MUSEUM LECTURE
SERIES AT U. OF M.
TO BEGIN SUNDAY

(FOR IMMEDIATE RELEASE)

Minneapolis —"Minnesota Wood Ducks", a talk by Dr. Walter J. Breckenridge, will begin the annual public lecture series at the Minnesota Museum of Natural History Sunday (Nov. 5). The program will start at 3 p.m. in the museum auditorium on the University of Minnesota campus.

Illustrating his lecture with colored motion pictures, Dr. Breckenridge will tell several interesting stories about the wood duck -- a Minnesota bird which was slowly disappearing several years ago, but which is now on the increase.

The second program on the series, "Maya Through the Ages", a color sound film of ancient Central American Indian civilization, will be at 3 p.m. Sunday, Nov. 12.

Dr. Breckenridge, director of the museum, announced that the new lecture schedule will run through April 8, 1951. The programs, open to everyone without charge, will be held at 3 p.m. every Sunday in the Minnesota Museum of Natural History auditorium. No lectures are scheduled for Dec. 24 or 31.

"Life of the Eskimos", "Winter Along Lake Superior's North Shore", "Northwest Indians and Their Weird Symbols", "The Glaciers of Minnesota", "Alaskan Wildlife", "Better Fishing" and "Local Birds" are some of the topics for forthcoming lectures in the series.

U. OF M. TO DEDICATE
STUDENT HEALTH
SERVICE BUILDING

(FOR IMMEDIATE RELEASE)

Minneapolis —The University of Minnesota will dedicate its new Health Service building Monday and Tuesday (Nov. 6-7). The special ceremonies will be a feature of the University's Centennial year celebration.

Students, their parents, staff and faculty members of the University have been invited to an open house at the Health Service from 3 to 5 p.m. both days.

Dr. William P. Shepard, president of the American Public Health association, will give the main speech during the dedication banquet at 6 p.m. Tuesday (Nov. 7) in the main ballroom of Coffman Memorial Union. Dr. Shepard was assistant medical director of the Health Service from 1921-24. He now lives in Palo Alto, Calif.

Other speakers at the dedication dinner will be University President J. L. Morrill; Vice President Malcolm M. Willey; Ray M. Amberg, director of University hospitals; Dr. Harold S. Diehl, dean of medical sciences, and Dr. Ruth Boynton, director of the Health Service.

The new Health Service building, located on Church St. -- across from University hospitals, has been in operation since the beginning of October. A special diet cafeteria for students with diabetes, ulcers or other dietary problems is one of the outstanding features in the building.

Comfortable waiting rooms and an enlarged X-ray department and pharmacy have also been incorporated into the modern Health Service. The diet cafeteria, pharmacy and records occupy the first floor of the four-story building.

Periodic health offices, the laboratory, X-ray facilities, physical therapy and eye departments are on the second floor. The entrance and dispensary are located on the third level with dental and mental health offices occupying the fourth floor.

MELTON TO EMCEE
U. OF M. CONVOCATION
PROGRAM THURSDAY

(FOR IMMEDIATE RELEASE)

Minneapolis -- James Melton, Metropolitan Opera tenor, will serve as master of ceremonies at an all-student variety program at the University of Minnesota convocation Thursday (Nov. 9) at 11 a.m.

Participating in the program, to be staged in Northrop Memorial auditorium, will be the University band, Orchesis, student dance group, and music department students.

The band, under the direction of Ernest A. Villas, will play a medley of college songs, a selection of George Gershwin melodies and the Sousa march, "Stars and Stripes".

Directed by Theresa A. Bell, women's physical education instructor, members of Orchesis will present a series of dance sketches depicting campus activities.

Representing the music department, a soprano soloist and a violinist will appear on the program. Barbara Cecil of St. Paul, a junior, will sing several classical and semi-classical songs, and Sabina Godfredson of Minneapolis, a freshman, will play "Gypsy Airs" by Pablo de Sarasate.

KUOM, the University radio station, will broadcast the convocation program.

U: WILL OBSERVE
RELIGION IN LIFE
WEEK NOV. 13-19

(FOR RELEASE THURSDAY, NOV. 2, 1950)

Minneapolis —Lectures by outstanding speakers in religion and public affairs will headline the Religion in Life Week program at the University of Minnesota next week, Nov. 13-19.

Twenty-two student religious foundations — Catholic, Jewish, Protestant and non-denominational — on both the Minneapolis and St. Paul campus will cooperate in presenting the week-long schedule of special activities. Sponsoring Religion in Life Week will be the Student Councils of Religion, the Minnesota Councils of Religion and the office of Dr. Henry E. Allen, the University's co-ordinator of students' religious activities.

Madame Pandit, India's ambassador to the United States and sister of Prime Minister Nehru, will talk on "Asiatic-American Relations", and religious leaders from all over the country will come to the University to take part in the week's observance.

Rabbi Louis Finkelstein, president of the Jewish Theological seminary in New York city, will discuss "Contributions of Scholarship and Religion to Better World Understanding" at a faculty luncheon. On the St. Paul campus, the Rev. M. W. Clair, Jr., pastor of St. Mark's Methodist church, Chicago, Ill., will be the featured speaker,

University and college chaplains from Iowa, Wisconsin and Illinois will come to the Twin Cities to participate in Religion in Life Week events. Many of the programs will carry out the "Religion Is Relevant" theme by discussing the relationship of prayer, the church, marriage and courtship and college students to religion.

Several skeptic's hours have been arranged for those students with no particular religious affiliation. Jewish liturgical art will be on display in the University gallery in Northrop auditorium.

The purpose of Religion in Life Week is to have students and faculty join in a program of critical self-examination and evaluation which will bring them to a closer understanding of religion and its relevance to daily living.

Minnesota has one of the few universities in the country where different faiths annually sponsor a combined religious program.

(FOR IMMEDIATE RELEASE)

Minneapolis --Two pamphlets, designed to assist community groups in choosing topics for their meetings, have been published by the Minnesota World Affairs Center at the University of Minnesota. The booklets are "Topics for Today" and the "Film Catalog".

A variety of subjects, under such headings as American foreign policy, the Atlantic community, the "Atlantic Union" plan, international economics and trade, international implications of atomic energy and the United Nations, are listed in the "Topics for Today" booklet.

More than 100 outstanding films on world affairs topics are described in the "Film Catalog". It represents an attempt by the Center to stimulate the use of educational films on subjects like the atomic bomb, displaced persons, food and agriculture as a world problem, political processes and public opinion, world health problems and inter-group relations.

Both publications are available for distribution throughout this area. The Minnesota World Affairs Center is a regional headquarters for education in world affairs. Its program services department helps organizations to plan meetings on international topics by suggesting speakers, discussion leaders and films.

Part of the University's extension division, the Center is a non-profit, non-partisan organization which works to develop the widest possible understanding of world affairs as the basis for lasting peace.

It has five members organizations: the Foreign Policy association, both Minneapolis and St. Paul; the Minnesota Atlantic Union committee; the Minnesota United Nations Association and the Minnesota United World Federalists. Membership in the Center is open to any organizations which are interested in its objectives and purposes.

MUSIC TEACHERS
TO MEET SUNDAY

(FOR IMMEDIATE RELEASE)

Minneapolis —Several hundred music teachers will gather at St. Thomas college, St. Paul, at 4 p.m. Sunday (Nov. 12) for a state-wide meeting on music theory. The symposium is the first in a series of educational projects sponsored by the Minnesota Music Teachers' association.

Professor Edwin W. Sroka of St. Thomas college; Professor Blanche Kendall, University of Minnesota and MMTA secretary; Mrs. Jane Chiuminatto, St. Catherine college, St. Paul and Professor Francis Mayer, also of St. Thomas college, will conduct the symposium.

Music teachers from throughout the state have been invited to attend the event. Although primarily designed for private music instructors, the meeting is also open to school music teachers.

Suggestions and materials which will assist teachers in giving private instructions will be handed out at the meeting. Music teachers will be guests of the music department at St. Thomas college which is directed by Professor Anthony Chiuminatto.

A coffee hour will follow the symposium. The event is free to all attending music teachers.

Professor Paul M. Oberg, chairman of the music department at the University of Minnesota, is president of the Minnesota Music Teachers' association.

The Minneapolis Symphony orchestra will play its first young people's concert of the season in the St. Paul auditorium Thursday afternoon (Nov. 9). KUOM, the University of Minnesota radio station, will broadcast the concert from 1:45 to 2:45 p.m.

Claudio Arrau, world famous Chilean pianist, will appear as the soloist. Under the direction of conductor Antal Dorati, the orchestra will perform the "Lenore Overture No. 3" by Beethoven, "Pacific 231" by Honegger and the ballet suite from Ravel's "Daphnis and Chloe". Dorati will also act as commentator for the program.

In preparation for the concert, KUOM will present a special preview broadcast Wednesday (Nov. 8) from 2:30 to 3 p.m. Leland B. Sateren, associate professor of music at Augsburg college and former KUOM staff member, will interview Dorati during the preview.

KUOM's symphony preview programs won a first place award last year from the Institute for Education by Radio. They serve to background listeners -- school children and others -- for the actual concert.

(FOR IMMEDIATE RELEASE)

"The Bisitun Inscription" will be George G. Cameron's topic when he speaks at the University of Minnesota Friday (Nov. 10). Cameron, chairman of the department of Near Eastern studies at the University of Michigan, will talk at 4 p.m. in the Minnesota Museum of Natural History auditorium.

The famous Bisitun inscription, called the "key to the treasure chest of ancient languages", was composed in three languages by order of the Persian King Darius in the sixth century. When found a century ago, it enabled scholars to decipher the cuneiform writings of the Babylonians and Assyrians.

Early archaeologists risked their lives to make copies of the inscription which was cut into a sheer rock cliff high in the Iranian hills.

One section was never read until Professor Cameron, with equipment provided by an American oil company, managed to descend the face of the cliff in 1948. Illustrations which accompany his lecture will show his trip.

Professor Cameron has an international reputation. He has written several books on early Iran and its languages. He was also on the staff of the Oriental institute at Chicago and editor of the Journal of Near Eastern Studies before his appointment at Michigan.

The special lecture is open to the public without charge. It is sponsored by the University departments of history, classics, anthropology and concerts and lectures.

(FOR RELEASE SUNDAY, NOV. 12)

Wood, stone, metal and plaster sculpture by Paul Frazier, new art instructor at the University of Minnesota, will go on display in Jones hall on the Minneapolis campus Wednesday (Nov. 15).

The show, introducing Frazier's most recent work, will be on exhibit through Thursday, Nov. 30. Besides the sculpture, it will also include a steel rod construction.

Preceding his appointment to the University of Minnesota art staff, Frazier taught sculpture at the Detroit Institute of Art and the Cranbrook Art academy, Bloomfield Hills, Mich. From the fall of 1949 to May 1950 he studied under Ossip Zadkine in Paris.

Frazier has won several prizes for his work: the Ralph H. Beaton Memorial Sculpture prize, Columbus Art league, Columbus, Ohio; governor's award and three first prizes at the Ohio State fair, 1947 and in 1949, the Cranbrook medal for sculpture.

During the summer of 1948, Frazier won a scholarship to Skowhegan School of Painting and Sculpture, Skowhegan, Maine. He graduated from Ohio State in 1948 and received his master's degree at Cranbrook Art academy in 1949.

Jones hall houses the University art department. The exhibit is open to the public.

FILM ON MAYA
INDIANS AT 'U'
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

"Maya Through the Ages", a color sound film about the ancient Maya Indians of Central America, will be shown at the Minnesota Museum of Natural History Sunday (Nov. 12) at 3 p.m.

The movie is the second program on the museum's annual free public lecture series. Programs are presented every Sunday at 3 p.m. in the museum auditorium on the University of Minnesota campus.

One of the outstanding Indian groups in the Americas, the Mayas reached a high degree of civilization about the time Christ was born. They had developed an alphabet, a workable mathematical system, an accurate calendar and were excellent sculpturers. Their buildings were made of huge, square-cornered stones.

The Mayas were farming Indians who lived on the Yucatan peninsula -- that part of Mexico which projects into the Caribbean ocean. Their civilization was at its height between 500-600 A.D. By 1200, their degeneracy had started. As their farm lands wore out, they moved their cities from the Mexican jungle to the coast.

"Maya Through the Ages" was filmed by an expedition which went into Yucatan to study Mayan culture.

Howard Cleaves, outdoor photographer from Staten Island, New York, will present the third public lecture at the Museum Sunday, Nov. 19. He will show a colored film on Glacier National park, "By Sky-crib to Glacier".

Dr. Walter J. Breckenridge, director of the Minnesota Museum of Natural History, is in charge of the lecture series.

UNIVERSITY PRESS
TO PUBLISH NEW
BOOK ABOUT CUBA

(FOR RELEASE NOVEMBER 11, 1950)

Minneapolis — With current news events focusing public attention on the entire Caribbean "powder-keg" area, publication by the University of Minnesota Press of a sociological study of Cuba assumes special significance at this time.

The book, to be published November 15, is "Rural Cuba" by Lowry Nelson, professor of sociology at the University of Minnesota. It reports the results of a year's investigation and observation in Cuba by Professor Nelson during his appointment as rural sociologist for the U. S. department of state. It is the first systematic study of the problems of the rural Cuban populace, in many respects similar to those of all the Caribbean countries.

Under the technical guidance of the office of foreign agricultural relations, U. S. department of agriculture, Professor Nelson was given the general responsibility of making a study of rural life in the Caribbean. After a general survey and visits to Puerto Rico, the Dominican Republic, the Virgin Islands and Trinidad, Professor Nelson narrowed the study to one country, Cuba.

With the cooperation of the Cuban Ministry of Agriculture, he directed a series of local community surveys in which 742 rural Cuban families were interviewed. Data were collected on such subjects as family composition, education, housing, recreation, farming, land tenure, diet and family expenditures.

In the course of those surveys, Professor Nelson traveled 1,800 miles by truck, railway and horse, visiting all the survey localities.

(MORE)

"Cuba presents the paradox of a poor people in a rich land," the author reports. "Outstanding problems of the rural population are low income, poor roads, inadequate housing and sanitation facilities, insufficient water supply, and inadequate educational provisions."

Although he noted a certain apathy on the part of the people in expecting the government to redress their grievances rather than initiating improvements themselves, Professor Nelson expressed optimism for the future of Cuba because individuals have the fullest freedom of expression and criticism. This capacity for self-analysis and self-criticism, he points out, is the best evidence that Cuba is an emerging democracy.

Specific recommendations made by Professor Nelson for the betterment of rural life in Cuba include expansion of the Ministry of Agriculture field service, promotion of farmers' organizations including true cooperatives, planned road construction and maintenance, continuing social and economic research, and agrarian reform.

Minneapolis -- A three-day course in poliomyelitis will be given by the University of Minnesota Thursday through Saturday (Nov. 9-11) at the Center for Continuation Study.

Presented with the sponsorship of the Elizabeth Kenny institute of Minneapolis, the sessions are open to doctors of medicine in general practice and such specialists as pediatricians, physiatrists, orthopedic surgeons and neurologists.

The diagnosis of acute poliomyelitis will be discussed Thursday morning (Nov. 9). In the afternoon, doctors will visit the University hospitals for a seminar on the management of bulbar poliomyelitis.

Principles of the Kenny polio treatment, muscle re-education, therapeutic exercise and prevention of deformity will be outlined Friday morning (Nov. 10). The afternoon will be spent at the Elizabeth Kenny Institute.

Such topics as the treatment of residual deformity, tendon transplantation and unequal leg length are scheduled for discussion Saturday (Nov. 11).

Dr. Harold A. Sofield, associate professor of bone and joint surgery, Northwestern university medical school, Chicago, will lecture on the management of poliomyelitis from the orthopedist's viewpoint at the closing session Saturday afternoon (Nov. 11).

Dr. A. B. Baker, professor and director of neurology, Dr. Wallace H. Cole, director of orthopedic surgery, and Dr. Jerome T. Syverton, professor and head of bacteriology and immunology, all of the University medical school, will be among the instructors for the course.

Lodge Despatch to Norfolk
Mass H.P. Pully*

(For Immediate Release)

Ashton H. Pully, member of the Army ROTC faculty at the University of Minnesota has been promoted from major to lieutenant colonel. His new rank became effective Thursday (November 2).

Since he came to the University in August 1949, Lt. Col. Pully has been assistant professor of military science and tactics. He has been teaching courses in anti-aircraft artillery.

Lt. Col. Pully was the post engineer at Grafenwohr, Germany, training center for occupation troops in Europe, before his University appointment. He has also served in the South Pacific and the Panama Canal Zone.

Lt. Col. Pully now lives in Mandota, although his home is in Norfolk, Virginia.

JEWISH LITURGICAL
ART ON EXHIBITION
AT U. OF M. GALLERY

(FOR IMMEDIATE RELEASE)

An exhibit of Jewish liturgical art from the Jewish museum, New York, is now on display at the University of Minnesota art gallery in Northrop Memorial auditorium. The show will continue through Tuesday, Nov. 28.

For the first time, Twin City residents can see a comprehensive collection of art objects used in Jewish religious ceremonies. Included in the display will be the Torah, Hanukah lamps, various ceremonial cups and other religious implements.

Dr. Stephen Kayser, curator of the Jewish museum, has accompanied the show to Minneapolis. He will conduct three special tours through the exhibit, explaining the significance and design of the objects. His lectures will be given Monday and Tuesday (Nov. 13 and 14) at 2 p.m. and Wednesday (Nov. 15) at 7:30 p.m. Dr. Kayser is also an associate professor at the Jewish Theological Seminary of America which operates the Jewish museum.

"Hardly any other religion uses more ceremonial implements than we do in the synagogue and in home services," Dr. Kayser stated on the opening day of the exhibit Wednesday (Nov. 8). Many of the 16th, 17th and 18th century objects on display reflect the great trends of Renaissance and Baroque art.

Several of the items were designed in Poland, Central Europe, Italy, Holland and North Africa. There is the Torah, a parchment scroll, trimmed with crown head-pieces; cups made by German and Russian silversmiths; silver, pewter and brass Hanukah lamps.

The exhibit, designed to acquaint the public with Jewish creations in the field of visual arts, is being held in conjunction with the National Women's League of United Synagogue's convention in Minneapolis and Religion in Life Week on the University of Minnesota campus. The Minnesota Hillel Foundation is one of the sponsors of the display.

The University gallery is open from 8 a.m. to 5 p.m. week days and evenings when Northrop auditorium is open for special events.

U: JOURNALISM
SCHOOL HONORED

(FOR IMMEDIATE RELEASE)

Minneapolis --Two publications on the professional training of journalists and radio broadcasting personnel just issued by the Paris headquarters of the United Nations Educational, Scientific and Cultural Organization give special recognition to the University of Minnesota school of journalism.

Maurice Gorham, British author of the UNESCO publication, "Training for Radio", cites the Minnesota school as a "good example" of the American university which follows a policy of relating specialized studies in radio journalism to a liberal arts education. He also commends the school for its teaching facilities.

Dr. Robert W. Desmond, the author of "Professional Training of Journalists", calls attention to the establishment at Minnesota of the first research division in a journalism school. The school's curriculum is outlined in some detail in the volume.

Gorham is the former editor of the Radio Times, London, and director of staff training of the British Broadcasting corporation. Dr. Desmond teaches journalism at the University of California.

UNESCO published the volumes to survey the progress made in various countries in meeting the demands for trained personnel on the part of newspapers and broadcasting organizations.

UNIVERSITY REPORTS
INCOME, EXPENDITURES
FISCAL YEAR 1949-50

(FOR RELEASE THURSDAY, NOV. 16, 1950)

Minneapolis -- University of Minnesota expenditures for the fiscal year ending June 30, 1950, totaled \$46,393,884.34, while the institution's income for the year amounted to \$46,390,599.23, according to a summary of the University's financial operations released today by W. T. Middlebrook, business vice president.

University income from the State of Minnesota added up to \$21,830,160.36 or approximately 47 per cent of the year's total, Middlebrook reported. During the previous fiscal year, the University derived \$12,541,734.82 or 29 per cent of its \$43,115,378.51 income for that year from the State.

Decreasing enrollment with resulting shrinkage in tuition receipts accompanied by rising prices and increased cost of operation force the University to draw more heavily on the State for its required revenue, Middlebrook stated in explaining the increase in the State's share of the University's income.

Middlebrook also pointed out that the enrollment decrease has been principally among World War II veterans for whose tuition the federal government reimburses the University at a rate more than double that of the resident tuition fee. Thus, as veterans complete their college work and leave the University, tuition revenue drops off at an accelerated rate.

The State's \$21,830,160.36 contribution to the University's 1949-50 income consisted of: a Legislative maintenance appropriation of \$12,252,019; a Legislative appropriation of \$1,064,437 for special projects administered and carried on by the University for the general benefit of the people of the State; receipts amounting to \$295,992.47 from the 23/100 mill tax, the standing direct property tax for the general support of the University;

(MORE)

The State's share of the cost of caring for indigent patients at University Hospitals, \$698,315.38; an additional \$94,394.51 from the so-called "swamp land fund", representing the University's share of income from a fund the principal of which was derived from the sale of lands set aside by the State; and \$7,425,000 drawn from Legislative appropriations for new buildings.

Other sources of University income for the fiscal year were reported by Middlebrook as follows: fees and receipts, \$9,071,125.60 including \$4,541,141.49 in student tuition fees; service enterprises and revolving funds, \$7,908,215.70; income from the permanent University fund (principal \$25,807,029.24 on June 30, 1950), \$566,637.23; from trust funds, \$4,855,290.83; intercollegiate athletics, \$892,126.31; and from the federal government for instruction, agricultural research and agricultural extension work, \$1,267,043.20.

Available University funds for the year also included \$6,899.32 representing the free unencumbered balance remaining from the previous year's operations.

Largest expenditure by the University for the year 1949-50 was \$18,315,540.42 paid out for instruction and research. This includes the expense of college instruction and research, the Duluth Branch, the agricultural schools and experiment stations, University Hospitals, summer session and agricultural and general extension activities.

Expansion of the University's physical plant resulted in an outlay of \$8,624,953.44 during the fiscal year, Middlebrook reported. This sum was applied against construction costs as follows: Morris school of agriculture heating plant, \$131,264.09; Crockston school water system, \$25,767.49; chemical engineering building, \$839,842.38; classroom building, Johnston hall, \$276,185.61; boiler, central heating plant, \$237,598.14; dormitory for men, \$1,736,451.42; social science building, Ford hall, \$489,019.71;

(MORE)

Veterinary medicine building, \$563,940.53; home economics building additions, \$60,441.94; animal and poultry husbandry building, Peters hall, \$473,853.36; winter sports building, \$69,797.16; Duluth science building, \$378,367.04; Williams arena improvements, \$918,911.33; bookstore remodeling, \$104,876; Pattee hall remodeling, \$47,444.86; heating plant, St. Paul campus, \$59,487.47; Agricultural hall, Morris, \$28,169.79; storm sewer, \$85,927.59; mechanical-aeronautical engineering building, \$359,815.51; Mayo Memorial Medical center, \$126,623.99; health service addition, \$567,699.66; Variety Heart hospital, \$526,812.72; purchase of real estate, \$128,038.48; relocating Fifteenth avenue, \$41,790.04; and miscellaneous, \$276,827.13.

Expenditures for self-supporting service enterprises and revolving funds totaled \$7,130,470.58, according to Middlebrook. Included are expenditures for University enterprises and revolving fund organizations such as dormitories, dining halls, veterans' housing, printing, laundry, the University Press, department of concerts and lectures, the University Theater, the health service, seed distribution fund, towels funds, locker funds and private duty nurses' fund.

Trust fund expenditures for teaching and research, care of the sick, scholarships, fellowships, prizes and other trust purposes utilized \$4,034,280.56 of the University's available funds during the year, while the expenses of maintaining and operating the buildings and effecting improvements on the St. Paul and Minneapolis campuses required an outlay of \$2,835,262.99.

General University expenditures during 1949-50 totaled \$1,911,918.09. Included in this item are the expenses of the library, general bulletins and publications, campus lectures and convocations, operation of the University storehouses, truck service, inter-campus trolley and other services of an all-University character.

Administration of the University for the year cost \$1,246,628.21, while the operating expenses of intercollegiate athletics and that part of the physical education expense paid from receipts of intercollegiate athletics totaled \$801,996.45.

Transfers and adjustment of funds during 1949-50 represented an expenditure of \$1,422,833.60, Middlebrook reported, and the University closed the year with a free unencumbered balance of \$3,614.21.

At the close of the fiscal year, the University's total endowment, including the permanent University fund of \$28,807,029.24, student aid funds (scholarships, prizes and loans) of \$884,840.45 and \$440,078.46 in unassigned funds operating temporarily as an endowment, amounted to \$36,220,217.01.

University-owned land as of June 30, 1950, consisted of 16,076.88 acres valued at \$5,989,016.76, while the University's 562 buildings had an estimated value of \$42,346,971.10. University equipment was valued at \$18,026,436.53 and included \$203,065 in livestock and \$6,943,119.13 in books and museum collections.

Minneapolis —Men and women who direct counseling activities at American colleges and universities will meet for a four-day conference at the University of Minnesota Monday through Thursday (Nov. 13-16).

The administrators will discuss a wide variety of counseling problems in the University's Center for Continuation Study.

Frank M. Fletcher, Jr., director, Occupational Opportunities service and associate professor of psychology, Ohio State university, Columbus, O., will talk on problems relating to counseling personnel. Another visiting lecturer will be John L. Holmes, director, testing bureau, Iowa State college, Ames, Ia.

Two representatives from the University of Illinois, Urbana, Ill. will also be on hand to lead discussions: O. Hobart Mowrer, research professor of psychology, and William Gilbert, director of the student counseling bureau and assistant professor of psychology.

Informal discussions, in which all the administrators will participate, are scheduled each day. They will cover such things as in-service training for counselors, student relations, projective tests, selection of counselors, comparisons of counseling methods, purposes of the counseling program and group guidance.

Paul L. Dressel, chairman, board of examiners, Michigan State college, East Lansing, Mich., and Harold B. Pepinsky, director, student counseling center and associate professor of psychology, State College of Washington, Pullman, Wash., will make the final evaluations at the counseling conference.

Minneapolis --The Minneapolis Symphony orchestra will play its first concert of the season for Minneapolis young people in Northrop Memorial auditorium at 1:30 p.m. Thursday, Nov. 16.

KUOM, the University radio station, will broadcast the program from 1:30-2:30 p.m. Thursday (Nov. 16). A preview of the concert will be featured over KUOM's School of the Air from 2:30-3 p.m. Wednesday, Nov. 15.

Burton Paulu, manager of KUOM, will interview the symphony conductor, Antal Dorati, on the preview show. Several Minneapolis school children will also participate in the program.

The Minneapolis Symphony preview broadcast will be aired by KUOM preceding each of the other four Minneapolis young people's concerts. The show is designed to background listeners on music which the orchestra will play, preparing them for the concert performance.

In May, 1950, the preview series won a first place award from the Institute for Education by Radio in Columbus, O.

Other Symphony concerts for Minneapolis young people are scheduled for Nov. 30, Jan. 25, Mar. 15 and 20.

Minneapolis — Four Minnesota experts on mental health will represent the state at the 1950 annual conference of the Milbank foundation to be held at the New York Academy of Medicine Monday through Thursday (Nov. 13-16).

Lecturing at the conference called to consider biological aspects of mental health and disease will be two University of Minnesota faculty members. Dr. Ansel Keys, director of the laboratory of physiological hygiene, will discuss the development of neurosis in starvation, and Dr. Russell M. Wilder, Rochester, professor of medicine in the Mayo Foundation of the University's graduate school, will lecture on the neurosis resulting from thiamine deficiency.

In addition to Drs. Keys and Wilder, Minnesota will be represented at the conference by Dr. Ralph Rossen, state commissioner of mental health and lecturer in neurology at the University, and Dr. Milton Brown, acting superintendent of Hastings state hospital.

Attendance at the meeting is limited to invited experts who will hear and discuss 37 lectures on the subject of mental health.

NEW BOOK TELLS
STORY OF FAMED
HALF-BREED SCOUT

(FOR IMMEDIATE RELEASE)

Minneapolis --"Iron Face", a book relating the adventures of Jack Frazer, a half-breed Sioux Indian warrior, scout and hunter, edited by Dean Theodore C. Blegen of the University of Minnesota graduate school and Sarah A. Davidson of St. Paul, will be published Wednesday (Nov. 15) by the Caxton club of Chicago.

Publication of the book will be limited to an edition of 500 copies.

The book is unusual in that it presents the American Indian from the Indian's own point of view. Frazer's narrative was taken down from his own lips in the 1850's by Henry Hastings Sibley, first governor of the State of Minnesota and a long-time Regent of the University.

Although printed serially during the 1860's in a St. Paul newspaper, the story has never appeared up to this time between the covers of a book.

Dean Blegen and Miss Davidson have written an introduction to the book and have supplied explanatory footnotes throughout the text. Published primarily for Caxton club members, the book will be available in limited numbers to non-members.

Jack Frazer, known among the Sioux as "Iron Face", was an unruly member of his own tribe, and evidently a notorious figure among the whites of the frontier. His gun bore many notches, and there is little effort in his relation to gloss over the bloody episodes in which he played a part. Late in life when Frazer had adopted the ways of the white man, however, his conscience did trouble him because the crimes of his wild youth had included the murder of women.

(MORE)

"Iron Face" is an unposed and unretouched document that shows the Indian as he really was. There is in it no romance, no melodrama, no sentiment, and almost nothing that falls under the head of literary craft. Yet, as Stanley Vestal observes in the foreword, this formless and "inartistic" book contains a close-up picture that is rare, if not unique, among books and documents dealing with the Indian. Nearly all the literary pictures we have of the Indian were written by white men, and the writers were too often unsympathetic or even contemptuous. Rarely indeed was the white reporter proof against the temptation to lay on the lurid colors of sensation expected by readers back in the settlements.

Frazer did not care the hoot of a prairie owl about the sensation seekers. He told about his people as they really were, about their tribal institutions and religious customs, and about the rather systematic ways in which they went about food-getting, scalp-hunting, courting - and even getting drunk. Many interesting characters emerge from this unvarnished narrative, but none of them more human and memorable than Jack's delightful uncle, Wakoota, who shared with Jack an addiction to pranks and practical jokes.

Dean Blegen, associated with Miss Davidson in the editing of this work, is also a professor of history at the University. He is widely known as the editor and author of many books and as an authority on the history of the Northwest.

The present volume was printed and bound for the Caxton Club by The Lakeside Press, Chicago, and the design is by Walter Howe and Albert Schlag. Formal publication ceremonies will take place in Chicago Saturday (Nov. 18), when the Caxton club will hear an address by Dean Blegen on the discovery of the narrative and the adventures of the editors in preparing it for publication.

Minneapolis —Religious music, presented by choral and instrumental groups, will be featured at the University of Minnesota convocation Thursday (Nov. 16) at 11 a.m. in Northrop Memorial auditorium. The program is one of the highlights of Religion in Life Week, now underway on the University campus.

The convocation, open to the public without charge, will also be broadcast over KUOM, the University radio station, at 11 a.m. Thursday (Nov. 16).

Accompanied by organist Edward Berryman, the St. Paul campus chorus will sing two groups of hymns under the direction of Earl V. Rymer, University music instructor. "Onward Christian Soldiers", sung by the chorus with organ and trumpet accompaniment, will climax the program.

Berryman will play three Bach selections: "Toccata and Fugue in D minor", the adagio from the fifth violin sonata and "Come Sweet Death". He will also perform the scherzo from Vierne's second symphony and Mulet's "Thou Art the Rock".

Harpist Lorraine King, musical director at Jordan junior high school, Minneapolis, and a University graduate, will play Rousseau's "Variations Pastorale".

Burton Paulu, manager of KUOM, will act as commentator through the program. The convocation has been planned and directed by Berryman, University music instructor.

Minneapolis -- Directors and head counselors of college dormitories and residences will meet for a conference at the University of Minnesota's Center for Continuation Study Monday through Wednesday (Nov. 20-22).

Discussion will center on problems which arise in various types of residential counseling programs. Delegates to the conference will outline the aims of their respective counseling systems.

Workshop meetings on counseling, student government and group work in college dormitories and residences will be held each of the three days.

Lectures on such topics as needs of college students met through residential counseling, criteria for selection of residential counselors and orientation and training of counselors are scheduled on the program.

The course has been planned by the dean of students office at the University in cooperation with the Center for Continuation Study. University specialists and experts from other institutions will lead the discussions.

Directors of personnel, counselors for men and women, deans of men and women and deans of students are also eligible to attend, provided that they have dormitory counseling responsibilities.

Minneapolis --Philosophy of education will be the topic for a two-day discussion at the University of Minnesota's Center for Continuation Study Friday and Saturday (Nov. 17-18).

R. Bruce Raup, from the department of social and philosophical foundation, teachers' college, Columbia university, New York, will lecture during the opening session of the course at 4 p.m. Friday (Nov. 17). He will outline five crucial questions in the philosophy of education.

The course is designed to stress the importance of value judgments in practical affairs. It is being put on with the cooperation of the Philosophy of Education society, region 12.

Saturday morning (Nov. 18) at 9 a.m., the society will conduct a business meeting in conjunction with the course. Discussion of the questions presented by Professor Raup will be continued from 10 a.m. to noon Saturday (Nov. 18).

Three University faculty members, Herbert Feigl, professor of philosophy, Robert H. Beck, associate professor of general education, and Benjamin N. Nelson, assistant professor of general studies, will participate in the discussion.

John Oesterle, professor of philosophy at St. Thomas college, St. Paul, will be another member of the discussion group.

Planned primarily for teachers who are training students in elementary and secondary education and for students of education or philosophy, the two-day course is also open to anyone else interested in the topic.

MOUNTAIN TRAVEL
MOVIE AT U. OF M.
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

"By Sky-crib to Glacier", a colored film picturing the natural beauties of the Teton mountains and Glacier National park, will be shown Sunday (Nov. 19) at 3 p.m. in the auditorium of the Minnesota Museum of Natural History.

Howard Cleaves, wildlife photographer from Staten Island, New York, will act as commentator. The movie is a record of an auto trip which he and his son took through the Wyoming and Montana mountain country.

The term "sky-crib" refers to a berth which Cleaves erected on top of his car for sleeping. Rugged scenery, animal life and colorful mountain flowers are shown in the film.

"By Sky-crib to Glacier" is the third program in the museum's annual free public lecture series. Illustrated programs are held in the museum auditorium, located on the University of Minnesota campus, every Sunday at 3 p.m.

Sunday, Nov. 26, a sound film, "The Life of the Eskimos --- Their Arts and Crafts", will be shown. The programs are arranged by Dr. Walter J. Breckenridge, director of the Minnesota Museum of Natural History.

MOVIES OF 1948
OLYMPIC GAMES

(FOR IMMEDIATE RELEASE)

"Olympic Games of 1948", the first complete documentary of the famous international sports event, will be shown in Northrop Memorial auditorium Wednesday, Nov. 22, by the University of Minnesota Film society.

Two of America's top sportscasters, Ted Husing and Bill Stern, are the narrators for the movie. Filmed in technicolor, the documentary has caught the thrills and pageantry of the world-wide competitions.

The 1948 Olympics were held in London, except for the winter games, which took place in Switzerland.

Events of special interest have been recorded in slow motion. Minnesota's Fortune Gordien, who holds the world record for discus throwing, is one of the star athletes in the film. Figure skater Dick Button, Swimmer Ann Curtis, diver Victoria Draves and runner Mel Patton are some of the others shown in action.

A British-American production, the movie has English commentary throughout. General admission to both showings, scheduled at 4 and 8 p.m., is 60 cents.

Artist Ralston Crawford will speak on "Painting in Our World" at the University of Minnesota Monday (Nov. 20). His lecture, the second in a series called "The Arts in Our Industrial World", will be given at 3 p.m. in the Minnesota Museum of Natural History auditorium.

The special lecture, sponsored by the University department of concerts and lectures, is open to the public without charge.

Crawford, a visiting artist on the University of Minnesota campus during 1949, has taught at art schools and universities all over the country. His paintings and drawings hang in many collections.

Exhibits of his work are displayed at the Metropolitan Museum of Art, New York; Library of Congress, Washington, D.C.; Albright Art Gallery, Buffalo, N. Y. and in other U.S. galleries.

Crawford has studied extensively in Rome, Madrid, Naples and Paris. During 1927-1930, he was at the Pennsylvania Academy of Fine Arts where he worked with Hugh Breckenridge and Henry McCarter.

He served in the Pacific theater during World War II. On the trip to Bikini, Operation Crossroads, in 1946, he was the only artist press representative.

Lectures on other arts in "our industrial world" -- architecture and design, the films and literature -- will be held early next year.

THIRD OF NEW 'U'
STUDENTS ENROLL
IN ROTC PROGRAM

(FOR IMMEDIATE RELEASE)

Minneapolis -- One out of every three new men students who registered at the University of Minnesota this fall enrolled in the Reserve Officers Training Corps program.

Newcomers to the ROTC program total 788 -- 363 in the Army courses, 331 in the Air Force and 94 in the Navy course. Fall quarter a year ago, only 173 University newcomers signed up for ROTC -- 84 in the Army, 41 in the Air Force and 48 in the Navy.

Total ROTC enrollment this fall is 1,662, including 834 in the Army, 577 in the Air Force and 251 in the Navy program. This is more than double the enrollment last spring quarter when 775 cadets were on the ROTC rolls, 392 in the Army, 203 in the Air Force and 180 in the Navy.

The University of Minnesota is the only land-grant university in the United States which operates its ROTC department on a voluntary rather than a compulsory enrollment basis.

U. OF M. ENROLLMENT
GROWTH OUTDISTANCES
BUILDING PROGRAM

(FOR RELEASE 11 A.M. SATURDAY, NOV. 18, 1950)

Minneapolis — The University of Minnesota's growth in enrollment during the decade 1940-50 has been more than double that of its physical plant during the same period, R. E. Summers, dean of admissions and records, reported to the Board of Regents today (Nov. 18).

While the University's building program has increased the total floor space on the Twin Cities campuses 15.6 per cent in the last 10 years, present enrollment on these campuses stands 35 per cent above the 1940 attendance mark.

Dean Summers advised the Regents that the University can anticipate a 20 per cent enrollment increase beyond the present level on the Twin Cities campuses during the next 10 years and another 16 per cent above the 1950 mark between 1960 and 1965. These estimates are based on present school and pre-school populations in Minnesota.

In addition to the obvious need for further plant expansion to accommodate the large student body of the near future, Dean Summers pointed out that it is clear that demands for University research will undoubtedly increase tremendously during the next decade. Just before World War II, the dean explained, only 7.6 per cent of the University's instructional and research space was allocated for sponsored research carried on for government agencies, agriculture, business and industry. At the present time, sponsored research takes up 23.5 per cent or almost one-fourth of the space available for teaching and research.

"Space for maintenance and services, such as laundry, storehouses and cafeterias, has remained essentially constant during the last 10 years or has actually decreased because of the demand for instructional space," the dean reported. He cited as an example the "critical and hazardous situation" existing in the University's chemical storehouse which is now handling 12 to 15 times the volume of chemicals it was built to accommodate.

(MORE)

On a per student basis, existing University buildings in Minneapolis and St. Paul provide 142.13 square feet of floor space per student as compared with 168.54 square feet in 1940. The United States Office of Education in its "Hollis report" recommends 182 square feet per student plus research and administration space. Research and administration space is included in the Minnesota per student figures.

Even upon completion of University buildings now under construction or authorized to be built on the Twin Cities campuses, Dean Summers explained, the total per student space figure will be only 166 square feet, still under the University's 1940 figure and far below the standards recommended by the Office of Education. Completion of these buildings will bring the increase in total floor space on the two campuses to less than 25 per cent over the 1940 total, he added.

"We are getting 50 per cent more use out of our classrooms than most other large universities," Dean Summers told the Regents, "principally by resorting to a 54-hour class schedule per week and by maintaining strict control of all space assignments."

He explained that while University classes are operated on a 54-hour schedule, many other large schools base their schedules on a class week of from 40 to 45 hours.

All classroom, laboratory and office space on the Twin Cities campuses, he added, is under the control of the admissions and records department and is allocated on the basis of efficient utilization and proved need so that the fullest possible use can be made of every available foot of floor space.

Every effort is made, the Regents were assured, to fit scheduled classes to campus classrooms. As many as 500 or 600 changes in room assignments must be made before the opening of each quarter, the dean said, to readjust classes to fit into available rooms and to match class size and seating capacity.

LIFE OF ESKIMOS
FILM AT U. OF M.
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

A colored sound film, "The Life of the Eskimos -- Their Arts and Crafts", will be shown at 3 p.m. Sunday (Nov. 26) in the auditorium of the Minnesota Museum of Natural History.

Photographed by the Canadian government, the movie is a documentary of the Eskimo way of life. It shows the Eskimo's utensils, how they are made and used; his clothing; his living quarters; how he gets food; and the frigid weather conditions north of the Arctic circle.

The movie was filmed in the tundra country northeast of Hudson's Bay.

All Sunday afternoon programs at the museum, located on the University of Minnesota campus, are open to the public without charge. Sunday, Dec. 3, Dr. W. J. Breckenridge, director of the museum, will give an illustrated lecture on "The Red Lake Bog".

Dean Russell M. Cooper, University of Minnesota professor, will speak on college teaching during a two-day meeting at Ohio university, Athens, O., Dec. 1-2. He will address a regional conference on the improvement of instruction.

"The Challenge of College Teaching" will be Dean Cooper's topic Dec. 1. The following day, Dec. 2, he will outline "What Other Faculties Are Doing".

Dean Cooper, assistant dean of the college of science, literature and the arts at the University of Minnesota and associate professor of general studies and political science, will also participate in several panel discussions at the two-day meeting.

The conference is primarily for the Ohio university faculty, but staff members from neighboring colleges will also be present.

Dean Cooper and Theodore C. Blegen, dean of the University of Minnesota graduate school, are editors of "Preparation of College Teachers" -- an account of a national conference on improvement of education held in Chicago last December.

"Olympic Games of 1948", a technicolor film of the famous international sports competitions, will be shown in Northrop Memorial auditorium at the University of Minnesota at 4 and 8 p.m. Wednesday (Nov. 22).

Bill Stern and Ted Husing, two of America's best known sports announcers, are commentators for the movie. This is the first film ever made of the Olympics. The 1948 field events were held in London, except for the winter games which took place in Switzerland.

Events of special interest are recorded in slow motion, including the disputed 400 meter relay — which was finally awarded to the United States team when judges saw that the baton had been passed legally.

Outstanding American athletes, among them Minnesota's discus-throwing Fortune Gordien, are shown in action. The movie is a British-American production and will be presented by the University Film society.

Two public lectures on workmen's compensation will be presented at the University of Minnesota Tuesday, Nov. 28, and Wednesday, Nov. 29. Both are scheduled at 2 p.m. on the respective days in Room 101 of the law school.

Professor Stefan A. Riesenfeld, member of the University's law faculty, will speak at the two meetings. Tuesday, Nov. 28, he will discuss "Forty Years of Workmen's Compensation", outlining the changes and modern trends in protection of injured workmen -- with special emphasis on Minnesota problems.

"Problems of Workmen's Compensation Procedures" will be Riesenfeld's topic at the second lecture, Wednesday, Nov. 29. He will cover such subjects as schedule awards, disability awards and claims problems.

Both meetings are open to attorneys, personnel managers, safety directors, labor leaders and the public without charge. The series is sponsored by the National Association of Claimants Compensation Attorneys in cooperation with the University law school and the Industrial Relations Center.

The two lectures will be presented in honor of James Gleason, distinguished former chairman of the Massachusetts Industrial Accident Board.

CO-OP MANAGERS'
COURSE SCHEDULED
NEXT WEEK AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis — Management of cooperatives will be the topic for a three-day seminar at the University of Minnesota Center for Continuation Study Monday through Wednesday, Nov. 27-29.

The course, open to all cooperative managers in this area, will cover three main points: recent developments in good management, basic principles underlying human relations and job instruction methods.

Elmer John, personnel director, Midland Cooperative Wholesale, Minneapolis, will discuss the "Personnel Point of View" Monday afternoon, Nov. 27. Current economic problems of cooperatives will be outlined by E. Fred Koller, professor of agricultural economics, at the closing session Monday.

Daily meetings on policy, objectives and organization in good management will be conducted by Edward Schleh, management consultant, Minneapolis. Harold T. Widdowson, associate professor of industrial education, will speak on job instruction methods Tuesday and Wednesday, Nov. 28-29.

Wendell White, associate professor of psychology, will lecture during the "Getting People to Act" sessions Monday, Tuesday and Wednesday, Nov. 27-29. Another series in the course, "Records — A Management Tool", will be presented by Walter Ezzell, operations department, Midland Cooperative Wholesale.

Group discussions, at which cooperative managers will have a chance to "air out" their specific problems, will also be scheduled.

FILM COMING TO 'U'

(FOR IMMEDIATE RELEASE)

"Symphonie Pastorale", a French film starring Michele Morgan, will be shown in Northrop Memorial auditorium at the University of Minnesota at 4 and 8 p.m. Wednesday, Nov. 29.

The plot is taken from an early novel by Andre Gide, Nobel prizewinner. A pastor, played by Pierre Blanchar, befriends a blind girl, Michele Morgan. His charitable feelings toward her slowly turn into an overpowering love. The story reaches its high point when the pastor's son becomes a rival.

Jean Delannoy is director of the film, which has English sub-titles. The University Film society is sponsoring the showing.

"Blanche Fury", an English technicolor film, will conclude the fall series of film programs at the University Wednesday, Dec. 6.

YOUNG MUSICIANS'
AUDITIONS SLATED
APRIL 7 AT U. OF M.

(FOR IMMEDIATE RELEASE)

Minneapolis -- Auditions for the annual Young Artists' and Student Musicians' contests will be held in Scott hall on the University of Minnesota campus Saturday, April 7, 1951.

Both competitions are sponsored by the Minnesota division of the National Federation of Music Clubs. They are open to all young musicians in the state.

The Young Artists' contest is divided into four classes -- piano, violin, organ and voice. Singers 23-25 years old are eligible for the vocal auditions, while the instrumental auditions are limited to musicians 20-30 years old.

Winners in the state audition will compete for national honors. An award of \$1,000 or a New York Town hall recital during the 1951-52 season will be given to first place winners in piano, violin and voice. At least one of them will be offered a managerial contract. Final winner in the organ class will receive \$1,000.

The Student Musicians' contest is open to students from 16-25 years old. They may audition in five different classes -- piano, violin, cello, organ or voice. Winners enter final district competitions, since no national auditions are held in this contest.

Application blanks for musicians who plan to compete in either contest are due before March 24, 1951. They should be mailed to Mrs. W. F. Woolery, 2195 Hendon Ave., St. Paul, state chairman of the National Federation of Music Clubs.

(FOR RELEASE SUNDAY, NOV. 26)

Rolf Persinger, new principal violist for the Minneapolis Symphony orchestra, and pianist Paul Oberg, chairman of the University of Minnesota's music department, will play a special concert in Northrop Memorial auditorium at 8:30 p.m. Thursday (Nov. 30).

The recital — the first viola and piano concert held at the University in many years — is open to the public without charge.

Two musical works, never before heard in Minneapolis, have been scheduled on the program. One is Eugene Ysaye's "Ballade for Viola, Op. 27, No. 3", the other is John Verrall's "Sonata for Viola and Piano".

Accompanied by Oberg, Persinger will also perform Johannes Brahms' "Sonata in F Minor, Op. 120, No. 1", Hayden-Piatigorsky's "Divertimento" and a group of three shorter numbers: "Prelude, Op. 123" by Emanuel Moor, "Après un Reve" by Gabriel Faure and "Galop" by Vaughan Williams.

Persinger will use a viola made by Maggini in 1652 A.D. during the concert. Besides playing with the Minneapolis Symphony, he also teaches viola and violin at the University.

Entirely American trained, Persinger studied for several years under his father Louis Persinger, teacher of Yehudi Menuhin and Issac Stern. He graduated from the Juilliard School of Music and then played with such groups as the NBC Symphony, the All American Orchestra under Stokowski, the Louisville Symphony and the Guilet String Quartet.

The joint Persinger-Oberg concert is sponsored by the University's department of music.

COLORED FILM OF
WESTERN MOUNTAINS
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

"By Sky-crib to Glacier", a colored film showing the natural beauties of Glacier National park and the Teton mountains, will be featured in the convocation program in Northrop Memorial auditorium at 11 a.m. Thursday (Nov. 30).

Noted wildlife photographer, Howard Cleaves -- from Staten Island, N. Y., will act as commentator. The movie is a record of a motor trip which he and his son took through the rugged Montana and Wyoming mountains.

It pictures the colorful scenery of the country, the wild flowers and the animal life. The term "sky-crib" refers to a sleeping tent which Cleaves built on top of the car.

Photographs by Cleaves have been published in the National Geographic Magazine, Saturday Evening Post and Popular Science Monthly. He is a trustee of the Staten Island Institute of Arts and Sciences and a member of many natural history and scientific societies.

All University of Minnesota convocation programs are open to the public without charge. They are sponsored by the University's department of concerts and lectures.

'RED LAKE BOG'
COLOR FILM AT 'U'
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

Northern Minnesota wildlife, flowers and swampy muskeg country will be shown in a colored motion picture, "The Red Lake Bog", at 3 p.m. Sunday (Dec. 3) in the Minnesota Museum of Natural History at the University of Minnesota.

Dr. Walter J. Breckenridge, director of the museum, will act as narrator. The picture was taken during several summer and winter expeditions which he made through the bog -- a large flooded area between Lake of the Woods and Red lake.

Attempts to reclaim the land for farming have failed. Now the swampy muskeg is inhabited by hundreds of moose, deer, bobcats and other wildlife. Dr. Breckenridge, who traveled through the bog in a jeep, also photographed the flowers and such birds as the ruffed and spruce grouse.

"The Red Lake Bog" is one of the programs in the museum's free Sunday afternoon lecture series. Lectures are scheduled at 3 p.m. each Sunday through April 8 -- with two exceptions, Dec. 24 and Dec. 31.

On Sunday, Dec. 10, the program will consist of a colored sound film, "Deserts", showing how living things adjust to extreme variations in temperature and moisture.

UNIVERSITY PRESS PUBLISHES
MEMOIRS OF EARLY
SWEDISH PIONEER

(FOR RELEASE FRIDAY, DEC. 1, 1950)

Minneapolis — How America looked to a newcomer to the country 100 years ago is described in a book of memoirs published today (Dec. 1) by the University of Minnesota Press, "A Pioneer in Northwest America, 1841-1858". The new book is the first volume of the memoirs of Gustaf Unonius, a leader of one of the earliest groups of Swedish immigrants to the Midwest.

The memoirs and other writings of Unonius were published and widely circulated in Sweden in the last century and stimulated much interest in Swedish emigration to the United States. The volume now issued is the first English translation of the work.

Journeying from his home at Uppsala, Sweden, to the Midwest, Unonius took a land claim in Wisconsin Territory, where he founded a small settlement, New Uppsala, at Pine Lake, north of Milwaukee.

The book recounts details of the long voyage from Sweden to New York city, the trip up the Hudson river to Albany, across the Erie canal to Buffalo, and by Great Lakes steamer to Detroit and then to Milwaukee. The experiences of hewing a farm out of the wilderness are described, along with detailed observations and descriptions of the natural resources of the region, the ways of the early settlers and the Indians, and the religion and politics of the new country.

Unonius, a graduate of Uppsala university in Sweden, became an Episcopal clergyman during the later years of his stay in America and founded the Scandinavian Episcopal church in Chicago. He returned to Sweden after 17 years in this country.

The new volume was translated from the Swedish by Jonas Oscar Backlund, editor of the Swedish language newspaper, "Svenska Amerikanaren Tribunen", Chicago. It was edited by Nils William Olsson, now serving with the American legation in Iceland, on leave from the University of Chicago. The introduction is by George M. Stephenson, professor of history, University of Minnesota. The Swedish Pioneer Historical Society, with headquarters in Chicago, sponsored publication of the book.

'U' WILL CONDUCT
CONFERENCE IN DULUTH
ON JOB SECURITY

(FOR IMMEDIATE RELEASE)

Minneapolis -- Union officials, personnel and industrial relations managers and educators will meet in Duluth Friday and Saturday (Dec. 1-2) for a two-day conference on employment security.

The program -- open to anyone who registers -- will be held in the main ballroom of the Duluth Chamber of Commerce suite, Medical Arts building. It has been arranged by the University of Minnesota through the facilities of its Industrial Relations Center, Center for Continuation Study and the Duluth office of the general extension division.

William B. Barton, director of employer-employee relations, U.S. Chamber of Commerce, Washington, D.C., will open the conference Friday noon (Dec. 1) with a talk on "Private Enterprise and Unemployment".

"Current Developments in Collective Bargaining on Pension Plans" will be outlined Friday evening (Dec. 1) by Samuel C. Evett, representative, United Steelworkers of America, District 33, East Chicago, Ind. He will speak during a dinner meeting in the Royal room at 6:30 p.m.

Saturday (Dec. 2) a group of specialists will discuss such vital problems as unemployment, wage security, old age security, unemployment and workmen's compensation and temporary disability insurance. Sessions will start at 9 a.m. and continue until 4:45 p.m.

Glenn Peterson, president, Minnesota State Industrial Union Council, Duluth; Dale Yoder, director of the University's Industrial Relations Center, Minneapolis; and LeMont S. Crandall, supervisor, old age assistance, division of social welfare, St. Paul, will be among the speakers.

Registrations should be made with William A. Porter, University of Minnesota general extension division, 504 Alworth building, Duluth.

CHILD WELFARE
BOOKLET ISSUED
BY U. OF M. PRESS

(FOR IMMEDIATE RELEASE)

The twenty-fourth book in the series of Child Welfare Monographs issued by the University of Minnesota Press in cooperation with the University's Institute of Child Welfare was published Wednesday (Nov. 29). The new study is "The Development of Reasoning in Children with Normal and Defective Hearing" by Mildred C. Templin, associate professor of child welfare at the University.

In her research, Miss Templin tested the reasoning ability of children and adolescents whose environment was restricted by defective hearing, by residence in an institution, or by both factors. The reasoning tests were analyzed for matched groups of pupils in state schools for the deaf, in special classes for the defective hearing and in public schools. The study provides material useful to psychologists, educators and others concerned with teaching the hard-of-hearing.

The Child Welfare Monograph series is one of the earliest projects of the University Press. The first monograph was published in 1927, shortly after the Press was organized. Most of the authors of studies in the series are members or former members of the Institute of Child Welfare staff.

'U' FILM SOCIETY
TO SHOW ENGLISH
PRODUCTION DEC. 6

(FOR IMMEDIATE RELEASE)

"Blanche Fury", an English film starring Valerie Hobson and Stewart Granger, will be shown in Northrop Memorial auditorium Wednesday, Dec. 6, by the University of Minnesota Film society. Two performances are scheduled -- 4 and 8 p.m.

Filmed in technicolor, the movie is a tense drama. The plot centers around Stewart Granger, an illegitimate son, obsessed with a burning desire to win back the Fury family estate from a group of pretenders.

Valerie Hobson, married to one of the "false" Furys, is also his sweetheart. His near-madness to regain possession of Clare hall eventually changes her love into horror.

"Blanche Fury" concludes the Film society's fall series of movies. Announcement of the winter program will be made early in January.

'U' SHORT COURSE

(FOR IMMEDIATE RELEASE)

Minneapolis -- Medical men from Minnesota and several surrounding states will attend a three-day clinical chemistry course at the University of Minnesota Thursday through Saturday, Dec. 7-9.

The course, designed primarily for internists, pediatricians and general physicians, will emphasize the use of clinical chemistry in the diagnosis and management of medical problems. All meetings will be held in the University's Center for Continuation Study.

Dr. John T. Merrill, visiting lecturer for the course, will discuss kidney ailments Friday afternoon, Dec. 8. He is instructor of medicine for the Harvard university medical school and junior associate in medicine, Peter Bent Brigham hospital, Boston.

Several University of Minnesota faculty members will give talks on such topics as carbohydrate and calcium metabolism, water and electrolyte balance, liver function tests, kidney function and thyroid disorders.

Speakers will include Dr. Gerald T. Evans, professor of medicine, director of University hospital laboratories and the medical technology course; Dr. Wallace D. Armstrong, professor and head of physiological chemistry; Dr. Cyrus P. Barnum, associate professor of physiological chemistry; and Dr. F. R. Keating, Jr., assistant professor of medicine at the University's Mayo Foundation, Rochester.

The course will start at 9 a.m. Thursday, Dec. 7, and continue through noon Saturday, Dec. 9.

FILM ON KOREA
AT U. OF M. DEC. 7

(FOR IMMEDIATE RELEASE)

Col. Homer F. Kellems, former member of Gen. MacArthur's staff, will show his colored motion picture "Embattled Korea" at 11 a.m. Thursday, Dec. 7, in Northrop Memorial auditorium.

The movie of present-day life in South Korea is the final program on the University of Minnesota's fall convocation series.

Col. Kellems returned to this country last April, after four years of active service in Asia. Scenes in "Embattled Korea" -- the modern buildings, age-old rituals, the villages and cities, the festivals and everyday life in South Korea -- were all taken within the last year.

An ace photographer, Col. Kellems has covered South Korea from Pusan to the 38th Parallel. His film shows many of the battlegrounds where United Nations troops recently fought.

He has made seven official war films for the army, air force and navy. For a time, he was chief of troop information on MacArthur's general headquarters staff in Tokyo.

All University convocations are open to the public without charge.

TAX LAW COURSE
TO OPEN MONDAY
AT U. OF M. CENTER

(FOR IMMEDIATE RELEASE)

Minneapolis --A four-day legal course in estate, inheritance and gift taxes will be offered by the University of Minnesota at its Center for Continuation Study Monday through Thursday, Dec. 4-7.

The program, planned in cooperation with the Minnesota State Bar association, is open to all lawyers in Minnesota and the surrounding states.

Emphasis will be on death and gift taxes, but special sessions on marital deductions, problems of probate in Minnesota, preparation of wills and the handling of tax problems in smaller communities are also scheduled.

Lecturers at the various sessions will cover such topics as computation of taxes due and procedure for collection -- in both federal and state tax systems, remedies available to taxpayers to recover overpayments, permissible deductions, what property is required to be in the gross estate and what constitutes taxable transfers.

Professors Henry Rottschaefer and Edward S. Bade and Assistant Professor Kenneth Andersen of the University law school will speak. Lectures will also be given by Harry S. Blackmun of Rochester, R. C. Alderson, Austin, and Joseph A. Maun, St. Paul.

Other discussions will be directed by George Anderson of the Ramsey county probate court; Louis S. Headley, president, First Trust corporation; Joseph Abdnor, special assistant to the attorney general in the Minnesota department of taxation and Charles Stone, special assistant with the state board of tax appeals. All are St. Paul residents.

COLLEGE STUDENTS
TO HEAR JAPANESE
EVANGELIST AT 'U'

(FOR IMMEDIATE RELEASE)

Dr. Toyohiko Kagawa, Japanese evangelist, will address 1,500 students from Twin Cities colleges and seminaries at noon Monday (Dec. 4) in the main ballroom of Coffman Memorial Union at the University of Minnesota. He will speak on "Christ in the Orient".

Representatives from 20 religious organizations on seven campuses -- Augsburg college, Hamline university, Macalester college, Lutheran Bible Institute, Northwestern Lutheran Theological Seminary and the Minneapolis and St. Paul campuses of the University of Minnesota -- will gather to hear him.

Dr. Kagawa is famous for his religious crusading in Japan. Upon becoming a Christian, he was disinherited, but despite hardships of poverty and poor health he conducted Sunday schools, won converts and fought to overcome slum conditions.

His current lecture tour is his sixth visit to the United States. He conducted evangelistic meetings here during 1914-15, 1924, 1931 and 1936. In 1941, Dr. Kagawa came to America with several of his countrymen in an attempt to prevent the war.

The Minnesota Council of Churches, the Minneapolis Church Federation and the St. Paul Council of Churches are sponsoring his Twin Cities appearances. An interdenominational student committee, working through Dr. Henry E. Allen, coordinator of students' religious activities at the University of Minnesota, has arranged the "Christ in the Orient" lecture.

'U' CONVOCATION
TO OFFER FILM
OF SOUTH KOREA

(FOR IMMEDIATE RELEASE)

"Embattled Korea", a colored movie of Korea as it was before the war, will be shown at 11 a.m. Thursday (Dec. 7) in Northrop Memorial auditorium by Col. Homer F. Kellems, a former member of Gen MacArthur's staff.

The film, picturing many of the battlegrounds where United Nation's troops recently fought, is the last program on the University of Minnesota's fall convocation series.

Col. Kellems has photographed Korea from Pusan north to the 38th Parallel. All scenes in "Embattled Korea" — aerial views of the country, South Korean villages, costumes of the people, their festivals and rituals, native troops on maneuver -- were filmed within the last 12 months.

An ace photographer, Col. Kellems has made seven official war films for the army, air force and navy during his eight years of service. He spent four years in Asia, part of the time as chief of troop information on MacArthur's Tokyo staff.

University convocation programs are open to the public without charge.

(FOR RELEASE WEDNESDAY, DEC. 6)

Minneapolis — Purchase prizes were awarded today (Dec. 6) to 14 prints in the University of Minnesota art gallery's first national print show. The exhibit, which opened today (Dec. 6), will be on display in Northrop Memorial auditorium through Jan. 19.

The gallery will add the award-winning prints to its permanent collection. All fine prints media — mostly lithographs, etchings, engravings, woodcuts and intaglios — are represented in the show.

Among the purchase prize-winners are two Minneapolis artists: Mary Demopoulos of the University art department with her engraving, "Moorish Knight", and Bruce Shobaken, 3023 Cedar ave., with his etching-engraving, "Fourth Magi".

Purchase awards were also received by Richard Koppe of Chicago, cellocut, "Bird"; Ann Didyk, intaglio, "The Mother" and arthur Levine, intaglio, "Cityscape", both of Iowa City, Ia.; Gene Pettit, Chatsworth, Calif., serigraph, "Tensions" and Walter Barker, St. Louis, woodblock, "Composition".

Three New York city artists' prints were among the prize-winners: Seong Moy's color woodcut, "The Old City", Antonio Frascioni's color woodcut, "Aquarium" and Armin Landeck's engraving, "Narrow Street".

Both prints submitted by Robert L. Knipschild of the Cranbrook Academy of Art, Bloomfield Hills, Mich., received awards. They were a wood engraving, "Cymposium" and a woodcut, "Orchard".

"Baptism", a woodcut by Helen Thrush, Greensboro, N.D., and "Cycle: Winter", a color etching by J. L. Steg, Ithaca, N.Y., complete the list of winning prints.

The jury of judges was Mauricio Lasansky, State University of Iowa, Iowa City, Ia.; Dr. Dmitri Tselos, University of Minnesota; Richard Davis, curator, Minneapolis Institute of Arts, and William Friedman, assistant director, Walker Art Center.

COLORED MOVIES
OF DESERTS AT 'U'
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

"Deserts", a colored sound film of plant and animal life in the American desert, will be shown at 3 p.m. Sunday (Dec. 10) in the Minnesota Museum of Natural History auditorium on the University of Minnesota campus.

Filmed in California's Death Valley, the movie pictures brilliant-colored cactus blossoms, various other desert plants and also the wildlife -- showing how living things adjust to changes in temperature and moisture.

The narration explains how ancient Indians used plants in their daily living. Scenic shots of Western American deserts are also part of the movie.

"Deserts" is one of the free public lectures presented each Sunday afternoon by the museum. The programs will continue through April 8 except for two Sundays: Dec. 24 and Dec. 31 when no lecture is scheduled.

Sunday, Dec. 17, Harvey L. Gunderson, assistant scientist at the museum, will present a colored motion picture, "Perry River Waterfowl Expedition". The film shows the Ross geese at their Canadian Arctic nesting grounds.

'U' CONCERT BAND
TO PLAY PUBLIC
PROGRAM SUNDAY

(FOR IMMEDIATE RELEASE)

Tschaikowsky's "1812" overture will highlight the University of Minnesota band's annual fall concert in Northrop Memorial auditorium at 3 p.m. Sunday (Dec. 10). Acting bandmaster Ernest A. Villas will direct the program which is open to the public free of charge.

Sounds of cannon fire are part of the Tschaikowsky overture score -- a portrayal of Napoleon's defeat at Moscow. The University's Army ROTC unit will assist the band with the needed artillery.

Excerpts from Smetana's "Bartered Bride" suite, the "Overture for Wind Band" by Mendelssohn and three 17th century compositions by Purcell, Handel and Marcello are on the program.

The band will also feature a World War II composition, "Life With 'Uncle'" by Kohs. Movements are titled "Reveille", "Goldbrick", "First Sergeant" and "Little Joe", "Tactical March", "Mail Call" and "First Morning of a Furlough".

Works by Bach, Shostakovich, Seitz and two Costa Rican dances by Quesada will be played by the band.

The concert will end with two well-known Sousa marches: "Manhattan Beach" and "Stars and Stripes Forever".

RELIGION IN STATE
UNIVERSITIES TOPIC
OF 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis - How can religion be taught objectively? What role can religion play in counseling and therapeutic work with college students? Those are topics which college administrators from throughout the country will discuss at the University of Minnesota Dec. 18-20.

The first national conference on religion in state universities was held at the University in October 1949. This year's meeting will aim to further clarify basic issues.

Two other main topics which the workshop groups will consider are: What is the relation between religious development of college students and other adjustments which they must make in our society? What use can the university make of its religious foundations as a resource?

Discussion will also center on the legal status of religion in state universities and the functions of campus religious foundations.

The Rev. Gerald B. Phelan, director of the Medieval institute, University of Notre Dame, Notre Dame, Ind., and Dr. Homer P. Rainey, president of Stephens college, Columbia, Mo., will be among the guest speakers.

Dr. Henry E. Allen, the University's coordinator of students' religious activities, and several local religious leaders will also lead discussions.

The conference will be held in the University's Center for Continuation Study.

U. OF M. STUDENTS
ACTIVE IN SOCIAL
SERVICE PROJECTS

(FOR IMMEDIATE RELEASE)

Minneapolis -- University of Minnesota students are painting children's playrooms, repairing toys, giving charity balls and even supporting several DP students. All these projects are part of a voluntary social service program now being carried on by various campus groups.

Theron A. Johnson, director of the University's student activities bureau, is enthusiastic about the projects. "Our reports show that there's a real concern on the part of students to do charitable social service work," he comments.

He points out that since October students have collected \$10,197 for their extra-curricular social work. The money includes funds gathered through the campus chest drive, from various other donations and money raising projects.

Students from 190 University organizations have sponsored over 260 projects this fall. One sorority put on a ball, raising \$800 for cancer work. The University Y.W.C.A. held a picture-cutting party for youngsters in a local hospital.

The Association of Women Students packed Red Cross boxes to send abroad. A medical fraternity collected \$250 for an orphanage Christmas party. At least two student religious foundations are supporting DP students. Eleven other foreign students are receiving financial help from the All-U Congress.

Groups of every kind are taking part -- student governing boards, campus publications, academic and professional sororities and fraternities, dormitory associations, co-ops, religious foundations and honorary societies.

The social service council, composed of representatives from the above campus organizations, has been the stimulating force.

MOVIES OF GEESE
WILL BE SHOWN
AT U. OF M. SUNDAY

(FOR IMMEDIATE RELEASE)

Canadian geese, pictured at their Arctic meeting grounds, are featured in the colored film, "Perry River Waterfowl Expedition", which will be shown at the Minnesota Museum of Natural History Sunday (Dec. 17) at 3 p.m.

Harvey L. Gunderson, assistant scientist at the museum, will act as narrator for the illustrated lecture, open to the public without charge.

The movie was taken during the summer of 1948 when an expedition led by British ornithologist Sir Peter Scott explored the Perry river country. The area is northwest of Hudson Bay.

Ross, blue, snow and white-fronted geese are shown in the film. Some of the plant life, aerial views of the surrounding marsh-like land and photographs of nearby Eskimos are also included in the movie.

The museum's public lectures, ordinarily held every Sunday afternoon, will stop during the holiday season. No pictures are scheduled for either Dec. 24 or 31.

Programs will resume Sunday, Jan. 7, with a colored movie of "Winter Along Lake Superior's North Shore".

(FOR IMMEDIATE RELEASE)

Minneapolis — Promotion of Robert B. Swatosh, assistant professor of military science and tactics at the University of Minnesota since 1947, from major to lieutenant colonel, artillery, has just been announced by the Department of the Army.

Colonel Swatosh is in charge of all Army ROTC basic instruction at the University this year and previously was adjutant of the ROTC unit.

Before coming to the University in 1947, he served in military government in Kreis Vilshofen near Passau on the Austrian border. In World War II he saw combat duty in the European theater of operations. He landed on Utah beach in Normandy with the 1st Army and later was assigned to the 3rd Army.

His decorations include the bronze star for valor and the Purple Heart.

Colonel Swatosh and his family reside at 4214 Minnehaha avenue, Minneapolis. His home town in Belle Plaine, Iowa.

DENTAL FOUNDATION
AWARDS \$1,600
RESEARCH GRANT

(FOR IMMEDIATE RELEASE)

Minneapolis — Dr. Dan E. Brannin, dentist, has been granted a \$1,600 research scholarship for graduate work at the University of Minnesota. The award, made by the Minnesota Dental foundation, was announced by Dr. William H. Crawford, dean of the University dental school.

According to Dr. Crawford, Dr. Brannin is the first student to receive a foundation scholarship. He was selected for his interest in research, scholastic achievement and integrity.

Last year, the foundation established two \$1,600 fellowships — both to be awarded this fall. Winner of the other scholarship has not yet been chosen.

Dr. Brannin received his dental degree from the University of Kansas City in 1950, graduating in the upper tenth of his class. He taught in the oral surgery clinic there before coming to the University of Minnesota.

A former resident of Ramona, Okla., Dr. Brannin now lives in the University Village, Minneapolis. He is a member of Omicron Kappa Upsilon, honorary dental fraternity.

The Minnesota Dental foundation was established under the auspices of the Minnesota State Dental association in 1946 as a separate corporation. Its purposes are to stimulate dental research, to provide funds for such research and to disseminate the resulting knowledge in the interests of public health. Several such research projects are now in operation at the University of Minnesota.

Dentists of Minnesota have voluntarily subscribed and paid over \$50,000 to the foundation, and subscriptions are continuing, according to Dr. L. B. Hodgson of Breckonridge, president. The foundation maintains headquarters at 242 Lowry Medical Arts building, St. Paul 2.

participated in the sixth annual institute for county highway engineers at the University of Minnesota Dec. 11-14.

More than 70 highway engineers from throughout Minnesota met at the University's Center for Continuation Study to discuss such topics as road surfacing, the Federal Aid System, bridge maintenance, legislation, public relations and psychological factors of traffic control devices.

Since it was opened in 1936, some 48,000 people have attended more than 900 professional courses at the Continuation Study Center.

The highway engineers' institute was presented with the cooperation of the Minnesota Association of County Engineers and the Minnesota department of highways.

Deferment of students being trained for specialized jobs in the fields of scientific research and development and utilization of such specialists after graduation will be discussed in Washington Monday (Dec. 18) at a special conference called by Major General Lewis B. Hershey, director of the Selective Service system.

Dr. M. M. Willey, University of Minnesota vice president for academic administration, will attend the conference as a member of one of the six committees formed in 1948 to advise General Hershey on the training and utilization of scientific personnel.

Dr. Willey is a member of the committee representing the social sciences. Areas covered by the other advisory committees are: agricultural and biological sciences, engineering sciences, humanities (including linguistics), healing arts and physical sciences.

At the meeting Monday, the six committees will submit their latest coordinated report on the deferment of students engaged in training for specialized work in the various sciences and their utilization after completion of their training.

(FOR IMMEDIATE RELEASE)

KUOM, the University of Minnesota radio station, has scheduled a series of programs which dramatize the work of the medical profession in adding useful years to man's life span.

Entitled "A Long Life", the 10-program documentary is being presented in a series of weekly broadcasts heard over KUOM each Tuesday at 1:00 p.m.

"A Long Life" is produced and distributed by the Lowell Institute Co-operative Broadcasting Council.

Each program is a case history in which listeners hear the story of physical or mental illness from the lips of an actual patient. To get these recorded accounts, members of the faculty at the medical schools of Boston, Harvard and Tufts Universities interviewed patients in their homes and in hospital wards. During one of the programs a surgeon gives a running account of an operation which he is in the very act of performing.

Here are a few of the personal narratives which will be heard on KUOM in the weeks to come:

A former alcoholic tells how he became a chronic drinker and how he finally licked alcoholism.

A middle-aged businessman tells what it is like to be an epileptic — and how he has held on to his job for 30 years despite this handicap.

During a psychiatric interview a middle-aged woman tells a psychiatrist about her morbid fear of cancer and insanity.

In the children's ward of a hospital a little boy tells how he was badly burned in a household accident.

A young man relates how he first discovered he had tuberculosis and how he regained his health.

University high school students -- their parents, teachers and alumni -- will celebrate the holiday season at the school's annual Christmas dance from 9-12 p.m. Wednesday, Dec. 20, in the main ballroom of Coffman Memorial Union.

Proceeds of the dance will be used to continue bringing foreign exchange students to the school. Members of the "U" high German, Spanish, French and Russian clubs -- known as the Federation of Languages -- are sponsoring the party.

Students will entertain by presenting songs and folk dances from various foreign countries. Playing for the general dancing will be Steve Dunning's band.

Committees in charge of the dance are Lilyan Odland, 3251 Thomas ave. N., Minneapolis, general chairman; John Wilson, 987 Fairview ave., St. Paul, management; Sue Smilow, 2104 Oliver ave. Minneapolis, budgeting; John Levitt, 1713 Summit ave., St. Paul, refreshments; Malcolm Blumenthal, 585 - 40th ave. N.E., Minneapolis, entertainment.

The Christmas decorations are under the chairmanship of Sue Fermaud, 505 - 6th ave. S., Minneapolis, and Marjorie Melamed, 1750 Portland ave., St. Paul. Kathi Coram, 495 St. Anthony st., St. Paul, is in charge of publicity.

Tickets will be taken care of by Carole Bouthilet, 1555 Fairmount ave., St. Paul, and Judy Dotson, 2226 Princeton ave., St. Paul.

REGENTS AWARD
CONTRACTS FOR 'U'
WASECA SCHOOL

(FOR IMMEDIATE RELEASE)

Minneapolis -- Contracts totaling \$1,342,643 for the construction of the new University of Minnesota school of agriculture building at Waseca were awarded Friday (Dec. 15) by the University's Board of Regents.

Installation of utilities, roads, sidewalks and other expenses will bring the total cost of the project to \$1,705,000, W. T. Middlebrook, business vice president and secretary of the board, reported.

Awarded the general construction contract was the George E. Carlstrom Construction company of North Mankato on the low net bid of \$898,812. The Axel Newman Heating and Plumbing company of St. Paul won the contract for mechanical construction with a bid of \$311,075.

The electrical contract went to the R. G. Brown Electric company of Waseca for \$128,505, and the Gartner Refrigeration and Manufacturing company of Minneapolis took the refrigeration contract on a net bid of \$4,251.

Construction of the new school of agriculture building will begin at once, Middlebrook stated, and is expected to be completed in one year.

Building plans include class rooms, laboratories, administration offices, a library, an auditorium, shops, a boiler room and dormitory facilities for approximately 54 girls and 64 boys. Architects for the project are Hein and Fugelse of Albert Lea.

The Regents also awarded a contract for structural steel for the first six floors of the Mayo Memorial Medical Center now under construction on the Minneapolis campus. The successful bidder was the American Bridge company with a figure of not to exceed \$591,905, Middlebrook reported.

Also awarded by the Regents Friday was a contract for building alterations, piping and electrical work at the Minneapolis campus heating plant. This contract was given to the Fuel Economy Engineering company of St. Paul on a bid of \$158,785.

SPECIAL TO: SIDNEY DAILY NEWS

(FOR IMMEDIATE RELEASE)

Minneapolis — Capt. Charles Klipstine, 115 W. South St., Sidney, recently spent two days at the University of Minnesota telling ROTC cadets about his combat experiences in Korea.

Holder of the bronze star and the purple heart, Capt. Klipstine returned to the States in September for hospitalization. He was wounded by a sniper's bullet on the Naktong river defense line.

In speaking to the University cadets, he emphasized the importance of coordinating infantry, artillery, air and naval power. He praised air support and reported one instance where B-26 bombers blasted the North Koreans only 600 yards in front of the American front lines.

Capt. Klipstine is former commanding officer of company F, 23rd infantry regiment of the 2nd division now fighting in Korea.

The navy is doing a good coordinating job, too, he said. If a unit got caught near the shore, the men could jump into the water, swim out and get picked up by the navy.

"We were under constant guerilla warfare at night," he stated. Most of the trouble was from North Koreans slipping through the lines as refugees.

"Later we shot anyone coming through the lines in civilian clothes," Capt. Klipstine said. "By doing this we got rid of the night attacks from behind our lines."

The North Koreans are unpredictable, according to him. An American platoon was scheduled to cross the Naktong river into enemy territory on Sept. 1. The night before, a group of North Koreans set off a huge burning "V" on a hill across the river.

Then, like a glee club, the communists began chanting epithets at the Americans. The next day they attacked the United Nations lines.

"Foxholes are a funny thing," he said. "You walk around inspecting them and tell the men their foxholes are too shallow. They just say, 'Aw, don't worry'.

"But, right after the first shell rustles over, all you can hear is the clanking of shovels."

FARM AND HOME WEEK WILL OPEN JANUARY 30

Oldest and biggest of all the 50 short courses conducted each year on the St. Paul campus of the University of Minnesota, 49th annual Farm and Home Week, to be held January 30 and 31 and February 1 and 2, will be featured this year by the addition of Crop Improvement day.

This feature, which has taken the form of a separate short course in mid-January in past years, will be held on Wednesday, January 31. University staff members will present the latest information on such subjects as soil management, varieties of small grains and oil crops, grain rusts and smuts and corn and forage crop production.

The Crop Improvement program will be only one of many agricultural and homemaking subjects covered during the four days. There will be approximately 175 discussions during the week, according to J. O. Christianson, director of agricultural short courses.

There will be sessions on livestock production on Tuesday, Wednesday, Thursday. Various livestock breed associations will hold their annual meetings on Thursday, and the Minnesota Livestock Breeders' Association will hold its annual meeting on Friday.

Homemakers' programs are scheduled for each of the four days, and frozen foods sessions, which have proven so popular in the past, are again on the schedule.

Other subjects to be covered include weed control, beekeeping, the state corn borer control program, fencing and wood preservation, horticultural crops, dairy production and research, pest control, rural education, 4-H club work, poultry production, farm machinery, irrigation, soil management, labor saving ideas, farm business planning and outlook, forage production and others.

The sessions will begin at noon Tuesday, January 30, with every division on the campus throwing open its doors to visiting Minnesota farmers, homemakers and townspeople.

Nationally known speakers are being booked for daily general assembly programs. Along with University specialists in agricultural and home economics research and

MORE

page 2 - farm home week special

both classroom and extension teachers, they will present the latest in farming and home-making information.

Entertainment will not be neglected. At noon assemblies and evening entertainment sessions there will be such features as movies, special speakers, music and programs presented by students of both the College and School of Agriculture.

Morning sing sessions and breakfast talks by University President Emeritus W. C. Coffey will be continued at Farm and Home Week this year.

And it's all free. Visitors from throughout Minnesota, including the Twin Cities, as well as neighboring states are expected. Last year 2,400 attended, and at least as many are expected this year.

A complete printed program, which will be available in the near future, may be obtained by writing to the Office of Agricultural Short Courses, University Farm, St. Paul 1, Minnesota.

Those who plan to attend are urged to make early reservations for rooms. This may be done by writing direct to the hotel of the visitor's choice in Minneapolis or St. Paul. A limited number of rooms in homes in the University Farm neighborhood will also be available, and reservations for these may be made by writing the Short Course office. Reservation requests should include number in the party, arrival date and length of stay.

U: AWARDS 7,091
EARNED DEGREES
IN LAST YEAR

(FOR IMMEDIATE RELEASE)

Minneapolis -- The University of Minnesota awarded 7,091 earned degrees during the 1949-50 academic year -- ranking fifth among American universities.

Colleges and universities in the United States last year graduated their largest classes in history. According to a survey by the Office of Education, almost 500,000 students received degrees during 1949-50.

The figure represents an increase of about 18 per cent over the preceding academic year and almost 130 per cent more than the peak pre-war year, 1939-40.

Institutions granting more degrees than the University of Minnesota were: the University of California, 11,239; New York university, 8,931; Columbia university, 8,117; and the University of Illinois, 7,447.

(FOR IMMEDIATE RELEASE)

Canvases by two University of Minnesota artists, Walter Quirt, assistant professor of art, and Raymond Parker, art instructor, are being shown in "American Painting Today - 1950", a new show sponsored by the Metropolitan Museum of Art, New York.

Their paintings — "Man Meets Woman, Tips Hat" by Quirt and "Semaphore in Enclosure" by Parker — were selected for the exhibit in a national competition last summer. Through regional contests, works by 307 artists were chosen from more than 6,000 entries.

The show, first big display of contemporary American art ever staged at the Metropolitan Museum of Art, will continue through Feb. 25, 1951. Purpose of the new competition is to keep abreast of the best current art trends and styles.

An enthusiastic response by American artists has encouraged the museum to propose two future exhibits for artists working in other media: a show of American sculpture in December, 1951, with an exhibition of drawings, water colors and prints planned in December, 1952.

Regional competitions for the sculpture show will be held sometime during the coming summer.

U. OF M. TO GRANT
DEGREES TO 889
THURSDAY NIGHT

(FOR IMMEDIATE RELEASE)

Minneapolis — Degrees will be awarded to 889 students at the University of Minnesota's fall Centennial commencement at 8 p.m. Thursday (Dec. 21) in Northrop Memorial auditorium.

William P. Tolley, chancellor of Syracuse university, Syracuse, N. Y., will deliver the commencement address — "Against the Background of Crisis", a former president of the Association of American College Presidents, Dr. Tolley is a member of the executive committee, American Council of Education.

University President J. L. Merrill will speak for the University preceding Chancellor Tolley's address. The invocation will be given by the Rev. Donald Sinclair, adviser to Congregational students on the St. Paul campus.

Deans of the various colleges, who will present their candidates for degrees, will be introduced by Malcolm M. Willey, University vice president in charge of academic administration. Errett W. McDiarmid, University librarian; Tracy F. Tyler, associate professor of general education; and Julius M. Nolte, dean of the general extension division, will marshal in the senior class.

Candidates for doctor of philosophy degrees will be presented individually by Theodore C. Blegen, dean of the University graduate school. President Morrill will confer all degrees.

A half-hour recital will be played preceding the commencement ceremonies by University organist Arthur B. Jennings and Edward Berryman, carillonneur, will present a concert on the Flemish bells from 7 to 7:30 p.m.

(FOR RELEASE THURSDAY, DEC. 21, 1950)

Minneapolis -- The Regents of the University of Minnesota, faced with declining tuition revenue and mounting costs, will ask the 1951 Legislature to appropriate \$17,636,904 for 1951-52 and \$17,713,126 for 1952-53 toward the University's general operating expense, toward the cost of maintaining the University Hospitals and for special extension and research projects, President J. L. Morrill reported Wednesday (Dec. 20).

In addition, the Regents will lay before the Legislature a request for \$6,317,750 for new construction and building improvements.

Appropriations for the University are made every two years to cover the following two-year period. This appropriation of funds on a biennial basis is necessary because the Legislature meets only in off-numbered years.

The request for University appropriations is broken down into three major classifications outlined by President Morrill as follows:

1. For general maintenance and operation---\$15,081,483 per year, an increase of \$2,880,649 annually over the Legislative appropriation for general University operation for the current school year. With this appropriation increase, the president pointed out, the University's annual maintenance and operation budget will show an increase of only 9.4 per cent over the 1950-51 budget.

2. For the University of Minnesota Hospitals---\$1,302,421 for 1951-52 and \$1,377,643 for 1952-53 to be applied on the operational expenses of the general, psychopathic, child psychiatric and heart hospitals and for special plumbing alterations.

3. For special extension and research projects administered and carried on by the University for the general benefit of the people of the state---\$1,253,000 for 1951-52 and \$1,254,000 for 1952-53. Among the projects dependent on this appropriation are medical and cancer research, crop improvement work, dairy industry research and service, home demonstration and 4-H club work, brucellosis research and county agents.

(MORE)

Increases included in the Regents' request are necessitated, according to President Morrill, by six principal factors:

1. Income losses due to declining enrollment, particularly the rapidly shrinking number of veterans for whom the federal government pays tuition at a rate generally more than double the resident rate. During the fall quarter of 1947, there were 16,736 veterans at the University. Veteran attendance is expected to average 3,430 during the next two years.

2. Present high costs and the prospect of even higher costs of everything the University has to buy.

3. Upward salary adjustments for civil service and academic staff to keep pace with advancing living costs---essential if the University is to recruit and retain a capable staff.

4. Increasing demands on the University for service and research---particularly research in agriculture, medicine, human relations and technology which are now at an all-time high. Involved are problems which affect the economy, the social and political life and the general well-being of the state and its citizens.

5. The shifting burden of the instructional load from the freshman and sophomore level to the junior, senior and graduate level requiring more teachers of higher ranks and higher salaries. In the 1946-47 school year, 36.5 per cent of the students were above the sophomore level, while this year, 61 per cent are in the upper classes.

6. New civil service positions required to provide custodial staff for new University buildings to be completed during the 1951-53 period.

The 1949 Legislature provided \$11,989,000 for new University buildings including \$5,500,000 toward the total cost of the Mayo Memorial Medical Center. The Regents will ask the 1951 Legislature to appropriate \$6,317,750 for new buildings and improvements to existing buildings for the various campuses as follows: Minneapolis campus, \$2,470,500; St. Paul campus, \$1,525,000; Duluth Branch campus, \$1,572,250; and branch stations, \$750,000.

(MORE)

Construction on the Minneapolis campus proposed by the Regents consists of: a new chemical storehouse, \$528,000; an addition to Wulling hall, the pharmacy building, \$500,000; an addition to the heating plant, \$700,000; and an addition to the law school building including library stacks, \$742,500.

St. Paul campus building for which funds are being asked includes: a classroom building, \$450,000; a dormitory for college men, \$350,000 (50 per cent of the total cost); alterations of vacated space in Coffey hall and the home economics building, \$125,000; and alterations, additions and equipment for Haecker hall (dairy building), \$600,000.

Appropriations for Duluth campus buildings are listed as follows: a new classroom building, \$500,000; a dormitory for women, \$380,250 (50 per cent of the total cost); a supplementary fund for a projected physical education building, \$342,000; and a student union building, \$350,000 (to be combined with an additional \$300,000 in gifts and earnings).

Projects proposed by the Regents for the University's branch stations include: a girls' dormitory at Morris, \$300,000; rebuilding foundations and renovating damaged buildings at Morris, \$200,000; replacing upper section of burned dairy barn, also at Morris, \$20,000; a new gymnasium at Grand Rapids, \$150,000; an addition to the animal products building at Crookston, \$52,000; and farm buildings at Rosemount, \$28,000.

In a pamphlet entitled "Needs of the University of Minnesota for the Biennium 1951-1953", soon to be distributed in the state, the Regents list \$21,276,715 in University building needs postponed for future consideration by the Legislature. Grouped by campuses, these needs total: Minneapolis campus, \$11,834,000; St. Paul campus, \$5,657,840; Duluth branch, \$1,722,250; and branch stations, \$2,062,625.

"The Regents," states the booklet, "are mindful of the problems that confront the 1951 Legislature. The long lists of postponed building needs at the University are evidence of this. The buildings actually requested have been selected with scrupulous care to meet immediate emergency needs of the University."

(MORE)

"Facts indicate," the pamphlet continues, "that in the years ahead, the Legislature must give serious attention to the list of postponed buildings. When the buildings presently authorized are completed, the increase in instructional space on the Twin City campuses will be only 13.5 per cent above 1940, while student enrollment at the lowest point (in the coming biennium) will be 30 per cent over 1940. During this same period, the space problem has been further complicated by a two to three times space-use increase for research."

Included in the \$2,880,649 requested increase in the annual general maintenance appropriation, President Morrill explained, is a request for \$1,050,051 to offset anticipated decreases in University income, primarily loss of revenue from the Veterans Administration due to the declining enrollment of World War II veterans under the G. I. Bill of Rights.

"If the request for replacement of lost revenue were based on last year's income," the University president stated, "it would be necessary to ask for \$1,883,543 or \$833,492 more than is actually being requested. However," he explained, "the University is endeavoring to absorb this difference by a retrenchment of University operations. The resulting income loss needs to be replaced to provide for the instructional, research and service job that still remains."

Also included in the increased maintenance appropriation request for each year of the biennium is \$688,666 for academic salary adjustments. This sum would be used to raise the academic salary index from 159.4 to 171.4, the president pointed out, a figure still below the current cost-of-living index.

To provide for some new academic positions considered by the Regents to be essential if the University is to keep abreast of the developments in science and technology and is to meet its responsibilities in training, research and service, an annual increase of \$95,870, or 1 per cent of the 1950-51 academic payroll, is being asked.

(MORE)

Civil service salary adjustments included in the maintenance request call for an annual increase of \$344,031 to cover a "one-step" cost-of-living increase, regular and special "merit" increases and reclassifications and range adjustments of civil service positions.

President Morrill pointed out that the Public Administration Service is now conducting a pay survey for the University, in cooperation with the state government, covering many civil service classes in which pay rates are "clearly out of line". Results of this survey will be reported separately to the Legislature, he added.

An annual increase of \$74,974 is being asked by the Regents for new civil service positions. Of this sum, President Morrill reported, \$42,354 will be required for custodial salaries to staff new buildings which will be completed during the two-year period, and \$32,620 is included for new positions elsewhere in the University.

The president emphasized the point that requests for new academic and civil service positions represent "a small percentage of well-documented staff needs submitted by departments but cut sharply by the University administration and the Regents to hold down operating costs".

Anticipating considerably higher prices during the coming two years, the Regents will include in their requested \$2,880,649 annual maintenance appropriation increase a \$730,057 boost in the yearly allotment for supplies, expense, equipment and plant operation. This increase over 1950-51 expenditures, according to President Morrill, was calculated on the basis of actual and predicted price increases, the increase in space which will come into use during the next two-year period and the temporarily declining enrollment.

Included in the request for the University Hospitals are increases apportioned as follows on an annual basis: general hospital maintenance, \$150,727; Variety Club Heart hospital maintenance, \$19,293; psychopathic hospital maintenance, \$14,791; child psychiatric hospital (1952-53 only), \$159,912; and special plumbing repairs (1951-52) only), \$84,690.

(MORE)

Of the \$150,727 annual increase for general hospital maintenance, according to President Morrill, \$50,880 is asked to provide 20 new general staff nurses needed to take the place of student nurses whose hours of work experience in the hospitals will be reduced from 40 to 30 hours per week. This will place student nurses on a comparable basis with students at other hospitals and will give them more time for class work and study.

The state now provides \$749,535 annually for the care of indigent patients, and the counties provide an equal sum. With the \$150,727 increase, which is also being asked of the counties, the state's share of such care will be \$900,262 annually, matched by the counties.

For maintenance of the Variety Club Heart hospital, the state now provides \$103,550 each year for care of indigent patients with a matching amount coming from the counties. The requested increase of \$19,293 will step up the annual contribution to \$122,843 from the state and the same amount from the counties.

The University's psychopathic hospital now receives \$179,835 annually from the state. The additional \$14,791 per year which will be asked from the Legislature will cover staff salary increases and advanced supply costs as will the requested increases for the general and heart hospitals.

Alterations of the present University of Minnesota Hospitals involved in the construction of the Mayo Memorial Medical Center will provide a new 24-bed psychiatric hospital unit for children with psychiatric problems. This unit, unique in Minnesota, will be available for use by July 1, 1952, and the \$159,912 appropriation for the operation of this unit is asked for the second year of the biennium only.

Examination of older parts of University Hospitals by the State Board of Health disclosed defects in the plumbing system which constitute a health hazard to patients, President Morrill stated. The request of \$84,690 for the first year of the biennium is to cover the cost of correcting these defects.

(MORE)

Appropriations which the Regents will ask for special extension and research projects carried on for the general benefit of the people of the state amount to \$1,253,000 for 1951-52 and \$1,254,000 for 1952-53. The annual appropriation requests for these projects, with the annual appropriation for 1949-51 shown in parenthesis, were reported by President Morrill as follows:

Agricultural extension work, \$110,000 (\$87,500); county agents, \$165,000 (\$150,000); research on taconite and manganimiferous ores, \$80,000 (\$75,000); soils survey, \$30,000 (\$25,000); dairy manufacturing, \$60,000 (\$15,000); medical research, \$70,000 (\$60,000); livestock sanitary board, \$40,000 (\$35,000); crop improvement, \$75,000 (\$40,000); child welfare, \$28,000 (\$25,000).

Mastitis control, \$15,000 (\$12,000); fruit and vegetable research \$22,000 (\$12,000); general research, \$100,000 (\$90,000); Minnesota Institute of Research, \$35,000 (\$30,000); home demonstration and 4-H club work, \$45,000 (\$40,000); agricultural research at the Rosemount Research Center, \$100,000 (\$90,000); hybrid corn maturity tests, \$10,000 (\$9,000); animal and human brucellosis research, \$37,500 (\$20,000); school of agriculture---student aid, \$50,000 for 1951-52 and \$57,000 for 1952-53 (\$66,000).

New special projects for which there were no appropriations for the current biennium include the following annual requests: corn borer research, \$15,000; honey bee research to provide for essential work in the study of foul brood and its control by sulfa drugs and antibiotics, \$9,500; Division of Business and Economic Research, \$25,000; roads, sidewalks and lighting on the new campus of the Duluth Branch, \$25,000; and for the operation, maintenance and equipment of the new agricultural school to be opened at Waseca, \$106,000 for 1951-52 and \$100,000 for 1952-53.

"Whatever this University has become during the one hundred years of its existence," said President Morrill as he announced the University's needs for the next two years, "the people of Minnesota have made possible. Whatever distinction has been achieved bears witness to their faith and understanding and support. What the University has undertaken is largely in response to their needs and demands."

THIRD ANNUAL INDUSTRIAL RELATIONS CENTER
LABOR CONFERENCE SCHEDULED FEB. 6 AND 7

(FOR IMMEDIATE RELEASE)

Minneapolis -- How can union leaders effectively get vital information to union members? How can efficient steward training programs be built? How can union leaders assure full cooperation of union members? These aspects of "Developing Effective Union Leadership" will be spotlighted at the Third Annual Industrial Relations Center Labor conference at the University of Minnesota, February 6-7.

Designed expressly for leaders and potential leaders of organized labor, the two-day event is sponsored by the University's Industrial Relations Center and Center for Continuation Study. Top men in organized labor from the state and from the nation will participate as speakers and panel members. Specific techniques and practical solutions in developing union leadership will be stressed throughout the conference.

The opening day of the annual event will be devoted to methods helpful in getting information to union members. A panel composed of Orlin Folwick, director of public relations, Minnesota Federation of Labor; Rodney Jacobson, secretary-treasurer, Minnesota State CIO Council; and Arnold Rose, associate professor of sociology, University of Minnesota will analyze the types of information that unions should try to give to members.

(MORE)

The use of training materials for union members will be discussed by A. A. Liveright, director of the union leadership training project at the University of Chicago. Paul R. Wendt, associate professor of education, University of Minnesota, will describe audio-visual materials helpful in disseminating information to union members. William B. Schaffrath of the University of Illinois Institute of Labor and Industrial Relations will close the first day's program. He will discuss information programs designed to meet individual needs of specific unions.

How to develop an effective steward training program and the use of role playing in such a program will open the discussions on the second day of the labor conference. George W. Brooks, director of the department of research and education, International Brotherhood of Pulp, Sulphite and Paper Mill Workers, will be the principal speaker.

The director of American Labor Education Service, Inc., Eleanor G. Coit, will outline some of the current developments in workers' education.

A panel discussion, "Where Have We Failed in Getting Full Cooperation of our Membership", will bring the labor conference to a close. Participants will be Harry Leonard, vice president, Minneapolis Central Labor Union; Joseph R. Okenoski, president, St. Paul Trades and Labor Assembly; Otto P. Simon, Jr., president, St. Paul CIO Council, and Robert Wishart, president, Hennepin County CIO Council.

(FOR IMMEDIATE RELEASE)

Minneapolis -- Hydraulics research, engineering and education activities of Dr. Lorenz G. Straub, director of the St. Anthony Falls Hydraulic laboratory and head of civil engineering at the University, will result in a globe-girdling tour during the University's Christmas vacation period.

Dr. Straub is traveling by air to Germany this week to review certain hydromechanics research related to studies being conducted at the St. Anthony Falls laboratory. His journey will continue to Bombay, India, where, starting January 2, he will preside over meetings of the International Association for Hydraulic Research, of which he is president.

Immediately following these meetings he will go to New Delhi for the International Congress on Large Dams and the World Power conference. He then plans to confer on the development of the new Afghan Institute of Technology in Kabul.

The tour will continue through Calcutta, Hong Kong, the Philippines, Japan and Alaska back to Minneapolis.

MIDWEST DOCTORS
TO STUDY MEDICAL
PROBLEMS OF AGING

(FOR IMMEDIATE RELEASE)

Minneapolis — Medical problems of our aging population — diseases of old age, emotional factors, psychological changes, the future of old age — will be studied at the University of Minnesota Thursday through Saturday, Jan. 4 - 6.

General physicians and internists from throughout the Midwest will meet at the University's Center for Continuation Study during the three days for a course in geriatrics, the study of old age and its diseases. The opening sessions will be devoted to physiological changes occurring with increasing age.

During the second and third day of the course, lecturers will discuss such topics as coronary disease, rheumatoid diseases and surgery in older patients, rewards of increasing age, congestive heart failure and community action in meeting old age problems.

Visiting physicians who will be among the speakers are Dr. William Dock, professor, department of medicine, New York university medical center; Dr. Nathan Shock, chief, section on gerontology, National Heart Institute, Baltimore, Md.; Dr. Edward J. Stieglitz, associate, Washington School of Psychiatry, Washington, D. C., and Dr. Albert I. Lansing, department of anatomy, Washington university school of medicine, St. Louis, Mo.

Dr. Stieglitz will talk about "Emotional Hazards of Senescence" during a banquet at 8 p.m. Friday, Jan. 5, in the main ballroom of Coffman Memorial Union.

The International House association, Twin Cities chapter, has become a member of the State Organization Service and the World Affairs Center at the University of Minnesota. A service sponsored by the University's extension division, the S.O.S. provides a secretariat to facilitate operation of its member organizations.

According to the announcement by William C. Rogers, S.O.S. and W.A.C. director, the association is the 20th group to join the S.O.S. Eight organizations now make up the W.A.C.

The Twin Cities' International House association strives to promote better international understanding through personal contact between peoples from other countries and Twin Cities' residents. Members entertain foreign students in their homes and assist foreign visitors.

"Alumni" of the Rockefeller endowed International Houses at the Universities of California and Chicago and Columbia university belong to the association. President of the Twin Cities' chapter is Ejler Petersen, 3039 - 41st Ave. S., Minneapolis.

Other officers of the group are Eva M. Dratz, 2913 Dean Blvd., Minneapolis, vice president; Gertrude Esteros, assistant professor of home economics at the University, secretary; and Margaret Kraemer, University research associate in medicine, treasurer.

KUOM TO PRESENT
HISTORY LECTURES
BY DR. DEUTSCH

(FOR IMMEDIATE RELEASE)

Minneapolis — Dr. Harold C. Deutsch, professor of history at the University of Minnesota, will begin a series of broadcasts over KUOM, the University radio station, January 10.

The broadcasts will be part of KUOM's regular classroom lecture series and will be heard each Monday, Wednesday and Friday (1 to 1:50 p.m.). Dr. Deutsch will discuss World War II with special emphasis on its relation to the present world crisis.

During the last several months Dr. Deutsch has been in Washington, D. C., serving on the staff of the War College. In 1944 and 1945 he was chief of the research and analysis branch of the Office of Strategic Service's mission to Germany. In this capacity he interviewed Nazi leaders then on trial in Nuremburg.

Dr. Deutsch has written two books on World War II which are soon to be published. He has been heard on previous broadcasts over KUOM and on news analysis programs over other stations.

MRS. F. M. WARREN
NAMED TRUSTEE
OF UNIVERSITY FUND

(FOR IMMEDIATE RELEASE)

Minneapolis -- Election of Mrs. Frank M. Warren of Minneapolis as a trustee of the University of Minnesota's Greater University Fund was announced Thursday (Dec. 28) by Stanley J. Wenberg, fund director.

Mrs. Warren was named to the nine-member board of trustees for a three-year term by the board of directors of the Minnesota Alumni association, the fund's sponsor. She was graduated from the University in 1904.

First woman to serve on the University's Board of Regents, Mrs. Warren was appointed to the board by Governor Preus in 1922. She was an organizer and former president of the University's Alumnae club and served one term on the board of directors of the Minnesota Alumni association.

She also is a former president of the Minneapolis chapter of the American Association of University Women, has served as chairman of several committees of the Minneapolis Woman's club and has been active in many other public service groups.

Mrs. Warren is vice president and secretary of Langdon-Warren Mines, Inc., of Minneapolis.

The Greater University Fund's 1950 campaign will close Sunday (Dec. 31), and during January, trustees of the fund will allocate 1950 receipts to its various student aid and research programs. Contributions to the 1950 campaign, the fund's third annual program, are running ahead of last year, according to Wenberg.

(FOR IMMEDIATE RELEASE)

Minneapolis -- "Billy Budd", a play co-authored by Louis O. Coxé, assistant professor of English at the University of Minnesota, is soon going into rehearsal. It's scheduled for a Broadway opening at New York City's Biltmore theater the week of Feb. 5.

The play, written in collaboration with Robert H. Chapman, tutor in Eliot house at Harvard university, is an adaptation of Herman Melville's short novel, "Billy Budd". Charles Nolte, son of Julius M. Nolte, dean of the University of Minnesota's general extension division, has been cast in the title role.

Coxé and Chapman originally wrote the drama in the spring of 1947, when they were both teaching at their alma mater, Princeton. An experimental theater group staged the play in New York during Jan. 1949. Since then, the script has been entirely re-written.

The forthcoming Broadway production, which will try-out first in New Haven, Conn., and Philadelphia, is being produced by Chandler Cowles and Anthony Farrell. It will be directed by Norris Houghton.

Theme of the play is a clash between cynical evil and pure innocence -- personified by Billy Budd as the handsome, innocent youth and Claggart, an evil master-of-arms, under whom Budd serves. Both are seamen on a British ship-of-the-line.

Condemned to die for killing Claggart in a fit of passion, Budd "grows up". In his last hours he recognizes that both good and evil exist, that there is no point in being purely innocent.

"Billy Budd", the last important work done by Melville, was not discovered until the 1920's -- some 30 years after he wrote it.
