

1974

Problem Solving Institute is a fairly new organization in Students college. The idea for this organization was proposed by Dr. R. J. Falk to his Psy. Personnel class three quarters ago. His idea was to create an organization that could solve problems for individuals and organizations on campus. The backbone of this organization would depend on students to find resources and ideas with the aid of faculty advisement, thus creating an environment for experiential learning. The questionnaire that follows is to gather information on each instructor's, department's, and organization's involvement in drug oriented affairs. To get an idea about what's happening on campus as far as drugs are concerned.

1. Are you actively involved in efforts related to:

	<u>Direct Service</u>	<u>Training</u>
Drug research	_____	_____
" counseling	_____	_____
" education	_____	_____
" information	_____	_____
" prevention	_____	_____
" treatment	_____	_____
" social aspects	_____	_____
" law enforcement	_____	_____
" use related to corrections	_____	_____
" medical use	_____	_____
" program coordination	_____	_____
" other	_____	_____

2. If other please state

If you desire more information on either the questionnaire or PSI call; Kim Hoadley, Coordinator PSI, (8253) or Chuck Fredricks, Drug Information Center, (8495).

problem solving Institute is a fairly new organization in student
colleges. The idea for this organization was proposed by Dr. J. A. Park
to the key personnel of the three quarters ago. His idea was to create
an organization that would solve problems for individuals and organi-
zations on campus. The backbone of this organization would be based on
students to find resources and ideas with the aid of faculty advisors.
The main purpose of this organization is to create an environment for experiential learning.
The following questionnaire that follows is to gather information from your
department, and or organization's involvement in this organization.
To get an idea about what happens on campus at the time of the
concerned.
