Your WREP

Hi!

We of WREP would like to welcome you to UMD. Our program has planned a varied and active program of recreational and extramural activities for your enjoyment during the school year. Since all women are automatically members of WREP we hope everyone will take advantage of these activities.

Just as the success of any group depends on its members, so ours thrives on your participation. We are looking forward to seeing you and we sincerely hope that you will be a member by participation in your WREP activities.

The following pages in this handbook are designed to better acquaint you with our organization. Keep it handy for reference.

I hope to see you all in one activity or another during the following year.

See you soon,

Terry Kirchner
WREP President

What is WREP?

WREP, Women's Recreational and Extramural Program, provides opportunities for every girl at UMD to participate in recreational, competitive, and social activities while in college. Every woman in school is automatically a member of WREP and all recreational and extramural activities are arranged for varying skill levels.

The recreational aspect of the program is to promote good sportsmanship, an increased spirit of cooperation, and to include all UMD women in some activity. This is for you to come relax and have fun.

The extramural aspect of the program functions to provide a more competitive challenge at the intercollegiate level.

One faculty member serves as a program coordinator and advisor to the WREP Board. Other faculty members coach various extramural sports. Each recreational activity is headed by an appointed sporthead.

The Board is a governing body of elected and appointed students who aid in promoting activities and who help to determine standards and policies for all phases of WREP.

WREP is funded from the registration activities fees; there are no individual dues nor entry fees for any activities.

NORTH
CENTRAL
DISTRICT

The WREP at UMD is affiliated with the Athletic and Recreation Federation of College Women (ARFCW), a national organization for all college and university women.

This year the North Central District Conference will be held during spring 1970 at UMD. The district includes all colleges and universities in Iowa, North Dakota, South Dakota, Nebraska and Minnesota. The theme of the conference will be "Communication Through Sports."

RECREATION

This year WREP plans to stress recreational opportunities for all women in the school. A wider and more diversified program is being scheduled. Clinics, tournaments, and just "play time" are a few of the things planned.

The year will start with volleyball, tennis, and swimming and later move into badminton and basketball. Gymnastic equipment will also be available for those who are interested. In the spring softball is scheduled. Various types of dancing, ranging from modern to social, will be scheduled throughout the year, also. Things such as an archery tournament, recreational games, and basket baseball will be scheduled.

We hope you will find something of interest for you in the program. This program has been developed for you—let's see your interest!

EXTRAMURALS

Extramurals is the other half of WREP. This part of the program is designed for those who are interested in competing in sports with other colleges. More emphasis is being placed on extramurals for women interested in competition.

A schedule is set up at the beginning of the year for each extramural sport. There is a coach in charge of each sport. Try-outs take place at the beginning of each season. Look forward to lots of hard work and long hours of training.

Extramural sports the past year have included swimming, badminton, basketball, tennis, softball, track and field, and volleyball.
