DOROTHY WESTRA,
SOPRANO, TO GIVE
RECITAL SUNDAY

(FOR RELEASE SUNDAY, JAN. 8)

Dorothy Westra, voice instructor in the University of Minnesota music department, will present a recital at 8 p.m. this evening (Sunday, Jan. 8) in Scott hall auditorium on the University campus. The recital is open to the public free of charge.

Guy Duckworth, specialist in group piano for both children and adults, will accompany Miss Westra at the piano. Miss Westra and Duckworth are new members of the music faculty.

A soprano, Miss Westra has appeared extensively throughout Europe during the last four years. This year she received the Army medal conferred by the Italian government for her performance in Rome of Menotti's "The Medium".

Miss Westra made her operatic debut with the New Orleans Opera House association in the role of Elsa in Wagner's "Lohengrin". She was a winner of the MacDowell Club award and made her New York concert debut under the club's auspices in 1940.

She has appeared as soloist with the New York Philharmonic Chamber orchestra, San Francisco symphony, New York Civic symphony, Newark Civic symphony, Metropolitan Opera Auditions of the Air, New York League of Composers, New Londonatorio society and Orpheus club of Ridgewood, N. J. Her concert repertoire includes songs in Italian, French, German, Spanish, Swedish, Norwegian, Dutch and English.

Miss Westra is also a composer and has had several choral Christmas works published.

On this evening's program, Miss Westra will sing the cantata, "Idolo Mio" by Alessandro Scarlatti; four songs, "From a Washington Garland", dedicated to George Washington by Francis Hopkinson who wrote both words and music; three motets by Paul Hindemith from Biblical scripture; eight art songs by Jean Sibelius in commemoration of the composer's 90th birthday last Dec. 8.

FREEDOM EFFORTS
IN RED SATELLITES
'U' LECTURE TOPIC

(FOR IMMEDIATE RELEASE)

Forces at work for freedom in "Russia's European Satellites" will be discussed by Dragos Kostich, a native Yugoslav of Serbian family, at the University of Minnesota's first winter quarter convocation at 11:30 a.m. Thursday (Jan. 5) in the Museum of Natural History auditorium.

Kostich was captured by the Germans in World War II and, after escaping, refused to return to Yugoslavia after the communist government had taken over. In 1947, he went to Paris, where he earned a degree from the University of Paris. There he also took part in the organization of the International Center of Free Trade Unions in Exile.

Since World War II, Kostich has aided Balkan refugees, edited a Serbo-Croatian language labor monthly and been a correspondent for Radio Free Europe.

Currently, he is working at Columbia university in New York City. He is a contributor to the Voice of America and works with the Mid-European Studies center. Last year he made a major contribution to the work on forced labor in the "People's Democracies" of the world.

A question and answer period will follow Kostich's talk.

M.I.T. OFFICIAL TO SPEAK AT 'U'
ON 'TECHNOLOGY, EDUCATION'

(FOR IMMEDIATE RELEASE)

Professor J. A. Stratton, vice president and provost of Massachusetts Institute of Technology, will discuss "Technology and Education" in the fourth lecture of the University of Minnesota American Studies series on science, technology and American culture at 3:30 p.m. Thursday (Jan. 5) in Murphy hall auditorium. The program is open to the public free of charge.

Professor Stratton will discuss the educational dangers as well as the educational possibilities of a highly technological society.

Arthur B. Jennings, University of Minnesota organist and professor of music, will present a recital at 8:30 p.m. Monday (Jan. 9) in Northrop Memorial auditorium. The public is invited to attend free of charge.

The organist will play four compositions by Bach; "Flute Solo" by Thomas Arne; "At the Convent" by Alexander Borodin; "Fantasie in A Major" by Cesar Franck; and "Prelude and Fugue on Bach" by Franz Liszt.

Jennings returned last fall from Europe, where he studied organ instruction, performance and composition, and techniques used in presenting choral and organ church music. He visited Italy, France, Belgium, Germany and England.

In addition to his duties at the University, Jennings is organist and choirmaster at Plymouth Congregational church in Minneapolis.

Posters, advertisements and other graphic forms will illustrate the use of "Design in Industry" starting Wednesday (Jan. 11) at the University of Minnesota art gallery in Northrop Memorial auditorium. Herbert Matter's 30-piece exhibit will be shown on the third floor of the auditorium through Feb. 1.

A graphic artist, Matter also is a creative photographer, and the exhibit includes a number of his photographs as well as his explanatory comments.

Matter's color film on the work of Alexander Calder, American sculptor, released by the Museum of Modern Art in New York, accompanies the exhibition, and will be shown at times to be announced.

The "Design in Industry" exhibit was originated by the Virginia Museum of Fine Arts and was circulated by the American Federation of Arts.

CONSERVATION FILM
AT 'U' MUSEUM
SUNDAY AFTERNOON

(FOR IMMEDIATE RELEASE)

A color sound film, "Conserve Our Heritage", will be shown at 3 p.m. Sunday (Jan. 8) in the Minnesota Museum of Natural History on the University of Minnesota campus. The program is open free to the public.

Produced and directed by Minneapolis-Moline company, the prize-winning film shows the need for conserving our natural resources, the price paid by carelessness -- forest fires, floods, polluted rivers and streams -- and the results of wise use of these resources.

The film has received a number of national awards, among them the George Washington Honor Medal award of the Freedom Foundation, the Isaac Walton award and the Columbus Film Festival award.

Sunday, Jan. 15, Berry Campbell, associate professor of anatomy at the University, will narrate a showing of the film, "Moles and Shrews -- Among Our Least Known Mammals".

'STATE AND LOCAL
TAXES' 'U' LABOR
CONFERENCE THEME

(FOR IMMEDIATE RELEASE)

Minneapolis --- "State and Local Taxes" will be the principal theme of the eighth annual Industrial Relations Center labor conference Thursday and Friday, Feb. 16 and 17, at the University of Minnesota Center for Continuation Study.

Two men from the recently merged AFL-CIO will speak to members of labor organizations from throughout the state. Arthur A. Elder of New York City, tax consultant for the merged union, will present "A Labor Viewpoint on Taxes". Labor's interest in state and local taxes will be discussed by Frank Fernbach of Washington, D. C., of the AFL-CIO research department.

John Herling, "Labor Letter" editor, will discuss the progress and problems in the AFL-CIO merger at Thursday's (Feb. 16) luncheon in Coffman Memorial Union. Speakers Friday noon (Feb. 17), U. S. Representative Eugene McCarthy of St. Paul and Professor Robert C. McClure of the University of Minnesota law school, will discuss civil liberties.

Taxes, the union merger and civil liberties will be studied by the union members in afternoon workshops both days of the conference. State Senators Elmer L. Andersen of St. Paul and Donald M. Fraser of Minneapolis will take part in the taxes for education workshop Friday.

Other conference speakers will include Harold M. Groves, economics professor at the University of Wisconsin; Byron L. Johnson, economics professor at the University of Denver; Walter H. Uphoff, assistant professor and head of the workers education program at the University of Minnesota; and J. M. Nolte, dean of the University's general extension division.

BOOKPLATE EXHIBIT
AT U OF M LIBRARY

(FOR IMMEDIATE RELEASE)

How often have you lost a book that you loaned to a friend simply because it was not marked with your name?

The solution -- attractive as well as practical -- is bookplates, subject of an exhibit opening at the University of Minnesota library Monday (Jan. 9) and running through the month of January.

Thursday evening (Jan. 12) Friends of the University Library will view the bookplates contributed by members and other interested persons. They also will hear Miss Cleora Wheeler of St. Paul, who has designed unusual bookplates for a number of Twin City collectors, answer the question, "What Are Bookplates, Anyway?" at 8 p.m. in the Arthur Upson room. Miss Wheeler will display some of her bookplate designs.

A variety of bookplates, ranging from formal to humorous and modern, is included in the library exhibit of approximately 70 plates. Coats of arms are displayed on many, including those of Dr. C. W. Mayo and James S. Bell. James Ford Bell's coat of arms is stamped on his bookplate of green leather. In a lighter vein is the plate of Gerard Samuel, assistant conductor of the Minneapolis Symphony orchestra, with a caricature of musicians.

Other bookplates denote the hobbies, name or residence of the reader. Jack Diamond's plate appropriately includes a colorful jack of diamonds, and Robert (Bobby) Jones, the golfer, and Singer Jessica Dragonette, picture their interests on the flyleaf of their books. These three plates were loaned to the library from his collection of 200 books and 1,000 plates by J. Humphrey Wilkinson of St. Paul.

In the shape of a Christmas tree, one bookplate announces, "I am one of the volumes from the library of Bob and Alice Morrissey. Send me back to Christmas Lake, Excelsior, Minn." Roy S. Ritchey's hobbies -- collecting books, manuscripts and antique firearms -- are illustrated in his books.

Other bookplates in the exhibit are those of Harry A. Bullis, Guy Stanton Ford and Herbert F. West as well as Louis Agassiz, Lord Chesterfield, Madam DuBarry and Lord Randolph Churchill. Some colorful Japanese bookplates also are included.

The exhibit was arranged by Mrs. Mary Nakasone of the library staff.

FAMED DESIGNERS
TO VISIT U OF M,
SCHOOL OF ART

(FOR IMMEDIATE RELEASE)

Professor Josef Albers, chairman of Yale university's department of design, accompanied by his wife, Anni, whose textiles and fabrics have been widely exhibited, will visit Minneapolis next week (Jan. 9-13) for appearances at the University of Minnesota and the Minneapolis School of Art. Professor Albers will serve as a visiting critic for the University School of Architecture.

An exhibit of Professor Albers' paintings and his wife's tapestries will be displayed throughout their visit on the third floor of the main engineering building on the University campus.

Josef and Anni Albers both taught at the Bauhaus in Germany until 1936, when they came to the United States to teach at Black Mountain college in North Carolina. In 1947, Albers was appointed to his present position at Yale.

In Minneapolis next week Professor Albers will work with architecture classes at the University. At the School of Art, he will conduct a seminar on color with students and faculty Tuesday morning (Jan. 10). Professor Albers appeared at the school in 1954 as guest artist at the spring art seminar.

Mrs. Albers will conduct seminars and demonstrations on weaving Monday (Jan. 9) and Wednesday (Jan. 11) afternoons at the School of Art and will speak at the school's convocation at 12:30 p.m. Thursday (Jan. 12) at the Minneapolis Institute of Art. The convocation is open to the public free of charge.

BROTHERHOOD WEEK
TO OPEN WEDNESDAY
AT U. OF MINNESOTA

(FOR IMMEDIATE RELEASE)

Minneapolis --- Brotherhood Week at the University of Minnesota, Wednesday (Jan. 11) through Tuesday, Jan. 17, will feature a special convocation, a banquet, an art exhibit and an international ball.

The Student Council of Religions sponsors Brotherhood Week annually with the cooperation of other campus groups interested in human relations.

The Purdue(University) Panel of Americans, consisting of speakers representing different racial and religious groups and a moderator, will appear at an 11:30 a.m. convocation Thursday (Jan. 12) in Northrop Memorial auditorium. Each student will talk for three or four minutes, and then the panel will answer questions from the audience. The Purdue Panel is one of 15 such organizations operating on U. S. campuses.

The Purdue Panel also will appear at the St. Paul campus Brotherhood Week banquet at 6 p.m. Wednesday (Jan. 11) in the St. Anthony Park Congregational Church.

A Brotherhood Week banquet Tuesday, Jan. 17, will be held at 6 p.m. in the campus YMCA, 15th and University Ave., S. E., under the sponsorship of Alpha Phi Omega, national service fraternity.

The Cosmopolitan club's annual International Ball, which is open to the public, will be held during Brotherhood Week on Saturday (Jan. 14) from 8 p.m. to 12 midnight in the junior ballroom of Coffman Memorial Union. Guests are invited to wear their native costumes. During the intermission, A. Gopalikrisna, professional musician from India, will play a native Indian instrument, the sitar.

(MORE)

A coffee hour at 3:30 p.m. Friday (Jan. 13) in the Union men's lounge will feature a talk by Floyd Brewer, St. Paul artist. Brewer will discuss his exhibit of 17 pictures -- "Uncle Sam's Children" -- on display in the Union.

Other Brotherhood Week activities on the Minneapolis campus include two showings of the film, "Neighbors", at 3:30 and 8 p.m. Wednesday (Jan. 11) in the Minnesota Museum of Natural History, group discussions by campus religious organizations and fraternities and sororities, a human relations workshop and a classical listening hour.

On the St. Paul campus, the film, "The High Wall", will be shown at four hourly showings Monday morning (Jan. 16) starting at 8:15 a.m. in Coffey hall auditorium. Morning worship will be conducted in the cafeteria dining room Friday (Jan. 13) and Tuesday, Jan. 17, and St. Paul international students will be dinner guests in campus living units on Tuesday, Jan. 17.

DANISH BARITONE
TO SING PROGRAM
AT U OF M TUESDAY

(FOR RELEASE SUNDAY, JAN. 15)

Danish baritone Aksel Schiotz, visiting lecturer in the University of Minnesota's music department, will present a vocal program featuring Schumann's "Dichterliebe" ("Poet's Love".) at 11:30 a.m. Tuesday (Jan. 17) in Scott hall auditorium on the campus. The public is invited to attend free of charge.

Schiotz also will sing 16 art songs from a poetic work by the German poet Heine and four selections by Brahms.

Educated at the Royal Opera school in Copenhagen, Schiotz made his debut in 1939 in Mozart's opera, "Cosi Fan Tutti". He later studied at the Stockholm opera in Sweden. He has specialized in oratorio and lieder and has made a number of recordings with a British recording company.

Schiotz has appeared at music festivals throughout the world, including the Glyndebourne (Wales), Edinburgh Festival, Casals' Festival in Spain, Carl Nielsen Festival of Copenhagen and, most recently, the Stratford-Ontario (Canada) Shakespearean Festival of last summer, where he gave the same program he will present Tuesday (Jan. 17).

LAW ENFORCEMENT
OFFICERS TO CONFER
AT 'U' ON DEALING
WITH JUVENILES

(FOR IMMEDIATE RELEASE)

Minneapolis --- State law enforcement officers will meet at the University of Minnesota Center for Continuation Study Monday (Jan. 16) for the opening of a three-day institute dealing with juvenile offenders.

The institute will be held in cooperation with the Minnesota State Juvenile Officers association, Minnesota Police and Peace Officers association, Minnesota Sheriffs association, League of Minnesota Municipalities, prevention division of the Youth Conservation commission and Minnesota Chiefs of Police association. The Minnesota Juvenile Officers association and the committee on central states juvenile officers association will hold a meeting Tuesday afternoon (Jan. 17).

Climax of the session Wednesday afternoon will be an address by Frederic F. Schneidewind of Washington, D. C., police services consultant, technical aid branch, Division of Juvenile Delinquency Service, Department of Health, Education and Welfare. He will speak on "The Trends, Techniques and Goals in Police Work with Juveniles".

Betty Smith, superintendent of the home-school for girls in Sauk Centre, will provide "Helps in Understanding the Girl Offender". The Indian culture, sex delinquency, community delinquency prevention, causes of child behavior and laws affecting juveniles also will be discussed.

Among those participating in the three-day program will be Clifford Bailey, head of the Minneapolis police department crime prevention bureau; Eugene Burns, Ramsey county probation office intake supervisor; Thomas O'Hehir, head of the Duluth police department juvenile bureau; Lynn Swanson of St. Paul, law enforcement consultant, Youth Conservation commission, and members of the University of Minnesota faculty.

PURDUE STUDENTS
AT 'U' BROTHERHOOD
WEEK CONVOCATION

(FOR IMMEDIATE RELEASE)

A discussion of minority problems in education by the Purdue (university) Panel of Americans will highlight Brotherhood Week on the University of Minnesota campus at the 11:30 a. m. convocation Thursday (Jan. 12) in Northrop Memorial auditorium.

Five student speakers, representing different racial and religious groups, and a moderator comprise the panel. After a brief talk by each panel member, the program will be opened to questions from the audience.

The students do their own research for their part of the program, write their own speeches and revise them periodically to incorporate the suggestions of the question period and the critiques of their advisers and fellow panelists.

The Purdue Panel, one of 15 such organizations operating on campuses throughout the country, makes about 40 appearances each year. Approximately 35 students and four faculty moderators participate in its programs, training sessions and social activities.

Panel moderator is Professor Dwight Culver, associate professor of sociology and an ordained Methodist minister. A graduate of Carleton college, Northfield, Minn., he received his bachelor of divinity and doctor's degrees from Yale.

Sponsors of the Purdue Panel's appearance at the University are the Minnesota Jewish council, National Council of Christians and Jews, Student Council of Religions and the department of concerts and lectures.

SHREWS AND MOLES
TO STAR SUNDAY
AT U OF M MUSEUM

(FOR IMMEDIATE RELEASE)

Shrews -- the smallest of all mammals -- and moles will be discussed by Berry Campbell, University of Minnesota associate professor of anatomy, at 3 p.m. Sunday (Jan. 15) in the Minnesota Museum of Natural History auditorium on the University campus.

Campbell's talk will be illustrated with a short film, "Moles and Shrews -- Among Our Least Known Mammals". Campbell will discuss insectivores, the group of animals to which moles and shrews belong and the habits of the various types found in Minnesota.

The shrew, one-ten thousandth the size of a human, is abundant but is seen by few because of its living habits, according to Campbell.

On Sunday, Jan. 22, Professor Edward A. Hoebel, chairman of the University's anthropology department, will narrate the film, "New Light on the Origins of Man".

ADVERTISING MAN
NAMED JOURNALISM
LECTURER AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Appointment of Philip Ward Burton, creative director of the Bruce B. Brewer and Co. advertising agency of Minneapolis, as a visiting lecturer in the University of Minnesota School of Journalism was announced today.

Burton, who once served as head of the advertising departments at Syracuse university and the State University of Iowa, will teach a class in newspaper advertising.

He is national president of Alpha Delta Sigma, professional advertising fraternity, and a member of the board of directors of the Advertising Federation of America.

Burton received his bachelor of arts and master of arts degrees in journalism at Stanford university. He has served with Ruthrauff and Ryan advertising agency in San Francisco, the advertising department of Procter and Gamble, and as sales promotion executive for Bell and Howell, Chicago. He has been a consultant for many companies in market research and communications analysis.

He is the author of four books in the advertising field, "Advertising Copywriting", "Retail Advertising for Small Stores", "Putting Advertising to Work" and "Principles of Advertising". He has also written more than 100 magazine articles for a variety of magazines including the Saturday Evening Post.

Burton served two years as a reporter and editor for the San Jose, Calif., Mercury-Herald and the Palo Alto, Calif., Times.

SCHOOL PLANNING
INSTITUTE AT 'U'
SET NEXT WEEK

(FOR IMMEDIATE RELEASE)

Minneapolis --- "Dollars and Sense in School Planning" is the subject of a two-day institute at the University of Minnesota Center for Continuation Study Thursday and Friday, Jan. 19 and 20. School architects, consulting engineers, school superintendents and board members will discuss common problems during the sessions.

A field trip through Hazel Park junior high school in St. Paul and Hopkins senior high school is scheduled for Friday afternoon (Jan. 20). Following dinner in the Hopkins school cafeteria, a panel of architects and superintendents will discuss the schools visited. Victor Gilbertson of Hills, Gilbertson and Hayes in Minneapolis will serve as moderator.

Another highlight of the conference, the second such institute to be offered at the University, will be the showing Thursday night of Edward R. Murrow's 90-minute documentary film on the education crisis, "Ballots at Bear Creek". The film first appeared on Murrow's "See It Now" television program.

Walter Wittich, professor of education and curriculum consultant at the University of Wisconsin and president of the department of audio-visual instruction of the National Education association, will speak on "Projection Problems in the Schools".

The institute also will include a discussion of what constitutes a good school building and a good site by Frederick Hill, assistant superintendent in charge of business affairs for the Minneapolis public schools; a talk, "What Do We Desire in School Buildings?", by W. O. Nilsen, Minnetonka school district superintendent; a discussion of flexibility in school design by A. L. Wegleitner, of the American Institute of Architects, and a panel discussion dealing with state building codes and recommendations.

GAME MANAGEMENT
AT U OF M INSTITUTE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Representatives of sportsmen's clubs throughout the state will explore the basic principles of game management, the history of Minnesota's experience in that field and fish and game population facts at a two-day institute Thursday and Friday, Jan. 19 and 20, at the University of Minnesota's Center for Continuation Study.

Panel discussions on deer and land use, upland game, fish and waterfowl will spark the session, and Friday afternoon will be devoted to a general forum group discussion with the entire institute faculty taking part. The program will provide objective explanations rather than the promotion of specific programs.

Clarence Cottam, director of the Welder Wilder Wildlife Foundation of Texas, will give the history of waterfowl management, and B. W. Cartwright, chief naturalist of Ducks Unlimited, from Winnipeg, Manitoba, Canada, will discuss marsh development and Canadian management.

Other speakers will include Lester M. Berner, big game biologist, South Dakota Department of Game, Fish and Parks; B. L. Dahlberg, northwest area coordinator, Wisconsin Conservation department; Edward Schneberger, superintendent of the Wisconsin Conservation department's fish management division; Thomas A. Schraeder of Minneapolis, regional supervisor of the United States Fish and Wildlife Service office of river basin studies; Dr. Malcolm Hargraves, Rochester, Minn., and Charles R. Burrows, John Dobie and Robert E. Schumacher, aquatic biologists with the Minnesota Department of Conservation bureau of fisheries.

ACTORS TO STAGE
TWO CONVOCATIONS
AT 'U' TUESDAY

(FOR IMMEDIATE RELEASE)

Albert Dekker and Edith Atwater will present two 50-minute convocation programs, each different, at 11:30 a.m. and 12:30 p.m. Tuesday (Jan. 17) in Northrop Memorial auditorium on the University of Minnesota campus. The programs are open free to the public.

The actor and actress will read scenes and sketches from the world's great literature. Their repertoire -- they have enough to fill four hours -- includes works of William Shakespeare, Elizabeth Barrett Browning, Edgar Allan Poe, Walt Whitman and James Thurber, everything from Aesop's fable, "The Lion and the Elephant", to the letters of Benjamin Franklin.

Simple staging effects are used for Dekker's and Miss Atwater's presentations of sophisticated comedy, simple humor and human tragedy entitled "Two's a Company". The only scenery is two chairs, two podiums and a table with a pitcher of water.

Albert Dekker has been seen most recently on the screen in "East of Eden" and "Shane". His other films include "Cass Timberlane", "Gentlemen's Agreement", "Wake Island" and "Strange Cargo".

It was on Broadway, however, not in Hollywood, that Dekker got his start, when he appeared in "Marco's Millions". This was followed by roles in "Volpone", "Lysistrata", "Enemy of the People", "Fly Away Home" and "Grand Hotel". After 12 years in Hollywood, he returned to the state as Willie Loman in "Death of a Salesman". Dekker also has starred on television and radio.

For the past two seasons, Miss Atwater played opposite Melvyn Douglas in a touring company of "Time Out for Ginger". A graduate of the American Academy of Dramatic Arts in New York and the Goodman Theater workshop in Chicago, she played on Broadway in such plays as "Springtime for Henry", "Susan and God", "State of the Union" and "The Man Who Came to Dinner". A versatile actress, one season she danced and sang in the musical, "Flahooley", and later appeared as Goneril in "King Lear".

'THIEVES' CARNIVAL'
TO OPEN JAN. 26
AT 'U' THEATER

(FOR IMMEDIATE RELEASE)

"Thieves' Carnival", Jean Anouilh's modern comedy about thieves and fortune hunters, will be the University Theater's next offering starting Thursday, Jan. 26, in Scott Hall auditorium on the University of Minnesota campus.

Performances will be at 8:30 p.m. Jan. 26-28 and Feb. 1-4 and at 3:30 p.m. Jan. 31 and Feb. 5.

"Thieves' Carnival" played last season in an off-Broadway playhouse. Anouilh's current Broadway success, "The Lark", opened in October and stars Julie Harris.

The University Theater production features William McGraw, Michael Levin and William Phelps as the thieves. Romantic interest is provided by Deidre Norman and Janis Benson, with Richard Thomas and Gerald Ness giving the thieves some competition. Hosts at the French villa, setting for the play, are Helen Aungst and Donald Borchardt.

Frank M. Whiting, director of University Theater, will direct the play. Costumes will be done by Robert D. Moulton and settings by Wendell J. Josal.

Tickets for "Thieves' Carnival" went on sale this week in the Scott Hall lobby box office on the campus, Downtown Ticket Office, Northwestern National bank, Minneapolis, and Field-Schlick in St. Paul.

WINTER QUARTER
ATTENDANCE AT 'U'
REPORTED 22,200

(FOR IMMEDIATE RELEASE)

Minneapolis --- University of Minnesota attendance for winter quarter totals 22,200, an increase of 2,259 students or 13 per cent over the winter quarter attendance of 19,641 one year ago, True E. Pettengill, University recorder, reported Tuesday (Jan. 17).

This represents a 5 per cent decrease from the fall quarter attendance of 23,393 which is less than the normal drop from fall to winter. Usually there are 6 per cent fewer students in attendance in the winter than in the fall.

New students entering winter quarter totalled 824 as compared with 770 a year ago, an increase of 7 per cent in new students, Pettengill reported.

Attendance by colleges and divisions of the University for winter quarter of 1955 and 1956 is as follows:

	Totals			Totals	
	1955	1956		1955	1956
General College	1528	1895	Public Health	176	174

ANESTHETISTS TO HOLD
CONFERENCE AT 'U'
AND MAYO CLINIC

(FOR IMMEDIATE RELEASE)

Minneapolis --- Anesthetists from all over the United States will assemble at the University of Minnesota Friday (Jan. 20) and at Rochester Saturday (Jan. 21) for the third annual meeting of the Association of University Anesthetists. Registration is expected to exceed 100, according to Dr. Frederick H. Van Bergen, head of the University's department of anesthesiology.

Sessions of the conference Friday will be held in the Mayo Memorial auditorium in the University's medical center. A tour of the operating suite in the University's new Mayo Memorial building will precede the afternoon meetings.

Conference speakers will include: Dr. Julia Arrowood, Boston university; Drs. E. M. Papper and Duncan Holaday, Columbia university; Drs. Leroy Vandam and William R. Brewster, Jr., Harvard university; Dr. Francis F. Foldes, University of Pittsburgh; Dr. Robert Virtue, University of Colorado; and Drs. Ralph T. Knight, John R. Gordon and Joseph J. Buckley, University of Minnesota.

The anesthetists will go to Rochester Friday evening and will visit the Mayo Clinic facilities and meet with Mayo Clinic doctors Saturday.

'U' OFFERS EVENING
SPEECH CORRECTION
CLASS FOR STUTTERERS

(FOR IMMEDIATE RELEASE)

A 17-week evening course in "speech correction for stutterers" will be offered by the University of Minnesota starting February 16. The class will meet Thursday evenings from 6:20 to 8 o'clock on the Minneapolis campus.

The course is open to adult stutterers, who cannot avail themselves of help during the day-time hours. It will consist of the psychological and practical techniques useful in overcoming the handicap of stuttering.

Speech correction for stutterers will be taught by Mrs. James (Elsie) Clubb, a graduate of the University speech clinic. Mrs. Clubb is a former speech correctionist in public schools in Minnesota.

Registration may be made between Jan. 30 and Feb. 11 at any General Extension Division office: 690 Northwestern Bank building, Minneapolis; 555 Wabasha street, St. Paul; 57 Nicholson hall, University campus. Further information may be obtained by telephoning Federal 8-8791.

FOREIGN VIEWS OF AMERICA
TO BE AIRED AT 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- The German, Asian, Middle Eastern and British view of America will be presented and discussed at a two-day public conference, "As Others See Us", at the University of Minnesota Thursday and Friday (Jan. 26-27).

Sponsored by University groups and the Minneapolis and St. Paul International Center for Students and Visitors, the conference will be held in the men's and women's lounges in Coffman Memorial Union from 1:30 to 5 p.m. each day.

Students from Germany, Malaya, India, Burma, Egypt, Israel and the United Kingdom will tell of their countrymen's opinions of America and Americans. Faculty members of the University and other Minnesota educational institutions and state civic leaders will join in the discussion.

Thursday afternoon's program will open with a two-hour session in the women's lounge of the Union on "What Is America?" Following an informal coffee hour at 3 p.m., the "German View of America" will be discussed in the women's lounge, and the "Asian View of America" will be presented in the men's lounge -- starting at 3:30 p.m.

The "Middle Eastern View of America" and the "British View of America" will be considered Friday afternoon starting at 1:30 -- the former subject in the women's lounge and the latter in the men's lounge. After a 3 p.m. coffee break, the conference will close with a summary and conclusion session in the women's lounge.

University groups sponsoring the conference are: the All-University Congress, the Center for International Relations and Area Studies, the foreign student adviser's office, the International Relations club and the Union board of governors.

'HEART AND BLOOD PRESSURE'
SUBJECT OF FIRST IN SERIES
OF PUBLIC HEALTH FORUMS

(FOR IMMEDIATE RELEASE)

Twin City doctors will answer questions on heart and blood pressure in two health forums this week to open a series of five free public programs on "You and Your Health" sponsored by the Minnesota Medical foundation in cooperation with several other organizations in the two cities.

The first "Heart and Blood Pressure" forum will be conducted at 8 p.m. Wednesday (Jan. 25) in the theater section of the St. Paul auditorium, and the second will be held at 4 p.m. Sunday (Jan. 29) in the Lyceum theater in Minneapolis.

Dr. Albert E. Ritt, president of the Ramsey County Medical society, will be chairman of the St. Paul forum. Moderator will be Dr. Cecil J. Watson, professor and head of the department of medicine at the University of Minnesota.

Panelists, who will answer specific questions submitted by the public on the subject under discussion, will be Dr. Louis Tobian, Jr., associate professor of medicine, and Dr. Richard L. Varco, surgery professor, both University staff members, and two St. Paul physicians also affiliated with the University, Dr. John F. Briggs, clinical associate professor of medicine, and Dr. Joseph F. Borg, clinical assistant professor of medicine.

The Minneapolis "Heart and Blood Pressure" forum will have as its chairman Dr. Robert E. Priest, president of the Hennepin County Medical society. Watson will moderate the discussion by panel members Dr. Tobian, Dr. Varco and Minneapolis physicians Dr. Reuben A. Johnson, clinical professor of medicine, and Dr. Harold E. Miller, clinical assistant professor of medicine.

Subsequent health forums will deal with "Miracle Drugs", Sunday, Feb. 19, in Minneapolis and Friday, Feb. 24, in St. Paul, and "Cancer", Thursday, March 22, in Northrop Memorial auditorium at the University.

Co-sponsors of the health forums are the Hennepin County Medical society, Ramsey County Medical society, Minneapolis health department, St. Paul health department, Minneapolis Star and St. Paul Dispatch and Pioneer Press.

ITALIAN GROUP
TO VISIT AREA
SCHOOLS, INDUSTRIES

(FOR RELEASE SUNDAY, JAN. 22)

A study group composed of 11 Italians holding high positions in the vocational training field will arrive in Minneapolis today (Jan. 22) to study industrial education facilities in the Twin Cities.

The visitors -- officials of the Ministry of Education and Labor and directors of Italian vocational training schools -- will spend five days touring vocational schools and industries having apprenticeship training programs.

Monday (Jan. 23) the Italians, accompanied by two interpreters and a representative from the State Department of Education, will visit the University of Minnesota campus, seeing the work of the industrial education department and touring the Minneapolis and St. Paul campuses. They will be welcomed by Dean Walter W. Cook of the college of education and members of the departmental staff.

Schools to be visited by the Italian vocational educators during the balance of the week include Dunwoody institute in Minneapolis, Tuesday (Jan. 24); St. Paul vocational chefs school and St. Paul vocational day school, Wednesday (Jan. 25); Richfield high school, where they also will meet with the Minnetonka Industrial Arts club, Thursday (Jan. 26), and Anoka junior and senior high schools, Friday (Jan. 27). The men will spend Tuesday afternoon at the State Department of Education office in St. Paul.

The tour also will include Minnesota Mining and Manufacturing Company Wednesday morning (Jan. 25). Thursday the visitors will inspect the Minneapolis Moline Hopkins plant.

The social highlight of the week for the visiting Italians will occur Tuesday afternoon and evening when they will be guests of St. Paul's Unico club, a group of St. Paul businessmen of Italian descent. After a tour of St. Paul and a trip to the city hall where they will meet Mayor Joseph Dillon, they will be entertained for dinner at the Italian Village in Highland Park.

The Italian study team is in the United States under the auspices of the International Cooperation Administration, Technical Assistance program and the advisory and administrative sponsorship of the Office of Education.

TEACHERS SOUGHT
FOR U.S. SCHOOLS
IN FOREIGN LANDS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Experienced public school teachers interested in teaching children of American military and civilian personnel stationed overseas will be interviewed February 13-16 at the University of Minnesota in Minneapolis.

Representatives of Army Dependents Schools will conduct interviews during the four-day period from 12:30 p.m. to 9 p.m. in Rooms 305-309 Aeronautical Engineering building. Air Force Dependents Schools interviews will be held February 13-15 in Rooms 9 and 15 in the Temporary North of Mines building. All correspondence relative to interviews should be directed to Dependent Schools Service, 102 Burton Hall, University of Minnesota, Minneapolis 14.

The greatest demand is for elementary teachers, but there are a number of secondary positions available, according to reports from the services. Also needed are persons with training and experience in special fields -- counseling, administration, supervision and library work.

The salary for a teacher is \$4,525 on a calendar year basis. Round-trip transportation and living quarters (or tax-free living quarter allowances) are provided. Personnel assigned to certain areas receive 10 to 15 per cent additional compensation for environmental factors existing at the post of assignment.

To be eligible, teachers must have had at least two full school years of current public school teaching experience. If not currently employed in teaching, they must be engaged in furthering their educational background. Age limits for the Army schools are from 25 to 55. Air Force teachers must be between 23 and 40 and single.

The Army's Dependents Schools are located principally in Germany, France, Northern Italy, Japan and Okinawa. Schools for Air Force dependents are chiefly in Arabia, Turkey, Libya, French Morocco, Europe, Iceland, Greenland, Newfoundland, the Philippines and Japan.

CONCERT FEB. 3
TO DEDICATE NEW
U OF M HARPSICHORD

(FOR RELEASE SUNDAY, JAN. 29)

Ralph Kirkpatrick, world-recognized harpsichordist, will dedicate the Neupert concert harpsichord, Bach model, recently acquired by the University of Minnesota department of music in a recital at 11:30 a.m. Friday (Feb. 3) in Scott hall auditorium on the campus.

The harpsichord, a product of Nurnberg, Germany, is eight feet seven inches long. It has two keyboards with a range of five octaves, five pedals, four stops including two lute stops and complete compass range with double stops of seven octaves.

Kirkpatrick, a native of Leominster, Mass., studied with Nadia Boulanger and Wanda Landowska in Paris. He is on the faculty of the Yale university school of music, where he teaches between concert tours. While at the University of Minnesota, he will conduct master classes in harpsichord for music department staff members and students.

A specialist in 18th century keyboard music, Kirkpatrick is the author of a biography of Domenico Scarlatti, one of the most brilliant harpsichord composers of all time. His book was published in November, 1953, after 12 years of preparation. Kirkpatrick will play six Scarlatti sonatas Friday.

Of Scarlatti's 550 sonatas, Kirkpatrick chose 60 to present in a series of three concerts in the New York Town Hall during the 1953-54 season, and he repeated the programs in London in October, 1954, and later in Milan, Italy. He also has recorded these sonatas.

Kirkpatrick's program Friday will include harpsichord selections of the mid-16th to mid-18th centuries. Music of three great harpsichord composers will be presented -- Johan Sebastian Bach, Francois Couperin and Scarlatti.

(MORE)

The Friday program is as follows:

	I	
Pavana Sir William Peter		William Byrd (1543-1623)
Galiardo		
The Carman's Whistle		
Mein junges Leben hat ein End'		Jan P. Sweelinck (1562-1621)
	II	
Toccati II		Johann J. Froberger (1616-1667)
Ciacona		Johann Pachelbel (1653-1706)
Prelude and Fugue in A Minor		Johann Sebastian Bach (1685-1750)
	III	
Le Dodo, ou l'Amour au Berceau		Francois Couperin (1668-1733)
Les Vieux Seigneurs		
Les Jeunes Seigneurs		
L'Entretien des Muses		Jean Philippe Rameau (1683-1764)
Les Cyclopes		
	Intermission	
	IV	
Four Tientos		Antonio Cabezon (1510-1566)
	V	
Six Sonatas		Domenico Scarlatti (1685-1757)

HUMANITIES LECTURE
SERIES WILL OPEN
FEB. 7 AT WALKER

(FOR IMMEDIATE RELEASE)

"Art as Wisdom and Document" is the title of a winter lecture series starting Tuesday, Feb. 7, under the joint sponsorship of the Walker Art center and the University of Minnesota humanities program.

The six lectures are made possible through the first annual Marshall-Wells humanities grant. Open to the public without charge, they will be presented at 8:30 p.m. Tuesdays in the Walker Art center, 1710 Lyndale ave., S. Seating for each lecture is limited to 250 persons.

John Berryman, University general studies lecturer, will discuss "Shakespeare's 'The Tempest'; Justice, Redemption, Freedom", in the Feb. 7 program.

Future lectures will be:

Feb. 14 -- "Sophocles' 'Oedipus Rex'; Aristotle and Freud on 'Oedipus'", by Ralph G. Ross, University general studies professor.

Feb. 21 -- "John Donne; Anglican Poetry and Iconography", by Morgan Blum, general studies assistant professor.

Feb. 28 -- "Kafka's 'The Castle'; A Fable for Adolescence", by Jay Vogelbaum, general studies assistant professor.

March 6 -- "Shakespeare's 'The Merchant of Venice'; Its Backgrounds and Meanings", by Benjamin N. Nelson, general studies associate professor.

March 13 -- panel discussion on "Art as Wisdom and Document", Allen J. C. Tate, English professor, moderator.

POTTERY EXHIBIT
TO OPEN FEB. 3
IN 'U' GALLERY

(FOR RELEASE SUNDAY, JAN. 29)

An exhibition of pottery by Bernard Leach, Shojie Hamada and the English potters will open Friday (Feb. 3) in the University Gallery in Northrop Memorial auditorium on the University of Minnesota campus. The exhibit will fill the cases on the third floor of the auditorium.

Leach, an Englishman, studied pottery in Japan, and he and Hamada worked together for a number of years. Not new to the Twin Cities, they conducted a pottery class in St. Paul several years ago.

Both men prefer to use natural color glazes. Their emphasis is on simple shapes and earth colors rather than on elaborate decoration.

The 30-piece exhibit from the University Gallery collection and local private collections will be on display through February.

'U' LECTURE SERIES
ON WORLD POLITICS,
RELIGION PLANNED

(FOR IMMEDIATE RELEASE)

Minneapolis --- Religion's effect on foreign policies of the world's nations will be the subject of a winter lecture series sponsored by the University of Minnesota general extension division in cooperation with the Minnesota World Affairs Center.

The first of six lectures on "Religion and World Politics" will be presented Thursday, Feb. 9. The weekly programs will be held at 8 p.m. Thursdays through March 15 in the auditorium of the Minnesota Museum of Natural History on the University campus. Coordinator for the series is William C. Rogers, Minnesota World Affairs Center director.

"Religion and American Foreign Policy" will be discussed in the first program Feb. 9 by Clarke A. Chambers, assistant professor of history.

John B. Wolf, history professor, will talk on "Catholicism and Politics in France" on Feb. 16. "Judaism and Politics in Israel", subject of the Feb. 23 lecture, will be presented by Rabbi Gunther W. Plaut of Mount Zion Temple in St. Paul and president of the Minnesota Rabbinical association.

Lectures in March will be "Hinduism and Politics in India" by George P. Conger, professor emeritus of philosophy, March 1; "Buddhism and Politics in Burma" by Robert F. Spencer, associate professor of anthropology, March 8; and "Islam and Politics in Malaysia" by Jan O. M. Broek, professor and chairman of the University's geography department, March 15.

Registration is for the series only; no individual lecture tickets will be sold. Registration may be made in person or by mail at any general extension division office: 555 Wabasha st., St. Paul; 690 Northwestern Bank building, Minneapolis, or 57 Nicholson hall on the University campus, or at the door in advance of the first lecture.

NEW YORK CHOIR
GIVES CONVOCATION
AT U THURSDAY

(FOR IMMEDIATE RELEASE)

The New York Concert Choir will present a choral convocation program at 11:30 a.m. Thursday (Jan. 26) in Northrop Memorial auditorium at the University of Minnesota.

Under the direction of Miss Margaret Hillis, the 35-voice choir will sing a program of well-known major choral works interspersed with less familiar masterpieces and compositions by contemporary composers.

Formed in 1950 with choristers who had studied at the Berkshire Music Festival in Tanglewood, Mass., the group was originally known as the Tanglewood Alumni Chorus. Activities were expanded until, in 1952-53 under its present name, the Concert Choir, composed entirely of professional singers, gave its first major series of four concerts at the New York Town Hall and assisted in the first performance by the New Friends of Music of Stravinsky's "Cantata on Elizabethan Airs". The choir also performed in Town Hall with the American Chamber Opera society, of which Miss Hillis is choral director.

Another series of four concerts at Town Hall and three more appearances with the American Chamber Opera society as well as two concerts at the Metropolitan Museum to open its Baroque Music Festival and the new Grace Rainey Rogers auditorium were presented in the 1953-54 season.

Miss Hillis, the choir's director and conductor, is a graduate of Indiana university school of music, and she studied at Tanglewood and with Robert Shaw at the Juilliard School of Music. Besides serving as assistant conductor of the Collegiate Chorale, she has been a member of the music faculties of the Juilliard School of Music and Union Theological Seminary and she has conducted numerous choral clinics throughout the country.

HEALTH FORUM
AT LYCEUM SUNDAY
OPEN TO PUBLIC

(FOR IMMEDIATE RELEASE)

Minneapolis physicians and University of Minnesota doctors will answer the public's questions about heart and blood pressure at the first of three Minneapolis health forums on "You and Your Health" Sunday (Jan. 29) at 4 p.m. in the Lyceum theater.

The program, free to the public, is sponsored by the Minnesota Medical Foundation, Hennepin County Medical society, Minneapolis health department and the Minneapolis Star.

Answering previously-submitted questions on heart and blood pressure will be a panel composed of Dr. Reuben A. Johnson and Dr. Harold Miller representing the Hennepin County Medical society and Dr. Louis Tobian and Dr. Richard L. Varco representing the University of Minnesota medical school faculty. Chairman of the forum will be Dr. Robert E. Priest, Hennepin County Medical society president, and Dr. C. J. Watson, professor and head of the University of Minnesota's department of medicine.

Members of the woman's auxiliary to the Hennepin County Medical society will usher at Sunday's program.

Health forums will be held on "miracle drugs" Feb. 19 in the Lyceum theater and on cancer March 22 in Northrop Memorial auditorium on the University of Minnesota campus.

PUBLIC LIBRARY
INSTITUTE AT 'U'
SET FOR APRIL

(FOR IMMEDIATE RELEASE)

Minneapolis --- Library materials will be the subject of an institute scheduled for April 12 to 14 at the University of Minnesota Center for Continuation Study.

Public librarians from the Midwest will attend this institute sponsored by the center and the University of Minnesota library school with the cooperation of the Minnesota Library association, the library division of the State Department of Education and the Minnesota League of Municipalities. This is one of a series of schools presented annually for municipal officials by the League of Municipalities and the Center for Continuation Study.

Emphasis at the two-day session will be on selection and evaluation of public library materials for adults.

The complete institute program will be issued soon by the University of Minnesota Center for Continuation Study.

SIMPLIFYING WORK
OBJECT OF NURSING
INSTITUTE AT U OF M

(FOR IMMEDIATE RELEASE)

Work simplification will be the aim of midwest nurses attending the nursing service administration institute Thursday and Friday, Feb. 9 and 10, at the University of Minnesota Center for Continuation Study.

The program will include skits by nursing service administration students showing various procedures that have been simplified.

Stanley M. Block, mechanical engineering lecturer, will speak to the nurses on the principles of work simplification, and Edith Lentz, University School of Public Health assistant professor who has done research in the area of human relations, will discuss getting acceptance for simplification.

BRITISH AUTHORITY ON JUVENILE DELINQUENCY
TO SPEAK AT 'U' LAW SCHOOL TUESDAY

(FOR IMMEDIATE RELEASE)

Sir Basil Henriques, British authority on juvenile delinquency, will discuss the work of a British juvenile court magistrate at 2 p.m. Tuesday (Jan. 31) in the University of Minnesota law school, 101 Fraser hall. The public is welcome to attend.

Sir Basil, 65, retired last November after 18 years as chairman of the East London juvenile court. He is the author of several books on juvenile delinquency, including "The Home-Menders" published in July, 1955, and he is founder of the Oxford and St. George's Club for Jewish Boys at Stepney, a girls' club and the Bernhard Baron Settlement.

Educated at Harrow, Sir Basil spent a year in France before entering University college, Oxford. An adherent of liberal Judaism, he became secretary of the Oxford Synagogue while still an undergraduate.

He was appointed justice of the peace in 1924, and the same year became magistrate in the East London juvenile court. He began his service as chairman of the court in 1937. Sir Basil is also vice chairman of the National Association of Boys' Clubs, vice president of the World Union for Progressive Judaism and president of the British Diabetic association. He received the C. B. E. in 1948 and was knighted in January 1955.

An extensive traveler, Sir Basil visited the United States twice previously -- in 1926 and 1942. He also has visited New Zealand, Australia and Sweden to study methods of combating juvenile delinquency in those countries and has carried out similar studies in Jamaica, Barbados and other territories at the request of the colonial office.

EDDY GILMORE,
A.P. CORRESPONDENT,
TO LECTURE AT 'U'

(FOR IMMEDIATE RELEASE)

A first-hand "Report on Europe" will be presented by Eddy Gilmore, Associated Press foreign correspondent, at the University of Minnesota convocation Thursday (Feb. 2). The program will be at 11:30 a.m. in Northrop Memorial auditorium on the campus and is open to the public without charge.

For 11 years AP bureau chief in Moscow, Gilmore now is assigned to cover important events in Europe with headquarters in London. Last spring he covered the Geneva conference. While in Russia, he was awarded the Pulitzer prize for his interview with Premier Joseph Stalin at the start of the Big Four talks.

Gilmore's Russian experiences were recorded in his book, "Me and My Russian Wife", and he frequently lectures in this country about his observations behind the Iron Curtain. However, he says he is not an "expert" on the Soviet Union, defining an expert as one who has spent less than two weeks or more than 20 years in Russia!

Gilmore got his start in the newspaper world as a newsboy selling the Times-Journal in Selma, Ala., where he was born in 1907. He was graduated from the Carnegie Institute of Technology in 1928 and got his first reporting job on the Atlanta Journal. Next he moved to Washington as a publicity man and later to the staff of the Washington Daily News.

In 1935, he joined the Associated Press in Washington. Seven years later, he was assigned to London to write about the war efforts of Great Britain and Russia, where he went the following year.

In Moscow, Gilmore met and married a Russian ballerina, Tamara Chernashova. They have two daughters.

Thursday's convocation is sponsored by the University's department of concerts and lectures. Gilmore's talk will be preceded at 11 a.m. by an organ recital by Arthur B. Jennings, music professor and University organist.

MIDWEST HEALTH
AGENCY OFFICIALS
WILL CONFER AT 'U'

(FOR IMMEDIATE RELEASE)

Representatives of midwest voluntary and official health agencies will share common problems at an institute Monday and Tuesday (Feb. 6 and 7) at the University of Minnesota Center for Continuation Study.

Needs and wants of the community will be discussed by the group, composed principally of executive directors of health agencies. Other topics will include various phases of program planning, the use of records and reports, responsibilities of agency staff and volunteer workers and the use of community resources.

Levitte Mendel, director of health education, department of health and hospitals, Denver, Colo., will speak on "Agency Responsibilities in Health Education". Also on the institute faculty is Wallace Fulton of New York City, public health associate of the Equitable Life Assurance society's public health bureau.

The institute will be presented by the Center for Continuation Study and the University School of Public Health in cooperation with numerous voluntary and official health agencies.

PHOTOS, GERMAN
ART ON EXHIBIT
AT 'U' GALLERY

(FOR RELEASE SUNDAY, FEB. 5)

Photography and German art are featured in two exhibits opening this week in the University of Minnesota Gallery in Northrop Memorial auditorium.

More than 100 watercolors, drawings and prints representing German art from 1905 to 1955 will be displayed Wednesday (Feb. 8) through March 2 on the fourth floor of the auditorium. This exhibit, "A Mid-Century Review", is circulated by the American Federation of Arts.

Friday (Feb. 10) "Fifty Great Photographs", sent from the Museum of Modern Art in New York, will be exhibited in the third floor central corridor. Included in these documentary photographs are the works of such photographers as Berenice Abbott, Mathew Brady, Henri Cartier-Bresson and Walker Evans. The exhibit will be shown through March 2.

Also displayed this week in Northrop's third floor west corridor is the work of University drawing and design students. This exhibit is the first of a series, to run through June 8, showing the work of students in various University art classes.

'U' PARKING RAMP
TO OPEN THURSDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Opening of the University of Minnesota's new seven-level, block-long parking ramp on Washington avenue between Union and Harvard streets is scheduled for 10 a.m. Thursday (Feb. 2), according to C. B. Hanscom, director of the University's department of protection and safety.

University Sno Queen Mary Mork, college of education junior from Anoka, will cut a ribbon across the ramp entrance permitting the first car to enter.

The ramp will accommodate a maximum of 491 cars, Hanscom reported. The two lower levels of the open-air garage will be restricted to self-service contract parking, while the upper levels will be available on an hourly basis. Parking of cars on upper levels will be done by attendants. Ramp charges will be 25 cents for the first hour and 10 cents for each additional hour.

Cost of the new ramp, construction of which was started last May, was approximately \$450,000, exclusive of land costs, according to Roy V. Lund, the University's supervising engineer. The project is being financed out of receipts of University services including parking.

UNIVERSITY THEATER
TO STAGE COMEDY,
'HAUNTED HOUSE'

(FOR IMMEDIATE RELEASE)

"The Haunted House", first Roman comedy to be staged "in the round" by the University Theater, will open Wednesday (Feb. 8) and run through Sunday, Feb. 12, in the Shevlin hall Arena Theater on the University of Minnesota campus. Performances will be at 8:30 p.m. Feb. 8-11 and at 3:30 p.m. Feb. 12.

Plautus' comedy is the story of a rich man's prodigal son who raises "whoopie" while his father is gone. His extravagant behavior consists of a regular circus of variety acts, including Charleston dancers and ukulele players.

Director of "The Haunted House" is Merle W. Loppnow, and Donald Borchardt is in charge of production details.

Tickets may be purchased at the Scott hall box office on the campus; Downtown Ticket office, Northwestern Bank building, in Minneapolis, and Field-Schlick in St. Paul.

STATEMENT OF DR. JAMES LEWIS MORRILL,
PRESIDENT, UNIVERSITY OF MINNESOTA
RE DEATH OF DR. WALTER CASTELLA COFFEY (JAN. 31, 1956)
FEBRUARY 1, 1956.

The birthday greetings many of us had expected to send to Dr. Coffey today, expressing again our deep respect and warm regard, he cannot receive. But happily he knew so well the high place he held in our affection and in the esteem of the people of Minnesota whom he served so long and with such devotion in his distinguished career as dean and as president of the University. Despite his age and illnesses that troubled his recent years, he continued to serve our own and Hamline university with unflagging zeal and energy.

Sincerely, we are grateful for the example of his shining integrity and his abiding commitment to the education of youth and the advancement of teaching, research and public service.

To Mrs. Coffey and his family I would express the sympathy and understanding of all of us in the University who cherish the high privilege of association with him.

'U' HIGH STUDENT
WINS IN SCIENCE
TALENT SEARCH

(FOR IMMEDIATE RELEASE)

John Howland Campbell, 17, University High school student, is one of three Minnesota high school seniors to win a five-day trip to Washington, D. C., and a chance at \$11,000 in scholarships in the Science Clubs of America's 15th annual Science Talent Search.

John is the son of Professor and Mrs. Berry Campbell, 153 Orlin Ave., S.E., Minneapolis. Campbell is associate professor of anatomy at the University of Minnesota.

Other Minnesota winners are Dwight Thomas Hoxie, 18, of Wayzata, Mound Consolidated High school, and Thomas William O'Brien, 17, of Rochester, Lourdes High school.

With 37 other high school students, the three Minnesota boys will spend March 1-5 in Washington, D. C., and attend the Science Talent institute.

One of the eight girls and 32 boys will receive the \$2,800 Westinghouse grand science scholarship. Other scholarships, bringing the total to \$11,000, will range from \$100 to \$2,000. The talent project seeks to discover and develop scientific ability among high school seniors.

RADIO, TV NEWS
COURSE TO OPEN
FRIDAY AT U OF M

(FOR IMMEDIATE RELEASE)

Minneapolis --- Midwest radio and television newsmen will meet in Minneapolis Friday and Saturday (Feb. 10 and 11) to discuss common problems at the University of Minnesota's 10th annual radio-television news short course.

Two of Friday's principal speakers are familiar figures in Minnesota. Luncheon speaker Graham Hovey is a former member of the University of Minnesota journalism faculty, and Joseph Meyers of New York, National Broadcasting company news manager, was on the KSTP staff some 15 years ago.

Hovey, now teaching at the University of Wisconsin, will have as his subject, "How Well Do We Cover European News?" at the 12:30 p.m. luncheon Friday in the junior ballroom of Coffman Memorial Union. Hovey is a former International News Service war correspondent and a former member of the Associated Press Washington bureau.

Meyers will take part in a discussion of the relationship between the local newsroom and the network news shows. Newsmen from Twin Cities' and other midwestern stations will participate in programs on news coverage in such areas as juvenile misbehavior and labor unions, the extent to which the newsman should be writer, reporter and reader and the content of competing radio and TV shows. Representatives of award-winning newsrooms will tell how they did it at a Friday morning session. All meetings will be held in the Murphy hall auditorium.

Speaker at the 7 p.m. dinner Friday night in the Hotel Nicollet junior ballroom will be John F. Day of New York, Columbia Broadcasting System director of news. Day will discuss the question, "News on the Air -- Where Is It Heading?" News awards and a scholarship also will be awarded at the dinner.

The Northwest Radio-TV News association will conduct its annual business meeting at 11:15 a.m. Saturday.

YALE PROFESSOR
TO LECTURE AT 'U'
ON ANCIENT SCRIPT

(FOR IMMEDIATE RELEASE)

New discoveries in Greek culture and language will be described by Professor Emmett Bennett, Jr., of Yale university in an illustrated lecture Monday evening (Feb. 6) at the University of Minnesota. Bennett will speak at 8:30 p.m. in Murphy hall auditorium.

His program is entitled "The Decipherment of the Minoan-Mycenean Script: A New Chapter in European History". The Minoan-Mycenean Linear-B script has proved to be the system used to write the Greek language about 1400-1200 B.C. Its decipherment has pushed back present-day knowledge of the status of the language and many aspects of Greek culture at least 400 years before the Homeric poems.

The leading authority on this new discovery, the speaker is responsible for publishing the inscribed clay tablets found by Professor Carl Blegen at Pylos in southwest Greece. He is working with Michael Ventris, English scientist who first deciphered the script in 1953. This year Bennett is doing further work on the tablets at the Institute for Advanced Study under a Guggenheim fellowship.

The lecture is sponsored by the University's college of science, literature and the arts and the department of concerts and lectures.

RUSSIAN SCIENTISTS,
STUDYING POLIO IN U.S.,
TO VISIT UNIVERSITY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Four Russian medical scientists will visit the University of Minnesota medical school Thursday and Friday (Feb. 9-10) as the last stop on their month-long tour of the United States to study polio prevention and treatment.

At the University, the Russians will visit the Mayo Memorial building laboratories of Dr. Jerome T. Syverton, head of the department of bacteriology and immunology, to examine his work in continuous human cell culture in test tubes.

All from the Academy of Medical Sciences of the Soviet Union, the four visitors are: Anatolii A. Smorodintsev, director of the department of virology in the Institute of Experimental Medicine; Lev I. Lukin, a scientist at the academy; Mikhail P. Chumakov, director of the Poliomyelitis Research institute; and Marina K. Voroshilova, senior research worker at the institute. Two guides from the United States Public Health Service are accompanying the Russians.

Also on the group's itinerary were visits to Dr. Jonas Salk at Pittsburgh, Pa., the Yale university medical school, New Haven, Conn., Children's Hospital Research foundation, Cincinnati, O., Johns Hopkins university medical school, Baltimore, Md., the National Institutes of Health, Bethesda, Md., and the Children's hospital, Boston, Mass.

CEDAR CREEK FOREST, NATURAL HISTORY
RESEARCH AREA IN ANOKA, ISANTI COUNTIES,
BEING DEVELOPED THROUGH GRANT TO 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Recent purchases by the University of Minnesota of land in northern Anoka and southern Isanti counties east of Highway 65 have directed attention to the current enlargement and development of the Cedar Creek Forest, a unique outdoor research laboratory for the study of natural history.

Since 1942, the Forest has been a joint undertaking of the University and the Minnesota Academy of Science, an organization primarily of professional scientists and teachers of science in Minnesota colleges and high schools.

The Cedar Creek Forest project has been evolving gradually since members of the Academy first became interested in the area in the late 1930s, but a \$250,000 grant to the University in 1954 by the Max C. Fleischmann Foundation of Nevada is making it possible to bring this botanical and zoological laboratory much nearer to completion, William T. Middlebrook, business vice president of the University, reported today.

Purposes of the grant and the amount apportioned for each by the foundation are: \$165,000 for the acquisition of additional land; \$10,000 for operating and maintenance expenses; and \$75,000 for the construction of a headquarters-laboratory building which will be started this spring.

Cedar Creek Forest, an area of more than 3,000 acres 30 miles north of the University's Minneapolis and St. Paul campuses, includes the surviving southernmost outpost of the Canadian type of forest closest to the Twin Cities, according to Arthur N. Wilcox, University horticulture professor and director of the project.

Dense stands of white pine, old jack pines and a grove of tall Norway or red pine occur on the uplands, and tamarack, white cedar and black spruce abound in the swamps. Tracts of hardwood forest, open meadows and clearings now grown to prairie vegetation are scattered through the area. The preserve boasts several small lakes and is traversed by a substantial stream, Cedar creek, a tributary of the Rum river.

(MORE)

Mammals and birds of the northern evergreen forest and those of the southern hardwood forest meet at Cedar creek, explained Professor Wilcox. Deer are abundant, beavers work along the creek, and grouse and waterfowl are common. Rare species of plant, animal and bird life also are found in the preserve.

Survival of this refuge, Professor Wilcox believes, may have been due in part to its separation from the main body of the forest, cut down long ago, and in part to its isolation from fires by surrounding swampland.

As far as possible, the area is to be left in its natural wild condition with a minimum of management or disturbance, according to the director. Some work will be done along the borders for protection purposes, and a limited amount of replanting may be undertaken.

The proposed building will provide laboratory facilities for scientific research which will be carried on at the Forest. It also will provide an office for a resident supervisor and overnight accommodations for small groups.

Participation in the approved uses of the Forest is not limited to the University, but is available to scientists and students of other colleges and institutions and to qualified individuals. The area is not intended for recreational activities, the director emphasized.

"Permanent dedication of this area to research and educational purposes permits long-range planning and makes possible a type of biological research that is now little developed," Wilcox stated. "The dynamic nature of plant life and animal populations and their distribution can be studied in both space and time. Adequate mapping is an essential part of this program. Complete biological surveys are proposed for selected areas -- to be carried out gradually as qualified workers become available for evaluation of a single species or group of species. The integration of their findings, supplemented by periodic aerial surveys, should lead to a far better understanding of the interrelationships and dynamics of nature."

(MORE)

The Minnesota Academy of Science collaborates with the University in fostering the scientific uses of the preserve. The Forest is administered by the University's graduate school through the director and with the advice of committees from the University and the Academy. The University advisory committee consists of Professor Dwight E. Minnich, chairman; Dean Theodore C. Blegen of the graduate school, ex officio member; and Professors Walter J. Breckenridge, J. J. Christensen, A. Orville Dahl, Frank H. Kaufert and C. E. Mickel.

Members of the Academy committee are: Paul Rudolph, United States Forest Service, St. Paul; Professor Max Partch, State Teachers college, St. Cloud; and Professor Arthur Nash, Augsburg college, Minneapolis.

Recalling the background of the Cedar Creek Forest development today, Professor Wilcox stated that the need of an outdoor laboratory in Minnesota which would be dedicated permanently to natural history work had long been felt. In the late 1930s, members of the Academy recognized this area as having unique advantages in the variety of its plant and animal life, its wild condition, central location and year-around accessibility. They began to plan and act for its preservation.

Purposes for which the area could be used as well as its location, Professor Wilcox said, suggested the desirability of University ownership. In 1942, at the request of the Academy, the Regents of the University agreed to accept certain lands in the area which had been or would be acquired by the Academy and to administer the area "so as to encourage its wise use for scientific and educational purposes".

Research was already being carried on in the area at that time, and soon afterwards, science instructors from the University and from other colleges in the state were taking their classes to the Forest for field work.

The first 40-acre tract was bought with funds raised by subscription from about 25 members of the Academy. The organization of scientists then obtained donations ranging from \$5 to \$1,600 and from 40 to 130 acres of land from individuals and groups. Land acquired by gift or purchase was deeded to the University.

(MORE)

When the Greater University Fund was established in 1948, nine departments of the University joined in a request that funds be sought for the completion of the Cedar Creek Forest project. Finally, in 1954, the Fleischmann Foundation responded favorably to the Greater University Fund's application and provided \$250,000 for the project.

Following comments on the Cedar Creek Forest project were made today by President J. L. Morrill of the University, President William H. Marshall of the Minnesota Academy of Science and Dean Blegen:

President J. L. Morrill, University of Minnesota:

"The University of Minnesota is proud and grateful to be a partner with the Minnesota Academy of Science and the Max C. Fleischmann Foundation of Nevada in the realization of this enterprise in natural history that will mean so much to scholars, students, and conservation-minded persons. In carrying forward the work that is projected, we welcome the participation of all colleges and teachers, and of biologists generally, for this is a broad endeavor and a significant challenge to public service."

President William H. Marshall, Minnesota Academy of Science:

"It is gratifying to the Minnesota Academy of Science to witness the maturity of the Cedar Creek Forest project with its rich promise to science and education. It should do much to increase the competence of natural scientists and to improve the understanding that is basic to the wise management and conservation of our living resources.

"In acknowledging the major roles of the University and the Fleischmann Foundation in this undertaking, the Academy wishes to thank all who have contributed to its success, including the many residents of Anoka and Isanti Counties. The project may hold special significance to them because the area contains tracts that are representative of the Anoka Sand Plain, a region of more than 1200 square miles extending from

(MORE)

the Twin Cities to St. Cloud and eastward to the St. Croix River, which is often submarginal for agriculture and therefore in special need of research to develop its greatest values."

Dean Theodore C. Blegen, Graduate School, University of Minnesota:

"The Cedar Creek Forest project greatly enhances the facilities in this general region for productive studies in natural history. It presents a unique opportunity both for new scientific discoveries and for the education of scholars in this highly important field. In fact, uses already made of the Cedar Creek Forest land in the interest of scholarship have been impressive, drawing on an area that is marginal for ordinary agricultural purposes. So this movement is an occasion for both University and state-wide appreciation and pride. The scientific potentialities of the region are almost limitless."

MET AUDITIONS
FINALISTS AT 'U'
CONVOCATION MONDAY

(FOR IMMEDIATE RELEASE)

Finalists in the third regional Metropolitan Auditions of the Air will be presented at a special convocation at 8 p.m. Monday (Feb. 13) in Northrop Memorial auditorium at the University of Minnesota. The program is free and open to the public.

Winner, runner-up and those receiving honorable mention will be announced by John Gutman of the Metropolitan Opera company staff. Five to seven singers will compete in the finals.

Gutman also will speak on the selection and training of opera stars, and he will discuss the operas to be presented by the Metropolitan this spring in Northrop auditorium.

Soprano Ethel Wagner DeLong, winner of the first regional auditions, will sing.

Local chairmen of the auditions are Mrs. F. K. Weyerhauser of St. Paul and James S. Lombard, director of the University of Minnesota department of concerts and lectures.

UNIVERSITY NURSES
TO STAGE CARNIVAL
FRIDAY EVENING

(FOR IMMEDIATE RELEASE)

University of Minnesota student nurses will show how women have gotten their men through the years in "Golden Earrings", the main show of their annual carnival to be held from 7 p.m. to midnight Friday (Feb. 10) in Powell hall, 500 Essex street; S. E.

Free parking is provided for carnival-goers in the lot across from Powell hall.

Three performances of "Golden Earrings" will be presented -- at 7:30, 9:20 and 10:30 p.m.

Other features of the "Romany Riot" carnival, all with a gypsy theme, will include concessions, side shows and refreshment booths. Among the popular concessions in past years to be repeated is a backrub booth attended by student nurses.

Admission is 10 cents, and each carnival event also costs a dime. Carnival goers will register for a grand prize of a television set.

Carnival proceeds will be used for nurses' scholarships and to send a nursing student to the International Student Nurses' conference in Rome, Italy, next year.

UNIVERSITY TO HOLD
CANCER DETECTION
COURSE FOR DOCTORS

(FOR IMMEDIATE RELEASE)

Cancer detection will be the subject of a two-day course for general physicians Thursday and Friday, Feb. 16 and 17, at the University of Minnesota Center for Continuation Study. Sponsors of the course are the University and the Minnesota division of the American Cancer society.

Detection of various cancers -- including skin, lung, ear, nose, throat, and breast cancers -- will be discussed.

Dr. Harry S. Penn, clinical associate professor of radiology at the University of California at Los Angeles medical school, will speak to the physicians twice Thursday (Feb. 16). At 10 a.m., he will discuss laboratory diagnosis of cancer, and at 8 p.m., he will deliver the C. M. Jackson lecture on "The Significance of the Sero-Flocculation Reaction in the Diagnosis of Cancer". The public is invited to attend the Jackson lecture to be held in the Mayo Memorial auditorium in the University's medical center.

In charge of the program are Dr. Owen H. Wangensteen, professor and chairman, department of surgery, and Dr. W. A. Sullivan, director, cancer detection center.

FILMS ON MAKING
GLASS AT U. OF M.
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

The art of glass making will be described in two color films to be shown at 3 p.m. Sunday (Feb. 12) in the University of Minnesota Museum of Natural History. The program is free to the public.

"Glass and You", telling the history of glass, will show various uses of glass and experiments that led to its production. The second film, "Glass Center of Corning", will feature the New York museum where historic pieces of glass from the pre-Christian era to the present day are displayed. Also, Steuben glass craftsmen will demonstrate their art in this film.

"The Wetlands -- Wildlife Problem" is the title of the Feb. 19 Museum program, which will feature James Kimball, director of game and fish, Minnesota department of conservation.

KOREAN EDUCATORS
WILL BE HONORED
AT 'U' TEA TUESDAY

(FOR IMMEDIATE RELEASE)

Forty-three faculty members of Seoul National University of Korea now studying at the University of Minnesota will be honored at a public tea Tuesday (Feb. 14) from 4 to 5:30 p. m. in the men's lounge of Coffman Memorial Union.

At the tea, Dr. Bernhard M. Christensen, Augsburg college president and co-chairman of the Minnesota UNESCO stamp project, will present \$1,500 in UNESCO gift coupons to one of the Koreans, Byong Ho Chin. The coupons will be sent to Korea, where they will be presented to Seoul university president Dr. Kyu Nam Choi.

The Minnesota UNESCO committee was sending aid to Korea through gift coupons even before the University of Minnesota undertook the cooperative project with the Seoul university in 1954.

Gift coupons mean books, films, science research materials and other supplies to the Koreans. A 25-cent UNESCO gift stamp means a textbook written in the native language, a writing pad and a pencil.

Dean E. W. McDiarmid of the University's college of science, literature and arts and Minnesota UNESCO committee chairman will introduce state members of the UNESCO National commission. Minnesota groups participating in the stamp project will be named by Mrs. George B. Palmer of Minneapolis, project co-chairman.

Seoul university faculty members will be introduced following a talk on the printing press -- development of which was made possible by Koreans -- by Professor Tracy F. Tyler, coordinator for the International Cooperation administration and Seoul National University of Korea Cooperative administration.

KUOM TO BROADCAST
STATE CENTENNIAL
CELEBRATION SERIES

(FOR IMMEDIATE RELEASE)

In celebration of Minnesota's state centennial year, KUOM will initiate a new radio series Tuesday (Feb. 14). Entitled "Let's Take a Look at Our Minnesota and Its People", the 13 quarter-hour programs will be aired at 2:15 p.m. each Tuesday.

Prehistoric volcanoes, the 20,000-year-old skeleton of the Minnesota Man and the Kensington Runestone mystery are some of the aspects of state history to be featured. Tales of steamboat races and prairie fires also will be told in the programs designed especially for students in the intermediate grades.

John Bens, former Minneapolis teacher now on the staff of Oakland Junior college, is author of the radio scripts.

Manuals for the series and any further information can be obtained by contacting KUOM, University of Minnesota, Minneapolis 14, Minn. The telephone number is Federal 2-8158, extension 6585.

MIDWEST PHYSICAL
EDUCATION TEACHERS
WILL CONFER AT 'U'

(FOR IMMEDIATE RELEASE)

Physical education teachers in the midwest and central states will study the meaning of democracy through physical education at a two-day institute Friday and Saturday, Feb. 17 and 18, at the University of Minnesota.

Jay B. Nash of Brigham Young university, Provo, Utah, will be the keynote speaker at the annual mid-winter institute of the University department of physical education for women and the general extension division. Nash, dean of the college of recreation, physical and health education, and athletics, will discuss "The Skill-Learning Years" at 7:30 p.m. Friday (Feb. 17) in Murphy hall auditorium.

Prior to joining the Brigham Young staff in 1954, Nash was on the faculty of New York university where he was professor and department chairman. He also has served as director of physical education for the State of California and as Oakland, Calif., superintendent of recreation.

Conductor of the first world seminar on physical education, health, recreation and youth work in 1952 in Helsinki, Finland, Nash has traveled and lectured extensively in Europe and Asia. He has received recognition for notable service from such groups as the Royal Hungarian College of Physical Education in Budapest and the sports club of Iran.

The institute will include demonstrations on leadership through physical education and democratic group membership by Phillips Junior high and Burroughs school students of Minneapolis. Panel discussions will be conducted on democratic procedure in the elementary school and extra-curricular activities at secondary and college levels. Sessions will be held in Norris gymnasium at the University.

STRAUB TO ADVISE
BUILDERS OF HUGE
DAM IN EGYPT

(FOR IMMEDIATE RELEASE)

Lorenz G. Straub, director of the University of Minnesota's St. Anthony Falls hydraulic laboratory and head of civil engineering, will have a part in the biggest single project ever built by man -- Egypt's Aswan high dam.

Straub has been named by the Egyptian Ministry of National Production, Saad-El-Ali Authority in Cairo to serve on the board of consultants for the dam being constructed on the Nile river. He will give technical advice for the project, described by Egyptian Premier Gamal Abdel Nasser as "more magnificent and 17 times greater than the Pyramids".

Construction of the dam -- to be 250 feet high at its center and more than three miles wide -- will make possible a constant level of water running through the Nile valley, thus saving water and preventing widespread flood damage.

Straub also serves as consultant for a number of other engineering projects including the St. Lawrence seaway and the International Boundary and Water commission between the United States and Mexico.

Minneapolis ---

has an active part in the University of Minnesota's Greek Week activities at the University of Minnesota this week and next.

Greek Week started Tuesday (Feb. 14), with drives on campus and in the Twin City area to raise money for Radio Free Europe and the Free Europe Press operations in Communist countries. Last year, University sorority and fraternity members raised \$7,500 for Radio Free Europe in the first college crusade. This year, more than 30 schools throughout the United States have joined the College Crusade for Freedom.

The community and social program of Greek Week will begin Sunday (Feb. 19) with a song fest and crowning of the Greek Week queen. Activities scheduled for next week include the Tunic Twirl, when the campus Greeks don togas for their annual dance; Greek Olympics, featuring chariot race and javelin throw; and a variety show.

Discussion sessions planned throughout the week between independent students, Greeks, alumni and faculty will deal with fraternities and sororities and their purposes in the modern world. Wednesday, Feb. 22, Greeks will work out in the community -- at settlement houses, hospitals, homes for the aged.

FRENCH ORGANIST
TO PLAY RECITAL
AT 'U' SATURDAY

(FOR IMMEDIATE RELEASE)

Jean Langlais, blind composer and organist from the Basilica of Ste. Clotilde in Paris, will present a free public organ recital Saturday (Feb. 18) evening at the University of Minnesota. His program, at 8:30 p.m. in Northrop Memorial auditorium, will include an improvisation on themes submitted to him by local organists.

Langlais was born in Brittany, France. He studied with André Marchal at the National Institute for the Young Blind in Paris, and, later at the Paris Conservatory of Music, he worked with Marcel Dupré and studied orchestration with Paul Dukas. It was Charles Tournemire's dying wish that Langlais succeed him as organist at Ste. Clotilde Church.

Langlais will include a group of his own compositions on the program Saturday. His appearance is sponsored by the Minnesota chapter of the American Guild of Organists and the University of Minnesota departments of music and concerts and lectures.

'MIRACLE DRUGS'
SUBJECT OF PUBLIC
HEALTH FORUM

(FOR IMMEDIATE RELEASE)

Penicillin, sulfa, cortisone, antihistamines and other drugs working wonders in the fight against many of today's illnesses will be the subject of Minneapolis' second health forum at 4 p.m. Sunday (Feb. 19) in the Lyceum theater. The program is free to the public.

Dr. Karl Lundeberg, Minneapolis health commissioner, will serve as chairman of the miracle drugs forum. Moderator of the panel discussion will be Dr. Robert B. Howard, director of continuation medical education at the University.

Answering questions submitted by the public in advance will be panel members Dr. Wesley W. Spink, professor of medicine and Minnesota Medical foundation president, and Dr. Donald W. Hastings, head of psychiatry, both of the University of Minnesota, and two Minneapolis physicians representing the Hennepin County Medical society, Dr. O. L. N. Nelson and Dr. Ephraim Cohen.

A similar forum on miracle drugs will be presented in St. Paul Friday, Feb. 24, in the theater section of the St. Paul auditorium. Dr. Albert E. Ritt of St. Paul will be chairman, and Dr. Howard will moderate. Panel members will be Dr. Herman Wolff and Dr. Ben Sommers of the Ramsey County Medical association and Dr. Spink and Dr. Hastings.

The third and final health forum March 22 in Northrop Memorial auditorium at the University of Minnesota will be on the subject of cancer.

SWEDISH DRAMA
AT 'U' THEATER
STARTING THURSDAY

(FOR IMMEDIATE RELEASE)

The English premiere of the Swedish play, "Perhaps a Poet", will be presented Thursday (Feb. 16) by the University Theater. Performances will be at 8:30 p.m. Feb. 16-18 and Feb. 22-25 and at 3:30 p.m. Feb. 21 and Feb. 26 in Scott hall at the University of Minnesota.

The play was written by Swedish playwright Ragnar Josephson and translated by Holger Lundbergh.

A mixture of comedy and serious drama, "Perhaps a Poet" is the story of a cloakroom clerk who, when his make-believe world is shattered, finds he is unable to face reality.

Robert D. Moulton is director, and settings are by Wendell Josal. Production consultant is Professor Alrik Gustafson, chairman of the University's Scandinavian department.

Tickets can be purchased at the Scott hall box office on the campus, Downtown Ticket office in Minneapolis and Field-Schlick in St. Paul.

'U' GREEK WEEK
CONVOCATION SET
THURSDAY AT 11:30

(FOR IMMEDIATE RELEASE)

The story of Radio Free Europe and its part in the conflict between East and West will be interspersed with music at the University of Minnesota Greek Week convocation at 11:30 a.m. Thursday (Feb. 16) in Northrop Memorial auditorium.

For the second year, University social fraternities and sororities are sponsoring a drive to aid Radio Free Europe as part of their Greek Week activities. Last year they raised \$7,500 for the project.

Greek Week and College Crusade for Freedom co-chairmen Marilyn Christie and Mike Streit will open the program, after which Harold C. Deutsch, University history professor, will comment on East-West relations, basis for the existence of Radio Free Europe and the Free Europe Press. Other speakers will be Samuel C. Gale, chairman of the Minnesota State Crusade for Freedom, and Marge Baum of the Greek Week committee.

Schiek's Sextet and the Minneapolis Piano Quartet will provide the musical part of the program. The sextet will sing selections from Sigmund Romberg's "The Student Prince".

Members of the piano quartet are Helen Grotte Keidel, Elsie Wolf Campbell, Theodore Bergman and James Allen, all members of the MacPhail School of Music faculty. They will present a varied program.

UNIVERSITY MARKS
105th ANNIVERSARY

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota is celebrating its 105th year this week with a special convocation, store window displays and a statewide speaking program. Feb. 20-26 has been proclaimed University of Minnesota Week by Governor Orville L. Freeman.

"University Cavalcade", special Charter Day convocation Thursday (Feb. 23) in Northrop Memorial auditorium, will tell the school's early history in words, music and dance. People influential in the University's growth will be portrayed by a cast of students and staff personnel. The University band, University men's glee club and a speaking chorus also will be featured. Classes will be dismissed for an hour to enable all students to attend the convocation at 11:30 a.m.

Philip A. Benson, speech and Romance language teaching assistant, is director of the Charter Day event. Narrators will be E. W. Ziebarth, summer school dean, and Alan W. Peabody, speech teaching assistant.

Past and present University Regents have been invited to attend the convocation and a luncheon following the program. Also invited to attend as honored guests are Governor Freeman and other state officers.

Twin Cities, suburban and Duluth business windows this week tell the University's story of progress with exhibits showing activities of various departments -- such as architecture, agriculture, engineering and art. A scale model of the campus and a miniature of the E. W. Davis Works, taconite processing plant at Silver Bay, Minn., are on display, as are new breeds of pigs, apples and cheese developed on the St. Paul campus.

A special University Week event on the Duluth campus is a library conference Friday (Feb. 24) at which Vice President Malcolm M. Willey will speak. The new Duluth Branch library will be open for public inspection Sunday (Feb. 26) as will the science, physical education and ROTC buildings.

Some 50 faculty and staff members take University of Minnesota Week out in the state through talks before alumni clubs, civic and fraternal groups. These talks began in January and are scheduled through April to accommodate meeting schedules.

University of Minnesota Week is sponsored annually by the Minnesota Junior Chamber of Commerce and the University of Minnesota Alumni association.

GIEDION, NOTED
ART HISTORIAN,
TO VISIT 'U' FRIDAY

(FOR IMMEDIATE RELEASE)

Sigfried Giedion of Zurich, Switzerland, currently with the Harvard graduate school of design, will visit the University of Minnesota Friday (Feb. 24). He will discuss "The Demand for Imagination in Contemporary Architecture" in a free public lecture at 4 p. m. in Murphy hall auditorium.

First a student of engineering, Giedion later studied art history under the great German art historian, Heinrich Woeffflin. In Zurich, he is professor of art history at the Federal Institute of Technology. He is an honorary member of the Royal Institute of Architects and a member of the Flemish Academy, Belgium, and has served as general secretary of the International Congresses for Modern Architecture.

The Swiss critic is author of "Space, Time and Architecture", "Mechanization Takes Command", "A Decade of Contemporary Architecture" and "Walter Gropius; Work and Teamwork".

Giedion spent 10 days at the University in 1955, also under the sponsorship of the school of architecture.

MORRILL SEES WORLD'S LARGEST ATOM SMASHER
AS WELCOME CHALLENGE AND OPPORTUNITY

(FOR RELEASE 7 P.M. FRIDAY, FEB. 17)

Minneapolis --- "The University of Minnesota welcomes the opportunity and the national summons to participate in this program," President J. L. Morrill stated Friday when the Atomic Energy Commission announced that it has requested the Midwestern Universities Research Association (MURA) to design and develop the world's most powerful proton accelerator or "atom smasher",

"This new project will challenge our every resource of scientific competence", the University president added, "while, at the same time, strengthening these resources at the University and enabling us to march in the vanguard of American universities in this significant field of investigation."

He pointed out that University Comptroller L. R. Lunden and Physics Professor John H. Williams have been leaders from the beginning in the development of MURA, a cooperative organization of 14 Midwestern universities. Lunden is MURA's secretary, and Williams is vice president. Both were reelected February 7 along with P. Gerald Kruger, University of Illinois physicist, as president, and A. W. Peterson, University of Wisconsin vice president, as treasurer.

"It is gratifying also," commented President Morrill, "to recall the pioneering research in this frontier-field of physical science by Professor A. O. C. Nier of our physics department."

To be built somewhere in the Midwest at a site yet to be selected, the giant accelerator will be of the circular or cyclotron type with a diameter of approximately one-half mile, according to Professor Williams.

The most powerful atom smasher now in operation, Williams reported, is the bevatron at the University of California in Berkeley which is rated at six billion electron volts.

(MORE)

Russia is reported to be building a 10-billion-electron-volt machine, the University physicist pointed out, while two machines rated at from 25 to 30 billion electron volts are under construction -- one at the Atomic Energy Commission's Brookhaven National laboratory on Long Island, N. Y., and another at Geneva, Switzerland.

Lunden and Williams joined the other officers of MURA Friday in issuing the following statement regarding the new project:

"The announcement made today by the Atomic Energy Commission, that the Midwestern Universities Research Association (MURA) has been requested to design and develop an ultra-high-energy accelerator in the Midwest is an exciting and challenging proposal. This is especially important because it is understood that the machine is to be the finest and most powerful in the world. This means that it will be most useful in advancing the science of nuclear physics and our knowledge of the fundamental properties of matter and energy.

"This project is beyond the resources of any single educational or research institution and therefore is dependent on Congressional authorization and the effective and joint cooperation of the government, the major universities of the Midwest and their scientific manpower.

"The Midwestern Universities Research association is a non-profit corporation which has the following universities as principal members: University of Minnesota, Iowa State college, State University of Iowa, Michigan State university, Ohio State university, Purdue university, University of Illinois, Indiana university, University of Michigan, University of Wisconsin, University of Chicago, Northwestern university, University of Notre Dame and Washington university.

"All 14 universities and their representatives on the MURA board of directors, as well as physicists in the Midwest, are enthusiastic about this proposal and have agreed to support the project with their best efforts. It is anticipated that other institutions will join MURA in the future.

(MORE)

"The Midwestern Universities Research Association has been a corporate structure for about one and one-half years, but even before incorporation, in fact for about the past three years, has been engaged in supporting a study of high-energy accelerators, through the efforts of a technical group under the direction of Professor D. W. Kerst of the University of Illinois. Members of the technical group have come mainly from physics departments of MURA's principal members. Financially they have been supported by funds from the National Science Foundation and the Office of Naval Research.

"One of the promising ideas which has been developed by the MURA technical group is known as FFAG -- the "Fixed Field Alternating Gradient" principle. It shows great promise of producing a larger number of high-energy particles per second, in the machine to be designed and constructed in the Midwest, than that from any existing machine. The intensity possibly may be increased to one hundred times that in existing machines or in machines now under construction.

"The application of this new FFAG principle to existing accelerators such as cyclotrons, synchrotrons, and betatrons, will bring about a great increase in intensity and plans already are being made in various laboratories for modifying existing machines in accordance with this new principle developed by MURA. However, the eventual output in current and equivalent voltage of the future MURA machine still remains to be determined.

"The scientists who are continuing the MURA accelerator studies hope to specify the design parameters in a few months. Some of the various types of FFAG accelerators, invented by the MURA scientists are being tested now, in model form, at several Midwest universities.

"The Midwestern Universities Research Association represents a cooperative effort among the Midwestern institutions and has a structure similar to that of associated universities incorporated which operates the Brookhaven National laboratory. The MURA board of directors is composed of scientists and administrative officers selected from each of the principal member institutions.

(MORE)

"For the past two years MURA has held monthly conferences at various Midwestern universities and has conducted strong summer sessions which have attracted physicists from all parts of the United States as well as from abroad. One of the objectives of this effort is to create an outstanding institute of high-energy physics which will be open to all qualified physicists.

"It is envisioned and expected that the institute will draw staff from universities in the Midwest and that it will become a strong educational center as well as a research center. It is understood that the AEC considers this project a high priority one and thus with its enthusiastic cooperation and support the project should proceed rapidly."

Commenting on the AEC-MJURA project, Professor Nier, chairman of the University's physics department, stated Friday:

"The University of Minnesota has had a long interest in explorations of the atomic nucleus. As early as 1934, Professor Williams and the late Professor John T. Tate performed nuclear disintegrations with a 200,000-volt power supply in the physics department. In 1937, the construction of the 3.5 million volt Van de Graaff generator, referred to as the 'atom smasher' was started. During the war Professor Williams and his colleagues used this machine for obtaining valuable data needed in designing the atomic bomb.

"At the present time the physics department is carrying on two important research projects closely related to the new MJURA cooperative proposal. With the use of 'Skyhook balloons' Professors E. P. Ney and J. R. Winckler and their students have been studying the nature of the high energy cosmic rays that reach the earth from outer space.

"With the linear accelerator just completed, Professor John H. Williams and his colleagues are studying atomic nuclei with 68 million volt protons."

SPECIAL TO THE LOUISVILLE COURIER-JOURNAL

(FOR IMMEDIATE RELEASE)

Minneapolis --- David White, 15-month-old son of Mr. and Mrs. Maurice White, 19 Westport Terrace, Louisville, is recuperating in the Variety Club Heart Hospital at the University of Minnesota following a delicate heart operation performed February 15 in University Hospitals.

David's blood supply was by-passed away from his heart and lungs, oxygenated in a plastic "bubble oxygenator" and then returned to his body while University of Minnesota surgeons repaired congenital defects inside his blood-free heart. Principal defect repaired was a hole the size of a nickel in the wall separating the ventricles or pumping chambers of the boy's heart.

Originated and developed at University Hospitals, the technique for oxygenating a patient's blood outside of his body permitted the surgical team headed by Dr. C. Walton Lillehei to work inside of David's heart for more than 18 minutes. University of Minnesota surgeons have performed approximately 120 similar operations.

CONCERT MARCH 4

(FOR RELEASE SUNDAY, FEB. 26)

The University of Minnesota Symphony Orchestra will present its winter concert at 4:30 p.m. Sunday, March 4, in Northrop Memorial auditorium, under the direction of Leonard Marcus, recipient of this year's Antal Dorati Scholarship in Music. The concert is open to the public free of charge.

Under the terms of the scholarship, Marcus, a graduate student at the University, receives 26 weeks of personal instruction from Dorati, conductor of the Minneapolis Symphony orchestra. He studies music aesthetics, composition and orchestral conducting. The scholarship has been made available through the University's Greater University Fund. Marcus' home is in New York City.

The March 4 program will be as follows:

- Overture to Die Meistersinger von Nurnberg.....Wagner
- Concerto for Harpsichord and Orchestra in D Minor.....J. S. Bach
- Symphony No. 5, Opus 47.....Shostakovich

The University music department's newly acquired Neupert "Bach" model harpsichord will be used for the solo in the Bach concerto. It will be played by John MacKay, music major in his senior year at the University and former protege of Dimitri Mitropoulos.

MIDWEST FUTURE
TEACHERS TO MEET
AT U OF M FRIDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Education students from all Minnesota colleges and other midwestern schools will meet Friday (Feb. 24) at the University of Minnesota to discuss teaching as a profession. The occasion is the eighth annual Student Education conference.

Following a tour of University High school in the morning, the education students will attend a kickoff luncheon Friday noon in Coffman Memorial Union junior ballroom. James R. Curtin, associate professor of education at the University, will be the luncheon speaker. He will discuss the conference theme, "Professionalism".

Panels composed of faculty members and students from participating schools will study four topics -- "Why Ethics?", "The Teacher and the Community", "Professional Organizations and/or Union Affiliations" and "The Teacher and Politics". General discussion groups will consider the same topics following the panel presentations. All sessions will be held in the Union.

Frederick E. Ellis, University associate professor of education, will sum up the afternoon's discussions at the 6 p.m. banquet in the Union junior ballroom, and Charles McCuen of WCCO-TV will speak on "Television and Radio in Education". A variety show will wind up the conference.

Paula Erlandson of Minneapolis, University elementary education senior, is conference chairman.

'U' GALLERY TO OPEN
2 EXHIBITS MARCH 2

Two exhibits will open Friday (March 2) in the University Gallery in Northrop Memorial auditorium at the University of Minnesota.

One, "Masterpieces of Sullivan", consists of seven large panels showing various views of seven buildings designed by Louis Sullivan, Chicago architect who practiced in the 19th and early 20th centuries. This exhibit, circulated by the Museum of Modern Art, will be on display through March 23.

"American Artists, Inventors and Craftsmen of the Early Republic" includes paintings, photographs of architecture and objects of pewter, glassware, silver and ceramics. It features works by men prominent in United States history during the 18th century. Architect Thomas Jefferson, silversmith Paul Revere, inventor and painter Samuel Morse and inventor Robert Fulton are represented in the display which will be on exhibit through March 30. It is circulated by the American Federation of Arts.

PHARMACISTS TO CONFER
AT 'U' NEXT WEEK

(FOR IMMEDIATE RELEASE)

Recent advancements in the pharmaceutical field will be discussed by Minnesota and other midwestern pharmacists Monday and Tuesday (Feb. 27 and 28) at the University of Minnesota Center for Continuation Study.

The pharmacy course is the 17th to be presented by the Center and the University college of pharmacy in cooperation with the Minnesota State Pharmaceutical association.

Topics under discussion during the two-day program will include recent progress in antibiotics, drugs used in hypertension, thiorazine and related drugs, herbicides, insecticides, rodenticides and therapeutic applications of equanil and phenergan. Three films also will be shown.

The sessions will be conducted by faculty members of the University schools of pharmacy, medicine and agriculture, experts in pharmacology from the manufacturing fields and leading figures from the pharmaceutical association.

Visiting faculty members will be Robert W. Burlew, clinical research division, Schering corporation, Bloomfield, N. J.; Eugene J. Folmer, divisional sales manager of the midwest territory, Becton, Dickinson company, Chicago; Elmer H. Funk, Jr. assistant in medicine, Jefferson Medical college, assistant cardiologist to out-patients, Pennsylvania hospital, and member of the medical department, Wyeth laboratories, Philadelphia; R. S. Griffith, clinical research division, Eli Lilly and Company, and associate in internal medicine, Indiana university medical school, Indianapolis; Donald T. Meredith, director of trade and guest relations, Upjohn company, Kalamazoo, Mich.; J. Bryan Tucker, district manager, Chicago office, Davol Rubber company, Chicago; and William J. Wishing, special service representative, Smith, Kline and French laboratories, Philadelphia, Pa.

TROUT, SEA LAMPREY
FEATURED IN SUNDAY
MUSEUM PROGRAM

(FOR IMMEDIATE RELEASE)

Two fish -- one desirable and one undesirable -- will be featured in color sound films at 3 p.m. Sunday (Feb. 26) at the University of Minnesota Museum of Natural History. The program is open free to the public.

"The Minnesota Brown Trout", produced by the University Audio-Visual service in cooperation with the Minnesota department of conservation, illustrates the research and propagation programs being carried on by the conservation department's division of game and fish. It shows how southern Minnesota streams are analyzed to assure their suitability for the trout's growth and welfare.

The second film tells the story of the eel-like sea lamprey, which turns itself upside down and attaches itself to other fish by means of a vacuum cup under its chin. This eventually kills the other fish. The film, produced by the U. S. Fish and Wild Life Service, describes the life cycle of this marine hazard and methods used to combat it.

"Modern Developments in Forestry Practices" will be described by Henry Hansen, University of Minnesota associate professor of forestry, at the Museum program Sunday, March 4.

LECTURE SERIES
ON 'PROGRESS' TO START
WEDNESDAY AT 'U'

(FOR IMMEDIATE RELEASE)

"Progress: Real or Imaginary?" will be discussed in an eight-week lecture series starting Wednesday (Feb. 29) at the University of Minnesota. Sessions, sponsored by the general extension division, will be held at 8 p. m. Wednesdays in the Murphy hall auditorium.

Various views on the question, "Are things getting better or worse?", will be presented by seven University faculty members. Leo Marx, associate professor of English, will serve as coordinator of the series.

Michael Scriven, research fellow in the Minnesota Center for the Philosophy of Science, will open the series Wednesday (Feb. 29) with a discussion of progress as seen by a philosopher.

Others to present their ideas on progress in succeeding weeks are historian, Clarke A. Chambers, assistant professor of history, March 7; biological scientist, Maurice B. Visscher, professor and head of the physiology department, March 14; anthropologist, E. Adamson Hoebel, professor and chairman of anthropology department, March 28.

Architect, Ralph E. Rapson, professor and head of school of architecture, April 4; political scientist, Mulford Q. Sibley, associate professor of political science and general studies, April 11, and poet, Allen Tate, English professor, April 18.

The final session, April 25, will be a symposium in which all lecturers will participate.

Registration for "Progress: Real or Imaginary?" may be made at any general extension office -- 690 Northwestern Bank building, Minneapolis; 555 Wabasha street, St. Paul, or 57 Nicholson hall on the University campus.

UNIVERSITY TO HOLD
DIET INSTITUTE

(FOR IMMEDIATE RELEASE)

Dieticians from the United States and Canada will attend a three-day clinical dietetics institute Thursday through Saturday (March 1-3) at the University of Minnesota Center for Continuation Study.

Angeline Mannick, University director of nutrition and dietetics professor, is chairman of the institute planning committee. All sessions will be held in the Minnesota Museum of Natural History auditorium.

Dietetics in psychiatry and pediatrics will be emphasized in talks by University faculty and staff members, Minneapolis hospital dieticians and representatives of the State Board of Health and Glen Lake sanitarium. Among the topics to be discussed are low calorie exchange diet, allergy, infants' feeding and recent developments in the food technicians course. A problem clinic will be held Friday (March 2) afternoon.

Mrs. Winifred Howard Erickson of Ancker hospital, St. Paul, national president of the American Dietetic association, will be guest of honor at a 6:30 p.m. dinner Thursday (March 1) in Dayton's Sky Room. The dinner, to be followed by a style show, will be given by the Twin City Dietetic association.

NEW 'U' BOOK CITES
METHODS AND GOALS
OF PUBLIC SCHOOLS

(FOR IMMEDIATE RELEASE)

Minneapolis --- The underlying concepts, methods and goals of public school teaching are explained in a book to be published March 16 by the University of Minnesota Press, "The Three R's Plus: What Today's Schools Are Trying to Do and Why".

Robert H. Beck, University of Minnesota professor of the history and philosophy of education, edited the volume, which contains chapters by 31 experts in various aspects of education. Professor Beck is in Europe this year on a Fulbright research award, studying at the Municipal University of Amsterdam, Holland.

The first portion of the book explains such general subjects as traditional, progressive, and modern education, the learning process, individual differences, emotional and personality development, the core and common learnings curriculum and the changing concepts of elementary and secondary schools.

Following this section is a series of chapters on specific subjects and services, such as the English language arts, teaching reading in the elementary school, arithmetic in the modern school, vocational education, health and safety programs and guidance and counseling.

The concluding chapters consider broad issues, some of them controversial, such as the support of education, religion in the public schools and the role of the school in the community.

Most of the contributors are members of the faculty at the University of Minnesota, and a few are public school administrators. Those from the University of Minnesota, in addition to Professor Beck, are Arthur H. Ballet, Emma M. Birkmaier, Clarence H. Boeck, Nelson L. Bossing, Leo J. Brueckner, Theodore W. Clymer, Walter W. Cook, Norman J. DeWitt, Otto Domian, Rafael Druian, Willis E. Dugan, Frederick E. Ellis, Clifton A. Gayne, Dr. Reynold A. Jensen, Donovan Johnson, William J. Micheels, Gordon M. A. Mork, H. T. Morse, Milo J. Peterson, Raymond G. Price, Maynard C. Reynolds, Dora V. Smith, Louise A. Stedman, Mildred C. Templin and Edith West.

Others are Curtis Johnson, Nolan C. Kearney and Glenn Varner of the St. Paul public schools; Helen M. Starr of the Minneapolis public schools; and Carl L. Nordly of the University of California at Berkeley.

STUDENTS TO DESCRIBE
VISIT TO RUSSIA
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

Two Columbia university graduate students will describe life as they saw it behind the "Iron Curtain" at the University of Minnesota convocation at 11:30 a.m. Thursday (March 1) in Northrop Memorial auditorium. The program, "Soviet Society Today", is open free to the public.

Gay Humphrey and Peter Juviler also will show films taken on their 6,000 mile tour of the Soviet Union. Miss Humphrey spent 30 days in Russia in the fall of 1954, and Juviler made his trip in the spring of 1955.

Both are graduates of the Russian institute of Columbia university and now are studying for their doctor of philosophy degrees at Columbia. Miss Humphrey did her undergraduate work at Mount Holyoke college and Juviler at Yale university. Both are from New York state.

Columbia's Russian institute is a school for the training of a limited number of well-qualified Americans for scholarly and professional careers as Russian-Soviet specialists.

Miss Humphrey and Juviler started their Russian visit with 14 days in Moscow, photographing the Russian people and their customs. Then they flew to the remote Uzbek Republic in Central Asia visiting the ancient city of Samarkand. From Asia, they went to Tiflis in the Caucasus, a mountain region in the Republic of Georgia. They returned to Moscow and left the Soviet Union by way of historic Leningrad. Equipped with a knowledge of the Russian language, the students were able to tour without guides and interpreters, thus traveling more freely than other visitors to the U. S. S. R. in recent years.

They found that the average Russian is short and friendly, holds exactly the same opinions about the United States as every other Russian and is extremely curious about the United States, which, he knows, "is dominated governmentally by Wall street profit-seekers".

An organ recital by Arthur Jennings will precede the convocation at 11 a.m. Jennings is professor of music and University organist.

UNIVERSITY BANDS
TO PLAY ANNUAL
CONCERT THURSDAY

(FOR IMMEDIATE RELEASE)

The University of Minnesota bands will present their annual winter concert at 8 p.m. Thursday (March 1) in Northrop Memorial auditorium. The concert is open to the public free of charge.

University bandmaster Gerald R. Prescott will direct the Concert Band Ensemble and the Varsity Band in a varied program.

The Concert Band Ensemble, formed just one year ago, is comprised of the top 45 student members of the University band program. All of the instruments usually found in the standard concert band are represented; however, as a rule, only one instrumentalist in each section plays each part. This gives added clearness and transparency to the group's performance. The Ensemble concludes a busy season of concert appearances with this week's program.

The Varsity Band, which will join the Ensemble to present the second half of the concert, includes 64 musicians. Light and semi-classical music is emphasized by this group, which was organized as a recreational outlet for students.

'TRIP TO EUROPE'
LECTURE SERIES
OFFERED AT 'U'

(FOR IMMEDIATE RELEASE)

An eight-week lecture series starting Thursday, March 22, at the University of Minnesota will help travelers get the most out of their trips to Europe. The series, "Your Trip to Europe", is sponsored by the University general extension division in cooperation with the Minnesota World Affairs Center.

The lectures will be held weekly at 8 p.m. through May 10. They will be preceded at 7:30 p.m. by films on the major European countries and followed by question and answer periods. All programs will be held in the Minnesota Museum of Natural History.

Speakers for the first program -- "Travel Techniques: Tips for Your Trip" -- March 22, will be Fred Cooper, Mercury Travel Service, St. Paul; Frank Braun, vice president, American Youth Hostels -- Minnesota area council, and James S. Lombard, director, University of Minnesota department of 'concerts and lectures. They will present tourist "do's and don't's", passport information, suggestions on what to take and other travel helps.

Other lectures and their speakers will be as follows: March 29, "Traces of the Past: Europe's Living History", Lorenz E. A. Eitner, University associate professor of art; April 5, "How Europe Earns Her Living; The Continent's Economy", Herbert Heaton, professor and chairman, University department of history; April 12, "What to Buy Abroad", Olivia Johnson, former head of personal shopping and mail order divisions, Field-Schlick, Inc., St. Paul, past president of Zonta International and past national vice president, Business and Professional Women's Clubs.

April 19, "European Institutions: The Structure of Society", J. Huntley Dupre, Macalester college dean; April 26, "Things to See and Do -- and Remember", Barbara Flanagan, travel writer, The Minneapolis Tribune, and Werner Levi, University political science professor; May 3, "America Returns to Europe", Ralph G. Jones, University visiting associate professor of political science; May 10, "Americans Abroad: Questions You'll Be Asked About the U. S. A.", Burton Paulu, manager, University radio station KUOM.

101 Copies

(FOR IMMEDIATE RELEASE)

Minneapolis ---

among the more than 130 Minnesota city and county officials who attended an assessors' school at the University of Minnesota Center for Continuation Study last week (March 8-10).

During the three-day session, the men heard panel discussions on farm real estate assessments and urban assessments as well as discussions of the importance of uniform assessment standards, sales ratio analysis, public relations, public utility assessments and land maps.

Governor Orville L. Freeman addressed the assessors on the first day of their meeting.

'DAD' ERICKSON TELLS OF HIS
SIXTY YEARS WITH RURAL YOUTH

(FOR RELEASE WEEK OF MARCH 12, 1956)

Minneapolis --- The memoirs of T. A. Erickson, or "Dad" Erickson as he is known to thousands in Minnesota and the Middle West, will be published by the University of Minnesota Press March 23. The book, "My Sixty Years with Rural Youth", was written by Erickson with the assistance of Anna North Coit.

"Dad" Erickson devoted much of his life to the 4-H club movement, serving as state leader of the youth organization in Minnesota from 1912 to 1940. He is now a University of Minnesota associate professor emeritus of agricultural education. The 4-H program in Minnesota is administered by the University in cooperation with the federal extension service of the U.S. Department of Agriculture.

Following his retirement from the University in 1940, Erickson became a consultant on rural services for General Mills, Inc., a position he held until his second retirement in 1954. Now 84, he is still active in organization and church work and pursues his hobby of flower gardening at his home at 1403 Chelmsford street in St. Paul.

The story Erickson tells shows the remarkable changes that have taken place in rural living in one lifetime. In addition, the memoirs provide a first-hand account of the development of the 4-H movement.

The book contains an introduction by Skuli Rutford, Minnesota agriculture extension director. It is illustrated with 38 photographs, including pictures of early 4-H club activities and their modern counterparts and intimate glimpses of "Dad" Erickson and his family.

Erickson was born on a farm near Alexandria, Minnesota, and grew up there. As a young man, he taught in small country schools near his home. Then he became a county superintendent of schools in Douglas county, Minnesota. In the course of his 10 years in this position, he developed the knowledge of and concern for the needs of rural youngsters that led to his appointment as rural schools specialist in the agricultural extension department at the University of Minnesota in 1912 and the beginning of his leadership in the 4-H movement.

By recalling significant or typical anecdotes from his long association with the 4-H program, Erickson shows how it has helped to educate thousands of rural youngsters in important phases of agriculture, homemaking, and civic responsibility. He describes early club projects, like canning and hog raising, and shows how diversified and extensive the 4-H program has become, in comparison, today. He recalls the national 4-H congresses, the junior livestock shows, and the 4-H participation in state and county fairs.

The modern 4-H building on the Minnesota state fairgrounds is named Erickson hall in honor of T. A. Erickson. He has received many other honors, including the University's Outstanding Achievement Award.

MANY 'U'-TRAINED
PHYSICIANS BECOME
FAMILY DOCTORS

(FOR IMMEDIATE RELEASE)

Minneapolis ---- The day of the family doctor evidently is far from over -- especially among Minnesota-trained physicians -- despite the trend toward medical specialization in the last quarter of a century.

Dr. H. S. Diehl, University of Minnesota dean of the medical sciences, reported this week in "Minnesota Medicine" that of all physicians in active practice who were graduated from the University's medical school between 1930 and 1945, 54 per cent are in general practice. Citing a comprehensive survey made by the American Medical association's bureau of medical economic research, Dean Diehl pointed out that the corresponding figure for graduates of all United States medical schools is 46 per cent

Comparing the University of Minnesota's 54 per cent with the records of other medical schools -- University of Wisconsin, 45 per cent; University of Iowa, 46 per cent; University of Michigan, 34 per cent; Northwestern university, 38 per cent; University of Illinois, 49 per cent -- Dr. Diehl indicated that Minnesota "is not doing badly in educating general physicians".

The University medical school chief also called attention to the fact that among recent graduates of the Minnesota school there is no trend away from general practice into specialization. He stated that the number of Minnesota medical graduates who entered general practice was 41 per cent for the five-year period, 1930-34; 40 per cent for 1935-39; 48 per cent for 1940-44; and 46 per cent for 1945-49.

"The increase in medical specialization over the last quarter century," Dean Diehl commented, "has given rise to concern as to an adequate number of family physicians who, it is agreed, provide the basic foundation of good medical service and are able to care for the vast majority of their patients' medical needs. In fact, it has been feared by some that the specialists on the teaching faculties of medical schools may by their very presence encourage students to specialize rather than enter general practice.

"Actually," he emphasized, "medical faculties are thoroughly cognizant of the importance of the family physician and make conscious efforts to set up their teaching programs for the specific purpose of giving their students the best general medical education possible, limiting the teaching of specialties to what the general physician should know."

MINNESOTA 'U' RECEIVES GRANT TO STUDY
USE OF CLOSED TV IN TEACHER TRAINING

UNIVERSITY OF MINNESOTA
NEWS SERVICE
MARCH 8, 1956

(FOR RELEASE 11 A.M. FRIDAY, MARCH 9, 1956)

Minneapolis --- Regents of the University of Minnesota today (March 9) accepted a grant of \$14,266 from the Fund for the Advancement of Education to conduct an experimental program in the training of secondary school teachers through the use of closed circuit television.

The grant will support the opening stages of a three-year research program in which the customary field observations of high school classes will be replaced by live and kinescoped television observations by selected classes of College of Education students planning to enter high school teaching.

The project is expected to yield better understanding of the effectiveness of closed circuit television as a means of providing observation experiences, according to Professor Robert J. Keller who will direct the experiment. Another result of the program, he predicts, will be a growing collection of kinescoped classroom demonstrations which will enrich and vitalize the prospective teacher's understanding of his job. Some attention will be given in the project to the possibilities of this medium for "inservice" education of teachers, he added.

"Preliminary experimentation with the use of television observation, which has been conducted jointly by the College of Education and University high school, has suggested some promising conclusions about the practicability and effectiveness of such training methods," Professor Keller reported. "The content of such widely different subjects as speech and physics can be conveyed through the screen to student observers; student observers heavily prefer television observation to other forms of observation; and the observer's attention seems better directed than is the case with live class observation."

Since more student observers can be accommodated through televised observations than in the live classroom, the project director pointed out, the superiority of this medium for teacher training would have a significant effect upon teacher supply at a time when the nation faces continuing teacher shortages.

Television demonstrations are currently being conducted in University High school by Arthur H. Ballet and Clarence H. Boeck of the school's faculty. Technical aspects of the closed circuit television system are being supervised by Orrin Gould, director of the high school's audio-visual department.

U OF M JOURNALISM
STUDENTS TO EDIT
6 STATE PAPERS

(FOR RELEASE WEEK OF MARCH 12)

Minneapolis --- Eleven University of Minnesota journalism students will have a chance to put their classroom training into practice the week of March 19. During that week -- their spring vacation -- nine men and two women will serve as editors of six Minnesota newspapers.

The future journalists will gather and write all news and editorial material for the weekly papers. For many, this will be the first real taste of what will follow after graduation.

State newspapers having student editors next week as announced by Professor Ralph D. Casey, school of journalism director, are New Prague Times, Pine Island Record, Waseca Herald-Journal, Redwood Falls Gazette, Brownton Bulletin and Mora's Kanabec County Times. The March 22 issues will be edited by the student teams, except on the Waseca Herald-Journal, which is a bi-weekly publication. In Waseca, students will be responsible for the March 20 and 22 editions.

Lee Irwin, assistant professor of journalism, is in charge of the student teams. He describes the project's purpose as twofold -- to give students the "feel" of weekly newspapering and to provide publishers with a look at college-trained students.

This spring's journalism field trip is the first since 1950. Annual occurrences until World War II, the trips were halted during and immediately after the war but resumed in 1949 and 1950.

"Team week" is always held during the University's spring vacation in order not to interfere with students' class schedules.

'U' TO GRADUATE
475 THURSDAY;
JUDGE TO SPEAK

(FOR IMMEDIATE RELEASE)

Minneapolis --- Degrees will be awarded to more than 475 University of Minnesota students Thursday evening (March 15) in winter quarter commencement ceremonies at 8 p.m. in Northrop Memorial auditorium.

Justice Samuel Freedman, judge of the Court of Queen's Bench, Province of Manitoba, Winnipeg, Canada, will deliver the commencement address, presenting "A Philosophy for Tomorrow".

Justice Freedman has been a lecturer in the Manitoba law school since 1941 and last year was named a governor of the Hebrew university in Jerusalem. He has served as honorary president of the University of Manitoba students' union, president of the Medico-Legal society of Manitoba, president of the Manitoba Bar association, bencher of the Law Society of Manitoba and chairman of the Winnipeg branch of the Canadian Institute of International Affairs.

President J. L. Morrill will speak to members of the senior class before conferring degrees. President Morrill also will confer commissions to Army and Air Force ROTC candidates after the oath of office is issued by Col. Robert T. Connor, professor of military science and tactics.

Malcolm M. Willey, academic vice president, will introduce deans of the various University colleges who will present their candidates for degrees. Students receiving doctor of philosophy diplomas will be announced individually by Dean Theodore C. Blegen of the graduate school.

Following the exercises, President and Mrs. Morrill will be hosts at a reception for all members of the graduating class, their parents and friends, in Coffman Memorial Union main ballroom.

A concert on the Frances Miller Brown memorial bells will be played from 7 to 7:30 p.m. by James D. Johnson, University senior. ^{The} University ~~organist~~ ^{Concert Band}

~~Arthur B. Jennings~~ will ~~present a recital~~ ^{play} in the auditorium between 7:30 and 8 p.m.

FORMER INSTRUCTOR TO STAR
IN 'U' THEATER'S "KING LEAR"

(FOR IMMEDIATE RELEASE)

Joseph Catmull, former University of Minnesota speech instructor, has signed a contract with the University Theater to play the title role in the theater's forthcoming production of William Shakespeare's "King Lear".

Catmull, associate professor and theater division chairman of the University of Utah speech department, has portrayed Lear many times, including its 1946 run at the University Theater here.

Others in the "King Lear" cast are John Blue, Myron Odegaard, Ray Lammers, Bill McKereghan, Joann Orcutt and Audrey Rayfield.

The sets are designed by sculptor John Rood and executed by Wendell Josal. Frank M. Whiting is director of "King Lear", which will play March 29-31 and April 3-8 in Scott hall on the University campus.

COLLEGE STUDENTS
FROM 3 STATES
TO CONFER AT U OF M

(FOR IMMEDIATE RELEASE)

Minneapolis --- Approximately 150 college students from Minnesota, North Dakota and South Dakota are expected to attend a conference April 7 at the University of Minnesota to discuss the problems of higher education, especially those resulting from increased enrollment.

The Student Leader conference is sponsored by the Minnesota-Dakota region of the U. S. National Student association and is made possible by a \$2,239 grant by the Louis W. and Maud Hill Family foundation of St. Paul. A. A. Heckman is executive director of the foundation.

Among the conference delegates will be student government representatives and college newspaper editors. The Hill foundation grant, which was made through the Greater University Fund of the University of Minnesota, will provide expenses for two or three delegates from each member school in the three-state area, according to the announcement.

The USNSA is an organization of college student bodies represented through their student governments. The national group includes 300 schools, and 15 colleges are affiliated in the Minnesota-Dakota region.

DR. GRAFTON A. SMITH
TO TEACH SURGERY
AT 'U' OF MISSOURI

(FOR IMMEDIATE RELEASE)

Dr. Grafton A. Smith, University of Minnesota graduate student in medicine and clinical instructor in surgery at the University medical school, has been appointed assistant professor of surgery at the University of Missouri, it was announced today by President Elmer Ellis of the Missouri school.

Dr. Smith received his doctor of medicine degree from Washington university in 1948 and is a candidate for a doctor of philosophy degree from the University of Minnesota this spring.

He joined the Minnesota medical school surgery staff as a medical fellow in 1949, becoming a clinical instructor in 1953. In 1954, he was named Damon Runyon Senior Research fellow, and he became an instructor in 1955. He served two years as a medical officer in the U. S. Navy from 1951 to 1953.

Dr. Smith, whose home is in Lawton, Okla., is married and has two children.

MINNESOTA WOMAN
NAMED LIBRARIAN
OF OHIO COLLEGE

(FOR IMMEDIATE RELEASE)

A graduate of the University of Minnesota library school will be the first woman librarian at Oberlin college, Ohio, it has been announced by Oberlin President William E. Stevenson. Miss Eileen Thornton will take office Jan. 1, 1957.

For five years prior to 1939, Miss Thornton was a member of the University library staff, in the circulation department and graduate seminars. She also held various library posts in Minneapolis and worked in the Hibbing Public library. She has been the librarian at Vassar college since 1945, following three years on the University of Chicago library staff. A former college library consultant for the division of higher education of the New York State education department, she also has taught and directed workshops at Western Reserve and Columbia universities.

Miss Thornton is a life member of the American Library association and president-elect of the New York Library association.

While at the University, she was elected to Lambda Alpha Psi, honorary society for language majors, and Mortar Board. Miss Thornton was graduated from St. Paul Central high school.

FAMILY DOCTORS
TO STUDY HEART
ILLS IN 'U' COURSE

(FOR IMMEDIATE RELEASE)

Two special lectures will be presented as part of a course in cardiovascular (heart and blood vessel) disorders for general physicians next week (March 19-21) at the University of Minnesota Center for Continuation Study.

Dr. Otto Krayner, Harvard medical school professor and pharmacology head, will deliver the George E. Fahr lecture at 8:15 p. m. Wednesday (March 21) in Mayo auditorium. His subject will be "The Circulatory Action of the Veratrum Alkaloids".

The Minnesota Pathological society lecture will be given at 8 p.m. Tuesday (March 20) in Owre amphitheater. Dr. Joel G. Brunson, University of Minnesota pathology department instructor, will speak on "Streptococcal Cardiac Lesions in Rabbits". Both meetings are open to the public.

Dr. Hans Hecht, associate professor of medicine, University of Utah College of Medicine, Salt Lake City, is on the faculty of the three-day course. He will address the group Monday afternoon and Tuesday morning (March 19 and 20).

Also on the Tuesday (March 20) morning program will be a presentation of the different aspects of selection of patients for heart surgery. This will be followed by a general discussion session.

The continuation course, presented by the University in cooperation with the Minnesota Heart association, is under the direction of Dr. C. J. Watson, professor and head of the University's department of medicine.

'U' MAN WRITES
BOOK ON RISE
OF TRADE UNIONS

(FOR IMMEDIATE RELEASE)

Lloyd Ulman, University of Minnesota associate professor of economics and industrial relations, is author of the recently published volume, "The Rise of the National Trade Union".

Ulman's first book is a study of the emergence and development of the national trade union in the last half of the 19th and early years of the 20th century. It was published by the Harvard University Press, Cambridge, Mass.

A member of the University of Minnesota staff since 1950, Ulman is a graduate of Columbia and Wisconsin universities. He has taught at Wisconsin and Harvard and was a Social Science Research Council fellow from 1948 to 1950. He served on the Educators' Conference on Employee Relations conducted by the Standard Oil Co. of New Jersey in 1947 and was executive secretary of the President's Emergency Board on the Telephone Industry in 1948.

"The Rise of the National Trade Union" is described by economist Sumner H. Slichter in his foreword as "by far the most thorough study that has yet been made of the structure and the government of the American trade union movement".

'U' GRADUATES HEAR
CANADIAN JUDGE

(FOR RELEASE AFTER 8 P. M. THURSDAY, MARCH 15)

Minneapolis --- In University of Minnesota commencement exercises Thursday night (March 15) the Honorable Mr. Justice Samuel Freedman of Winnipeg, Canada, told more than 475 winter quarter graduates of three lasting gifts which they received from the University.

These gifts, as outlined by Justice Freedman, judge of the Court of Queen's Bench, Province of Manitoba, are communication, an insistence upon standards and a reconciliation between the claims of the individual and the claims of society.

The text of the justice's commencement address is as follows:

"I offer warm congratulations to the University of Minnesota -- one of the shining stars in the American academic constellation -- on the passing of another milestone in its life of creative and distinguished accomplishment.

"The battle still continues among those who seek to define the goals of education. Is it to be vocational training on the one hand or liberal education on the other? Is the emphasis to be on science or on the humanities? In my view these alternatives are false ones. Education need not be faced with an inflexible 'either or.' Not in alternatives but in synthesis must we look for the answer. The University will perform its proper function if, taking all knowledge for its province, it combines humanism with efficiency; if, while emphasising training which is fundamentally professional or utilitarian, it still has the courage to lift the humanities above the status of mere educational embroidery; if, while recognizing its role in the preparing of students for practical service in the world outside, it remains true to the traditional function of a university as a place of learning where minds are trained, good taste developed, critical judgment formed, and creative faculties encouraged.

(MORE)

"What is the legacy which you, its graduates, may take from the University as an enduring gift? Let me refer to three things:

"1. The gift of communication -- to be able by speech or pen to transmit thoughts and ideas to others, with lucidity, with vigour, and with grace. My plea here is for educated scientists, educated lawyers, educated engineers. Implicit in the gift of communication is an appreciation of the English language, a reverence for the integrity of words. It is always a rich and rewarding experience to encounter great ideas expressed in graphic and memorable language. Perhaps an outgrowth of the gift of communication will be a development of the art of conversation. You do not face the problem now. A university is a place where young men and women move and work and live in the realm of ideas. The danger will come later. In a world of pressures and speed, of radio and television, one may become either too busy or too indolent to converse. He who possesses the gift of communication will be equipped to meet this challenge which assuredly lies ahead.

"2. An insistence upon standards. May you insist upon high standards in all things. Happy the graduate who leaves these college halls with a discontent with the quantity fixation. That is one of the curses of our materialistic age -- the confusion of size with value, the tendency to equate grandeur with worth. This failing is only one step removed from another -- the willingness to be content with the shoddy, the second-rate, the just as good. An insistence upon standards will include standards in the realm of ideals. It takes courage to be deliberately idealistic, to fight for a cause, perhaps an unpopular one. Civilization owes an incalculable debt to the man who dreamed dreams, saw visions, and tenaciously clung to ideals.

(MORE)

"3. A reconciliation between the claims of the individual and the claims of society. Here surely is one of the central problems of our times. It is the problem of freedom, a problem which we in the democracies have answered in a way different from that of the totalitarian states, be they of the Nazi-Fascist or the Communist type. It is your privilege to live in a country dedicated to the idea of freedom under law. The ideal of freedom was present at your birth as a nation. It has attended you through the generations which have marked your progress since. But progress is rarely in a straight line. It is usually in the form of a spiral. Occasionally you have slipped back, but the ideal has always been before you, triumphantly expressed by Jefferson and re-echoed in every generation thereafter.

"I salute the graduates of this day of commencement and of consecration. The values to which I have called attention may not constitute a formula for the acquisition of material wealth, but perhaps they contain within themselves a unique and imperishable treasure of their own."

BRITISH FUNGI
EXPERT GETS 'U'
ALUMNI AWARD

(FOR IMMEDIATE RELEASE)

A University of Minnesota Outstanding Achievement Award recently was presented to Guy R. Bisby, a leading British authority on fungi, at his home at Staines, Middlesex, England.

The award, in the form of a gold medal and certificate of recognition, is granted by the University's Board of Regents to alumni who have distinguished themselves in their chosen occupation. Bisby earned a doctor of philosophy degree at the University in 1918.

Myron L. Koenig, cultural attache of the American Embassy in London, made the presentation on behalf of the University's Regents.

Bisby, a naturalized Canadian, was born in the United States. He retired last year after 18 years with the Commonwealth Mycological institute in Kew Gardens, London, where he carried out much of the work in recognition of which the University award was made.

The distinguished mycologist has made a special study of the nomenclature of fungi and has carried on his mycological research in many parts of the world. He has written many papers on the subject and is the author of several books on mycology including "A Dictionary of the Fungi" of which he is co-author.

FORD FOUNDATION
RESEARCH GRANTS
GIVEN 6 ON 'U' STAFF

(FOR IMMEDIATE RELEASE)

Minneapolis --- Six University of Minnesota faculty members in the departments of anthropology, psychology and sociology and the school of business administration have been awarded grants-in-aid to research by The Ford Foundation.

Awards of \$4,250 each, to support individual research under the grantee's own direction, were made to: E. Adamson Hoebel, anthropology professor and chairman of the anthropology department; Leonid Hurwicz, professor of business administration; James J. Jenkins, assistant professor of psychology; Harold H. Kelley, associate professor of psychology and senior staff member of the Laboratory for Research in Social Relations; Paul E. Meehl, psychology professor and chairman of the psychology department; and Henry W. Riecken, associate professor of sociology and senior staff member of the social relations laboratory.

The University of Minnesota was one of 40 universities in the United States invited to submit nominations for the award program, which was undertaken by The Ford Foundation to help fill the need for fluid research funds in the behavioral sciences. Nominations were submitted early in December on behalf of the University by the executive committee of the Social Science Research Center.

TAX EXPERT RUML TO SPEAK AT 'U'
COLLEGE OF EDUCATION FIFTIETH
ANNIVERSARY BANQUET MARCH 28

UNIVERSITY OF MINNESOTA
NEWS SERVICE
MARCH 15, 1956

(FOR RELEASE THURSDAY, MARCH 22)

Minneapolis --- "Fifty Years of Teaching, Research and Service" are being marked this year by the University of Minnesota's college of education. Activities throughout the 1955-56 academic year are woven around the college's anniversary theme, "The Expanding Education Horizon".

Highlight of the year-long observance will be the 50th anniversary banquet Wednesday, March 28, in Coffman Memorial Union main ballroom. Guest speaker for the 6 p.m. dinner will be Beardsley Ruml, best known as author of the pay-as-you-go income tax plan instituted by the federal government in 1943. He will speak on "Financing Public Education".

Ruml was dean of the social science division and professor of education at the University of Chicago from 1931 to 1933, served as chief executive and trustee of the Spelman Fund of New York and is a former chairman of the Federal Reserve Bank of New York. Now a trustee of the Committee for Economic Development, he also serves on two of its committees.

Dean Walter W. Cook of the college of education also will speak at the banquet, and University President J. L. Morrill will present Outstanding Achievement awards to seven distinguished graduates of the college.

Recipients of the awards will be G. Lester Anderson, vice chancellor of the University of Buffalo (N.Y.); Theodore J. Berning, assistant commissioner of the Minnesota department of education; Leif S. Harbo, superintendent of Austin, Minn., public schools; George A. Selke, commissioner of conservation for the State of Minnesota and former president of St. Cloud State Teachers college; Homer J. Smith, retired head of the University of Minnesota industrial education department; Esther J. Swenson, professor and chairman of the University of Alabama department of elementary education; and Edwin Ziegfeld, professor of fine arts at Teachers College, Columbia university.

(MORE)

The banquet will be held during the 42nd annual Schoolmen's Week -- one of 23 conferences scheduled by the college this year -- March 26, 27 and 28.

On Monday (March 26) and Tuesday (March 27) at noon, the various Minnesota educators' organizations which convene during Schoolmen's Week will hold separate sessions. At 8 p.m. Monday, all the schoolmen will attend the Phi Delta Kappa lecture in the Union junior ballroom. Professor Dale B. Harris, director of the University's institute of child welfare, will talk on "Pied Pipers of Pedagogy". The lecture is open to the public.

Douglas D. Blocksma, consultant psychologist, Grand Rapids, Mich., will describe a psychologist's work in public schools at the Tuesday morning session. Blocksma is former director of psychological services in Grand Rapids schools. A discussion of the state survey on psychological services and the Minnesota legislature interim commission on handicapped children will follow. Workshops Tuesday afternoon and Wednesday morning will discuss "Meeting the Special Needs of Our Children".

Dean Cook will preside at the Wednesday afternoon session, where educators will hear Dael Wolfle, administrative secretary of the American Association for the Advancement of Science, and Guy L. Bond education professor and chairman of elementary education training at the University.

Wolfle, speaking on "The Responsibilities of Public Education in Developing America's Resources of Specialized Talent", will stress the need for more high school instruction in physical science and mathematics. Wolfle served four years as first executive secretary of the American Psychological association, and, in 1950, he was director of the Commission on Human Resources and Advanced Training.

Bond will discuss "Reading Problems in English Speaking Countries".

The University of Minnesota college of education was established by the Board of Regents on December 12, 1905. An annual average of 57 students attended the college in its first five years, but the 1954 registration was 2,671. The average number of bachelor's degrees jumped from 26 per year in 1908-12 to 588 in 1953-54. In addition, last year the college awarded 217 master's degrees and 47 doctor of philosophy degrees.

Among the college's former deans was Lotus D. Coffman, who served as head of the college from 1915 to 1920, when he became the University's fifth president.

COURSE IN READING
GUIDANCE FOR ADULTS
OFFERED AT U OF M

(FOR IMMEDIATE RELEASE)

A reading guidance course for adults will be taught this spring in evening classes at the University of Minnesota. Offered through the general extension division, the class will meet Monday evenings from 6:30 to 9 p. m. March 26 through June 4.

Fred Wezeman, associate professor on the University's library school staff, will teach the course, which will deal primarily with book selection, evaluation of book collections and techniques for promoting the use of library materials with special emphasis upon various subject divisions of general adult reading. Fiction, biography, travel, history, natural sciences, religion and literature will be studied through lectures, discussions and class reports.

Registration for Reading Guidance for Adults, a three-credit course, can be made at any of the general extension division offices -- 57 Nicholson hall on the campus, 690 Northwestern bank in Minneapolis, Wabasha and College in St. Paul and 110 New Garrick building in Duluth. Registration deadline for this course is Friday, March 23.

RARE VOLUME
ADDED TO BELL
COLLECTION AT 'U'

(FOR IMMEDIATE RELEASE)

A rare addition to the University of Minnesota Library's James Ford Bell collection on the history of world trade has been received from Mrs. Frank K. Walter, 1560 E. River Terrace, Minneapolis. Mrs. Walter's late husband served as University librarian from 1921 until his retirement in 1943.

The gift -- a tract, "Plantation Justice", published in 1702 in London -- constitutes a complaint against the American government and courts, charging that graft and corruption made it impossible for merchants in the New World to conduct business without "great losses and sufferings in the plantation trade". It complains that "English merchants are suffering ruin" from the failure to enforce legal regulations governing colonial trade.

The tract will be on display in the University library throughout the month of March.

THURGOOD MARSHALL TO GIVE HILLMAN MEMORIAL
LECTURE AT UNIVERSITY OF MINNESOTA APRIL 20

(FOR RELEASE THURSDAY, MARCH 22, 1956)

Minneapolis --- Thurgood Marshall, special counsel for the National Association for the Advancement of Colored People and director-counsel of the N.A.A.C.P. Legal Defense and Educational Fund, will present the third Sidney Hillman Foundation lecture at the University of Minnesota at 8 p.m. Friday, April 20, in Mayo Memorial Auditorium. He will speak on "The United States Constitution and American Citizenship".

Marshall, who has gained national prominence as the victorious attorney in eleven out of thirteen Supreme Court decisions since 1938 about segregated schools, will talk on the legal and other aspects of segregation.

The Sidney Hillman lectures at the University are supported by an annual gift from the Sidney Hillman Foundation. Through terms of the gift, the University invites guest lecturers who are leaders in the fields of interest to the late Sidney Hillman, who was the founder and the first president of the Amalgamated Clothing Workers of America and who held many positions of leadership during the administration of President Franklin D. Roosevelt.

The first Hillman lecture was delivered last May by William O. Douglas, associate justice of the United States Supreme Court.

"Because segregation is the most prominent domestic issue in the United States," stated Malcolm M. Willey, vice president for academic administration at the University, "we at the University believe that in the difficult days ahead both knowledge and understanding of the facts will be greatly needed to avoid irresponsible conclusions and actions and to help achieve the tolerance demanded of all of us. Citizens in all parts of our country will need to know about the many sides of the segregation problem to attempt to understand what is happening in the states involved."

"We are particularly happy," Willey added, "to announce that Mr. Marshall has accepted the invitation to deliver the Hillman lecture on this problem."

Marshall has been described as a sound, conscientious, imaginative legal scholar destined to continue to deal with the future course of desegregation and the intertwined issues.

Thurgood Marshall was born in 1908. He attended Douglas High School in Baltimore and worked as a baker, dining-car steward and waiter to get through Lincoln University near Chester, Pa., and Howard University Law School in Washington, D. C. He graduated at the head of his class.

In 1933, Marshall began practicing law in Baltimore, and two years later, at the age of 26 years, he first challenged segregation practices with a petition to get a fellow Negro admitted to the University of Maryland law school. He won the case so convincingly that it was never appealed.

Marshall went to work as assistant special counsel for the N.A.A.C.P. in 1936 and was appointed special counsel in 1938. Since that time he has participated in all N.A.A.C.P. cases affecting constitutional rights of Negroes that have been before the U. S. Supreme Court. Among the most significant of his victories were:

1. The right of Negroes to vote in the Democratic primaries in the South.
2. The right of Negro passengers to travel freely in interstate travel from the restrictions of state or local jim crow statutes.
3. The racial restrictive covenant cases which established the principle that covenants restricting the use, rent or sale of property to Negroes were not enforceable.
4. Was in charge of the entire campaign to outlaw segregation and discrimination in the field of education, culminating in the decision of May 17, 1954, in which the Supreme Court held that "separate but equal" has no place in education.

Marshall's opponent in many of these cases before the U. S. Supreme Court was the noted U. S. Constitutional lawyer, John W. Davis.

Marshall was awarded in 1946 the famous Spingarn medal for "making the greatest contribution to the advancement of Negroes in American life". In 1949, he received the National Newspaper Publishers Association's Russwurm Award for "making possible a richer conception of democratic principles and in tribute for upholding these highest traditions considered as the ideals of the American way of life". Other prizes and awards have been received by him from the National Bar Association, the Afro-American National Honor Roll Award, and from Omega Psi Phi Fraternity.

CANCER SUBJECT
OF HEALTH FORUM
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Twin Cities doctors will answer questions about cancer Thursday (March 22) at the last of a series of health forums sponsored this winter by the Minnesota Medical foundation Thursday (March 22). The meeting will be at 8 p.m. in the Mayo Memorial auditorium at the University of Minnesota, instead of in Northrop Memorial auditorium as previously announced.

Dr. N. L. Gault, Jr., assistant dean of the University's college of medical sciences, will be chairman of the session. Moderator will be Dr. Wesley W. Spink, University professor of medicine and Minnesota Medical foundation president.

Discussing questions submitted previously by Twin Cities newspaper readers will be panel members Dr. Robert McGandy and Dr. Tague Chisholm, both clinical assistant professors of surgery, of the Hennepin County Medical society; Dr. Albert F. Hayes, clinical instructor of obstetrics and gynecology, and Dr. Lyle Tongen, clinical instructor in surgery, of the Ramsey County Medical society, and Dr. Bernard Zimmermann, assistant professor of surgery and cancer co-ordinator at the University.

Other forums, on heart and blood pressure and miracle drugs, were held separately in Minneapolis and St. Paul. Thursday's session is the only program on cancer.

Sponsors of the health forum series, in addition to the foundation, are the Hennepin and Ramsey County Medical societies, Minneapolis and St. Paul city health departments, St. Paul Dispatch and Pioneer Press and Minneapolis Star.

KUOM'S LENTEN
MUSIC FESTIVAL
TO BEGIN MONDAY

(FOR IMMEDIATE RELEASE)

Lenten music will be broadcast three times daily during Holy Week (Monday, March 26, through Saturday, March 31) over University of Minnesota radio station KUOM, 770 kc.

Each day at 11:30 a.m. and 2:30 and 4:45 p.m., KUOM's Lenten Music Festival will feature sacred music in the spirit of the season.

This year's selections will include Bach's "Cantata No. 42", Stainer's "Crucifixion", Beethoven's "Christ on the Mount of Olives", Haydn's "The Seven Last Words of Christ", Debussy's "Martyrdom of St. Sabastien" and Gustav Mahler's Symphony No. 8, "The Symphony of a Thousand". Since 1956 is the bicentennial of Mozart's birth, this composer will be represented with his "Requiem in D Minor".

In accordance with tradition, the week's program will be concluded with two complete works, Richard Wagner's opera, "Parsifal" at 1:30 p. m. on Good Friday (March 30) and "St. Matthew Passion" by Johann Sebastian Bach at 2:30 p.m. Saturday (March 31).

The St. Paul Civic Orchestra's recent performance of Ernest Bloch's "Sacred Service" will be broadcast at 11:30 a. m. Thursday (March 29) in commemoration of the Jewish Passover, which is observed on Tuesday (March 27).

A detailed schedule of the entire week's program is available upon request to KUOM, University of Minnesota, Minneapolis 14, Minn.

CITY OFFICIALS
TO ATTEND 2-DAY
INSTITUTE AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- City managers, mayors, councilmen, finance officers and public works officials from throughout Minnesota will attend an institute Monday and Tuesday (March 26 and 27) at the University of Minnesota Center for Continuation Study.

Monday morning (March 26) and Tuesday afternoon (March 27), all will meet together to discuss how the municipality looks to others -- industry, real estate operator, investor and the public. The city managers, mayors, councilmen and finance officers also will hear how the citizen views the municipality.

Clarence Ridley of Chicago, executive director of the International City Managers association, will discuss "The 'Forward Look' in City Administration" at a joint banquet Monday evening.

Separate sessions will be held Monday (March 26) afternoon. Ridley will conduct a problems seminar for the city managers, and a similar discussion of current problems will be conducted for the public works officials by C. E. Dahlgren, St. Peter city engineer and president of the Minnesota Public Works association. Orville C. Peterson, Municipalities League attorney at the University, will tell mayors and councilmen "What a New Councilman Should Know". Election administration will be discussed by the finance officers. Participating will be Herbert Nordholm, Red Wing city clerk, moderator; Robert F. Fitzsimmons, Hennepin county auditor; Joe Justad, St. Louis Park city auditor; and George Wangenstein, Minnesota assistant secretary of state.

Public works officials will study the sewer maintenance and street sanitation programs Tuesday morning.

Others on the faculty include C. A. Armstrong, Rochester city engineer; Ted Olssen, Fairbault city engineer; Paul Hagen, Richfield village clerk; and Gordon Olson, North St. Paul city manager.

CONSERVATION WORK
IN DENMARK, SWEDEN
'U' LECTURE SUBJECT

(FOR IMMEDIATE RELEASE)

Gustav A. Swanson, head of the Cornell university department of conservation, Itaca, N. Y., will discuss "Conservation in Denmark and Sweden" in an illustrated lecture Thursday, March 29, at the University of Minnesota. His talk at 3 p. m. in the Minnesota Museum of Natural History auditorium will be sponsored by the University departments of entomology and economic zoology and concerts and lectures.

Swanson received his bachelor of science, master of science and doctor of philosophy degrees from the University of Minnesota, and he taught economic zoology at the University for six years. He also served as biologist in the Minnesota department of conservation and as associate regional inspector of United States Fish and Wildlife Research in Minneapolis.

From 1944 to 1948, Swanson was employed by the United States Fish and Wildlife Service, first as chief of the section of cooperative wildlife research units and later as chief of the branch of wildlife research in the U. S. He took his present position at Cornell in 1948.

He studied conservation problems and practices in Denmark and Sweden in 1954-55 as a fellow of the American Scandinavian foundation. On his return trip, he surveyed the major waterfowl wintering areas of England and Scotland for the British Nature Conservancy.

A past president of Wildlife society, Swanson also has written numerous publications in the conservation field.

EXPERT ON PLANTS
TO GIVE SIGMA XI
LECTURE AT U OF M

(FOR IMMEDIATE RELEASE)

Frits W. Went, professor of plant physiology at the California Institute of Technology, Pasadena, will deliver the 1956 Sigma Xi lecture Wednesday, March 28, at the University of Minnesota.

He will speak at 8 p. m. in Nicholson hall auditorium on "The Role of Environment in Plant Growth". The lecture is open to the public free of charge.

The Society of Sigma Xi is an honorary scientific organization.

Born in Utrecht, Holland, Went received his education at the University of Utrecht, obtaining his doctor of philosophy degree in 1927. The next five years (1928-32), he spent as botanist and later head of the visitors' laboratory at the Botanical Gardens in Buitenzorg, Java. In 1933, he joined a group of scientists at the newly-established biology department of the California Institute of Technology.

Went continued his work with plant hormones during his first 10 years in California. After 1940, he spent more time working in air conditioned greenhouses, studying the effect of environment on plant growth. Air pollution's effects on plants, the ecology of desert plants and the importance of water in plant growth in general are his other special interests.

Scheduled for publication this spring is Went's book, "The Control of Plant Growth". He also is co-author with K. V. Thimann of a book on "Phytohormones".

Went is president of the board of governors of the Los Angeles State and County Arboretum in Arcadia and president of the California Arboretum foundation board of trustees.

MINNESOTA PHYSICIST
HEADS ATOMIC
RESEARCH GROUP

(FOR IMMEDIATE RELEASE)

Minneapolis --- John H. Williams, University of Minnesota physics professor, has been elected president of the Midwestern Universities Research Association succeeding P. Gerald Kruger, professor of physics at the University of Illinois who has been named to the newly created post of acting general manager of MURA.

Succeeding Professor Williams as vice president of MURA, a post he had held since the association was formed in 1954, is Professor H. Richard Crane, University of Michigan physicist.

L. R. Lunden, University of Minnesota comptroller, has served as MURA's secretary since the group was organized.

MURA, a cooperative organization of 14 Midwestern universities, is designing and developing the world's most powerful proton accelerator or "atom smasher" to be constructed at a site not yet selected. The project is being carried out at the request of the Atomic Energy Commission.

Members of MURA are: University of Minnesota, Iowa State college, State University of Iowa, Michigan State university, Ohio State university, Purdue university, University of Illinois, Indiana university, University of Michigan, University of Wisconsin, University of Chicago, Northwestern university, University of Notre Dame and Washington university.

The University of Minnesota has offered a portion of its 8,000-acre Rosemount Research Center as a site for the giant atom smasher which will be built in the form of a circle one-half mile in diameter. Altogether, 12 participating members of MURA have offered sites for the project. A site selection committee is now studying the various proposals and will choose three of the most suitable locations for recommendation to the Atomic Energy Commission which will make the final selection.

ENGINEERS TO STUDY
SOILS, FOUNDATIONS
AT 'U' THURSDAY (29)

(FOR IMMEDIATE RELEASE)

Engineers and architects in structural, railroad and highway fields will study the problem of frost action at a one-day conference Thursday (March 29) at the University of Minnesota Center for Continuation Study.

Kenneth A. Linell, chief of the Corps of Engineers' Arctic Construction and Frost Effects laboratory, Boston, will discuss the problems of design on perma-frost at the morning session. Linell has made numerous studies of arctic installations for the United States Army, including the Thule air base in Greenland and air bases and other installations in Alaska.

Professor Miles S. Kersten, University civil engineering professor, who also will speak Thursday morning, worked with Linell on a study of the design of foundations for buildings in perma-frost regions in 1954.

The afternoon program will be devoted to a discussion of frost problems as related to design and construction of buildings, highways, airfield facilities and railroads. Speaking on airfield facilities will be Henry Sikso, chief, foundations branch, Corps of Engineers, Omaha division.

The conference on soil mechanics and foundation engineering is presented in cooperation with the northwestern section of the American Society of Civil Engineers.

RESEARCH GROUP AFTER MINNESOTA STUDY

(FOR RELEASE THURSDAY, MARCH 29, 1956)

Minneapolis --- The equivalent of approximately 13,500 full-time jobs in Minnesota depend directly or indirectly on foreign trade, according to a report, published today (March 29), of a study conducted by the Business Executives' Research Committee during 1954-55 of foreign trade policy and its effects on Minnesota.

The B.E.R.C. is a research team consisting of Minnesota business executives and University of Minnesota faculty members. The committee studies specific economic problems under the auspices of the University's School of Business Administration. Its most recent study sought to provide a sound basis for consideration by Minnesotans of United States foreign trade policy. After analyzing its findings, the committee recommended a gradual liberalization of that policy.

A large number of interviews with businessmen throughout the state were conducted to obtain informed opinion on the probable impact on each Minnesota industry of a liberalization of foreign trade policy. The findings indicate that many state industries either have no tariff protection now or consider that such protection that exists is not very restrictive of imports.

Highest import restrictions found applied to imports of some farm products such as processed dairy products, oil-bearing crops and meat animals and products. Restriction in these cases is accomplished primarily by import quotas rather than by tariffs along, according to the study.

(MORE)

Liberalization of United States foreign trade policy, the report points out, would probably affect the Minnesota economy in various ways. Agriculture would be affected differently than would industry, and within each segment of the state's economy, individuals and groups would be affected in different ways.

Such liberalization, the study shows, could be expected to increase import competition in varying degrees for different products, and on the other hand, it could be expected to expand export markets for various industries as foreign countries exported more to us and as they, in return, liberalized their barriers to our exports.

B.E.R.C. findings indicate that industries with approximately 25 per cent of the state's manufacturing employment would probably be benefited by liberalization, while industries with about 7 per cent probably would be injured. Little or no net effect would be expected for the balance which employ about 66 per cent of those engaged in manufacturing.

-UNS-

NOTE TO EDITOR: A summary of the Business Executives' Research Committee report on its study of foreign trade policy and its effects on Minnesota is contained in the accompanying March 1956 issue of Business News Notes, a publication of the University's School of Business Administration. The summary, "Minnesotans Look at Foreign Trade", was prepared by Robert J. Holloway, associate professor of economics and marketing, and Harlan M. Smith, associate professor of economics.

ENVIRONMENT'S ROLE
IN PLANT GROWTH
'U' LECTURE TOPIC

(FOR IMMEDIATE RELEASE)

"The Role of Environment in Plant Growth" will be described by plant physiologist Frits W. Went in a Sigma Xi lecture at 8 p.m. Wednesday (March 28) in Nicholson hall auditorium at the University of Minnesota.

Went, professor of plant physiology at the California Institute of Technology, Pasadena, is a national lecturer for Sigma Xi, honorary scientific organization.

Born and educated in Holland, Went was employed as a botanist in Java before joining the California Institute of Technology staff in 1933. President of the board of governors of the Los Angeles State and County Arboretum in Arcadia and president of the California Arboretum foundation board of trustees, he has written a book, "The Control of Plant Growth", which will be published this spring. He also is co-author with K. V. Thimann of a book on "Phytohormones",

HELSINKI'S MUSICAL
SALUTE TO MINNEAPOLIS
ON KUOM MONDAY

(FOR IMMEDIATE RELEASE)

A musical salute to Minneapolis from Helsinki, Finland, at 6 p. m. Monday (April 2) will mark the return of the Evening Concert to University of Minnesota radio station KUOM (770kc.).

Helsinki's musical gift is a return salute to that sent by Minneapolis last December 9, the 90th birthday of the great Finnish composer, Jan Sibelius. The Minneapolis salute consisted of two of Sibelius' compositions played by the Minneapolis Symphony Orchestra under the direction of Antal Dorati as well as a greeting to the Finnish people from Mayor Eric G. Hoyer. It was recorded by KUOM and broadcast by Radio Helsinki through arrangements made by the Voice of America.

On the April 2 program, the Helsinki City Symphony Orchestra will perform Sibelius' "Symphony No. 1 in E Minor", and the chief mayor of Helsinki will speak to Mayor Hoyer and the citizens of Minneapolis on the similarity of the two cities.

The Evening Concert will be heard on KUOM Monday through Saturday from 6 p. m. to sign-off time from April through September. Sign-off time for April is 7 p. m.

LABOR, MANAGEMENT REPRESENTATIVES
FROM 11 STATES TO MEET AT U. OF M.

(FOR IMMEDIATE RELEASE)

Labor and management representatives from 11 states will attend the fourteenth annual industrial relations conference Tuesday and Wednesday, April 3 and 4, at the University of Minnesota Center for Continuation Study.

More than 175 professional workers and students in the fields of industrial relations, general management and labor are expected to attend the conference, which this year is built around the theme, "Manpower Measurement and Appraisal".

Six workshops Tuesday (April 3) afternoon will deal with making and using ratings for various employee groups. Specific manpower management ratings will be discussed in seven afternoon workshops Wednesday (April 4).

Harold A. Edgerton, vice president of Richardson, Bellows, Henry and company, New York city, will be guest speaker at the annual conference banquet at 6:30 p.m. Tuesday (April 3) in the Coffman Memorial Union junior ballroom. His subject will be "Measuring Effectiveness of Employee and Plant Community Relations Programs".

General sessions dealing with different aspects of ratings will meet in the Museum of Natural History auditorium. Speakers will include Rene L. Gaiennie, vice president, personnel, Fairbanks, Morse company, Chicago; Randolph Driver, manager of personnel administration, Atlantic Refining company, Philadelphia; Walter R. Mahler, Mahler Associates, New York City; Robert C. Hood, president, Ansul Chemical company, Marinette, Wis.; and Albert A. Larsen, office of vice president, manufacturing, Boeing Airplane company, Seattle.

In the final session at 3:15 p.m. Wednesday (April 4) in Nicholson hall auditorium, E. B. Knauff, personnel research manager, Aetna Life Insurance company, Hartford, Conn., will ask "Is Your Company Rating Program Worth Its Cost?"

The industrial relations conference is presented by the University's Industrial Relations Center and Continuation Center with the cooperation of the Twin Cities chapter of the Society for Advancement of Management.

'U' WILL HONOR SEVEN ALUMNI WEDNESDAY
AT COLLEGE OF EDUCATION ANNIVERSARY BANQUET

(FOR IMMEDIATE RELEASE)

Outstanding Achievement awards will be presented to seven graduates of the University of Minnesota's college of education at its 50th anniversary banquet Wednesday (March 28) at 6 p. m. in Coffman Memorial Union main ballroom.

University President J. L. Morrill will give awards to G. Lester Anderson, vice chancellor of the University of Buffalo (N. Y.); Theodore J. Berning, assistant commissioner of the Minnesota department of education; Leif S. Harbo, superintendent of Austin, Minn., public schools; George A. Selke, commissioner of conservation for the State of Minnesota and former president of St. Cloud State Teachers college; Homer J. Smith, retired head of the University of Minnesota industrial education department; Esther J. Swenson, professor and chairman of the University of Alabama department of elementary education; and Edwin Ziegfeld, professor of fine arts at Teachers College, Columbia university.

Guest speaker Beardsley Ruml, author of the pay-as-you-go income tax plan, will discuss "Financing Public Education". Ruml is active in the affairs of the Committee for Economic Development, serving as trustee and member of two committees. He was dean of the social science division and professor of education at the University of Chicago from 1931 to 1933, served as chief executive and trustee of the Spelman Fund of New York and is a former chairman of the Federal Reserve Bank of New York.

Dean Walter W. Cook of the college of education also will speak.

CONSERVATIONIST SPEAKS
AT UNIVERSITY THURSDAY

(FOR IMMEDIATE RELEASE)

Gustav A. Swanson, head of the Cornell university department of conservation, Ithaca, N. Y., will present an illustrated lecture Thursday (March 29) at the University of Minnesota. He will speak on "Conservation in Denmark and Sweden" at 3 p. m. in the Minnesota Museum of Natural History auditorium.

A University of Minnesota graduate, Swanson also taught economic zoology at the University for six years. He was employed by the United States Fish and Wildlife Service from 1944 to 1948, first as chief of the section of cooperative wildlife research units and later as chief of the branch of wildlife research in the U. S. He joined the Cornell staff in 1948.

As a fellow of the American Scandinavian foundation, Swanson studied conservation problems and practices in Denmark and Sweden in 1954-55.

MINNESOTA VALLEY
FILMS AT U. OF M.
MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

The natural history of the Minnesota Valley will be told in color film Sunday (April 1) at the Minnesota Museum of Natural History on the University of Minnesota campus. The free public program will begin at 3 p. m.

Films taken by R. J. Wilkie, 11 Bliss Lane, Bloomington, and his brother, James W. Wilkie, Minnesota River and County Road 37, Hopkins, will feature plant, animal and insect life in the Minnesota Valley. Their colored films also will show seasonal changes, flowers opening into bloom and a butterfly emerging from his cocoon.

The Wilkies accompanied the museum's Arctic expedition in 1953.

At the April 8 museum program, W. J. Breckenridge, museum director, will discuss "Twin City Wood Ducks".

DANISH BOTANIST
SPEAKS TUESDAY AT 'U'

(FOR IMMEDIATE RELEASE)

Johannes Iversen, head of the Paleobotanical Laboratory of the Geological Survey of Denmark and lecturer at the University of Copenhagen, will speak Tuesday (April 3) at the University of Minnesota.

His talk at 4 p. m. in the Botany building auditorium will be on "Pollen Statistical Evidence and Experimental Proof of Neolithic Forest Clearances".

Iversen, who received his doctor of philosophy degree in biology from the University of Copenhagen in 1936, is in the United States on a Rockefeller Foundation grant. He is a guest of Yale university.

Author of what has been called "the most definitive textbook on modern pollen analysis that is available", Iversen has concentrated principally on research in plant ecology and vegetational history.

Sponsors of Iversen's appearance are the departments of botany and concerts and lectures.

"RELIGION TODAY"
IS NEW PROGRAM
SERIES ON KUOM

(FOR IMMEDIATE RELEASE)

Religious issues of current interest will be analyzed in a series of radio programs starting Tuesday (April 3) on University of Minnesota station KUOM (770 kc.). Title of the series is "Religion Today".

Paul Holmer, University philosophy professor, will be featured in 10 weekly fifteen-minute programs at 5:45 p.m. Tuesdays.

The April 3 program will include a discussion of the question, "Is Christianity Mythology?" with particular emphasis on Rudolf Bultmann's essay, "New Testament and Mythology". In his discussion of Paul Tillich's "Biblical Religion and the Search for Ultimate Reality" on April 10, Holmer will ask, "Do Philosophy and Religion Overlap?"

On April 17, Holmer will analyze Will Herberg's book, "Catholic, Protestant, Jew" and ask "Is the Contemporary Religious Interest Genuine?" On April 24, he will turn to H. H. Rowley's "The Unity of the Bible" in an attempt to answer the question, "Is the Bible an Unity?"

The first half of the series will conclude with an analysis of the book, "Psychoanalysis and Religion" by Erich Fromm on May 1.

Holmer's remaining commentaries on "Religion Today" will attempt to answer such questions as "Does Religion Make Sense?", "Is Faith Mature?" and "Is Historical Research a Threat to Faith?" with reference to the works of Edmund Wilson, Karl Adam, Romano Guardini and Martin Buber.

DIABETES SOCIETY
BEING ORGANIZED,
MEMBERS SOUGHT

(FOR IMMEDIATE RELEASE)

Organization is underway in Minneapolis and St. Paul of the Lay Society of the Twin Cities Diabetes association, according to Dr. Arnold Lazarow, head of the University of Minnesota's anatomy department and president of the Clinical Society of the Twin Cities Diabetes association.

Persons interested in becoming members of the lay society are asked to write to Mrs. Mannie Guggenheim, 5225 Minnetonka boulevard, Minneapolis 16, temporary secretary of the group. They are requested to send their names, addresses and telephone numbers to Mrs. Guggenheim. C. R. Jack Corrick, 1629 Sixth street, S.E., Minneapolis, is temporary chairman.

The Twin Cities Diabetes association is an affiliate of the American Diabetes association. Purposes of the association are chiefly the detection of diabetes and education and research in the field of diabetes.

Dr. Lazarow estimated Thursday (March 29) that there are approximately 10,000 known diabetics in the Twin Cities area and another 10,000 persons who are suffering from diabetes but in whom the ailment has not been detected.

The clinical society, made up of Twin City people in the medical profession, was formed about two years ago. The lay group now being established will become a partner of the clinical society in carrying on the functions of the association, according to Dr. Lazarow.

NEW PSYCHOLOGY
WORK SUBJECT
OF 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Current developments and research in psychology will be the subjects of a conference Thursday, Friday and Saturday (April 5, 6 and 7) at the University of Minnesota Center for Continuation Study.

Anne Anastasi, Fordham university psychology professor, will speak at the Thursday evening session (April 5), which is open to the public. She will discuss "Current Developments in the Field of Individual Differences" at 7:30 p.m. in the Minnesota Museum of Natural History auditorium. Known for her work in this field, Professor Anastasi is co-author of a book on the subject.

Sponsors of the lecture are the Minnesota Psychological association, Psi Chi, Twin City Vocational Guidance association and the University of Minnesota.

The three-day meeting will include discussions of psychology research and recent developments in personality measurement, psychology in industry and counseling.

Professor Anastasi will discuss the problems of gifted children Friday (April 6) morning, and that afternoon she will participate in a symposium on the problem of the criterion.

Other members of the visiting faculty will be Harold Edgerton, vice president in charge of research, Richardson, Bellows and Henry, consulting psychologists, New York City, and John Pearson, chief psychologist, Rochester State hospital. Edgerton is a former psychology professor at Ohio State university.

The Minnesota Psychological association will hold its annual meeting at 4:15 p. m. Friday (April 6) in the continuation center.

TWO RARE BOOKS
GIVEN TO BELL
COLLECTION AT 'U'

(FOR IMMEDIATE RELEASE)

Two books have been added to the University of Minnesota library's James Ford Bell collection by Mrs. Vera M. Bowman, 1769 Dupont avenue S., Minneapolis. The rare volumes were given in memory of Edward A. Brooks, late president of the Brooks-Scanlon Lumber company, and the late Mrs. David D. Tenney of Crystal Bay, Lake Minnetonka.

"Tabago: A Geographical Description and Natural and Civil History" is Mrs. Bowman's gift in memory of Brooks. The anonymous volume was published about 1753 in London. When the book was written, Tobago, an island off the north coast of South America, was contested by England and France. In stating England's case, the author describes the island's natural products, relates its history, praises its climate and proposes it as an ideal place for settlement.

Mrs. Tenney's memorial volume is William Funnell's "A Voyage Round the World", which tells of English seaman Captain Dampier's voyage in 1703 and 1704. First published in London in 1707, the book contains four charts of islands and harbors and 10 plates showing the natural history of the regions visited by Dampier in the interests of a group of English merchants. The original panelled calf binding bears the gilt crest of its former owner, the Duke of Buccleuch.

Both books will be on display in the University library throughout April and May.
