."

Milton states "There is absolutely no question in my mind that NWSA was a monumental influence in my life even though I did not follow agriculture in its various fields. The NWSA opened the door for me to get an education, learn how to get along with other people, and gave me confidence to meet the challenges of the tough outer world. I shall always be grateful for the opportunities the school provided me."

**UMC's 25th Celebration - NWSA was the
cornerstone of UMC.**

Watch for special events 1990-91!

"It has been a joy for me
to work with the NWSA alumni, faculty
and staff
through the years
and keep close ties with the
'good old days!'"

From President Proulx... Chancellor's Column

Paul Proulx

Another successful reunion has passed, as well as another year. I do hope everyone who attended the reunion found it enjoyable and heartwarming to visit with former classmates and friends.

My personal thanks go to Blake, Allan, Ardis, Julie, the staff who made this

reunion happen, and to all of you who so admirably performed your duties. Thanks too, to Hersch and his band. These people seem like they can go on forever. We all appreciate you.

If a wide smile, a beaming face and a twinkle in the eye are indications of enjoyment, this was the happiness Berneil expressed at this reunion. She is a gem we have all appreciated through the years.

Also thanks from all the alumni go to our Top Aggies: Peter Fehr, Marvin Jensen and Milton Warner. They have certainly made their donation to society. We are proud of you and even more because you are one of us from the NWSA. In my days at the NWSA we were known as "cow collegers and hay seeds," but little did they know how tall hay can grow.

Thanks also to the alumni who made our Heritage Fund drive a success. Whatever amount you can offer to our fund is appreciated very much.

Have a good summer, stay healthy and be happy.

Another Northwest School reunion is history. I was sorry to miss it for the first time in five years. But reports indicate it was a great time for those attending as usual. Congratulations to top Aggies- Peter Fehr, Marvin Jensen and Milton Warner. Thanks also to all the class leaders for encouraging and helping with the reunion, and a special thanks to Berneil Nelson for four decades of service. All of us at UMC will miss her, and I know her support of the annual reunion will be missed by all of you. Our best to Berneil in her retirement.

The midsummer Crops and Soils Day has passed with great success, and nearly all of the new students have registered for fall quarter. So we're excited about beginning the 25th year of the college. Full-time students should be up a little - about 50 students. So it will be another good year.

The theme for the 25th year is "Education With A Vision". The planning committee is working to incorporate this theme into college events throughout the year. A bit of history and tradition will be included along with a look to the future in the activities. If possible, attend an event at UMC sometime during the year. We know you'll enjoy being on campus, and we enjoy having you.

Donald Sargeant, Chancellor

Crosby's comments...

What a great Reunion! There were lots of Aggies, spouses and friends, nice weather, good food and fond memories of years past but not forgotten.

A special thanks to the class leaders who encouraged their classmates to join us. I know everyone had a great time due to your efforts.

Special moments were witnessed again this year when classmates of 25, 50, or 60 years saw each other for the first time since graduation. Time does not erase that common bond.

Reunion is also time for former faculty and staff to return. Herschel Lysaker, Harleen Hagen Overgaard, Ruth Ann Kruta, Marian Sarver, Tillie Gebhardt, Bertha Reiersgard, and Rose Polski Anderson (1930 class advisor) were among the honored guests.

Walter Sprung, 1920 graduate at 91 years young, was a surprise soloist with an "a cappella" rendition of Sleep Kentucky Babe that he dedicated to his Top Aggie classmate, Milton Warner. Well done, Walter!

Berneil Nelson also shared the spotlight at the reunion as she was wished the very best in her retirement after 47 years of service.

It is always a pleasure to hear how much the reunion is enjoyed. A woman from California said her 50th year reunion was a bust compared to this one - and it was her husband who was the NWSA alumni. A number of other alumni mentioned that they were unsure whether or not to attend

R. Blake Crosby

their reunion and afterward wished they had not waited 30 or 40 years to come back for the first time. So, you others out there who haven't been back; note what was said and when your class is up, plan to come and visit us. You will enjoy it.

Obviously, I thoroughly enjoyed myself and am looking forward to the next reunion on June 29, 1991, which will also be the 80th anniversary of the founding of the NWSA Alumni Association - even more reason to celebrate.

From all of us at your White House Alumni Center, have a super summer.

The reunion was everything I expected

"The reunion was everything I expected. Many of the 1930 class were enthusiastic to be there, enjoying renewals of friendships and recalling events and places at the campus in former days and now.

The staff was a great plus and did everything possible to make our stay and reunion a complete success. They gave us a warm reception of themselves and were most cordial at all times."

The Celebration Begins . . .

During the past year, plans began for UMC's 25th Anniversary Celebration.

"Education With a Vision" was selected as the theme and an anniversary logo was designed. The theme and logo will be highlighted throughout the 1990-91 academic year at all major activities, on correspondence, printed materials, advertising, press releases, newsletters and brochures. Promotion items will also feature the logo and theme.

The theme carries on the tradition of "Education With a Vision" begun many years ago by the NWSA.

A number of events will be highlighted

during the 25th Anniversary Celebration. We hope you will have an opportunity to participate in one or more of the activities.

ALL THE WAY FROM GERMANY! Clarence Grove '55, second from left, came all the way from Stuttgart, Germany, to be part of the reunion festivities. Also at the table are Jean Stromstad Vigness '55, Clarence's twin brother, Ed Grove '55, and the twin brothers' wives.

It was a fun day of talking and relaxation. Albert Kopecky (right) '23 of Angus rested a few minutes with his nephew and driver Joe Novak.

POEM

In response to requests from several of you, here is the poem Milton Warner sent to be read at the reunion.

WHAT A WORLD

Since I was born some years ago, the world has changed somehow. We now use milk and butter that has never seen a cow. We have instant coffee, instant tea, instant this and that. We have so many instant foods, not fit to feed a cat. A substitute for sugar, a substitute for salt. We have so many substitutes we don't know who to fault. The boys and girls both look alike, can't tell one from the other. Same way, too, with mom and dad--you can't tell dad from mom. I'm not sure how far this will go -- but, up until this minute, I love this good old world of ours, 'cause we can still live in it. There's one thing though, that I don't like - I think it's a sin -- They've moved the cookstove out-of-doors, and moved the outhouse in!

Norah Hamre Nornes '30 of Ada took time during the reunion activities to read the Norwegian Bible located in the Hafslo Church on the campus. Norah is related to Julie Hamre, secretary in the White House Alumni Center.

Professionally, Peter serves as an advisor to the State of Minnesota Welfare Board and spends time in continuing education teaching nurses and physicians. His publications and presentations number more than 87, and he has participated in over 250 other lectures and hospital committees.

"Your success as a renowned medical expert in the field of obstetrics and gynecology is a lasting tribute to the Northwest School heritage. Your career achievements, your genuine concern of humankind, and your dedication to your family have exemplified the traditional Aggie spirit."

Peter states "It's been a long way from the farm and NWSA but life has been very fulfilling. The Northwest School provided me a chance to attend high school while still being available to work on the family farm during the busy spring and fall harvest times. Every experience in a person's lifetime makes its mark on that individual and affects the future activities and reactions of that individual. Looking back I'm convinced that the faculty and staff, everyone in their own way, shaped us, encouraged us, and left a mark on our lives that we can never repay."

entists in research projects in Yugoslavia, Egypt and Pakistan, and he has consulted for the World Bank and many other institutions throughout the world on irrigation water management problems. Marvin has made numerous presentations, authored several publications, belongs to many diverse membership groups and affiliations and has received an impressive list of honors and awards.

Marvin grew up with a very large family in Borup, Minnesota, and did not have

access to a local high school. Two of his sisters, Anna and Lillian attended NWSA before him. He was able to attend only two years, 1942-43 and 1943-44 as he enlisted in the Navy in 1944.

During 1946-47, Marvin took the GED tests at Moorhead State Teachers College and with credit received for several military training courses, he received his high school equivalency certificate through NWSA. In the fall of 1947, he enrolled in agricultural engineering at North Dakota State University, and earned his bachelor of science and master of science degree. He received his doctorate in 1965 in civil engineering from Colorado State University.

He is a member of the Evangelical Lutheran Church of America, served on the church council, was president of the congregation, is a Rotarian, a member of Toastmaster International and is active in the yearly United Way Drive.

He and his wife Doris have three children: Connie, Jeffrey, Eric and five grandchildren.

"The foundation of the NWSA was built on strong traditional values in education, religion and family. You have demonstrated those same values through your family and career in water management. We commend you for these achievements, your inspiration and enrichment of humankind."

Marvin states "The NWSA offered an excellent opportunity for farm students. I greatly appreciate the highly-qualified instructors. Many of them were U of M Experiment Station research staff with many years of experience. The courses in farm shop, motors, agronomy and animal husbandry provided excellent background to college agricultural courses. The scheduling of classes and campus life were very good in preparing students for college life."

"This was a special day to see classmates I haven't seen for 45 years. Now that I'm, nearing retirement for the second time, I look forward to coming back in the future."

Marvin Jensen

"A time to celebrate the past with all its successes and the future with all its possibilities..."

Berneil Nelson '42 received a watch and plaque from the NWSA in recognition of her 47 years of dedicated service to the school and college.

Dear NWSA Alumni Association,
What a wonderful day! Thank you for your presence -- in person or in your thoughts, your greetings, and your gift of a beautiful watch. It will remind me many times of Northwest School days and the many friends associated with the alumni association.

Thank you, too, for your continuing support of our summer reunions and the NWSA Heritage Fund which keeps the association going and our memories alive!

I hope to continue working with you in the years to come so as to keep in close touch with the "good old days".

Thank you again!

Your fellow alumnus,

NWSA Alumni participate in Phon-a-thon

Alumni volunteers added a new dimension to the Heritage Fund Annual Drive which was conducted in March.

Thirty-three alumni devoted their time in the ten evenings from 6:30 to 9:30 p.m. to call hundreds of other Aggie alumni throughout the nation. The purpose for the calls was two-fold: 1) to make friends and answer questions about the Heritage Fund and the Crookston campus, and 2) to solicit contributions for the Heritage Fund.

As you will recall, the dollars contributed to the Heritage Fund are used to support a variety of activities or projects: THE AGGIE newsletter, alumni reunion activities, board activities and expenses, alumni recognition and awards, scholarships and upkeep of the White House Alumni Center.

The Alumni Board and the development staff are very pleased with the phon-a-thon results. In addition to answering numerous questions and providing alumni with general information, the fund-raising results were significant. The number of donors increased from 476 in 1989 to 565 in 1990 -- an increase of 18 percent. Dollars contributed increased from \$13,224 in 1989 to \$16,894 in 1990 -- an increase of 28 percent.

The 565 donations from the approximately 3,300 alumni contacted during the fund drive reveals that 17% of the Aggie alumni on the active membership list made a contribution to the NWSA "Heritage Fund" in 1990 -- a three percent increase. Hopefully, with the help of additional vol-

unteers, we will be able to increase all of the above figures substantially in 1991.

A sincere thank you goes to all of you who made contributions in 1990 to keep the "Aggie Heritage Alive", and to the following volunteers who so generously devoted time to participate in the phon-a-thon:
