JENNINGS IN EUROPE;  
PAUL MANZ TEACHES  
ORGAN AT UNIVERSITY

(FOR IMMEDIATE RELEASE)

Paul Manz, organist-choirmaster of Mount Olive Lutheran church, Minneapolis, is teaching organ at the University of Minnesota this spring and summer during the absence of Arthur B. Jennings, associate professor of music, who is in Europe.

Manz received his bachelor of science degree from Concordia college, Chicago, and his master of music degree from Northwestern university.

Manz, who is also director of the Twin City Lutheran a cappella choir, will study next year in Europe. He was recently awarded a Fulbright grant to study the organ, its history and improvisation at the Royal Flemish Conservatory of Antwerp, Belgium, under Flor Peteers -- also to examine and play organs in many other parts of Western Europe, particularly France.

TWO 'U' SENIORS  
TO GIVE RECITALS

(FOR IMMEDIATE RELEASE)

Two University of Minnesota seniors, a pianist and a contralto, will present their graduating recitals Sunday (May 8) and Monday (May 9) in Scott hall auditorium.

The pianist, Marilyn Larson, is the present holder of the Professor William Lindsay Piano scholarship. She will play her recital at 8:30 p.m. Sunday. Included on her program will be Beethoven's Sonata Opus 81a, Schumann's Kreisleriana, a group of four selections by Chopin, Ravel's "Ondine", Sonata No. 3 by Prokofieff and Prelude from Bach's English Suite No. 2 in A minor.

Florence Avery, contralto, will sing her recital at 8:30 p.m. Monday. She will be accompanied at the piano by Marleen Iorsberg and assisted by violinist Ruth Rye. The program will include music by Monteverdi, Gluck Mozart, two Brahms' lieder, a group of Debussy and Ravel selections and a modern group including the Lullaby from Menotti's "The Consul" in which Miss Avery had a lead role when it was produced by the University Theatre two years ago.

WORLD HEALTH  
INSTITUTE AT 'U'  
SLATED THURSDAY

(FOR IMMEDIATE RELEASE)

A University of Minnesota institute on the relationship of the Minnesota citizen to health problems of other citizens of the world will be conducted Thursday (May 5) at the Center for Continuation Study. Title of the course is "You and World Health".

Heading a list of speakers, who will report on World Health Organization progress in their own particular part of the world, will be Norman Begg of the WHO headquarters office, Geneva, Switzerland, and regional WHO director for Europe.

Many of the guest speakers will leave after the conference for Mexico City, Mexico, to attend the WHO meetings which will open during the following week.

Other world health authorities on the afternoon program, which will begin at 1:30 o'clock, will be Carlos Gonzales, assistant director of the Western Hemisphere office of WHO and former director of public health in Venezuela; Justiniano R. San Agustin, assistant provincial health officer of the department of health, Philippines; Evelyn Johnson, United States Operations Administration consultant nurse on the Health Mission to Iraq; Ronald Lampart, government medical officer of the Jamaica government medical service; and Jeames W. Wright, Union of South Africa, WHO division of environmental control.

Cooperating at the University to present the course are the World Affairs Center, the School of Public Health and the Center for Continuation Study.

ARMY INSTRUCTOR  
AT 'U' ASSIGNED  
TO STAFF COLLEGE

(FOR IMMEDIATE RELEASE)

Major Edward W. Smith, Jr., University of Minnesota associate professor of military science and tactics, has been appointed to attend the Command and General Staff college at Fort Leavenworth, Kans., beginning September 1.

During the past three years, Major Smith has been the Corps of Engineers assistant professor of military science and tactics and executive officer of the University's military department.

A veteran of 14 years military service, the officer lives with his wife and two young sons, Edward and William, at 1238 Rose Vista Court, St. Paul.

Major Smith, son of Mrs. Vera D. Smith, 137 South College street, Lebanon, Tenn., served in the European Theater of Operations with several Combat Engineer units during World War II.

The Command and General Staff college is designed to train commissioned officers for duties as commanders and general staff officers at division, corps and army levels and at comparable levels in the communications zone.

OPERA MEMBERS  
ON 'U' CONVOCAATION  
PROGRAM THURSDAY

(FOR RELEASE SUNDAY, MAY 8)

The assistant manager, a soprano, a bass and a piano accompanist of the Metropolitan Opera will present a University of Minnesota convocation program in Northrop Memorial auditorium at 11:30 a.m. Thursday (May 12), the day before the opening of the opera season in Minneapolis.

Narrator for the convocation program, entitled "From the Metropolitan Opera", will be Francis Robinson, assistant manager of the Met and manager of the Metropolitan Tour which will bring the company to Minneapolis Friday through Sunday (May 13-15).

Soloists on the program, which will be open without charge to the public, will be Laurel Hurley, soprano, and Louis Sgarro, bass, accompanied by Jan Behr, assistant conductor of the Metropolitan Opera association.

The two soloists are considered two of the fastest rising young stars of the entire company. Both are leading stars now and are being given bigger roles as the season progresses.

Robinson, an interesting speaker, has an intimate knowledge of opera, the Metropolitan company and of the stage in general.

PARADE TO OPEN  
ENGINEERS' DAY  
AT U OF M FRIDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Knighting of graduating engineering students into the court of St. Pat, open house at the University of Minnesota's institute of technology, a revue featuring both "Little Red Riding Hood" and the "Caine Mutiny Court Martial" and competitive field day events will be some of the highlights of the annual colorful Engineers' Day activities at the University beginning Friday (May 6).

The "E" Day events will begin with a parade through downtown Minneapolis Friday forenoon. It will arrive on the campus at about 10:20 a.m. and after going through campus streets, will disband in front of the main engineering building where the traditional knighting ceremonies will take place. The five "E" Day queen candidates will be presented, and the name of the winner will be announced.

An honorary engineering degree will be awarded to a public figure at the noon luncheon Friday in Coffman Memorial union main ballroom.

A two-section "E" Day revue is planned for 7:30 and 9:30 p.m. in the Union main ballroom. Admission will be 50 cents. A replica of a giant computer has been built as scenery for the revue.

An open house, planned for the public and particularly for high school students and their parents, is planned for from 7 p.m. to midnight Friday and from 9 a.m. to noon Saturday (May 7) in the engineering, chemistry and physics buildings. Displays and exhibits are being set up by various University engineering societies and national and local firms. Included also will be laboratory displays showing some of the research and teaching methods of the University.

Field events planned for Friday and Saturday include softball, tennis, golf, bowling and table tennis with the final softball tournament scheduled for 9 a.m. Saturday in Riverside park, Minneapolis.

A picnic is slated for from 11 a.m. to 5 p.m. Saturday in Riverside park,

Climax to the events will be the Engineers' Brawl from 9 to midnight Saturday in the Lowry hotel, St. Paul.

REGIONAL MUSIC  
CONTEST FESTIVALS  
FRIDAY, SATURDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Between 15,000 and 20,000 high school students will take part in regional music contest festivals Friday and Saturday (May 6 and 7) at the University of Minnesota, Austin, St. Peter, Worthington, Tracy and Thief River Falls.

At the festivals, bands, choruses, orchestras, glee clubs and vocal and instrumental soloists and ensembles, which received "I" ratings on their district levels, will receive constructive criticisms and ratings from music judges.

The music contests are promoted by the Minnesota Public School Music league headed by Superintendent A. M. Wisness of Willmar, president, and Paul M. Oberg, University music department chairman, secretary-treasurer.

The judges will be music educators from high schools and colleges in Iowa, Wisconsin and North Dakota as well as Minnesota.

Soloists and individual members of ensembles who receive "I" ratings will become eligible to purchase keys as recognition of award, and schools with large groups receiving "I" ratings may purchase trophies.

Places and dates of the various festivals are as follows:

Region I: Austin, Saturday (May 7). Solos and small ensembles only. Eugene Dunlap, contest manager.

Region II: St. Peter, Saturday (May 7) at Gustavus Adolphus college. Paul Allwardt, contest manager.

Region III: (Schools in Regions II west of Highway 71): Worthington, Friday (May 6). Solos and small ensembles. Gerald Niemeyer, contest manager.

Tracy, Saturday (May 7). Large groups. Supt. George Borneman, c ontest manager

Regions IV, V, VI, and VII: University of Minnesota, Friday and Saturday (May 6 and 7). Gale Sperry, contest manager.

Region VIII: Thief River Falls, Friday and Saturday (May 6 and 7) Kalmar Ostby, contest manager.

SOVIET STRENGTH  
TO BE EXAMINED  
AT 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Leo Mates, Washington, D. C., Yugoslavian ambassador to the United States, Robert W. Smith, Minneapolis Star editorial page writer, and faculty members from Hamline university, the College of St. Thomas and Macalester college in St. Paul will join members of the University of Minnesota staff in a three-day symposium of panel discussions on "How Strong Is the U.S.S.R.?" Wednesday through Friday, May 11-13, at the University.

Sponsoring the conference is the University's International Relations Center. All the meetings will be conducted in Coffman Memorial Union men's lounge. Ambassador Mates will deliver a luncheon address on "Yugoslavia and the U.S.S.R." at noon Thursday (May 12) in Room 351 of the Union.

Two afternoon panels are scheduled for each of the three days of the symposium. Participants will read papers which will be followed by question periods and comments from discussants.

Titles and times of the various panels will be as follows:

Wednesday (May 11) 1:30 p.m. "The Crisis of Ideology" and 3:30 p.m. "The Soviet Economy".

Thursday (May 12) 12 noon luncheon. 1:30 p.m. "Soviet Satellites and Nationality Problems" and 3:30 p.m. "Soviet Resources".

Friday (May 13) 1:30 p.m. "The Armed Strength of the U.S.S.R."; and 3:30 p.m. "The East-West Conflict.

Smith will appear on the 1:30 p.m. Friday panel with University history Professors Harold C. Deutsch and John Bowditch.

THREE 'U' FACULTY  
MEMBERS RECEIVE  
FULBRIGHT GRANTS

(FOR IMMEDIATE RELEASE)

Three University of Minnesota staff members have been granted Fulbright scholarships to do research in Europe during the academic year of 1955-56.

John C. Weaver, geography professor will lecture in geography at Birkbeck college, University of London and Kings college, University of Durham. He will be on sabbatical leave from the University of Minnesota. His plans also call for lectures at other continental universities during the year as well as travel through Spain, Italy and Greece.

H. H. Arnason, chairman of the art department and director of the Walker Art Center, will conduct art research at the University of Paris, France.

Pearl C. Niemi, assistant professor of Russian, will conduct research in Slavic studies at the University of Helsinki in Finland.

The awards are three of approximately 400 grants for lecturing and research abroad included in the Fulbright program for the academic year 1955-56. Funds used for the program under the Fulbright Act are foreign currencies realized through surplus property sales abroad.

UNIVERSITY BOTANIST  
GOES TO JAPAN  
FOR LECTURE SERIES

(FOR IMMEDIATE RELEASE)

Allan H. Brown, University of Minnesota botany professor, left Wednesday (May 4) for Japan where he will give a series of lectures on photosynthesis at the University of Tokyo. Photosynthesis is the process in green plant cells whereby light is converted into chemical energy of organic compounds.

While at the University of Tokyo, Professor Brown will consult with Professor Hiroshi Tamiya, one of the world's recognized authorities on photosynthesis -- as is the Minnesota botanist.

Professor Brown is one of the 13 University faculty members granted short-term leaves this year under a new policy of the Board of Regents established to enable professors to devote themselves to intensive research work required to complete studies and scientific investigations in which they are involved or to carry on their studies in universities and research laboratories elsewhere in this country or abroad.

Brown will return to the University about the middle of June.

JUSTICE DOUGLAS  
TO GIVE HILLMAN  
TALK AT 'U' MAY 25

(FOR IMMEDIATE RELEASE)

William O. Douglas, associate justice of the United States Supreme Court, will deliver the opening University of Minnesota - Sidney Hillman lecture at 8 p.m. Wednesday, May 25, in Mayo Memorial auditorium on the campus.

Opening lecture of the series, which is sponsored at the University through a grant from the Sidney Hillman Foundation, was previously scheduled to be given by Carl Rowan, Minneapolis journalist, who was unable to make the talk when his paper assigned him to cover the Asian-African conference in Bandung, Indonesia. Rowan has been rescheduled to deliver a lecture at the University in July.

The Sidney Hillman Foundation awarded the University a grant of \$1,000 in September to establish the lectures to be given by distinguished persons in public life.

Justice Douglas' topic will be "The Bill of Rights, Due Process and Federalism in India". Without becoming involved in legal terminology or legal history, he will deal primarily with the Indian Constitution and decisions of the Indian Supreme Court.

Douglas, who was born October 16, 1898, in Maine, Minnesota (located in Otter Tail county) received his bachelor of arts degree from Whitman college, Walla Walla, Wash., in 1920, and for the next two years was a high school instructor at Yakima, Wash.

He received his bachelor of law degree in 1925 from Columbia university. Honorary degrees bestowed upon him include a master of arts from Yale and doctorates of laws from Whitman college, Wesleyan university, Washington and Jefferson college, William and Mary college and Rollins college.

(MORE)

Douglas was admitted to the New York bar in 1926, and practiced law in New York City until 1927. He became a faculty member of Columbia university in 1925, and served for three years, then moved to the Yale faculty for six years' service. In 1934, Douglas became director of the protective committee study for the Security and Exchange commission in Washington and after two years became its commissioner and chairman.

On March 20, 1939, Douglas was nominated associate justice of the United States Supreme Court by President Franklin D. Roosevelt. The nomination was confirmed by the Senate on April 4, 1939, and he took his seat on the bench April 17, 1939.

Douglas is the author of "Strange Lands and Friendly People", "Beyond the High Himalayas", "North from Malaya" and "Adventure on Five Fronts" as well as numerous law books and contributions to law journals.

'U' CAP AND GOWN  
CEREMONIES MAY 19;  
VAILE TO SPEAK

(FOR RELEASE THURSDAY, MAY 12)

Minneapolis --- Approximately 2,426 students graduating from the University of Minnesota this June will put on their academic costumes for the first time Thursday, May 19, to take part in traditional Cap and Gown Day ceremonies.

Feature of the day will be the annual honors convocation at 11:30 a.m. in Northrop Memorial auditorium with University President J. L. Morrill recognizing honor students and award and scholarship winners. The program will begin soon after 11 a.m. when senior students will join the faculty in an academic procession up the mall from Coffman Memorial Union to the auditorium.

From special seats, members of the class of 1905 will "review" the seniors as they march by.

Roland S. Vaile, veteran professor of economics and marketing, will present the main address at the convocation. His talk is entitled "A Fixed Goal?" Vaile will retire in June after 32 years of service on the University's academic staff.

Assisted by E. W. Ziebarth, dean of the summer session, President Morrill will recognize the University's top-ranking students. Presiding over the program will be E. G. Williamson, dean of students.

Cap and Gown Day coincides with the annual University Alumni reunion May 19 and 20. The Alumni association is celebrating its fifty-second anniversary this year.

MAYO, NOTED SOCIAL WORKER,  
TO LECTURE AT 'U' MONDAY  
ON 'CHILDREN AND FUTURE OF NATIONS'

(FOR IMMEDIATE RELEASE)

Leonard W. Mayo, executive director of the Association for the Aid of Crippled Children, New York, will deliver the annual Hodson lecture under the sponsorship of the University of Minnesota's School of Social Work at 8 p.m. Monday (May 9) in the Minnesota Museum of Natural History auditorium on the Minneapolis campus.

Mayo's topic will be "Children and the Future of the Nations". The lecture will be open without charge to the public.

Mayo is a distinguished social worker, administrator and educator who will outline plans for a statesmanlike approach to the problem of furnishing immediate and long-range help for the plight of children in the disadvantaged areas of the world.

The speaker has served on the faculties of the New York School of Social Work and the School of Applied Social Sciences of Western Reserve university and has been vice president of Western Reserve. He was chairman of the 1950 White House Conference on Children and Youth and has been president of the Child Welfare League of America and of the National Conference of Social Work.

At present, Mayo is a board member of the American-Korean Foundation and honorary president of the international union for child welfare.

The Association for the Aid of Crippled Children is a health and welfare agency devoted to the interests of handicapped children and youth. It provides some local services for them on a demonstration basis, conducts a program of grants-in-aid of research and demonstrations which are national in scope and publishes books for both technical and popular use.

(FOR RELEASE SUNDAY, MAY 15)

The annual joint concert of the University of Minnesota's Concert Band and Chorus will be presented at 4:30 p.m. Sunday, May 22, in Northrop Memorial auditorium.

Featured work of the concert will be the Mass in E Minor by Anton Bruckner in its first local performance. The selection, which is planned for the second half of the program, will be sung by the 250-voice University Chorus to the accompaniment of a special wind ensemble of 17 members of the University Concert Band. Conducting will be James Aliferis, professor of music and director of the Chorus.

Contemporary music written for concert band ensemble will be presented during the first half of the program.

Gale L. Sperry, assistant University bandmaster, will conduct the Chorale and Alleluia by Howard Hanson.

Gerald Prescott, University band director, will conduct the remaining program selections which will be as follows:

Celebration Overture Op. 61	Paul Creston
Psalms for Band	Vincent Persichetti
Music for a Festival for Concert Band	Gordon Jacobs
a. Intrada for 4 trumpets, 3 trombones and timpani	
b. Overture (for band)	
c. Interlude (for the brass)	
d. Scherzo (for band)	
e. Finale (for brass and band)

CORNELIA MC CUNE  
TO RETIRE JUNE 30  
FROM 'U' FACULTY

(FOR IMMEDIATE RELEASE)

Professor Cornelia Williams McCune, coordinator of counseling in the University of Minnesota's general college, will resign from the University faculty June 30 to make a career of homemaking, she announced Wednesday (May 11).

Professor McCune joined the staff of the general college in 1936 as a research counselor. She has served on many college and University committees and in 1953, received the all-University Congress staff award. She is a member of numerous professional and honorary societies including Phi Beta Kappa and Sigma Xi and is a diplomate in counseling and guidance of the American Board of Examiners in Professional Psychology.

Professor McCune received her bachelor of arts summa cum laude from the University of Minnesota where she also was awarded her master of arts and doctor of philosophy degrees. Before she received her academic appointment at Minnesota she was an instructor for three years at the University of Rochester, Rochester, N. Y.

During World War II, Professor McCune served for three years as personnel procedures officer with the rank of major in the United States Marine Corps Women's Reserve. She was married in March 1955, to George H. McCune, general college social studies professor.

DUKE ELLINGTON  
TO PLAY CONCERT  
AT U OF M MAY 20

(FOR IMMEDIATE RELEASE)

Duke Ellington, his piano and concert orchestra will present a University of Minnesota concert at 8 p.m. Friday, May 20, in Northrop Memorial auditorium.

Students of both the St. Paul and Minneapolis campuses are cooperating to present the concert, and the proceeds will go into a building fund for a new student union on the St. Paul campus.

Tickets are being sold for \$1.25 at the Downtown Ticket office, Minneapolis; Field Schlick's and Burk's Music Store, St. Paul; and in Coffman Memorial Union and 105 Northrop auditorium on the Minneapolis campus.

Duke Ellington is famous not only for his concert presentations but also for such song hits as "Mood Indigo", "Solitude", "I Got It Bad and That Ain't Good", "Take the 'A' Train", "Caravan", "Sophisticated Lady", "Don't Get Around Much Anymore", "It Don't Mean a Thing" and "I'm Beginning To See the Light".

Featured with Duke Ellington, who will play the piano himself, will be Jimmy Grissom, Ray Nance, Cat Anderson, Harry Carney, Britt Woodman, Wendall Marshall, Clark Terry, Willie Cook, and the young drummer, Dave Black.

MICHIGAN STATE  
COLLEGE HONORS  
DEAN MORSE OF 'U'

(FOR IMMEDIATE RELEASE)

Dean Horace T. Morse of the University of Minnesota's general college was honored recently by Michigan State college for his contributions to the field of general education.

The tribute to Dean Morse was presented in the form of a citation awarded as part of Michigan State college's centennial observation.

The citation stated:

"As a teacher, writer and dean of the general college of the University of Minnesota your contributions to general education are well known. Your articulate expression of your educational philosophy has made you a leader in the field of general education and has had an influence that has spread far beyond your own educational institution.

"The ideas and leadership that you have brought to the many educational commissions on which you have served indicate your continuing interest in developing and improving general education programs. Your emphasis upon the evaluation of existing curricula in the light of changing circumstances has offered a challenge to everyone associated with the educational process. Michigan State college recognizes your contributions to general education in bestowing this centennial award."

ARMY MEDICAL  
OFFICIAL TO ADDRESS  
RESERVE GROUP

(FOR IMMEDIATE RELEASE)

Major General Alvin L. Gorby, deputy commander of Walter Reed Army Medical Center, Washington, D. C., will speak at a dinner meeting Monday evening (May 16) of the 5007th Research and Development Group, Army Reserve Unit, made up primarily of members of the University of Minnesota faculty. The meeting will be held in the Campus club in Coffman Memorial Union. Major Gorby will meet Monday noon with the administrative committee of the University's medical school and talk that afternoon at a public health seminar. On Tuesday night he is scheduled to address the 110th and 133rd General Hospital reserve units.

Included in the Walter Reed Army Medical Center are the Army Medical Service graduate school, Army Central Dental laboratory, Army Prosthetics Research laboratory, Walter Reed Army hospital and the Armed Forces Institute of Pathology located at Washington, D. C., Forest Glen, Md., and Glenhaven, Md.

General Gorby took up his duties at Walter Reed in February 1, 1954. For the previous year he was senior medical advisor and director for planning and liaison in the office of the assistant to the Secretary of Defense (Health and Medical). Prior to that assignment, he served as surgeon of the Second Army with headquarters at Fort Meade, Md.

Assignments outside of the United States have taken General Gorby to England, Germany, Japan, Korea and the Panama Canal Zone.

A native of Spencer, W. Va., General Gorby received his bachelor of science and doctor of medicine degrees from the University of Oklahoma. He also was graduated from command and general staff college, Fort Leavenworth, Kans. He was commissioned a first lieutenant in the Medical Corps reserve in June 1925.

PROF. E. W. DAVIS,  
'MISTER TACONITE',  
TO RETIRE FROM 'U'

(FOR RELEASE AT 11 A.M. FRIDAY, MAY 13)

Minneapolis --- "Mr. Taconite"---Professor Edward W. Davis of the University of Minnesota mines experiment station---has decided to retire from the University June 15 after 43 years on the faculty.

Although he has a year to go before compulsory retirement, the man who has played a key role in the development of many of the processes involved in converting the tough taconite rock into useful commercial ore wants to watch his dream of more than 35 years become a reality in Northern Minnesota.

Professor Davis will live in Silver Bay on the North Shore of Lake Superior where Reserve Mining company's huge taconite processing plant---named the E. W. Davis Works in his honor---is nearing completion. He is seeking a homesite high up in the new city's rocky hills from which he can look down over the massive processing works and watch ore ships laden with taconite pellets steam out of the harbor bound for steel mills in the East.

Born in Cambridge City, Ind., May 8, 1888, Professor Davis, "Bud" to his many close friends, still considers himself something of a Hoosier. After earning his bachelor of science degree at Purdue university, Lafayette, Ind., in 1911, he spent a year with Westinghouse Electric and Manufacturing company and General Electric company and then joined the staff of the newly formed mines experiment station at the University of Minnesota in 1912. He received an electrical engineering degree from Purdue in 1918.

(MORE)

Named superintendent of the mines experiment station in 1919, he became its director in 1939. He resigned the director's post in March 1952 to concentrate more of his efforts on commercial taconite development in Minnesota but retained his professorship.

Long ago foreseeing the day when Minnesota's high grade ore reserves would be depleted, Professor Davis has devoted more than three decades to research on the development of new processes and equipment needed by the mining industry for the utilization of the abundant lower grade ores.

His work on taconite and his influence in persuading the State Legislature to provide a tax climate favorable to low grade ores has led to the establishment by private capital of enormous mining and ore treatment operations in Northern Minnesota.

STATE PSYCHOLOGISTS  
TO PLAN GREATER  
AID TO HANDICAPPED

(FOR IMMEDIATE RELEASE)

Leonard M. Miller, Washington, D. C., assistant chief of the division of training for the United States Office of Vocational Rehabilitation, will describe the expanding federal rehabilitation program at a meeting of about 100 Minnesota psychologists Friday and Saturday (May 20-21) at the University of Minnesota.

The psychologists will exchange ideas on how to give greater help to the physically and mentally handicapped.

Principal theme of the meeting is "The Role of Contributions of Psychology in Rehabilitation Programs". Scheduled are research reports and discussion on disabled veterans, the aged and the mentally ill, according to Program Chairman Wilbur Layton, assistant director of the University's student counseling bureau.

A session is also planned on the gifted child with psychologists from the University of Minnesota and several public school systems of the state talking on what is being done for such children and how the schools can encourage this development.

Miles A. Tinker, University psychology professor, will review Rudolph Flesch's recent book "Why Johnny Can't Read", and Dr. Frederic Kottke, head of the University's physical medicine department, will talk on the history and philosophy of rehabilitation.

Sponsoring the meeting is the Minnesota Psychology association, professional organization of psychologists in state and federal agencies, public schools, business and industry and private practice.

MAGAZINE EDITOR  
TO SPEAK WEDNESDAY  
TO ASEE MEETING AT 'U'

(FOR IMMEDIATE RELEASE)

G. F. Nordenholt, New York, editor of Product Engineering, will speak at the quarterly meeting of the Minnesota branch of the American Society for Engineering Education at 6:30 p.m. Wednesday (May 18) in 307 Coffman Memorial Union.

Nordenholt's subject will be "Engineering for Might and Mercy", and he will emphasize the necessity for the expansion of technical education in both the public school systems and in the universities of the United States.

Nordenholt received his bachelor of mechanical engineering from Lehigh university in 1914 and his masters degree in 1923. He worked for several private corporations and became head of the experimental engineering lab at Lehigh before becoming assistant to the chief engineer of the American Car and Foundry company. While on the latter job, he designed the Speno Railroad Ballast Cleaner.

In 1929 Nordenholt joined the McGraw-Hill Publishing company what at that time was launching the new publication, Product Engineering. He has advanced from associate editor to managing editor and in 1935 to chief editor.

HIGHER EDUCATION  
COST STUDY IN 11  
SCHOOLS PLANNED

(FOR IMMEDIATE RELEASE)

Minneapolis --- The Fund for the Advancement of Education Tuesday (May 17) announced a grant of \$150,000 for a joint study by 11 universities of factors affecting the cost of various elements of American higher education in the face of growing enrollments, inflation and demands for wider educational services.

Schools involved in the survey are the Universities of Minnesota, Illinois, Michigan and Iowa; Indiana, Ohio State, Northwestern, Purdue and Michigan State universities (Western Conference schools); Wabash college, representing smaller, privately financed schools; and the University of California.

The grant provides for the establishment of "The California and Western Conference Cost and Statistical Study". General chairman of the survey is William T. Middlebrook, business vice president of the University of Minnesota. H. H. Davis, University of Iowa provost, is vice chairman, and L.R. Lunden, University of Minnesota comptroller and treasurer, is secretary.

Major policies of the study will be decided by an executive committee consisting of Middlebrook, President Robert G. Sproul of California and President Herman B. Wells of Indiana. The University of California will serve as fiscal agent for the project, completion of which is expected to require a year or more.

Out of the study, Middlebrook said Tuesday, are expected to come data that will furnish, for the first time, comparative figures upon which institutions of higher education, both privately and publicly supported, can base their planning for future operating expenses and capital funds in the three areas to be covered by the survey. These three areas, he said, are administration, instruction and physical plant.

(MORE)

"The survey will concentrate," Middlebrook explained, "on a comparison of like elements of total costs in these three areas of university functioning and will avoid units of comparison such as clock-hour, credit-hour and per-student costs which will not be meaningful, helpful or useful on a university-wide basis in institutions of higher education of the magnitude and complexity involved."

In the field of administration, the survey schools will consider factors entering into the costs of such elements as general administration, student services, staff welfare, public service and information and libraries.

Costs of instruction will be compared by courses in like subject fields such as English, mathematics, physics, history and so on at the junior college level, the senior college level and at the graduate level. Among factors to be considered are costs per unit of instruction, instructional loads per full-time staff member, average class sizes, staff maturity as measured by rank, distribution of expenditures by functions and course levels and average salaries.

Cost data will eventually be prepared for all or almost all of the teaching departments in each of the participating schools, Middlebrook said. Once assembled, the information will be used for making comparisons between different instructional departments in the same institution and between different institutions for the same departments or combination of departments.

Physical plant costs will be studied by elements rather than by any comparison of total physical plant expenditures. Elements to be studied include repairs, decorating, custodial wages, utilities, room utilization, insurance and watchman service.

When completed, the report of the survey is expected to be useful as a fiscal "yardstick" by which to measure future operating costs of colleges and universities, Middlebrook pointed out.

(MORE)

Serving as the University of Minnesota's institutional representatives on the survey are Malcolm M. Willey, vice president for academic administration, and Middlebrook.

Much of the detailed work of the study will be carried out by members of the staff of each institution in cooperation with a central staff consisting of C. L. Washburn, educational research analyst; Donovan E. Smith, physical plant planning analyst (University of California); John M. Evans, instruction and research analyst (Indiana university); and Fred S. Vorsanger, administration analyst (Purdue university).

NAVY ROTC AT 'U'  
WILL HOLD SPRING  
REVIEW THURSDAY

(FOR IMMEDIATE RELEASE)

The annual University of Minnesota Navy ROTC spring review will be held 3 p.m. Thursday (May 19) in Memorial stadium. The review will be open to the public.

Highlight of the review will be the presentation of the color company trophy to Midshipman Willard B. Jensen, Minneapolis, who will accept it in behalf of "B" company of which he is commander.

The trophy is sponsored by the Reserve Officers' association of the Twin Cities and awarded to the company of midshipmen which has excelled throughout the year in drill, military precision, teamwork and athletic competition.

As commander of the winning company, Jensen also earned the right to choose the official color girl. She will tie the color company ribbons to the company guidon and then will reward the company commander with a kiss, a ceremony which originated at the United States Naval Academy, Annapolis, Maryland.

The color girl will be Dale Stromwell, 7521 Sheridan avenue, South, Minneapolis, former University home economics student and now an airline hostess for Northwest Airlines.

Reviewing officer will be Captain John H. Kaufman, USN, inspector general of the Ninth Naval district with headquarters at Great Lakes, Ill.

Other midshipmen who will receive special honors at the review are as follows: Chicago Tribune Gold medal: John G. Reeder, St. Paul; Chicago Tribune Silver medal: Gordon O. Prickett, St. Paul; Navy League watch, Edward A. Marks, Minneapolis; Thomas Hastings trophy: Robert E. Sorensen, Minneapolis; two honorary memberships to United States Naval Institute: Mark E. Mahowald, Fergus Falls, candidate for his doctor of philosophy degree in mathematics; and Peter A. Von Eschen, Minneapolis; Norman Garvey trophy: David G. Gackler, Minneapolis; Navy League pistol trophy: George D. Hedges, St. Paul; honorary members in the Marine Corps association: Boyd R. Brown, Middletown, Ohio; and Gym Khana trophy: Willard B. Jensen, Minneapolis.

Twin brothers from St. Paul will be among the six Minute Man medal winners. The medals go to freshmen NROTC students for outstanding patriotism, character and leadership.

The winners are Robert A. Erickson and Richard L. Erickson, twin brothers from St. Paul; Richard S. O'Brien, Minneapolis; Henry J. Wasik, New Baltimore, Mich.; Jerald R. Forster, Salem, S. D.; and Joseph P. Valenti of Chicago, Ill.

(FOR RELEASE SUNDAY, MAY 22)

Instrumentalists will perform in the University of Minnesota's Symphony Orchestra commencement recital at 8:30 p.m. Tuesday, May 24, in Scott hall auditorium.

Solo selections in the annual recital are customarily performed by pianists and vocalists; however, this year, a variety of other musical instruments will be featured, according to Paul Oberg, chairman of the University's music department, who will conduct the orchestra.

The concert will be open without charge to the public. Instruments on which solo selections will be played include trumpet, saxophone, organ, clarinet and string bass. On the program also will be two pianists and three vocalists.

Soloists are: Lester J. Bullock, Minneapolis; Robert A. Olson, Lake City; Mary Ellen Sinclear, Superior, Wis.; Robert T. McMorran, Red Wing; Joannes U. Dahle, Minneapolis; John R. Cooper, Minneapolis; Janet E. Deering, Minneapolis; Janice M. Pritchard, Columbia Heights; Joan C. Lindusky, St. Paul; David Castren, Virginia; and Marilyn J. Larson, Lindstrom.

The program will be as follows:

Concerto No. 2 in B flat major, first movement

A tempo ordinario

Bullock, organ

Concerto in G major, first movement

Allegro

Olson, string bass

Deh Vieni, non tardar, from "The Marriage of Figaro"

Sinclear, soprano

Concert in A major, first movement

Allegro

McMorran, clarinet

(MORE)

In Diesen heil 'gen Hallen, from "The Magic Flute

Dahle, bass

Concerto in D minor, first movement

Allegro

Cooper, pianist

Concert in E flat major

First movement. Allegro:

Deering, saxophone

Second movement and Third Allegro

Pritchard, trumpet

The Weaver's Daughter

The Garten Mother's Lullaby

Lindusky, contralto

Orchestrations by Castren

Concerto No. 4 in G major, first movement

Allegro moderato

Larson, pianist

(FOR RELEASE SUNDAY, MAY 22)

Annual spring concert of the University of Minnesota's Chamber Singers is planned for 8:30 p.m. Friday, June 3, in Northrop auditorium.

James Aliferis, University music professor, will conduct the program by the Singers, a select group of 19 voices. The concert will be open to the public without charge.

Selections will include "The Magnificat" by C. P. E. Bach and "Les Noces" by Stravinsky, both of which are seldom heard in this area.

The Bach number requires four solo voices as well as the chorus. Solo roles will be sung by Ethel Wagner DeLong, soprano, last year's Minneapolis winner of the Metropolitan audition; Elaine Schuessler, contralto, soloist at Hennepin Methodist church, Minneapolis; Blake G. Stern, tenor, University music instructor, and Roy A. Schuessler, associate professor of music.

Stravinsky's "Les Noces" is a secular cantata narrating the story of a Russian peasant wedding. Four solos in it will be sung by the vocalists which appear in the Bach presentation. The score, however, also requires four pianists and percussion as well as the chorus. Pianists will be Bernhard Weiser, Thelma Hunter, and Shirley Peterson, all University music instructors; and John G. MacKay, graduate student from St. Paul.

Members of the Chamber Singers are:

From Minneapolis: Leslie N. Hollister, Theo K. Ganschow, Anne L. Bachelder, Austin B. Caswell, Martin E. Kienitz, W. Yale Marshall and Bruce G. Lunkley;

From St. Paul: Patricia L. Benton, Rosemarie H. Ljungkull, Arlene I. Powell, Joan C. Lindusky, Sheldon W. Simon, Dale F. Maxey and William C. Collins.

From elsewhere: Joyce L. Revne, St. James; Helen M. Nelson, Svea; Marlys R. Carlander, Moorhead; Roger W. Olson, Milaca; Richard M. Price, Grafton, N.D.; and Brian R. Klitz, Grand Forks, N. D.

Cap and Gown Day - May 19, 1955  
University of Minnesota

President Morrill, members of the Class of 1955, Ladies and Gentlemen:

My remarks this morning are directed to the class of 1955. I, too, am a member of that class, having reached a commencement somewhat further along in life's curriculum than you who don Cap and Gown for the first time today. As I glance backward and peer forward I am very humble and somewhat perplexed. A generation that has perpetrated two world wars and the threat of a third, cannot be complacently arrogant, with pride in its accomplishments. What impresses me most this morning is not our wonderful scientific achievements, but how little of wisdom we have, and how little we really know. Of this much only I am sure - Our goals are not fixed, - and truth seems almost to be both coy and fickle.

At the birth of this country as a nation, some wise men proclaimed: "We hold these truths to be self evident." Perhaps the most obvious inference is that not all truth is self evident! It is also apparent that not all which we hold as truth is permanent or universal. Since my undergraduate days: Newton's laws of motion have been modified or replaced; The atom has been smashed; The sound barrier has been breeched; The range of the human voice has become at least worldwide; The horse-and-buggy days are over and soon, perhaps, will be the age of steam; The industrial revolution gives way to the chemical, and the chemical to the atomic revolution. In brief, change is, perhaps, the most conspicuous aspect of life.

Moreover, even self-evident truths are subject to redefinition and

interpretation: "All men are created equal" never was intended to mean that anyone might be equal to Bob McNamara at football;

or to Chuck Mencil at basketball;

or to Eleanor Vaill in the quiz bowl;

not to mention the unique genius of Albert Einstein in the realm of science. In fact, to me the most interesting phase of the study of human psychology is that of Individual Differences.

In other words, The Truth Must Be Discovered, over and over, as a fleeting goal and even under new definition. As Dr. Hall of Ivy College put it recently on television: "Truth rarely comes in, bright, shiny, fresh from the mint. It must be located, dug for, assayed, refined, and the impurities removed."

In the years since I first wore the Cap and Gown, technology admittedly has accomplished great things. Technology is the application of the findings of science to human affairs through business management. It has given us automobiles and hard-surfaced roads on which to run them; the airplane which lays its track as it flies; the submarine which has made Jules Verne's fantasy a reality; radio and television which have bettered Edward Bellamy's prediction of choice of programs at finger tip in the home. While our population has increased 80 per cent, our consumption of primary energy has quadrupled, our bag of gadgets available for consumption has at least doubled per capita, college training has become almost commonplace, infant mortality is greatly reduced; smallpox has virtually disappeared and perhaps polio soon will.

Automation - the use of machines to run machines - is now the order of the day. The word is new - the idea is old. The human race seems always to have been lazy, and so has looked for labor-saving devices. The quest has reached mass fulfillment in home devices like vacuum cleaners, automatic washers for clothes and dishes, power lawnmowers, and the like. If the capital tied up in idle time of home appliances in this country could be released, Indonesia could be industrialized with it.

As Clark Beise, President of the Bank of America, stated on this campus recently, "It is now forecast that within 25 years half of our industrial power will be coming from atomic plants, one great advantage of which is that A-power plants can be established in remote areas, and in areas where conventional fuels are not easily available." Beise went on to remind us that atomic power already is being put to work in many countries. Britain is planning to use it to supplement coal in meeting its rising demands for industrial power, and is erecting a system of nuclear power stations to operate at a cost fully competitive with coal. Switzerland, whose need for electric power doubles every decade, is rushing research with an atomic pile, financed by industrial concerns, assisted by the State. A similar plan is being prepared in West Germany. Sweden is speeding its three-stage program, the first of which is already producing power, the second to be working by 1959, the third by 1965. Norway, too, has projects under way, and France seeks to supplement its too scant, hydro resources. Canada has works under construction, and down in South Africa the plan is to provide cheap A-power to the mining areas, where water power is far distant but uranium is abundant. India is now undertaking work at a plant in Bombay with some help from the United States, and with hopes of further help from other countries.

In short, the A-bomb is becoming domesticated as an aid to electronics and automation, and a source of industrial power of a scope to stagger the imagination.

This development is late in coming, and great though it is, it leaves something very important for the human mind to do. Several years ago Clarence Day suggested in one of his whimsical essays that mankind let laziness get the better of it when we failed to learn the language of animals and then train eager wolverines to operate our semi-automatic machinery. And John Muir nearly a century ago while a student at Wisconsin not only made a bed that

automatically dumped him out at the right time in the morning, but also built a desk on which the right book popped up automatically at the time set for study and remained up just the moments that he had decreed. But the connection between the book and Muir's brain remained a human one which no machine so far has bridged.

Science, wonderful though it is is not self operating. Science involves the logical interpretation of observations. Both observation and logic are essential to its usefulness. You may have heard of the anatomy professor who had to be put away in an institution, but who retained his yen for research. He found some fleas in his room, caught several one at a time, placed each on his arm and said "Jump!" Each time the flea jumped as bid. Then the professor snipped off the legs of several fleas, none of which afterwards jumped on command. An attendant asked the professor for his interpretation and was told, "this is a great anatomical discovery: Snipping off their legs makes them deaf!"

Even when observation is keen and logic is sound, the findings of science must be used with discretion. If I were a University President - which God and the Regents forbid - I believe I should require all the faculty to read once a year Anthony Standen's "Science is a Sacred Cow," or perhaps I'd compromise every other year for Herbert Heaton's "Cleo's Overalls," - lest science become both for faculty and for too many students verily a Sacred Cow.

The search for truth through science may be an end or goal in itself. Certainly many individuals have found in science an exciting and satisfying way of life. When their discoveries of truth open the door - as did Einstein's - to a new world of practical events including television and atomic power, the world is greatly in their debt. Professors Hayes and Stakman who have preceded me on Cap and Gown Day programs have greatly enriched the agricultural heritage of Minnesota through their scientific studies. In countless other cases there has resulted much more than science-for-science-sake. In all such

cases there has been avoidance of the stigma of those great words of Paul: --"Faith without works is barren." When the truths of science are worked into the affairs of men, then life truly is enriched.

But I recall watching in 1918 a ship being coaled at Nagasaki, with a human chain engaged in tossing small baskets up a rope ladder the height of the ship's side; and then I contrast that picture with the use of energy in the form of concentrated fury at Nagasaki 27 years later. Each case entailed great waste of human resources. Discovery of how energy can be used is one thing; decision of how it shall be used obviously is another and more important one.

Perhaps the most crucial sense in which neither science nor technology is enough lies in our failure to discover how to live together as human beings. Warnings like Lothrop Stoddard's a generation ago concerning the Yellow Peril help but little. I don't know how long a democracy tempered with state socialism, (like ours), can live in the same world with totalitarian communism (like Russia's), but I am convinced that Lincoln's doctrine that no nation can long exist half slave and half free is rapidly coming to apply to the world. Science as used in transportation, communication, and destruction have forced either a welding or an amalgamation upon us. Anthony Eden has put it better than I can: "We know that we are destined, in our land and in our generation, to live in a period of emergency of which none can see the end. If throughout the testing time, however long or short it be, we hold fast to our faith, cradle it in stone, and set steel to defend it, we can yet hand on our inheritance of freedom intact to the generations that are to come." To which John Steinbeck adds: "If only people would give the thought, the care, the judgment to international affairs, to politics, even to their jobs, that they lavish on what to wear to a masquerade, the world would run in greased grooves."

How can we go about solving world disharmonies? Probably through the homely device that is so commonplace in University life. Yes, I mean by

committees - more committees filling more hours with yak-a-t-yak, at the local, national, and international level. At least I have nothing better to offer, and I've served my time on committees at each level, some of which seemed completely futile. Parenthetically, when you become fatigued with busyness, be prompt at committee meetings, and you'll have time to relax and rest. Someone has said that a camel looks just like something put together by a committee. But for all their fantastic ugliness of both appearance and temperament (and I've had a bit of experience with them), camels have served very useful purposes and served them well. Seriously, I'd prefer to take a chance on a camel put together by a committee, to one put together either by a self-centered dictator or by a public opinion poll.

Committee discussion is admittedly tedious, may become unduly acrimonious, often must tackle problems only piecemeal, perhaps involves too much of temporary compromise, but when undertaken by men of goodwill it holds hope for harmony more lasting than that brought by an exploded H-bomb.

Whatever today's answer to our basic problem, nothing else is so certain as that it will be found wanting a few years hence. Life is a continuum, the pattern of human relations is a kaleidoscope, and nothing has ever been devised by the wit of man which cannot by the wit of man be set aside. Permanent standing committees apparently are essential and you will take part in, or at least influence, their discussions. The challenge to this class of 1955, then, as you enter the long curriculum of life's university is suggested by the mottoes on the gates of the undergraduate college which I attended:

"Let only the eager, reverent and thoughtful enter here."

and

"They only are loyal to this college who, departing, bear their added riches in trust for mankind."

Let me close with this corollary of what I have been trying to say: There will always be an unknown, - some cause back of the present ultimate realities, a force which some are content to call Cosmos while other call it God, - but by whatever name, "Something lost beyond the ranges; lost, and calling to you, GO!

SPAN NAMES 42  
TO STUDY ABROAD  
IN SUMMER OF '56

(FOR RELEASE FRIDAY, MAY 20)

Minneapolis --- Forty-two Minnesota university and college students have been chosen to study in foreign countries during the summer of 1956 under the Student Project for Amity Among Nations (SPAN).

SPAN is a special program conducted under the auspices of the University of Minnesota which annually sends students in four groups to four foreign countries.

Included in the groups will be 15 students from the University of Minnesota, seven each from Hamline university and Macalester college, five from St. Olaf college, three from Augsburg college, two each from Carleton college and Gustavus Adolphus college and one from the College of St. Thomas.

The students, who will be accompanied by faculty advisers, will study in Great Britain, Venezuela, Greece and the Benelux-Saar countries.

The 1956 Spanners will begin intensive study in language, history and contemporary problems concerning their respective countries.

A total of 56 students will be studying this summer, 1955, in foreign countries under SPAN.

The SPANNERS for 1956 are as follows:

Great Britain: University - Adrienne J. Kroman, 7840 W. Lake street, Minneapolis; James E. Durham, 115 S. Virginia, Mason City, Iowa; Lois J. Thomas, 2364 Buford avenue, St. Paul, and Deborah A. Drinkwine, Bayport; Hamline - Larry Whitely, 3715 14th avenue, South, Minneapolis; Cyrilla Francis, Stewartville; and John Anderson, Montevideo; Augsburg - Dennis Barnaal, Sacred Heart; and Byron Golie, Sacred Heart; St. Olaf - James Eyer, 2542 Pensacola, Chicago, and Jeanne Kunau, Preston, Iowa; St. Thomas - Robert Zimmerman, Riverdale, N.D.; and Macalester - Marilyn Slosser, West Salem, Wis.; Janet Hoppe, 1801 Eustis street, St. Paul, and Margaret Ohman, 401 Northwest Fifth street, Chisholm.

(MORE)

Venezuela: University - Gail Drury, 6611 Knox avenue South, Minneapolis; and Ingrid J. Severson, 1012 Ashland avenue, St. Paul; Macalester - Samuel Baez, Prairie Du Sac, Wis.; and St. Olaf - Patricia Moe, 7350 West 21st, Lakewood, Colo.

Greece: University - Keith R. Legg, Elk River; Susas N. Anderson, 3227 Northeast Taylor street, Minneapolis; Robert Kaul, 127 Franklin, Owatonna; Charles Imm, 519 North Fourth street, Mankato; Jane Larson, 4131 40th avenue, South, Minneapolis; and Sonjie Pearson, 5009 West Maypole, Chicago, Ill.; Augsburg - Arlin Brodin, 6124 Tenth avenue, South, Minneapolis; Gustavus Adolphus - Vada Petterson, Starbuck; and Hamline - Corinne Swenson, 5315 Chateau Place, Minneapolis.

Benelux-Saar: University - Patsy Boyd, Shakopee; Ann B. Jacobson, 4558 North Emerson, Minneapolis; and Keith O. Anderson, Sacred Heart; Hamline - Robert Heimerl, 4016 Wooddale avenue, St. Louis Park; Georgia Atkinson, 4901 Frontenac, Minneapolis; and Sally Gronner, Underwood; Macalester - Ann Beran, 5715 Colfax, South, Minneapolis; Sharon Mueller, 1523 North 66th street, Omaha, Neb.; and Jo Anne Juul, 5033 Edinbrock Lane, Minneapolis; Carleton - Cynthia Monroe, 621 West 44th street, Indianapolis, Ind.; and Thomas Robinson, 828 Allouex, Green Bay, Wis.; St. Olaf - Norita Clark, Fergus Falls; and Barbara Bjorkman, Thief River Falls; and Gustavus Adolphus - George Spaeth, Evansville.

COXE, 'U' STAFFER,  
PLAYWRIGHT, POET  
TAKES MAINE OFFER

(FOR IMMEDIATE RELEASE)

Louis O. Coxe, University of Minnesota associate professor of English and a prize-winning playwright and poet, will leave Minneapolis this spring to become the Pierce professor of English at Bowdoin college, Brunswick, Maine.

Coxe joined the University staff in 1949 as an assistant professor and was promoted in 1952 to associate professor. He came to Minnesota from Harvard university.

The writer-professor is originally from Salem, Mass., the setting of one of his plays, "The Witchfinders". He is the holder of two awards for his plays "Billy Budd", produced on Broadway during the 1951-52 season. The awards are the Donaldson and the Outer Circle honors.

Another play, "The General", is now awaiting production in New York.

In addition to his work for the theater, Coxe has made a reputation for himself as a poet with his first volume of verse, "The Seafaring and Other Poems", published in 1947 by Henry Holt & Co. A second book will be published this fall by the University of Minnesota Press.

His poetry has also appeared in "Partisan Review", "Poetry Magazine" and "The New Yorker".

Coxe, with his wife and four children, will leave about June 15 for Maine.

LAWRENCE PERKINS,  
CHICAGO ARCHITECT,  
TO LECTURE AT 'U'

(FOR IMMEDIATE RELEASE)

Lawrence Perkins, Chicago architect, will describe some of his building projects to University of Minnesota architecture students and the public Monday and Tuesday afternoons (May 23 and 24) in the University's school of architecture's judgment room.

Perkins, who received his bachelor of architecture degree in 1930 from Cornell university, started his practice of architecture in 1933. Since 1935, he has been a partner in the firm of Perkins and Will, Chicago.

His buildings include schools at Winnetka, Glenview, Riverside and Woodstock, Ill., and the Bedford Park, Ill., community center.

MAURINE NORTON  
RECEIVES EXTENSION  
OF FULBRIGHT GRANT

(FOR IMMEDIATE RELEASE)

Maurine Norton, soprano who was a voice instructor at the University of Minnesota music department for one year, has been granted an extension of her Fulbright scholarship to study voice and opera with the maestro of the Teatro dell'Opera in Rome, Italy, for the academic year 1955-56.

In September, Miss Norton will make her European debut in the title role of "Suor Angelica" at Spoleto, near Rome. While at the University she sang a role in the "Suor Angelica" with the Minneapolis Symphony orchestra. At Spoleto the remainder of the cast, the chorus and the orchestra will be members of the Rome Opera.

UNIVERSITY WILL OFFER  
SUMMER EVENING CLASSES

(FOR IMMEDIATE RELEASE)

Minneapolis --- Summer evening classes will be offered by the University of Minnesota General Extension division this summer beginning June 20.

The courses are planned as an aid to high school students or graduates needing specific courses for college entrance as well as graduate students, persons wishing to study language for traveling and those interested in recreation instruction.

Most of the classes will begin June 20 and continue until August 12. They will be presented on both the Minneapolis campus and at the St. Paul Extension Center at Wabasha and College.

Registration for all classes will begin Monday, June 6, and continue through June 17. Registration hours will be from 9 a.m. to 5 p.m. Mondays through Fridays in the Minneapolis office, 690 Northwestern bank building; the Duluth office, 110 New Garrick building; the St. Paul Extension Center; and at 57 Nicholson hall, Minneapolis campus.

The Nicholson hall office will also be open until 8 p.m. Monday through Thursday, June 13-16.

Courses to be offered June 20-August 12 are as follows:

University Minneapolis campus:

Monday and Wednesday evenings: preparatory composition, communication, sociology, French for graduate students and solid geometry.

Tuesday and Thursday evenings: economics, German for graduate students, higher algebra and personal orientation.

St. Paul extension center:

Monday and Wednesday evenings: personal orientation, higher algebra and economics.

Tuesday and Thursday evenings: preparatory composition, communication, solid geometry, sociology and rhetoric.

Language classes for travelers are scheduled from June 13 until July 13. The courses are in German, French and Spanish and will meet from 7 to 9 p.m. on the Minneapolis campus.

Special recreation classes will be offered in golf for women, June 21-July 28; swimming for boys, June 20-July 15; swimming for girls, June 20-July 22; and dancing---folk, square and ballroom, August 28-September 4 at Camp Ihduhapi, Loretto.

FOREIGN STUDENTS  
AT 'U' SEEKING  
JOBS FOR SUMMER

(FOR IMMEDIATE RELEASE)

A group of 94 foreign students at the University of Minnesota are looking for summer jobs in hopes of earning funds needed toward their educational goals.

Under legal restrictions, the students, of whom 75 are men and 19 women, are required to show economic necessity, must not displace an American citizen and must use earnings to further their education.

According to information compiled from questionnaires sent to the students, 45 are willing to work outside the Twin Cities, 46 are willing to do manual labor and 37 are willing to work at night.

The students seeking work represent the following countries: China, India, Japan, Turkey, Egypt, Greece, Korea, Philippines, Nigeria, England, Iraq, Viet Nam, Yugoslavia, Burma, Canada, France, Germany, Guatemala, Haiti, Isreal, Netherlands, Nicaragua and Pakistan.

Employers wishing to hire students may call Sigurd T. Dyrland, supervisor, Student Employment Bureau, University of Minnesota, Minneapolis 14.

UNIVERSITY BOOSTS  
TUITION CHARGES

(FOR IMMEDIATE RELEASE)

Minneapolis --- Increases in non-resident tuition rates in all colleges and divisions of the University of Minnesota and boosts in resident tuition charges in most colleges and divisions will become effective fall quarter 1955, President J. L. Morrill announced Monday (May 23).

The tuition advances are expected to increase the University's tuition income by approximately \$300,000 annually or by about 10 per cent, President Morrill explained, and are in line with revisions discussed with State Legislative committees in the 1955 session.

Minimum resident tuition, now \$41 per quarter, will be upped \$5 to \$46. The present non-resident minimum quarterly rate of \$110 will be jumped to \$135, a \$25 increase. Highest resident tuition will be the \$100 quarterly fee for dentistry (now \$86) and medicine (now \$88). Dentistry and medicine will also top the non-resident tuition scale with a quarterly figure of \$210 representing increases from \$175 and \$185 respectively.

In one University division, the college of education, resident tuition will be reduced \$1 per quarter from \$47 to \$46 to match the majority of the undergraduate schools. Nursing is an exception to the non-resident minimum.

The quarterly tuition schedule showing present and new rates is as follows:

WISCONSIN PHYSICS  
PROFESSOR TO LECTURE  
AT 'U' WEDNESDAY

(FOR IMMEDIATE RELEASE)

Robert G. Sachs, University of Wisconsin physics professor, will deliver the University of Minnesota's Henry A. and Winifred B. Erikson lecture at 5 p. m. Wednesday (May 25) in Room 131 Physics building.

The title of the lecture will be "The Classification of Fundamental Particles". Professor Sachs will point out that a few years ago physicists believed electron, proton and neutron were fundamental building stones of the universe, whereas, today there is less certainty. Many new particles called mesons have been found in the cosmic radiation and are now produced by atom smashing machines.

The Erikson lectureship was endowed by Professor Henry A. Erikson who for many years was chairman of the University's physics department.

Professor Sachs has contributed to the theory of elementary particles and before joining the Wisconsin staff was director of the theoretical physics division of the Argonne National Laboratory, Chicago.

GREATER UNIVERSITY FUND OPENS  
'55 CAMPAIGN; \$230,000 GOAL SET

(FOR IMMEDIATE RELEASE)

Minneapolis --- The Greater University Fund of the University of Minnesota opened its 1955 campaign this week with a new high goal of \$230,000. This marks the eighth annual campaign of the fund.

Edgar F. Zelle, chairman of the board, First National Bank of Minneapolis, will serve as 1955 national chairman for the campaign which will end December 31.

The campaign was launched this week with a mailing of the annual report to alumni and friends of the University. The annual report includes information on the fund's program and a review of last year's income and expenditures. In 1954, gifts to the fund reached an all time high of \$228,874, from 4,592 contributors.

John K. Fesler, St. Paul chairman of the fund's board of trustees, reported that gifts to the University through the fund passed the million dollar mark last year.

Since the fund was established seven years ago, 281 freshmen have been able to enroll at the University through Minnesota Alumni association scholarships made possible by gifts to the fund, Fesler reported. During this same period, 22 advanced-study fellowships have been made possible in 12 different areas of graduate work at the University, he added. In addition, 55 research and equipment projects have received allocations amounting to more than \$44,000 from unrestricted gifts. An annual survey of University-wide needs selects specific projects for this kind of support.

In addition to these unrestricted gifts, there are 132 different special projects which have received help from individuals and organizations through the fund. An individual or organization may direct and identify the purpose of a gift by earmarking it for a special project.

The Greater University Fund is sponsored by the Minnesota Alumni association and is directed by Robert P. Provost.

TO SPEAK AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- William O. Douglas, associate justice of the United States Supreme Court, will speak on "The Bill of Rights, Due Process and Federalism in India" at the University of Minnesota-Sidney Hillman lecture at 8 p.m. Wednesday (May 25) in Mayo Memorial auditorium on the campus. The lecture will be open to the public without charge.

Justice Douglas, who was named to the United States Supreme Court by President Franklin D. Roosevelt on March 20, 1939, is the author of "Strange Land and Friendly People", "Beyond the High Himalayas", "North from Malaya" and "Adventure on Five Fronts" as well as numerous law books and contributions to law journals.

At the University lecture, he plans to speak about the Indian constitution and decisions of the Indian supreme court.

The Sidney Hillman Foundation awarded the University a grant of \$1,000 last September to establish the lectures to be given by distinguished persons in public life.

Douglas is delivering the first lecture under the grant, and the second will be given in July by Carl T. Rowan, Minneapolis journalist.

The Sidney Hillman Foundation was set up through the initiative of the Amalgamated Clothing Workers of America to perpetuate the ideals of its founder and late president.

24 WILL RETIRE  
FROM 'U' IN JUNE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Twenty-four members of the University of Minnesota teaching staff will retire from their duties in June.

Of the group, Paul R. McMiller, professor of soils, has served the University for the longest period of time -- 44 years.

In close competition with him for years of service are Edward W. Davis, professor and former director of the mines experiment station, and Spencer B. Cleland, professor of agricultural extension, with 43 years each.

Six other professors have records of 40 years or more of service. They are: August C. Krey, professor of history, and William E. Morris, professor of agricultural extension with 42 years each; Gertrude I. Thomas, professor of dietetics, 41 years; and Alice Biester and Ethel L. Phelps, both professors of home economics, and Edwin J. Volden, assistant professor at the West Central School and Experiment Station, Morris, 40 years each.

Retiring with 30 or more years of service are: Dr. Henry P. Wagener, professor of ophthalmology, Mayo Foundation, and Ernest A. Heilman, professor of business administration, 35 years; Leo J. Brueckner, professor of education, and Henry A. Pflughoeft, district 4-H club supervisor and assistant professor of agricultural extension, 33 years; Blanche C. Kendall, associate professor of music, Alex B. Rolfe, instructor at the West Central School and Experiment Station, Morris, and Roland S. Vaile, professor of economics and marketing, all 32 years; and Dr. Luther Thompson, associate professor of bacteriology, Mayo Foundation, 30 years.

Other retiring staff members and their years of service are: Dr. Fred Z. Havens, associate professor of laryngology and rhinology, Mayo Foundation, 26 years; Victor L. Fixen, lecturer in civil engineering, 22 years; Charlotte Kirchner, associate professor of agricultural extension, and Mervin G. Neale, professor of education, both 20 years; Ina B. Rowe, extension nutritionist and assistant professor of agricultural extension, 19 years; Carlyle Campbell, assistant professor of agricultural extension, 12 years; and Joseph M. Pestarini, professor of electrical engineering, three years.

UNIVERSITY TO HOLD  
BACCALAUREATE RITES  
SUNDAY AFTERNOON

(FOR RELEASE THURSDAY, JUNE 2)

Minneapolis --- Approximately 2,426 graduating University of Minnesota students will hear the Rev. J. R. Perkins, pastor emeritus of the First Congregational church, Council Bluffs, Iowa, and author of four books and a play, at the university's annual baccalaureate service at 3 p.m. Sunday (June 5) in Northrop Memorial auditorium.

Title of the address will be "Towards an Ethical Society". During 55 years of ministry, the Rev. Perkins served churches in Fresno and San Francisco, Calif., as well as in Sioux City and Council Bluffs, Iowa.

During a break in his service to the church, he was warden of the Iowa state penitentiary at Fort Madison. Two of his novels, "The Emperor's Physician" and "Antioch Actress" were best sellers. He is now working on a novel with a Bible background.

Preceding the clergyman's talk, University President J. L. Morrill will speak to members of the senior class. The service will open with an invocation by the Rev. Donald MacIntosh, adviser to the Seventh Day Adventist students and staff members on the Minneapolis campus.

Edward Berryman, University music instructor, will play the organ processional and postlude. Soloist will be Contralto Joan C. Lindusky, senior.

The senior students, in their caps and gowns, will march in academic procession before the service. The parade will move up the mall into Northrop auditorium.

After the service, senior students will be guests of President and Mrs. Morrill at the annual senior reception on the lawn between the Center for Continuation Study and the Minnesota Museum of Natural History. In case of rain, the reception will be in the main ballroom of Coffman Memorial Union.

SUMMER STUDENTS AT 'U' TO STUDY  
FOREIGN TONGUES IN 'LANGUAGE HOUSES'

(FOR IMMEDIATE RELEASE)

Minneapolis --- French, Spanish and German will be spoken exclusively in three "language houses" at the University of Minnesota during the first summer session term from June 13 to July 16.

Students live in language houses during the five-week period, speaking only in the tongue they are studying to gain fluency in conversation and practical information about the culture from which the language stems.

Programs of the language houses---part of the University's Modern Language Institute program---will include practical oral drill sections and conversation classes, lectures, films, slides, round table discussions, singing and dancing. Activities in each house will be conducted in one of the foreign languages and will be directed at perfecting knowledge of the language as well as understanding the culture of the country in which it is spoken.

Sorority houses on the Minneapolis campus are being used this year for language house accommodations.

The language houses, which were incorporated into the Modern Language Institute at the University in 1950, have proved particularly popular with students planning to study abroad, teachers wanting to increase their understanding of foreign languages and with business and professional men who find the study of foreign languages both pleasurable and profitable relaxation, according to E. W. Ziebarth, dean of the summer session.

(MORE)

LANGUAGE HOUSES

- 2 -

The language program carries a maximum of 10 quarter credits per term for undergraduate students and nine quarter credits for graduate students.

Visits from foreign graduate students at the University are welcomed at the houses where they contribute to the program with general conversation and news about their home countries.

The institute this year is expanding its program to include new courses in French, German and Spanish for Travel. Classes will be conducted from 7 to 9 p.m. Mondays and Wednesdays at the various language houses. Included in these courses will be films, lectures and round table discussions which will increase general understanding of the languages.

A second new phase of the institute's summer program will be demonstration classes of elementary school children being taught French, Spanish and German by experienced and expert foreign language teachers.

MAHTOWA STUDENT  
WINS KING GUSTAV  
SCHOLARSHIP AT 'U'

(FOR IMMEDIATE RELEASE)

F. Willard Carlson, University of Minnesota veterinary medicine student from Mahtowa, was awarded the annual \$300 King Gustav scholarship at the All-University Congress recognition dinner Tuesday (May 31) in Coffman Memorial Union.

The National Hillel Foundation donates two scholarships annually--the King Gustav grant at Minnesota and the King Haakon grant at the University of Wisconsin--for individual contributions to interfaith and intergroup understanding on the campuses. They commemorate the courage and humanitarianism of the Kings of Norway and Sweden during World War II in sending all seaworthy craft for the rescue of thousands of Jewish people from Poland and sheltering them in Scandinavia.

Carlson was an honor student in the Barnum high school and has been an active leader in the Lutheran Student association on the St. Paul campus and has presented the group on the Student Council of Religions. He was chairman for Religion in Life Week on the St. Paul campus in 1954 and helped plan Brotherhood Week.

Presentation of the award to Carlson was made by Marcia Edwards, associate dean of the University's college of education.

NORWEGIAN BOOK  
EXHIBIT IN 'U'  
LIBRARY LOBBY

(FOR IMMEDIATE RELEASE)

An exhibit of 102 Norwegian books representative of the best contemporary Norwegian book design is being exhibited during June in the main lobby of the University of Minnesota Library.

The books, typically Norwegian in character and typographically and technically well-made are considered of great artistic merit. They were chosen by the Norwegian Committee for Book Arts.

Among them is a two-volume work of Sir Winston Churchill, "The Second World War", in its Norwegian translation.

The exhibit is open to the public from 8 a.m. to 10 p.m. Mondays through Fridays and from 8 a.m. to 5 p.m. Saturdays.

The exhibit was arranged at the suggestion of Lawrence S. Thompson, director of the Margaret I. King library, University of Kentucky, with the cooperation of the Norwegian committee. Supporting the project also was the Norwegian Ministry of Foreign Affairs Office for Cultural Relations, Oslo, and from the Royal Norwegian Embassy, Washington, D. C.

UNIVERSITY EXPEDITION TO SEARCH  
FOR REMAINS OF ANCIENT INDIANS

(FOR RELEASE THURSDAY, JUNE 9, 1955)

Minneapolis --- Lloyd A. Wilford, University of Minnesota anthropology professor, and five University students will leave Monday (June 13) on the anthropologist's annual search for cultural and skeletal remains of ancient farming and hunting Indians of Minnesota.

The expedition will begin its digging operations on the Ralph Bryan farm on the south bank of the Cannon river near Red Wing where last year the University anthropology party found several small house pits. The diggers plan to look for more of the pits which were part of a village of farming Indians believed to have dwelled there within the last 1000 years--known as the last pre-historic period.

Students in the group this year are: James Johnson, Crosby; Donald L. Boese, Forest Lake; Allen E. Anderson, 1912 Clinton avenue, South, Minneapolis; David W. Berkey, Hopkins; and Edward M. Mayo, Rochester. Mayo's brother, Charles, was a member of Wilford's 1954 expedition. All are either senior college or graduate students.

On the Bryan farm last summer, the anthropologist and his students found pits of three houses each of which was about eight feet wide and had a fireplace in the middle. One of the houses, Wilford reported, had burned, and the remainder of a charred grass-thatched roof was on the floor as well as some of the charred beams. Of special interest in it were the charred remains of two human trophy skulls. One of the skulls had been scalped. Both apparently had been resting on some object in the corner of the structure.

(MORE)

From their first site, the six men will go to Lake City where they will dig in mounds on the farm of Harry Bostrom near the Jewel nursery. Wilford believes that the mounds may be very old and fears there may not be anything of interest left.

They will go next to the Anton Nelson farm northwest of Slayton to work in the largest village of what Wilford calls the "Oasis People". The anthropology team plans to explore for the Oasis People's burial grounds.

In August, Wilford expects to be on the Beliveau farm three miles north of Henderson. He reports that hunting Indians lived near Henderson as well as near Lake City and Mora.

Tentatively scheduled also is digging at a village site on Fish lake near Mora.

The University crew will camp at Eggleston camping grounds near Red Wing, in the city park at Lake City and in the Valhalla resort on Lake Shetek at Mora.

NINE 'U' NIGHT  
SCHOOL STUDENTS  
TO GET DEGREES

(FOR IMMEDIATE RELEASE)

Burning midnight oil means more than a mere figure of speech or just cramming for another final examination to at least nine of the University of Minnesota's 2,426 candidates for degrees at the annual spring commencement exercises Saturday, June 11, in Memorial stadium.

The nine persons are candidates for bachelor of business administration degrees, and they have earned most of their credits toward graduation by attending the University's extension division night school classes.

Included among the nine graduates are eight men and one woman. Five of them are residents of Minneapolis and four of St. Paul.

The Minneapolis members of the group are: William H. Ziemer, 4175 Yosemite; Eugene E. Chulik, 3003 Rankin road; Evelyn R. Dahlstrom, 5632 Newton avenue South; John C. Jenkins, Jr., 11317 West Park Ridge drive; and Elvin O. Waldof, 2542 Colfax avenue South.

The St. Paulites are: George D. Jeddloh, 175 Vernon street; Harold J. Johnson, 639 Kingston street; Kenneth L. Wandke, 1181 Colette Place; and William R. Spangler, 1560 East Nebraska.

'LINAC', WORLD'S MOST POWERFUL  
STRAIGHT-LINE ATOM SMASHER,  
NEARS COMPLETION AT MINNESOTA 'U'

(FOR RELEASE 7 P.M. CST TUESDAY, JUNE 7, 1955)

Minneapolis --- The World's most powerful straight-line "atom smasher", which will open a whole new field of nuclear exploration to atomic scientists, is nearing completion at the University of Minnesota.

Design and construction of the proton linear accelerator, technical name for the machine, have been underway since 1949 under an Atomic Energy Commission contract totaling more than \$1,800,000.

Scientists now are able to use the big "linac", as it has been nicknamed by its designers, at energy levels of 10 and 40 million electron volts, its first two energy stages, according to John H. Williams, University physics professor who heads up the project. Before the end of the year, he predicts, all three stages of the linac will be completed allowing operation of the device at the maximum energy for which it was designed---68 million electron volts.

"The University of Minnesota proton linear accelerator provides a unique tool with which to investigate the nuclei of atoms," Professor Williams stated. "The energy region now opened up, 40 and 68 million electron volts, is relatively unexplored since no other machines now exist in this energy region. (Much higher and much lower energies are now in use).

"We can anticipate that experiments which will be done at Minnesota will contribute much to the understanding of the cohesive forces between the particles within a nucleus and so help to solve the fundamental problem of understanding the nature of matter."

(MORE)

The new research device, housed in a specially-engineered one-story building on a rock ledge of the Mississippi river bank in Minneapolis (just east of the Tenth avenue bridge), accelerates hydrogen positive ions---atoms of hydrogen stripped of their electrons--- to very high speeds, Professor Williams explained. Researchers use these speeding ions to disintegrate and interact with the nuclei (cores) of other atoms, he added, in an attempt to determine what holds those nuclei together.

Generally resembling a huge cannon with a water-cooled barrel 100 feet long and about four feet diameter enclosed in heavy steel vacuum tanks, the linac will blast its ion bullets into a target of nuclei at a speed of about 60,000 miles-per-second---one third the velocity of light.

Ions are fed into the "loading" end of the machine by an initial "gun" which gives them a starting energy boost of 500,000 electron volts. A half-million-volt atom smasher in its own right, this starting gun draws its power from an electrical transformer.

An ion, an atom from which the electrons have been removed, has a net positive electrical charge, Professor Williams explained. It is this positive electrical charge of the ion which makes it possible to apply force to the particle by means of an electrical field thus speeding up the rate at which the ion travels.

After being shot into the barrel of the linac by the starter gun, the ions, traveling in a line of copper sleeves suspended in the center of the barrel, pass through a series of three resonant cavities or chambers--- the first 20 feet in length and the second and third each 40 feet long. These chambers make up the main body of the linac and are about four feet in diameter.

As they pass through these cavities or chambers, the ion missiles or bullets pick up about 750,000 electron volts of electrical energy per foot of travel, continually gaining in speed as their energy is increased.

(MORE)

High-frequency resonatron amplifiers furnish the power which energize the ions on their lightning-like trip through the linac (.0000006 or 1/1,584,000 of a second at an average overall speed of 30,000 miles-per-second). These amplifiers, which actually are giant electronic vacuum tubes similar to radio tubes, are  $15\frac{1}{2}$  feet high and four feet in diameter. Each tube has a plate voltage of 75,000 volts and a filament current of 8,000 amperes.

Kicked from a virtual standstill to a speed of some 60,000 miles-per-second in the relatively short travel of 100 feet through the linac, the ion bullets are shot from the muzzle of the machine at targets composed of the atoms which the scientists wish to study.

Target atoms are held captive in a vacuum container placed in front of the linac's muzzle. The speed of the ion missiles cracks open the nuclei of the targets with a disintegrating effect allowing the scientists to learn more about the inner secrets of atoms.

Using intricate instruments, physicists measure the results of the high-speed bombardment by observing the paths traced by shattered target nuclei and by the ion bullets as they bounce off target nuclei which they fail to smash.

Data collected by scientists using the linac is computed and analyzed in a two-story associated laboratory building erected on a river ledge just below the building which houses the machine.

- UNS -

(NOTE: To reach the LINAC building, drive on University Ave., S.E., to Sixth Ave., S.E., then south on Sixth Ave., S.E., to the road paralleling the Mississippi river, then east, under the Tenth Ave. bridge to the associated laboratory building. The road makes a sharp left turn just beyond the laboratory building and ends at the LINAC building).

PURDUE HONORS  
'MR. TACONITE',  
PROF. E. W. DAVIS

(FOR IMMEDIATE RELEASE)

Minneapolis --- The Honorary degree of doctor of engineering was conferred on Professor Edward W. Davis of the University of Minnesota's mines experiment station Sunday (June 5) by Purdue university, Lafayette, Ind.

Professor Davis---familiarily known in Minnesota as "Mr. Taconite"--- will retire from the University of Minnesota June 15, after 43 years on the faculty. The former director of the University's mines experiment station has led the way in developing processes required for converting tough taconite rock into useful commercial ore.

President Frederick L. Hovde of Purdue, a University of Minnesota alumnus, conferred the honorary degree on Professor Davis, a Purdue alumnus, at commencement exercises in Lafayette, Ind., Sunday afternoon.

Following his retirement, Professor Davis will move to Silver Bay, Minn., where he is building a new home on a rocky hillside overlooking Reserve Mining company's vast new taconite processing plant---named the E. W. Davis Works in his honor.

'EVENING OF MAGIC'  
TO OPEN SUMMER  
'U' ENTERTAINMENT

(FOR IMMEDIATE RELEASE)

Magician Paul Fleming and his company will present "An Evening of Magic" at the opening University of Minnesota summer session entertainment program at 8 p.m. Thursday, June 16, in Northrop Memorial auditorium.

In addition to being a magician, Fleming is a professor of economics at the University of Pennsylvania during the winter. He appears during the summer months in programs of magic.

The magician-professor teaches in lecture halls about such subjects as finance, trade-unionism and international trade and is the author of several books on economics. But when he puts aside the chores of the classroom, Fleming sallies forth to entertain with feats of legerdemain, mind-reading and stage illusions.

Fleming graduated in 1917 from Swarthmore college with highest honors and as a member of both Phi Beta Kappa and Delta Sigma Rho, national Forensic fraternity. Since then, he has received his doctor of philosophy degree at the University of Pennsylvania where he is now an economics professor.

The magic program, open to the public without charge, is being sponsored by the University of Minnesota's summer session and presented under the direction of the department of concerts and lectures.

AMERICAN CHEMICAL  
SOCIETY FUNCTIONS  
SCHEDULED AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota will be host to two important American Chemical society functions during the next few months.

First ACS function will be the second institute for college and high school chemistry teachers opening Monday (June 13) and continuing until July 16. The second is the 128th National American Chemical society meeting which is scheduled September 11-16.

The institute is one of three sectional sessions being conducted--the North Central at Minnesota, the Southern at Fisk university, Nashville, Tenn., and the Eastern at Syracuse university, Syracuse, N. Y.

Aim of the institutes is to teach modern theories and practices in the various fields of chemistry and to develop such material for incorporation into the college chemistry curricula. A continuous series of lectures will be presented in general and inorganic chemistry.

Director of the institute is Robert C. Brasted, associate professor of chemistry at the University of Minnesota.

Plans are underway for the National ACS meeting, and the final program is expected to be available in August.

RED WING GIRL,  
ST. PAUL BOY  
GET 'U' GRANTS

(FOR IMMEDIATE RELEASE)

Minneapolis --- A Red Wing girl and a St. Paul boy have been named winners of the \$500 George W. Lawson scholarship and the \$500 Minnesota State Federation of Labor scholarship at the University of Minnesota, according to George B. Risty, director of the bureau of student loans and scholarships.

The George W. Lawson scholarship, named in honor of Regent Lawson who is also secretary emeritus of the Minnesota State Federation of Labor, has been awarded to Margaret Ann Eide. She is graduating this spring from Red Wing Central high school and plans to enroll in the College of Science, Literature and the Arts at the University next fall.

Miss Eide is the daughter of Bernard H. Eide, rural route 2, Red Wing. He is a member of Local 2083 Carpenters Union.

Bradley Eugene Bruber is the Federation of Labor grant winner. He is graduating from Monroe high school this spring and plans to study chemical engineering at the University.

Bradley is the son of Wallace E. Bruber, 1239 Scheffer street, St. Paul. He is a member of Local 87, Carpenters Union.

Given honorable mention by the Federation of Labor, sponsor of the two scholarships which are awarded on the basis of excellent high school records, future promise and quality of essay entries are: Beverly Mae Andersen, 4303 Morningside road, Edina; Jeannine Louise Cloutier, 6128 Xerxes, Edina; Marion Dorothy Corens, 1108 South Sunset drive, Wayzata; Renee Kathleen Rasmussen, 790 Pleasant, St. Paul; and Jacqueline Arline Stevensen, 1172 Fauquier avenue, St. Paul.

SUMMER SESSION  
TO OPEN MONDAY  
AT MINNESOTA 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- More than 1,200 courses will be offered at the University of Minnesota's 1955 Summer Session which will open Monday (June 13).

The first Summer Session term will begin June 13 and continue until July 16, and the second five-week term will begin July 18 and end August 20.

Included on the faculty list for the two terms is a list of approximately 50 visiting professors from all parts of the United States. Included are such educators as: Virgil Barker, University of Miami art professor; Adrienne Koch, University of California at Berkeley political science lecturer; Weston LaBarre, Duke university associate professor of anthropology; Eugene Mather, University of Georgia associate professor of geography and geology; Lawrence Thompson, Princeton university English professor; and Ray West, State University of Iowa associate professor of English.

Special programs being offered this summer, according to E. W. Ziebarth, dean of the Summer Session, include such diverse subjects as audiology, interdisciplinary statistics, language training of the deaf and problems of the mentally retarded child.

Presented under the auspices of the Summer Session is a travel course in European art being conducted by the University's department of art. Enrollees will visit Paris, Avignon, Nimes, Genoa, Pisa, Rome, Florence, Siena, Venice, Salzburg, Munich, Rothenburg, Speyer, Wiesbaden, Cologne and Amsterdam.

At Lake Itasca Forestry and Biological Station, the University is offering an institute during the first term for high school and college biology teachers.

U OF M PROFESSOR  
WILL TOUR WORLD  
ON BOOK SEARCH

(FOR IMMEDIATE RELEASE)

A University professor has planned an around-the-world treasure hunt for children's books. The search will extend to such far away countries as Java, India, Lebanon, Turkey and Greece.

The search will be the main effort of a year's sabbatical leave for Professor Dora V. Smith of the University's college of education. She and her sister, Jean B. Smith, will leave Tuesday for the Hawaiian Islands where the professor will teach during the first six-week summer term at the University of Hawaii in Honolulu.

They plan to leave September 1 for the Orient and the Near East where they will visit all of the major countries in search of children's books about life in those countries today. Professor Smith will be looking for books which, if translated into English, would be useful to American children.

"We know the fairy tales and beast fables of these lands," the education professor explained, "but have few stories of how the children live and feel and think today. We do not want our boys and girls to have the notion, for example, that the children of India still help to kill giants or go out on errands of magic in company with the genii".

The two Minneapolis sisters will have reunions with former Minnesota students now in Tokyo, Manila, Bangkok, Delhi, Calcutta, Cairo and Lahore. They plan to spend Christmas in Bethlehem.

After a month each in Italy and Spain and two months in Great Britain they will return to the University for the summer term of 1956.

U OF M THEATRE  
TO STAGE FOUR  
SUMMER PLAYS

(FOR IMMEDIATE RELEASE)

Four plays will be presented during the University of Minnesota Theatre's summer season.

Two plays from the past season will be presented, a third will be given by high school students studying during the University's summer session and the fourth will be a play chosen for the touring theater company next season.

Shakespeare's "Othello" will open the season June 15-18 under the direction of Frank M. Whiting, professor of speech and theater arts.

A cast of students in the high school theater workshop will perform "The Admirable Crichton" July 6-9.

Robert D. Moulton, instructor of speech and theater arts, is directing "My Three Angels" by Sam and Bella Spewack which will tour the area during January, February and March. Its summer presentation dates will be July 20-23.

Fourth and last play of the summer season will be Ibsen's "Hedda Gabler" which will be staged August 10-13 under the direction of Kenneth L. Graham, associate professor of speech and theater arts.

All performances will begin at 8:30 p.m. in the Scott hall auditorium on the Minneapolis campus. Tickets for the season are \$2.50. Individual tickets are \$1.20. Tickets are available at the Scott hall box office, the Downtown Ticket Office in Minneapolis or at Field-Schlick, St. Paul.

*With Commencement  
Program -*

'U' TO GRADUATE  
330 THURSDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota will award degrees to approximately 330 students at commencement exercises at 8 p.m., Thursday (July 14) in Northrop Memorial auditorium. The program will close the first summer session.

Among candidates for degrees are \_\_\_\_\_  
(Editors: Please insert names of

\_\_\_\_\_ students from your town checked with red pencil in the enclosed program.)

Dr. Victor Johnson, director of the Mayo Foundation at Rochester, will deliver the main address. Title of his talk will be "Three Beginnings, Founded in the Faith". Rabbi Louis Milgrom, director of the Hillel Foundation, will give the invocation.

Malcolm M. Willey, University vice president in charge of academic administration, will preside and will confer the degrees. E. W. Ziebarth, dean of the Summer Session, will introduce the deans of the various colleges who will present their candidates for degrees.

SPECIAL TO:

(FOR IMMEDIATE RELEASE)

\_\_\_\_\_, teacher of \_\_\_\_\_  
\_\_\_\_\_ at \_\_\_\_\_

has been awarded a \$300 stipend to attend a University of Minnesota institute for high school biology teachers June 13 to July 16 at the Lake Itasca Forestry and Biological Station.

The stipends, made available through the Louis W. and Maud Hill Family Foundation of Minnesota, were awarded to 20 teachers chosen on the basis of their present teaching program, aptitudes as indicated by scholastic records and teaching ability and interest in teaching biology in the broadest sense.

The institute is planned to give high school teachers experience and training in field and laboratory biology under the direction and leadership of staff members of the biology station.

RETIRED 'U' PROFESSOR  
TO LECTURE ON  
"INDIA REVISITED"

(FOR IMMEDIATE RELEASE)

Professor Emeritus George P. Conger, former chairman of the University of Minnesota department of philosophy, will give a University lecture on "India Revisited, 1955" at 8 p.m. Thursday, July 21, in the Minnesota Museum of Natural History auditorium.

Professor Conger recently returned from his third visit to India where he lectured on comparative religion at the Calcutta university.

On his first visit, Professor Conger was a guest of Mahatma Gandhi and other Indian leaders. His second trip was overland from Beirut, on the Mediterranean through the intervening countries--including Afghanistan--to Peshawar, in Pakistan. He was a delegate to the Silver Jubilee Session of the Indian Philosophical Congress.

Professor Conger spent a day on his recent trip with Vinoba Bhave, disciple of Gandhi, and observed the "land-gift" movement which he reports is making great progress in India.

Conger, whose lecture will be open to the public without charge, was a member of the University faculty from 1920 until his retirement in 1940.

The lecture, which will be open to the public without charge, is being sponsored by the University's Summer Session Entertainment under the direction of the department of concerts and lectures.

HYLTON A. THOMAS,  
'U' ART PROFESSOR,  
GETS GRANT TO ITALY

(FOR IMMEDIATE RELEASE)

Hylton A. Thomas, University of Minnesota assistant professor of art, has been awarded a Fulbright scholarship to conduct research in fine arts during the academic year of 1955-56 at the University of Padua, Padua, Italy.

The scholarship is one of approximately 400 grants for lecturing and research abroad for the year. Funds used for carrying out the program under the Fulbright Act are foreign currencies realized through surplus property sales abroad.

JUNE 14, 1955

(FOR RELEASE SUNDAY, JUNE 19)

Violinist Arthur Polson, 20-year-old Canadian virtuoso, will be the guest artist at the first concert of the University of Minnesota Summer Session symphony orchestra at 8 p.m. Tuesday (June 21) in Northrop Memorial auditorium.

Conducting the orchestral program, which will be open to the public without charge, will be Robert Andersen, member of the Minneapolis Symphony orchestra who also conducted the Summer Session symphony twice last year as well as the Minneapolis Pops orchestra and the Civic Opera association. He heads the Robert Andersen Ensemble which will tour the area in October.

Polson, a native of Vancouver, British Columbia, will be making his first appearance with an orchestra in the United States. He is, however, a soloist regularly as a member of the Vancouver Symphony and on the Canadian Broadcasting company stations.

Last year the young violinist received the highest mark--95--ever given in the 32 years of the British Columbia Music Festival and has won the John Charles Thomas scholarship, the B. C. Women's Music club scholarship, the Sir Ernest MacMillan scholarship and the Challenge Silver cup for violin concertos.

At the University concert, Polson will appear twice with the orchestra. During the first more classical half of the program, he will play the Beethoven Romance, for violin and orchestra.

After intermission, he will play "Suite for Violin and Orchestra" by Christian Sinding. The suite seldom is heard with orchestra in either the United States or in Norway. Jascha Heifetz features the work in his repertoire, but it is most often used as a recital work. It is a romantic virtuoso composition which demands much from the performer.

'U' GETS RESEARCH  
GRANTS OF \$238,593  
FROM PUBLIC HEALTH SERVICE

(FOR IMMEDIATE RELEASE)

Twenty-one research projects at the University of Minnesota have been recommended for payments of Public Health Service research grant awards totaling \$238,593 by the National Advisory Councils, according to the chief of the division of research grants, National Institutes of Health.

Similar grants totaling \$322,106 were assigned to the University in January of this year for 29 other projects.

The new list of grant projects, persons in charge of each and the amount for each are as follows:

Vitamin B12 and iron absorption, Dr. William D. Kelly, clinical instructor of surgery, \$7,729.

Etiology of postgastrectomy anemia, Dr. Claude E. Hitchcock, director of the Cancer Detection Center, \$12,157.

Guanido compound metabolism in muscular dystrophy, John F. Van Pilsum, assistant professor of physiological chemistry, \$5,400.

Permeability of the blood brain barrier, Dr. Lyle A. French, associate professor of neurosurgery, \$14,132.

Inhibitors of acetylaminofluorene carcinogenesis, Dr. Helmut R. Gutmann, assistant professor of physiological chemistry, \$6,696.

Influence of antibiotics on intestinal microorganisms, Karl R. Johansson, assistant professor of bacteriology and immunology, \$6,400.

Survival of bacteria within plankton organisms, Theodore A. Olson, associate professor of public health, \$7,500.

Alteration of immunologic response to homografts, Dr. Richard L. Varco, professor of surgery, \$8,647.

(MORE)

Cardiovascular aging of population groups, Dr. Ancel Keys, director of the Laboratory of Physiological Hygiene, \$28,291.

Three-dimensional electrocardiography, Otto H. Schmitt, professor of zoology and physics, \$18,463.

Chronic experimental heart failure, Dr. Ivan D. Baronofsky, associate professor of surgery, \$9,217.

Cholesterol metabolism in relation to arteriosclerosis, Dr. Ivan D. Frantz, George S. Clark resident professor of medicine, \$11,545.

Quantitative histochemistry of the vascular system, David Glick, professor of physiological chemistry, \$22,896.

Cerebral and peripheral circulation, Dr. Ernst Simonson, associate professor in the Laboratory of Physiological Hygiene, \$5,643.

Fluid and electrolyte balance in the newborn, Dr. Eleanor Colle, pediatrics instructor, and Dr. Elsa C. Proehl, intern, \$6,639.

Interactions of intercellular enzyme systems, Dr. Richard W. Von Korff, resident associate of pediatrics, \$7,000.

Immunological mechanisms for rheumatic fever, Dr. Robert A. Good, American Legion Heart professor, \$20,000.

Bacterial endotoxins and diffuse vascular disease, Dr. Richard T. Smith, resident fellow in pediatrics, \$11,023.

Movement of water and ions during absorption, Eugene Grim, assistant professor of physiology, \$6,488.

Tubular transport in the mesonephric kidney, Robert E. Swanson, physiology instructor, \$5,320.

Intracellular bacteroids of cockroaches, A. Glenn Richards, entomology and economic zoology professor, \$9,907.

71 MINNESOTA SENIORS  
WIN SCHOLARSHIPS FOR  
1955-56 AT UNIVERSITY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Seventy-one Minnesota high school seniors have been named recipients of four different University of Minnesota scholarships for 1955-56, according to George B. Risty, director of the University's bureau of student loans and scholarships.

The various grants and number of recipients of each are: 59 winners of the Josephine L. Merriam scholarships of \$225 each (the grant carries a bonus payment of \$25 for each quarter that a student earns a "B" average or better during his freshman year); five Edward Everett Davidson Memorial scholarships of \$300 each; three Margaret Houlton Kendall scholarships of varying amounts and four General Motors scholarships which are renewable and of varying amounts.

Winners of the Merriam scholarship are as follows:

From Minneapolis: Conrad Villella, 3932 Cedar Ave. South; Richard Reid, 2104 Fremont South; John Gmitro, 3425 46th Ave. South; Darryl Terho, 3103 Findley Place; Robert Forstrom, 4209 23rd Ave. South; Robert Steele, 5144 Drew Ave. South; Richard Carsberg, 4420 47th Ave. South; <sup>and</sup> Charles Haight, 1108 27th Ave. North.

St. Paul: Roger Ellison, 856 James Ave.; Donald M. Youngdahl, 2530 Highway 61; Michale Steele, 1003 Western Ave.; Jerome Gertz, 198 State St.; John P. Holmgren, 1415 James Ave.; and Donald Hempel, 255 St. Laurence St.

From Duluth: Brian O'Connor, 115 East 3rd St.; Donald Langlee, route 2; Brian Erikson, 1723 Hutchinson Road; and James Banovetz, 1127 N. Central Ave.

From elsewhere: Raymond Seeley, 331 Buchanan, Red Wing; Richard O. Meyer, Cannon Falls; Wilson Robinson, Jr., 1609 Masseur St., Albert Lea; Robert O. Bodine, 522½ S. Minnesota St., New Ulm; Rodney Tibbets, 413 E. Broadway, Redwood Falls; William Delehanty, Montgomery; Robert Mittelsladt, 322 East First St., Blue Earth; Henry Hoken, 177 10th St., Windom; Daniel Schweikert, Okabena; and Elwin Crandall, 620 W. Main, Pipestone.

(MORE)

FRESHMAN SCHOLARSHIPS

- 2 -

Allen Hoversten, Lynd; James Ornberg, Willmar; Forest Honebrink, 620 West 16th St., Willmar; Stanley Hille, Spicer; Robert Flaig, 217 5th Ave. West, Alexandria; Dennis Sigloh, 432 Stephens Ave., Ortonville; Bruce Taber, 509 $\frac{1}{2}$  3rd St., Sauk Center; David Stewart, Anoka; John Selberg, Braham; and David J. Larson, Woodale Park, Anoka.

Kenneth Schultz, Pelican Rapids; Byron Oistad, Karlstad; Roger Akre, 1003 S.W. 4th St., Grand Rapids; James Rengo, Floodwood; Frank Swanson, Rosemount; Leslie Waldow, Salem Road, South St. Paul; Conrad Schroeder, 415 W. 4th St., Hastings; Erwin Jacobson, Moose Lake; Richard Reem, Aitkin; and Marvin Kempf, Wright.

William DeLaittre, 5918 W. 35th St., St. Louis Park; Eric Carlson, Long Lake; Thomas W. Hughes, 3641 Quail Ave., Robbinsdale; William Schmid, Excelsior; William A. Sower, 323 4th St., White Bear Lake; David L. Stein, Gatzke; and Robert W. Sundgaard, 139 18th Ave., North St. Paul.

Lennart Lekstrom, 312 5th Ave., Ironton; Rodger Millsop, Crosby Beach, Deerwood; Gerlad Pattison, Staples; and Robert Rucker, 5920 Hansen Road, Edina.

Recipients of the Davidson scholarship are: Jared Smalley, 205 $\frac{1}{2}$  East Minnesota, Glenwood; Ronald Baker, Pine City; Neal Vanstrom, Aitkin; James Lehet, Moose Lake; and Louis J. Esterby, 10717 9th Ave. North, Minneapolis.

The Kendall scholarship winners and amounts of each are: Gwendolyn Drewianka, Red Wing, \$275; Darlene Theisen, 207 North Holcombe, Litchfield, \$260; and Marion Hanson, Gheen, \$300.

Winners of the renewable General Motors scholarships, amounts of which vary, are: Shirley Hagberg, 230 N.E. 2nd St., Faribault; Clara I. Wagner, 604 5th Ave., Pipestone; Vincent Iverson, 146 N. Lakeshore Drive, Glenwood; and Sharon Malstrom, Elk River.

'U' MECHANICAL  
ENGINEERING GETS  
\$30,000 EXHIBIT

(FOR IMMEDIATE RELEASE)

Mechanical engineering students at the University of Minnesota now have a new visual exhibit which will help them more easily understand the actual operation of a modern truck engine.

The exhibit--a cutaway truck engine and transmission and a heavy duty three-speed transmission--has been permanently consigned to the University by the Chevrolet Motors corporation, and it was put into operation this week on the fourth floor of the mechanical engineering building in the internal combustion engineering laboratory.

The two-unit display, valued at \$30,000, has been a part of the Chevrolet Great Lakes Regional Featurama Exhibit. It has been seen by over one-half million persons in 1955.

The units are glass enclosed, chrome plated and operated electrically. They show working parts of the engine in actual operation.

In behalf of the University, Thomas E. Murphy, associate professor of mechanical engineering, stated that "The University is extremely pleased to receive this consignment in the interest of furthering student studies and visual education". It will be used for study not only by senior mechanical engineering students but also for students in the University's Extension night school course, "Automotive Engines--Operation and Maintenance".

The exhibit was officially turned over to the University by D. G. Emmert of the Chevrolet Minneapolis Zone office, and he read the following statement from a telegram from T. H. Keating, general manager of Chevrolet Motor Division: "Chevrolet is proud to be able to make a contribution to the educational facilities of an institution that has achieved the stature of the University of Minnesota".

'U' GEOGRAPHY HEAD  
NAMED DEAN OF  
KANSAS ARTS COLLEGE

(FOR RELEASE SUNDAY, JUNE 19)

Professor John C. Weaver, member of the University of Minnesota staff for nine years and head of its department of geography, has been named dean of the Kansas State College school of arts and sciences at Manhattan, Kans.

Weaver's appointment was announced Saturday (June 18) by President James A. McCain after approval by the Kansas State Board of Regents.

In order to accept the new appointment, Weaver--who will take up his new duties in September--had to resign an appointment to serve as visiting lecturer at the University of London for the coming academic year. He also canceled scheduled lectures at universities in Scandinavia and elsewhere in Europe.

Professor Weaver joined the University's geography department staff in 1946. He gained the rank of professor in 1948 and later assumed chairmanship of the department. In recent years he has served-- and is now serving--as expert consultant to the Committee on Geography and Geophysics of the Research and Development Board of the National Military Establishment, Washington, D.C.; member and chairman of the National Research Council committee on Geography, Advisor to the Office of Naval Research, Washington, D. C., as well as on many other committees of national and international importance.

Weaver was cited recently by the Association of American Geographers for "meritorious contribution" for his study of crop combinations in the Middle West.

'U' PROF. TO PRESENT  
PAPER AT ENGINEERING  
EDUCATION MEETING

(FOR IMMEDIATE RELEASE)

Herbert S. Isbin, University of Minnesota associate professor of chemical engineering, will present a paper on "Unclassified Research in Nuclear Engineering" at the 63rd annual meeting of the American Society for Engineering Education which is scheduled for June 20-24 at the Pennsylvania State university.

Over 200 separate papers, symposia and discussions are scheduled for the meeting, which is expected to be the largest in the ASEE's history.

Professor Isbin will present his talk at a conference of the Atomic Energy Education division.

(FOR IMMEDIATE RELEASE)

Earl Spicer, New York baritone and singer of ballads, will present a University of Minnesota Summer Session program at 8 p.m. Thursday (June 23) in the Museum of Natural History auditorium.

Spicer, whose program will be open to the public without charge, is returning to the University for the fifth time.

He was born in England and as a boy sang in a little church choir. At college he found time to study voice, piano, organ as well as sing in the glee club, college quartet and play the bass viol in the orchestra. Later he studied in London and New York.

While a student in London, Spicer became interested in ballads and folk-songs and made a collection as a hobby. His hobby became his profession, even though he is a thoroughly trained concert singer who has sung Bach, Handel, Mozart as guest soloist under such conductors as Sir Henry Wood, Sir Adrian Boult, Fritz Reiner, Albert Stoessel, Alfred Greenfield, Clarence Dickinson and Donald Voorhees.

His program will be as follows:

Traditional English Ballads

The Rich Old Woman  
The Golden Vanity  
The Ardent Fisherman  
Barbara Allen  
Lord Randel  
Because I Were Shy

arranged by Earle Spicer

Shakespeare and Gilbert and Sullivan

Willow, O, Willow (Othello)  
Caliban's Song (The Tempest)  
The Nightmare Song (Iolanthe)  
When I Was a Lad (H. M. S. Pinafore)

Morley  
Smith  
Sullivan  
Sullivan

American Ballads and Folk Songs

The Little Mawhee  
The Quaker's Courtship  
The Erie Canal  
The Lane County Bachelor  
John Henry

Arranged by Earl Spicer

PIANO DUETTISTS  
TO PRESENT CONCERT  
AT 'U' TUESDAY

(FOR RELEASE SUNDAY, JUNE 26, 1955)

Levin and McGraw, piano duettists, will present the University of Minnesota's Summer Session entertainment at 8 p.m. Tuesday (June 28) in Northrop Memorial auditorium.

The duettists, Monroe Levin and Cameron McGraw, will present a concert of music for four hands at one piano. The team is the only one of its kind appearing regularly and professionally.

They began playing together for their own amusement when they were on the music staff at Cornell university in Ithaca, N. Y. To provide such amusement they turned to the wealth of neglected material in the literature for four hands at one piano, rather than the limited repertoire for two pianos.

Levin and McGraw recognized the possibilities of unique concert fare in the music and offered a first recital at Cornell. It was an immediate success. In 1952 they premiered the "Sonata for Piano Four-Hands", written for them by Robert Palmer, and launched a concert career.

McGraw is a graduate of Middlebury college, has taught at Middlebury, at Potsdam State Teachers college and at Cornell. He has been a soloist on tour with the Vermont State Symphony and the Potsdam State Symphony and was composer, accompanist and music director for the Halprin-Lathrop Dance Theater in San Francisco

Levin studied at the Philadelphia Conservatory, Cornell and in France and Italy on a Fulbright scholarship. He has taught at Cornell, and his compositions include "Concertino for Piano and Strings" and "First Piano Sonata".

(MORE)

Their program will be as follows:

- |                                           |                  |

\$1,000 SEVAREID  
GRANT OFFERED FOR  
'U' GRADUATE STUDY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Announcement of a \$1,000 Eric Sevareid scholarship for graduate study in the University of Minnesota's school of journalism by a student planning a career in radio-television journalism was announced today (June 22) by Ralph D. Casey, director of the journalism school.

Sevareid, chief Washington correspondent for the Columbia Broadcasting System, gave the school his \$1,000 prize as winner of the Alfred I. duPont award for distinguished news commentary. He is a former journalism student and a 1935 graduate of the University.

Professor Casey said the scholarship will be granted for the 1955-56 academic year to a person now engaged in radio or television news work, or to one who intends to enter the field following his year of graduate study.

Candidates for the award must meet the entrance requirements of the University's graduate school, Professor Casey explained. The scholarship holder will carry out a program of graduate study in journalism and the supporting social sciences.

Applications for the Sevareid scholarship can be made to Professor Casey, School of Journalism, University of Minnesota, Minneapolis 14.

29 'U' ROTC  
CADETS NAMED FOR  
SPECIAL HONORS

(FOR IMMEDIATE RELEASE)

Minneapolis --- A group of 14 first year basic Army ROTC students at the University of Minnesota have been named winners of the Minute-Man Medal for the school year 1954-55, and an additional 15 cadets have been designated as Distinguished Military Students for the same year, according to Colonel Robert T. Connor, University professor of military science and tactics.

The Minute-Man awards are presented by the National Society of the Sons of the American Revolution through the courtesy of Colonel J. B. Ladd, United States Army Reserve, the donor.

Included among qualification required for a Minute-Man is deserving the "Ten Commandments of Good Citizenship" designation.

Minute-Man winners are:

From Minneapolis: Willmar K. Boeder, 5325 Bloomington Ave.; Harvey L. Clark, 3844 Thomas Ave., South; Neale C. Haskell, 1231 Penn Ave., North; Gerald M. Martin, 5213 44th Ave., South; Gary C. Nordland, 4010 27th Ave., South; and John W. Schiefelbein, 100 North Westwood Drive.

Others are: William J. Boughton and John B. Flathe, Winona; Edward D. Beck, Pequot Lake; Richard M. Borstad and Roger M. Martin of Detroit Lakes; Ross E. Judkins, North St. Paul; John G. Nelson, Willmar; and Burl A. Zorn, St. Louis Park.

To be named a Distinguished Military Student at the University, a ROTC cadet must possess outstanding qualities of leadership, high moral character and definite aptitude for military service in addition to being in the upper half of his class academically.

(MORE)

ROTC CADETS

- 2 -

The Distinguished Military Students are also expected to demonstrate leadership ability. The students named are as follows:

From Minneapolis: Arlo L. Danielson, 2311 23rd Ave., South; Dean N. Lloyd, 6524 Minnetonka Blvd.; and Ramon L. Stave, 513 4th St., S.E.

From St. Paul: Walter Anastas, 569 Smith Ave., South; Richard T. Firtko, 678 Hall Ave.; Russell J. McNaughton, 423 S. Saratoga; Paul A. Seaburg, 1883 West County Road drive; and Philip G. Snyder, 1599 Grantham.

From elsewhere: Thomas E. Dinndorf, Albany; John M. Grieg, Estherville, Iowa; Dennis J. Heiland and Richard D. Huseeth of Hopkins; Harold J. Lamon, Jr., Austin; David E. Olson, Hayward, Wis.; and Ronald S. Schreiber, Kansas City, Mo.

'U' FTA CHAPTER  
WINS NATIONAL  
NEA CITATION

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota Future Teachers of America chapter has been named Banner Chapter for 1954-55, according to Wilda Freeborn Faust, national FTA secretary.

The Banner Chapter award is a National Education association citation, and it will be presented at the National FTA notables dinner Sunday, July 3, in the Congress hotel, Chicago.

One college or university chapter is chosen annually for the award which is presented on the basis of nine different attributes, among which are growth, distribution of membership, projects undertaken, general efficiency and leadership.

Accepting the award for the University chapter will be LouAnn Restad, home economics education senior of Pelican Rapids, who recently was elected president of the Minnesota State FTA organization. She is a member of the University chapter.

President of the University chapter during the past year, when the citation was earned, was Joan Schmidt, elementary education senior of 2865 North Hamline, St. Paul. The newly elected president is Mrs. Richard Carlson, core curriculum senior of 3003 Penn Ave. North, Minneapolis. Faculty sponsors are Paul R. Grim, education professor; and Ella J. Rose, home economics education professor.

Representing the University's college of education faculty at the national banquet will be Gordon M.A. Mork, associate professor of general education.

FORMER ST. PAUL MAN  
GETS MIT DEGREE, WINS  
HONORS, SCHOLARSHIP

(FOR IMMEDIATE RELEASE)

Harvey Sheeley Hoshour of Albuquerque, N. M., and formerly of St. Paul, has been awarded the Rotch architectural prize at Massachusetts Institute of Technology as well as a Fulbright scholarship to study architecture in Italy for a year.

Hoshour, a graduate of the St. Paul academy, received his degree in architecture from MIT this month. He is the son of Mrs. Harvey Hoshour, Albuquerque. His late father was a former University of Minnesota law professor and St. Paul attorney.

The young architect will leave in September for Italy where his mother plans to visit with him next winter.

The late Harvey Hoshour and his family left St. Paul about five years ago when he accepted a position on the law faculty of the University of New Mexico. He died about two years after leaving Minnesota.

'IF CHRIST RETURNED'  
SERIES BEGINS  
TUESDAY ON KUOM

(FOR IMMEDIATE RELEASE)

Minneapolis --- "What do you think would occur if Christ came back today?" is a question which was asked of 10 national and local prominent citizens for a three-program radio series to be broadcast at 7:30 p.m. Tuesdays, June 28 and July 5 and 12, over the University of Minnesota station, KUOM.

Replies by those 10 persons along with the answers to the same question by several outstanding British persons will make up the first two programs of the new KUOM series entitled "Something to Think About".

The British answers were published last February in a series of articles in the London Sketch, a daily tabloid newspaper, and interest in the series resulted in a nearly doubled circulation for the paper. It is believed that KUOM is the first American radio station to present the answers.

On KUOM's third and final program July 12, Henry E. Allen, University coordinator of student religious activities, will interpret the information on a program entitled "Are We Having a Religious Revival?"

The June 28 broadcast will include answers by evangelist Billy Graham; Colm Brogan, English author and journalist; F. A. Martin, Minneapolis Salvation Army executive; Purdue University Professor Herbert J. Muller; New York Attorney Newbold Morris; the Rev. Carl H. Olson of the First Universalist church in Minneapolis; and Minneapolis Tribune Columnist Will Jones.

Brogan is author of "Who Are the People" and "The Democrat at the Supper Table". Professor Muller wrote "The Uses of the Past", and Morris was the recent liberal candidate for mayor of New York City.

Answers for the July 5 program are by the Rev. Donald Soper, England's 1953 president of the Methodist Conference; the Rev. Howard Conn of the Plymouth Congregational church in Minneapolis; the Rev. Joseph Christie, well-known English Catholic controversialist; George Boas, head of the Johns Hopkins philosophy department; Bandleader Ted Heath; Author Ethel Mannin; and St. Paul Pioneer Press Columnist Roy Dunlap.

'U' READING EDUCATION  
SPECIALIST TO SPEAK  
AT 8 P.M. WEDNESDAY

(FOR IMMEDIATE RELEASE)

"Teaching Reading Around the World" will be the topic of a talk at the University of Minnesota at 8 p.m. Wednesday (June 29) in the Minnesota Museum of Natural History auditorium by Professor Guy Bond, who with his family returned early this month from a trip around the world.

Professor Bond's talk, which will be open without charge to the public, will be a part of a three-institute program in language arts the week of June 27 at the University's Center for Continuation Study.

Professor Bond took sabbatical leave from his duties as professor of education at the University to travel and to do some research in the field of teaching reading.

With the exception of Professor Bond's talk, the other sessions of the institutes are planned specifically for classroom teachers, curriculum directors and administrators, supervisors and other persons working with classroom practices in the language arts.

The reading institute is expected to be specially interesting this year because of Professor Bond's recent study and because of the controversial publicity about reading education appearing currently in the press.

Among visiting educators appearing on the reading institute program will be George D. Spache, director of the University of Florida's reading laboratory and clinic; Dorothy Petitt of the Oakland, Calif., public schools; Eloise N. Courter, instructor in communication skills at New York State Agricultural and Technical institute; and Ralph C. Leyden, chairman of the Stephen's college division of communications.

Guest speakers for the speaking, listening and dramatics institute include Dina Reese Evans of Cleveland Heights, Ohio, high school and past president of the American Educational Theater association; and Lalla Walker, Nashville, Tenn., public school curriculum coordinator.

Guest speakers for the writing institute will be Mauree Applegate, Wisconsin State college specialist in creative writing; Marie Sanders, West Salem, Wis., high school; and Margaret Bryant, Brooklyn college English department.

COLUMBIA PROFESSOR  
TO SPEAK THURSDAY  
AT 'U' PROGRAM

(FOR IMMEDIATE RELEASE)

Henry Steele Commager, Columbia university history professor, will speak on "The University and the Community" at the University of Minnesota Summer Session entertainment program at 8 p.m. Thursday (June 30) in the Minnesota Museum of Natural History auditorium.

The program will be open to the public without charge. Professor Commager will also speak at a general meeting of the American Home Economics association at 8 p.m. Wednesday (June 29) evening in Northrop Memorial auditorium.

Professor Commager, the author or co-author of many books on American history, was recipient of the Herbert B. Adams award of the American History association in 1929. He served as a member of the war department committee on history of the war and was sent by the war department to Britain in 1943 and to France, Belgium and Britain in 1945.

Professor Commager served as a history professor at New York university from 1926 until 1938 when he joined the Columbia university staff. In 1942-43 he lectured on American history at Cambridge university, England and was a fellow of the American Scandinavian society.

HIGH SCHOOL STUDENTS  
IN 'U' THEATER WORKSHOP  
TO PRESENT PLAY

(FOR IMMEDIATE RELEASE)

High school students attending a University of Minnesota Summer Session theater workshop will appear in "The Admirable Crichton" by James Barrie as the second University Theatre summer production from Wednesday, July 6, through Saturday, July 9, in Scott hall auditorium.

Curtain time for the play, which is directed by Frank M. Whiting, University speech and theater arts professor, will be 8:30 p.m.

Members of the cast are: Jane Levin, Pat Hicks, Elizabeth Earl, Allan Blomquist, Jack Remme and Marie Jordan.

The workshop which the students are attending is presented under the joint sponsorship of the University's department of speech and theater arts and University high school.

In the play, Crichton is the butler of the Earl of Loam who invites his servants once a month to the drawing room where, for this occasion only, they are treated as social equals.

'U' ENGLISH TEACHER  
GETS FULBRIGHT GRANT

(FOR IMMEDIATE RELEASE)

Edgar V. Roberts, University of Minnesota teaching assistant in English, has been granted a Fulbright scholarship to study English literature during the academic year 1955-56 at University college, University of London, England.

Roberts, 3504 37th Ave., South, Minneapolis, received his bachelor of arts degree summa cum laude in 1951 from the University and his master of arts degree in December, 1952.

The grant is one of approximately 186 for study in the United Kingdom. They are included within a total of about 1,000 for graduate study abroad under the United States Educational Exchange program.

WASHINGTON 'U'  
PROFESSOR TO SPEAK  
AT U OF M

(FOR IMMEDIATE RELEASE)

Martin D. Kamen, biochemistry professor at Washington university, St. Louis, Mo., will deliver a University of Minnesota lecture on "Cytochromes in Microbial Metabolism" at 3:30 p.m. Thursday (June 30) in 100 Mayo Memorial building.

The lecture, which will be open to the public without charge, is being sponsored by the University's departments of anatomy, bacteriology, biochemistry, botany, medicine, physiological chemistry and concerts and lectures.

Kamen, a native of Toronto, Canada, did early work on cyclotron with E. O. Lawrence and also pioneered on radioactive tracers, working with S. Ruben on tracer studies in photosynthesis.

Kamen and Ruben were the first to produce sufficient quantities of long lived radioactive carbon for experiments with biological and chemical systems. Together they worked out methods for the application of radioactive isotopes of carbon in such experiments.

(FOR RELEASE SUNDAY, JULY 3)

Albert Da Costa, winner of the 1954 Metropolitan Auditions of the Air and now leading tenor of the Metropolitan Opera company, will be guest soloist with the University of Minnesota Summer Session orchestra at 8 p.m. Tuesday, July 5, in Northrop Memorial auditorium.

Conductor of the orchestra for the concert, which will be open without charge to the public, will be Henry Denecke, musical director and conductor of the Cedar Rapids Symphony orchestra.

Da Costa made his debut with the Met March 3 in "Tristan". His concert at the University is designed to display the brilliance of his voice and the technique which won the auditions for him, after he had been eliminated as a baritone in 1953. The judges had then suggested he change to tenor.

Da Costa has been heard in many places in the United States. He toured with the Charles Wagner Opera company and the San Carlo Opera company and was an entertainer through half of his three-year U. S. Navy hitch. When he was discharged, he began G. I. Bill study at Juilliard School of Music in New York and later began private study, singing baritone roles in opera and as a recitalist.

While he was still a student, Da Costa was a consistent award winner. His successes include first prize on "Stars of Tomorrow". He appeared with the Naumberg Symphony and on NBC radio.

Director Denecke founded the Civic Orchestra of Minneapolis three seasons ago. The organization is made up of mostly amateurs-- college students, doctors, lawyers, business men and housewives. After two years and three concerts with the Civic Orchestra, Denecke was invited to Cedar Rapids as resident conductor of its orchestra.

CARL ROWAN TO TALK  
ON "ASIA NOW"  
AT 'U' JULY 7

(FOR IMMEDIATE RELEASE)

Minneapolis --- Carl Rowan, author, lecturer and journalist, will speak on "Asia Now" at the second Sidney Hillman-University of Minnesota lecture at 8 p.m. Thursday, July 7, in Northrop Memorial auditorium.

The first Sidney Hillman lecture was delivered by William O. Douglas, associate justice of the United States Supreme Court, May 25 on the University campus.

Originally Rowan was scheduled to talk April 13; however, the lecture was cancelled when Rowan was assigned by the Minneapolis Tribune to cover the Asian-African conference in Bandung, Indonesia.

Last spring Rowan returned from seven months in Asia where he covered India, Pakistan, Burma, Thailand, Malaya, Indonesia, Indo-China, Hongkong and the Philippines.

Rowan plans to discuss both trips in his lecture. He will give an eyewitness account of the vast poverty which engulfs most of Asia. He will tell of the overall dangers of Communism and the areas in which it is making its greatest gains. His talk will also include information on the crucial role race is playing among Asians today. He will give his opinions as to how we are faring in the propaganda war and discuss our mistakes which prevent us from doing better.

The Sidney Hillman Foundation awarded the University of Minnesota a grant of \$1,000 in September to establish the Sidney Hillman lectures to be given by distinguished persons in public life.

Rowan was named one of America's 10 outstanding young men of 1953, won the Sidney Hillman award in 1951 for the "Best newspaper reporting in the nation" as result of his articles on the South; and is author of "South of Freedom" which has won several prizes.

FIRST SUMMER  
TERM ENROLLMENT  
AT U. OF M. 7788

(FOR IMMEDIATE RELEASE)

Minneapolis --- Enrollment for the first summer session at the University of Minnesota is 7,788, T. E. Pettengill, University recorder, announced Wednesday (June 29).

The total is 355 above the registration figure of 7,433 during the first summer session a year ago. Ratio of men to women is 64 to 36, approximately the same as last year.

Among colleges with increased enrollment are Science, Literature and Arts, Institute of Technology, Law, Nursing, Dentistry, Business Administration, General college and the Duluth Branch.

One of the most significant rises in enrollment, according to Pettengill, is the number of graduate school enrollees attending the Duluth Branch. There are 74 this year as compared to 48 such students last year.

The graduate students attending the Duluth Branch are in addition to the total of 625 students enrolled at the branch. That total is comparable to the 609 enrollment a year ago.

World War II veterans in attendance declined from 1139 last year to 887 in 1955. Attendance of Korean veterans, however, increased from 660 to 772.

Official registration figures at the University are recorded at the close of the second week of the term. The first summer session opened June 14 and will end July 16. The second session classes will begin July 19 and will close August 20.

JESNESS TO GIVE  
FINAL LECTURES  
IN FREEDOM SERIES

(FOR IMMEDIATE RELEASE)

Minneapolis --- Oscar B. Jesness, University of Minnesota head of agricultural economics, will give the last two lectures of the University's Social Science and Freedom radio series being broadcast over stations WCCO and KUOM.

In both lectures, which will be broadcast at 3:30 p.m. Fridays, July 1 and 8 over KUOM and 5 p.m. Saturdays, July 2 and 9 on WCCO, Professor Jesness will talk on "Combating Restrictions on Freedom".

The two lectures will be the final two in the series of six lectures which began on April 21. Each of eight different speakers--experts in social science--were interviewed by E. W. Ziebarth, dean of the University's Summer Session.

Printed reports of the materials covered in the broadcasts are available upon request while the supply lasts. Requests may be addressed to Social Science Research Center, 408 Johnston hall, University of Minnesota, Minneapolis 14.

FOUR 'U' POLITICAL  
SCIENTISTS ACCEPT  
OFF CAMPUS POSTS

(FOR IMMEDIATE RELEASE)

One University of Minnesota political science associate professor will teach in Rio de Janeiro during the academic year 1955-56; another will be teaching at the University of California at Berkeley; a third will study on a fellowship at Palo Alto, California; and a fourth will continue his duties as state commissioner of administration for the State of Minnesota.

Leaves have been granted to the four associate professors for the coming year by the University's Board of Regents.

Teaching in Rio de Janeiro will be George A. Warp who will serve with the United Nations as lecturer on local and municipal government at the School of Public Administration.

Charles H. McLaughlin will be visiting associate professor at the University of California at Berkeley.

Herbert McClosky has been awarded a fellowship at the Center for Advanced Study in the Behavioral Sciences at Stanford university.

Arthur E. Naftalin's leave has been extended so he may continue as state commissioner of administration.

LECTURE ON COLD  
PLASTICS AT 'U'  
TUESDAY EVENING

(FOR IMMEDIATE RELEASE)

Alexander F. Bick, Milwaukee schools industrial arts instructor, will give a University of Minnesota Summer Session lecture-demonstration on "Cold-Setting Plastics in the School Shop" at 7:30 p.m. Tuesday (July 5) in Room 218 Child Welfare building.

The program is expected to be of particular interest to industrial arts teachers, hobbyists, "do-it-yourself" fans and other persons concerned with new materials from industry.

Bick has experimented with liquid plastics and fiberglass for laminating, casting, molding and coating in his school shop classes. In his University lecture, he will show samples of projects and illustrate how professional results can be obtained by combining cold-setting plastics and fiberglass fabrics.

The work, Bick points out, can all be done by hand-- without pressure or heat. Bowls, trays, chairs and other useful items can be made with simple hand tools and the facilities available in all school shops.

U OF M CONDUCTING  
NATURE PROGRAMS  
IN 4 STATE PARKS

(FOR RELEASE THURSDAY, JULY 7)

Minneapolis --- Vacationers this summer in four different areas of Minnesota can take trail walks--either guided or self-guided--and attend evening nature lectures as the result of an expanded University of Minnesota nature study program in state parks.

One such nature program has been conducted for eight consecutive seasons at Itasca State park by Naturalist Donald K. Lewis, staff member of the Minnesota Museum of Natural History at the University.

This year the University, in cooperation with the Minnesota department of conservation's division of state parks, has added similar programs in three other state parks.

Four naturalists--working under the supervision of W. J. Breckenridge, director of the museum--and the state parks in which they are conducting nature programs are as follows:

Itasca (Northwestern Minnesota): Lewis.

Gooseberry Falls (Northwestern Minnesota--north of Two Harbors): Pershing Hofslund, assistant professor of zoology at the Duluth Branch of the University.

Whitewater (Southeastern Minnesota--near Rochester): Herbert Harper, Forest Lake high school biology teacher.

Lake Shetek (Southwestern Minnesota--near Slayton): Mildred Ericson, staff member of Oregon State university. She has served as naturalist in Yellowstone National park.

At Itasca park, Lewis has created a Thomas S. Roberts self-guiding nature trail and has arranged displays in the Mississippi Headwaters museum, Forest Inn and Douglas lodge.

In his guided nature walk--which with most of his program is serving as a model for the new-nature-programs--Lewis tries to give visitors an appreciative understanding of the northwoods. He arranges his walks so that they are different each day of the week. None of them take longer than two hours nor cover more than one mile.

The Thomas S. Roberts trail is a two-mile path with markers and a guide book to help hikers identify more than 80 plants along the way.

STATE GOVERNMENT  
INSTITUTE AT U OF M  
WILL OPEN JULY 18

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota will conduct its second annual two-week institute on "Minnesota Government and Politics" beginning Monday, July 18, and continuing through Friday, July 29.

The institute, presented through the facilities of the University's Center for Continuation Study, will include 10 two-hour morning sessions on such subjects as constitutional convention, presidential preference primary, party designation of legislators, the governor's office, censorship, veteran preference, sales tax, dedicated funds, school district reorganization and regulations of public utilities.

Taking part in the sessions will be state officials, senators and representatives, civic leaders, educators as well as various representatives of labor and organizations concerned with state government and politics.

Highlight of the institute will be a dinner meeting at 6:15 p.m. Thursday, July 19, in the Continuation Center. Among guests of honor will be Governor Orville L. Freeman, Chief Justice of the Supreme Court Roger L. Dell, Speaker of the House of Representatives Alfred I. Johnson and Lieutenant Governor Karl F. Rolvaag.

Arthur E. Naftalin, Minnesota commissioner of administration, will deliver a special lecture on "Current Administrative Problems in Minnesota State Government" at 1 p.m. Thursday, July 21, in 155 Ford hall.

The institute is planned for members of civic organizations, school teachers and administrators. College academic credits will be allowed for completion of the entire course. Registrations will be available for single sessions of the institute as well as for all of it.

UNIVERSITY PROMOTES  
135 FACULTY MEMBERS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Advancement in rank or administrative position of 135 University of Minnesota faculty members was announced Thursday (July 7) by President J. L. Morrill.

Promoted from assistant dean to associate dean of the general college was Alfred L. Vaughan, professor of physical science. Professor David W. Louisell of the law school was named acting associate dean of the school, and Professor Francis M. Boddy was appointed assistant dean of the school of business administration replacing Professor Richard K. Gaumnitz who had asked to be relieved of administrative duties to devote full time to teaching and research.

In the school of chemistry, Stuart W. Fenton, an assistant professor of organic chemistry, was given the newly established post of associate chairman and will share the administrative responsibilities of the school with Professor Bryce L. Crawford who recently was named to the chairmanship.

Professor William N. Lipscomb was named chief of the physical chemistry division succeeding Professor Robert S. Livingston who has been serving as acting division chief.

Other academic promotions, listed by colleges and departments of the University, were reported by President Morrill as follows:

College of science, literature and the arts: botany: Albert W. Frenkel, associate professor to professor; English: William Van O'Connor, associate professor to professor; Murray Krieger and G. Robert Stange, assistant professor to associate professor; Clifford Haga, instructor to assistant professor; art: Donald Torbert, associate professor to associate professor and acting chairman; Bernard P. Arnest and Allen Downs, assistant professor to associate professor; Jerome Liebling, instructor to assistant professor.

(MORE)

Geology and mineralogy: Frederick Swain, Jr., associate professor to professor; German: Herman Ramras, associate professor and acting chairman to associate professor and chairman; Lynwood G. Downs, associate professor to professor; Gina Wangness, Frederick L. Pfeiffer and Edwin F. Menze, assistant professor to associate professor; history: David W. Noble, instructor to assistant professor; school of social work: Lyndell B. Scott, associate professor to professor; mathematics: John M. H. Olmsted, associate professor to professor; music: Arthur B. Jennings, associate professor and organist to professor and organist; Mary Malcolm and Earl V. Rymer, assistant professor to associate professor.

Philosophy: D. Burnham Terrell, instructor to assistant professor; physics: Edward P. Ney, associate professor to professor; J. Morris Blair and George Freier, assistant professor to associate professor; psychology: Kenneth E. Clark, associate professor to professor; Wallace A. Russell, assistant professor to associate professor; Romance languages: Rodolfo O. Floripe, assistant professor to associate professor; sociology: George A. Donohue, instructor to assistant professor; speech and theater arts: William W. Fletcher, assistant professor to associate professor; zoology: Grover C. Stephens and Joseph G. Gall, instructor to assistant professor; library school: David K. Berninghausen, associate professor and director to professor and director.

Institute of technology: school of architecture: Donald C. Heath, assistant professor to associate professor; electrical engineering: Robert F. Lambert, assistant professor to associate professor; Maoling Liu, instructor to assistant professor; mathematics: Paul C. Rosenbloom and Arthur N. Milgram, associate professor to professor; mechanical engineering: Thomas P. Hughes and Gayle W. McElrath, assistant professor to associate professor; school of chemistry: (analytical division) Stanley Bruckenstein, instructor to assistant professor; (organic division) William E. Parham, associate professor to professor; chemical engineering: Arthur Madden, assistant professor to associate professor; school of mines and metallurgy: Eugene P. Pfleider, associate professor to professor; Gust Bitsianes, assistant professor to associate professor.

(MORE)

Institute of agriculture: college of agriculture, forestry and home economics: Keith N. McFarland, instructor and assistant to the director of resident instruction to associate professor and assistant to the director of resident instruction; animal husbandry: William E. Rempel, assistant professor to associate professor; Elmer L. Thomas and Howard A. Morris, assistant professor to associate professor; school of forestry, Otis F. Hall, assistant professor to associate professor; school of home economics: Joan Gordon and Helen L. Pilcher, assistant professor to associate professor; Marion T. Everson and Annette T. Gormican, instructor to assistant professor.

Poultry husbandry: Robert N. Shoffner, associate professor to professor; soils: Alfred C. Caldwell, associate professor to professor; school of veterinary medicine: (division of veterinary anatomy) Alvin F. Weber, associate professor to professor; (division of veterinary bacteriology and public health) Robert K. Lindorfer, instructor to assistant professor; (division of veterinary pathology and parasitology) Henry J. Griffiths, professor to assistant director of the school of veterinary medicine and professor; (division of veterinary medicine and clinics) George W. Mather, professor to professor in charge of small animal clinic; Dale K. Sorensen, assistant professor to associate professor in charge of large animal clinic; (division of veterinary diagnostic laboratories) Reuel Fenstermacher, professor to professor and head of the division.

Agricultural extension service (state office): Glenn T. McCleary, assistant professor and district supervisor of county agent work to associate professor and district supervisor of county agent work; Donald W. Bates, assistant professor and extension agricultural engineer to associate professor and extension agricultural engineer; Gerald R. McKay, assistant professor and extension specialist in visual education to associate professor and extension specialist in visual education; Roger S. Harris, agricultural extension specialist in soil conservation to instructor and extension specialist in soil conservation; Eleanor Y. Loomis, consumer marketing agent to instructor and consumer marketing agent; Northwest school and experiment station, Crookston: Alvey M. Pilkey, instructor to assistant professor.

(MORE)

College of medical sciences: administration: William F. Maloney, assistant dean and instructor to assistant dean and assistant professor; bacteriology: Herman C. Lichstein, associate professor to professor; Karl R. Johansson, assistant professor to associate professor; pediatrics: Lewis W. Wannamaker and Mildred Ziegler, assistant professor to associate professor; physiology: Joseph T. King and Ernest B. Brown, associate professor to professor; John A. Johnson, Franz Halberg and Carlos Martinez, assistant professor to associate professor.

Surgery: Gilbert S. Campbell, instructor to assistant professor; school of nursing: Ruth V. Johnston, assistant professor to associate professor; Eugenia R. Taylor, instructor to assistant professor; medical technology: Patricia Hanauer, student technologist supervisor to instructor and student technologist supervisor; psychiatry and neurology: Fae Y. Tichy and Ian A. Brown, assistant professor to associate professor; physiology chemistry: Cyrus P. Barnum, associate professor to professor; physical medicine and rehabilitation: Glenn Gullickson, advanced non-service clinical fellow to assistant professor and assistant director of the rehabilitation center; anesthesia: Frederick H. Van Bergen, associate professor and acting director of the division to associate professor and head of the division; radiology: James F. Marvin, assistant professor to associate professor; Donn G. Mosser, clinical instructor to assistant professor.

School of dentistry: Wendell L. Bartholdi, assistant professor to associate professor; Herman A. Garmers and Herbert A. Carlson, clinical assistant professor to clinical associate professor; Elwin E. Luhring, Robert N. Nelson, Kenneth C. Erickson and William B. Nienaber, clinical instructor to clinical assistant professor; Ainsley T. Thorson, professorial lecturer to professorial lecturer and director of dental assistant programs.

College of pharmacy: Wallace F. White, associate professor to professor; Robert H. Miller, assistant professor to associate professor; college of education: general education: William H. Strand, instructor and field assistant to assistant professor; school of business administration: C. Arthur Williams, Jr., assistant professor to associate professor; general college: Henry Borow, associate professor in vocational orientation to professor of psychological studies.

Mayo foundation, Rochester: experimental medicine: Albert Alexander, associate professor to professor; physical education and athletics for men: Niels Thorpe, associate professor to professor; Maurice Ostrander, assistant professor to associate professor; Lloyd Boyce, instructor, trainer and coach to assistant professor; physical education for women: Eloise Jaeger, assistant professor to associate professor; general extension division: Albert M. Fulton, assistant professor of speech and head of veterans' affairs to associate professor of speech and head of veterans' affairs; Robert C. Slater, instructor and assistant director of applied mortuary science to assistant professor and assistant director of applied mortuary science; Eleanor M. Salisbury, assistant to the dean to instructor and assistant to the dean.

Students' health service, medical: Murray Bates, physician, instructor, to physician, assistant professor; Hormel institute: Orville S. Privett, assistant professor to associate professor; office of the dean of students: Martin L. Snoke, instructor and assistant to the dean to assistant professor of educational psychology and assistant dean; student counseling bureau: Thomas M. Magoon, senior student personnel worker to assistant professor of psychology and senior student personnel worker; speech and hearing clinic: Gordon M. Low, senior student personnel worker to assistant professor of speech and senior student personnel worker; library: John Parker, principal librarian to instructor and curator of the James F. Bell collection; Norma Hovden, circulation librarian to assistant professor and circulation librarian.

Duluth Branch: professional education division: Hubert M. Loy, assistant professor to associate professor; (physical education for men) Ward M. Wells, assistant professor to associate professor; science and mathematics: (physics) Howard G. Hanson, assistant professor and head to associate professor and head; (mathematics and engineering) John E. Hafstrom, instructor to assistant professor; humanities division: (language, literature and philosophy) Henry J. Ehlers, associate professor to professor; Wendell P. Glick, assistant professor to associate professor; (speech and dramatics) Howard L. Hayes and Robert F. Pierce, assistant professor to associate professor; social studies: Emmett Davidson, associate professor to professor; Lyda C. Belthuis, associate professor to professor and head; John A. Dettmann, assistant professor to associate professor; Julius F. Wolff, Jr., assistant professor to associate professor; and Arvid N. Pearson, lecturer to associate professor and head.

'U' TO GRADUATE  
330 THURSDAY

(FOR RELEASE THURSDAY, JULY 14)

Minneapolis --- M. M. Willey, University of Minnesota vice president in charge of academic administration, will confer degrees on approximately 330 students at the University's commencement exercises at 8 p.m. Thursday, July 14, in Northrop Memorial auditorium. The program will mark the end of the first Summer Session.

Dr. Victor Johnson, director of the Mayo Foundation at Rochester, will deliver the main address. Title of his talk will be "Three Beginnings, Founded in the Faith".

The invocation will be given by Rabbi Louis Milgrom, director of the Hillel Foundation.

E. W. Ziebarth, dean of the Summer Session, will introduce the deans of the various colleges, who in turn will present their candidates for degrees to Vice President Willey. Presiding at the presentation of diplomas will be R. E. Summers, dean of admissions and records.

Candidates for the doctor of philosophy degree will be announced individually by John G. Darley, associate dean of the graduate school.

Graduates receiving commissions in the United States Army and Air Force will take their oaths of office from Major Bernard P. Leahy, assistant professor of military science and tactics.

The University's Flemish bells on Northrop auditorium will be played from 7 to 7:30 p.m. by Janice Mitsoff, a junior student from Forest Lake. Preceding the exercises also, from 7:30 to 8 p.m., will be an organ recital by Paul O. Manz, organist-choirmaster of Mount Olive Lutheran church, Minneapolis. Roy A. Schuessler, associate professor of music, will sing the national anthem.

NATIONAL FOUNDATION FOR INFANTILE PARALYSIS  
AND  
UNIVERSITY OF MINNESOTA  
JULY 11, 1955

MARCH OF DIMES  
GRANT TO FURTHER  
'U' POLIO STUDY

(FOR IMMEDIATE RELEASE)

Minneapolis --- A search for a way to remove the dependence of polio vaccine production on monkeys from India will be continued at the University of Minnesota under a \$74,774 grant from the National Foundation for Infantile Paralysis.

The grant was announced jointly Monday (July 11) by J. L. Morrill, president of the University, and Basil O'Connor, president of the National Foundation. It provides supplementary funds for the third year of a three-year grant. The work is under the direction of Dr. Jerome T. Syverton, professor of bacteriology and immunology.

For a number of years, scientists at the University have studied the use of a strain of human cancer cells in polio research. The cells were extensively used in tests performed by laboratories throughout the country in the evaluation of the Salk polio vaccine.

However, cancer cells cannot be used to grow the virus used in the production of polio vaccine. This virus is now grown on cells obtained from monkey kidneys, and the procedure is dependent on the importing of tens of thousands of monkeys each year from India.

The importation of monkeys is extremely expensive and is an undesirable complication in the production of the vaccine. If a strain of normal cells could be discovered which would multiply year after year in laboratory test tubes or other vessels, and these cells prove to be susceptible to polio virus, scientists would have a new and important shortcut to vaccine production. Such cells might be expected to be of nearly equal importance for use in testing and investigational procedures.

Dr. Syverton and the team of scientists working with him will also continue studies on the diagnosis of nonparalytic poliomyelitis and on new and unclassified viruses which have recently been discovered.

Members of the research team include Drs. William F. Scherer and John O'H. Tobin, assistant professors of bacteriology and immunology, and Drs. George Gifford, K. Theodor Brunner, William Murphy and Mauricio Martins da Silva, instructors.

'U' THEATER TO  
PRESENT 'MY 3 ANGELS'  
JULY 20-22

(FOR IMMEDIATE RELEASE)

"My Three Angels", the comedy hit which has been chosen for the University of Minnesota Theater for its winter tour, will be presented Wednesday through Friday, July 20-22, in Scott hall auditorium.

Presentation of the play by the University Theater and Summer Session will open the second term.

The story takes place in a prison colony on the island of Cayenne. It concerns a family which is practically bankrupt and its new outlook when three angels--really three convicts--take over their business.

Playing the roles of the angels are Norman Kirschbaum, John Kanel and Cha les Fein. Other members of the cast are Marah MacRostie, Hazel Gunther, Bill Wendt, Bessie Ewing, Alan Peabody, Dale Maxey and Ronald Rumpsa.

The play is directed and costumed by Robert D. Moulton, speech and theater arts. The setting is by Wendell J. Josal, speech and theater arts lecturer. Playwrights are Sam and Bella Spewack.

The second and last play of the second session will be a repetition of the University Theater's production "Hedda Gabler" by Henrik Ibsen. It will open Wednesday, August 10, and continue for three days. Director is Kenneth L. Graham, associate professor of speech and theater arts.

(FOR IMMEDIATE RELEASE)

A new chairman and associate chairman have been named heads of the University of Minnesota school of chemistry.

Professor Bryce L. Crawford is chairman, and sharing his administrative responsibilities will be Stuart W. Fenton, assistant professor of organic chemistry.

Professor Crawford, member of the University staff since 1940, succeeds Richard T. Arnold in the new position. Arnold has resigned to join the Alfred Sloan, Jr., Foundation as director of basic research in physical sciences.

Professor Crawford was director of the research on rocket propellants from 1942-45 and received a presidential certificate of merit in 1948 for his research conducted in secret at the University.

Assistant Professor Fenton joined the University staff in 1950. He had been a teaching fellow at Massachusetts Institute of Technology during the four previous years.

In the same school, Professor William N. Lipscomb has been named Chief of the physical chemistry division. He succeeds Professor Robert S. Livingston who has been acting division chief.

(FOR RELEASE SUNDAY, JULY 17)

Minneapolis Symphony Concertmaster and Violinist Rafael Druian will be soloist with the University of Minnesota Summer Session Chamber orchestra at 8 p.m. Tuesday (July 19) in Northrop Memorial auditorium.

Conducting the orchestra will be James Aliferis, University music professor. The program will be open without charge to the public.

Druian, assistant professor of music at the University, was born in Vologda, Russia. He was taken by his parents to Havana, Cuba, when he was a year old.

At the age of seven he began studying violin under Amadeo Roldan, conductor of the Havana Philharmonic Orchestra. After two years he went to Philadelphia for further study under Efrem Zimbalist at Curtis Institute.

In addition to many recitals, Druian's career--interrupted by three year's service in the Army--has included guest appearances with the Philadelphia, Robin Hood Dell, Dallas, Grant Park, Minneapolis and Indianapolis Symphony Orchestras.

He also has appeared as soloist with orchestras in Madison, Detroit, Columbia, Mo., and Winnipeg and London, Canada.

Professor Aliferis is choral director of the University of Minnesota Chorus and Chamber Singers. He has been guest conductor of the Minneapolis Symphony Orchestra each year since 1947.

Cooperating with the University to present the concert is the Minneapolis Musicians association. The music for the concert is provided by the cooperation of Local 73 of the American Federation of Musicians, through a grant from the Music Performance Trust Fund of the Recording Industry.

PLAN 'U' COURSE  
ON MENTALLY RETARDED  
FOR AUGUST 22-26

(FOR IMMEDIATE RELEASE)

Recent developments in the training and care of children with mental defects will be discussed at a University of Minnesota institute Monday through Friday, August 22-26, in its Center for Continuation Study.

Cooperating with the University to present the course are the Minneapolis Society for the Mentally Retarded, the St. Paul Association for Retarded Children, the Pipestone Handicapped Children's association and the Minnesota Society for the Mentally Retarded.

Among guest speakers at the institute will be Thorleif G. Hegge, director of research and education, Wayce County Training school, Northville, Mich.; William Sloan, supervising psychologist, Lincoln State school, Lincoln, Ill.; and Frederick C. Thorne, editor of the Journal of Clinical Psychology and former director of Brandon State school, Brandon, Vermont.

The institute is planned specially for teachers, counselors, professional case workers, administrative supervisors and graduate students.

RETIRED 'U' PROFESSOR  
TO LECTURE ON  
"INDIA REVISITED"

(FOR IMMEDIATE RELEASE)

Professor Emeritus George P. Conger, former chairman of the University of Minnesota department of philosophy, will give a University lecture on "India Revisited, 1955" at 8 p.m. Thursday, July 21, in the Minnesota Museum of Natural History auditorium.

Professor Conger recently returned from his third visit to India where he lectured on comparative religion at the Calcutta university.

On his first visit, Professor Conger was a guest of Mahatma Gandhi and other Indian leaders. His second trip was overland from Beirut, on the Mediterranean through the intervening countries--including Afghanistan--to Peshawar, in Pakistan. He was a delegate to the Silver Jubilee Session of the Indian Philosophical Congress.

Professor Conger spent a day on his recent trip with Vinoba Bhave, disciple of Gandhi, and observed the "land-gift" movement which he reports is making great progress in India.

Conger, whose lecture will be open to the public without charge, was a member of the University faculty from 1920 until his retirement in 1940.

The lecture, which will be open to the public without charge, is being sponsored by the University's Summer Session Entertainment under the direction of the department of concerts and lectures.

(FOR RELEASE SUNDAY, JULY 24)

The Minneapolis Piano Quartet will present the University of Minnesota summer session entertainment program at 8 p.m. Tuesday ( July 26) in Northrop Memorial auditorium.

Members of the Quartet are Elsie Wolf Campbell, Helen Grotte Keidel, James S. Allen and Theodore Bergman, all members of the faculty of the MacPhail School of Music.

The Misses Campbell and Keidel have distinguished themselves as a duo-piano group in concerts during recent years. Allen and Bergman have distinguished themselves as accompanists for the Appollo club for many years.

Their program will be as follows:

I  
Italian Concerto (first movement) ..... J. S. Bach  
Allegro  
Polka and Fugue, from the Opera "Shvanda" ..... Weinberger  
Piano Quartet

II  
Etude in E major, Op. 10, No. 3 ..... Chopin  
Minute Waltz, D flat, Op. 64, No. 1 ..... Chopin  
Helen Grotte Keidel  
Elsie Wolf Campbell

III  
Perpetuum Mobile (Rondo from Sonata Op. 24)..... Weber  
Spoon River (American Folk Dance) ..... Grainger  
Russian Dance, from "Petrouchka" ..... Stravinsky  
Piano Quartet

IV  
Variations on "Yankee Doodle" ..... Braggiotti  
In the manner of Bach, Beethoven, Chopin, Debussy, Gershwin  
James S. Allen  
Theodore Bergman

V  
Italian Polka ..... Rachmaninoff  
Saint Louis Blues ..... Handy  
March of the Toys, from "Babes in Toyland" ..... Herbert  
Jamaican Rumba ..... Benjamin  
Piano Quartet

Marion Perkins, pianist with a long list of successful performances behind her and now a graduate student at the University of Minnesota, will perform in a recital at 8:30 p.m. Monday (July 25) in Scott hall auditorium.

Miss Perkins has made three European tours since 1952. She played more than 30 concerts in Germany where Berlin critics hailed her as "one of today's rarely daring pianistic gifts".

Her performances in the capital cities of London and Vienna also earned her critical acclaim. In London she appeared in the new Royal Festival hall. Her program in Norway was recorded for the Oslo radio and was rebroadcast over the Norwegian national radio system.

Miss Perkins, who played a concert last October at the Minneapolis Institute of Art, studied with the late Artur Schnabel and his son, Karl Ulrich Schnabel, in New York and Italy.

Her program at the University will be as follows:

Sonata in G Minor	Schumann
Rondo a Capriccio, Op. 129	Beethoven
Twenty-two Waltzes, Landler and German Dances (Grouped for concert use by Miss Perkins)	Schubert
A group of Brahms	
A group of Chopin

JULY 19, 1955

(FOR RELEASE SUNDAY, JULY 24)

Guitarist Will Holt, creator of a new idea in presentation of folk material and art songs, will appear in the University of Minnesota summer session program at 8 p.m. Thursday, July 28, in the Minnesota Museum of Natural History auditorium.

Holt, using his guitar and calling on folk material, lieder and art songs, creates a program with unusual charm and a different kind of appeal. He first became interested in traditional music and guitar while attending school at Exeter, New Hampshire. That interest led to three years' study with Richard Dyer-Bennet at his school for American minstrelsy at Aspen, Colorado, where young Holt also studied guitar with Rey de la Torre.

In addition to studying American music, Holt traveled in 1950 through Scandinavia, England, France, Switzerland and Italy, collecting folk material and songs which have been included in his programs.

The 30 months which Holt served in the United States Air Force afforded him more opportunity to collect material. And his final stage of preparation was a series of night club appearances which included Crystal Palace in St. Louis and the Village Vanguard in New York.

The guitarist-tenor has also been featured on television programs and recorded a series of recorded albums.

His program will be as follows:

(MORE)

## PROGRAM

Here's to the Maiden	.....	English

'U' PRESS PUBLISHES  
STORY ON 1915  
FARMERS' PROTEST

(FOR RELEASE MONDAY, JULY 25, 1955)

The last of the farmers' protest movements against "Big Business" is described by Robert L. Morlan in a new book entitled, "Political Prairie Fire: The Nonpartisan League, 1915-1922" which is being published July 25 by the University of Minnesota Press.

The 1915 protest resulted in the organization of the Nonpartisan Political League in North Dakota by Arthur C. Townley. Townley offered a simple but revolutionary plan--the election of political candidates through the established two-party system and a platform featuring public ownership of certain vital farm services and facilities, such as terminal grain elevators and hail insurance on crops.

From North Dakota, the Flourishing League spread into other Middle Western and Far Western states. In Minnesota the League was the father of the Farmer-Labor party.

Among important public figures in the story of the League are Charles A. Lindbergh, Sr., League-endorsed candidate for governor of Minnesota; William Langer, Gerald Nye and Lynne J. Frazier, North Dakota senators; Henrik Shipstead, Minnesota senator; Robert M. LaFollette and John J. Blaine, Wisconsin senator and governor, respectively.

Author Morlan is an associate professor of government at the University of Redlands, Redlands, California. He received his master's and doctor's degrees from the University of Minnesota where he also taught for a short period of time. He is now a member of the city council in Redlands and is the secretary-treasurer of the Southern California Political Science association.

PHOTOGRAPHER TO SHOW  
FILM OF "GERMANY TODAY"  
AT 'U' AUGUST 4

(FOR IMMEDIATE RELEASE)

Gordon Palmquist, professional photographer and lecturer, will present his color film, "Germany Today", in a University of Minnesota Summer Session program at 8 p. m. Thursday, August 4, in the Minnesota Museum of Natural History auditorium.

Included in the color film are pictures of a trip through East Berlin's Eastern zone, the Russian World War II memorial, window shopping, East German people at close range, the Ruhr and its steel mills, the largest photo show in the world and German girls making modern dolls and toys.

Pictures also is a journey down the Rhine with its castles, vineyards, and old cities, the medieval cities of Rothenberg and Dinkelsburhl, beautiful cathedrals and religious processions in Bavaria, violin makers of the Bavarian alps, Bavarian dancers in native costume with sound recordings and the Bavarian alps.

Palmquist made a special study of history, archeology and geography at the University of Michigan. His films are considered an unusual combination of historical accuracy, artistic photography and perfect technique.

JULY 26, 1955

(FOR RELEASE SUNDAY, JULY 31)

A fairly recently discovered panorama of the Massacre of New Ulm is currently on display in a University of Minnesota Gallery exhibit entitled "A Brief Outline of American Art" on the third floor of Northrop Memorial auditorium.

The panorama, a type of artistic presentation popular in the mid 19th century, includes 10 panels which are about 6 by 10 feet each.

Although its artist has not been identified, the painting indicates skill in working with large compositions. The details of the pictures indicate draughtsmanship. Authentic costumes and background show a familiarity with the Indian and with Minnesota landscape, according to Montfort Dunn, acting director of the University Gallery.

The panorama was discovered last September in a barn near Poughkeepsie, N. Y., by James Taylor Dunn, librarian of the Minnesota Historical society and brother of the University staff member.

Depicted by the panorama, which when shown was rolled on wooden rollers from panel to panel, is one of the most dramatic and bloody events of the entire history of the North American Indian--the Sioux uprising of 1862 led by Chief Little Crow. A total of 23 Minnesota counties were terrorized, and between 500 and 1000 civilian whites were massacred.

The civilian volunteers in the engagement were led by Charles E. Flandrau who later became first Chief Justice of the Minnesota Supreme Court. Active also was General Henry Hastings Sibley, Minnesota's first governor who was appointed by Governor Alexander Ramsey to lead the Minnesota militia. At the end of the uprising, Abraham Lincoln commuted the death sentence to over 275 Sioux, but only a total of 35 of the Indians were finally hung in a mass execution in Mankato.

(FOR RELEASE SUNDAY, JULY 31)

The University of Minnesota Gallery is one of 18 galleries and museums in the United States to receive a picture this year as a gift from the American Academy of Arts and Letters through its Childe Hassam Fund.

The picture is an oil painting, "Still Life With Music", by Byron Browne. It is on display in the University Gallery in Northrop Memorial auditorium.

Childe Hassam, in his will, bequeathed over 350 of his paintings, drawings and water colors to the American Academy of Arts and Letters with the request that as they were sold that the income from the sales be used to purchase works of art by contemporary American and Canadian painters for presentation to museums throughout the United States and Canada.

Since that fund first came into active operation in 1940, the works of over 130 artists have been bought and distributed.

Browne's "Still Life With Music" was recently exhibited with the other gift pictures at the Art Gallery of the American Academy. The exhibit won high praise from the New York art critics, for its "recognition of progressive trends in the art of today" and its "tasteful variety of themes, methods and means".

(FOR RELEASE SUNDAY, JULY 31)

Pianist Thelma Hunter, University of Minnesota music instructor, will be soloist with the University of Minnesota Summer Session orchestra at 8 p. m. Tuesday (August 2) in Northrop Memorial auditorium.

Conducting the orchestra for the concert, which will be open to the public without charge, will be Gerard Samuel, assistant conductor of the Minneapolis Symphony Orchestra.

Miss Hunter is a graduate of Cornell university where she studied with the Dutch pianist Egon Petri. She received her master of arts degree and the Artists Diploma while studying with Cecile Genhart at the Eastman School of Music. Before joining the University of Minnesota faculty, she taught at Wells college.

In addition to her teaching at the University, Miss Hunter has appeared with the Minneapolis Symphony and concertized extensively in the Northwest.

Samuel, who was born in Bonn, came to the United States at the age of 15 years. He completed high school in New York City and won a scholarship to the Eastman School of Music where he studied conducting with Howard Hanson, played in the Rochester Philharmonic and made his first appearance as a conductor when Hanson was unable to make a scheduled concert.

After a year in the Armed Services, Samuel entered Yale to study with Paul Hindemith. He received his master of arts degree in music there and soon afterwards was accepted by the late Dr. Koussevitzky for his master class in conducting at Tanglewood.

After a series of conducting engagements in New York and other eastern cities, Samuel was offered a government grant to study conducting in Paris--an offer which he refused--choosing rather to accept an offer by Antal Dorati to become assistant conductor of the Minneapolis Symphony.

In addition to his success with the Symphony, Samuel has made valuable musical contributions as director of the Collegium Musicum and the Cecilian Singers and by his performances with the Minneapolis Civic Opera association.

Program will be as follows:

Overture to "The Barber of Seville"	Rossini
Symphony No. 1 in C major	Bizet
Allegro Vivo	
Allegro Vivace	
Allegro Vivace	
Piano Concerto in G Minor	Mendelssohn
Molto Allegro Con Fuoco	
Andante	
Presto (Molto Allegro e vivace)	
Thelma Hunter, Pianist	
Adagio for Strings	Barber
Classical Symphony, D Major, Op. 25	Prokofieff
Larghetto	
Gavotte	
Roumanian Folk Dances	Bartok
Joc cu bata	
Braul	
Pe loc	
Buciumeana	
Poarga romaneasca	
Maruntel	
Maruntel	

The music for the concert is provided through the cooperation of Local 73 of the American Federation of Musicians, through a grant from the Music Performance Trust Fund of the Recording Industry.

DR. DAVID MITCHELL  
ACCEPTS INDIANA  
UNIVERSITY POST

(FOR IMMEDIATE RELEASE)

Minneapolis---Dr. David F. Mitchell, associate professor of dentistry at the University of Minnesota, announced Friday (July 29) that he has accepted an appointment as professor of dentistry and chairman of oral diagnosis at the Indiana university school of dentistry in Indianapolis.

Dr. Mitchell, who has been on the University faculty since 1948, will take over his new position September 1. He earned his dental degree at the University of Illinois (Chicago) in 1942 and a doctor of philosophy degree at the University of Rochester, Rochester, N.Y., in 1948.

Dr. William H. Crawford, dean of the University of Minnesota's school of dentistry, reported Friday that Dr. Wendell L. Bartholdi has succeeded Dr. Mitchell as chairman of the school's division of oral diagnosis.

T. ROMSON NAMED  
NEW DIRECTOR OF  
VARIETY HEART HOSPITAL

(FOR IMMEDIATE RELEASE)

Tomic T. Romson, assistant director of the University of Minnesota Hospitals, has been named new director of the Variety Club Heart Hospital, according to an announcement by Ray M. Amberg, director of the Hospitals.

Romson, who joined the hospital staff two years ago, is a native of Iran. He came to the United States in 1949 and received his bachelor of arts degree in 1951 from Macalester college and his master of arts degree in June, 1953, from the University where he completed the hospital administration course.

Romson, who lives at 1667 St. Clair ave., St. Paul, replaces Charles Skinner, who resigned to become assistant director of the American College of Hospital Administrators in Chicago.
