Voted to approve the following resolution :

That it is the sense of the University that those state agencies which are now housed on the campus shall be guaranteed space and a continuance of the University's cooperation in their work. This guarantee does not carry with it any obligation on the part of the University to enlarge the space which these agencies now have nor to extend to them privileges which the University is unable to extend to its own departments. The University feels justified in continuing these relationships for the reason that much, if not all of the work of the various state departments now located on the campus, is of distinct educational and research value.

Voted to adjourn.
