'U' COLLEGE QUIZ
BOWL SCHOLARSHIPS
GO TO 33 STUDENTS

(FOR IMMEDIATE RELEASE)

Minneapolis --- College Quiz Bowl scholarships have been awarded to 33 University of Minnesota students in the college of science, literature and the arts, according to George B. Risty, director of the University bureau of student loans and scholarships.

The scholarships, ranging from \$75 to \$150, are from the \$4,000 fund won by the University Quiz Bowl team on eight consecutive National Broadcasting company radio shows during October, November and December. The team earned \$500 for each win in the radio competition against selected scholars from other universities and colleges.

Members of the "All-American" radio quiz team were Jack Davies of Coleraine, Colleen A. Helgeson of Excelsior, Roger Feinstein of Pelham, N. Y., and Tom Clayton of Winona and alternate John M. Leivestad of Edina. Their coach was J. William Buchta, associate dean of the arts college.

All of the scholarships were awarded to arts college students, because the winning team was made up of students in that college, Risty explained. Dean Buchta headed the committee which awarded the grants.

Winners are:

MINNEAPOLIS: Robert L. Brenner, freshman; Richard P. Dornfeld, junior; Sharline H. Hirsch, junior; Donna Mae Johnson, junior; Joseph A. Miller, junior; Sandra M. Montrose, sophomore; Ronald J. Nelson, sophomore; Janet R. Parsons, sophomore; Sally E. Sperling, junior; and Willis M. Stoesz, senior.

GUARANTEED WAGES
DEBATE SCHEDULED
AT 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

"Pros and Cons of Guaranteed Wages" is scheduled for debate at the twelfth annual University of Minnesota industrial relations conference Tuesday and Wednesday (April 6,7) at the Center for Continuation Study.

Discussing the issue at 3 p.m. Tuesday will be David M. Molthrop, executive vice president of the Northwestern Ohio Industrial council, Toledo, and Nat Weinberg, director of research and engineering, UAW-CIO, Detroit.

Molthrop and Weinberg are listed on a roster of outstanding government, industrial, labor and education experts who will take part in the conference.

Major current issues and new research findings will be discussed, and the conference will review significant developments in industrial relations and interpret their role in the future.

The University is cooperating with the Twin Cities chapter of the Society for Advancement of Management to present the course.

UNIVERSITY DENTIST
RECEIVES AWARD
FOR RESEARCH REPORT

(FOR IMMEDIATE RELEASE)

Dr. George M. Yamane, research fellow in oral pathology in the University of Minnesota school of dentistry, has been awarded an honorable mention citation for a report which he presented last month at the annual meeting of the International Association for Dental Research in French Lick, Ind.

Dr. William H. Crawford, dean of the dental school, reported Friday (April 2) that Dr. Yamane was honored for his paper on "Effects of Magnesium Deficiency in Diet on the Teeth and Surrounding Tissues of the Hamster". Dr. Yamane's research disclosed that a magnesium deficient diet inhibits the formation of teeth and jawbone.

The senior research fellowship under which Dr. Yamane has been carrying on his work at the University has just been renewed by the National Institutes of Health for the next school year, 1954-55, Dean Crawford announced Friday.

UNIVERSITY SENIOR
RECEIVES WILSON
FELLOWSHIP FOR '54-'55

(FOR RELEASE WEEK OF SUNDAY, APRIL 4)

Franklyn G. Bonn, Jr., University of Minnesota senior, is one of 144 recipients of the Woodrow Wilson Fellowships for 1954-55, according to Dr. Robert F. Goheen, director of the National Woodrow Wilson fellowship program which has its headquarters at Princeton university.

Three of the other recipients of the fellowships have chosen the University of Minnesota for their graduate study.

Bonn, son of Mr. and Mrs. Franklyn G. Bonn, Sr., 1893 Highland parkway, St. Paul, will graduate in June from the college of science, literature and the arts and next year will study political science on his fellowship at Duke university. He attended Central high school in St. Paul.

The fellowships are one-year awards for young scholars showing "marked promise for the teaching profession and possessing the highest qualities of intellect, character and personality".

Three students planning to study at the University on Woodrow Wilson fellowships next year are Gordon H. Bower of Scio, Ohio, Western Reserve university; Reed Geiger, Lakewood, Ohio, College of Wooster; and James G. Kennedy, Rockville Centre, N. Y., Kenyon college.

Bower will study philosophy; Geiger, English history; and Kennedy, English.

MT. SINAI HOSPITAL
AUXILIARY AWARDS
'U' NURSING GRANT

(FOR IMMEDIATE RELEASE)

An eighth University of Minnesota nursing scholarship for 1953-54 has been awarded by the Mount Sinai Hospital auxiliary.

The scholarship was given to Muriel Bloomdahl, St. Cloud, special student in the college of education. Scholarships range from \$50 to \$100.

With the award of that scholarship, the auxiliary also announced plans to award more nursing scholarships for 1954-55 on the basis of financial need and scholastic attainment to candidates for the bachelor of science degree and to graduate students at the University. Applications may be made through the bureau of student loans and scholarships.

Other Mount Sinai nursing scholarships during the past school year have been, Helen R. Boyd, Sioux City, Iowa; Melba E. Carson, Chariton, Iowa; Richard F. Jacobsen, Minneapolis; Gena Johnson, Horace, N. D.; Mary E. Parpart, Geneseo, Ill.; Anita J. Valentine, Little Falls; and Berniece M. Wagner, Norfolk, Neb.

UNIVERSITY MEDICAL
INSTRUCTOR RECEIVES
GRANT FOR RESEARCH

(FOR IMMEDIATE RELEASE)

Dr. Rudi Schmid, University of Minnesota instructor in medicine and a native of Switzerland, has been named recipient of a special \$6,000 research fellowship by the National Institutes of Health beginning July 1.

During the one-year fellowship, at Columbia university, New York, Dr. Schmid with Dr. David Shemin, professor of bio-chemistry in Columbia's college of physicians and surgeons, will pursue fundamental studies related to the metabolism of blood pigments and nucleic acids.

Dr. Schmid, who was born in 1922 in Glarus, Switzerland, received his doctor of medicine degree in 1947 at the Zurich medical school. He took his internship at the University of California hospital in San Francisco the following year and then came to the University of Minnesota Hospitals in 1948 for his residency. In 1951, he received a fellowship from the American Cancer society and the following year became an instructor of internal medicine.

N. Y. TIMES SCIENCE
EDITOR TO SPEAK
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

"The Truth About the Hydrogen Bomb" will be told by William L. Laurence, New York Times science editor, in a University of Minnesota convocation address at 11:30 a. m. Thursday (April 8) in Northrop Memorial auditorium.

A recording of the talk will be broadcast at 11:15 a.m. Friday over radio station KUOM.

Presentation of the address was postponed last week because the nation-wide announcement about the bomb kept Laurence in New York to do the reporting job for the Times.

Laurence was the only civilian chosen by the army to witness the actual making of the A-bomb, its test and the final dropping on Hiroshima and Nagasaki. His description of the dawn of the Atomic Age won him a second Pulitzer prize and linked his name with the atom. He won his first Pulitzer prize in 1937 for reporting the Harvard Tercentenary Conference of Arts and Science.

'U' CHAMBER SINGERS
TO PRESENT 'ST. MATTHEW
PASSION' APRIL 15

(FOR RELEASE SUNDAY, APRIL 11)

The University of Minnesota Chamber Singers under the direction of James Aliferis, will sing "St. Matthew Passion" by Heinrich Schutz at a University convocation at 11:30 a.m. Thursday, April 15, in Northrop Memorial auditorium. The concert will be open to the public without charge.

Blake Stern, tenor, and instructor of music, will sing the role of the evangelist. Richard Halverson, baritone graduate student, will sing the role of Jesus.

The Schutz work is the complete story of the passion according to St. Matthew. Roles of all of the characters of the story, such as Peter, Judas, Caiaphas and Pontius Pilate, will be sung by members of the Chamber Singers. The combined chorus will sing parts representing the multitude.

Included in the Chamber Singers are 36 select student voices. Recently they sang Charles Ives' "Holidays" Symphony with the Minneapolis Symphony Orchestra. In May, they will present their annual spring concert.

The Singers and the orchestra have also recently recorded the choral interlude in The Nutcrackers Suite by Tschaiowski which has not yet been released.

The "St. Matthew Passion" will be broadcast over the University radio station KUOM on Good Friday, April 16. It will be broadcast on Palm Sunday, April 11, over KROC, Rochester.

Other stations over which it will be broadcast on Good Friday are KWNO Winona, KASM Sauk Centre, KBUN Bemidji, KMMT Austin, KAAA Red Wing, KOBK Owatonna, KLIZ Brainerd, KDLM Detroit Lakes, KSUM Fairmont, KDHL Faribault, KBMW Breckenridge, KBZY Grand Rapids, KTRF Thief River Falls, KNUJ New Ulm and KDAL Duluth.

COLLEGE DEBATERS
TO COMPETE AT 'U'
FRIDAY, SATURDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- About 125 college debaters from five states will compete in the eighth annual upper midwest debate tournament Friday and Saturday (April 9 and 10) at the University of Minnesota.

The debaters will represent colleges of Wisconsin, Michigan, South Dakota, Iowa and Minnesota.

Four complete tournaments are planned with trophies to be awarded to the winning team of each. Outstanding award certificates will also be presented to superior teams and individuals on the basis of rating in five preliminary rounds.

The contests included are: discussion tournament open to discussion teams from all schools, a freshman debate tournament open to first year debaters who might not otherwise receive tournament experience, a junior college debate tournament for junior colleges only and the Minnesota collegiate championship debate tournament open to any Minnesota debate team.

Resolution for debate is "Resolved: The United States should adopt a policy of free trade". Teams will debate both sides of the proposition.

FORTIETH ANNUAL
SCHOOLMEN'S WEEK
OPENS MONDAY AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- School district organization in Minnesota will be a major topic of discussion at the fortieth annual University of Minnesota short course and schoolmen's week Monday through Wednesday (April 12-14) on the Minneapolis campus.

Approximately 700 Minnesota public school superintendents, principals and supervisors are expected to attend the short course which is sponsored annually by the college of education with the cooperation of the State Department of Education and the various Minnesota education organizations.

William Early, president of the National Education association, and Mrs. George Davis, better known as Billie Davis, nationally known lecturer and writer will speak at a Wednesday evening banquet, sponsored jointly by the college of education and the National Education association which will also conduct a conference in Minneapolis the same week. The banquet will begin at 6 p.m. Wednesday in the main ballroom of Coffman Memorial Union.

Early will speak on "School Public Relations for These Times". Mrs. Davis will tell the story of her own struggle to get an education.

Howard Dawson, director of the division of rural service of the National Education association, will speak at the annual Phi Delta Kappa lecture at 8 p.m. Monday (April 12) in Murphy Hall auditorium.

Other out-of-state speakers will be Hollis Caswell, dean of Teachers college, Columbia university; Alice Keliher of the school of education, New York university; and Jesse Bogue, executive secretary of the American Association of Junior Colleges.

Local speakers include University President J. L. Morrill; Dr. Otto Domian, director of the bureau of field studies and surveys at the University; Robert J. Keller, director of the bureau of institutional research at the University; Arthur J. Lewis, assistant superintendent of Minneapolis schools; and Mrs. H. K. Painter, chairman of the State Citizens Committee on Public Education, Minneapolis.

The Phi Delta Kappa lecture, all general sessions and the banquet will be open to the public. Banquet reservations may be made by calling Main 8158, Extension 6841.

U OF M TESTS
10,000 MINNESOTA
NINTH GRADERS

(FOR RELEASE THURSDAY, APRIL 15)

Minneapolis --- Approximately 10,000 ninth grade boys and girls from about 25 schools in all parts of Minnesota are taking personality tests as part of a University of Minnesota study seeking information leading to the prevention, rather than the punishment or treatment of, juvenile delinquency, mental illnesses and other social and personal maladjustments.

The test is the second of its kind to be conducted by Starke R. Hathaway, University of Minnesota director of clinical psychology, and Elio D. Monachesi, chairman of sociology, through grants which are expected to total over \$83,000 from the United States Public Health Service.

The two University professors are the authors of "Analyzing and Predicting Juvenile Delinquency With the Minnesota Multiphasic Personality Inventory" which was published in 1953 upon completion of their first test program of 4,000 Minneapolis ninth graders. That study began in 1948.

They are attempting through these studies to identify symptoms of delinquency, mental illnesses and other forms of social and personal maladjustments in adolescents to use as a foundation for developing social therapy to prevent such problems.

(MORE)

The University psychologist and sociologist maintain that parents and schools do not create all of the disabilities in children, but that some children are born handicapped by specific traits.

Prompt recognition of such traits, they contend, may prevent occurrence of gross personality distortion.

Little has been done by society to fit programs to counteract differing personality characteristics, the professors explain. Community programs are often more attractive to adolescents less prone to delinquency than to those who need help.

"We do not suggest that all children need help to become acceptable adults," Monachesi and Hathaway point out. "On the contrary, most of them, even though they are temporarily delinquent, will work their way through into normal good-citizens."

"It is our hope, though," they go on to say, "that we may discover methods that will decrease the number of delinquents that do carry over into adulthood. We hope to identify and help those who would achieve adjustment in time to do so more quickly and with less stress on themselves and society through effective programs of treatment."

FULBRIGHT GRANTS
FOR FOREIGN STUDY
GIVEN 3 AT U. OF M.

(FOR IMMEDIATE RELEASE)

Three University of Minnesota graduate students from Minneapolis have been awarded Fulbright scholarships for foreign study, according to John G. Darley, associate dean of the graduate school and adviser of the University Fulbright program.

The students are Orville T. Murphy, Jr., 417 11th avenue, S. E.; Richard Tweed Drinnon, 4017 Upton avenue S.; and Margaret J. MacInnes, 4375 Glen Place.

Murphy is one of approximately 240 students to receive grants for study in France. He will study 17th and 18th century history at the University of Paris.

Drinnon, who is among about 35 students getting grants for study in The Netherlands, will study American studies at Municipal university in Amsterdam.

Miss MacInnes, one of 190 students chosen to go to the United Kingdom, will study English literature at the University of Birmingham Shakespeare institute at Stratford-on-Avon.

About 1,000 Fulbright grants are awarded for graduate study abroad in the academic year 1954-55 under the United States educational exchange program. Students are chosen by the board of foreign scholarships, members of which are appointed by the President.

The exchange programs are being carried out for the coming year with 23 countries, Australia, Austria, Belgium, Burma, Ceylon, Denmark, Egypt, Finland, France, Germany, Greece, India, Italy, Japan, Luxembourg, Netherlands, New Zealand, Norway, Pakistan, Philippines, Thailand, the Union of South Africa and the United Kingdom.

SHEPHERD NAMED
ASSOCIATE DEAN
OF 'U' INSTITUTE

(FOR IMMEDIATE RELEASE)

Minneapolis --- William G. Shepherd, professor of electrical engineering at the University of Minnesota, today was named by the University's Board of Regents to the newly created post of associate dean of the Institute of Technology.

Professor Shepherd will take over his new duties as associate dean on July 1, according to Athelstan F. Spilhaus, dean of the institute.

"Creation of the new associate deanship and appointment of Professor Shepherd to this post is within the context of my plans for the gradual reorganization of the Institute of Technology," Dean Spilhaus explained today.

"It is my intention," he added, "to have Professor Shepherd devote his attention particularly to the integration of the engineering fields in the institute including mines and metallurgy."

Professor Shepherd joined the University staff in 1947 following 10 years on the technical staff of the Bell Telephone Laboratories, Inc., in New York.

Born in Fort William, Ont., in 1911, he attended the public schools in Minneapolis, and earned the degree of bachelor of electrical engineering in 1933 and the doctor of philosophy degree in 1937 at the University of Minnesota.

Ralph Rapson, assistant professor of architecture at Massachusetts Institute of Technology, has been appointed head of the University of Minnesota school of architecture to succeed Roy C. Jones who retired in June, 1953.

Rapson, graduate of the University of Michigan, studied at Cranbrook Academy of Art. He has worked in the offices of Paul Schweikher, Saarinen and Saarinen, George Fred Keck and Perkins and Will, been associated with Moholy-Nagy on design jobs and was one of the architects of Eastgate Apartments, Cambridge, Mass. He has won 10 national prizes in architectural competitions.

Rapson's teaching experience includes four years at the Institute of Design in Chicago as head of the department of architecture. Since 1946 he has been on the staff of the architecture department at MIT.

From 1951 to 1953, he was on leave of absence as one of the chief designers for the Foreign Buildings Operation in Paris for the U. S. State Department. He is responsible for the designs of United States Embassies in Stockholm, Copenhagen, Athens, Oslo, the Hague and the United States Consulate in Le Havre.

He will assume his duties at Minnesota in September 1954.

PROFESSOR WRENN
OF 'U' PARTICIPATING
IN GUIDANCE MEET

(FOR IMMEDIATE RELEASE)

C. Gilbert Wrenn, University of Minnesota professor of educational psychology, is taking part this week (April 11-15) in the annual convention of the National Vocational Guidance association in Buffalo, N. Y. He is chairman of a program meeting on military personnel.

Topic for discussion at the meeting headed by Wrenn is "Interrelationship of Military and Civilian Guidance".

Last week (April 5-8) Wrenn attended the first meeting of the National Advisory Board of the Air Training Command of the United States Air Force, working at four different air bases. He is a member of the committee on instructor selection and instructor training which is headed by Harold Benjamin, dean at Peabody college and formerly director of the University of Minnesota Center for Continuation Study.

SHORT COURSE ON
CARE OF AGED
SCHEDULED AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- A three-day course in care of the aged in institutional homes will be conducted Thursday through Saturday, April 22-24, at the University of Minnesota Center for Continuation Study.

Cooperating to present the course, at which health, recreational and social needs of the institutionalized aged will be considered as well as administrative problems in conducting such homes, will be the Minnesota Department of Health, the Minnesota Department of Public Welfare and the University.

Address at a Thursday (April 22) evening dinner in Coffman Memorial Union will be presented by Clark Tibbitts, chairman of the committee on aged and geriatrics, United States Department of Health, Education and Welfare. The dinner is planned under the auspices of the Minnesota Association of Administrators of Homes for the Aged.

UNIVERSITY TO OFFER
ONE-YEAR COURSE FOR
LABORATORY AIDES

(FOR IMMEDIATE RELEASE)

Minneapolis --- A new one-year course for laboratory aides will begin next fall quarter at the University of Minnesota.

The course, offered by the general extension division of the University in cooperation with the college of medical sciences, is planned to prepare young women for work as technical assistants to medical technologists and doctors in clinical laboratories.

Combined in the course will be instruction in fundamental principles in selected phases of laboratory techniques as well as clinical experience in hospital laboratories.

The course, which will open on September 27, and be 12 months in length with six months in residence on the University campus in day classes and six months of practical training in the laboratories of 11 participating hospitals.

Hospitals participating will be: St. Paul: Bethesda, St. John's and St. Luke's and in Minneapolis: Asbury Methodist, Deaconess, Eitel, Fairview, Mount Sinai, Northwestern, St. Andrew's and St. Mary's.

MINNESOTA 'U' TO OFFER COMMUNICATIONS
COURSE AT FAMOUS RESORT IN SEPTEMBER

(FOR IMMEDIATE RELEASE)

Minneapolis --- Pine-scented brochures announcing a course in Effective Communication in Industry next September at Douglas Lodge on Lake Itasca have been sent by the University of Minnesota to about 3,500 management executives throughout the United States.

The course is planned by the University Center for Continuation Study for "men whose work in management demands proficiency in public relations, sales management and ability to work with people". It will open Sunday, September 12, and continue through Saturday, September 18.

Douglas Lodge, described as Minnesota's "own resort", is located deep in the northern Minnesota woods on the shores of Lake Itasca, headwaters of the Mississippi river.

Subjects to be emphasized at the course are listening, reading, writing and speech.

Hugh F. Seabury, associate professor of speech education, State University of Iowa, will teach speech skills and methods. Seabury is recognized nationally for achievements as a teacher, speaker and writer.

Other instructors at the course will include the following University of Minnesota faculty members: Ralph G. Nichols, head of the department of rhetoric; Donald Z. Woods and James I. Brown, associate professors of rhetoric.

Part of the week has been allotted for recreation. Facilities are available at the lodge for swimming, hiking, boating and fishing.

"U" Attendance
17,115, Up 409
From Year Ago

(FOR IMMEDIATE RELEASE)

Minneapolis ---University of Minnesota attendance for the spring quarter totals 17,115, an increase of 409 over the 1953 spring quarter figure, True E. Pettengill, University recorder, reported Tuesday (April 13).

Included in the total are 15,926 students on the Minneapolis and St. Paul campuses and 1,189 at the Duluth Branch, according to the recorder.

Of that total number of spring quarter students, approximately 29% are women. The total number of men is 12,201 and of women 4,914.

Fall quarter enrollment was 19,074 with 17,679 students on the Twin Cities campuses and 1,395 at Duluth. Winter quarter enrollment was 17,973 with 16,688 on the Twin Cities campuses and 1,285 at Duluth.

Marked enrollment increases over a year ago are in general college, the institute of technology and the college of education, Pettengill reported.

UNIVERSITY SENATE
TO CONSIDER NEW
CONSTITUTION APR. 22

(FOR IMMEDIATE RELEASE)

Minneapolis ---Revision of its constitution, adopted in 1912, will be considered by the University of Minnesota Senate at a special meeting called for 3:30 p.m. Thursday, April 22.

Presently made up of University administrative officers and top ranking faculty members (professors and associate professors), the Senate has general legislative and administrative authority over all matters concerning the University as a whole.

The proposed new constitution, adoption of which will be considered next week, was drafted by the Senate's committee on education after two years of continuous study in which both student and faculty groups were consulted.

Principal effects of the proposed constitution, according to Horace T. Morse, dean of the general college and chairman of the education committee, would be to make the Senate more efficient by reducing its size and more democratic by extending representation to the lower academic ranks.

Size of the Senate would be cut from the present 727 -- 630 of whom hold membership because of their academic rank -- to about 132 including 97 representatives elected from the various colleges. Representation would be allotted on the following basis: one Senate member for each 10 regular members of each college faculty who are professors or associate professors and one Senate member for each 40 faculty members of the rank of assistant professor, instructor, research associate or research fellow.

(MORE)

Under this system, 71 representatives would be elected by the higher ranking faculty members and 26 by the lower ranking group. Representation by colleges would be as follows:

College	Number of Faculty		Representatives		
	Group I	Group II	I	II	Total
	Prof. and Assoc. Prof.	Asst. Prof. and Inst. Res. Assoc. and Res. Fellow			
Agriculture	125	116	13	3	16
Business	28	16	3	1	4
Child Welfare	5	9	1	1	2
Dentistry	12	6	2	1	3
Duluth Branch	25	60	3	2	5
Education	42	58	5	2	7
Extension	4	13	1	1	2
General College	8	24	1	1	2
Institute of Technology	92	98	10	3	13
Law	13	2	2	1	3
Medical Sciences	75	85	8	3	11
Pharmacy	8	1	1	1	2
Physical Education (Men)	10	11	1	1	2
Physical Education (Women)	1	9	1	1	2
S. L.A.	182	144	19	4	23
Total	<u>630</u>	<u>652</u>	<u>71</u>	<u>26</u>	<u>97</u>

Also members of the Senate would be the 28 members of the administrative committee, including top administrative officers of the University and deans, and the seven members of the faculty consultative committee.

The revised constitution also provides that Senate meetings be held at least twice each quarter instead of once each quarter as called for in the present constitution.

The new plan, if adopted, also would provide that members of the Senate committees who are not members of the Senate, including student members, may be present at a meeting of the Senate during such time as a report of their committee is under discussion. They may participate in such discussion but will not have the privilege of making motions or voting.

ANTI-COMMUNISM
FILMS TO BE SHOWN
AT 'U' WEDNESDAY

(FOR IMMEDIATE RELEASE)

Richard Clayton Brower, native of Minnesota and now motion picture officer of the United States Information Agency at Athens, Greece, and attache of the United States embassy, will present a film lecture, "Films Against Communism" at 3:30 p.m. Wednesday, April 21, in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The lecture will describe the work of the United States Information Agency International Motion Picture Service in opposing and countering the Soviet drive for the control of the thoughts and actions of mankind.

Sound film from productions made in Europe by the United States government will be shown. Included are "Partners for Freedom," a film designed to inspire confidence in the free world to prevent Communist aggression through a show of defensive strength; "Without Fear", an animated color film which spells out shortcomings of dictatorship in general and Communism in particular as a means of government and a way of life; and "Let Us Live", a film which documents, in the words of escapees, the facts of life behind the Iron Curtain in East Germany.

Brower, born in Duluth, received his bachelor and master of arts degrees from the University of Minnesota and served as visual and radio education supervisor for the Minnesota department of education prior to his appointment to the foreign service.

On leave at home after 2½ years in Greece, he will return in May to Athens. Sponsoring his lecture are the University audio-visual education service and the department of concerts and lectures.

FAMILY CULTURAL, ECONOMIC STATUS MAJOR FACTORS
IN WHETHER YOUNG PEOPLE GO TO COLLEGE, BOOK REPORTS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Many well-qualified young people in Minnesota do not go to college, and whether or not they do depends to a considerable extent upon both the cultural and the economic status of their families. This fact is brought out in a study of 25,000 Minnesota high school graduates, a report of which has just been published by the University of Minnesota Press in the book, "After High School - What?" by Ralph F. Berdie.

For the study, detailed information was obtained through questionnaires submitted to all the high school seniors in Minnesota in 1950. The young people answered questions about what they planned to do after graduation and supplied information about their family status. Interviews also were conducted with a sampling of parents. A follow-up study was made a year later to determine how closely the students had followed their plans.

The findings revealed that only two-thirds of the exceptionally well-qualified young people attend college. Berdie points out that, in this respect, there has been improvement since a comparable, though not exactly similar, study made in 1939 indicated that only one-third of the upper 30 per cent of students went to college.

In analyzing the influence of cultural factors in the home upon the educational ambitions of young people, Berdie recognized the difficulty of separating this influence from that of economic factors. However, these facts were brought out:

1. A child from a home having many books will be more likely to plan to attend college than a child of similar ability from a home with similar economic resources but having few books.
2. A family subscribing to many magazines is more likely to have a child who plans to attend college than an otherwise similar family subscribing to few or no magazines.

(MORE)

3. Parents active in community organizations, particularly those related to schools, are more likely to have children who plan to attend college than otherwise similar parents who do not participate in such activities.
4. Parents who have progressed far in school, particularly those who have attended college, are more likely to have children who plan to attend college than parents in similar occupations who have not attended college.

As for the influence of economic factors, over one-third of the students planning to work after high school said they would go to college if they had more money. About half this group said they would need enough money to pay all of their expenses, and the rest said they would need enough to pay half their expenses. It was estimated that in 1950, the year of the study, the cost of one year at college in Minnesota was \$1,000.

The information obtained from the interviews with parents showed that the plans of youth conformed closely to the values held by their parents. The parents of the children who planned to go to work saw college primarily in the economic context -- that is, it was not important so long as it was not necessary as a means toward earning a satisfactory income. The parents of students who planned to go to college viewed a college education as having other values than the purely economic.

Berdie is a professor of psychology and director of the Student Counseling Bureau, University of Minnesota. Chapters in the book also are contributed by two other members of the Student Counseling Bureau, Professors Wilbur L. Layton and Ben Willerman.

MARY HUTCHINSON,
ONE-WOMAN ACT,
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

Mary Hutchinson, known as a one-woman theater, will present a program of dramatic sketches in monologue, at the University of Minnesota convocation at 11:30 a.m. Thursday, April 22, in Northrop Memorial auditorium.

Her program will be preceded by an organ recital at 11 a.m. by Arthur B. Jennings, University organist.

Miss Hutchinson portrays such characters as Juliet, Portia, Lady Macbeth, Cleopatra and Rosalind. She sings, dances and acts.

Characters in her repertoire range from gum-chewing Rosie McGonnigle from Brooklyn to Daisybelle, a pig-tailed mountaineer from Tennessee.

Miss Hutchinson is directly descended from the Hutchinson Family, famous concert singers of the 19th century. In 1850, when P. T. Barnum had brought over the Swedish Nightingale, Jenny Lind, he called in the Hutchinson Family to give a recital for the prima donna to show her what fine singers there were in America. They were called the "Pioneers of Song".

She has presented her dramatic sketch programs from coast to coast for nine years. Before that she had appeared on Broadway in "The Vanities", "Castles in the Air", and dramatic productions. On the West Coast she was in "Follow Thru" and "Peer Gynt", and for six years she was a featured player with the Mohawk Drama Festival.

UNIVERSITY SENIOR
FROM ATWATER WINS
\$100 SCHOLARSHIP

(FOR IMMEDIATE RELEASE)

Joan Louise Munson, University of Minnesota senior, has been awarded a \$100 Maria Starovich memorial scholarship for the spring quarter, according to George B. Risty, director of the bureau of student loans and scholarships.

Miss Munson, who is studying elementary education, is the daughter of Mr. and Mrs. Roy O. Munson of Atwater. She graduated from the Atwater high school in 1950 and attended Augsburg college before enrolling at the University.

The scholarship is awarded on the basis of academic aptitude and vocational promise. It was established as a memorial to Miss Starovich who served as a counselor in Comstock hall, girls' dormitory, and is supported by private memorial gifts from her friends and co-workers. Cooperating with the bureau to award the grant is a special committee of counselors and residents in Comstock hall.

'U' PROFESSOR DUGAN
ELECTED TREASURER
OF PERSONNEL GROUP

(FOR IMMEDIATE RELEASE)

Minneapolis --- Professor Willis E. Dugan, University of Minnesota chairman of the department of educational psychology, has been elected treasurer of the American Personnel and Guidance association.

As treasurer of the organization, Dugan will be one of three key executive officers of a 7,000-member professional group for guidance and personnel workers. Among functions of the association are the publishing of a professional journal and directory of approved counseling agencies, an annual convention for 2,000 persons and the publishing of a yearbook.

Professor Dugan has been associated with the University since 1938. Among his publications is Guidance Procedures in High School which he wrote with Professor C. Gilbert Wrenn, a colleague in the University's college of education, and which was published by the University of Minnesota Press in 1950.

During the war, Dugan served with the American Red Cross in Washington, D.C., first as assistant to the director of insular and foreign operations and then as national director of personnel in charge of technical analysis.

Professor Dugan has been personnel consultant to such organizations as the National Foundation for Infantile Paralysis, Navy Relief society and Community Chests and Councils, Inc. For the last six years he has headed the March of Dimes in Minnesota.

FIVE 'U' STUDENTS
WIN IN BIG 10
PHOTO CONTEST

(FOR IMMEDIATE RELEASE)

Five students or former students of the University of Minnesota have won honorable mentions for photographs in the first annual Big Ten photo contest held recently at Indiana university at Bloomington.

The Minnesota winners are D. L. Aker, 43 Dell Place; Robert Rathbun, 1405 East 46th street; Maynard Sampson, 3026 4th avenue, South, all of Minneapolis; Dwan Basdeka, now of California; and Edwin Nelson of Rush City.

First prize went to David Black, Indiana; second to Arnold S. Gore, Iowa; and third to R. Joyce Talbert, Ohio State.

Of a total of 124 entries, 23 photos took honors. Indiana rated top with six outstanding entries chosen for display. Minnesota and Ohio State tied for second places with five each, Wisconsin had three, Illinois two, Iowa one and Purdue one.

The winning prints will be shown at the National Association of College Unions convention April 24-28 at the Edgewater Beach hotel, Chicago. Next fall they will be exhibited on a tour of Big Ten universities.

MINING PHYSICIST
TO GIVE WARREN
LECTURES AT U OF M

(FOR IMMEDIATE RELEASE)

Minneapolis --- Leonard Obert, chief of the allied physics branch of the United States bureau of mines at College Park, Maryland, will give the first series of lectures on mining sponsored by the Warren lecture fund at the University of Minnesota.

Obert will give three lectures on the application of physics to mining engineering Wednesday, Thursday and Friday, May 5, 6 and 7, at the school of mines and metallurgy.

Topics for the lectures will be "Physical Properties of Rocks from an Engineering Viewpoint", "Stress Distribution Around Mine Openings" and the "Prevention of Rock Failures Are Problems Which Require Study By Mining Engineers and Physicists".

Obert was born in Minneapolis and received his bachelor and master of arts degrees at the University of California at Los Angeles and his doctor of philosophy degree from Johns Hopkins university.

The Warren lecture fund was established recently through the Greater University Fund by Mrs. Alice R. Warren-Gaarden, former member of the University Board of Regents, to bring outstanding specialists in mineral science and mineral engineering to the University.

Advisers for the fund are T. L. Joseph, assistant dean of the institute of technology; Lloyd J. Severson, vice president and general mining engineer of the Oliver Iron Mining division, United States Steel corporation; Henry S. Kingman, president of Farmers and Mechanics Savings bank, Minneapolis; E. P. Pfleider, associate professor of mining engineering; and S. R. B. Cooke, professor of metallurgy, both of the University of Minnesota.

NATIONAL RESOURCES
CONFERENCE SLATED
AT U OF M MAY 3-14

(FOR IMMEDIATE RELEASE)

Minneapolis --- How civilian and military segments of our national life can most effectively cooperate in times of national crisis will be discussed at a National Resources conference to be held at the University of Minnesota May 3-14.

The University will sponsor the two-week conference at which a team of Army, Navy, Marine and Air Force officers from the faculty of the Industrial College of the Armed Forces in Washington, D. C., will present lectures and lead discussions.

Co-sponsors of the conference, which will be held in the auditorium of the Minnesota Museum of Natural History, are the Fifth Army, the Ninth Naval District and the Tenth Air Force.

Attending the conference will be 200 high-ranking reserve officers of the Armed Forces, ordered to active duty for the period, and approximately 225 civilians representing a cross section of individuals from industry, agriculture, labor, business, the professions, religion, education and civic community life in this area. Persons wishing to enroll may address their applications to Director, Center for Continuation Study, University of Minnesota.

Sessions of the conference will run four hours per day Monday through Friday each scheduled week.

Some of the topics to be covered include: the nation's agricultural capabilities, the problems of production during mobilization and reconversion, the broad aspects of world, political, economic and power patterns, the military and civilian requirements for mobilization and the relationship of these requirements to the economy of the nation and the human resources of the nation for military and economic mobilization.

Commander F. B. Andreen of Fort Snelling, a Navy reservist, has been recalled to active duty by the Chief of Naval Personnel to coordinate arrangements for the conference.

Youngdahl to Speak
At U of M Law
Banquet Monday

(FOR IMMEDIATE RELEASE)

Minneapolis ---Luther W. Youngdahl, former governor of Minnesota and now a federal district judge in the District of Columbia, will be the principal speaker at the annual University of Minnesota law school banquet Monday (April 19) in Coffman Memorial Union. Subject of Judge Youngdahl's address had not yet been announced.

Justice Oscar Knutson of the Minnesota supreme court, president of the Law School Alumni association, will be toastmaster at the banquet which will climax Law School Day on the campus. Officers for the coming year will be elected at a meeting of the Alumni association at 5 p. m. in the Union main ballroom. The banquet will follow at 7 p. m.

A highlight of the banquet will be the unveiling of a portrait of Dean Emeritus Everett Fraser painted by Cameron Booth, Minnesota artist. It was commissioned out of a fund made up of contributions from alumni.

Honored banquet guests will be the justices of the Minnesota supreme court and Regents of the University.

Law School Day will get underway Monday morning with parents and friends of students visiting classes. Minnesota Bar association scholarships will be announced at a special convocation at 11 a. m. in Room 101 Fraser hall.

At this time, Dean Maynard Pirsig of the Law school will describe the projected \$600,000 addition to Fraser hall authorized by the 1953 State Legislature.

A golf tournament for faculty, students and alumni of the school will begin at noon on the University golf course. The annual student-faculty softball game will be played on the University's Fourth street athletic field at 2 p. m.

Monrad Paulsen, associate professor of law, is general arrangements chairman for Law School Day.

CHEMISTRY TALKS
FOR HS STUDENTS
OFFERED AT U OF M

(FOR IMMEDIATE RELEASE)

A series of three chemistry lectures for Twin Cities area high school students will be presented at 8 p.m. Thursday (April 22), Thursday, April 29, and Friday, May 7, in the Chemistry building at the University of Minnesota.

The University school of chemistry and the University American Chemical society student affiliate are presenting the series to give high school students an insight into a career in the natural sciences.

Subjects of the lectures will be: April 22, "Alchemy to Chemistry" by Professor Paul R. O'Connor, acting chief of inorganic chemistry; April 29, "Chemistry: 1954 Model" by Professor Richard T. Arnold, head of chemistry; and May 7, subject and lecturer to be announced. An open house is planned also for May 7 in the Chemistry building.

Tickets for high school students or other persons interested in the series are available from high school science teachers and will be available at the door on the evenings of the lectures.

Professor O'Connor will outline some of the highlights in the development of chemistry. Professor Arnold will explain how chemists have fashioned a new exciting world from the sea, air, minerals, coal, petroleum and living plants, producing such things as synthetic rubber tires which will outlast an automobile, drugs which act like morphine and yet are not habit forming, metals and alloys with unbelievable properties, a man's suit which looks like wool, feels like wool and yet has never had any relation to a sheep.

GEOLOGY LECTURE
AT 'U' WEDNESDAY

(FOR IMMEDIATE RELEASE)

"Our Restless Earth", an earth science lecture demonstration, will be given by William Allen Black, University of Wisconsin geologist at 12:30 p.m. Wednesday (April 21) in Room 2 Pillsbury Hall at the University of Minnesota.

The program, which will demonstrate how man uses geological science to better his life, was conceived by the American Geological Institute in cooperation with the departments of geology at the Universities of Minnesota and Wisconsin.

The lecture is built around both natural and man-made earthquakes. It demonstrates how man using his ingenuity has put earthquake knowledge to work for humanity.

Black has travelled from the arctic to the antarctic doing research in connection with the shape of the earth. His business experience in the geological sciences has been in the coal and oil industries as well as with consulting work in the geophysical exploration for minerals and ground water.

MINISTERS TO STUDY
COUNSELING PROBLEMS
IN INSTITUTE AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- The spiritual needs of the ill will be outlined for ministers at a University of Minnesota institute on pastoral counseling Monday and Tuesday (April 26, 27) at the Center for Continuation Study.

Among the speakers for the institute will be the Rev. Thomas W. Klink, distinguished clergyman and teacher who is now chaplain of the Topeka, Kansas, State hospital, and the Rev. Frederic Norstad, director of chaplaincy service of the Lutheran Welfare society and president of the Citizens Mental Health Association of Minnesota.

Rev. Klink, who directed a series of state-wide seminars for ministers of Kansas in 1952 and more recently conducted a seminar for ministers of Riley county under the sponsorship of the Kansas State college, will deal primarily with hospital counseling.

The Kansas clergyman will lecture and will use film case study, role-playing and discussion. Focus of the session will be on practical, clinical situations typically encountered, such as anxiety, loss and grief, pain, terminal illness and guilt and will deal with such pastoral resources as prayer, scripture and other ministrations.

Rev. Norstad will present case studies, pointing out danger signals which might alert the pastor to symptoms which may indicate emotional or mental disturbances.

C. Gilbert Wrenn, University professor of educational psychology, will give the concluding discussion on some psychological considerations of counseling.

Cooperating to present the course are the center and the office of the University's coordinator of student religious activities.

ANATOMY PLANNED

(FOR IMMEDIATE RELEASE)

An introduction to anatomy and medical terminology will be presented in a University of Minnesota general extension division short course on eight consecutive Friday evenings, starting this week, in Owre hall on the University campus.

Dr. Samuel O Cornwell, assistant professor of anatomy, will outline a review of anatomy at four classes from 7 to 9:30 p.m. Fridays, April 23 and 30 and May 7 and 14.

Dr. Stewart C. Thomson, professor and assistant director of the school of public health, will teach the classes in introduction to medical terminology from 7 to 9:30 Fridays May 21 and 28 and June 4 and 11.

Sponsoring the short course are the University extension division, Twin City Chapter of Medical Record Librarians, Minnesota Hospital association and the Minnesota Department of Health.

AERO ENGINEERING
STUDENTS TO PRESENT
PAPERS IN DALLAS

(FOR IMMEDIATE RELEASE)

Two University of Minnesota aeronautical engineering students will present technical papers in the second annual student paper competition on aeronautical subjects in Dallas, Texas, Thursday (April 22).

Competing for prizes ranging up to \$300 will be George R. Barte, Jr., St. Paul, aero engineering senior, and James L. Grunnet, Minneapolis, graduate student. Barte's paper is titled "Discussion of a Proposed Wing Design", and Grunnet will present "A Review of the Starting Process in Supersonic Wind Tunnels".

Accompanied by A. E. Cronk, associate professor of aeronautical engineering, the students left Wednesday (April 21) morning for Dallas.

Students for 16 universities and colleges have entered the competition which is sponsored by the Texas section of the Institute of Aeronautical Sciences. Contest winners will be announced at an awards dinner Saturday (April 24).

CANADIAN WELFARE
PROGRAM SUBJECT
OF 'U' LECTURE

(FOR IMMEDIATE RELEASE)

John S. Morgan, professor of social work at the University of Toronto, will give the annual Hodson Memorial lecture at 8 p.m. Thursday (April 22) in the auditorium of the Minnesota Museum of Natural History at the University of Minnesota.

Topic of the lecture will be "Social Welfare Needs of a Changing Society: the New Canada".

Morgan was educated at Oxford and Durham universities in England where for many years he was a worker, writer and leader in social welfare programs. He went to Canada in 1946 to serve on the faculty at the University of Toronto.

In his lecture Thursday Morgan will outline some of Canada's experience in developing nation-wide social security and public welfare programs, and he will evaluate their acceptance and relative effectiveness.

The annual Hodson lectures are presented as a memorial to the late William Hodson, a University graduate and first chief of the Minnesota Children's bureau. Hodson, who founded the Legal Aid society of Minneapolis, became New York city commissioner of welfare and later deputy director of UNRRA. He was lost in an airplane crash in the South American jungles while flying to Africa for UNRRA.

A group of his friends and associates set up a fund to finance the yearly lectures.

WORLD TRAVELER
TO LECTURE AT 'U'
MONDAY EVENING

(FOR IMMEDIATE RELEASE)

David Hardy, world traveler and lecturer, will present an illustrated lecture on behind the scenes of Life magazine's science series, "The World We Live In", at a special evening University of Minnesota convocation at 8 p.m. Monday (April 26) in Northrop Memorial auditorium.

Included in the lecture will be colored motion pictures and wide-screen projection of paintings and color photographs. To gather the facts in the lecture and to take the photographs to be shown, scores of Life staff members have travelled all over the world -- to the Canadian tundra waste, to tropical South American jungles, to the Sonoran desert and to Pacific depths.

"The World We Live In" series began in December 1952, with the first installment entitled "The Earth Is Born". Subsequent chapters told about the sea, the land, the atmosphere and the development of animal and vegetable life on the planet.

Hardy will tell the humorous and adventurous stories encountered all over the world by Life reporters, artists and photographers in their search for accurate facts and pictures for the series which will continue to appear in the magazine at regular intervals through 1954.

Hardy volunteered for the Royal Marines in 1942 and was sent to the Middle East and Burma where, as a Commando, he penetrated far behind Japanese lines. After 1945, he traveled extensively through Japan, China, South East Asia. For the last three years he has been news analyst, foreign correspondent for England's BBC and the London Times and producer of radio programs beamed at the Far East for the United Nations.

(FOR IMMEDIATE RELEASE)

The University of Minnesota Press has just published a book of particular interest to students of comparative drama and literature, "The Braggart in Renaissance Comedy: A Study in Comparative Drama from Aristophanes to Shakespeare", by Daniel C. Boughner. The author is a professor of English at Evansville college, Evansville, Ind.

In the study Professor Boughner traces the history of the familiar stage character of the swaggering braggart, which he calls the most prolific role in comedy. The comic type is followed through the dramas of ancient Greece and Rome and Renaissance Italy, Spain, France and England. The work throws considerable light on the nature and development of comedy itself.

Professor Boughner completed his research for the volume during an appointment as a fellow of the Newberry library, Chicago, last summer. He has contributed scholarly studies to a number of learned journals in England, France, Holland and the United States. Prior to his appointment at Evansville college he served on the faculties of Northwestern university, West Virginia Wesleyan college, and West Virginia university.

JEFFERS STUDENT
WINS SCHOLARSHIP
AT MINNESOTA 'U'

(FOR IMMEDIATE RELEASE)

Meredith A. English, University of Minnesota sophomore from Jeffers, has been named winner of the 1954-55 \$100 Alice Pomeroy scholarship, according to George B. Risty, director of the bureau of student loans and scholarships.

Miss English, who is majoring in physical education at the University, is the daughter of Mrs. T. G. Menken, an instructor in the high school in Jeffers. A graduate of Sleepy Eye high school, Miss English was also recipient in 1953 of the Caleb Dorr scholarship.

The Alice Pomeroy grant, awarded on the basis of scholastic achievement, personal attributes and future promise, was established by bequest from the late Mrs. Eunice B. Arnold in memory of her sister, Alice Pomeroy Tyrholm of the class of 1906. It is an annual award to a woman student in the college of education.

SENATOR FULBRIGHT
WILL SPEAK AT 'U'
ON WORLD AFFAIRS

(FOR RELEASE SUNDAY, APRIL 25)

United States Senator J. William Fulbright of Arkansas will talk on "The United States in World Affairs" at a University of Minnesota convocation at 11:30 a.m. Thursday (April 29) in Northrop Memorial auditorium.

The convocation is part of the University Education Day program which will close with a banquet at 6 p.m. in the main ballroom of Coffman Memorial Union. Theme for Education Day will be "Education for Moderns".

Special awards will be presented at the banquet to education students chosen "The Ideal Teacher" on the basis of leadership and service. Other Education Day plans include an ice cream social on the Knoll and softball games in which the men faculty members will oppose the women students and the women faculty members will be versus the men students.

Senator Fulbright, who has actively supported efforts to maintain peace through world cooperation and through a strong world organization, sponsored the amendment to the surplus property act which utilizes funds received for surplus property abroad for the establishment of exchange scholarship foundations.

Fulbright was graduated from law school at George Washington university in 1934 and took a position in the anti-trust division of the Department of Justice. He then served as instructor in law at George Washington university and the University of Arkansas, the college from which he had received his bachelor of arts degree in 1925 and of which he was elected president in 1939 at the age of 34.

In 1942, Fulbright entered the Democratic primary as candidate for Congress and was nominated by a substantial majority.

Soon after entering Congress, the Arkansas representative won recognition as an authority on foreign affairs. Within a few months he had won nationwide attention with the "Fulbright Resolution". The 55-word resolution called for an international organization to maintain the peace and was the forerunner to the establishment of the United Nations.

A recording of Senator Fulbright's speech will be broadcast by KUOM Friday (April 30) at 11:15 a.m.

'STARTING FARMING'
'U' RADIO SERIES
TOPIC FOR SUNDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- "Getting Started in Farming" will be the subject for the second program in a new weekly radio series by the University of Minnesota Social Science Research Center, at 3:45 p.m. Sunday (April 25) over station WCCO.

On the program E. W. Ziebarth, chairman of the University's speech department and educational consultant to the Columbia Broadcasting system, will interview Philip M. Raup, professor of agricultural economics.

The program will be re-broadcast at 5:30 p.m. Friday, April 30, over radio station KUOM.

The new radio series, "Minnesota Trends", is planned to bring to Minnesotans the results of current research on problems and conditions of concern to all citizens of the state, according to Ziebarth.

Printed reports of the material covered in the weekly broadcasts will be available upon request while the supply lasts. Requests may be phoned or mailed to the Social Science Research Center, 408 Johnston Hall, University of Minnesota, Minneapolis 14.

30 FOREIGN 'U'
STUDENTS TO VISIT
REDWOOD FALLS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Citizens of Redwood Falls will have the opportunity to learn more about 16 different foreign countries Friday, Saturday and Sunday (April 23, 24 and 25) when approximately 30 foreign students and a few American students of the University of Minnesota visit their community.

The students will be on the seventh "International Embassy" trip arranged by the YMCA and YWCA organizations on the University's Twin Cities campuses.

Sponsoring the trip, which will begin by bus at 8 a.m. Friday (April 23) from the YMCA at Fifteenth and University avenues Southeast, is a committee from Redwood Falls.

Other International Embassies have been sponsored in previous years at Bertha, Stillwater, Austin, Winona, Brooten, Elbow Lake and Glenwood.

The whole group will meet for a send-off supper at 6:30 p.m. Thursday in the University YMCA. There they will become acquainted with each other, with the American students, who are their hosts and will act as their interpreters, and will learn more about Redwood Falls, according to Frank Watanabe, YMCA associate secretary and adviser to the students planning to make the trip.

The bus is scheduled to arrive at Redwood Falls at 11 a.m. Friday. The foreign students will eat with the high school students and later attend their classes. After an afternoon assembly program, the University group will meet their hosts. Planned by some of the Redwood Falls hosts for the evening are discussions with the individual families and their neighbors.

The Saturday schedule includes a tour of industries and farms during both the forenoon and afternoon as well as attendance at a Redwood county Republican political convention. A community banquet is planned for 6:30 p.m. at the high school. The foreign students will present a panel discussion and talent show on the program.

Students will attend church Sunday morning with their hosts, have dinner and at 2:30 p.m. leave for their return bus trip to the University campus.

Represented in the group will be the following countries: Iraq, England, Germany, Japan, Pakistan, Malaya, France, New Zealand, Indochina, Burma, Korea, Austria, Ethiopia, China, India and the Philippines.

MINERAL RESOURCES
MAP OF MINNESOTA
PUBLISHED AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- First edition of a map of Minnesota's mineral resources has just been published by the University of Minnesota and the Minnesota Geological Survey and is available for distribution.

The map was compiled by George M. Schwartz, University professor of geology and mineralogy and director of the Minnesota Geological Survey, and Nikola Prokopovich, engineering assistant in geology and mineralogy.

Indicated on the map are areas in which mineral resources of various kinds may be found. He gives as examples copper-nickel sulfides in the Duluth Gabbro, areas of limestone and locations of Decorah shale.

Schwartz and Prokopovich also indicated on their new map, the first of its kind published in Minnesota, the new major magnetic belts according to the aero-magnetic survey which was begun in 1947.

Copies of the map are available upon request without charge. Requests should be addressed to G. M. Schwartz, Minnesota Geological Survey, 207A Pillsbury Hall, University of Minnesota, Minneapolis 14.

MINNESOTA SCHOOL
OF AIR TO PRESENT
ECLIPSE SERIES

(FOR RELEASE SUNDAY, APRIL 25)

The total eclipse of the sun at dawn June 30 will be the subject of four special quarter-hour broadcasts for schools to be presented by the Minnesota School of the Air, the in-school broadcast service of the University of Minnesota.

The series, entitled "Darkness at Dawn", will be broadcast weekly over KUOM, the University of Minnesota radio station, beginning Thursday (April 29) at 11:15 a.m.

The forthcoming eclipse will mark the first time in 451 years that this phenomenon has been visible in this part of the world. The special Minnesota School of the Air radio series will background the history, beliefs and importance of the eclipse and will include a scientific explanation of what happens and why it is important.

These preparatory broadcasts for teachers and pupils are part of an extensive public information project planned by the University of Minnesota in connection with this historic event.

SCIENCE TEACHERS
TO HEAR DISCUSSION
OF COSMIC RAYS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Minnesota high school science teachers will hear a talk on "Cosmic Rays" at their spring conference Friday, April 30, at the University of Minnesota.

Talking on cosmic rays at a noon luncheon in the junior ballroom of Coffman Memorial Union will be Leland Bohl, research fellow in the University's department of physics, who has assisted in the cosmic ray research program since 1949. His talk will be illustrated with slides of equipment built at the University for the University's cosmic ray balloon research program in Texas.

Bohl received his bachelor of science degree from the University of Kansas and his master of science degree from the University of Minnesota. Before coming to Minnesota, he built apparatus for cancer research at the University of Kansas.

At the morning session of the conference the high school science instructors will be concerned with "Electronics in Science Teaching" with oscilloscopes and radio clubs presented by Donald Patzsch, communications engineer of the University audio-visual education service.

A symposium on "Making the Best of Your Science Supply Budget" will be conducted in the afternoon by three representatives of laboratory equipment and supply companies.

TWO 'U' WOMEN
STUDENTS RECEIVE
\$100 SCHOLARSHIPS

(FOR IMMEDIATE RELEASE)

Two University of Minnesota women students from Brainerd and Wadena have been awarded \$100 scholarships, according to George B. Risty, director of the bureau of student loans and scholarships.

The scholarship winners are Lou E. Robb, sophomore of Wadena, and Marilyn Irene Setula, junior from Brainerd.

Awarded to Miss Robb for 1954-55 was the Associated Women Students of the University scholarship. It is assigned to undergraduate women students in any college of the University on the basis of outstanding scholarship and community leadership.

Miss Robb is the daughter of Mr. and Mrs. William H. Robb. She was graduated from Wadena high school in 1952 and during her freshman year at the University won the Minnesota Alumni scholarship. She is studying home economics on the St. Paul campus.

Miss Setula has won the scholarship established by the Minneapolis Reciprocity committee of P. E. O. Sisterhood. Basis for awarding it are scholastic achievement, personal attributes, leadership potential and future promise.

Miss Setula is the daughter of Mr. and Mrs. John T. Setula, 815 14th street, Brainerd. She was graduated in 1951 from Washington high school in Brainerd, where she won the National Scholastic Press association Star award, and attended Brainerd Junior college before entering the University. She is studying physical education at the University.

MINNESOTA 'U' PRESS TO PUBLISH VOLUME
ON LAWS OF OBSCENITY, BOOK CENSORSHIP

(FOR IMMEDIATE RELEASE)

Minneapolis --- A comprehensive study of the laws of obscenity and the censorship of books is being readied for publication by the University of Minnesota Press, Helen Clapesattle, director, announces. The book will be completed early next year by Robert C. McClure and William B. Lockhart, professors of law at the University of Minnesota.

The book is intended for the general reading public, not just for the legal profession. It will trace the development of concepts of obscenity and will show how the lack of any agreement on the meaning of the term has beclouded the issues and the legal aspects of censorship.

The authors will describe legal interpretations of obscenity laws in both the United States and England. They will cite numerous specific attacks upon specific books, and will cover censorship events and developments through 1954. They will explain the constitutional issues involved in the censorship controversy and will point out the need for constitutional standards in the effort to reach justice in the matter.

An article based on a portion of the forthcoming book-length study by Professors Lockhart and McClure was published in the March 1954 issue of the Minnesota Law Review. The article is entitled "Literature, the Law of Obscenity, and the Constitution".

CHANGES IN UNION
FACILITIES PLANNED
AT MINNESOTA 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Changes planned for the University of Minnesota's Coffman Memorial Union this summer will result in moving, improving and enlarging the commuters' lunch room, shifting the art craft shop and eliminating the student postoffice box system, according to Malcolm M. Willey, University vice president for academic administration.

The lunch room will be moved from the basement to the ground floor to space now occupied by postoffice boxes and the present art craft shop. Milk, beverages and a box lunch service will be provided there.

The art craft shop will be moved to the basement area now occupied by the commuters' lunchroom. The bookstore and branch postoffice will remain as they are. The program is being financed in part by the Union Board of Governors and in part by an allotment of University funds by President J. L. Morrill.

Vice President Willey reported that the changes will increase by about one-third the number of students who can eat in the commuters' lunch room and will provide far better and more attractive quarters. During the time of the day when the new commuters' lunch room is not needed for eating, it will be available for general student activities such as parties, dances and assemblies.

Some postoffice boxes will be retained for student organizations, and procedures will be worked out for students to obtain their grades through college office facilities instead of through their postoffice boxes.

"The move," Vice President Willey explained, "is the outgrowth of the realization that present commuter lunchroom quarters are inadequate even for present student enrollment and will be hopelessly inadequate as enrollment increases over the next decade. The move thus looks ahead to future needs as well as considers present inadequacies."

Plans for the projected changes were worked out under the direction of Theodore Caplow, associate professor of sociology and administrative consultant to the president, and an advisory committee.

SCHEDULED AT 'U'

(FOR IMMEDIATE RELEASE)

Three lectures on the application of physics to mining engineering will be given May 5, 6 and 7 at the University of Minnesota by Leonard Obert, chief of the allied physics branch of the United States bureau of mines at College Park, Maryland.

The lectures are the first presented under sponsorship of the Warren lecture fund.

"Physical Properties of Rocks from the Engineering Viewpoint" is the topic of the first lecture which will be given at 1:30 p.m. Wednesday, May 5, in Appleby hall. Other subjects are "Stress Distribution Around Mine Openings" which is slated for 8:30 a.m. Thursday, May 6, in 202 Appleby hall, and "Prevention of Rock Failures Are Problems Which Require Study by Mining Engineers and Physicists", which is slated for 8:30 a.m. Friday, May 7, in 202 Appleby hall.

Obert, who was born in Minneapolis, received his bachelor and master of arts degrees at the University of California at Los Angeles and his doctor of philosophy degree in physics from Johns Hopkins university.

The Warren lecture fund was established recently through the Greater University Fund by Mrs. Alice R. Warren-Gaarden, former member of the University Board of Regents, to bring outstanding specialists in mineral science and mineral engineering to the University.

(FOR RELEASE SUNDAY, MAY 2)

The annual joint concert of the University of Minnesota Concert Band and Chorus will be presented at 4:30 p.m. Sunday, May 9, in Northrop Memorial auditorium.

Directing the band will be Gerald Prescott, associate professor of music, and directing the chorus will be James Aliferis, associate professor of music. There will be no admission charge for the concert.

On the program will be the following:

Toccata and Fugue in D Minor	Vernon-Malone
Symphony In B Flat	Paul Fauchet

CONCERT BAND

Come, Jesu Come--double motet for unaccompanied Chorus	Bach
Here, Yet Awhile, from St. Matthew Passion for double chorus	Bach

UNIVERSITY CHORUS

Psalm 148	William Latham
Pilgrim's Chorus from "Tannhauser"	Wagner

CHORUS AND BAND

FOR RELEASE SUNDAY, MAY 2)

Ann Bomar, mezzo-soprano, will give a recital at 8:30 p.m. Wednesday, May 5, in Scott hall auditorium at the University of Minnesota. There will be no admission charge.

Miss Bomar is a native of St. Paul and a graduate of the Curtis Institute of Music, Philadelphia. She made her concert debut in Stockholm, Sweden, in 1947 and followed it with a tour of Europe. When she returned to this continent she gave a recital in Town Hall, New York City.

Miss Bomar has appeared as assisting artist with the Roth String Quartet in New York and has given concerts in many Canadian cities as well as a broadcast performance on a coast-to-coast Canadian network.

Locally, Miss Bomar, soprano soloist at Plymouth Congregational church, has sung leading roles with the St. Paul Civic Opera Company in Mignon, Aida, Madame Butterfly and last February in Merry Wives of Windsor. She also has appeared as soloist with the Minneapolis Symphony Orchestra in its performance of Beethoven's Ninth Symphony. Two years ago she played the part of the secretary in the University Theater and Music department's joint production of Menotti's "The Consul".

Miss Bomar, who will be accompanied at the piano by Paul Oberg, chairman of the University music department, will present Faure's song cycle "La Bonne Chanson". It will receive its first Minneapolis performance along with the two selections from Faure's opera Penelope.

DULUTH STUDENT
AT 'U' RECEIVES
\$1,800 FELLOWSHIP

(FOR IMMEDIATE RELEASE)

Minneapolis --- Richard L. Lysaker of Duluth is the first University of Minnesota student to receive the \$1,800 Ford Behavioral Sciences Fellowship for graduate students.

Lysaker, a senior, is the son of Mr. and Mrs. Henry Lysaker, 2031 West Third street, Duluth. He was graduated in 1950 from Duluth Denfeld high school and attended the University Duluth Branch and the North Park College at Chicago before enrolling at the University last fall.

The fellowship was established by the Ford Foundation to encourage able students to enter the social sciences for their graduate study. A total of 23 awards were made this year, the second year of the award.

Lysaker plans to enroll in the University graduate school during the coming academic year.

GENETICIST TO TALK
ON HUMAN HEREDITY
AT U OF M TUESDAY

(FOR IMMEDIATE RELEASE)

Laurence H. Snyder, dean of the University of Oklahoma graduate college, will discuss "Human Heredity and Its Modern Applications" at the University of Minnesota Sigma Xi chapter lecture at 8 p.m. Tuesday, May 4, in the Minnesota Museum of Natural History auditorium on the campus.

Snyder will describe how principles of heredity which were discovered almost a hundred years ago in a study of sweet pea plants are now applied to problems of human heredity in five ways. There will be no admission charge for the lecture.

The five ways are: 1. prevention -- the instituting of preventive measures against certain diseases and anomalies -- on the basis of specific genetic backgrounds; 2. diagnosis, on the basis of genetic data, on conditions difficult to identify by other means; 3. genetic prognosis -- furnishing of information to families and prospective families as to the chances of the appearance or reappearance of the particular trait in the family; 4. the determination of non-paternity in instances of disputed parentage; and 5. the solution of the problems of blood diseases of the new-born due to incompatibility of mother and child in regard to the Rh factor and related blood factors.

Snyder, who received his bachelor of science degree from Rutgers university and his master and doctor of science degrees from Harvard university, has studied human genetics for 31 years. He has written four books and more than 100 articles on various phases of human heredity. Snyder was instrumental in developing the modern statistical methods for the study of human inheritance.

Snyder developed and presented the first course in medical genetics to be required in a medical school in the United States at the Ohio State university and has been called upon to inaugurate similar courses in other medical schools.

MINNESOTA H S
MUSIC CONTESTS
TO START FRIDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Thousands of Minnesota high school students will compete in music contest festivals in various sections of the state Friday (April 30), Saturday (May 1), and Friday and Saturday, May 7 and 8.

Bands, choruses, orchestras, glee clubs and vocal and instrumental soloists and ensembles will receive constructive criticisms and ratings from music judges at the regional music contests. To be eligible for the regional activities, the groups and soloists must have earned "I" ratings in district events.

The music festivals are promoted by the Minnesota Public School Music league. President is Superintendent A. M. Wisness of Willmar, and the secretary-treasurer is Paul M. Oberg, University of Minnesota chairman of music and music education.

Winners of "I" ratings become eligible to purchase keys as a recognition of award, and schools with large groups receiving "I" ratings may purchase trophies. Certificates of award will be given to all recipients of "I" ratings.

Dates and places of the regional activities are as follows;

Region I: Saturday, May 8, Owatonna High School, Owatonna. Solos and small ensembles only. Erling Lian, contest manager.

Region II: Saturday, May 1, Gustavus Adolphus College, St. Peter. Paul Allwardt, contest manager.

Region III and Schools in Region II west of Highway 71: Friday, April 30, Worthington, Solos and small ensembles. Gerald Niemeyer, contest manager. Saturday, May 1, Tracy. Large groups. Supt. George Borneman, contest manager.

Regions IV, V, VI, VII: Friday and Saturday, May 7 and 8, University of Minnesota, Minneapolis. Gale Sperry, contest manager (East Central State Regional Music Contest, 14 Northrop Memorial Auditorium, University of Minnesota, Minneapolis 14).

Region VIII: Friday and Saturday, May 7 and 8, Thief River Falls, Kalmar Ostby, contest manager.

'OUTLOOK FOR SMALL
TOWN' BROADCAST
TOPIC FOR SUNDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Subject of the third program in the weekly radio series "Minnesota Trends", being produced by the University of Minnesota Social Science Research Center will be "The Outlook for the Small Town" at 3:45 p.m. Sunday (May 2) over station WCCO, Minneapolis.

Lowry Nelson, professor of sociology, will be interviewed on the program by E. W. Ziebarth, chairman of the University's speech department and educational consultant to the Columbia Broadcasting system.

The program will be re-broadcast at 5:30 p.m. Friday, May 7, over radio station KUOM.

The radio series is planned to bring to Minnesotans the results of current research on problems and conditions of concern to all citizens of the state, according to Ziebarth.

Printed reports of the material covered in the weekly broadcast will be available upon request while the supply lasts. Requests may be phoned or mailed to the Social Science Research Center, 408 Johnston Hall, University of Minnesota, Minneapolis 14.

NATIONAL RESOURCES
CONFERENCE TO OPEN
AT U. OF M. MONDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Rear Admiral Wesley McLaren Hague and Brigadier General Burton M. Hovey, Jr., will head the faculty of the National Resources conference to be held at the University of Minnesota for two weeks starting Monday (May 3).

A team of Army, Navy, Marine and Air Force officers from the faculty of the Industrial College of the Armed Forces in Washington, D. C., will tell how civilian and military segments of our national life can most effectively cooperate in times of national crisis.

Governor C. Elmer Anderson will open the conference at 9 a.m. Monday.

Attending the sessions, which will be conducted in the auditorium of the Minnesota Museum of Natural History, will be 200 high-ranking reserve officers of the Armed Forces, ordered to active duty for the two-week period, and approximately 225 civilians representing a cross section of individuals from industry, agriculture, labor, business and professions, religion, education and civic community life in this area.

Cooperating with the University to present the course are the Fifth Army, the Ninth Naval District and the Tenth Air Force.

Coordinator of arrangements for the conference is Commander F. B. Andreen of Fort Snelling, a Navy reservist, who was recalled to active duty by the Chief of Naval Personnel.

Among topics to be discussed are: the nation's agricultural capabilities, the problems of production during mobilization and reconversion, the broad aspects of world, political, economic and power patterns, the military and civilian requirements for mobilization and the relationship of these requirements to the economy of the nation and the human resources of the nation for military and economic mobilization.

GENERAL SECRETARY
OF YWCA TO SPEAK
AT U OF M MAY 6

(FOR IMMEDIATE RELEASE)

Mrs. Savilla Simons, general secretary of the national YWCA, will be guest speaker at a University of Minnesota YWCA student-alumni banquet Thursday, May 6, in the junior ballroom of Coffman Memorial Union.

Toastmaster at the banquet which will observe the 100th anniversary of the National YWCA, will be Dora V. Smith, professor of education at the University.

Mrs. Simons is a social work leader and from 1940 until she assumed the YWCA's chief administrative post September 1, 1953, was in government posts in Washington, most recently as director of manpower and community services in administration of the Point Four Program of technical assistance in underdeveloped countries.

Mrs. Simons has served with the children's bureau in the Department of Labor and also with the Social Security board where during World War II she helped in the planning of welfare programs in UNRRA and the development of basic policies for the administration of UNRRA.

PARADE FRIDAY
TO HERALD U OF M
CAMPUS CARNIVAL

(FOR IMMEDIATE RELEASE)

A University of Minnesota student parade Friday forenoon (April 30) through downtown Minneapolis and Twin Cities college campuses will herald the annual Campus Carnival which will open at 7 p.m. Friday in the indoor sports arena on the University campus.

About 12,000 persons are expected to attend the carnival Friday and Saturday nights. It is considered one of the largest University student activities of the year.

Campus groups of all kinds -- fraternities, sororities, religious organizations and honor societies -- have prepared over 50 shows and concessions for the carnival.

The parade will line up at 9:45 a.m. Friday at the Minneapolis parade grounds, go through the loop to University avenue and proceed to the University. After circling the campus, the parade will leave at 11:30 a.m. by the East River road to go to Augsburg college, then to St. Thomas, St. Catherine's and Macalester colleges and from there to Hamline university. After touring the St. Paul campus, the parade will return to the Minneapolis campus.

Proceeds from the carnival, which was planned by Alpha Phi Omega, national service fraternity, will go into a general scholarship fund and for SPAN scholarships.

Titles of the shows and concessions range from the "Devel's Whiskers" to "Angel's Flight" and from "Fanda Paradise" to "Dragnet, a la Mickey Spillane".

TC HIGH SCHOOL
STUDENTS TO HEAR
UNIVERSITY CHEMIST

(FOR IMMEDIATE RELEASE)

Richard T. Arnold, head of the University of Minnesota chemistry department, will talk on "Chemistry: 1954 Model" at a special lecture for Twin Cities high school students at 8 p.m. Thursday (April 29) in the chemistry building.

The lecture is the second in a series of three scheduled for the high school students.

Professor Arnold will explain how chemists have fashioned a new exciting world from the sea, air, minerals, coal, petroleum and living plants, producing such things as synthetic rubber tires which will outlast an automobile, drugs which act like morphine and yet are not habit forming, metals and alloys with unbelievable properties, a man's suit which looks like wool, feels like wool and yet has never had any relation to a sheep.

Tickets for the lectures are available from high school science teachers and will be available at the door at the time of the lecture.

NEW CROSS CIRCULATION TECHNIQUE
FOR HEART SURGERY DEVELOPED
AT UNIVERSITY OF MINNESOTA

(FOR RELEASE 2 P.M. (CST) APRIL 30, 1954)

Minneapolis --- Born five years ago with a gaping hole in the wall separating the pumping chambers or ventricles of her heart, little Pamela Schmidt of Minneapolis was doomed to a life of invalidism and possible death at an early age. For 10 months recently she lived in an oxygen tent.

Now, recuperating in the University of Minnesota's Variety Club Heart hospital following surgery until recently considered impossible, Pamela has as good a chance as any youngster for a normal, healthy life.

The story of little Pamela is the story of medical science's newest accomplishment -- "controlled cross circulation" -- a revolutionary procedure, perfected at the University of Minnesota Medical School after several years of intensive research with laboratory dogs as subjects.

Medicine's latest advance opens the door to a new field of surgery on heart defects which up to now have been written off as inoperable, as in Pamela's case, or subject only to palliative surgery as in the case of "blue babies".

In surgery done with controlled cross circulation, the blood circulatory systems of the patient and a carefully selected donor -- anesthetized on a nearby operating table -- become one circulatory system. The two circulatory systems are connected with thin plastic tubes which pass through a simple mechanical pump between patient and donor. When the patient's chest has been opened, his heart is tied off at the vena cava. Then his lungs are collapsed as the mechanical pump takes over the task of circulating through his arteries bright red, purified blood drawn from the donor's femoral artery while carrying to the donor an equal amount of dark, venous blood for purification and oxygenation in the donor's lungs and other organs.

(MORE)

Thus, the donor and the mechanical pump carry on the work of the patient's heart and lungs while the surgeons do their repair work within the ventricle in a blood-free operating field under direct vision and unhurriedly without fear that their patient may either bleed to death or that his brain may be damaged by impairment of his circulation. Nourished by fresh blood fed through the coronary arteries, the heart continues to beat steadily during the operation.

In Pamela's operation, performed April 23, a hole the size of a half-dollar in the thin wall which divides the pumping chambers of her heart was repaired by a University of Minnesota surgical team directed by Dr. C. Walton Lillehei. Collaborating surgeons were Drs. Richard L. Varco, Herbert E. Warden and Morley Cohen. The donor whose purified blood kept the girl alive during the surgery is her father, Ronald Schmidt. He suffered no ill effects.

During the four and one-half hour operation, Pamela's heart was cut off from the rest of her circulatory system for $13\frac{1}{2}$ minutes while the surgeons opened the wall of her heart, sewed up the defect in the inner partition and then closed the outer heart wall.

Pamela's operation was the third such procedure carried on under the controlled cross circulation method by Dr. Lillehei and his associates within the span of a month.

The first operation, performed March 26 on 13-month-old Gregory Glidden of Hibbing, Minn., was the first instance in medical history in which an interventricular defect (in the wall between the pumping chambers of the heart) had been repaired under the direct vision of the surgeon. While Gregory's father, Lyman Glidden, served as donor, the surgeons worked in the child's open heart for $17\frac{1}{2}$ minutes. Gregory was recovering satisfactorily from the surgery when he contracted pneumonia, a disease common to children with this type of heart defect. He died of pneumonia 11 days after the operation.

(MORE)

UNIVERSITY OF MINNESOTA HEART SURGERY

-3-

On April 20, Dr. Lillehei and his team performed the second cross circulation operation. The patient, Bradley Mehrman, 3, of St. Louis Park, Minn., is recuperating with Pamela in the Variety Club Heart hospital. The surgeons encountered unexpected difficulties with a leaking heart valve and were forced to keep Bradley's heart open for $27\frac{1}{2}$ minutes while they made the necessary repairs. Through the cross circulation technique, Bradley's blood was purified in the circulation system of his father, Jack Mehrman.

Dr. Lillehei reported that none of the three donor fathers have shown any adverse effects from their experience.

In all three of the children, Gregory, Bradley and Pamela, the heart defects were diagnosed by Drs. Paul Adams and Ray C. Anderson, University of Minnesota pediatricians.

Repairs under direct vision have been made in the atrium or reservoir chambers of the heart since September 1952 by another University of Minnesota surgeon, Dr. F. John Lewis, with the use of hypothermia. In this process, first devised by Dr. Lewis and his University associates, the patient's body temperature is lowered by a refrigeration blanket, thus reducing his oxygen needs sufficiently so that the heart may be tied off safely for several minutes while the necessary surgery is accomplished.

The controlled cross circulation method is the culmination of at least six years of research in the University's medical school laboratories on the top floor of Owre hall. Drs. Cohen and Warden, medical fellows working closely with Drs. Lillehei and Varco, experimented with some 200 laboratory dogs while perfecting the system.

"We long have felt that there must be some simple method of working inside the heart," Dr. Lillehei explained today. "When elaborate machines designed as a substitute for the heart and lungs proved unsatisfactory, we tried using the animal's own lungs to purify his blood and substituted the simple mechanical pump for his heart.

(MORE)

UNIVERSITY OF MINNESOTA HEART SURGERY

-4-

"Then, Dr. Cohen suggested that we make further experiments along the lines of using a donor," reported Dr. Lillehei. "It was obvious that we would have to use a donor of the same blood type as the patient and that it would be necessary to have ready an ample supply of blood for transfusion--carefullychecked for compatibility with the patient's blood and that of the operating room donor."

Dr. Lillehei stated that more than 100 laboratory dogs were studied since last October in perfecting the technique of the operation before its initial use on a human being March 26. The mechanical pump used in the technique is widely used in industry and is commercially available at a cost of less than \$200, he added.

"Our method is widely applicable by surgeons experienced in heart surgery," Dr. Lillehei asserted.

The team captain paid high tribute to his associates in the project -- the anesthesiologists, his fellow surgeons, nurses and Dr. Newell R. Ziegler, University of Minnesota Hospitals blood bank director, who painstakingly matched for compatibility the blood involved in the three operations.

Laboratory research which prepared the way for the new lifegiving technique was supported in part by the Minnesota Heart association, according to Dr. Lillehei, and the clinical development of the method has been underwritten by the Variety Club of the Northwest, an organization of people in show business.

MET OPERA NEWS
ANNOUNCER TO APPEAR
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Boris Goldovsky, master of ceremonies for the Metropolitan Opera News of the Air broadcasts, will give an Operalogues demonstration lecture at a University of Minnesota convocation Thursday (May 6) in Northrop Memorial auditorium.

The 11:30 a.m. convocation program by Goldovsky, who is known as both a piano virtuoso and a music raconteur, will be preceded by an organ recital at 11 a.m. by Arthur B. Jennings, associate professor of music at the University.

Goldovsky will not only illustrate the opera of the audience's choice in the same manner which distinguishes his Met Opera broadcasts, but he will also illustrate its high moments on the piano and will fill in the background of the composer and his times or the times in which the opera was laid.

Goldovsky was born in 1908 in Moscow. He became interested in the piano at the age of eight, received his first instruction from Pierre Luboshutz and later studied at the Moscow Conservatory, in Berlin, at Budapest Conservatory and at the Sarbonne in Paris.

In 1939 Goldovsky came to the United States after a series of successful European tours. In the past decade, he has become one of the most popular figures on the concert stage, the radio and as guest soloist with orchestras.

POET-EDITOR
TO TALK WEDNESDAY
AT UNIVERSITY

(FOR IMMEDIATE RELEASE)

John Crowe Ransom, editor of the Kenyon Review, will lecture on "Poetry Pillaged and Inviolate" at 8:30 p.m. Wednesday (May 5) at the Minnesota Museum of Natural History auditorium on the University of Minnesota campus.

Many books of poems by Ransom, who also is a Carnegie professor of poetry at Kenyon college, Gambier, Ohio, have been published as well as his famed collections of criticism.

The poet was one of the founders of the "Fugitive" group which in the early 20's sponsored a notable revival of the writing of poetry in the United States.

In 1951 Ransom received the annual Bollingen Prize in Poetry from Yale university, an award made on the basis of a poet's entire work. That same year the National Institute of Arts and Letters presented him with the Russell Loines Memorial Fund Award, which is given periodically to some American or English poet as a recognition of value.

His lecture at the University is being sponsored by the University's departments of English and concerts and lectures.

6 'U' STUDENTS
GET FACULTY CLUB
SCHOLARSHIPS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Six University of Minnesota women students have been awarded Faculty Women's Club \$100 scholarships, according to George B. Risty, director of the bureau of student loans and scholarships.

Included among the half dozen grants awarded by various divisions of the club were two Mary Farrell Coffman scholarships, one Anne Dudley Blitz scholarship, one grant established by the students' section of the club and two general scholarships.

The students are Elaine M. Oslund, St. Paul; Carolyn L. Schultz, Montevideo; Arlene D. Eke, Bruce, Wis.; Carole Ann Peterson, Litchfield; Mary Jeanne Coyne, Minneapolis; and Mary Youngquist, Balaton.

Recipients of the two Mary Farrell Coffman grants are Miss Coyne and Miss Youngquist. The former is the daughter of Mr. and Mrs. Vincent M. Coyne, 5229 Stevens avenue, Minneapolis, Minn. She is a freshman law student. She graduated in 1944 from Washburn high school and in 1953 received the Faith Thompson scholarship.

Miss Youngquist, daughter of Henning E. Youngquist of Balaton, is a sophomore majoring in chemistry. She graduated in 1947 from Balaton high school.

The Anne Dudley Blitz scholarship was awarded to Miss Eke, a sophomore majoring in psychology. She is the daughter of Mr. and Mrs. Birger W. Eke of Bruce, Wis. She graduated from the Bruce high school in 1949 and attended the Minneapolis Business college in 1950-51. During the current academic year she won the Social Service Council scholarship for \$150.

Miss Oslund won the student section grant. A junior majoring in business education, she is the daughter of Mrs. Agnes G. Oslund, 1675 East Fourth street, St. Paul. In 1950 she graduated from Johnson high school and the following year she attended Macalester college. She was valedictorian of her high school class.

Winners of the general scholarships are Miss Peterson, sophomore majoring in journalism and Miss Schultz, junior majoring in home economics.

The former is the daughter of Mr. and Mrs. Christ Peterson of Litchfield. She graduated in 1952 from the Litchfield high school.

Miss Schultz, daughter of Mr. and Mrs. Vern S. Schultz, Montevideo, graduated in 1951 from the Montevideo high school.

STUDENT HEALTH
CONFERENCE OPENS
WEDNESDAY IN N.Y.

(FOR IMMEDIATE RELEASE)

Presiding over the opening session Wednesday (May 5) of the Fourth National Conference on Health in Colleges in New York will be University of Minnesota President J. L. Morrill, who is also president of the conference.

Attending the conference in New York also are Malcolm Willey, vice president of academic administration, and Dr. Ruth E. Boynton, director of the students' health service.

Theme of the conference, which will continue for four days is "Teamwork in Meeting the Health Needs of College Students". Objectives are protecting and improving health of college students through comprehensive and integrated programs of health service and health education and to formulate suggestions for relating college health programs to all other college functions.

Joining with the American College Health association to sponsor the conference are 40 national organizations interested in aspects of health and education.

The conference program will include 16 working committees in which college and university presidents, deans, physicians, nurses, psychologists, specialists in physical education and health education, student counselors and students will pool their knowledge and experience to develop comprehensive health programs integrated with all other college functions.

Previous conferences were held in 1931, 1936 and 1947.

'U' MARKLE GRANT
WINNER GETS
NEW \$600 HONOR

(FOR IMMEDIATE RELEASE)

Dr. Gilbert S. Campbell, medical fellow in surgery at the University of Minnesota who in March was awarded a \$30,000 Markle fellowship, has now been named for a \$600 prize by the University of Virginia.

The award, the John Horsley Memorial Prize, was officially announced last Wednesday (April 28) at a Sigma Xi, honorary science fraternity, meeting at Charlottesville, Virginia.

Dr. Campbell, who received his bachelor of arts and doctor of medicine degrees from the University of Virginia, has received this newest honor for a scientific paper entitled "Effect of pH Changes on Vagal Inhibition of the Heart".

Dr. Campbell, 30, was awarded a master of science degree in physiology in 1949 at the University of Minnesota where he interned in University Hospitals. He became a teaching assistant in the University department of physiology in 1947, received a clinical research fellowship from the American Cancer society in 1951 and has served since July 1, 1953, as senior surgical resident.

A veteran of the Korean war, Dr. Campbell earned two silver stars, two bronze stars and the purple heart during his service with the Army Medical Corps.

WRITER TO SPEAK
AT 'U' LIBRARY
FRIENDS DINNER

(FOR IMMEDIATE RELEASE)

Carl Carmer of New York, writer and folklorist, will be the main speaker at the tenth anniversary dinner of the Friends of the University of Minnesota Library Wednesday, May 12, in the Campus Club, Coffman Memorial Union.

On exhibit for the banquet also will be the Paul Bunyan collection which was assembled over many years by W. W. Charters, Midwest Educational leader, and presented recently to the University by his family. Included are books, illustrations, phonograph records and objects such as a giant iron signet ring bearing the inscription P. B.

The dinner speaker, Carmer, is best known for his first best-seller, Stars Fell on Alabama. His career, however, has included several years as a college teacher, assistant editorships of Vanity Fair and Theater Arts Monthly and authorship of such books as The Hudson and The Susquehanna in the Rivers of America series which reflect the backgrounds of early American life and culture.

Carmer served twice as president of the Poetry Society of America and has done considerable work on radio projects. He has collected and edited four volumes of folk song records for Decca and has worked with Walt Disney on a series of folklore shorts.

The dinner and exhibit will be open to the public. Reservations must be made for the \$2.50 dinner by Friday (May 7).

SOCIETY PLACES
GEOLOGICAL MARKERS
IN MINNESOTA

(FOR IMMEDIATE RELEASE)

Minneapolis --- Six markers have been erected at places of special geological interest along Minnesota highways, and approximately 20 more such markers will be placed this summer, according to Laurence W. King, St. Paul, chairman of a geological markers committee of the Geological Society of Minnesota.

The markers are being provided by the society with the cooperation of the University of Minnesota department of geology and are being financed by a grant from the Louis W. and Maud Hill Family foundation which contributes to various educational projects in the state.

Already placed are markers at Taylors Falls, Gooseberry State Park, North Mankato, Stillwater, Minnehaha park and Elk River.

The Minnehaha marker, explaining the development of Minnehaha Falls, was presented to the Minneapolis Board of Park commissioners. It was installed by the park board at the overlook facing the falls from the east. On it are description and a map referring to a rare geological feature, an abandoned river channel and waterfall which were found in the park area.

King points out that Minnesota has a long and interesting geological history disclosed in the surface formations of the state. He goes on to say, "In no section of the country is the geology more varied or the opportunity for study more extensive. Through the medium of tablets similar to the one in Minnehaha park, the Geological society intends to explain the geology of this region and thereby stimulate interest in this science as cultural activity".

The Geological society is made up of amateur geologists who meet regularly in the Minnesota Museum of Natural History on the University campus. Cooperating with them in their marker project in addition to the University are the State Highway department and the State Department of Conservation.

'U' PLANS
SUMMER NIGHT
CLASS SCHEDULE

(FOR RELEASE THURSDAY, MAY 13, 1954)

Minneapolis --- The University of Minnesota will offer evening classes this summer.

The classes, open to all interested students, have been arranged specially by the general extension division for the Korean veterans who must enroll in classes before August 20 to save their educational benefits.

Korean veterans who terminated their service on or before August 20, 1952, must have been enrolled before August 20 of this year to retain their benefits, it is explained by Albert M. Fulton, head of extension veterans affairs.

He goes on to point out that the Korean veterans who terminated service after August 20, 1952, have two years from the date of discharge to return to school.

"For all practical purposes," Fulton says, "this means that any Korean veteran who wants to attend the University, day or evening, and who was discharged before September 27, 1952, will have to begin this summer.

Classes will begin the week of June 14 and meet two nights weekly for an eight-week period. Registration will open June 7. Veterans may make application for certificates of eligibility through the general extension division office when they register.

Veterans who plan to enroll this summer are urged by Fulton to telephone or write for information to the General Extension Division Office, University of Minnesota, Minneapolis 14. The telephone numbers are Lincoln 8791 or Midway 3965.

'U' TO RECOGNIZE
HONOR STUDENT
CAP, GOWN DAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Approximately 2,560 students graduating from the University of Minnesota this June will put on their academic costumes for the first time Thursday (May 13) to take part in traditional Cap and Gown Day ceremonies.

Main feature of the day will be the annual honors convocation at 11:30 a.m. in Northrop Memorial auditorium with University President J. L. Morrill recognizing honor students. The program will begin soon after 11 a.m. when senior students will join the faculty in an academic procession up the mall from Coffman Memorial Union to the auditorium.

From special seats, members of the class of 1904 will "review" the seniors as they march by.

Thomas A. H. Teeter, dean of the University Summer Session, will deliver the main address at the convocation. His talk is entitled "The Saga of the Summer Session". Teeter will retire in June after 32 years on the faculty.

Assisted by E. W. Ziebarth, chairman of the department of speech and dean elect of the summer school, President Morrill will recognize the University's top-ranking students. The senior class will be introduced by Larry M. Smith, Big Fork, class president.

Edmund G. Williamson, dean of students, will preside at the Cap and Gown Day program. The ceremonies begin a series of special events which precede commencement June 12.

Cap and Gown Day coincides with the annual University alumni reunion May 13 and 14. The alumni association is celebrating its fifty-first anniversary this year.

HIGH SCHOOL SENIORS
WIN \$500 'U' GRANTS
FROM LABOR FEDERATION

(FOR IMMEDIATE RELEASE)

Minneapolis --- A Minneapolis high school senior boy and a St. Paul senior girl have been named winners of the \$500 George W. Lawson scholarship and the \$500 Minnesota State Federation of Labor scholarship at the University of Minnesota, according to George B. Risty, director of the bureau of student loans and scholarships.

The George W. Lawson scholarship, named in honor of Regent Lawson who is also secretary emeritus of the Minnesota State Federation of Labor, has been awarded to Walter Ghorske. He will graduate this spring from Edison high school, Minneapolis, and he plans to study engineering at the University of Minnesota.

Ghorske is the son of Walter Ghorske, 3255 Arthur street NE, Minneapolis, who is a member of the Cooks, Waiters and Waitresses Union Local 458.

Ruth Genevieve Poucher is the Federation of Labor grant winner. She will graduate from Humboldt high school, St. Paul, in June and plans to study elementary education at the University of Minnesota.

Miss Poucher is the daughter of Allan G. Poucher, 129 East Winifred, St. Paul, who is a member of Carpenters Local 87 and is employed at Twin City Arsenal.

Given honorable mention by the Federation of Labor, sponsor of the two scholarships which are awarded on the basis of excellent high school records, future promise and quality of essay entries are: Karen Kay Kinney, 901 West Seventh street, Hastings; Patricia D. Jaster, 3352 McKinley, Minneapolis; and Elmer Bruce Olson, 730 Capitol Heights, St. Paul.

CAP AND GOWN
DAY CEREMONIES
OBSERVED AT 'U'

(FOR RELEASE 11 A.M. THURSDAY, MAY 13)

Minneapolis --- Annual Cap and Gown Day ceremonies with the traditional honors convocation were conducted today (May 13) at the University of Minnesota. Approximately 2,560 senior students took part in the events.

University President J. L. Morrill recognized the University's top-ranking students at the 11:30 a.m. convocation in Northrop Memorial auditorium. The students are those with "B" average or above, scholarship winners, recipients of various awards and members of honor societies.

Before the program, senior students, wearing their caps and gowns for the first time, joined faculty members in an academic procession up the mall from Coffman Memorial Union into the auditorium. Alumni from the class of 1904 "reviewed" the parade.

Thomas A. H. Teeter, dean of the University Summer Session, delivered the Cap and Gown Day address, "The Saga of the Summer Session". He will retire in June after 32 years on the faculty.

Dean of Students E. G. Williamson was master-of-ceremonies during the convocation. Members of the senior class were introduced by Larry M. Smith, Big Fork, class president.

Cap and Gown Day is the first in a series of special events preceding commencement June 12.

'U' ITALIAN
CLUB TO GIVE
2 PLAYS

(FOR RELEASE SUNDAY, MAY 16)

Two one-act plays in Italian will be presented by the University of Minnesota Italian club, La Brigata Italianna, at 8:30 p.m. Friday and Saturday, May 21 and 22, in Newman hall theater, 1701 University avenue S. E.

First on the double bill will be Lumie di Sicilia (Sicilian Limes) by the Italian playwright, Luigi Pirandello. Hero of the play is Micuccio, a Sicilian piccolo player who will be played by Gian Luigi Berchielli, Minneapolis. He has sacrificed his money and property to provide voice lessons for Sina, a peasant girl whom he loves and who becomes a theater star.

Others in the cast will be Mary Ann Bieter, St. Paul, as Sina; Joanne Shedlov, Minneapolis; Barbara Lyons, Elmore; and Lawrence Todaro, Minneapolis.

The second play will be Giuseppe Giacosa's Diritti dell 'Anima (Sacred Ground), a late nineteenth century social drama modelled after Ibsen. The story concerns a wife's fidelity to an undeserving husband, in spite of her intense love for his cousin, and the husband's growing curiosity which eventually destroys the marriage.

Bill Hilliard, Kenosha, Wis., will play the leading role. Others in the cast are JoAnne Johnson, Minneapolis; Dr. Rolland Beck, Minneapolis; and Mary Ann Janisch, St. Paul.

Director of both productions is Douglas Hatfield, St. Paul. Faculty adviser is Sergio J. Pacifici of the department of romance languages.

Tickets at \$.50 will be available at the door. Proceeds will be donated for the support of Italica, Italian literary magazine published at Northwestern university.

DR. KREMEN NAMED
SURGICAL CHIEF
IN N. Y. HOSPITAL

(FOR RELEASE 11 A.M. WEDNESDAY, MAY 12)

Minneapolis --- Appointment of Dr. Arnold J. Kremen, Minneapolis surgeon, as chief of the surgical service in the Francis Delafield cancer hospital in New York City and professor of surgery in the Columbia university College of Physicians and Surgeons, effective July 1, was announced here today (May 12).

An associate professor of surgery at the University of Minnesota, Dr. Kremen has been director of surgical research and teaching at Mt. Sinai hospital here since 1951. He served from 1948 to 1951 as coordinator of cancer research at the University where he joined the staff of Dr. O. H. Wangensteen, surgery chief, in 1947.

In his new post, Dr. Kremen also will serve as attending surgeon at Presbyterian hospital in New York City. Both the Delafield and Presbyterian hospitals are units of the Columbia - Presbyterian Medical Center. His appointment was made by the Columbia university Board of Trustees.

Born in South Range, Mich., October 26, 1913, Dr. Kremen in 1931 was graduated from Central high school in Duluth, Minn. He attended the Duluth Junior College and went on to earn his bachelor of science, bachelor of medicine and in 1938 his doctor of medicine degrees at the University of Minnesota.

In 1946, he received certification of the American Board of General Surgery and a year later his doctor of philosophy degree in surgery at the University of Minnesota.

(MORE)

DR. KREMEN

- 2 -

He took a rotating internship in 1937-38 in Minneapolis General Hospital, served medical fellowships in the University of Minnesota surgery department, 1939-42 and 1945-46, and was a national cancer trainee 1946-47.

After three and one-half years' service in the Army's Medical Corps where he attained the rank of major, Dr. Kremen was discharged in September 1945. He served on the staff of United States General Hospital No. 26 (Minnesota Hospital Unit).

Dr. Kremen joined the University staff as an instructor in surgery in July, 1947, became cancer coordinator for the United States Public Health Service at the University's medical school in 1948. He has been an associate professor of surgery since 1950. Since 1951, has served as director of the University's surgical service at Mt. Sinai hospital, which is affiliated with the University's medical school.

Author of many publications on subjects pertaining to surgery, Dr. Kremen is a member of the American College of Surgeons, the American Surgical Association, the American Medical association, the Society of University Surgeons, Sigma Xi, Alpha Omega Alpha and many other organizations.

FORMER PROFESSOR'S
WIDOW GIVES
BOOKS TO 'U'

(FOR RELEASE THURSDAY, MAY 13)

A gift to the University of Minnesota of the library assembled by the late Professor Martin B. Ruud, University English department faculty member for 25 years, was acknowledged last night (May 12) at the tenth anniversary banquet of the Friends of the University Library.

The books of Professor Ruud, who has been called "one of Minnesota's most distinguished scholars", was given to the University library by his widow, Mrs. Christine Ruud, 429 Walnut street SE, Minneapolis.

"It is a notable collection of approximately 1,950 volumes which will add substantially to the library's resources," explained Edward B. Stanford, director of the University Library.

Stanford referred to the collection as "a working library of a great scholar who preferred textual excellence to rarity and whose interests were catholic in their scope".

To round out the collection and keep it up-to-date, Mrs. Ruud has provided resources for the purchase of additional books supplementing the memorial fund established by colleagues of Professor Ruud at the time of his death in 1941.

"Professor Ruud's books, which will bear special book plates indicating their origin, reflect the wide interests of the scholar who assembled them. Although his primary interest lay in the field of English literature, particularly in earlier periods, he was also a student of history, politics, economics and the Scandinavian culture from which he sprang," Stanford pointed out.

He went on to say that among standard reference works in the collection is the Annual Bibliography of English Language and Literature sponsored by the Modern Humanities Research association which is present from its first issue.

Included also are a long run of the Royal Historical Society's Transactions, sets of the Cambridge Medieval History in eight volumes and the Oxford History of England in seven volumes, definitive texts of English authors which includes the Skeat Edition of the Works of Geoffrey Chaucer in seven volumes.

Bibliographies and handbooks to many English authors are included as well as other volumes representing special facets of the professor's interests such as the Middle Ages, English monastic life, liturgy of the church and folksongs.

VIRUS LECTURE
MONDAY AT 'U'
OPEN TO PUBLIC

(FOR IMMEDIATE RELEASE)

A lecture on "The Virus and Its Role in Disease" by Dr. Jerome T. Syverton, head of the University of Minnesota department of bacteriology and immunology, will be given at 8 p.m. Monday (May 17) in the Minnesota Museum of Natural History auditorium on the University campus.

The lecture, last in the series, "Man and His Scientific Quest", will be open to the public without charge because of the significance of the subject and the current interest in the virus diseases, especially polio.

Dr. Syverton has served as internist, pathologist and microbiologist at Duke university, Rockefeller institute and the University of Rochester. He came to Minnesota in 1948 after service as a naval officer in the Pacific theater during World War II.

The scientific series has been presented by the University general extension division.

Statement by
BOARD OF REGENTS
UNIVERSITY OF MINNESOTA
May 14, 1954

The Regents, today, after a full hearing of sincere and cogent representations in favor of, and opposed to, the transfer of St. Paul campus land to become the site of a stadium which, it is hoped and believed, might be used as a major league baseball park, voted unanimously that such transfer would be unwise and not in the best interests of the University of Minnesota and of its service to the people of the entire state.

The Regents share fully the desire of progressive-minded Twin City committee members for the procurement of a major league baseball franchise. They appreciate clearly the economic and recreational advantages that such a franchise would bring. They are hopeful that efforts to this end will continue and result successfully. The Regents believe, moreover, that their inability to approve the requested land transfer will not prove an insuperable obstacle to such success and are confident that the further exploration of alternative sites will establish this.

The Regents likewise were made aware of serious legal questions that might be raised by local governmental units with which the University has important relationships.

Their decision, however, was based fundamentally upon the following considerations:

1. The long-range development plan for the St. Paul Campus assumes the future need of this land for the housing and recreation of young people from all over the state, for housing of staff and married students, and even instructional and research buildings. Despite the offer of possible land in exchange for the acreage sought, the site in question has relationships to existing buildings, and future developments, that other land would not possess.
2. The presence of a ball park with all of the attendant traffic, crowds, noise, and inevitable fringe activities incidental to its operation, would be prejudicial to the instructional, research, service, and housing programs of the St. Paul Campus.
3. The presence of a ball park would react adversely upon the recruitment and retention of a competent staff for the Institute of Agriculture, which staff largely finds housing in this area.

AUDITIONS FOR U OF M
MUSIC SCHOLARSHIPS
SLATED JUNE 10-11

(FOR IMMEDIATE RELEASE)

Minneapolis --- Students will be auditioned for University of Minnesota applied music scholarships Thursday and Friday, June 10-11, in Scott Hall auditorium on the Minneapolis campus.

The students will be required to play or sing one or two compositions of contrasting style from the standard repertoire and by composers of historical significance.

Auditions for the William Lindsay Piano scholarship of \$180 per year will be held Friday, June 11, only. Applicants for it must perform: Bach, Prelude and Fugue from the Well Tempered Clavier, Vols. I and II; Beethoven: Slow movement and Allegro movement from any Sonata (to be selected from different sonatas where both types of movements do not appear); Chopin: (1) Nocturne and (2) any fast Etude; one modern composition.

The William Lindsay Piano scholarship fund was established by William and Bernardine Johnstone in appreciation of the teaching and inspiration given students by Lindsay while he was a professor of music at the University.

All applied music scholarships are open to high school graduates majoring in music or music education with no restrictions as to race, creed or sex. Sole basis for selection will be individual ability.

Applicants may write for audition appointments to Chairman, Department of Music, University of Minnesota, Minneapolis 14.

CARPENTERS' UNION
ESTABLISHES FIVE
SCHOLARSHIPS AT 'U'

(FOR IMMEDIATE RELEASE)

Five new \$100 scholarships have been established for University of Minnesota students by the Twin City Carpenters District Council of United Brotherhood of Carpenters and Joiners of America.

The five scholarships will become available for fall quarter 1954, and will be awarded to sons and daughters of members in good standing of locals affiliated with the district council.

Recipients will be chosen on the basis of scholastic achievement, promise of successful work in a chosen field of work, leadership potential and personal attributes. They must be enrolled or admitted to some college or department of the University of Minnesota.

In establishing the annual grants, the union officials announced that the scholarships have been provided to encourage and promote advanced educational training of qualified young men and women in various areas of arts and sciences.

Serving on a scholarship committee for the district council are: A. S. Ihrig, secretary of Carpenters Local 87; Gust Johnson, business representative of the Cabinet Makers and Millmen Local 1865; J. E. Erickson, Carpenters Local 7; A. A. Ryman, Millwrights Local 548; and Walter Cramond, president of the Minneapolis Central Labor Union and representative of Linoleum Layers Local 596.

Representing the University on the committee are: George B. Risty, director of the bureau of student loans and scholarships; E. G. Williamson, dean of students; and W. L. Nunn, director of University Relations.

Application forms are available from the Bureau of Student Loans and Scholarships, 201 Eddy Hall, University of Minnesota, Minneapolis 14, Minnesota.

FRIENDS HONOR
DR. E. A. BOYDEN,
U OF M ANATOMIST

(FOR RELEASE 7 P.M. TUESDAY, MAY 18)

Minneapolis --- Approximately 150 friends participated in honoring Dr. E. A. Boyden at a dinner in the Campus Club on Tuesday evening (May 18). Professor Boyden, head of the anatomy department in the University of Minnesota medical school, will retire in June after 23 years as a professor at the University.

At the dinner it was announced that "the Boyden Fund of the Minnesota Medical Foundation, contributed by friends, has been invested in the anatomy seminar room for the purpose of reflecting Dr. Boyden's interest in this room as a center of the life of the department".

The fund has provided for: purchase of a special bookplate designed by Edward V. Brewer; binding of three sets of journals (The Anatomical Record, The American Journal of Anatomy and The Journal of Comparative Neurology) presented to the Department of Anatomy by Professor Boyden; subscription to next succeeding volumes of these journals; restoration (by Mr. Brewer) of two oil paintings (Prometheus and Ulysses) owned by the department; and preparation of enlarged photographs of four of Dr. Boyden's colleagues, Professors Hal Downey, Olof Larsell and Andrew T. Rasmussen and the late Professor Richard E. Scammon.

Beginning in September, Dr. Boyden will carry on his teaching and research as a visiting professor of anatomy in the University of Washington medical school, Seattle.

LOMBARD TO VISIT
EUROPEAN MUSIC,
DRAMA FESTIVALS

(FOR IMMEDIATE RELEASE)

Minneapolis --- James S. Lombard, University of Minnesota director of concerts and lectures, accompanied by Mrs. Lombard, boarded a plane here Tuesday afternoon (May 18) to fly to Europe for a tour of music, ballet and drama festivals in Denmark, Sweden, Norway and Finland. They also will visit London and Paris.

Mr. and Mrs. Lombard will attend the ballet festival in Copenhagen, May 27-June 1; the opera and concert festival in Stockholm, June 1-7; the music festival in Bergen, June 9-14; the Sibelius festival in Helsinki, June 15-18; and the Hamlet festival at Elsinore, Denmark, June 22-23.

They will be the guests of the foreign ministries of Denmark, Norway and Sweden, the Finland legation and the press associations of all four countries.

After a conference at Elsinore with the management of the "Old Vic" company which will present "A Midsummer Night's Dream" at the University next October, the Lombards will sail from Copenhagen to London where they will visit Mr. Lombard's son and daughter-in-law, Lt. and Mrs. Thomas L. Lombard, and their four children. Lt. Lombard, United States Air Force, is stationed near London.

While in London, Lombard will confer with the managements of the Edinburgh festival, the Glynbourne opera festival and the Sadlers' Wells ballet. He will seek a return engagement of the ballet at the University.

In Paris, Lombard will confer with Dr. Gerald Wendt, chief of the science division of UNESCO.

The Lombards will sail on the Oslofjord to New York where they will arrive July 5. Before returning to the Twin Cities, Lombard will meet with officials of the Metropolitan Opera company to arrange for next spring's opera program at the University.

21 WILL RETIRE
FROM UNIVERSITY
FACULTY IN JUNE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Twenty-one professors will retire this June from the University of Minnesota faculty.

Leaving with the longest service records are: Clayton O. Rost, professor and head of soils, and Wilfrid G. Brierley, professor of horticulture. Both have served 41 years on the University staff.

Others who have been on the campus for more than 35 years are: Francis B. Barton, Professor and department chairman of romance languages, 39 years; Gertrude R. Hull, associate professor of music, and Walter R. Smith, assistant professor of physical education for men, 38 years; Alvin H. Larson, assistant professor of plant pathology and agricultural botany, and Arnold M. Foker, assistant professor and superintendent of buildings and grounds at the Northwest School of Agriculture and Agricultural Experiment Station, Crookston, 37 years; M. Cannon Sneed, professor of inorganic chemistry, 36 years; Homer J. Smith, professor of grade and industrial education, and Marie O. Mollins, instructor-librarian-registrar, North Central School of Agriculture and Agricultural Experiment Station, Grand Rapids, 35 years each.

Six faculty members have served more than 30 years. They are: Dr. Stuart W. Harrington, professor of surgery, Mayo Foundation, Rochester, and Dr. Frederick A. Willius, professor of medicine, Mayo Foundation, both 33 years; Thomas A. H. Teeter, dean and professor of the summer school, and Inez M. Hobart, assistant professor of agricultural extension, 32 years; Wilson D. Wallis, professor of anthropology, 31 years; and Charles W. Boardman, professor of education, 30 years.

Dr. Byrl R. Kirklin, professor of radiology, Mayo Foundation, will retire after 27 years on the staff; Hilma L. G. Berglund, assistant professor of art, after 24 years; and Edward A. Boyden, professor and head of anatomy, after 23 years.

Retiring also are John C. Cothran, professor of chemistry, after seven years of service, and Olof Larsell, professor of neuroanatomy, after two years.

(FOR IMMEDIATE RELEASE)

Sums totaling \$11,250 have been presented to the University of Minnesota during the last year by the Society for the Preservation and Encouragement of Barbershop Quartet Singing of America for the purchase of research equipment at the Variety Club Heart hospital.

The Barbershoppers have netted the funds from their annual Parade of Quartets programs, including the proceeds of a special matinee performance for employees of Minneapolis Honeywell Regulator company sponsored by the Minnreg Veterans association.

The most recent donation of \$4,800 was accepted recently on behalf of the University by Dr. Irvine McQuarrie, head of the pediatrics department, who paid special tribute to Dr. Lewis Thomas, University professor of pediatrics, and his nationally recognized research work which has been made possible in part by equipment purchased through assistance received from the Barbershoppers.

Percy Hopkins, who presented the funds to Dr. McQuarrie, was recently named president of the Minneapolis chapter of SPEBSQSA. Other officers are Luther Sletten, first vice president; C. F. Branter, vice president; Bruce Churchill, secretary; and Dr. Emil Johnson, treasurer.

DEAN, 68 STUDENTS
TO BE INITIATED
BY PHI BETA KAPPA

(FOR IMMEDIATE RELEASE)

Errett W. McDiarmid, dean of the University of Minnesota's College of Science, Literature and the Arts, and 68 University students will be initiated into Phi Beta Kappa, national honorary scholastic society, at 8 p.m. Wednesday (May 26) in the Minnesota Museum of Natural History auditorium.

Members of the Minnesota Alpha chapter of the society will conduct the initiation ceremonies.

Dean McDiarmid will be initiated on behalf of the chapter at Emory University, Georgia, which recently elected him to alumnus membership.

Paul Oberg, chairman of the University's music department and president of the Minnesota chapter, will give the principal address. David Willson, professor of history and president-elect, will assist at the ceremonies.

After the ceremonies, initiates and their guests will be honored at a reception in the lounge of the Center for Continuation Study.

Students to be initiated are:

Minneapolis, seniors: David A. Berman, Mary B. Black, Malcolm Blumenthal, Edward R. Brandt, David N. Brown, Lester J. Bullock, Joan D. Carlson, June B. Carlson, Franklin N. Groves, Patricia M. Laliberte, Joseph P. Mlinar, Barbara E. Nelson, Gerald D. Nelson, Tomoko Omachi, Karen F. Otto, John T. Pearson, John W. Pollard, Margareta Rempel, Peter W. Robinson, Gerald Rosenzweig, Donna A. Schaefer, Jane A. Sherman, Elaine H. Sorenson, Lee A. Terrill, Jr., Lorin L. Vant Hull, David M. Zipoy.

Juniors: Grace E. Billings, Robert J. Gonyea, Sharline H. Hirsch and Salley E. Sperling.

(MORE)

St. Paul, seniors: Edward J. Bardon, Franklin Bonn, Robert M. Brewer, James H. Clark, Fred A. Donath, Robert M. Hedrick, John C. Holmes, John I. Levitt, John H. McNutt, Barbara S. Musgrave, Jerome H. Sacks and Frederick E. Wehmer.

Juniors: Mary A. Janisch and Barbara R. Singer.

Seniors from elsewhere: Lawrence R. Arseth, Princeton; Thomas A. Clayton, Winona; Madge W. Ertel, Jackson; Peter E. Fehr, East Grand Forks; Jolanda L. Folsom, Bemidji; Gene G. Hunder, Lake City; Eugene C. Johnsen, Pipestone; Russell V. Johnson, La Crosse, Wis.; Harold W. Keairnes, Kansas City, Mo.; Warren J. Kliewer, Mountain Lake; Harold F. Lang, Sioux Falls, S. SOME OF EARTH'S OLDEST ROCKS
FOUND IN MINNESOTA, 'U' BOOK REPORTS

(FOR RELEASE THURSDAY, JUNE 3)

Minneapolis --- The granite hills around Saganaga lake in Minnesota's Arrowhead country, a familiar sight to vacationers and tourists, are among the oldest rocks to be found anywhere on the face of the earth. This fact is brought out in the book, "Minnesota's Rocks and Waters: A Geological Story" by George M. Schwartz and George A. Thiel, which was published today (June 3) by the University of Minnesota Press.

The book is intended for amateur geologists, "rock hounds", science students and tourists who are interested in knowing more about the landscape and geological features of the state. The authors, both professors in the University of Minnesota geology department, explain the long, geological processes that have formed the lakes and rivers, hills and prairies, rocky northland and fertile farm country that provide Minnesota with a richly varied geology.

The Arrowhead granite formations are the residue of what once were high mountains, the authors report. The mountains existed in a prehistoric era, millions of years ago. Wind, frost and rain wore them down, vast seas engulfed the land from time to time and then receded, and, finally, the Great Ice Age came. By the time the four great glaciers of that geological period had covered the area and then retreated, the face of Minnesota took on an appearance pretty much like the surface forms of the state we know today.

Minnesota had active volcanoes among its prehistoric mountains, the geologists point out. The proof can be found in beds of volcanic tuff, a porous, fine-grained type of rock found in some parts of the state. This rock is formed from molten material thrown into the air by a volcanic explosion.

(MORE)

The most powerful single agent responsible for the state's geological formations was glacial ice, according to the authors. The last glacier retreated from Minnesota 11,000 years ago, a recent date in geological reckoning. Almost all of midwestern United States and much of Canada were covered by glacial ice sheets at one time or another, but nowhere can a more typical example of ground moraine, the aftermath of a glacier, be found than in the gently rolling areas of south central Minnesota, the authors write.

The glacial after-effect known as a recessional moraine is well illustrated by a hummocky belt, about 10 miles wide, which crosses the region north of Willmar and extends northwestward through Glenwood, Fergus Falls and Detroit Lakes.

Although the retreat of the glaciers was the last major geological event in Minnesota, local peculiarities of land form have been caused by the never-ending action of wind and water, Professors Schwartz and Thiel point out. On part of the Anoka sand plain, for example, local wind action has superimposed sand dunes on top of the glacial moraine. This sand plain extends from Minneapolis to Elk River, north to Princeton and east to the St. Croix valley. Small dunes also can be seen on Minnesota Point at Duluth.

The first part of the book explains geological processes. The second part outlines geological excursions through Minnesota, telling what features may be seen on trips through these sections: Northeastern Minnesota, Northwestern Minnesota, North and West Central Minnesota, the Minnesota River Valley, Southwestern Minnesota, and the St. Croix River Valley. The book contains 162 illustrations, including photographs, schematic drawings, and maps. A reference section provides a list of all Minnesota minerals and a glossary of geological terms.

Professor Thiel is chairman of the University geology department, and Professor Schwartz is director of the Minnesota Geological survey.

U OF M PSYCHOLOGIST
NAMED AMONG TOP
YOUNG SCIENTISTS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Leon Festinger, professor of psychology at the University of Minnesota, is named as one of "ten top young scientists in United States universities" in an article, "The Young Scientists", appearing in the June issue of Fortune magazine.

The author, Francis Bello, refers to the selected scientists as "examples from among the most highly regarded young men in universities today". He describes them as "exceptional young men working on some of the most challenging problems in science".

About Festinger, 35, a social psychologist, the writer reports that he is a top authority on group behavior and that he has a new theory that people use groups to test their views and self-concepts.

Professor Festinger has been on the staff of the University of Minnesota's Laboratory for Research in Social Relations since August 1951. Before coming to Minnesota, he taught at the University of Iowa, the University of Rochester, Massachusetts Institute of Technology and the University of Michigan.

During April and May of 1953, on leave from the University of Minnesota, he served in Amsterdam and London as American consultant to the Ford Foundation Organization for Comparative Social Research in a pooling of resources in areas of public opinion research and small group experiments.

CAPITAL CLERGYMAN
TO ADDRESS STUDENTS
AT 'U' BACCALAUREATE

(FOR RELEASE THURSDAY, JUNE 3)

Minneapolis --- Approximately 2,560 graduating students will hear Dr. Theodore Wedel of the College of Preachers, Washington Cathedral, Washington, D. C., at the University of Minnesota's annual baccalaureate services Sunday (June 6) at 3 p.m. in Northrop Memorial auditorium.

Title of the address will be "God and the American Dreams". The speaker, before becoming director of studies at the College of Preachers in 1939, had taught English at Carleton college, Yale and the University of Texas.

Preceding the clergyman's talk, University President J. L. Morrill will speak to members of the senior class. The service will open with an invocation by the Rev. Wilbur Korfhage, director of Wesley Foundation on the University campus.

Arthur B. Jennings, associate professor of music and University organist, will play the processional and the postlude. Soloist will be Wayne M. Hartley, University senior.

The senior students, in their caps and gowns, will join faculty members and University officials in an academic procession before the service. The parade will move up the mall into Northrop auditorium.

After the service, senior students will be guests of President and Mrs. Morrill at the annual senior reception on the lawn between the Center for Continuation Study and the Minnesota Museum of Natural History.

FRIENDS HONOR
WILSON D. WALLIS,
'U' ANTHROPOLOGIST

(FOR RELEASE P.M. FRIDAY, MAY 28)

Friends of Professor Wilson D. Wallis, retiring chairman of the University of Minnesota's anthropology department, honored him at a luncheon today (May 28) in Coffman Memorial Union and presented him with a book, "Method and Perspective in Anthropology", which is dedicated to him.

He will retire in June after 31 years of teaching and research at the University.

The volume, published today by the University Press, was edited by Robert F. Spencer, professor of anthropology. Included in it is a collection of papers by 13 leaders in the field of anthropology and sociology from various universities and other institutions in the United States.

Spencer is the author of one of the papers, "The Humanities in Cultural Anthropology". Another member of the University anthropology department, Professor Lloyd A. Wilford, also contributed a paper, "Archaeological Method in the Eastern United States".

Sister M. Inez Hilger of St. Benedict's convent, St. Joseph, Minn., is the author of a paper on "An Ethnographic Field Method". It is based on her studies of primitive Indian child life among the Chippewa tribes of Minnesota, Wisconsin and Michigan; the Arapaho of Wyoming and Oklahoma and the Araucanian of Chile and Argentina, South America.

A former Minnesotan, Elizabeth Colson, has contributed a paper on "The Intensive Study of Small Sample Communities". Miss Colson, whose home formerly was in Wadena and who has taught at the University, is now a faculty member at Goucher college, Baltimore.

TWO 'U' FACULTY
MEN TO PARTICIPATE
IN NY CONFERENCE

(FOR IMMEDIATE RELEASE)

Two University of Minnesota faculty members will take part next week, June 2-5, in the Columbia University Bicentennial conference in New York City.

David K. Berninghausen, director of the University library school, was one of 30 persons invited to take part in a section meeting on "Academic Freedom".

John C. Kidneigh, director of the University school of social welfare, will participate in the section on "Social Services and the Free Economy".

It is pointed out by a conference brochure from the celebrating institution that "invited participants will be persons who have substantial interest in the subject and who can make a contribution towards mature discussion".

Berninghausen was asked, in preparation for the conference, to contribute to a booklet with the same title as the bicentennial theme "Man's Right to Knowledge and the Free Use Thereof".

Two of Berninghausen's contributions were included in the booklet which was edited by Mark Van Doren. One of the contributions is the Library Bill of Rights, and the other is a reprint of a letter entitled "The Responsibilities of Knowledge" by Berninghausen and C. E. Gross.

A display of 25 panels illustrating the bicentennial theme is now being exhibited in the Coffman Memorial Union balcony art gallery.

UNIVERSITY HIGH
SUMMER SESSION
TO BEGIN JUNE 21

(FOR IMMEDIATE RELEASE)

The University of Minnesota high school will conduct a summer session from June 21 to July 23, according to Principal Sterling B. Mitchell.

Classes are scheduled in two-hour blocks, from 8 a.m. to 9:50 p.m. and from 10 a.m. to 11:50 a.m.

Among the courses offered will be reading improvement, better writing, big names in American literature, individual remedial instruction, French, Spanish, biological science, war and peace, public speaking, radio and television workshop and personal-use typewriting.

Mitchell points out that the summer session offers students an opportunity to make up credit in a subject in which he has failed and it offers students also a chance to take subjects not ordinarily offered at a high school.
