Press release

(FOR IMMEDIATE RELEASE)

Minneapolis --- Dr. Lloyd E. Musburger, Jamestown, N. D., dentist and a leader in North Dakota public health programs, will receive the University of Minnesota Outstanding Achievement Award Friday (Oct. 5).

Malcolm M. Willey, University vice president for academic administration, will present the award to Dr. Musburger at the fifth annual meeting of the University School of Dentistry Alumni association. The meeting will follow a noon luncheon in Coffman Memorial Union main ballroom.

Consisting of a gold medal and a citation, the award is presented to alumni who have distinguished themselves in their chosen fields.

Dr. Musburger, a 1923 graduate of the University school of dentistry, has been in practice in Jamestown since his graduation. Throughout the years he has been a leader both in the dental profession in North Dakota and in public health programs. He was a leader in promoting the use of fluorine in the water supplies of the cities of North Dakota. For 10 years, he served on the Governor's Health Planning committee and was responsible for establishing the division of oral hygiene in the public health department of the State of North Dakota.

Dr. Musburger was president of the North Dakota State Dental society in 1941.

Born Oct. 27, 1890, in Fort Dodge, Iowa, Musburger has lived most of his life in North Dakota. He was graduated from Fargo college with a major in philosophy in 1914. After graduation, he became principal of the Fargo college academy, which he had attended in his late teens. His teaching career was interrupted by service in World War I. He entered the University school of dentistry after his tour of army duty in 1920.

At 'U' Convocation---
LAW PROFESSOR
TO DISCUSS WIRE
TAPPING THURSDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- "The Wire Tapping-Electronic Eavesdropping Problem" will be the subject of a University of Minnesota free public convocation address Thursday (Oct. 4) by a University law professor.

Professor Yale Kamisar will give the 11:30 a.m. talk in Northrop Memorial auditorium.

A specialist on the constitutionality of criminal law procedure, Professor Kamisar has written on several controversial subjects in professional law publications.

A 75-page article he wrote on euthanasia (mercy killing) has been called by author Norman St. John-Stevas "the fullest statement of argument against euthanasia" from the non-religious viewpoint ever to appear in Angle-American literature.

Next month he will deliver a paper on "Arrest, Search and Seizure, and Criminal Interrogation" at the national conference of law enforcement officials, judges and legislators at Northwestern university school of law.

His latest article, in the June 1962 issue of the Journal of Criminal Law, which appraised the effect of recent federal court decisions on police attitudes and practices and crime rates was reprinted in part in the Washington Post.

The 1954 Columbia university law school graduate is co-author of a forthcoming casebook on Constitutional Law. At Columbia, he was an editor of the Columbia Law Review and winner of the Anti-Trust Law prize. He was graduated in 1950 from New York university, where he was elected to Phi Beta Kappa.

A member of the University of Minnesota law school faculty since 1957, Prof. Kamisar is a member of the Advisory Committee on the Revision of the Minnesota Criminal Law. In 1960-61, he made a study in more than 50 counties in the state of the exercise of the prosecutor's discretion. This study was made under a Social Science Research council fellowship.

He lives at 5 Circle East, Edina, with his wife and three sons.

DEADLINE FOR
NROTC TESTS
IS NOV. 16

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 2, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis ---Minnesota high school seniors and graduates interested in attending college through the Naval Reserve Officers Training Corps have until Nov. 16 to apply for nationwide competitive entrance examinations.

Captain Edward M. Morgan, USN, University of Minnesota professor of naval science and Naval ROTC unit commander said the national 1962 total of appointments to Naval ROTC will increase by approximately 600, with Minnesota's quota raised to about 40 regular appointments and 15 alternates. An appointment to the University of Minnesota, only educational institution in the state conducting Naval ROTC classes, is valued over \$5,000, according to Capt. Morgan.

Qualified students will be able to earn regular commissions as officers in the United States Navy or Marine Corps as well as bachelor degrees in the field of their choice, Capt. Morgan said. The University of Minnesota is one of 53 institutions of higher education in the country having NROTC units.

To meet eligibility requirements for this Navy educational program, applicants must have reached their 17th but not their 21st birthday by June 30, 1963; contract to remain unmarried until commissioned; complete prescribed naval science courses, drill and cruises; and accept a commission in the regular Navy or Marine Corps if offered.

The physical requirements for the "regular" Naval ROTC are the same as those required of candidates for entry into the U.S. Naval academy at Annapolis, Capt. Morgan explained. Selection of winning candidates who have successfully passed the Navy college aptitude test is made according to area quotas based upon the percentage of male high school graduates from each state in relation to the country at large.

Successful candidates may choose the qualified college or university which they wish to attend.

In addition to tuition, books, uniforms and incidental fees, the regular program Naval ROTC students under this plan receive a personal allowance of \$50 per month each for the duration of the four years.

Completed application forms for the Navy College Aptitude Test must be received by the Naval Examining Section, Science Research Associates, Inc., McHenry, Ill., not later than midnight, Nov. 16. Application forms may be obtained at the University of Minnesota, Naval Reserve Officers Training Corps, Armory, Minneapolis 14, or at any U.S. Navy recruiting station.

STATE INSURANCE CHIEF
SAYS INTEREST HIGH
IN 'U' INSTITUTE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Cyrus E. Magnusson, state insurance commissioner, said today insurance industry interest is running high in an Automobile and Psychological Testing institute to be conducted by the University of Minnesota

Oct. 12-13.

Magnusson reported advance registrations from outside Minnesota have been better than two to one ahead of home-state registrants. Expected attendance at the institute is between 130 and 150 people.

"Noting our 1962 national traffic accident picture, psychological testing and its possible application to auto insurance driver licensing, enforcement and driver education provides a stimulating and timely subject matter", Commissioner Magnusson said.

The institute will be held in the Center for Continuation Study on the Minneapolis campus. It will be conducted through the school of business administration and the Continuation center, and co-sponsored by the Minnesota Insurance Information center and the Minnesota State Department of Insurance.

C. Arthur Williams, Jr., University professor of economics and insurance, and Dean J. M. Nolte of the University's general extension division are the official hosts for the institute.

The institute will explore psychological testing and its many ramifications in the automotive traffic safety field as well as automobile insurance in order to determine progress being made, limitations and areas of successful application. For example, in automobile insurance, psychological testing will be reviewed from the standpoint of the psychologist, the insurance company executive, the casualty industry and the state commissioner of insurance.

'U' ARTS COLLEGE
TO OBSERVE SLA
WEEK OCT. 8-11

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BIDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 2, 1962

(FOR IMMEDIATE RELEASE)

The Challenge of Change will be the theme of the 1962 observance of SLA Week, Oct. 8-11, by the University of Minnesota's college of science, literature and the arts (SLA).

The special emphasis on SLA Week is designed to encourage students in the University's largest college to realize the special value of a liberal education in meeting the pressures of a constantly changing society, according to the SLA Week chairman, Sydney Jean Palm, senior from Litchfield.

Of special importance on the 1962 SLA Week program, Miss Palm said, will be the Career Mart from 10 a.m. to 4 p.m. Tuesday and Wednesday (Oct. 9-10) in Coffman Memorial Union main ballroom. Area business and professional organizations are providing exhibits and booths designed to answer the question, "What do you do when you graduate from college with a bachelor of arts degree?"

The annual SLA scholars competition, Quiz Bowl, will be held in Coffman Union Tuesday, Wednesday and Thursday (Oct. 9, 10, 11); however, the finals will not be televised this year.

"Society, Education and Self-Identity" will be the topic of the special SLA Week convocation 11:30 a.m. Thursday (Oct. 11) in Northrop Memorial auditorium. Professor Ruth Useem of Michigan State university's anthropology and sociology department will be the speaker.

SLA Dean Errett W. McDiarmid again will turn his office over to the winner of the annual Dean-For-A-Day contest Thursday (Oct. 11), and the new "Dean" and his assistant will preside over the dean's office for the day.

The final event of 1962 SLA Week will honor outstanding students in the many divisions making up the University's arts college and two SLA faculty members at the fourth annual meeting and dinner of the College of Science, Literature and the Arts and the University College Alumni association at 6:30 p.m. Thursday in Coffman union junior ballroom. Reservations for the \$3 dinner may be obtained at the alumni association office, Room 205 Coffman Memorial Union, University of Minnesota, Minneapolis 14.

BEHAVIOR PROBLEMS
THEME OF 'U' WORKSHOP ON
CHILD-CARING INSTITUTIONS

(FOR IMMEDIATE RELEASE)

Behavior problems of children in the 10 to 16 age group will be the subject of the University of Minnesota's first workshop for personnel of child-caring institutions, which starts Monday (Oct. 8).

The five-day training institute, in the Center for Continuation Study, is sponsored in cooperation with the Minnesota Association of Child-Caring Institutions through a grant from the National Institute of Mental Health.

The course is designed for non-professional personnel in child-caring institutions who come in day to day contact with the children in their establishments. Samuel P. Berman, executive director of the Edgewood Children's center, Webster Groves, Mo., will be the workshop leader.

Berman has conducted many workshops on child welfare and related issues at several other colleges and universities. He is chairman of the Conference of Institutional Superintendents of Health and Welfare Council of Metropolitan St. Louis.

He will open the conference at 9 a.m. Monday (Oct. 8) with a morning-long discussion of "What We Need to Know About Personality Development of Children Who Come to Institutions".

Other topics to be discussed at the workshop will include "Preventive Discipline", "What Does the Child Really Need" and "The Child-Care Workers' Responsibility in Group Living". A film entitled "Boy with a Knife" will be shown at 1 p.m. Wednesday (Oct. 10).

Thursday afternoon (Oct. 11), field trips will be made to the Woodview Detention Home, Bremer House and Home of the Good Shepherd in St. Paul; the Minnesota Children's Treatment center, Oak Terrace; University Hospitals' child psychiatric unit; and the Hennepin County School for Boys, Glen Lake.

(FOR IMMEDIATE RELEASE)

Minneapolis --- The second unit of the United States Peace Corps, numbering 40 members, to be trained at the University of Minnesota will assemble on the University's St. Paul campus Friday (Oct. 5) for orientation in Project Pakistan II.

The initial group of 64 volunteers trained on the University campuses last summer and now on "home-leave", will depart Oct. 15 for duties in East and West Pakistan. The current trainees will be taught two Pakistani languages, Urdu and Bengali. The group is limited to nurses, medical technologists, civil engineers and surveyors, according to Professor Luther J. Pickrel, corps director for the University.

The training schedule for this group calls for intensive class work through the middle of December and "commencement" about Dec. 20. The volunteers will leave for their areas in Pakistan shortly after the first of the year.

As did their predecessors, the members of this group will attend classes on both the Minneapolis and St. Paul campuses of the University. All are qualified in their respective fields but will take refresher courses in their own fields. They also will attend classes in languages, orientation and public health. A section will be held on the Nature of Communism and Its Philosophy, Factors and Strategy of the Communists, American History and Government and World Affairs. A physical fitness program also will be held.

The unit will be trained by University faculty specialists and specialists from our own government, other universities and members of the Pakistan Embassy.

All costs to the University of the Pakistan Projects, including operational overhead, will be paid by the Peace Corps, Pickrel reported.

'U' OFFICIALS
TO ATTEND
NATIONAL EDUCATORS MEET

(FOR IMMEDIATE RELEASE)

University of Minnesota President O. Meredith Wilson and Stanley J. Wenberg, vice president for educational relationships and development, will attend a meeting this week of the American Council on Education (ACE) in Chicago, Ill.

"Higher Education and the Federal Government: Programs and Problems" will be the theme of the conference to be held in the Pick-Congress hotel.

President Wilson, a former ACE chairman, will participate in Thursday's (Oct. 4) sessions only. Friday, he will attend a meeting of the executive committee of the Carnegie Foundation for the Advancement of Teaching in the foundation offices in New York. He will return to the Twin Cities Friday night.

Wenberg will attend Thursday and Friday sessions of the American Council on Education meeting, and also will return Friday night.

(FOR IMMEDIATE RELEASE)

Minneapolis --- A university president and a woman civic leader will receive the University of Minnesota's Outstanding Achievement Award Thursday (Oct. 11).

They are John Stuart Allen, president of the University of South Florida, Tampa, and Mrs. Wright Brooks (Gladys Sinclair), Minneapolis civic leader, president of the International Center for Students and Visitors at the University of Minnesota and president of the Minnesota Council of Churches.

The awards, given to alumni who have distinguished themselves in their chosen fields, will be presented at the fourth annual meeting of the College of Science, Literature and the Arts and the University College Alumni association at a 6:30 p.m. dinner in Coffman Memorial Union junior ballroom. President Allen will speak on the topic, "Can Liberal Education Meet the Challenge of the Population Explosion?"

University Regent Otto A. Silha will present the Outstanding Achievement Award, consisting of a gold medal and a citation, to President Allen and Mrs. Brooks.

The alumni meeting will be a highlight of SLA Week (for college of science, literature and the arts) on the campus. Outstanding students will be honored at the dinner and the third annual Distinguished Teacher Award of the alumni association will be presented.

(MORE)

The Outstanding Achievement Award recipients both studied in the University's college of science, literature and the arts. Allen received a master of arts degree from the University in 1929. He did his undergraduate work at Earlham college. Mrs. Brooks was graduated from the University in 1931 with a bachelor of arts degree in political science and took graduate studies in economics at the University.

Allen, president of the University of South Florida since 1957, is a noted astronomer as well as an educational administrator. He began his teaching career as an assistant in astronomy at the University of Minnesota. He taught for 12 years at Colgate university before becoming director of the division of higher education of the New York State education department in 1942. He served in that capacity until becoming a vice president at the University of Florida in 1948. He held various administrative posts there until assuming the presidency of the University of South Florida.

Mrs. Brooks this year was elected the first woman president of the Minnesota Council of Churches and is chairman of the Governor's Human Rights Commission. She is also a member of the board of the National Council of Churches, the Governor's Advisory Committee on Children and Youth and several other civic and church organizations.

The wife of Minneapolis lawyer Wright Brooks, the couple has three children and resides at 5056 Garfield ave., S., Minneapolis.

ATLANTIC UNITY
ADVOCATE TO TALK
AT 'U' WEDNESDAY

(FOR IMMEDIATE RELEASE)

Walter Stahl, executive director of two West German organizations promoting Atlantic unity and German cooperation with the United States, will give a free public lecture at the University of Minnesota Wednesday (Oct. 10).

The former American prisoner of war will speak on "Education for Democracy in West Germany" at 3:30 p.m. in Murphy hall auditorium.

Stahl has been executive director of the "Atlantik-Bruecke", the German counterpart of the American Council on Germany, in Hamburg, Germany, since 1952. Since January of this year, he has been executive director of "Atlantica", an organization for the promotion of the Atlantic Cooperation, the German section of the Atlantic Institute in Paris.

A lawyer in private life, he also is the editor of two journals, "Meet Germany" and "German Social Science Digest". He edited two recent books, "Education for Democracy in West Germany" and the "Politics of Western Germany". He is publisher of "The Bridge", illustrated monthly for Americans stationed in Germany.

During World War II, Stahl was an American prisoner of war for three years in Trinidad, Colo., and Fort Eustis, Va.

His lecture will be sponsored by the University's history department, the college of education and the department of concerts and lectures.

Up 2,770---
U OF M ATTENDANCE
SETS NEW HIGH;
33,616 IN CLASSES

(FOR IMMEDIATE RELEASE)

Minneapolis ---University of Minnesota attendance has reached an alltime high with 33,616 students enrolled in fall quarter daytime classes, an increase of 2,770 or 9 per cent over the 30,846 previous high figure of one year ago, True E. Pettengill, University recorder, reported Monday (Oct. 8). This marks the tenth fall quarter in which the total has increased since 1951 when attendance was 18,682, low point in the post World War II period.

In addition to the record daytime enrollment, Pettengill disclosed, the University's general extension division evening class attendance has climbed 8 per cent to a new high mark of 12,233. This represents an increase of 949 over the previous record of 11,284 evening students in classes last fall.

Included in the 33,616 day students currently attending the University are 29,942 on the Minneapolis-St. Paul campuses, 3,152 at Duluth and 522 (up 19 per cent) at Morris, which added a junior class this year. A year ago, the Twin Cities campuses had 27,526 students, Duluth 2,883, and Morris 437.

About the same number of new students entered the University this fall as a year ago, 10,628 as compared with 10,631, Pettengill reported. This year's newcomers included 7,257 freshmen, 2,992 students with advanced standing from other institutions and 379 new special students. Among new students last year, were 7,532 new freshmen, 2,690 advanced standing students from other institutions and 409 new special students.

Of the students attending the University this fall, 22,806 are men and 10,810 are women---a ratio of men to women of approximately 7 to 3. There are 1,745 (8 per cent) more men in the student body this year than last and 1,025 (10 per cent) more women.

(MORE)

'U' ATTENDANCE

- 2 -

Attendance figures for the various colleges at the close of the second week of the quarter are as follows:

<u>COLLEGE</u>	<u>1961</u>	<u>TOTAL</u>	<u>1962</u>
General College	2995		3079
University College	31		39
Science, Literature and the Arts	9688		10720
Institute of Technology	3230		3131
Agriculture, Forestry and Home Economics	1824		1873
Law School	327		413
*Medical School	505		537
Medical Technology	95		86
Physical and Occupational Therapy	76		93
Nursing	299		282
Public Health	188		200
Dentistry	365		368
Dental Hygiene	83		85
Pharmacy	189		222
Education	2350		2450
Business Administration	572		550
Graduate (Mpls., St. Paul, Duluth, Mayo)	4539		5647
Veterinary Medicine	170		167
Minneapolis & St. Paul Campus Total	27526		29942
Duluth Campus	2883		3152
Morris Campus	437		522
TOTAL	30,846		33,616

*The Medical School operates through four quarters with students arranging one free period. This fall, 19 students are on their free period. A year ago, there were 14. These students are additional to the attendance figures shown for the Medical School.

(MORE)

Commenting on the attendance statistics, Pettengill pointed out that 1,108 (24 per cent) of the 2,770 increase occurred in the graduate school. A significant portion (probably several hundred) of the graduate school student increase resulted from the transfer to the graduate school of the evening school master of business administration program and the new requirement that doctor of philosophy degree candidates must maintain current registration up to the completion of all degree requirements even though they may have completed their course work.

"The attendance statistics, in other respects, generally correspond to expectations," Pettengill stated. "The slight decrease in freshmen is related to the smaller number of Minnesota students graduated from high school last June. The increase in advanced standing students results from the growing enrollments at other institutions which provide preparation for the professional schools and graduate work. The increase in the proportion of women students also is a trend which has been rising gradually in recent years.

"These factors," the University recorder asserted, "are expected to prevail next year---sustaining high level enrollments. In 1964, however, a significant increase in the freshman class is expected because of the record high number of students currently in the eleventh grade in the state's high schools."

(FOR IMMEDIATE RELEASE)

Minneapolis --- The married student will be the object of study by college student personnel workers at a University of Minnesota training institute Monday and Tuesday (Oct. 15 and 16).

Approximately 50 personnel workers from area colleges are expected to attend the institute at the University's Center for Continuation Study. The institute will be conducted by the Continuation center, the office of the dean of students and the University's Family Study Center.

Dean of Students E. G. Williamson says the married college student has for some time been the neglected member of the campus community.

"At some colleges and universities as many as 25 per cent of students are married and it is likely this percentage will increase further," he declared.

The institute, Dean Williamson explained, will be aimed at clarifying the responsibility of higher education toward the young man or woman who is faced with the task of handling academic as well as family obligations.

Harold Taylor, who retired a year ago as president of Sarah Lawrence college, Bronxville, N. Y., will keynote the institute with an address at 9:30 a. m. Monday on "Higher Education and the Married Student".

Other subjects to be considered during the institute include: "Life Complexities"; "Academic Achievement and Marital Status"; "Finances", "Social Life" and "Housing" of the married student.

(FOR IMMEDIATE RELEASE)

John Fischer, editor of Harper's magazine, will speak on "Magazine and Newspaper Journalism: A Comparison" in the 1962 Newspaper Guild Memorial lecture at 8:30 p. m. Thursday (Oct. 11) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

Fischer will give the sixteenth lecture in a series sponsored by the University's school of journalism through a grant from the Newspaper Guild of the Twin Cities in honor of three guild members who lost their lives in World War II military service.

Pierre Salinger, press secretary to President Kennedy, and James Hagerty, who had been President Eisenhower's press secretary, were the speakers in last year's lecture.

Fischer, in his column, "The Editor's Easy Chair", which appears regularly in Harper's, and in other writings, frequently has discussed the impact of newspapers and magazines upon American life.

(FOR IMMEDIATE RELEASE)

Approximately 100 insurance company executives from 15 states are expected to attend a University of Minnesota institute Friday and Saturday (Oct. 12-13) on "Automobile Insurance and Psychological Testing".

The institute will examine the use of psychological tests by insurance companies to identify the hazardous driver.

Sessions will be held in Mayo Memorial auditorium on the Minneapolis campus, beginning at 9 a.m. both days. The institute will be conducted by the University's school of business administration and Center for Continuation Study in cooperation with the Minnesota State Department of Insurance and the Minnesota Insurance Information Center.

"Recent developments in psychological testing have attracted considerable attention and raised the question of greater applications of testing in driver education, licensing and enforcement and automobile insurance," according to C. Arthur Williams, Jr., University professor of economics and insurance.

In addition to University of Minnesota staff members, faculty for the course will include Cyrus E. Magnusson, Minnesota state insurance commissioner; William E. Timmons, Iowa state insurance commissioner; L. G. Keeney, president of Farmers Mutual Reinsurance company, Grinnell, Iowa; William Mann, Michigan State university education professor; Richard Olson, safety and personnel director of the Dan Dugan Oil Transportation company, Sioux Falls, S. D.; Robert P. Provost, executive director of the Minnesota Insurance Information center; Darrell E. Roach, research services director for Nationwide Insurance company, Columbus, Ohio; Truman S. Smith, driver training supervisor, Minneapolis public schools; and Ronald V. Thunen, California state drivers licenses division chief.

SCHUESSLER TO SING
ENGLISH ART SONGS
ON CH. 2 MONDAY

(FOR MUSIC PAGE OR MUSIC COLUMN)

"English Art Songs" will be sung by Baritone Roy A. Schuessler, professor of music at the University of Minnesota, in Monday's (Oct. 15) "At Home With Music" presentation at 9 p.m., KTCA-TV, Channel 2.

The program, a weekly presentation of the University music department, will feature musical settings to the works of such famous English authors as John Milton, Robert Louis Stevenson, A. E. Housman and William Shakespeare.

Professor Schuessler will sing:

"Leave Me, Loathsome Light".....G. F. Handel
"Air from Comus" (John Milton).....Dr. Thomas Arne
"Now Phoebus Sinketh in the West" (Milton's
"Comus".....Dr. Thomas Arne
"The Vagabond" (R. L. Stevenson).....Ralph Vaughn Williams
"Go, Lovely Rose" (Edmund Waller).....Roger Quilter
"Loveliest of Trees" (A. E. Housman).....George Butterworth
"Is My Team Plowing?" (A. E. Housman).....George Butterworth
"Lyonesse" (Thomas Hardy).....Gerald Finzi
"Rollicum Rorum" (Thomas Hardy).....Gerald Finzi
"Come Away Death" (Shakespear).....Gerald Finzi
"Who Is Sylvia? (Shakespeare).....Gerald Finzi
"Fear No More the Heat o' the Sun"
(Shakespeare).....Gerald Finzi

Pianist Duncan McNab, of the University music department, will be the featured performer on the Oct. 22 "At Home With Music" program.

SOCIOLOGIST-AUTHOR
TO TALK AT
'U' SLA-DAY CONVOCATION

UNIVERSITY OF MINNESOTA

TELEPHONE: 373-2137
OCTOBER 9, 1962

(FOR IMMEDIATE RELEASE)

Ruth Hill Useem, author and sociologist, will speak on "Society, Education and Self Identity" Thursday (Oct. 11) at the University of Minnesota's annual Science, Literature and the Arts (SLA) Day convocation.

The free, public convocation will be at 11:30 a.m. in Northrop Memorial auditorium.

Mrs. Useem, Michigan State university social science instructor and research consultant in sociology and anthropology, is co-author with her husband, John Useem, of the book "The Western Educated Man in India". She is writing a new book called "Americans in India", a study of American businessmen, government, missionaries and students in India. Other subjects on which she has written are the mental health of middle-management men, the education of women and exchange students.

A graduate of Miami university, Oxford, Ohio, Mrs. Useem received the doctor of philosophy degree from the University of Wisconsin, where she served for a short time as an extension instructor. She also taught at Queens college in New York and at the University of South Dakota.

She is a fellow of the American Sociological association and the American Anthropological association.

The convocation, an event of the University's College of Science, Literature and the Arts Week is sponsored by the department of concerts and lectures.

MILWAUKEE JOURNAL
PUBLISHER TO RECEIVE
U OF M JOURNALISM AWARD

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 10, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- Irwin Maier, president and publisher of the Milwaukee Journal and president of the American Newspaper Publishers association, Thursday (Oct. 11) was named the 1962 winner of the annual University of Minnesota Award for Distinguished Service in Journalism.

It is the second time the award has gone to a Journal executive. Harry T. Grant, now chairman of the board, received the award in 1950.

Professor Robert L. Jones, director of the University's school of journalism, will present a bronze medal and a certificate to Maier Tuesday (Oct. 16) at a luncheon of the annual meeting of the Inland Daily Press association in the Drake hotel, Chicago.

Maier's selection by the University's journalism faculty from nominations submitted by Inland Daily Press members, was made on the basis of his many contributions to journalism over a long career, rather than on the basis of a single achievement, according to Professor Jones.

A native of Mellen, Wis., Maier was graduated from the University of Wisconsin school of commerce with a bachelor of arts degree. He joined the Madison (Wis.) Capital Times as advertising manager, then moved to the Milwaukee Journal in 1924 as an advertising salesman.

He subsequently held positions as retail advertising manager, advertising manager and was appointed to the new position of sales manager in 1937. Maier became business manager of the paper in 1939. Three years later he was elected to the board of directors. In 1946, he was named vice president and publisher and was elected president of the employee-owned company Jan. 9, 1961.

(MORE)

Active in professional organizations and civic affairs, Maier received the Distinguished Service Award of the University of Wisconsin Alumni club in 1961 and was awarded the University of Wisconsin school of journalism Citation for Distinguished Achievement in Journalism in 1955. He is executive vice president of the University of Wisconsin Foundation.

Maier served two terms, 1935 and 1936, as president of the Newspaper Advertising Executives association and has held several offices in the American Newspaper Publishers association. An authority on newsprint, he is chairman of the Inland Daily Press newsprint committee. Under his guidance, the Milwaukee Journal was a pioneer in the use of color in newspaper pages.

Maier is married and the couple has four children.

Previous winners of the award were the late Emanuel P. Adler, Davenport (Ia.) Times publisher; the late Stuart H. Perry, Adrian (Mich.) Telegram publisher; Tom H. Keene, Elkhart (Ind.) Truth editor; J. S. Gray, editor and publisher, Monroe (Mich.) News; Harry J. Grant, board chairman, Milwaukee Journal; Linwood I. Noyes, Ironwood (Mich.) Globe publisher; Dr. Alberto Gainz Paz, when exiled editor-publisher of the expropriated Buenos Aires La Prensa; Mr. and Mrs. Harry E. Rasmussen, formerly editor and publisher and business manager, Austin (Minn.) Herald; Carl M. Saunders, Jackson (Mich.) Citizen Patriot editor; John Cowles, president of the Minneapolis Star and Tribune; Edward E. Lindsay, editor and vice-president, and Frederick W. Schaub, executive vice president, Lindsay-Schaub newspapers; Franklin D. Schurz, publisher, South Bend (Ind.) Tribune; Louis A. Weil, Jr., publisher, Lafayette (Ind.) Courier-Journal; Lee P. Loomis, publisher, Mason City (Iowa) Globe-Gazette.

Southbound Only---
UNION STREET
ON 'U' CAMPUS
TO BE ONE-WAY

(FOR IMMEDIATE RELEASE)

Effective Monday, Oct. 29, Union street, S. E., on the University of Minnesota's Minneapolis campus will become a one-way street---open only to southbound traffic---from 17th avenue to Washington avenue, C. B. Hanscom, director of the University's department of police, reported Wednesday (Oct. 10).

The change is being made, Hanscom explained, to facilitate the flow of traffic to and from the parking lots east of the Architecture building and the parking ramp at Union and Washington streets.

"With the elimination of traffic turning north into Union street from Washington avenue," Hanscom asserted, "the Union-Washington intersection will be safer for pedestrians."

'U' MAN TO TAKE
PART IN FULBRIGHT
FEST IN GERMANY

(FOR IMMEDIATE RELEASE)

Professor Joseph J. Kwiat, one of the few University of Minnesota faculty members to receive two Fulbright grants, will take part next month in the observance, at Bonn, Germany, of the tenth anniversary of the establishment of the Fulbright program in the Federal Republic of Germany. The event will take place at Bonn university.

A member of the University of Minnesota's interdisciplinary programs-humanities faculty, Professor Kwiat currently is a Fulbright grantee lecturing on American literature and American studies at the University of Innsbruck, Austria. In 1953-54, he also served as a Fulbright grantee lecturing at the University of Tübingen, Germany.

The Fulbright program celebration will be held the week of November 19-23 at Bonn university, according to Lewis M. Hammond, acting chairman of the United States Educational Commission in the Federal Republic of Germany. The republic is co-sponsor of the event with Bonn university.

Honored guests at the celebration will include West German Chancellor Konrad Adenauer, United States Senator James W. Fulbright, John J. McCloy, former military governor and high commissioner to Germany, 1949-52, and James Bryant Conant, former president of Harvard university, onetime United States ambassador to the Federal Republic of Germany, 1953-55.

A reunion of former Fulbright grantees, meetings and seminars and an academic procession will highlight the week's activities.

DUTCH SOCIOLOGIST
TO TALK AT 'U'
ON 'AMERICA'S IMAGE'

(FOR IMMEDIATE RELEASE)

"The Image of America in Western Europe" will be the topic of a free public lecture by a Dutch sociologist Monday (Oct. 15) at the University of Minnesota.

A. N. J. Den Hollander, University of Amsterdam sociology professor and president of the UNESCO Center for the Netherlands, will speak at 3:30 p.m. in 155 Ford Hall.

Currently a visiting professor at Boston university, Professor Den Hollander has made a sociological study of the "poor whites" of the Southern states in the United States and is co-author of the book, "Culture of the South". His current research in this country is on "National Images and Stereotypes".

Professor Den Hollander is director of the Amerika Instituut in the Netherlands and is former vice-president of the International Sociological association.

He has written many books in the Dutch language.

The lecture will be sponsored by the University's sociology department and the department of concerts and lectures.

SATURDAY LAST
DAY TO REGISTER
FOR COLLEGE TESTS

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 11, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis---Minnesota high school seniors have only until Saturday (Oct. 13) to register for the American College Testing Program, according to Ralph F. Berdie, Minnesota state coordinator of the American College Testing Program and director of the University of Minnesota Student Counseling bureau.

The examination, to be administered Saturday, Nov. 10, is required or recommended for admission to more than 710 colleges and universities participating in the nationwide ACT program. These include 28 in Minnesota.

Consequently, high school seniors seeking admission to any of the ACT-affiliated colleges or universities should register for the tests before next Saturday's deadline, he advised.

The Nov. 10 test date is the first and largest of four scheduled for 1962-63. The other dates are February 23, April 20 and June 22, 1963. Most colleges and universities participating in the ACT program, however, urge students planning to apply for admission to take the test in November, Berdie said. They may obtain ACT registration forms and instructions from their high school offices.

Colleges and universities participating in the program use results for admissions, for guidance of in-coming students, in the award of scholarship aid and, also, in placing freshmen in classes or programs best suited to their ability.

The three-hour test has four parts that yield five scores---a composite score indicating overall college potential, and four separate scores indicating levels of general capability in English, mathematics, social studies and the natural sciences.

Results and manuals explaining how scores should be interpreted are furnished colleges selected by the student and are sent to the student's high school for his and the school's use in guidance.

(MORE)

In Minnesota the advisory committee for the ACT program is the Committee on Minnesota High School-College Relations of the Association of Minnesota Colleges and the Minnesota Association of Secondary School Principals.

The following 28 colleges and universities require or recommend the ACT test of applicants:

Augsburg College, Minneapolis	Hibbing Jr. College, Hibbing
Austin Jr. College, Austin	Mankato State College, Mankato
Bemidji State College, Bemidji	Minneapolis School of Art, Minneapolis
Bethany Lutheran College, Mankato	Moorhead State College, Moorhead
Brainerd Jr. College, Brainerd	Rochester Jr. College, Rochester
College of St. Benedict, St. Joseph	St. Cloud State College, St. Cloud
College of St. Scholastica, Duluth	St. Mary's College, Winona
Concordia College, Moorhead	St. Mary's School of Nursing, Minneapolis
Concordia College, St. Paul	University of Minnesota, Duluth
Crosier Seminary, Onamia	University of Minnesota, Minneapolis

U OF M HOSPITALS
ADMIT 15,542,
AMBERG REPORTS

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 11, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- Patients admitted to University of Minnesota Hospitals during the year ending June 30, totaled 15,542, according to the biennial report of Ray M. Amberg, hospitals director.

In the preceding year, 1960-61, the hospitals cared for a total of 15,561 bed patients.

Although the number of bed patients has decreased, the number of new outpatient visits increased in 1961-62 to 19,910 from 19,088 the previous year. Total patient visits made in 1961-62 were 124,940, an increase of more than 3,000 over the 1960-61 total of 121,830.

The daily average population of bed patients was up from 594.7 in 1960-61 to 622.5 in 1961-62.

Cost of operating the hospitals has continued to rise annually for the last few years, Amberg reported. Average expense per patient day was \$41.86 in 1961-62 and \$39.05 in 1960-61, an increase of \$2.81 per patient day. Four years ago, the cost per patient day was \$37.45.

Surgical operations performed during the year 1961-62 numbered 11,236 compared to 10,953 during 1960-61.

Of the total number of patients, the Variety Club Heart Hospital admitted 1,713 patients in 1961-62 compared to 1,610 the year before. The Masonic Memorial hospital treated 899 patients in the last fiscal year, a slight decrease from the 906 patients of 1960-61.

The psychopathic department of the Hospitals had a 25 per cent decrease in 1961-62 in the number of adult patients admitted. Total number was 432 compared to 583 in 1960-61. Child psychiatry admitted 80 patients in 1961-62 compared to 136 the previous year.

(MORE)

The rehabilitation center had a substantial increase in its activity with patient visits increasing from 55,912 in 1960-61 to 62,850 the last fiscal year. Number of patients increased from 3,889 to 4,084.

"The Hospitals continues to broaden services to the people of the state by providing staff, technical personnel and equipment to keep in step with the changes and new concepts in patient care," Amberg said in his report.

During the coming year construction will be started on a new Children's Rehabilitation Center building. Plans are underway for another addition to the Variety Club Heart hospital to meet demands for additional diagnostic and treatment facilities. Amberg also reported the Masons of Minnesota have indicated an interest in building two additional floors on the Masonic Memorial Hospital providing 50 additional beds and additional research facilities.

In operation since 1909, the University Hospitals serves as a training ground for more than 500 medical students in addition to more than 900 medical technologists, nurses, X-ray technologists, physical and occupational therapists, social workers, dietitians, pharmacists and dentists. Their work is carried on in the hospitals and outpatient department under the direct supervision and guidance of a staff of full-time and part-time instructors.

University Hospitals rules require that each patient must be referred for admission by his family physician or by a physician in his local community.

'U' ROTC CLASSES
SHOW INCREASE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Enrollment in Reserve Officers Training Corps (ROTC) classes at the University of Minnesota has increased this year by 126 students--- from 1,066 to 1,192---or 8.1 per cent, according to Malcolm M. Willey, University academic vice president.

The three branches of the Armed Forces, Army, Navy and Air Force, have units on the University's Minneapolis campus, but only the Air Force has a unit on the Duluth campus. Currently there is no ROTC unit on the St. Paul or Morris campuses although an Army unit will be established on the St. Paul campus this winter quarter, according to Lt. Col. Robert J. Elliott, commanding officer of the University's Army ROTC and professor of military science.

While the overall ROTC enrollment has increased, the Army unit shows five fewer members this fall. The drop, from 360 last year to 355 this year, undoubtedly is accounted for by the stiffening of academic requirements in the Army ROTC program during the last two years, Col. Elliott explained. Army freshman enrollment is up, with the small dropoff showing in the sophomore and senior classes.

New to Army ROTC at the University this year will be the winter quarter introduction of freshman (Military Science I) classes on the St. Paul campus. Also, due to the Army unit's new "free quarter" policy, enabling all classes of Army ROTC students to fulfill their ROTC obligations while eliminating ROTC work for one quarter each school year, freshmen now do not have to begin their Army work in the fall quarter, but may start in the winter quarter.

Naval ROTC enrollment at the University this fall has increased by 27 members, to 247, according to Captain Edward M. Morgan, USN, commanding officer of the University's Naval ROTC unit and professor of naval science. This fall's freshman group in NROTC is down from last year's total, Capt. Morgan said, but he feels that the addition, in June, of another year to the compulsory post-graduation tour of duty (now three year, instead of two) accounts for the enrollment loss in this class. Sophomore, junior and senior NROTC classes are larger than the corresponding classes last year.

The University's two Air Force ROTC units show a total of 114 more cadets--- 590 of which 418 are at Minneapolis and 172 at Duluth---enrolled in AFROTC training this year, according to Major Frederick D. Stockdale, commanding officer of the University's Minneapolis AFROTC unit and professor of air science. The Minneapolis unit increased by 92 students; the Duluth unit, by 12.

OCTOBER 15, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- University of Minnesota alumni and students will join forces to "Chill-Inois" during the 1962 Homecoming Week celebrations starting Wednesday (Oct. 17) and continuing through the Minnesota-Illinois Homecoming football game Saturday (Oct. 20).

Dedicated to last year's Rose Bowl winners, the Golden Gophers, and to the alumni, the 1962 Homecoming festivities will open officially with the Coronation Ball at 9 p. m. Wednesday in Coffman Memorial Union main ballroom. The identity of the 1962 Homecoming Queen will be revealed at the ball when the Alumni King, Louis Gross, escorts her to her throne. She will be accompanied by her attendants, the 14 contestant finalists, and crowned by the 1961 Queen, Kathleen A. Murphy. Ball tickets, at \$1 per person, may be purchased at the door.

The Queen and all of her attendants will appear as models in the Union Board of Governors' sponsored Charm style show and Queen's tea at 2 p.m. Thursday (Oct. 18) in Coffman Union.

New to this year's Homecoming festivities will be the Pep Rally at 11:20 a.m. Friday (Oct. 19) on Northrop Memorial auditorium steps. Coach Murray Warmath, Athletic Director "Ike" Armstrong, members of the team, the University Football Marching Band and the colorful Pom Pon Girls and cheerleaders will lead the crowd in stirring up enthusiasm and spirit for the Homecoming game with Illinois Saturday.

A highlight of every Homecoming---Friday's parade of floats, bands, marching units and fun groups---will accent the 1962 Homecoming victory slogan, "Chill-Inois". This year the parade, starting at 12:20 p.m., will tour the campus, pass along fraternity and sorority row on S. E. Fourth st., then cross the river to the downtown Minneapolis area where it will follow Nicollet avenue to the Minneapolis auditorium. The football marching band will make the downtown tour with the motorized units.

(MORE)

The annual Homecoming street dance, at 7:30 p.m. Friday, on the University parking lot at Fourth st. and 17th ave., S.E. will wind up the pre-game festivities.

Maroon and gold balloons will be released at the 1:30 p.m. kickoff of the Minnesota-Illinois football game Saturday (Oct. 20), in Memorial stadium, and the 1962 Homecoming Queen and Alumni King will preside at the half-time activities. Announced at this time will be the winners of the sorority-fraternity house decoration contest and the All-Participation trophy winners.

Climaxing 1962 Homecoming festivities will be the annual Homecoming dance at 9 p.m. Saturday (Oct. 20) in Coffman Memorial Union main ballroom. This year's dance will feature the folksinging group, "The Journeymen", and the dance music of seven bands. Dick Perry's 14 piece group will play in the main ballroom, and Harry Blons' seven piece band will be in the junior ballroom. Tickets, at \$3 per couple, may be purchased at the Union ticket office, ground floor, Coffman Union.

-UNS-

NOTE TO EDITOR:

Route of Friday (Oct. 19) Homecoming Parade will be:

The parade will form along the River Flats at 11:30
 At 12:20 it will proceed North along River Road
 East on Washington Avenue to Church Street
 North on Church to University, West on University to Tenth Avenue
 ALL FOOT UNITS will drop out at 11th Avenue

North on Tenth Avenue to Fourth Street
 East on Fourth to Fifteenth Avenue
 South on Fifteenth to University
 West on University to Central Avenue
 South on Central across the Third Avenue Bridge
 Third Avenue South to Third Street
 West on Third Street to Nicollet
 South on Nicollet to Grant
 East on Grant to the Minneapolis Auditorium where the parade will disband and each unit will proceed at its own speed back to the University.

FRANS REYNDERS,
PANTOMIMIST,
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Pantomimist Frans Reynders, internationally known interpreter of the ancient art of the mime, will perform at a University of Minnesota convocation Thursday (Oct. 18) at 11:30 a.m.

The performance, in Northrop Memorial auditorium, will be open to the public free.

Dutch-born Reynders was a teen-ager in his country's underground during World War II, and since has been a house painter, art instructor and technician and star in musical comedy in his own country. After the war he studied at the Amsterdam Academy of Art where he became interested in pantomime. He studied in Paris and toured Europe and Great Britain as a performer, director, lighting technician and costume designer.

In addition to his appearances in mime performances, Reynders is a free-lance scenic and costume designer and lighting director for the theater, television and motion pictures.

"Children and deaf people are among my most responsive audiences," Reynders reported recently. He has performed for many elementary school children and for the students of Gallaudet College for the Deaf in Washington, D. C. "Such audiences are highly critical," Reynders said. "They keep a performer alert and at his best."

Scheduled for the pantomime performance at Northrop auditorium are a technique demonstration and individual performances of such international favorites as "Park Bench", "The Bird", "The 'Cello Player", "Sampson and the Lion" and "Game With the Hand".

The convocation will be sponsored by the University's department of concerts and lectures.

(FOR IMMEDIATE RELEASE)

Louis Gross, University of Minnesota law school alumnus, track and football letterman and member of the Minnesota Alumni association board of directors, is the 1962 Homecoming Alumni King.

Gross, 7012 Kerry road, Edina, received the bachelor of laws degree from the University in 1925. A letterman in track and football in 1922, 1923 and 1924, he has been a member of the "M" club since graduation and is a former member of the club's board of directors.

A member of the Minnesota Alumni association athletic committee, 1948-52, Gross was the alumni representative on the University Senate Committee on Intercollegiate Athletics, 1951-54, and an alumni member of the Greater University Fund board of trustees, 1957-60, and chairman of that board from 1957-59.

The 1962 Homecoming Alumni King will make his first appearance this year at the Homecoming Coronation Ball at 9 p.m. Wednesday (Oct. 17) in Coffman Memorial Union main ballroom. He will escort the 1962 Homecoming Queen in the Homecoming parade at 12:30 p.m. Friday (Oct. 19) and will present the winner's trophy for the Delta field touch football tourney at 3:30 p.m. Friday at Delta field.

On Homecoming day Saturday (Oct. 20), the Alumni King will preside at the annual alumni luncheon at 11:15 in the University's Campus club. He also will appear at the Homecoming football game with Illinois at 1:30 p.m. in Memorial stadium where he and the Homecoming Queen will officiate at the half-time ceremonies and will preside at the Alumni coffee hour after the game at the Campus club.

PIANIST MC NAB
GUEST ON 'U'
TV MUSIC SHOW

(FOR MUSIC PAGE OR COLUMN)

Pianist Duncan R. McNab, University of Minnesota music department instructor, will be the guest artist on this week's "At Home With Music" program televised at 9 p. m. Monday (Oct. 22) by KTCA-TV, Channel 2.

The weekly series, featuring University music department faculty, is televised Mondays throughout the school year.

Highlight of this week's program will be McNab's playing of Schubert's Sonata in C minor, posthumous.

Johannes Riedel, professor of musicology, will discuss and illustrate the ballad opera on the Oct. 29 "At Home With Music" program.

(FOR IMMEDIATE RELEASE)

Some 60 home economics professors from land-grant universities around the nation will attend a University of Minnesota conference Thursday, Friday and Saturday (Oct. 18-20) on improving instruction in housing.

The meeting will be the Sixth National Conference for the Improvement of Instruction in Housing for Land-Grant Universities. The relationship of American culture to housing will be the theme of this year's conference, with topics ranging from neighborhood planning to interior design.

New York furniture designer Paul McCobb of Paul McCobb Design Associates will be the featured guest speaker. He will talk on "My Approach to Interior Design" at Thursday evening's 8 p.m. session in Walker Art Center.

The conference will open at 9 a.m. Thursday in the University's Center for Continuation Study. A panel headed by Professor Kate Rogers, head of the interior design department at the University of Missouri school of home economics, will discuss house planning and design, equipment, home management and neighborhood planning and design.

Other guest speakers will include Representative Sally Luther of the Minnesota state House of Representatives. She will discuss "Obstacles to Public Housing" at Thursday afternoon's session in 227 McNeal hall on the St. Paul campus.

Other home economists from out-state universities who will serve on the faculty will include Elizabeth Beveridge, head of the household equipment department at Iowa State university, Ames; Professor James Montgomery, head of family housing and home art at Pennsylvania State university college of home economics, University Park; Professor Maie Nygren, head of housing and interior design at Oklahoma State university school of home economics, Stillwater; Beatrice Pavlucci, home management department head at Michigan State university school of home economics, East Lansing; Ruth Smith, Pennsylvania State university research associate in family housing and home art; and Helen Willmore, assistant professor of housing and home management at the University of Kentucky school of home economics, Lexington.

The conference will be conducted by the University of Minnesota school of home economics and the Center for Continuation Study.

(FOR IMMEDIATE RELEASE)

Minneapolis --- Ten University of Minnesota chemical engineering students have been selected as National Science Foundation undergraduate research participants during their fourth year at the University.

The students, each a recipient of a \$150 National Science Foundation (NSF) grant for the academic year and a \$600 NSF grant for continuing study during the summer, are among the top students in their class of fourth year chemical engineering majors, according to George W. Preckshot, associate professor of chemical engineering, and director of the NSF project at the University.

Promise of success in research was the basis of selection of these students, Professor Preckshot stated. "With all of these students working toward the bachelor of science degree in engineering, the grants not only will provide stimulus for them in their undergraduate work but also will serve as acceleration for their subsequent graduate work."

The recipients and their projects are:

Donald A. Grgurich, 209 First st., S. E., Crosby, "The Behavior of Vortex Rings of Ink Interacting with Liquid Surfaces". He will study under the direction of Assistant Professor L. E. Scriven, II.

Michael R. Halberg, 2208 4th ave., E., Hibbing, "The Behavior of Bubbles on Surfaces During Boiling". He will work under Professor Preckshot's supervision.

George D. Lehmkuhl, 509 W. 2nd st., Waconia, "The Behavior of Cascade Control Systems which Can be Used for Process Control". He will work with Professor N. H. Ceaglske.

(MORE)

Torger Lode, Hinna, Stavanger, Norway, "The Symbiotic Relationship of Algae and Luminescent Bacteria". His work will be under the supervision of Associate Professor H. M. Tsuchiya.

David J. Lorine, Parkers Prairie, "The Entrance Effects of Polymer Melt Flow in Various Dies". His advisor will be Assistant Professor A. G. Fredrickson.

George B. Hubmer, St. Clair, "The Coalescence Frequencies of Drops in Dynamic Liquid-Liquid Systems". He will work with Associate Professor A. J. Madden, Jr.

Rolf K. Mueller, P. O. Box 561, Minot, N. D., "The Effect of Capillary Waves on Heat Transfer Across an Interface". He is studying with Professor L. E. Scriven, II.

Lawrence L. Nolan, 2919 Oliver ave., N., Minneapolis, "The Flow Characteristics of Polymer Melts in Tubes", with Professor A. G. Fredrickson.

Glen L. Sjoblom, Fort Thompson, S. D., "Determine Mass Transfer Coefficients in Agitated Solid-Liquid Systems Using Electrochemical Techniques". He will study with Professor Madden.

Charles H. Swanson, 5632 10th ave., S., Minneapolis, "A Study of the Life Cycle of Slime Molds". His work will be supervised by Professor Tsuchiya.

'U' LAW SCHOOL
TO HOLD OPEN
HOUSE FOR ALUMNI

(FOR IMMEDIATE RELEASE)

Minneapolis --- Approximately 500 of the 3,800 living University of Minnesota law school alumni will attend the school's second annual open house as part of University Homecoming activities Saturday (Oct. 20).

The lawyers' open house in Fraser hall will begin with registration at 10:30 a.m., and will be followed by the annual meeting of the alumni at 10:45 a.m. This will be the first time that the annual meeting has been held in conjunction with the open house, according to William B. Lockhart, law school dean.

A buffet luncheon served in the law library will conclude the open house festivities preceding the Homecoming football game between Minnesota and Illinois. A group of 350 law alumni have reserved a block of stadium seats for the game, according to the open house co-chairman, Richard Fitzgerald, former assistant dean of the school, and Edward Borkon, class of 1958 chairman.

Luncheon reservations may be made through Wednesday (Oct. 17) by calling the law school, 373-2717.

FIRST DIRECTOR OF CEDAR CREEK FOREST AREA
WILL BE HONORED AT PROGRAM SUNDAY AFTERNOON

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 17, 1962

(FOR IMMEDIATE RELEASE)

Professor Arthur N. Wilcox, first director of the University of Minnesota Cedar Creek Forest Natural History Area, will be honored Sunday (Oct. 21) for his 20-year service to the project in a special program at the Cedar Creek preserve, starting at 3 p.m.

Professor Wilcox, on the faculty of the University's horticulture department, resigned last summer as director of the Cedar Creek area after heading the project since its founding in 1942.

Professor Alexander C. Hodson, head of the University's entomology and economic zoology department and chairman of the University's Cedar Creek Advisory committee, will preside over the program, which is an invitational event. Professor Wilcox, the principal speaker, will review the area's development.

The Cedar Creek area, located in Anoka and Isanti counties 30 miles north of the Twin Cities, has been developed largely by donations of money and land by individuals and groups. Founded as a joint undertaking of the Minnesota Academy of Science and the University, the Cedar Creek area now encompasses 4,300 acres. Administered by the University's graduate school, with the help of an advisory committee of University faculty members and Academy representatives, the area is dedicated to scientific study of plant and animal life and to the education of scientists in the field of natural history.

It is an individual research center for University graduate students and faculty and an outdoor laboratory for small groups from colleges and high schools engaged in group research or field demonstrations.

Within the preserve, which is inhabited by many varieties of mammals and birds, the hardwood forest belt of southern Minnesota meets the surviving southernmost outpost of the Canadian type of pine forest. Swamps, lakes, open meadows and clearings of prairie growth abound in the area.

Present director of the preserve is William H. Marshall, professor of entomology and economic zoology.

MATERNAL, CHILD
HEALTH NURSES
TO CONFER AT 'U'

(FOR IMMEDIATE RELEASE)

An institute for maternal and child health nurses will be held Monday, Tuesday and Wednesday (Oct. 22, 23 and 24) at the University of Minnesota Center for Continuation Study.

Latest concepts in family-centered maternity nursing will be studied at the three-day training session, presented jointly by the University and the section of maternal and child health of the Minnesota state health department.

Guest speakers will include Dr. Nicholas J. Eastman, professor emeritus of obstetrics and gynecology at Johns Hopkins university, Baltimore, Md., and Ernestine Wiedenbach, associate professor of obstetric nursing, Yale School of Nursing, New Haven, Conn.

Miss Wiedenbach has had a varied career as staff nurse, supervisor, instructor, educational director and administrative assistant. A graduate of Wellesley college, she received her nursing degree from Johns Hopkins Hospital School of Nursing and a master of science degree from Columbia university teachers college. She also received a certificate in nurse midwifery from Maternity Center association.

Minneapolis --- A new group life insurance program, open only to members of the Minnesota Alumni association, has been announced by Edwin L. Haislet, the association's executive director.

The plan, which has been offered to more than 20,000 association members all over the world, is underwritten by the Union Central Life Insurance company, Cincinnati-based insurance firm.

Offering group life insurance in the amount of \$10,000 with underwriting subject only to a brief medical questionnaire, enrollments have been received from University alumni residing throughout the Americas, Europe, Africa and Asia, even including one application from remote Sarawak.

The plan became effective October 1, but in order to give all members a chance to participate, the association's insurance committee has extended the initial enrollment period an additional 60 days, according to Haislet.

Members of the committee, all of the Minneapolis area, are Dr. Virgil J. P. Lundquist, 4805 Sunnyside road, chairman; Judge Rolf Fosseen, 2301 Penn ave., S.; Russell Backstrom, 4247 Linden Hills boulevard, and Haislet.

Robert S. Dietz, international expert in marine geology and Distinguished Lecturer sponsored by the American Association of Petroleum Geologists, will address a joint meeting of the Twin City Geology club and the University of Minnesota department of geology Tuesday (Oct. 23).

The 8 p.m. meeting, open free to the public, will be held in the Minnesota Museum of Natural History auditorium at the University.

"Continent and Ocean Basin Evolution by Sea Floor Spreading" will be the topic of Dietz' talk to the geologists.

Senior scientist and oceanographer for the U. S. Navy Electronics laboratory at San Diego, Calif., Dietz was instrumental in the Navy's purchase of the deep sea exploring vessel, the bathyscaph Trieste, developed by Jacques Piccard. He recently co-authored, with Piccard, the book "Seven Miles Down" which relates the history of the Trieste, including its descent on Jan. 23, 1960, into the deepest pit of the deepest ocean. This pit is in a trough in the Pacific Ocean, called the Mariana Trench, 200 miles from the island of Guam.

Another recent research interest of Dietz' is in "astroblemes", ancient meteorite impact scars on the earth. He has identified several of these on the basis of shock criteria.

Author of numerous articles on marine geologic problems, Dietz recently published seven papers concerning aspects of sea floor spreading---one of which was featured in the Saturday Evening Post's "Adventures of the Mind" series.

Frank P. Graham, United Nations mediator for India and Pakistan, will address the University of Minnesota's annual United Nations Day convocation Wednesday (Oct. 24) evening.

He will speak on "The United Nations in the Atomic Age" at the free, public convocation at 8 p.m. in Northrop Memorial auditorium.

The former president of the University of North Carolina, Chapel Hill, where he still makes his home, has served as U.N. representative for India and Pakistan since he was appointed by the U. N. Security Council in 1951 to act as mediator in the Kashmir border dispute between those two nations.

A graduate of the University of North Carolina, he served his alma mater as professor and president for 33 years before entering public office in 1949 on an interim appointment as a United States Senator. After a brief period in Congress, he was named defense manpower administrator in the United States Department of Labor early in 1951.

While still president of the University of North Carolina, a post which he held from 1930 to 1949, Graham served three years during World War II as a public member of the National War Labor board and in 1947-48 as United States representative on the U. N. Committee of Good Offices in the Dutch-Indonesian dispute.

Graham's talk will be sponsored by the Minnesota branch of the United World Federalists, the Minnesota division of the American Association of United Nations and the University's department of concerts and lectures.

'U' DENTAL STUDIES
SEEK BONE REGROWTH
TO STOP TOOTH LOSS

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 18, 1962

(FOR IMMEDIATE RELEASE)

A surgical method to stimulate bone regrowth and arrest loss of teeth from periodontal disease---or pyorrhea---is the subject of research by University of Minnesota periodontists.

The technique, which involves grafting cartilage to the supporting structure of a tooth, is aimed at restoring bone destroyed by the disease---or, in other words, regenerating support of the tooth.

These regrowth-grafting studies have been carried on over the last several years under the direction of Dr. Erwin M. Schaffer, clinical professor and chairman of the division of periodontics in the school of dentistry, assisted by Dr. Merrill W. Packer, formerly a University research fellow. The research has been supported in part by the United States Public Health service and the Minnesota Dental Foundation.

Recently Dr. Schaffer and Dr. Norman A. Korn, research associate, received a new two-year grant of \$34,596 from the Public Health service for continued studies on the project.

Periodontitis is a disease characterized by swollen or receding and bleeding gums and loosening of the teeth. If it is not treated, the bone under the gums recedes, forming a pocket around the tooth, and the tooth is shed or extracted.

Incidence of the disease is especially high in persons in the 40 to 60 age group, according to Dr. Schaffer. Statistical studies have found that 65 per cent of persons in this age category suffer bone recession due to periodontitis.

Up until recently, Dr. Schaffer said, treatment for periodontal disease has been confined to preserving the bone and not to regenerating it. This has been done by removing the diseased gum tissue. In some cases, the bone regenerates itself naturally following treatment. However, this occurs only in a small percentage of cases, according to Dr. Schaffer.

(MORE)

The University studies are aimed at developing a predictable method of producing new supporting bone for the tooth by means of grafting techniques.

To date, periodontal grafting operations by Dr. Schaffer's team have been carried out chiefly on animals. A limited number of grafts, however, has been done on human patients with "encouraging" results, Dr. Schaffer reports.

In one two-year study, cartilage grafts were performed on 70 persons. In 28 of the 70 cases, new bone was formed as a result of surgery. Why new bone was not formed in the other 42 cases is the subject of continued research by University periodontists.

They have been experimenting with various kinds of grafts in animals to determine the material which will most effectively and with "scientific" predictability regenerate periodontal bone.

Cartilage, tissue which for the most part is replaced by bone in normal body growth, has been used for most of the grafting studies. Because cartilage does not have a blood supply, it can be transplanted from one individual in a species to another individual in the same species. The grafted cartilage itself does not produce bone but stimulates the host tissues---in this case, the periodontal ligament which unites the tooth to the bone---to form new bone.

Drs. Schaffer, Korn and Packer are studying the various components of the grafts to determine which are capable of producing bone. The purpose is to arrive at an understanding of the cellular process by which bone is produced.

Three different types of cartilage have been tried in the experiments---ear, nose and rib. All produced bone regrowth in unpredictable ratios. Currently, the University team is experimenting with a fourth type of cartilage---epiphyseal, which is located at the end of the long bones, such as the leg.

Other materials being tested for grafting are plaster of Paris, tooth chips and anorganic bone, bone which has been treated to remove all the organic material, leaving only minerals.

While other types of surgery to treat periodontitis are being studied by dental researchers, the University of Minnesota has been most prominent in grafting to rebuild the bone around the tooth, according to Dr. Schaffer.

FRIENDS TO HONOR
'U' DEAN BUCHTA
AT DINNER TUESDAY

(FOR IMMEDIATE RELEASE)

J. William Buchta, who retired in September as associate dean of the University of Minnesota college of science, literature and the arts, will be recognized for his 40 years' service to the University at a dinner Tuesday (Oct. 23) evening.

The dinner, which is open to friends, associates and students, will be at 6:30 p.m. in the Campus Club in Coffman Memorial Union on the Minneapolis campus. A reception for Dean Buchta will be held at 8:30 p.m. in the Campus Club lounge.

Dean Buchta retired from the University Sept. 15 to accept a full-time position as executive secretary of the American Association of Physics Teachers. In this position he also will edit a new journal of the association "The American Physics Teacher". His office will be in Washington, D. C.

Dean Buchta joined the University faculty in 1922 as an instructor in physics, advancing to the rank of professor. He was chairman of the physics department from 1938 to 1953, when he was appointed associate dean of the college of science, literature and the arts.

Tickets for the dinner, at \$3.50 each, may be obtained from Dean E. W. McDiamid, 215 Johnston hall, University of Minnesota, Minneapolis 14, (telephone 373-2841). Tickets for the reception only are 50 cents.

SIDNEY J. KAPLAN
LAW SCHOLARSHIP
ESTABLISHED AT 'U'

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 19, 1962

(FOR IMMEDIATE RELEASE)

Establishment of the Sidney J. Kaplan Legal Scholarship Endowment fund at the University of Minnesota law school was announced Friday (Oct. 19) by William B. Lockhart, dean of the University law school.

Kaplan, visiting professor of the course in jurisprudence at the University law school since 1960 and an alumnus of the class of 1928, died unexpectedly June 19. He was a member of the Minneapolis firm of Maslon, Kaplan, Edelman, Joseph and Borman.

The scholarship endowment fund, now totalling \$7,500, has been created through a series of gifts from friends and associates of Professor Kaplan, Dean Lockhart reported. It will be used for scholarships for law students at the University which will be awarded on the basis of aptitude for outstanding performance in legal studies without regard to financial need. The fund is "open ended", Dean Lockhart said, and additional gifts are welcome.

Kaplan received the bachelor of laws degree from Harvard law school, magna cum laude, in 1931, and was a member of the editorial board of the Harvard Law Review. After being admitted to practice in the State of New York, he served in governmental agencies and was special assistant to the United States Attorney General, 1939-1946. He was trial council and chief of the section on treaty violations and crimes of aggressive warfare and chief of counsel for prosecution of Axis criminals in 1954.

Of Professor Kaplan, Dean Lockhart said, "He taught an excellent, imaginative and stimulating course that drew upon his practical experience as well as his scholarship background and interests. His early death is a great loss to the legal profession, but through this scholarship he will continue to be remembered as an outstanding lawyer with a vital interest in scholarship and legal education".

(FOR IMMEDIATE RELEASE)

Dr. N. L. Gault, Jr., associate professor of internal medicine and Dr. Homer Venters, assistant professor of pediatrics at the University of Minnesota medical school, will participate in a special conference on arthritis Wednesday through Friday (Oct. 24-26) at the Georgia Warm Springs Foundation.

The meeting will feature reports on the latest surgical and rehabilitation techniques that are now making it possible for many arthritis-crippled children and adults to use their limbs again.

Sponsored by The National Foundation-March of Dimes, the conference will bring together 75 of the nation's leading experts on arthritis, including directors of 16 March of Dimes-financed arthritis study and treatment centers from many parts of the country. Also attending will be nurses, physical therapists and medical social workers.

Dr. Gault is director of the Arthritis Special Treatment Center supported by the March of Dimes at the University of Minnesota Hospitals, and Dr. Venters is assistant director of the center.

The meeting will give directors and staff members an opportunity to pool information about the latest advances in the treatment of arthritis and lay down guide lines for the future programs of the centers in the nationwide network, according to Basil O'Connor, president of The National Foundation.

Georgia Warm Springs Foundation, which pioneered in the rehabilitation of polio victims, has now expanded its facilities for the treatment and rehabilitation of patients with other crippling diseases, such as arthritis. During the past year, this institution has extended its services to patients from 33 states, the District of Columbia and nine foreign countries, O'Connor said.

Wed to Mexican---
WRITER TO SPEAK
AT 'U' THURSDAY
EVENING AT 8

(FOR RELEASE MONDAY, OCT. 22, 1962)

Author Elizabeth de Trevino, a former American newspaperwoman who now lives in Mexico, will give a Theta Sigma Phi free public lecture Thursday (Oct. 25) at the University of Minnesota. She will speak at 8 p.m. in the Minnesota Museum of Natural History auditorium.

Her topic will be "My Heart Lies South", an account of her adjustment to Mexican life since her marriage to a Mexican. A former reviewer of the lively arts for the Boxtton (Mass.) Herald, Mrs. de Trevino met her husband while visiting Mexico on a newspaper assignment.

She has written about her marriage to a Mexican and the raising of her two sons in two books entitled "My Heart Lies South" and "Where the Heart Is". The second volume was published this fall. She is also the author of several children's books and two novels, a violinist in Mexico City's Vivaldi orchestra and a lecturer in the United States.

The lecture will be sponsored by the Twin Cities chapter of Theta Sigma Phi, national fraternity for women in journalism, and the University's school of journalism and department of concerts and lectures.

(FOR IMMEDIATE RELEASE)

Minneapolis --- "Unity in the Engineering Profession" will be discussed by a panel of national leaders in the field at a joint program of Minnesota engineering societies Saturday (Oct. 27) at the University of Minnesota.

A reception in the University's Campus Club at 4:30 p.m. will be followed at 6:30 p.m. by a dinner and the panel program in the main ballroom of Coffman Memorial Union.

Panel members will be: Harvey F. Pierce of Miami, Fla., consulting engineer and president of the National Society of Professional Engineers; Professor Clifford H. Shumaker of Dallas, head of the industrial engineering department at Southern Methodist university and president of the American Society of Mechanical Engineers; and Dean B. R. Teare of Carnegie Institute of Technology, Pittsburgh, Pa., president of the American Institute of Electrical Engineers.

Sidney L. Stolte, St. Paul architect and engineer who is a past president of the National Society of Professional Engineers, will serve as moderator of the panel.

"The meeting Saturday," commented Professor J. J. Ryan of the University of Minnesota's mechanical engineering department, "is the first of its kind in this area and could result in a movement toward increased coordination of all professional engineering activities and unity of purpose."

The Minnesota Federation of Engineering Societies is assisting in coordinating the program, and reservations may be telephoned to the federation's St. Paul office by dialing 645-0269.

COUNTY WELFARE
BOARD DIRECTORS
TO MEET AT 'U'

UNIVERSITY OF MINNESOTA
NEWS SERVICE

(FOR IMMEDIATE RELEASE)

Welfare board directors from all of Minnesota's 87 counties are expected to attend a two-day continuation study course Thursday and Friday (Oct. 25-26) at the University of Minnesota Center for Continuation Study.

The course is an annual event of the In-Service Training Program for Directors of County Welfare Boards conducted by the Minnesota Association of Directors of County Welfare Boards and the Minnesota Department of Public Welfare. Those two agencies are cooperating with the University in presenting the institute.

Thursday's program will be devoted to various aspects of the county's responsibility for rehabilitative mental care of non-hospitalized persons. Howard Davis, chief of psychological services and research coordinator of the state public welfare department, will give the keynote address on this topic.

A film, entitled "After-Care", will be shown by Arthur B. McBride, hospital services representative for Smith, Kline and French Laboratories, Rochester, Minn.

Pastor John B. Oman of Wesley Methodist Church, Minneapolis, will discuss group therapy for mental patients. Lester Stiles, Olmsted county welfare board director, will discuss the county's role in caring for this type of patient. Judge Charles E. Cashman, Owatonna, Steele county judge of juvenile and probate courts, and president of the Juvenile Judges Association of Minnesota, will discuss "The Role of the Court".

Donald F. Fisher, Waseca, director of the Waseca county welfare department, will moderate a panel discussion concluding the first day's discussions.

Second day of the course will be devoted to administrative topics. Ove M. Wangenstein, deputy state welfare commissioner; Glenn W. Thomas, public relations director of Midland Cooperatives, Inc., Minneapolis; and Paul H. Cashman, University associate professor of rhetoric, will be the speakers.

GERMAN THEATER
GROUP TO STAGE
GOETHE PLAY AT 'U'

(FOR IMMEDIATE RELEASE)

A West German theatrical group, the Westdeutsches Tourneetheater "Das Schauspiel", of Remscheid, Germany, will present Johann Wolfgang Goethe's "Hermann and Dorothea" at 8 p.m. Monday (Oct. 29) at the Newman club theater, 1701 University ave., S. E.

This will be the only Twin Cities appearance of the German group which is visiting the United States on a U. S. State Department cultural exchange grant, according to Frank D. Hirschbach, associate professor of German at the University of Minnesota. The University's German department will sponsor the Monday performance.

There will be no tickets for the Goethe play, Professor Hirschbach said, and no admission charge, but contributions to defray the Newman club's expenses will be accepted. Contributions also will be welcomed for the German department's scholarship fund, he added.

STUDENT FINANCIAL
AID ADMINISTRATORS
ELECT G. B. RISTY

(FOR IMMEDIATE RELEASE)

George B. Risty, director of student loans at the University of Minnesota, was elected president of the newly organized Midwest Association of Student Financial Aid Administrators at a meeting of financial aid advisors from the Big Ten, the Big Eight and other colleges and universities throughout the country. The meeting was held last week (Oct. 15-16) at Purdue university, Lafayette, Ind.

Started informally in 1952 with financial aid officers from Big Ten schools meeting at Purdue university, the group has met each year at a Big Ten or Big Eight school, according to Risty. With the gradual growth of the meetings and with interest shown by institutions from the East and West Coasts as well as from the many schools and colleges in the Midwest, he explained, the need for a formal organization was recognized, and the group was formally established at the Purdue conference.

As the organization is looking toward national status, all financial aid officers in colleges and universities throughout the country are welcome to participate in the new organizations programs and activities.

"We want financial aid officers from all the colleges and universities in both the Midwest and throughout the country to correspond with us so that we may become acquainted with them and their problems," Risty said. "The association is organized to serve effectively the interests and needs of students, faculties, government agencies and sponsors through coordination of plans and programs pertinent to financial aids".

Officers of the new group in addition to Risty are: first vice president, Allan W. Purdy, University of Missouri; second vice president, Rodney J. Harrison, Ohio State university; secretary, James J. Dwyer, Marquette university; and treasurer, Edger P. Swanson, Iowa State university.

The 1963 meeting of the group will be held at the University of Missouri in October.

(FOR IMMEDIATE RELEASE)

"Man's Image of Man Through the Ages" will be the topic of a free public lecture by Ralph G. Ross, University of Minnesota humanities professor, at 8 p.m. Thursday (Oct. 25) in Murphy Hall auditorium at the University.

The lecture will be the keynote address for a University school of social work faculty institute to be held Thursday and on Nov. 2 to consider some current views of man.

Professor Ross' public lecture and the faculty institute will be sponsored by the school of social work staff education committee in cooperation with the University's Hodson Memorial Fund and the University's general extension division liberal arts program. The Hodson fund is a memorial to William Hodson, one-time executive secretary of the Minnesota state child welfare division and director of the Children's Bureau of Minnesota.

Professor John C. Kidneigh, director of the school of social work, will preside over the lecture and the institute.

Five University faculty members representing as many different academic disciplines will speak at the school of social work institute, which is open to social work faculty members and their guests.

Cyrus P. Barnum, professor of physiological chemistry, will present the past, present and future biological view of man. Lorenz Eitner, art professor, will consider man as a creative and aesthetic being.

Professor William G. Shepherd, head of electrical engineering, will view man from the standpoint of the physical sciences. Clarke A. Chambers, associate professor of history, will speak on a historian's view of man.

John A. Crane, assistant professor of social work, will conclude with the social worker's view of man within the context of the foregoing presentations and based upon the experience of the social work profession.

AUSTIN-ALBERT LEA AREA PARENTS OF 'U'
STUDENTS TO ATTEND AUSTIN MEETING MONDAY

(FOR IMMEDIATE RELEASE)

Parents of University of Minnesota students from Austin, Albert Lea and vicinity and all other residents of the area who are interested in the University are invited to attend a University Dads' association meeting at the Red Cedar Inn in Austin at 8 p.m. Monday (Oct. 29).

"Personal Attention for University Students" will be the discussion theme of the meeting. Speakers will include: Stanley J. Wenberg, University vice president for educational relationships and development; Edmund G. Williamson, dean of students; Forrest Vance, counselor in the student counseling bureau; and Leonard F. Ramberg of Minneapolis, president of the Dads' association. Raymond Wescott, Austin high school principal, is directing arrangements for the meeting.

Following the brief speaking program, the visiting University officials will be available to discuss with parents topics relating to the University and students. A coffee hour will close the meeting.

NEW MATH HOME
STUDY COURSES
OFFERED BY 'U'

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 23, 1962

(FOR IMMEDIATE RELEASE)

New home study courses in mathematics for high school freshmen and sophomores are now being offered by the correspondence study departments of the Universities of Minnesota and Wisconsin.

Enrollment in the course in geometry are now being accepted by both universities. The first course in algebra is now available from the University of Minnesota and will be offered by the Wisconsin school in the spring of 1963.

The courses, using textual material prepared by the School Mathematics Study Group (SMSG) incorporate many of the newer concepts of algebra and geometry and should be of particular interest to superior students, according to Professor F. Lloyd Hansen, University correspondence study department director. Credit toward graduation may be given by high schools with students doing this work under proper supervision.

"First Course in Algebra" and "Geometry", designed for the ninth and tenth grade student, respectively, each comprise more than 30 assignments and is equivalent to one year's work. Correspondence registrations are accepted throughout the year, with qualified students allowed to enroll at any time, Professor Hansen said. However, it may be in the best interest of the student to do the work during the school year.

The School Mathematics Study Group is made up of university and college mathematicians, mathematics teachers at all levels of instruction, specialists in educational methods and representatives of science and industry. In order to reflect the increased use of mathematics in modern society and to incorporate some of the recent advances in the field of mathematics, SMSG has revised the content of the mathematics curriculum in American schools, according to Professor Hansen.

(MORE)

NEW MATH COURSES

- 2 -

The textbooks used in the new Minnesota-Wisconsin mathematics courses are the latest revised editions of the SMSG texts, and reflect the experiences gained from their prior use in many high schools throughout the country.

Similarly, the new correspondence study guides, used in these courses, have been developed from previous courses offered in cooperation with the mathematics section of the Minnesota State Department of Education and by the mathematics department of the University of Wisconsin extension division.

Interested students may obtain information regarding this work from either the Correspondence Study Department of the University of Minnesota or from the University of Wisconsin Extension Division, Madison, Wis.

(FOR MUSIC PAGE OR COLUMN)

A pre-Revolutionary War ballad opera, "The Fool's Opera" or "The Taste of the Age", will be presented on the next "At Home With Music" program at 9 p. m. Monday (Oct. 29). The program, televised by KTCA-TV, Channel 2, is a weekly presentation of the University of Minnesota music department.

Johannes Riedel, University professor of musicology, will direct the singer-actors and the instrumentalists---all University music students.

Originating in England in the 18th century, the ballad opera was one of the early forms of the English comic opera. W. J. Lawrence, music critic, has defined it as: "Broadly speaking, ballad opera signified a play of humorous, satirical or pastoral order intermixed with simple song, the music for which was for the most part derived from popular ditties of the street ballad type. But, as no rigid formula had sway, both original music of light order and pre-existent music of more scientific quality were occasionally pressed into service."

The ballad opera was introduced into the American Colonies shortly after the introduction in England of "The Beggar's Opera" in 1728. Anthony Aston's "The Fool's Opera", one of the descendents of "The Beggar's Opera", was published in Philadelphia in 1731.

"The Fool's Opera" is a one-act, one-scene work with four characters---the fool, the poet, the lady and the maid. It includes 17 songs and many burlesques on "The Beggar's Opera". The author, Aston, published it under the pseudonym of "Mat Medley".

Tenor Paul R. Knowles, assistant professor of music at the University, will present the "At Home With Music" program Monday, Nov. 5.

LOMBARD GIVEN
NORWAY'S ORDER
OF ST. OLAV

UNIVERSITY OF MINNESOTA

(FOR RELEASE 8 P.M. WEDNESDAY, OCT. 24, 1962)

James S. Lombard, University of Minnesota professor and director of the department of concerts and lectures, was awarded the Knight's Cross of the Royal Norwegian Order of St. Olav Wednesday evening (Oct. 24) at the University's United Nations Day convocation.

The award, consisting of a medal and a scroll, was given to Lombard for his work in bringing examples of Norway's art and culture to area audiences over the last 20 years.

Bernt Stangholm, acting consul general in Minneapolis for Norway, presented the award to Lombard in ceremonies in Northrop Memorial auditorium. Stangholm represented King Olav V of Norway in presenting the award.

The ceremonies followed an address by Frank P. Graham, U. N. mediator for India and Pakistan in their dispute over Kashmir.

The Knight's Cross is awarded to those, who, in the opinion of King Olav V and a special Norwegian committee, have contributed greatly to the benefit of the people of Norway or to humanity and is an appreciation for that work.

Through Lombard's efforts as chairman of the Committee of the Arts for the Minnesota Statehood Centennial, the Norwegian composer Harold Saeverud was commissioned to write "The Minnesota Symphony", a work dedicated to the Centennial observance.

Many Norwegian artists and lecturers have appeared in the Twin Cities and throughout the region under the direction of Lombard. He visited Norway in 1954 and 1957 as a guest of the Norwegian government to work with Norwegian artists.

Lombard was born in Minneapolis in 1901. He has been director of concerts and lectures at the University since 1944. He and Mrs. Lombard live in Arden Hills, Minn.

POLISH ARCHITECT
TO SPEAK AT 'U'
FRIDAY AT 1:30

(FOR IMMEDIATE RELEASE)

Jerzy Glowczewski, a Polish architect and visiting critic at North Carolina State university, will give a free public lecture at 1:30 p.m. Friday (Oct. 26) in Murphy Hall auditorium at the University of Minnesota.

His topic will be "Polish Architecture".

The lecture, sponsored by the University's school of architecture, will be one of a series of events in the Polish Festival of Art and Film sponsored by the University of Minnesota Film society and film societies of Minneapolis and St. Paul. The festival continues through Nov. 2.

Glowczewski has been involved in the post-war reconstruction of Warsaw for the last 10 years and has designed factories, stadiums and other large structures outside of Warsaw. A 1951 graduate of the Warsaw School of Architecture, he is on his third trip to the United States. Previously, he toured the country to study outstanding architecture under auspices of a Ford Foundation Fellowship.

SIGN-UP TO END
FRIDAY FOR MEN'S
SEMINARS AT 'U'

(FOR IMMEDIATE RELEASE)

Registration for a series of men's Saturday seminars in the liberal arts to be offered by the University of Minnesota will close Friday (Oct. 26).

The seminars, to be conducted on seven Saturdays beginning Dec. 15, will be entitled "New Worlds of Knowledge". They will cover topics ranging from physics and biology to music and art.

Regular faculty of the University will lecture and conduct the seminars, which will be presented by the general extension division.

Day-long meetings will be conducted at the Center for Continuation Study on the Minneapolis campus on Dec. 15, Jan. 12, Feb. 9, March 9, April 13, May 11 and 25.

Primary emphasis will be on new developments in the last 15 to 20 years and the differing methods of critical thinking appropriate to each field, according to Mrs. Elizabeth Cless, assistant to the dean of the general extension division.

Fee for the course will be \$75. Registration may be made at the general extension division office in 153 Nicholson hall, Minneapolis campus.

HODGSON ELECTED
STATE MEDICAL
FOUNDATION HEAD

(FOR IMMEDIATE RELEASE)

Minneapolis --- Dr. Corrin H. Hodgson, specialist in internal medicine at the Mayo Clinic, Rochester, was elected president for two years of the Minnesota Medical Foundation at its fall board of trustees meeting in Minneapolis Wednesday (Oct. 24).

Dr. Hodgson, a 1931 graduate of the University of Minnesota Medical School, and a native of Fergus Falls, succeeds Dr. Arnold Lazarow, professor and head of the University's department of anatomy, who was elected in 1960.

Also elected to two-year terms of office were Dr. Vernon D. E. Smith, 716 Lincoln ave., St. Paul surgeon, vice president; and Dr. N. L. Gault, Jr., 1595 Vincent ave., St. Paul, associate professor of medicine at the medical school, secretary-treasurer.

Five new trustees of the Foundation also were elected. They are: Grady Clark, Louis Cohen, York Langton, all of Minneapolis; Dr. Richard L. Varco, 420 N. Mississippi Blvd., St. Paul; and Ted Rowell, Sr., Baudette.

The Minnesota Medical Foundation is a non-profit organization which provides scholarship funds and other private support for the Medical School. The Foundation has awarded 322 scholarships worth a total of \$166,500 to medical students during the last 14 years.

Levi Writes---
MOSCOW STRIVING
WITH PEKING FOR
S.E. ASIA CONTROL

(FOR IMMEDIATE RELEASE)

Minneapolis --- Moscow is working hard to capture the initiative from Peking for control of Southeast Asia, a University of Minnesota professor of political science, writes in the October issue of "worldview", a monthly journal published by the Council on Religion and International Affairs.

"Moscow does not seem willing to let China continue the initial monopoly of Communist success," Professor Werner Levi asserts in his article.

"Visits by high Chinese dignitaries are balanced by visits from Moscow," he observes, "and Asian solidarity under Chinese leadership is expanded into Afro-Asian solidarity with greater emphasis on Moscow's leadership."

At the same time, he notes, the Soviet Union is enlarging its trade and aid program in Southeast Asia, while remaining "quite determined to maintain Laos as a buffer state rather than letting it become a Chinese satellite".

Professor Levi declares that Red China's expansionist policies are the same as those of Nationalist China when that government occupied the mainland. In contrast to Nationalist China, he asserts, Communist China has "the ability to do something about it".

The last efforts of the Nationalist government toward expanding into Southeast Asia were made after World War II, he claims. These efforts were in Burma, Vietnam and Tibet.

The efforts were given up in some northern parts of Burma, Professor Levi states, "only after British threats of bombardment". In northern Vietnam--- the area known as Tonkin---fighting with returning French resulted. In Tibet, the Lhasa government ousted all Nationalist officials in 1949, he points out.

(MORE)

Maps published by the Nationalist government showed many areas not then under Chinese jurisdiction as Chinese and the Communists continue to use them without any alteration, the article states.

"There are in this respect few basic differences between the Nationalists and the Communists in the goals and, to some extent, the motivations," Professor Levi says. "The Nationalists on Formosa therefore do not object to Communist expansion as much as to the methods used. Above all, they are envious of Communist success."

In dealing with Red China's expansionism, Professor Levi concludes the United States must accept the fact that it will have to "carry the main burden of containing Communist expansion in the area". Military support by the South East Asia Treaty Organization (SEATO) will come only in case of major conflict, he believes, because Britain and France are unwilling to engage themselves in situations such as those in Vietnam and Laos.

Professor Levi's article is based on statements he made at a recent seminar on international affairs conducted by the Council on Religion and International Affairs at Aspen, Colo. CRIA is an interfaith organization dedicated to raising the level of discussion on U.S. foreign policy by American opinion leaders, and of considering U.S. policy from the perspective of traditional American values. It was formerly the Church Peace Union.

NOTED GREEK ARCHITECT TO SPEAK
AT 'U', MEET WITH LOCAL PLANNERS

(FOR IMMEDIATE RELEASE)

Constantine Doxiadis, internationally known Greek architect and planner and former deputy administrator of reconstruction and coordination for Greece, will visit the Twin Cities Nov. 27 and 28 to give a public lecture at the University of Minnesota and to meet with local city planners, University students and faculty.

He will give an illustrated lecture, open free to the public, on the topic "A New Outlook for Our Cities" at 8:15 p.m. Wednesday, Nov. 28, in Northrop Memorial auditorium.

The lecture will be sponsored by the University school of architecture and department of concerts and lectures through a grant from the Minneapolis Star and Tribune as a public service.

Doxiadis, called "one of the most imaginative city planners in the world today" by University school of architecture head Ralph E. Rapson, is scheduled to meet with the Twin Cities Metropolitan Planning commission Tuesday, Nov. 27. He will meet with community planners from Minneapolis and St. Paul Wednesday morning, Nov. 28, and visit several areas where new developments are underway in the two cities.

He will meet with students and faculty of the school of architecture both afternoons during his two-day visit. The Minneapolis Star and Tribune will be host at a staff luncheon for Doxiadis on the second day of his stay here.

Doxiadis is president of Doxiadis Associates, Inc., a firm of architects and planners in Athens, Greece. His firm recently founded the independent Athens Technological institute. Doxiadis himself is a professor of ekistics in the institute. Doxiadis coined the word "ekistics" from an old Greek word to refer to all aspects of the life and growth of human settlements.

(MORE)

Doxiadis Associates maintains offices in Washington, D. C., and Philadelphia, Pa. Doxiadis was selected in worldwide competition as the designer and planner of a 10-year urban redevelopment program for Philadelphia.

University President O. Meredith Wilson, who invited Professor Doxiadis to speak at the University, said his visit will bring to the Twin Cities one of the world's great minds in the field of planning at a time when there is impressive activity in the general area of planning both on the University campus and in the Minneapolis-St. Paul metropolitan area.

"The University is involved in the development of an entirely new area of campus on the west bank of the Mississippi river which has required extensive thinking with respect to the future growth of the University and very specific planning in the development of the new campus area," President Wilson pointed out.

He also noted that extensive new highway construction and redevelopment of sub-standard properties in Minneapolis and St. Paul have made long-range planning of vital concern in the local area.

An exhibit of Professor Doxiadis' work on the Philadelphia urban renewal project, Eastwick, will be on display at the University during his visit.

POLISH FESTIVAL
TO PRESENT 6
FILMS AT 'U'

(FOR IMMEDIATE RELEASE)

Six new Polish feature films will be shown at the University of Minnesota next week as part of a Polish Festival of Art and Film sponsored by the University of Minnesota Film society and film societies of Minneapolis and St. Paul.

First of the films to be shown will be "King Macius I" by Alexander Ford at 3 p.m. Sunday (Oct. 28) in Coffman Memorial Union main ballroom. A coffee hour and reception will follow.

A program of films made by students of the Polish Film Academy at Lodz, including "The Bridge", directed by Janusz Majewski, will be shown at 8 p.m. Sunday in the Minnesota Museum of Natural History auditorium.

Schedule of other films to be shown during the week, all in the museum auditorium, is as follows:

"See You Tomorrow", directed by Janusz Morgenstern, 8 p.m. Monday (Oct. 29);
"The Last Day of Summer", directed by Tadeusz Konwicki, 8 p.m. Tuesday (Oct. 30);
"The Past", directed by Leonard Buczkowski, 8 p.m. Wednesday (Oct. 31); and
"Panic on the Train" by Kazimierz Kutz, 8 p.m. Friday (Nov. 2).

A program of Polish film shorts, including Venice and Cannes medal winners will be shown at 8 p.m. Thursday (Nov. 1) in the museum auditorium.

United States Senator Hubert H. Humphrey of Minnesota will speak on the Cracow Children's hospital at 3:30 p.m. Friday in Coffman Memorial Union main ballroom. The talk will be followed by a coffee hour and a reception.

Proceeds of the film showings will be donated to the hospital, an American-financed research center to be built under the Zablocki-Humphrey Amendment to the U. S. Mutual Security Law. Senator Humphrey is chairman of the U. S. Senate subcommittee studying international health.

AMBERG STRESSES NEED
FOR LESS COSTLY CARE
FOR CHRONICALLY ILL

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM. BIDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
OCTOBER 26, 1962

(FOR RELEASE 11 A.M. SATURDAY, OCT. 27, 1962)

Minneapolis --- Need for increased hospital facilities to provide sub-acute, lower-cost care for chronic disease patients was emphasized Saturday (Oct. 27) by Ray M. Amberg, director of University of Minnesota Hospitals, at a national meeting in Los Angeles, Calif.

Amberg spoke at a sectional meeting of the 73rd annual meeting of the Association of American Medical Colleges in the Biltmore hotel.

"With the advent of antibiotics and improved sanitation methods, people are living longer, and terminal illness frequently is accompanied by prolonged and expensive hospitalization," Amberg told meeting participants.

"Instead of a brief bout with pneumonia, influenza or typhoid and subsequent death, the patient at an advanced age is beset with chronic problems of heart disease, cancer, rheumatoid arthritis and allied diseases."

This development, Amberg said, means a need for a different type of facility from the acute hospital, emphasizing a shift from physician care to nursing care.

"Typically, general hospitals care for a patient in an acute illness, but as the length of the hospital stay increases, the patient utilizes a decreasing amount of hospital service," Amberg declared.

"Under such a system, long-term care for the patient with a chronic disease becomes an expensive proposition."

Amberg related how the University of Minnesota Hospitals has met this need for a facility to care for chronic disease patients with its four-year-old Masonic Memorial Hospital. Built in 1958 with voluntary contributions of one million dollars raised by the Masonic Order of Minnesota, the hospital is an 80-bed unit caring for patients with chronic illness, advanced disease or in post-operative convalescent states.

(MORE)

Operational policies of the hospital are to meet needs of these types of patients, to teach medical and paramedicare of such patients, to provide patients for clinical research and medical student teaching, to demonstrate prototype physical facilities and to keep costs at a minimum.

"The operation of this unit of the University Hospitals has exceeded our fondest expectations," Amberg declared.

"Costs are not as low as the typical nursing home---nor should they be. Services of different care and quantity have enabled daily costs to be approximately 50 per cent of the general hospital charge and still meet all the requirements of good chronic care," he reported.

"While cancer cases predominate, the principles involved in construction and operation are of interest to all concerned with the care of the pre-nursing, sub-acute patients in a parahospital setting."

As an example of how the Masonic hospital operation differs from that of the main hospital, Amberg noted that the chronic care unit uses 41 per cent fewer registered nurses and more than three times as many licensed practical nurses.

Every effort is made to reduce the amount of unnecessary nursing time, Amberg said.

Because patients are in a chronic state of illness, rather than an acute, certain routine patient checks---fluid intake and urine output, temperatures and pulse rates, routine blood pressure and respiration readings---are not taken as often as in the main hospital.

Ambulatory patients, whenever possible, eat in a central dining room rather than in their own rooms. Patients wear street clothes for the evening meal and Sunday noon dinner.

A full-time occupational therapist is employed for the patients. In addition to the occupational therapy room, the hospital has two patient lounges and an outdoor patio.

Amberg reported a proposal has been given to the Minnesota Masons to raise another one million dollars to provide 50 more beds and research facilities for investigation and study in the fields of chronic disabling disease.

(FOR IMMEDIATE RELEASE)

Approximately 450 radiologists are expected to attend a University of Minnesota medical continuation course Monday through Friday (Oct. 29-Nov. 2) on X-ray diagnosis and treatment of diseases of the bones and joints.

Participants will come from several states as well as Canada and Puerto Rico.

The course, entitled "Roentgenology of Bones and Joints", will be presented under the direction of Dr. Harold O. Peterson, professor and head of the University's radiology department, and Dr. David G. Pugh, professor of radiology at the University's Mayo Foundation in Rochester.

Arranged by the University's Center for Continuation Study, the course will be conducted in Mayo Memorial auditorium on the Minneapolis campus.

Guest faculty members will include Dr. John Caffey, Columbia university emeritus professor of radiology; Dr. John F. Holt, University of Michigan radiology professor; Dr. Harold C. Jacobson, New York university professor of clinical radiology;

Dr. Louis Lichtenstein, University of California at Los Angeles clinical professor of pathology; Dr. William Martel, University of Michigan assistant professor of radiology; Dr. Philip Rubin, chief and professor of radiotherapy at the University of Rochester; and Dr. Howard L. Steinbach, University of California (San Francisco) radiology professor.

Remainder of the faculty includes staff members of the University of Minnesota medical school and the Mayo Foundation, Rochester.

'U' ECONOMISTS
PRESENT WEEKLY
SERIES ON CH. 2

(FOR IMMEDIATE RELEASE)

"Economists' Holiday", the fall quarter weekly series presented at 9:30 p.m. Wednesday evenings by KTCA-TV, Channel 2, is sponsored by the University of Minnesota department of economics and features economics department faculty as speakers.

The series is described by John A. Buttrick, chairman of the economics department, as "a series of programs in which members of the department of economics look at and comment on a wide range of topics of current interest and concern"

Tentative titles for the balance of the series are:

- Oct. 31 -- "Freeways Create Problems"---Assistant Professor Edward M. Foster.
- Nov. 7 -- "Are Labor Unions Conservative?"---Associate professor Lowell Gallaway.
- Nov. 14 -- "The Changing Faces of Insecurity"---Professor John G. Turnbull.
- Nov. 21 -- "Are We Spending Too Much on Our Way to the Moon?"---Assistant Professor Jacob Schmookler.
- Nov. 28 -- "Does Minnesota Need A Sales Tax?"---Dean Paul V. Grambsch of the school of business administration.
- Dec. 5 -- "Automation" Boom or Evil?"---Professor Leonid Hurwicz

Speakers and their topics for the lectures Dec. 12 and 19 will be announced later.

ARBORETUM REPORT
TO OPEN U OF M
MUSEUM SERIES

(FOR IMMEDIATE RELEASE)

A progress report on the University of Minnesota's landscape arboretum in Excelsior will open the annual free Sunday program series next Sunday (Nov. 4) at 3 p.m. in the University's Minnesota Museum of Natural History.

Professor Leon C. Snyder, horticulture department head, will relate, in an illustrated lecture, how new varieties of ornamental trees and shrubs from around the world have been developed at the arboretum for Minnesota's climate.

The Sunday programs, which run through April 7, attract an average of 10,000 persons annually. Programs this year will include illustrated lectures and films on topics from TV towers and migrating birds to water pollution caused by modern chemicals.

Remainder of the programs for November will be: "University of Minnesota Archeological Explorations in Greece" by William A. McDonald, classics professor, Nov. 11; color sound film, "Birds of the Scottish Highlands", Nov. 18; color sound film, "Water Famine", Nov. 25.

'U' TO CONDUCT
AUTO SAFETY
SESSION IN N. M.

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota, by invitation of the United States Air Force, will conduct the sixth Stapp Car Crash and Field Demonstration conference Nov. 7-9 at Holloman Air Force Base, Alamogordo, New Mexico.

Safety and research engineers, medical personnel and others interested in automotive safety from around the nation will participate.

The conference is named after and was founded by University medical school alumnus Colonel John Paul Stapp, deputy chief scientist of the Aerospace Medical division, Brooks Air Force base, Texas. He earned the title "the fastest man on earth" Dec. 10, 1954, when he rode a rocket sled at Holloman base which reached a speed of 632 miles per hour. The ride was one of several he has made to determine human reactions to pressures experienced in space travel.

The University's Center for Continuation Study and mechanical engineering department will conduct the conference in cooperation with the 6571st Aeromedical Research laboratory of the Air Force Aerospace Medical division. The annual conference was held at the University's Minneapolis campus in 1959 and 1961.

The American Association for Automotive Medicine and the U. S. Public Health service's accident participation division also will participate in the program.

A faculty of 34 medical, engineering and safety experts from government, the Air Force, industry and educational institutions, including the University of Minnesota, will present the program.

(MORE)

Purpose of the Stapp conferences is to assess contribution to death and injury during crash of the various structural parts of the car, to demonstrate how modification or absence of these parts may enhance survivability and to share medical and technical experimental information.

Dean Julius M. Nolte of the University's general extension division and Brigadier General T. C. Bedwell, Jr., commander of Aerospace Medical division, Brooks Air Force Base, who invited the University to conduct the conference in New Mexico, will open the conference Wednesday, Nov. 7.

Other University faculty members who will go to Holloman base for the conference will be James J. Ryan, professor of mechanical engineering and a specialist in developing automotive safety devices; Dr. William Fleeson, assistant dean of the college of medical sciences; Merrill K. Cragun, associate director of the Center for Continuation Study; and Dr. Edward J. Baldes, biophysics professor at the Mayo Foundation, Rochester.

Professor Ryan will speak on "Safe Automotive Construction". Dr. Fleeson will serve on a panel of medical experts who will comment on a paper on "Selection of Subjects for Human Experiments" to be presented by Major Ellis Taylor, chief of the biodynamics branch at the 6571st Aerospace Research laboratory at Holloman base.

Donald F. Melton, president of Programmed and Remote Systems corporation, St. Paul, also will appear on the program with a panel of four other manufacturers who will conduct seat belt demonstrations.

ASIAN TRAVEL
FILMS THURSDAY

(FOR IMMEDIATE RELEASE)

"From Hong Kong to the Vale of Kashmir" will be the title of a film lecture by international photographer Curt Matson at a University of Minnesota convocation Thursday (Nov. 1).

The film program, open free to the public, will be at 11:30 a.m. in Northrop Memorial auditorium.

Matson's film---photographed in color---deals with the problem of refugees from Red China as well as the picturesque and cultural aspects of Hong Kong.

The portion of the film on Kashmir, the border state between India and Pakistan, is a sightseeing tour including scenes of a floating post office, the Gardens of Shalimar, artisans at work, a floating drugstore and native dancers.

The convocation will be sponsored by the University's department of concerts and lectures.

SEN. MC CARTHY, U N
OFFICIAL TO ADDRESS
'U' HUMAN RIGHTS MEET

(FOR IMMEDIATE RELEASE)

U. S. Senator Eugene J. McCarthy and John P. Humphrey, director of the division of human rights of the United Nations Secretariat, will speak at a regional conference on human rights presented Friday, Saturday and Sunday (Nov. 2-4) at the University of Minnesota.

The University International Relations club (IRC), the Association of International Relations clubs (AIRC) and the Collegiate Council for the United Nations (CCUN) sponsor the conference in Coffman Memorial Union on the Minneapolis campus.

More than 200 invited participants will attend the conference sessions from International Relations clubs in schools and in Minnesota, Wisconsin, Iowa, Illinois, North and South Dakota and Canada, according to Eileen McDonald, local IRC vice president.

Following registration from 4 to 7 p.m. Friday, the conference will open with an 8 p.m. address by Humphrey in the Union main ballroom. He will speak on "The Past, Present and Future in Human Rights". A reception for the delegates and students will follow the address.

"The Political Aspects of Human Rights" will be the topic of Sen. McCarthy's address at the conference banquet at 6 p.m. Saturday in the Union junior ballroom. The banquet and a reception and dance following, will be open only to delegates.

Six conference round table discussions will be held beginning at 9:15 a.m. Saturday, until the 3:30 p.m. business meeting of the AIRC and the CCUN.

(MORE)

Discussion topics are: The Development of United Nations Standards and Procedures, The Effect of International Regulation of Human Rights on United States Domestic Jurisdiction, The European Area Human Rights Activities, Human Rights in Colonial Areas and in Newly Independent Areas, Refugees and Stateless Persons and Human Rights in Communist Controlled Areas.

Panel discussions will continue at 10 a.m. Sunday. Panelists will include:

Charles H. McLaughlin, professor and chairman of the University's political science department; Duncan Baird, assistant professor of political science at the University and at Macalester college; and Bruno H. Greene, University professor of law and law librarian; and Fayez Sayegh, visiting professor of history at Macalester and Lebanese delegation member to the U. N.

All sessions of the conference, with the exception of the business session at 3:30 p.m. Saturday, and the banquet Saturday evening, are open to the public.

TENOR TO SING
ARIAS ON KTCA

(FOR MUSIC PAGE OR COLUMN)

Tenor Paul R. Knowles, assistant professor of music at the University of Minnesota, will be this week's featured guest on the "At Home With Music" program Monday (Nov. 5) televised at 9 p.m. by KTCA-TV, Channel 2.

The program is a weekly production of the University music department, broadcast throughout the school year.

Miss Clara Seecamp, a graduate of the University music department and a member of Bethel college, St. Paul, faculty, will accompany Professor Knowles in the program, "Great Arias from Oratorios".

Knowles will sing:

"Be Thou At Peace" from the cantata "He Who Relies on God"---Bach

"Comfort Ye My People", recitative,
"Every Valley Shall Be Exalted", aria, from "Messiah"---Handel

"Thy Rebuke Hath Broken His Heart", recitative,
"Behold, and See If There Be Any Sorrow Like Unto His sorrow",
arietta, from "Messiah"---Handel

"Be Thou Faithful Unto Death", cavatina from "St. Paul"---Mendelssohn

"And God Created Man In His Own Image", recitative,
"In Native Worth and Honor Clad", aria, from "The Creation"---Haydn

"My Arms Against This Gorgias Will I Go", recitative,
"Sound An Alarm", aria, "Judas Maccabeus"---Handel

Pianist Miles Mauney, assistant professor of music, will present the "At Home With Music" program next Monday, Nov. 12.

'U' TO CONDUCT
DENTAL ASSISTANTS
CERTIFICATION COURSE

(FOR IMMEDIATE RELEASE)

The third of a three-part certification course for dental assistants will be conducted by the University of Minnesota Center for Continuation Study next week (Nov. 5-10).

First and second parts of the 104-hour course next will be offered Jan. 14-18 and June 3-7.

The course meets the requirements set up by the educational committee of the American Dental Assistants association to become certified dental assistants. It will be presented by the University in cooperation with the Minnesota Dental Assistants and Hygienists association.

Topics range from dental anatomy and pathology to operating room procedures and dental office management.

Dr. A. T. Thorson, professorial lecturer in the school of dentistry, will coordinate the course, with the assistance of various University personnel.

Registration for the course may be made by writing the Director, Center for Continuation Study, University of Minnesota, Minneapolis 14.

(FOR IMMEDIATE RELEASE)

Per Jacobsson, director of the International Monetary Fund, will speak on "The Current Monetary Situation" Saturday (Nov. 3) at the annual dinner meeting of the Minnesota Economic association at the University of Minnesota.

The dinner will begin at 5:30 p.m. in the Campus Club in Coffman Memorial Union. About 75 area business leaders, in addition to association members, are expected to attend.

Jacobsson's talk will highlight a day-long program of panel discussions on various topics of economic education, fiscal policy and business stability. All sessions will be held in Coffman Memorial Union.

Dean Paul V. Grambsch of the University's school of business administration will serve as host for the meeting of the association, which is an organization of educators in business and economics from the state's colleges and universities.

Jacobsson, whose official title is managing director and chairman of the board of the International Monetary Fund, in Washington, D.C., came to the United States in 1957 to direct the fund after 25 years as head of the economic department of the Bank for International Settlements in Basle, Switzerland.

The Swedish-born and educated financial expert served for several years as director of the Basle Centre for Economic and Financial Research in Switzerland. He received the World Trade Award of the World Trade Commission from the Metropolitan Washington Board of Trade in 1960. He is author of the book, "Some Monetary Problems---International and National".

The International Monetary Fund, which he heads, was established in 1946 under terms of the Articles of Agreement of the 1944 Bretton Woods Conference. It is a 68-member nation organization which provides machinery for consultation and collaboration on international monetary problems. The fund assists in exchange transactions and provides resources, obtained by payments of quotas from members, from which member nations may draw upon to meet international payments.

The fund is operated by a board of 18 executive directors, headed by Jacobsson.

4-CENTURY-OLD LUTE
TO BE FEATURED
IN 'U' CONCERT

(FOR MUSIC PAGE OR COLUMN)

A 400-year old ivory lute will be played at the University of Minnesota Thursday, Nov. 8, when the German lutist, Karl Wolfram, presents a program of folk songs at Coffman Memorial Union main ballroom.

The 8 p.m. program is sponsored by the American-Foreign Student committee of the Union Board of Governors. Proceeds from the \$1 tickets will go to committee activities, according to Dan Paskewitz, committee chairman. Students will be admitted for 50 cents.

The 11-stringed instrument, technically called a "theorbe", once was owned by Frederick the Great of Prussia. Traditionally the accompanying instrument for folk music, it will be used by Wolfram to accompany him in songs from the 18th, 19th and 20th centuries.

MAEANDER VALLEY
IN TURKEY SUBJECT
OF LECTURE AT 'U'

(FOR IMMEDIATE RELEASE)

One of the important areas of ancient civilization, the Maeander valley in Turkey, will be the subject of an illustrated lecture by Kenan T. Erim, New York university classics professor, at 8:30 p. m. Monday (Nov. 5) at the University of Minnesota.

Title of his talk, to be given in the Minnesota Museum of Natural History auditorium, will be "Along the Maeander Valley". It will be the first in a series of archaeological lectures to be offered by the University and the Minnesota Society of the Archaeological Institute of America during the school year.

The Maeander, because of its twisting and turning course, is the source of the English word "meander". The modern name of the river is the Menderes.

Professor Erim has spent two seasons with a New York university expedition exploring notable classical sites along the river, including Laodikeia, now an important Turkish tobacco-growing region.

The lecture, open free to the public, is sponsored by the archaeological society and the University's department of concerts and lectures.

On St. Paul Campus---
JESNESS TO TALK
ON FARM PROBLEM
WEDNESDAY AT 10

(FOR IMMEDIATE RELEASE)

"Is There a Solution to the Farm Problem?" will be the subject of a University of Minnesota convocation lecture by O. B. Jesness, emeritus professor and former head of the University agricultural economics department, at 10 a. m. Wednesday (Nov. 7) in the St. Paul campus Student Center.

The free, public lecture will be in the North Star ballroom.

Professor Jesness, who served on the University faculty from 1928 to 1957, for several years has been a government and industry adviser and consultant on economic policy. He has received many awards for his service to agriculture, including the American Farm Bureau Federation award in 1953 for distinguished service to agriculture and the University's Outstanding Achievement Award.

Since his retirement from the University, Professor Jesness has continued to serve as an agricultural consultant. He was a member of the National Agricultural Advisory commission, appointed by the President, from 1955 to 1960. He is still a member of the U. S. commerce department's Regional Export Expansion committee.

The convocation will be sponsored by three University units---the faculty of the institute of agriculture, the Student Center Board of Governors and the department of concerts and lectures.

STRAUB TO ATTEND
WAVE RESEARCH
MEET IN MEXICO

(FOR IMMEDIATE RELEASE)

Professor Lorenz G. Straub, director of the University of Minnesota's St. Anthony Falls Hydraulic laboratory and head of civil and hydraulic engineering at the University, will participate in meetings of the International Council on Wave Research next week (Nov. 5-9) in Mexico City. The last of the biennial conferences on coastal engineering was held at The Hague, Netherlands, in 1960.

Various wave and coastal engineering projects conducted at the St. Anthony Falls Hydraulic laboratory in the past will relate to the conference program, according to Professor Straub. Included will be studies of harbors and breakwaters on the Great Lakes, pneumatic and hydraulic wave absorbers, the Passamaquoddy tidal power project and others.

The University holds patents on a special category of hydraulic water wave absorbers invented under the hydraulic laboratory program, he added.

(FOR IMMEDIATE RELEASE)

The Reverend Andrew M. Greeley, assistant pastor of the church of Christ the King, Chicago, will speak on "The Failure of the Faiths" at 3:30 p.m. Monday (Nov. 12) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The lecture, sponsored by the University Council of Student Religious Organizations and the department of concerts and lectures, will be part of the annual observation of Religious Participation Week at the University.

Father Greeley received the master of arts and the doctor of philosophy degrees from the University of Chicago and the S.T.L. degree (reader in sacred theology) from St. Mary of the Lake seminary. Currently he is consultant, Archdiocesan Conservation council, Chicago, and senior study director, National Opinion Research center, University of Chicago.

He is the editor of the Catholic Action Journal, "Apostolate", a member of the national executive board of Young Christian Students and a consultant to the Cana Conference of Catholic Action office, archdiocese of Chicago.

Over 50 articles by Father Greeley have appeared in such Catholic popular journals as "America", "Commonweal", "The Sign", "The Ave Maria", "The Catholic Digest" and "The Catholic World". Books he has written include "The Church and the Suburbs" and "Strangers in the House".

FILM ON ISRAEL
TO BE SHOWN
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

"Israel", a color film by photographer Bettina Shaw, will be shown at a free, public convocation at 11:30 a.m. Thursday (Nov. 8) in Northrop Memorial auditorium at the University of Minnesota.

Miss Shaw, who has photographed several countries of Europe and the Near East, will narrate the film in person. In addition to her film-making activities, Miss Shaw is a light-opera singer and costume designer for theatricals.

Her film on Israel includes views of modern Israel---its hotels, restaurants, new universities and hospitals---as well as many historical features of the land---shrines, ruins of ancient cities and wonders of nature.

The convocation will be sponsored by the University's department of concerts and lectures.

NIH TO FINANCE
'U' 7-YEAR HEART,
CIRCULATION STUDY

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 5, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis--- Means of increasing the efficiency of the heart in various types of congenital and acquired diseases is one of several studies by University of Minnesota physiologists to be supported by a new, seven-year grant of \$280,134 from the National Institutes of Health.

The grant, effective Dec. 1, will support heart and circulation studies under the direction of Dr. Maurice B. Visscher, Distinguished Service professor and physiology department head.

All the investigations, Dr. Visscher explained, are aimed at better understanding the mechanisms and processes of the heart and circulatory system.

"If we do find practical applications, it is an extra dividend," he pointed out.

Investigations to be supported by the grant will include:

The mechanisms of heart failure, a study which has been carried on by Dr. Visscher for a number of years;

Metabolism of creatine, a chemical substance in the heart muscle which is part of the energetic machinery that allows the heart muscle to contract;

Physical characteristics of blood vessels; and

Agglutination, or sticking together of red blood corpuscles, which clogs the blood vessels.

The studies of heart failure will be concerned particularly with the type of failure which occurs in rheumatic and valvular diseases of the heart or in hypertension. In this type of heart failure, the fraction of the energy liberated by each heart beat which is put to work in pumping blood may be reduced.

(MORE)

In the other type of heart failure, which occurs in coronary artery disease, the total amount of energy liberated with each beat can be reduced.

"We are particularly interested in learning more about the first mechanism, in order, if possible, to control the process," Dr. Visscher said.

"The heart, in that type of failure, is a less efficient machine and wastes energy," he explained. "Means of increasing the efficiency would obviously be of importance in the treatment of heart disease."

The studies on creatine will measure the rate at which this chemical substance combines with other substances to store energy which can be used in the heart contraction process.

The rates at which the synthesis of this substance with other chemicals occurs and the rates at which the compound breaks down and releases energy are being studied in relation to various circumstances: the rate of the heart beat; the amount of work the heart is doing and how much blood it is pumping against what pressure; the amount of oxygen supply to the heart; and the presence of certain foreign chemicals.

Investigations on the red blood corpuscles are aimed at finding out under what circumstances the corpuscles clump together and cause clogging of the blood vessels. The red corpuscles carry an electric charge, which determines whether or not the corpuscles remain in suspension in the blood. When the cells lose their charge, because of changes in the chemical composition of the blood, they clump together, Dr. Visscher explained.

He said this agglutination process is important in some diseases of blood vessels.

Others working with Dr. Visscher on the studies include Dr. Y Chiung Puh Lee, research associate in physiology.

CIRCADIAN BODY
RHYTHMS TOPIC
OF 'U' LECTURER

(FOR IMMEDIATE RELEASE)

A Boston neurophysiologist, Dr. John S. Barlow, will give a free, public lecture Thursday (Nov. 8) at the University of Minnesota on physiological activity of the body which occurs in regular 24-hour periods.

The lecture, entitled "Models of Physiologic Circadian Rhythms", will be given at 3:30 p. m. in B507 Mayo hospital.

Dr. Barlow, who is on the staff of Massachusetts Institute of Technology and Massachusetts General hospital in Boston, will discuss the theory of physiologic rhythms with periods of about 24 hours, or the so-called "circadian rhythms". He will also consider the part these rhythms play in bird navigation.

Dr. Barlow has done extensive work on applying computer methods to physiologic rhythms, and in particular, to the electroencephalogram, an apparatus for detecting and recording brain waves.

The lecture will be sponsored by the University's division of neurosurgery, the department of pathology and the department of concerts and lectures.

NEW 'U' PIANIST
TO PLAY MONDAY
ON CHANNEL 2

(FOR MUSIC PAGE OR COLUMN)

Pianist Miles Mauney, assistant professor of music at the University of Minnesota, will be the featured artist on this week's "At Home With Music" program at 9 p.m. Monday (Nov. 12) on KTCA-TV, Channel 2.

The program is a weekly television production of the University's music department.

A new member of the University's music education department, Professor Mauney has replaced Professor Guy Duckworth, now at Northwestern university. He is a graduate of Oberlin Conservatory of Music and teachers college of Columbia university. He also studied with Madame Isabelle Vengerove, and appeared, until recently, as a piano-duo with his twin brother.

Mauney will play:

Two Sonatas.....Scarlatti

"Jeux d'Eau" (The Fountain).....Ravel

Andante spianato and Grand Polonaise
Brillante in E flat major, op. 22...Chopin

University music students will sing Civil War songs under the direction of Professor Johannes Riedel on the Nov. 19 "At Home With Music" program on Channel 2.

STATE PHARMACISTS
TO ATTEND 23rd
U OF M CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Some 50 pharmacists from Minnesota will take a look at social, legal and public health implications affecting their profession at a University of Minnesota continuation course Thursday, Friday and Saturday (Nov. 8, 9 and 10)

It will be the twenty-third annual continuation course in pharmacy conducted by the University's Center for Continuation Study in cooperation with the Minnesota State Pharmaceutical association.

The faculty, in addition to staff members from the University's college of pharmacy and school of public health, will include four drug executives from Illinois, Michigan and New Jersey.

"What's Right with Pharmacy" will be the keynote address at 1:30 p.m. Thursday by George C. Straayer, professional and trade relations director for the Schering company, Bloomfield, N. J.

Other topics to be discussed will be a review of new products, changes in biological preparations and trends and liability hazards in community practice.

The community pharmacy as a center for distribution of public health information also will be considered.

At the final session on Saturday, R. W. Mattson, special assistant to the Minnesota state attorney general, will report on proposed changes in the Minnesota pharmacy law.

The annual Religious Participation Week at the University of Minnesota, sponsored by the Council of Student Religious Organizations (CSRO), will be held next week (Nov. 11-18), according to Ardis Fieldman, University senior from Park Rapids and chairman of the special week.

Highlight of the week's activities will be the talk Monday (Nov. 12) by the Reverend Andrew M. Greeley, assistant pastor of the church of Christ the King, Chicago. Father Greeley will speak on "The Failure of the Faiths" at 3:30 p.m. in the Minnesota Museum of Natural History auditorium. The talk, sponsored by CSRO and the department of concerts and lectures, will be open to the public.

Special religious participation week activities at University-connected denominational foundations will include a concert, "The Pleasures of Jewish Music", by pianist Erwin Jospe, at 8 p.m. Tuesday (Nov. 12) at B'nai B'rith Hillel foundation, Jewish student center, 1521 University ave., S. E. A Cardinal lecture, "The Visual Illiteracy of the Majority of Christians" by Frank Kacmaric, St. Paul artist and religious art consultant, will be given at 8 p.m. Wednesday (Nov. 13) at the Catholic student center, Newman foundation, 1701 University ave., S. E.

The Episcopal Student Center, 317 17th ave., S. E., will present a play, "The Cup of Trembling" by Elizabeth Berryhill at 8 p.m. Friday (Nov. 16).

Coffman Memorial Union board of governors will mark the special week with an exhibit of Look magazine color photographs, "Religious America", on display in the Union Fine Arts gallery Monday through Friday.

The University's Panel of Americans, interdenominational student discussion group, will appear at the Baptist Student foundation, 1219 University ave., S. E., at 7 p.m. Sunday Nov. 18.

STATE DEPARTMENT
OFFICIAL TO SPEAK
AT U OF M FRIDAY

(FOR IMMEDIATE RELEASE)

John P. Netherton, named this week to the newly created post of director of American Programs and Services in the U. S. State department, will speak at a University of Minnesota conference Friday (Nov. 9).

Netherton will address a noon luncheon of a regional conference Friday and Saturday (Nov. 9 and 10) of the National Association of Foreign Student Advisers in the Center for Continuation Study. His topic will be "United States Government in International Education".

In the new post, which is under the bureau of educational and cultural affairs, Netherton will have charge of all United States exchange of persons programs.

Netherton, who has been in State department service for several years, is a former dean of students at the University of Chicago.

Other speakers will include Howard Cook, New York, president of the International House, which provides temporary residence for hundreds of American and foreign exchange students. Cook is president of the National Association of Foreign Student Advisers.

More than 75 foreign student advisers, college and university foreign student advisers, admissions personnel and teachers of English and community service personnel are expected to attend the two-day conference. Participants will come from North and South Dakota, Iowa, Missouri and Minnesota.

'U' ARCHEOLOGIST TO REPORT SUNDAY
ON EXPLORATIONS IN GREECE

(FOR IMMEDIATE RELEASE)

Archeological explorations in Greece by University of Minnesota faculty members will be the subject of an illustrated talk at 3 p. m. Sunday (Nov. 11) in the Minnesota Museum of Natural History auditorium on the Minneapolis campus. The program will be open free to the public.

William A. McDonald, classics professor, who has made six expeditions to Greece, will report on his most recent trip there, which he made last summer with three other University professors. They uncovered clues to an ancient road which runs across the Messenia peninsula in southern Greece and data on early agriculture in the area.

Professor McDonald also will give an account of his part in the discovery of the palace of ancient King Nestor of Greece---a discovery in which he participated as a graduate student in 1939 on an expedition headed by Professor Carl Blegen, onetime chairman of classics at the University of Cincinnati and at that time a professor in the American School of Classical Studies in Athens, Greece. Professor Blegen is a brother of Dean Emeritus Theodore C. Blegen of the University of Minnesota graduate school.

Next in the series of free Sunday programs at the Minnesota Museum of Natural History will be a color sound film, "Birds of the Scottish Highlands", to be shown Nov. 18.

'U' PHILOSOPHERS
TO VIEW SCIENCE
IN LECTURE SERIES

(FOR IMMEDIATE RELEASE)

Two University of Minnesota philosophers will discuss the topic "Does Science Tell Why?", an analysis of the nature of scientific explanation, in a free public program at 8 p.m. Monday (Nov. 12) in Mayo Memorial auditorium on the University campus.

The speakers will be Professor Herbert Feigl, director of the University's center for philosophy of science, and Professor Paul K. Feyerabend, a center faculty member.

Their discussion will open a series of three Monday evening lectures on philosophic aspects of science.

Brand Blanshard, visiting professor of philosophy, will give the second lecture Nov. 19, on "Humanities for the Scientist". The final program, Nov. 26, entitled "Psyche and Soma", will be a continuation of the first discussion by Professor Feigl and Professor Feyerabend.

The University's medical school and the liberal arts programs of the general extension division will sponsor the talks as part of the annual "Horizons Series".

Minneapolis ---

Recent federal tax rulings and court cases will be under discussion at the University of Minnesota's annual tax institute for lawyers Wednesday and Thursday, Dec. 5 and 6.

The course will be conducted in the Center for Continuation on the Minneapolis campus. Sponsors are the Tax section of the Minnesota State Bar association and the University law school and Continuation center.

Travel and entertainment deductions, new depreciation rules, and recent rulings affecting marital settlements and business planning will be among specific topics under consideration. Valuation techniques under the estate, inheritance and gift taxes and methods of securing revenue rulings also will be discussed.

The faculty will include the following attorneys: Dan Davis and William P. Van Evera, Duluth; Stanley Efron, Ralph Strangis and Paul Zerby, Minneapolis; and Robert B. Hawkins and Honnen S. Weiss, St. Paul.

Stephen B. Scallen, assistant dean of the University law school, also will serve on the faculty.

The fee for the institute is \$15. Registration may be made by writing to the Director, Center for Continuation Study, University of Minnesota, Minneapolis 14.

'U' RELIGIOUS
EDUCATORS' COURSE
TO OPEN MONDAY

(FOR IMMEDIATE RELEASE)

"Creating a Climate for Religious Response" will be the theme of the University of Minnesota's eighth institute for religious educators Monday and Tuesday (Nov. 12-13). It will be conducted in the Center for Continuation Study.

The institute is designed for professional and lay directors of religious education. Lectures and discussions will be devoted to teaching techniques which have shown to be effective in creating a "climate for religious response".

In addition to University faculty members, the staff will include Ailene Cole, Augsburg college professor of speech and dramatics, and Jo Ann Walmsley, dramatics director for the First Congregational church in Robbinsdale.

The institute will be presented through the Center for Continuation Study and the office of the coordinator of students' religious activities.

'U' TO WELCOME
STUDENTS' PARENTS
ON DADS' DAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Dads' Day, annual University of Minnesota event honoring parents of University students, will be held Saturday (Nov. 17) on the Minneapolis campus. The program, traditionally scheduled for the day of the last home football game of the year, will include a guided tour of the new West Bank area of the campus, luncheon, and the Minnesota-Purdue football game.

Professor Winston A. Close, University advisory architect, will explain plans for the new West Bank buildings during the tours of the new campus. The tours, starting from Coffman Memorial Union lobby at 10 and 10:20 a. m., will go through the soon-to-be completed social sciences faculty office building and the recently opened classroom building.

Stanley J. Wenberg, University vice president for educational relationships and development, will welcome the parents at the Dads' Day luncheon at 11:30 a.m. in the Union main ballroom. Highlight of the program will be a skit on University historical events and traditions presented by members of the Minnesota Student association Freshman Cabinet, co-sponsors with the Dads' association of the day's activities.

Reservations for combination tickets for the Dads' Day luncheon and football tickets for the Minnesota-Purdue football game may still be made by writing the Dads' association, Room 200, Eddy hall, University of Minnesota, Minneapolis 14, or by calling 373-4082 or 373-4474.

REGENTS APPROVE
NEW LOAN PLAN
FOR LAW SCHOOL

(FOR IMMEDIATE RELEASE)

The University of Minnesota Board of Regents Saturday (Nov. 10) approved the terms of a new University law school loan plan in cooperation with the First National Bank of Minneapolis.

Dean William B. Lockhart of the law school stated Saturday that he is aware of no other loan guarantee with such favorable terms.

Guarantee funds for the loan plan, which helps meet an ever growing need of the law school, Dean Lockhart reported, have been donated for the next two years by the Federal Cartridge Corporation Foundation and the Robins, Davis and Lyons Foundation.

"Students receiving loans under the plan will not be called upon to begin paying off the loans until after they have taken the bar examination," the dean explained. "They will then have up to four years to make payment. Loans will be available to second and third-year law students in good standing who have financial need."

Dean Lockhart commented that it has become increasingly obvious to him that existing loan funds available to the law school are inadequate. This inadequacy became acute this year due to continued increase in the costs of legal education and in enrollment, which increased 30 per cent this year over last, he said.

"This generous loan plan will go a long way toward meeting the increased need for loan funds," the dean added.

'CORN' OF CIVIL
WAR ERA 'U'
TV FEATURE

(FOR MUSIC PAGE OR COLUMN)

"Corn", Circa Civil War", will be sung by four University of Minnesota music majors on next week's "At Home With Music" program which will be televised at 9 p.m. Monday (Nov. 19) by KTCA-TV, Channel 2.

The program, "Songs of the Civil War", will feature such 100-year old popular songs as "The Vacant Chair", "The Drummer Boy of Shiloh", "Wait for the Wagon" and a lullaby from the temperance cantata, "Lost and Saved".

Johannes Riedel, University professor of musicology, will direct the students in the program. Taking part will be soprano Jan Anderson, mezzo-soprano Nancy Hunziker, tenor Vern Sutton and baritone Matthew Murray. Pianist Dorcus Bendix will accompany the singers who will do four choral numbers as well as solos.

The program, a weekly production of the University music department, is presented during the school year and features University students and faculty members.

Violist Alfred Loeffler will be the featured performer on the November 26 program.

NOVEMBER 12, 1962

(FOR IMMEDIATE RELEASE)

Three national leaders in curriculum development will speak at the University of Minnesota's ninth annual Institute in Curriculum and Supervision Thursday and Friday (Nov. 15 and 16).

Approximately 150 Minnesota teachers and school administrators are expected to attend the conference, to be held in the Center for Continuation Study.

M. L. Frankel, New York City, director of the Joint Council on Economic Education, will give a free public lecture at 8 p.m. Thursday as part of the institute. He will speak on "The Challenge of Economic Education" in the Minnesota Museum of Natural History auditorium.

Frankel will address Friday morning's session of the institute on the topic "Changing Emphases in Social Studies Affecting Curriculum Change".

Arthur W. Foshay, executive officer of Columbia University Teachers college, New York, will open the conference Thursday morning with a discussion of "Forces Influencing Curriculum Change".

Ole Sand, director of the National Education association's project on instruction, Washington, D. C., will report on this project, which is aimed at improving classroom instruction, in a 1:15 p.m. talk Thursday.

Other speakers on the program will include Minnesota leaders in public school administration and University of Minnesota faculty members.

The institute will be conducted by the University's Center for Continuation Study in cooperation with the Minnesota Association for Supervision and Curriculum Development.

'U' HISTORY HEAD
TO SPEAK ON
'DEMOCRACY, DICTATORSHIP'

(FOR IMMEDIATE RELEASE)

Professor Harold C. Deutsch, chairman of the University of Minnesota history department, will discuss "Democracy vs. Dictatorship: America and Germany in World War II" at a free, public convocation Thursday (Nov. 15) at the University.

The talk will be given at 11:30 a. m. in Northrop Memorial auditorium.

Professor Deutsch, who does a weekly television program analyzing world affairs, directed several research activities in Europe for the United States Office of Strategic Services (OSS) and the state department during World War II. He was chief of research and analysis for an OSS mission to Germany in 1945 and was counsel for a state department mission to interrogate German leaders on problems of Hitler's foreign policy in the summer and fall of 1945. He served as chief of the European Axis section of the Board of Economic Warfare in 1942.

He has spent a total of about six years in Europe on various research projects since joining the University faculty in 1929. During World War II, he did a local radio program interpreting the war news.

His books include "Present and Future U. S. Policy on Germany", "Our German Problems" and "America's Stake in Western Europe".

He has been invited to serve as a visiting professor at the University of Berlin in the spring and summer of 1963.

Professor Deutsch also heads the University of Minnesota's program in international relations and area studies. A native of Milwaukee, Wis., he was graduated from the University of Wisconsin and received the doctor of philosophy degree from Harvard university. He also studied abroad at the Universities of Paris, Vienna and Berlin.

A program of eighteenth century chamber music will be presented by the Baroque Ensemble in a special concert at 8 p.m. Monday (Nov. 19) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The free public concert is sponsored by the University humanities department, Focus committee of the Coffman Memorial Union Board of Governors and the department of concerts and lectures.

The Baroque Ensemble, a group of local musicians interested in chamber music, is made up of Jane La Berge, violin; David Ferguson, 'cello; Cynthia Stokes, flute; Warren Cheston, Oboe; and Jane Burris, harpsichord. Thomas Nee, director of the Civic Orchestra of Minneapolis, will comment on the program.

Monday evening's program of the Baroque Ensemble will be:

- Quatrieme Concert.....Francois Couperin
(1668-1733)
Violin, 'cello, oboe, flute, harpsichord
- "La Forqueray" from Cinquieme Concert.....Jean-Phillipe Rameau
(1683-1764)
Flute, 'cello, harpsichord
- Sonata in A major.....Frederick the Great
(1712-1786)
Flute, harpsichord
- Quintet in D major.....Johann Christian Bach
(1735-1782)
Flute, oboe, violin 'cello, harpsichord
- Divertimento, op. 100, No. 2.....Franz Joseph Haydn
(1732-1809)
Flute, violin, 'cello.
- Adagio and Rondo, K. 617.....Wolfgang Amadeus Mozart
(1756-1791)
Flute, oboe, viola (violin) 'cello, glass harmonica (harpsichord)

MINNESOTA SOCIAL WORKERS TO CONFER
AT UNIVERSITY ON 'FAMILY THERAPY'

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM. BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 13, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- A new method of treating social problems by dealing simultaneously with all members of the family will be explored by some 100 Minnesota area social workers at a University of Minnesota "Institute on Family Therapy" Monday and Tuesday (Nov. 19-20).

The institute will be conducted by the University's Center for Continuation Study in cooperation with the Southern Minnesota Chapter of the National Association of Social Workers Medical and Psychiatric section.

Mrs. Virginia Satir, director of the Training Family Project Mental Research institute, Palo Alto, Calif., will serve as lecturer for the two-day course. Mrs. Satir, who has written for national magazines, will lecture on a new theory and method of treating social problems by working with all members of the family in a group situation.

Professor Annie Laurie Baker, director of the University of Minnesota Hospitals social service department, says this method has been used by some social work, psychiatric and family service agencies within the last two years, but is still new to many social workers.

Mrs. Satir will demonstrate how the simultaneous family interview method works at a Monday afternoon session. A panel discussion will be conducted after the demonstration. Participating in the panel will be William McGee, caseworker for the Hamm clinic in St. Paul; Professor Murray Straus, chairman of the home management and family relationship department in the University's school of home economics; and Dr. James Lawton, Minneapolis General hospital psychiatrist.

Robert F. Spencer, University anthropology professor, will address a dinner, held in conjunction with the institute, at 6:30 p.m. Monday in the Edgewater Inn in Minneapolis. His topic will be "An Anthropologist's Point of View of the Family".

ROCKET SOCIETY
TO HONOR 'U'
SPACE PHYSICIST

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 13, 1962

(FOR IMMEDIATE RELEASE)

Professor John R. Winckler, University of Minnesota space physicist, will receive the Space Science award of the American Rocket society at the organization's 17th annual meeting and Space Flight Exposition in Los Angeles Friday (Nov. 16).

Professor Winckler's award will be presented at the society's Honors Night dinner at the Beverly Hilton hotel. More than 6,000 of the nation's leading space scientists and engineers will attend this first West Coast meeting of the society and the exposition.

A native of New Jersey, Professor Winckler received the bachelor of science degree in physics from Rutgers university in 1942 and the doctor of philosophy degree from Princeton university in 1946. He joined the University of Minnesota faculty in 1949, as assistant professor of physics and attained professor rank in 1958.

Noted as a designer of equipment for measuring radiation in the atmosphere and outer space, Professor Winckler headed the University's research group using balloons for the study of the aurora borealis (Northern lights) during the International Geophysics Year of 1957-58.

Winckler joined with Professor Edward P. Ney, another University physicist, in heading the 1959-60 National Science Foundation (NSF) research project for continuous balloon monitoring of cosmic rays. Balloon flights again were involved in Winckler's research in 1961 when, through a grant sponsored by the NSF and the Office of Naval Research, he studied the loss of radiation from the Van Allen belts.

Professor Winckler directed the research team that designed the radiation detection instruments carried on the satellite Explorer VI, launched Aug. 7, 1959. These instruments measured cosmic radiation and Van Allen "trapped" radiation. The same instruments also were flown on Pioneer V, flown March 27, 1960, for the same purpose.

(MORE)

WINCKLER

- 2 -

On March 7, 1962, the first orbiting solar observatory satellite was launched from Cape Canaveral. Part of its load is an instrument box, designed under Professor Winckler's direction, to measure X and gamma radiation from the sun during man's first direct studies of the sun from a space platform.

Professor Winckler now is helping to prepare equipment for a rocket to explore the new radiation belt created by the July 9, 1962, United States H-bomb blast in space. The rocket shot, tentatively scheduled for late November, will be the first to attempt to probe the new radiation belt directly. Winckler's instruments will measure the high-energy electrons making up the new belt.

Professor Winckler and Professor Ney will head the physics and upper atmosphere study center of the University's new space science research center, now being planned by the National Aeronautics and Space Administration (NASA). The center, part of the University's new Life Science Center, is proposed to consolidate a combination advanced program to give medical students practical experience in institute of technology subjects and to provide chemists and physicists with a strong background of medical subjects.

'U' DESIGNATED
TEACHER EXAM
TESTING CENTER

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM. BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 13, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota has been designated as a testing center for the 1963 nationwide administration of the National Teacher Examinations next February, Professor Ralph F. Berdie, director of the University's student counseling bureau, announced Tuesday (Nov. 13).

College seniors preparing to teach and teachers applying for positions in school systems which encourage or require applicants to submit their scores on the National Teacher Examinations along with their other credentials are eligible to take the tests. The examinations are prepared and administered annually by Educational Testing Services, Princeton, N. J.

The designation of the University of Minnesota as a testing center for these examinations will give prospective teachers in this area an opportunity to compare their performance on the examinations with candidates throughout the country who take the tests in the nationwide administrations, Professor Berdie said. The University of Minnesota does not require this examination.

At the one-day testing session a candidate may take the "common examinations", which include tests in professional information, general culture, English expression and nonverbal reasoning. In addition, each candidate may take one or two of the 13 optional examinations which are designed to demonstrate mastery of subject matter in the fields in which he may be assigned to teach.

Applications for the examinations and bulletins of information describing registration procedures and containing representative test questions may be obtained from 101 Eddy Hall, University of Minnesota, or directly from the National Teacher Examinations, Educational Testing Service, Princeton, N. J. Prospective teachers planning to take the test should obtain an application blank and a bulletin of information promptly, Professor Berdie advised.

'U' FOOTBALL BAND
WILL CLOSE SEASON
OF STADIUM MUSIC

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 13, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- In its final outdoor performance of the 1962 season Saturday (Nov. 17) afternoon, the University of Minnesota Football March Band, in pre-game and halftime shows, will salute Dads' Day visitors and the Golden Gophers' final at-home opponent, the Boilermakers from Purdue.

Adopting a "new look" this season, the Football Marching Band has discarded the "picture show" presentation, prevalent for many years in Big Ten bands, in favor of shows including precision marching, performance of several popular selections and special emphasis on familiar University of Minnesota songs.

Reasons for the change, according to Frank P. A. Bencriscutto, University bandmaster, include the inability of many in the stadium audience to distinguish picture formations, the desire to place more emphasis on University songs and the band's desire to set a better musical example for high school and college bands.

"Minnesota March", which John Philip Sousa wrote for the University, will open the pre-game program at Memorial stadium at 1:15 p.m. Saturday. Following the singing of the national anthem, student musicians will play the "Purdue Fight Song". As a special tribute to the Dads' Day guests, the band will go into a megaphone formation to spell out "Rah Dad". The "Minnesota Rouser" will sound as the teams run onto the field.

The halftime show will open with another Sousa march, "Semper Fidelis". Two musical numbers requested by members of the marching band, a medley including "Climb Every Mountain", "Sound of Music" and "Blue Moon", plus a precision drill to "There's No Business Like Show Business" and "Everything's Coming Up Roses", will bring the band to the Purdue "Alma Mater". The crowd then will join the 145 members of the marching band in the afternoon's musical climax, the playing and singing of "Hail Minnesota".

A special public concert will be given by the University Football Marching Band at 4 p.m. Sunday (Nov. 18) in Northrop Memorial auditorium. Selections from stadium shows of the 1962 season will be featured, according to Bencriscutto. The public is invited.

VISITORS TO 'U'
MUSEUM TO SEE
BIRDS OF SCOTLAND

(FOR IMMEDIATE RELEASE)

"Highland Birds", a color sound film of the Scottish highlands, will be shown, free to the public, at 3 p.m. Sunday (Nov. 18) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The film, produced by the British Royal Society for the Protection of Birds, depicts several birds which are the European "cousins" and possess many characteristics of birds found in the United States.

Among these are the diver, a bird similar to Minnesota's state bird, the loon; the dipper, which lives around waterfalls, diving in and around the water, like the water ouzel of the western mountain states; and the blackheaded gulls, which, like the Franklin gulls found in the United States, follow the farmers' plow to pick up the insects and worms turned up by the plowshare.

The film will be the third in a series of free Sunday programs offered by the museum from November to April. Next program on Sunday, Nov. 25, will be a showing of the color sound film, "Water Famine".

SWEDISH DOCTOR,
AT 'U', TO DISCUSS
SPACE SICKNESS

(FOR IMMEDIATE RELEASE)

Space sickness---a condition anticipated during space travel and comparable to air-sickness, sea-sickness and train-sickness---will be discussed in a lecture Thursday (Nov. 15) at the University of Minnesota.

Dr. Bo E. Gernandt, professor of physiology, Swedish Medical Research Council, Stockholm, an international authority on function of the vestibule of the ear, will speak on "Vestibular Somatic and Autonomic Outflow in Response to Vestibular Stimulation" at 12:30 p. m. in Room 104, Jackson hall.

The public lecture will be sponsored jointly by the University departments of pathology and physiology.

Dr. Gernandt's lecture, according to Dr. Franz Halberg, professor of experimental pathology, will revolve around the basic mechanisms of vestibular function.

Associated during the past year with the National Aeronautics and Space Administration (NASA) as staff scientist and consultant, Dr. Gernandt has concerned himself especially with this problem, Dr. Halberg said.

'U' STUDENT
PUBLICATIONS WIN
NATIONAL AWARDS

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota student newspaper, The Minnesota Daily, and its magazine edition, "The Ivory Tower", won first place awards in the annual Sigma Delta Chi, national journalism fraternity, campus news and magazine contest.

Award winners were announced Thursday (Nov. 15) at the fraternity's national convention at the Mayo hotel in Tulsa, Okla.

The Minnesota Daily won first place for sports writing and The Ivory Tower received a first place award for non-fiction articles. Awards were given for the 1961-62 school year.

Students who wrote the winning sports articles were Clinton Sanborn, Michael Emery, Burton Anderson and Dennis Mustad. Anderson and Mustad did a series of articles on the status of athletics at the University.

Those who wrote award-winning non-fiction articles for The Ivory Tower were last year's Tower editor Arma Jane Szczepanski, this year's editor Larry Pearson, Bess Moller, Beverly Ann Kees, Maurice Hobbs, Janet Mandelstam, Kurt Kent and Burton Anderson.

The awards were accepted Thursday at the convention by Tower editor Pearson, a state delegate to the convention.

Only other college to win two first place awards was the University of Washington, with a first place in editorial and a first place in feature writing.

Ohio State university's student newspaper won first place in news writing.

There were 847 entries in all contests.

JAZZ WORKSHOP
AT 'U' TO PRESENT
TALBERT ORCHESTRA

(FOR MUSIC PAGE OR COLUMN)

"Concepts in Jazz"---the music of Thomas Talbert and his 12-piece orchestra---will be a presentation of the University of Minnesota's Coffman Memorial Union Jazz Workshop at 8 p. m. Thursday, Nov. 29.

Admission for the concert, to be held in the Union main ballroom, will be \$1.

Talbert's group, originally organized as a rehearsal group, has played three Walker Art Center concerts this year and has begun a monthly series of concerts at the Old Log Theater, Lake Minnetonka.

Recently returned to the Twin Cities from New York City where he played a concert of his compositions at Carnegie hall, Talbert refers to his work as "serious music with a jazz flavor".

Originals and arrangements of standards listed for the Union Jazz Workshop concert include Talbert's suite, "New Orleans", his arrangement of John Lewis' "Django" and his own "LaBayadera" as well as the first performance of "Port of Longing", a bossa nova.

TAX ASSESSORS
TO ATTEND 'U'
SHORT COURSE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Approximately 35 Minnesota tax assessors will participate in a one-week course of intensive instruction in property tax assessment beginning Monday (Nov. 26) at the University of Minnesota.

All sessions will be conducted from 8:30 a. m. to 5 p. m. Monday through Friday (Nov. 30) in the Center for Continuation Study on the Minneapolis campus. Evening sessions are scheduled at 7 p.m. Monday, Wednesday and Friday. A summary session at 8:45 a. m. Saturday (Dec. 1) will conclude the seminar.

The course will be the third annual one of its kind sponsored by the Continuation center in cooperation with the League of Minnesota Municipalities. A three-day training institute sponsored by the University and the league also is offered annually for tax assessors of the state. The one-week seminar was started in 1960 to offer more advanced training, as a further step in professionalizing assessment practices, according to Frederick E. Berger, director of the Center for Continuation Study.

Four areas of study will be covered by the seminar: appraisal of real estate, property tax law, basic land economics and assessment administration.

The faculty will include Arthur Helland, assistant vice president of the Farmers and Mechanics Savings bank, Minneapolis; Irving J. Olson, property tax division director of the Minnesota state department of taxation; Arthur Roemer, deputy state tax commissioner; George Shapiro, University assistant professor of speech; and James Schwinden, research fellow in the University's department of agricultural economics.

Renaissance and Baroque music, sung and played on recorders and harpsichord by three University of Minnesota music department faculty members, will make up the "At Home With Music" program which will be televised at 9 p.m. Monday (Nov. 26) by KTCA-TV, Channel 2.

The three musicians, Mr. and Mrs. Alfred T. Loeffler and Arnold Caswell, who customarily perform on the viola, piano and clarinet, respectively, will play the 15th and 16th century music by accompanying their songs on recorders of varying size and pitch and on the harpsichord. Loeffler, a graduate student, is an instructor in the music department; Mrs. Loeffler is a teaching assistant to Johannes Riedel, professor of musicology; and Caswell is an associate professor of music education at the University.

In the Renaissance, according to Loeffler, recorders, as most other instruments, existed in "families"---from the large, low pitched to small, very high pitched instruments. Michael Praetorius in his "Syntagma Musicum", a compendium of the musical knowledge and practices of the times, lists 9 sizes of recorders. Five will be used on this "At Home With Music" program.

In the Baroque era, the treble recorder was used primarily, according to Loeffler. Many of Bach's so-called "flute" parts, for example, were intended for the treble recorder. After the Baroque era, these instruments fell into general disuse until a resurgence of interest in this century.

This week's program will be:

A two-part piece for two recorders composed by Orlando di Lasso, Flemish 16th century composer who travelled throughout Europe and spent the major part of his career at the court of Munich.

"Two Chansons"---Jacob Arcadeldt, a Flemish composer of the 16th century who spent much of his career in the services of noble families in Italy and France.

Some 15th century music by Glogauer Liederbuck---a 15th century manuscript, found in the town of Glogau, containing both religious and secular compositions in Latin and the vernacular as well as some instrumental pieces.

Some pieces by internationally famous composers---Ockeghem, and Tinctoris, some by obscure composers, and some by anonymous composers, according to Loeffler.

The group also will perform two love songs of the English madrigal type composed by Weelkes and Willbye.

STUDENTS SERVE
IN PEACE CORPS

(FOR IMMEDIATE RELEASE)

Of the 92 Minnesotans who are serving the United States Peace Corps overseas as volunteers, 52 are former University of Minnesota students, according to official Peace Corps figures released by Luther J. Pickrel, associate professor and director of the University's Peace Corps projects.

In addition, the Peace Corps rosters as of September 30 show five additional former University students currently in training and assigned to overseas projects.

Of these 57 University of Minnesota representatives assigned to Peace Corps service in 24 countries, 28 have earned University degrees.

'U' SOCIAL SCIENCE
FACULTY TO BEGIN
WEST BANK MOVE

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM. BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 21, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- Approximately 170 University of Minnesota faculty members Tuesday (Nov. 27) will begin the move across the Mississippi river into the new social sciences faculty office tower on the west bank of the river.

The transfer of personnel and equipment of 9 social sciences departments now on the east side of the river is scheduled over a three-week period, according to Lyle F. Griggs, inventory supervisor.

University workmen from the department of plant services will move equipment from the department of sociology and the Family Study Center into the new building on Tuesday and Wednesday (Nov. 27 and 28). Other departments will be moved during the following two weeks, Dec. 3-15.

All but one of the departments which will occupy the new building are now located in Ford Hall, at the southeast end of the Mall on the east side of the campus. The social sciences program in interdisciplinary programs is located in the Temporary North of Mines building.

Other units to be relocated will include the department of international relations and area studies; the Public Administration center; the school of social work; and the departments of history, geography and political science.

The social sciences tower is one of three new buildings on the west bank of the Minneapolis campus constructed under a \$6,579,000 appropriation from the 1959 Legislature. A four-story general purpose classroom building opened Sept. 24, the first day of fall quarter classes. A 12-story school of business administration tower is expected to be completed shortly after Jan. 1, according to Roy V. Lund, assistant vice president for business administration and director of plant services.

Interiors of only 11 of 14 stories in the social sciences building have been completed. Additional funds will be requested of the 1963 Legislature to finish the other three floors.

(MORE)

The building, which contains 196 rooms, represents a new concept in University architecture. Not only is it the tallest campus building outside of the Mayo hospital building, but it is the first all-office academic building.

Classrooms in which the social sciences faculty teach are located in the general purpose classroom building, which is connected by an overhead walkway to the faculty tower. Only exceptions are seminar rooms for small discussion-type classes. There are 16 meeting rooms and seminar classrooms in the social sciences tower.

Breakdown of other rooms in the building is as follows: individual faculty and administrative offices, 112; double size offices, 19; 23 offices to accommodate from four to six teaching and research assistants; nine offices for secretarial help; six for storage and supplies; and 11 special rooms for the mimeographing shop, study rooms, map library, international relations and area studies library, lounge, sick room, large meeting room and sociology laboratory and observation room.

There are approximately 18 rooms on a floor, in a court arrangement, with the elevator shaft in the middle of the building.

The move of the social sciences out of their present home in Ford hall will set up a "chain reaction" of other department moves to fill the vacated space and ease crowded conditions in other buildings.

The mathematics department in the college of science, literature and the arts will move into Ford hall from Folwell hall. The statistics department and the Center for the Philosophy of Science will move from Johnston hall, and the philosophy department from Westbrook hall. Remaining departments in Folwell hall---classics, languages and speech and theater arts---will be able to expand faculty office room. One division of general college will move from Nicholson hall into Folwell hall.

Griggs said a schedule for the moves into Ford hall has not been worked out, but it is expected they will begin shortly after the first offices are vacated by the relocation to the west campus area. Final moving is not expected to be completed until spring.

GREEK ARCHITECT
TO SPEAK AT 'U'
WEDNESDAY NIGHT

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM. BLDG.)

(FOR RELEASE SUNDAY, NOV. 25, 1962)

C. A. Doxiadis, Greek architect who designed Philadelphia's 10-year urban redevelopment program, will give a free public lecture on "A New Outlook for Our Cities" at 8:15 p. m. Wednesday (Nov. 28) at the University of Minnesota.

He will speak in Northrop Memorial auditorium.

The lecture will climax a two-day visit to the Twin Cities by Doxiadis, who will meet with directors of five local planning groups Tuesday (Nov. 27) morning in Minneapolis City Hall to discuss local planning problems.

The group will include Lawrence M. Irvin, planning director of the Minneapolis Planning commission; C. David Loeks, director of the Twin Cities Metropolitan Planning commission; Herbert C. Wieland, director of city planning for the St. Paul Planning commission; Robert T. Jorvig, executive director of the Minneapolis Housing and Redevelopment Authority; and William R. Carter, Jr., executive director of the St. Paul Housing and Redevelopment Authority.

Doxiadis, former deputy administrator of reconstruction and coordination for Greece, will meet with University faculty and students of the school of architecture Tuesday and Wednesday afternoons to give a critique of a student project in civic design on the University community.

Doxiadis is president of Doxiadis Associates, Inc., a firm of architects and planners in Athens, Greece. The firm recently founded the independent Athens Technological institute. Doxiadis is a professor on the institute faculty.

Doxiadis Associates maintains offices in Washington, D. C. and Philadelphia, as well as in Greece.

The lecture at the University will be sponsored by the University school of architecture and the department of concerts and lectures through a grant from the Minneapolis Star and Tribune.

-UNS-

(NOTE TO EDITOR: Professor Doxiadis is scheduled to arrive at the airport at 8:25 p. m. Monday, Nov. 26, via Northwest Airlines Flight 235. He will stay at the Curtis Hotel.)

U* FOOTBALL AWARDS
CONVOCATION
SET WEDNESDAY

(FOR IMMEDIATE RELEASE)

The torch of leadership will be passed to the captain of the 1963 University of Minnesota football team at the annual Football Awards convocation Wednesday (Nov. 28).

The student assembly, open to the public, will begin at 11:30 a. m. in Coffman Memorial Union main ballroom.

Master of ceremonies for the program, sponsored by the Minnesota Student association (MSA) and the department of concerts and lectures, will be Norman Uphoff, MSA president.

Ike Armstrong, University athletic director, and Murray Warmath, head football coach, will comment on the just-completed football season. They also will give a farewell tribute to the seniors on the 1962 team.

Alfred L. Vaughan, associate dean of the University's general college and chairman of the faculty Senate committee on intercollegiate athletics, will confer awards on the team members. Rooter King Mike Stein, junior in the college of science, literature and the arts, from Lakeville, will present the Rooter King award.

Joseph A. Maun, Minnesota Alumni association president, will present "An Alumnus' Viewpoint on Intercollegiate Athletics". The program will be concluded with the passing of the torch to the 1963 captain by Richard Enga, 1962 captain.

HARVARD PSYCHOLOGIST WILL SPEAK AT 'U'
THURSDAY ON STATUS OF BEHAVIORISM

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 26, 1962

(FOR IMMEDIATE RELEASE)

"The Current Status of 'Behaviorism'" will be discussed by B. F. Skinner, Edgar Pierce professor of psychology at Harvard university, at 8:30 p.m. Thursday (Nov. 29) at the University of Minnesota.

The talk, current presentation in the series of annual Richard M. Elliott lectures sponsored by Psi Chi, honorary psychology society, and the department of concerts and lectures, will be given at 8:30 p.m. in Mayo Memorial auditorium. It will be open to the public.

Professor Skinner's lecture will be the first special lecture sponsored by the University's newly organized Center for the Study of Programmed Learning. The Center was established this fall under a three-year grant from the Louis M. and Maud Hill Family Foundation, St. Paul.

A native of Pennsylvania, Professor Skinner was graduated from Hamilton college in 1926 and received the master of arts and doctor of philosophy degrees from Harvard university in 1930 and 1931. He was National Research Council fellow in 1931-33, and Junior Fellow in the Society of Fellows, Harvard, 1933-36. He came to the University of Minnesota as an instructor in the psychology department in 1936, leaving as an associate professor in 1945. During the years 1943-44, he conducted war research sponsored by General Mills, Inc., and served as a Guggenheim Fellow in 1944-45. In 1945, he became chairman of the Indiana university department of psychology. He was appointed William James lecturer at Harvard university in 1947, and joined the Harvard psychology staff in 1948. He was appointed Edger Pierce professor of psychology in 1958.

Professor Skinner's major field of interest is in the experimental analysis of behavior. His techniques for the study of "operant" behavior, in which probability or rate of response is emphasized, are widely used---both in pure research and in industry. His work in industry is in the study of the effects of drugs on behavior. He has worked mainly with rats and pigeons, but recently h as extended his techniques to humans in the study of psychotic behavior, in the analysis of verbal behavior and in the design of instructional devices.

A member of the National Academy of Sciences, the American Philosophical society the American Academy of Arts and Sciences and other professional societies, Professor Skinner received the Warren Medal of the Society of Experimental Psychology in 1942 and the Distinguished Scientific Contribution award of the American Psychological association in 1958. He is the author of many professional articles and books.

'U' FRENCH CLUB
TO SHOW FRENCH
FILM WEDNESDAY

(FOR IMMEDIATE RELEASE)

"The Scandals of Clochmerle", a ribald and satiric film of manners and morals in the little French town of Clochmere, will be presented by the University of Minnesota French club Wednesday (Nov. 28).

The film will be shown at 3:30 p. m. in Murphy hall auditorium and at 6:30 p. m. in the Minnesota Museum of Natural History auditorium on the Minneapolis campus.

Included with the English-subtitled feature film on the program will be two short films made by Jean-Luc Godard, director of the film "Breathless". Godard's "Charlotte et Son Jules", starring Jean-Paul Belmondo and Ann Colette, and his "All the Boys Are Called Patrick", with Jean-Claude Brialy and Nicole Berger, are in French without subtitles but are accompanied by English synopses.

Admission for students is 75 cents; non-students, \$1.

The 50-member University of Minnesota Symphony orchestra will present its annual fall concert at 8:30 p. m. Tuesday (Dec. 4), in Northrop Memorial auditorium.

The orchestra, composed principally of University music department students and augmented by instrumentation by Minneapolis Civic Orchestra members, will be conducted by Anthony Gilombardo, music department instructor.

The program, open free to the public, will be:

Overture to "Egmont".....Ludwig van Beethoven

Concerto for Clarinet and Orchestra in A major.... Wolfgang Mozart
Allegro
Adagio
Rondo-Allegro

Carlo Minnetti, Soloist

Fourth Symphony (Italian).....Felix Mendelssohn

Carlo Minnetti, a native of Minnesota, is a former student of Walter Thalín, for many years principal clarinetist with the Minneapolis Symphony orchestra. He also has studied with Ulysses Delecluse, professor of clarinet at the Conservatoire National Supérieur de Musique, Paris. While in France, Minnetti appeared as soloist with orchestras, chamber music groups and in solo recitals. After receiving the Diplôme de Scolarité from the Paris Conservatory in June 1961, he returned to the United States. He now is attending the University of Minnesota.

At 'U' FRIDAY---
STUDENTS TO HOLD
ANNUAL CRAFTS
SALE IN UNION

(FOR IMMEDIATE RELEASE)

"Everything from soup (bowls) to nuts (nut crackers) will be included in the annual sale of work done by University of Minnesota students in the Art Crafts Studio sale at Coffman Memorial Union from 9 a.m. to 9 p.m. Friday (Nov. 30), according to Louise L. Moberly, Union student personnel worker.

"As many of our choicer items were sold out before noon last year," Mrs. Moberly said, "we have asked the students to plan to display many more of such popular items as their paintings---in all mediums---ceramics, hat and bag combinations, neckties and wood carvings. Toys, leather craft and Christmas decorations and cards also were big sellers, and we hope to have enough to last through the full sales day".

Prices for the student-made objects vary from 25 cents to hundreds of dollars, with the majority of the items in the one to ten dollar range. The sale is open to the public.

-UNS-

NOTE TO EDITOR: This sale will be open to cameramen at 9 a.m., in time, we hope, for evening paper and noon and evening television, to stimulate attendance.

'U' TV MUSIC
SHOW TO FEATURE
FREED MONDAY

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BIDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 26, 1962

(FOR MUSIC PAGE OR COLUMN)

Pianist Paul W. Freed, piano instructor in the University of Minnesota's music department, will be the featured artist on the next "At Home With Music" program, which will be televised at 9 p.m. Monday (Dec. 3) by KTCA-TV, Channel 2.

The program, presented weekly during the school year by the University music department, features music faculty members and students.

Monday's program, according to Freed, will consist of two works essentially tragic in spirit---Mozart's Sonata in A minor and Chopin's Ballade in C minor, opus 23.

Of the Mozart Sonata, Alfred Einstein, in his book, "Mozart, His Character, His Work", wrote: "Composed in 1778 in Paris. Shortly before its writing, Mozart's mother had died in his arms. His Paris sojourn, which had promised so much professionally, had been a disappointment, if not a failure...all in all, probably the first really dark period in his life".

Of the G minor Ballade, Freed reported; "Published in 1836, it is the earliest of the four Ballades composed by Chopin. The almost symmetrical recurrence of the several ideas is typical of narrative music. The tone is obviously tragic, and the piece ends with a thunderous coda giving a tragic close to the whole tale".

The liturgical drama originally scheduled for broadcast Monday has been rescheduled for production on Dec. 31.

Pianist Daniel Chorzema will appear on the "At Home With Music" program Dec. 10.

FEDERAL SUPPORT
OF ARTS THEATER
CONVENTION THEME

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
NOVEMBER 27, 1962

(FOR IMMEDIATE RELEASE)

"Federal Support of the Arts" will be the overall theme discussed at the three-day North Central Theater association (NCTA) convention at the University of Minnesota beginning Friday (Nov. 30).

Approximately 200 delegates from high school, college and university theaters and community theater groups from six states---North and South Dakota, Wisconsin, Iowa, Nebraska and Minnesota---will attend the NCTA convention sessions centering around University theater activities on the Minneapolis campus. The NCTA is a regional unit of the American Educational Theater association.

Keynoting the convention will be Allan McNab, recently appointed member of the Fine Arts Gift committee of the National Cultural Center, Washington, D. C., and staff member of the Art Institute of Chicago and the Goodman Memorial theater. McNab will speak on "Federal Participation in Support of the Arts" at 11:30 a.m. Friday in Murphy hall auditorium.

Other speakers on the subject of federal subsidies of the arts will be: Keith Michael, St. Cloud State college; Reidar Dittman, St. Olaf college; and Mrs. Elizabeth Cless, assistant to the dean of the University's extension division. Final summation will be given by Kenneth L. Graham, professor of speech and theater arts at the University, and Ralph Burgard, director of the St. Paul Council of Arts and Sciences.

Oliver Rea, business manager of the soon-to-be opened Guthrie Theater, Minneapolis, will address the convention at 2 p.m. Saturday in Scott hall auditorium.

Four special interest groups---high school, community, children's and college theaters---will meet Saturday morning on the campus. Workshop sessions in acting and makeup will be held Friday and Saturday, and a special new critical technique, "duologue criticism" will be introduced to interested groups. Scenes from plays currently in local "little" theater and educational theater production will be presented, criticised and reviewed during the convention program.

Final business of the convention will be discussion and planning for the annual national American Educational Theater association convention to be held at the University Aug. 26-28, 1963.

(FOR IMMEDIATE RELEASE)

If the new look of the Minneapolis and St. Paul skylines pleases you, or if your cigaret package is more convenient to open, or if your coffee spoon balances more easily in your hand, you may not know it, but you are profiting from such work in basic design as will be discussed in a national symposium to be held at the University of Minnesota school of architecture Dec. 6 and 7.

Five nationally known architects---George Nelson, New York city, and Professors Albert Szabo, Harvard university, James LaMantia, Tulane university, John Walley, University of Illinois, and Jesse Reichel, University of California---will conduct four panel discussions on "An Appraisal of Basic Design". Invitations to participate in the course have been sent to each of the 52 schools of architecture in the United States.

Examples of basic design created by the five panelists and by their students as well as many pieces of work by University of Minnesota faculty and students will be exhibited in Frederick Mann court of the University architecture building during the symposium. The exhibit, varying from tiny models of primitive houses to oils painted by Professor LaMantia, also a well-known professional artist, will be open to the public.

John S. Myers, associate professor of architecture at the University, moderator of the symposium, stated that the program has been arranged "to enrich the University of Minnesota architectural school's undergraduate curriculum and to extend the school's influence not only to the nearby community but also to the national scene". The special program is being financed by the Sperry and Hutchinson company's scholarship program.

Two basic problems of the architecture faculty---training beginning students of architectural design, and informing the community of the importance of good design in the all-over field of every object they use---will be discussed in these meetings, according to Professor Ralph E. Rapson, head of the school of architecture.

"These outstanding basic design teachers from various parts of the country will work with our staff and students in seminars, lectures, demonstrations and workshops and will contact the public in evening lectures. Our objective is to take a close look at basic design as a vital teaching device in architectural training."

COLUMBIA LAW
PROFESSOR 'U'
SPEAKER FRIDAY

(FOR IMMEDIATE RELEASE)

Alan F. Westin, associate professor of public law at Columbia university, New York, will speak at a University of Minnesota law school convocation at 11:30 a. m. Friday (Nov. 30).

The talk, in Room 101 Fraser hall, will be open to all University students and to the public.

Professor Westin, an expert on civil liberties and constitutional law, will speak on "Due Process in the Big Corporation: A Civil Liberties Frontier".

Presently serving as a member of the national board of directors of the American Civil Liberties Union and a member of the civil rights committee of the Anti-Defamation League, Westin is noted for his work in the area of surveillance and the invasion of privacy.

Professor Westin's present teaching assignment includes constitutional law, American politics, American foreign policy and civil liberties. Previously, he has taught at Yale, Harvard and Cornell universities, and has held lectureships at the Salzburg seminar and at Brandeis university.

He also is director of a study on surveillance and privacy in America being conducted for the Association of the Bar of New York city.

Saturday (Dec. 1), Professor Westin will address the Minnesota branch of the American Civil Liberties Union on the topic "Crisis of Privacy in America: How Close is 1984?" The talk will be part of the organization's annual meeting and dinner at 6:45 p. m. in the University's St. Paul campus Student Center.

Johns Hopkins Specialist at 'U'---
SEX-DETERMINING FACTOR
SUBJECT OF THURS. TALK

(FOR IMMEDIATE RELEASE)

"The X-Chromosome of Man"---the factor determining the sex of the unborn child---will be discussed by Dr. Victor A. McCusick, chief, division of medical genetics, Johns Hopkins hospital, Baltimore, Md., in a special University of Minnesota lecture at 3:30 p.m. Thursday (Dec. 6) in Room 74, Jackson hall. Dr. McCusick also is professor of medicine at Johns Hopkins university.

The lecture, open to the public, is jointly sponsored by the Minnesota State Health department, the University's Dight Institute of Human Genetics and department of concerts and lectures.

The importance of the X-chromosome in sex-determination is explained by Sheldon C. Reed, Dight Institute director and University professor of zoology, by the fact that man carries an "X" and a "Y" chromosome; woman carries two "X" chromosomes. Thus, the father carries the dominate chromosome, and always determines the sex of the child.

Some 200 different genes carried on the "X" chromosome are of particular interest, according to Professor Reed, for it is through these genes that such hereditary diseases or characteristics as color-blindness and haeomophilia (abnormally prolonged bleeding) are transmitted by the father but carried by the chromosomes of the mother.

BRITISH EXPERT
ON LAKES, OCEANS
TO LECTURE AT 'U'

A British expert on lakes and oceans, Clifford H. Mortimer, director of the Scottish Marine Biological association's Marine Station, Millport, Scotland, will deliver a Sigma Xi lecture Thursday (Dec. 6) at the University of Minnesota. The public lecture, illustrated with slides and a film, will begin at 8 p. m. in Murphy hall auditorium.

Currently in the United States as 1962- 63 Brittingham visiting professor at the University of Wisconsin, Mortimer specializes in research in physical oceanography and serves on a number of British national committees and councils including the Nature Conservancy and the Water Pollution Research board.

After completing his undergraduate training in zoology at the University of Manchester in 1932, Mortimer did postgraduate research at Kaiser Wilhelm Institut fuer Biologie in Berlin. In 1935, he went to the Freshwater Biological association of the English Lake District where, for six years, he investigated the chemistry and physics of lakes. From 1941 to 1946, he conducted studies on naval oceanography (particularly waves) for the British Naval Scientific Service. He returned in 1946 to the Freshwater Biological association, where he continued work in physical limnology, particularly internal waves, until he became director of the Marine Station in Scotland in 1956.

The local chapter of Sigma Xi, national honorary scientific society, sponsors several public lectures at the University each year.

CANADIAN SCIENTIST
TO DISCUSS RUSSIAN
PLANTS IN 'U' TALK

(FOR IMMEDIATE RELEASE)

Wild plants native to the Russian grasslands and the steppe regions of Southern Russia and the Ukraine will be discussed in a special lecture, "Some Impressions of Soviet Grassland Geobotany", Thursday (Dec. 6) at the University of Minnesota.

Professor Robert Thomas Coupland, ecologist from the University of Saskatchewan, Saskatoon, Canada, will speak at 4:30 p. m. in Room 100, Mayo Memorial auditorium. His talk, open to the public, will be sponsored by the University's department of botany and the department of concerts and lectures.

"Geobotany", according to Professor Gerald B. Ownbey, botany department head at the University, may be described as "plant geography---the distribution of different kinds of wild plants over the earth's surface".

Professor Coupland's lecture is based on a trip he made in 1961 as an exchange visitor from the National Research Committee of Canada to the Academy of Sciences of the U.S.S.R. Half of his time was spent at the Leningrad Botanical institute; the remainder, in the Ukraine and Southern Russia where he examined the steppes and grassland areas. The lecture will be illustrated with colored slides of plants in the areas.

DANIEL CHORZEMPA,
PIANIST, TO APPEAR
ON 'U' TV SHOW

(FOR MUSIC PAGE OR COLUMN)

Pianist Daniel Chorzempa, University of Minnesota music student, will be the featured artist on this week's "At Home With Music" television program at 9 p. m. Monday (Dec. 10) on KTCA-TV, Channel 2.

The program, a weekly feature of the University of Minnesota music department, features student and faculty work.

Chorzempa, a senior in the University's college of science, literature and the arts, has studied the piano with Bernhard D. Weiser, associate professor of music, and the organ with Heinrich R. Fleischer, University organist. He won the Schubert Club of St. Paul scholarship, junior piano division, in 1960, and the senior piano and organ division scholarship from the same organization in 1962. Currently, Chorzempa is assistant instructor of organ at the University and organist-junior choirmaster at St. John's Lutheran church, 49th and Nicollet, Minneapolis.

Chorzempa's piano program:

Toccata in E minor.....Bach
Berceuse.....Chopin
Gnomenreigen.....Liszt
Passacaglia.....Foss
Sonata No. 3.....Prokofieff

Soprano Marcella Oja of the University music department faculty will be the featured guest on the "At Home With Music" program December 17.

DETERGENT CONTROL IN WASTE WATER
TREATMENT 'U' CONFERENCE TOPIC

(FOR IMMEDIATE RELEASE)

Minneapolis --- Control of detergents in waste water treatment will be one of several topics considered by sanitation engineers Friday and Saturday (Dec. 7-8) at a University of Minnesota conference in wastes engineering.

The conference will be conducted in the Center for Continuation Study on the Minneapolis campus.

Speakers will include businessmen, engineers and educators from eight states, including Minnesota.

The effects of detergents in sanitation systems will be discussed from the engineer's viewpoint by Frank W. Middleton of the Robert Taft Sanitary Engineering center in Cincinnati, Ohio, and from the industry's viewpoint by C. G. Buelzman, associate technical director of the National Soap and Detergent association, also of Cincinnati.

Other topics to be discussed will include radiological contamination of surface waters, nutrient removal from plant effluents and application of mathematics and statistics in sanitary engineering.

The conference, ninth of its kind conducted by the University, will be sponsored by the Continuation center in cooperation with the University's sanitary engineering division in the department of civil engineering and the Minnesota state health department.

PARENTS TO DISCUSS STUDENT
RELIGIOUS ACTIVITIES AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Parents of University of Minnesota students will join with religious advisers from Jewish, Protestant and Catholic student foundations at the University in discussing "Religion on Today's University Campus" at the December meeting of the University of Minnesota Dads' association Tuesday, Dec. 11.

The 6:30 p. m. dinner and meeting will be held at the Episcopal Foundation at the University of Minnesota, 317 17th ave., S. E.

Student religious advisers taking part in the program, representatives of the 28 organized religious groups on the University campus, will be: the Reverend George G. Garrelts, director of the Catholic student center, Newman Foundation; Rabbi Louis Milgrom, director of the Jewish center, B'nai B'rith Hillel Foundation; the Reverend Harry N. Huxhold, director of Gamma Delta, University Synodical Conference Lutheran Student center; and Professor Henry E. Allen, coordinator of University Student Religious Activities.

Topics of discussion between the parents and the student advisers, according to Leonard F. Ramberg of Minneapolis, Dads' association president, will include programs available for student participation at the foundations, the University's religious policies, the possibility of academic courses in religion or theology and plans for an All Faiths building proposed for the new campus area on the west bank of the Mississippi.

Reservations for the \$2 dinner may be made through writing the Dads' association office, Room 200, Eddy hall, University of Minnesota, or by calling 373-4082.

FILMS ON MARSHES,
WETLANDS SLATED
AT 'U' SUNDAY

(FOR IMMEDIATE RELEASE)

Two color sound films on the use of marshes and wetlands will be shown at 3 p. m. Sunday (Dec. 9) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The program will be open free to the public.

One of the films, "Marshes---Waste or Wealth?", produced by the museum, will show how marshes and wetlands are rapidly disappearing as recreational areas and wildlife habitats.

Donald K. Lewis, visual education adviser at the museum, said the film will illustrate the way marshes have been converted into farms and home and industrial sites.

"Millions of acres of wetlands no longer are available for recreational uses or as habitats for various kinds of waterfowl and wildlife because of this conversion," Lewis said.

The other film, "Marshlands Are Not Wastelands", points out the positive values in the coastal marshes as well as in the midwestern wetlands.

Lewis will introduce the films, which will total about 50 minutes running time.

Next in the series of free Sunday programs at the museum will be a color sound film, "Aqua Folly", to be shown on Dec. 16.

NEW UNIVERSITY OF MINNESOTA FOUNDATION
FORMED: BOARD OF 21 TRUSTEES ORGANIZES

(FOR RELEASE SUNDAY, DEC. 9, 1962)

Minneapolis --- Filing of articles of incorporation of the University of Minnesota Foundation and selection of its first board of trustees were announced Saturday (Dec. 8) by Henry C. Mackall, newly elected chairman of the board and one of the foundation incorporators.

The 21-member board of the new fund-raising organization includes 14 alumni and five University officials. The University representatives were appointed as trustees by the Board of Regents, as provided in the incorporation articles.

The foundation board held its first meeting Friday (Dec. 7), at which time Mackall was elected. Articles of incorporation for the foundation were filed in St. Paul Friday morning with the secretary of state.

Mackall, a Minneapolis attorney, is one of a group of several alumni who proposed establishment of the foundation more than a year ago.

The foundation has been organized to seek major gifts from alumni and friends of the University for projects for which tax funds are not available, according to Mackall.

The first trustees, apart from those selected by the Regents, include alumni selected from all over the country, Mackall pointed out.

"They represent, to a large extent," he said, "the impact which the University of Minnesota, through its graduates, has had upon the economy, welfare and development of this whole nation. They are all interested. They realize the University of Minnesota, even though a State-supported institution, can only progress in keeping with modern educational demands provided it has the support of those interested in the development of research and scholarship in the many fields of education.

(MORE)

"They also realize that student aids --- scholarships, fellowships and loan funds --- are essential for those who do not have the means but do have the capacity which can be developed for the benefit of society and the advancement of learning in all its branches.

"Many universities and colleges throughout the country already have established foundations such as this one --- all to their great individual advancement and improvement, and it is not only hoped but believed by those interested that the University of Minnesota Foundation will find the same response and that over the years its organization, activity and appeal will become more and more certain and justified."

Proposed establishment of the foundation was announced at a July 12 meeting at the University Board of Regents in connection with an overall reorganization of the University's fund-raising activities adopted by the Regents. This reorganization included dissolution of the Greater University Fund, which in 15 years of operation raised almost four million dollars, and assignment of its projects to the new Minnesota Alumni Fund and to the department of University relations.

Filing of articles of incorporation of the foundation awaited selection of the trustees.

In addition to Mackall, officers of the foundation board of trustees are: Carlyle E. Anderson, president of Wyckoff-Anderson, Inc., Evanston, Ill., president; George A. Russell, executive vice president of General Motors corporation, Detroit, Mich., senior vice president;

Harold W. Sweatt, chairman of the finance committee and past board chairman of Minneapolis-Honeywell Regulator company, vice president; Arthur H. Motley, president of Parade Publications, Inc., and publisher of Parade magazine, New York; vice president; John S. Pillsbury, Jr., president of Northwestern National Life Insurance company, Minneapolis, treasurer; and Jay Phillips, president of Ed Phillips and Sons company, Minneapolis, secretary.

(MORE)

Four of the officers are among the eight foundation incorporators. They are Anderson, Mackall, Pillsbury and Sweatt. The other incorporators, all of whom are members of the board of trustees, also, are Lester A. Malkerson, Minneapolis, president of Malkerson Motors and a University Regent; Lloyd A. Hatch, St. Paul, vice president, long range planning, Minnesota Mining and Manufacturing company; John K. Fesler, St. Paul, president of Lampert Yards, Inc.; and University President O. Meredith Wilson.

Fourteen of the trustees are alumni and five members were appointed by the University Board of Regents, in compliance with the articles of incorporation. All but eight are from the Twin Cities. Ten have received the University's Outstanding Achievement Award.

The five Regents' appointees are: Dr. Charles W. Mayo, four-year term, Rochester, chairman of the Board of Regents, Mayo clinic surgeon and a professor in the University's Mayo Foundation for Medical Education and Research; Regent Malkerson, one-year term; University President Wilson, three-year term; Laurence R. Lunden, University vice president for business administration and secretary of the Board of Regents, two-year term; and Stanley J. Wenberg, University vice president for educational relationships and development, one-year term.

Names of and biographical background on the other 16 trustees are as follows:

Anderson, president of the board of trustees, named to a four-year term, was graduated from the University in 1932 with a bachelor of business administration degree and ^{is} a 1959 recipient of the Outstanding Achievement Award. He has served as president of Monogram Glass company in Evanston and president of Monogram Glass company of Canada, Ltd., in addition to heading Wyckoff-Anderson, Inc., a commercial finance and investment firm. He is a director of the First National Bank and Trust company of Evanston.

(MORE)

Dr. William F. Braasch, four-year term, Rochester, University professor emeritus of urology at the Mayo Foundation for Medical Education and Research, who was an Achievement award recipient in 1951. Dr. Braasch was head of the urology section at Mayo clinic for 40 years until his retirement in 1947. He is a past president of the Minnesota Public Health association and served as a director of the University General Alumni association for 22 years and its president in 1928-30.

Fesler, two-year term, also serves as chairman of the board of directors and is a past president of Liberty State Bank, St. Paul. He received a bachelor of arts degree from the University in 1924 and the bachelor of laws degree in 1926. He practiced law in St. Paul for several years and served as assistant U. S. district attorney in 1927-28. He is past chairman of the Greater University Fund and received the Achievement award in 1954. Fesler lives at 2138 Lower St. Dennis road, St. Paul.

Mrs. Richard P. Gale, Mound, Minn., one-year term, a 1921 graduate of the University with a bachelor of arts degree. Mrs. Gale, whose husband owns a farm near Mound, received a master of arts degree from Radcliffe college in 1922. She has been active in Republican politics, serving as chairman of the Neighbors for Stassen in 1957. She also is a former member of the Mound school board and a past president of the Friends of the Institute.

Hatch, two-year term, was graduated from the University in 1923 with a bachelor of science in chemical engineering degree. He joined Minnesota Mining and Manufacturing company in 1923 as chief chemist, subsequently serving in various executive positions, and becoming a vice president in 1945. He served as a trustee of the Greater University Fund and was an Achievement award recipient in 1954. He lives at 1131 Scheffer ave., St. Paul.

(MORE)

Frederick R. Kappel, two-year term, chairman of the board of American Telephone and Telegraph company (AT&T), New York, a 1924 University graduate with a bachelor of electrical engineering degree. He began his career with Northwestern Bell Telephone company rising from a serviceman to a member of the board of directors. He joined AT&T in 1949 as assistant vice president, becoming president in 1956. He became board chairman in 1961. Kappel is a 1954 Achievement award winner.

Mackall, three-year term, is a member of the Minneapolis law firm of Mackall, Crouse, Moore, Helme and Holmes. He did his undergraduate work at the University and received the bachelor of laws degree from Harvard university in 1909. He has practiced law in Minneapolis since receiving his degree and is an officer of several local firms. He lives at 2221 Oliver ave. S., Minneapolis.

Motley, three-year term, was graduated from the University with a bachelor of arts degree in 1922 and received the Outstanding Achievement award in 1952. He was named one of "America's 12 Master Salesmen" and elected to the "Hall of Fame of Distribution" in 1954. He is past board chairman of the National Sales Executives.

Mrs. John G. Ordway, four-year term, 485 Summit avenue, St. Paul, wife of the chairman of the board of Crane and Ordway company. She is a past chairman of the Women's Association of the Minnesota Historical society and has been active in the Minneapolis Orchestral association. She is a member of the executive and membership committees of the University's Landscape Arboretum Development Fund.

Phillips, four-year term, has been president of Ed Phillips and Sons company, wholesale distributor, since 1933. He is a past president and member of the board of directors of the Minneapolis Chamber of Commerce. He is president of Mt. Sinai Hospital and vice president and a director of the Minnesota Society for Crippled Children and Adults. He lives at 4833 East Lake Harriet blvd., Minneapolis.

(MORE)

Pillsbury, one-year term, was graduated from the University in 1940 with a bachelor of laws degree. Before becoming president and a director of Northwestern National Life Insurance company in 1956, he practiced law in Minneapolis. He serves on the board of several local firms. His home is at Route 5, Wayzata, Minn.

Theodore H. Rowell, Sr., two-year term, chairman of the board and past president of Rowell Laboratories, Inc., Baudette, Minn. Rowell, who attended the University's college of pharmacy in 1925-27, founded the Burbot Liver Products company, a forerunner of Rowell Laboratories, in 1935. He served as the company's secretary-treasurer and as president for several years. He has been active in Baudette civic affairs, serving as the community's mayor from 1944 to 1950. Rowell was a 1960 recipient of the Outstanding Achievement Award.

Russell, one-year term, was graduated from the University in 1927 with a bachelor of science degree. Russell joined General Motors in 1927, holding various executive positions until his appointment as assistant treasurer in 1944. He was named finance manager of the corporation's overseas operations division in 1949 and in 1951 was elected treasurer. He was a 1955 recipient of the Achievement award.

Parker D. Sanders, three-year term, Redwood Falls, Minn., owner and manager of the Sanders Farms. A 1918 graduate of the University with a bachelor of science degree in agriculture, Sanders has been active in agricultural, civic and educational groups. He was a trustee of the Greater University Fund from 1948 to 1955, and a director of the College of Agriculture, Forestry and Home Economics Alumni association in 1959-61.

Sweatt, four-year term, who makes his home in Palm Beach, Fla., served as vice president and general manager and president of Honeywell from 1934-43, when he became board chairman. He now heads the company's finance committee. He was graduated from the University in 1913 with a bachelor of arts degree and received the Achievement award in 1952.

(MORE)

Edgar F. Zelle, three-year term, 2280 W. Lake of the Isles Blvd., Minneapolis, chairman of the board of Jefferson Transportation company and a director and member of the executive committee of the Soo Line Railroad. Zelle headed the Wisconsin Central Railway company, first as trustee and then as president, from 1945 until 1960, when it merged with the Soo Line. He is a member of the board of trustees of Farmers and Mechanics Savings bank and former board chairman and director of the First National Bank. A 1913 graduate of the University, he was a 1951 Achievement award winner.

All of the trustees, except Mrs. Ordway were named as trustees in the articles of incorporation. Mrs. Ordway was elected at the first meeting.

Executive committee of the board is made up of Mackall, chairman, Anderson, Wilson, Malkerson, Fesler, Pillsbury and Mrs. Gale.

Other committee memberships are as follows:

Distribution: Zelle, chairman, Hatch, Wenberg, Motley, Phillips, Kappel and Mayo.

Investment: Pillsbury, chairman, Russell, Sweatt, Lunden and Rowell.

Auditing: Fesler, chairman, Sanders and Braasch.

Development: Anderson, chairman, Motley, Kappel, Russell and Phillips.

DECEMBER 7, 1962

(FOR IMMEDIATE RELEASE)

Professor Reuben L. Hill, Jr., sociology professor and director of the Minnesota Family Study center at the University of Minnesota, has been honored by a tribute in a recent issue of the International Journal of Comparative Sociology.

The issue, a special on "The Family in its Social Setting", honors Professor Hill as "a distinguished sociologist who has spent his lifetime in family research and teaching".

The tribute to Professor Hill was contained in an introductory page in the publication.

The International Journal of Comparative Sociology is issued by the social anthropology department of Karnatak university in Dharwar, India. The special issue which honors Professor Hill contains articles written by sociologists from Sweden, England, Australia, Southern Rhodesia, Japan, India and the United States.

Another University of Minnesota faculty member, Murray A. Straus, professor of home economics, is co-author of an article on "Support and Power Structure in Sinhalese, Tamil and Burgher Student Families" which appears in the journal.

Professor Hill is the author of eight major books on family sociology, including "Families Under Stress", "The Family. A Dynamic Interpretation" and "Family and Population Control". During the 1961-62 academic year, he served as visiting professor at the Catholic university, Louvain, Belgium, teaching, conducting research and helping to organize family research projects.

The journal's tribute to Professor Hill concluded as a salute from "students and others interested in the family and its welfare from all countries of the world".

DECEMBER 10, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- Dean Julius M. Nolte, who will retire next June after 20 years as head of the University of Minnesota general extension division, will address some 865 candidates for degrees at University December commencement exercises Saturday (Dec. 15).

The commencement, which marks the end of the fall quarter, will be held at 8 p. m. in Northrop Memorial auditorium.

Dean Nolte has chosen a line from Shakespeare's "King Henry the Fourth, Part II" as the title of his address: "Under which king, Bezonian? speak, or die!"

University President O. Meredith Wilson will confer graduate and undergraduate degrees and certificates of completion for Reserve Officers Training Corps graduates. He also will speak briefly.

The invocation will be given by the Reverend Paul A. Colbert, director of the Newman Foundation on the St. Paul campus.

Dean Nolte has been associated with the University's general extension division since 1922, when he began teaching at the division's center in Duluth. A native of Duluth, he was associated with several business firms there after his graduation from Yale university in 1917. He came to the Twin Cities in 1934 and served on the staff of the University's Municipal Reference bureau while working toward a bachelor of laws degree, which he received in 1937. He became director of the Center for Continuation Study, another unit of the extension division, in 1937. He was named director of the general extension division in 1943 and was promoted to dean and professor in 1946.

Dean Nolte was on leave of absence from 1947 to 1949 while serving as director of the Minnesota Territorial Centennial.

Commencement exercises Saturday will be followed by a President's reception for graduates, their families and friends in Coffman Memorial Union main ballroom. Admission to the graduation ceremonies in Northrop auditorium will be by guest card only.

2 'U' FACULTY MEN
FEATURED ON WORLD
ANALYSIS SERIES

(FOR IMMEDIATE RELEASE)

Minneapolis --- Two University of Minnesota faculty members are featured on a new series of educational tape recordings, entitled "World Affairs Analysis", which is being distributed to schools throughout the nation.

They are Dean E. W. Ziebarth of the summer session, who also is a speech professor, and Professor Harold C. Deutsch, chairman of the history department.

Both men have had several years experience as world affairs analysts on radio and television.

The tape recordings which they prepared are being distributed by a Minneapolis firm.

Dean Ziebarth has had a career as a foreign correspondent and a news analyst, in addition to serving on the University faculty. He formerly was educational director of the central division of Columbia Broadcasting System and is co-author of several books. He has regular radio and television news analysis programs and is a joint winner of the 1960 Peabody Award for radio analysis of international affairs.

Professor Deutsch, also a television and radio analyst, is scheduled to serve as visiting professor at the University of Berlin next spring and summer. During World War II, he directed several government research activities on Germany and Europe and is the author of many books, including "America's Stake in Western Europe".

'AQUA FOLLY'
FILM TO BE SHOWN
AT 'U' SUNDAY

(FOR IMMEDIATE RELEASE)

"Aqua Folly", a color sound film depicting the story of water, will be shown at 3 p. m. Sunday (Dec. 16) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The film traces the story of water from its vital importance to all living things to the present-day need for control of water supplies. It shows man's wasteful habits in the use of water and illustrates what happens when water is not available. The film concludes with methods and techniques by which man can adopt wise and careful management and control of the earth's water supply.

In the beginning of the film, the physical characteristics of water and its movement in and around the earth are illustrated.

This week's program at the museum will be the last free, Sunday program until Jan. 6, when Professor Dwain W. Warner, museum curator of birds, will report on "Modern Instrumentation in Wildlife Studies".

PLAQUE CITING
DEAN'S SERVICES

(FOR IMMEDIATE RELEASE)

The University of Minnesota will be given a plaque Friday (Dec. 14) citing the achievements of E. G. Williamson, dean of students, for leadership in the field of guidance.

The plaque will be presented to the Board of Regents Friday morning by Arthur A. Hitchcock, Washington, D. C., executive director of the American Personnel and Guidance association.

Last April, Dean Williamson received the Nancy C. Wimmer award for leadership in developing counseling programs from the association at its annual convention in Chicago. The award consisted of a \$1,000 check to the recipient and a plaque to the institution he represents.

'U' WILL WELCOME
260 H S DEBATERS
FROM 65 SCHOOLS

(FOR IMMEDIATE RELEASE)

Two hundred and sixty high school debaters from Minnesota, Wisconsin and North and South Dakota will take part in the second annual University of Minnesota High School Debate Tournament Friday and Saturday (Dec. 14-15) at the University.

The tournament, in which 65 high school teams will participate this year, is sponsored by the University department of speech.

The Worthington high school team, winner of last year's tourney, will seek its second straight title, according to Robert L. Scott, associate professor of speech and theater arts at the University, tourney coordinator.

Professor Donald Sikkink, speech department chairman at South Dakota State college, Brookings, will speak at the tournament's annual awards luncheon at 12:30 p.m. Saturday (Dec. 15) in Coffman Memorial Union main ballroom.

Two University freshmen, Barbara Berg, West St. Paul, and James Chesebro, Osseo, are co-chairmen of the University's student committee on arrangements for the annual affair. Both students debated in last year's tourney. Donald F. Parson, University speech department instructor, is in charge of the tournament.

DRIVER EDUCATION
GOALS TO BE DRAFTED
AT 'U' INSTITUTE

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 14, 1962

(FOR IMMEDIATE RELEASE)

Minneapolis --- Minnesota educators will attempt to draw up some guidelines for future driver education at a University of Minnesota Institute on Driver Education Dec. 27-29.

The institute, third annual one of its kind conducted at the University Center for Continuation Study, is designed to develop minimum goals which should be achieved in classroom and behind-the-wheel instruction in the schools.

R. K. Humphrey, Continuation center program director, said the institute is expected to produce written recommendations for shaping driver education curriculum in the state's schools.

The institute will be conducted in cooperation with the Minnesota state education department and the Minnesota Driver Education association.

"Driver education now varies widely in the state," Humphrey said. "This institute will attempt to set some uniform goals for instruction---to answer such questions as whether or not we are trying to make roadside mechanics out of future drivers, whether we should try to influence their attitudes and what methods we should use in classroom and practical instruction."

William A. Mann, Michigan State university education professor and a national leader in research on driver education, will open the institute at 9 a.m. Thursday, Dec. 27. He will discuss "Essential Objectives of Driver Education".

Other guest speaker for the institute will be Charles H. Hartman, associate professor of safety education at Illinois Normal State university and currently visiting lecturer at the University of Wisconsin. He will speak immediately after Mann on the topic "The Essential Content of Driver Education Instruction".

Institute participants will meet in workshop sessions after these two talks to discuss and draft findings on these three questions: What results do we want from driver education instruction, what must the student learn to achieve these results and what information and instruction must be given the student to achieve essential learning.

The institute is open to classroom instructors, behind-the-wheel driver trainers, College driver instruction trainers and school administrators.

DULUTH CENTRAL
WINS DEBATE
CHAMPIONSHIP AT 'D.

(FOR IMMEDIATE RELEASE)

Minneapolis --- High school debaters from Duluth Central won championship honors in the second annual University of Minnesota High School Debate Tournament Friday and Saturday (Dec. 14 and 15) at the University.

Two hundred and sixty high school debaters from 65 schools in Minnesota, Wisconsin and North and South Dakota participated in the event, sponsored by the University department of speech and theater arts.

Other winners in the championship division, formed by taking the five top winning teams from the Friday debates and scheduling them against each other on Saturday, were Bloomington, second; Duluth Denfeld, third; St. Anthony Village, fourth; and Hibbing, fifth.

Teams from the other sixty schools formed the "varsity" division, according to Robert L. Scott, associate professor of speech and theater arts and tourney coordinator. Winning teams in this division were Washburn, first; Mankato, second; and Menomonie, Wis., third.

Ten students scored highest for individual work, regardless of team placings, were: Sarah Paulu, Washburn, Minneapolis; Carol Dyrud, Steven Kohn and Paavo Pyykkonen, all of Duluth Central; Keith Nier and Joann Sheldon, Alexander Ramsey; Kathy Wallace, Minnehaha Academy; Rob Johnson, Hopkins; Ron Aucutt, Bloomington; and Scott Kenper, Hibbing.

MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 17, 1962

(FOR P. M. RELEASE, TUESDAY, DEC. 18, 1962)

Minneapolis --- A plaque identifying a 1,884-pound native copper nugget which stands beside the entrance to the School of Mines and Metallurgy building at the University of Minnesota was dedicated Tuesday (Dec. 18) afternoon by faculty and alumni.

The nugget, one of the largest of its kind ever uncovered, was found in 1921 in the Sagamore iron mine near Riverton, Minn., on the Cuyuna range. It was given to the University by the late John A. Savage, president of John A. Savage & Co., the firm which operated the mine. The chunk of metal was found in glacial drift during mining operations. Geologists determined the nugget had been carried by glaciers from northern Michigan many thousands of years ago.

Since the nugget was acquired by the University, it has been unmarked. It was kept in Appelby hall, former home of the school of mines and metallurgy, until it was moved three years ago to the new School of Mines and Metallurgy building at the corner of 17th ave., S. E., and Washington ave. The nugget now is mounted on a granite base outside the building. The bronze plaque which identifies the nugget was installed Tuesday on the base.

A dedication luncheon in the Campus Club of Coffman Memorial Union preceded unveiling of the plaque at 1:15 p.m. The luncheon was attended by representatives of the School of Mines and Metallurgy Alumni association, faculty and student representatives of the school and officials of the University administration. Algot F. Johnson, chairman of the board of Al Johnson Construction company, Minneapolis, a 1901 graduate of the University and a director of the Minnesota Alumni association, unveiled the plaque.

A Christmas season sacred cantata, Respighi's "Laud to the Nativity" will highlight this week's special "At Home With Music" program televised from 9 to 10 p. m. Monday (Dec. 24) by the University of Minnesota music department over KTCA-TV, Channel 2.

The University Chamber Singers, directed by Donald B. Aird, assistant professor of music, will be featured on the program, a weekly television presentation of the University music department.

Program notes for the special holiday season program list "Laud to the Nativity" as a sacred cantata with three singing characters---the angel, the shepherd and Mary---all of whom tell of the wonder of the Nativity and their joy in it. Soloists will be Judith Green, 5125 Russel ave. S., Minneapolis, a senior in the college of education; Patricia Elfstrand, 3820 41st ave., S., Minneapolis, a sophomore in education; and Ronald Opel, 910 County Road "B", West St. Paul, a junior in the college of science, literature and the arts. Accompanist for the cantata will be Philip Brunelle, 3648 44th ave., S., Minneapolis, an arts college sophomore.

Brahms' "Zigeunerlieder", Op. 103 (Gypsy Songs), is one of the composer's most popular works, according to Professor Aird. It was composed in 1887 when Brahms was so delighted with the words of some folk song settings selected by a friend, Hugo Conrat, that he wrote fresh music for the words. Ronald Opel will be the soloist in this number, accompanied by Philip Brunelle.

Louise Talma's work, "Let's Touch the Sky", with text by e.e.cummings will conclude the special hour's program. Miss Talma's composition is scored for flute, oboe, bassoon and a chamber chorus.

Pianist Paul W. Freed, music department instructor, will be the soloist and guest artist on the "At Home With Music" program December 31.

FOUR RELIGIONS
TO BE DISCUSSED
ON CH.2 DEC. 26

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
PHONE: 373-2137
DECEMBER 18, 1962

Minneapolis---- Essential beliefs of four religions----Buddhism, Sikhism, Islam and Hinduism---- will be discussed by four University of Minnesota foreign students on a special one-hour telecast, "Religions of the World", from 9 to 10 p.m. Wednesday, Dec. 26, on Channel 2, KTCA-TV.

The University of Minnesota's Religions of the World panels, sponsored by the Minnesota Student association, (MSA), have been organized to show the basic beliefs of many world religions as represented and expressed by some of the 1,300 foreign students from more than 80 countries attending the University, according to Richard Harmon, International Affairs commission chairman of the MSA. Other religions represented by panel members include Jainism, Taoism and Zoroastrianism.

Of the panels, Josef A.Mestenhauser, assistant director of the University's office of the adviser to foreign students, commented,"The student panel members are not expert theologians. They merely are students who desire to make a contribution to better relations and understanding among other peoples and, in this way, give of their time, intellect and desire to participate in the gigantic venture of cross-cultural education".

Robert F.Spencer, professor of anthropology at the University, will moderate the panel. The four graduate students at the University making up this panel are:

Buddhism--- Michio Shimizu, Japan---- a graduate student in histochemistry, came to the United States in 1958. He currently is working as a research assistant in the University's department of pathology, has lectured extensively on both Mahayana and Historic Buddhism, and is an active member of the University Buddhist association and the International Student council.

Sikhism--- Jogindar Uppal from India is a graduate student in the field of economics. A graduate of Punjab university where he received the master of arts degree,Uppal has received the master of arts degree in economics here and now is

MORE

World Religions-----

finishing work for the doctor of philosophy degree at the University. An organizer of the Sikh Study circle at the University, Uppal also is active in the Indo-American club and the International Student council.

Islam---Mahmoud Taher, a graduate student in entomology from the United Arab Republic, is employed by the department of medicine as a research assistant while working for the doctor of philosophy degree. He is active in the Arab-American club and the Islamic Cultural society and has lectured extensively on Islam. When the Organization of Arab Students in the United States held its annual convention at the University in 1961, Taher headed the convention arrangements committee.

Hinduism--- Ram Krishna Gupta, graduate student from India working in the field of educational psychology, came to the U.S. in 1960. He has served as acting registrar of Vikram university in India and taught mathematics and science at Gorakhpur university on the border of Nepal. He received a Smith-Mundt scholarship and a Fulbright travel grant, and currently is working toward his doctor of philosophy degree in the University's college of education. Gupta was active in organizing the University's Hindu association, the only organized Hindu religious group in the world, and is a leading exponent of Hinduism in the area.

"U" RECEIVES \$2,450
GRANT FROM
NURSING FUND

UNIVERSITY OF MINNESOTA
NEWS SERVICE
214 MORRILL HALL (ADM.BLDG.)
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 18, 1962

(FOR IMMEDIATE RELEASE)

The University of Minnesota, as one of the nation's 33 colleges and universities having accredited graduate nurse programs, will share in a \$100,000 grant from the National Fund for Graduate Nursing Education.

The University's award, \$2,244.21, was reported Tuesday (Dec. 18) by Miss Edna L. Fritz, director of the University's school of nursing. Apportioning of funds by the national organization was determined by the formula of 40 per cent assigned equally, and 60 per cent assigned according to the 1962-63 enrollment. Disbursements by the new national organization total \$250,000 since November 1961.

In announcing the grant to the qualified institutions, George F. Smith, fund president, reported enrollments in graduate nurse programs across the nation have increased more than 20 per cent in the two years since the fund's founding.

"Increased enrollments on the graduate level will mean more vitally needed teachers for our nursing schools," Smith said. "Last year alone, more than 1,400 budgeted positions could not be filled. This situation is particularly serious when we are facing a nationwide nurse shortage with vacancies in our country's hospitals jumping from 11 to more than 20 per cent between 1958 and 1961.

"Our goal has been to encourage graduate programs by every available means, through these and future grants, to provide the necessary faculty and qualified supervisors. By increasing this supply, we can assure optimum patient care in our hospitals."

HUMPHREY TO GIVE
HILLMAN LECTURE
AT U OF M JAN. 3

UNIVERSITY OF MINNESOTA
NEWS SERVICE ---214 MORRILL HALL
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 19, 1962

(FOR RELEASE P. M. THURSDAY, DEC. 20)

Minneapolis --- United States Senator Hubert H. Humphrey will deliver the 1962-63 Sidney Hillman lecture at the University of Minnesota Thursday, Jan. 3, in observance of the 100th anniversary of the Emancipation Proclamation.

The Emancipation Proclamation, which freed approximately 3,120,000 slaves in the southern states, was signed by President Abraham Lincoln on Jan. 1, 1863.

Senator Humphrey's topic will be "Alliance for Progress: A First-Hand Report", based in part on his current fact-finding trip to Central America. The lecture, open free to the public, will be given at 8 p. m. in Northrop Memorial auditorium.

The Sidney Hillman lectures are made possible by a gift from the Sidney Hillman Foundation, established in honor of the late founder and first president of the Amalgamated Clothing Workers of America, AFL-CIO, who was a pioneer in developing economic and social benefits for labor.

Through terms of the gift, the University invites guest lecturers who are leaders in the fields of interest to Mr. Hillman. Senator Humphrey will give the seventh lecture in the series. Previous speakers have been William O. Douglas, associate justice of the United States Supreme Court; the late Mrs. Franklin D. Roosevelt; Carl T. Rowan, author, newspaperman and currently deputy assistant secretary of state for public affairs and a member of the United States mission to the United Nations; Thurgood Marshall, special counsel for the National Association for the Advancement of Colored People; Morris Milgram, Philadelphia contractor who was a pioneer in open occupancy housing developments; and Gunnar Myrdal, Swedish economist.

The last lecture was delivered in November 1958.

Senator Humphrey, who was graduated magna cum laude from the University of Minnesota in 1939 with a bachelor of arts degree, was first elected to the United States Senate from Minnesota in 1948.

(MORE)

HUMPHREY

-2-

He served on the University's political science faculty in 1940-41 and taught at Macalester college and the University of Louisiana. He was a member of the Works Progress Administration staff and assistant regional director of the War Manpower commission. He served as mayor of Minneapolis from 1945 to 1948.

Senator Humphrey received the University of Minnesota Outstanding Achievement Award in 1959, and was the recipient of the first Congressional Distinguished Service Award given by the American Political Science association. He was active in fusing the Democratic and Farmer Labor parties in Minnesota. In Congress he has been a leader in working for civil rights legislation and is one of the originators and early supporters of the Peace Corps.

LUNDEN PRESENTS
UNIVERSITY'S '62
FINANCIAL REPORT

UNIVERSITY OF MINNESOTA
NEWS SERVICE---214 MORRILL HALL
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 20, 1962

(FOR RELEASE THURSDAY, DEC. 27, 1962)

Minneapolis --- Operating costs of the University of Minnesota for the fiscal year ending June 30, 1962, totaled \$93,984,838.27 for all campuses and stations, according to a summary of financial operations released today (Dec. 27) by L. R. Lunden, business vice president. Of this total, the State of Minnesota provided slightly more than one third.

In addition to its operating expenses, the University paid out \$10,204,703.01 for the construction and remodeling of buildings and the purchase of land. In the 12-month period, to meet construction costs, the sum of \$5,523,434.00 was withdrawn from funds appropriated by the State Legislature for that purpose.

Largest operating outlay, Lunden reported, was the \$24,581,532.78 spent for the instruction of students at collegiate level and departmental research on all campuses. An additional \$12,926,939.70 was expended for organized activities relating to instructional departments such as University Hospitals and libraries. Budgeted and sponsored research expenditures amounted to \$19,682,373.69. The cost of extension and public service activities such as the general extension division, agricultural extension and the Minnesota Museum of Natural History totaled \$7,206,803.19.

Of the University's total overall operating costs of \$93,984,838.27, Vice President Lunden pointed out, the State of Minnesota provided \$32,858,962.02 or 35 per cent. State support funds consisted of the Legislative maintenance appropriation of \$26,867,808.04, a special appropriation of \$3,898,154.91 (\$1,949,706.91 of which was charged to the counties) for the care of indigent patients at University Hospitals and a Legislative allotment of \$4,042,705.98 for special projects carried on by the University for the general benefit of Minnesota's citizens.

(MORE)

These "special projects" include agricultural extension work and research, business and economic research, medical research, operation of the Minnesota Rehabilitation Center, the Child Psychiatric Hospital, the Multiple Sclerosis Clinic, the Institute of Child Development and the schools of agriculture student aid fund.

Sources of the University's operating income other than the State, the report indicates, are: appropriations from the Federal government, \$2,699,858.78; student tuition and fees, \$8,728,554.63; self-supporting auxiliary enterprises, \$15,065,926; trust funds, \$23,140,602.50, of which \$16,948,161.74 represents federal contracts and grants; and intercollegiate athletics, \$1,687,180.03.

Income from intercollegiate athletics included \$1,614,069.59 from the Minneapolis campus and \$73,110.44 from the Duluth campus. Expenditures for the operation of intercollegiate athletics and that part of physical education expenses paid from athletic receipts totaled \$1,661,865.04 for the fiscal year 1961-62. Involved was an outlay of \$1,587,365.95 in Minneapolis and \$74,499.09 in Duluth.

Other highlights of the report released by Vice President Lunden are as follows:

** Overall total current fund receipts of the University for the fiscal year amounted to \$97,799,438.73, while expenditures for all purposes, transfers and adjustments for the period totaled \$97,800,406.54 leaving a free unencumbered balance of \$2,058.90 as of June 30.

** Expenditures for building and remodeling and land purchases, totaling \$10,204,703.01, were distributed as follows: Minneapolis campus, \$7,063,745.26; St. Paul campus, \$2,016,650.40; Duluth campus, \$903,390.93; Morris campus and station, \$43,658.48; outlying schools and stations and off-campus plant, \$177,257.94.

(MORE)

** At the close of the fiscal year, the University total endowment fund, including endowments for general purposes amounting to \$46,623,105.60, totaled \$66,096,143.32.

** University-owned land as of June 30, 1962, consisted of 16,552.32 acres valued at \$10,783,589.68, while the University's 1,020 buildings had an estimated value of \$122,459,665.62, representing original cost. University equipment was valued at \$50,900,500.42 and included \$341,585.24 in livestock and \$12,180,368.01 in books and museum collections.

CHILD REARING
COURSE TO BE OFFERED
IN 'U' NIGHT CLASSES

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 MORRILL HALL
MINNEAPOLIS 14, MINNESOTA
TELEPHONE: 373-2137
DECEMBER 22, 1962

(FOR IMMEDIATE RELEASE)

A practical course in child development, entitled "Child Rearing", will be offered by the University of Minnesota department of evening and special classes starting Monday, Jan. 7.

The course, which may be taken with or without credit, will be conducted at 6:20 p. m. each Monday for 10 weeks in Room 226 Child Development building. Mrs. Elizabeth Peterson, coordinator of parent and family life education for the University's general extension division, will teach the course.

"Child Rearing" introduces current thinking about child care philosophies and practices, traces the development of children from birth through adolescence, explains behavior in terms of levels of development and relates children's development to methods of child care.

The course can be taken without credit at a tuition of \$18, or, for those having the necessary prerequisites of Psychology 1 and 2, for three credits at a fee of \$27. In order to obtain credit, participants must take a mid-quarter and a final examination and do additional work observing children.

Registration for the course may be made through Friday, Jan. 4, at the University's general extension division offices in 57 Nicholson hall on the Minneapolis campus; 690 Northwestern Bank building, Minneapolis; Wabasha and College, St. Paul; and 110 New Garrick building, Duluth. Further information may be obtained by calling Mrs. Peterson at 373-3151.

The course is not included in the current general extension division Evening Class bulletin.

DRIVER EDUCATION DOESN'T ELIMINATE
PARENTS' RESPONSIBILITY, EXPERT CONTENDS

UNIVERSITY OF MINNESOTA
NEWS SERVICE

TELEPHONE: 373-2137
DECEMBER 26, 1962

(FOR RELEASE 10 AM.. THURSDAY, DEC. 27)

Minneapolis --- Parents cannot expect high school driver education programs to relieve them of responsibility for the safety of their children behind the wheel, a safety expert said Thursday (Dec. 27).

"Driver education is no panacea for the traffic accident problem," Charles H. Hartman told the third annual Institute on Driver Education at the University of Minnesota's Center for Continuation Study.

Hartman, a visiting lecturer on safety education at the University of Wisconsin at Madison, and an associate professor of safety education at Illinois State Normal university, said a well-organized driver education course can help teach teenagers how to operate an automobile safely and efficiently.

"With an adequate course taught by a skilled instructor, the student is provided with a positive beginning in his role as a safe driver," Hartman told the meeting of safety experts.

But parents must continue to do their job, too, he said.

"Parential concern for and supervision of youth following this initial period of formal instruction provides part of the teamwork necessary for any significant reduction in deaths, injuries and economic losses arising out of traffic accidents," Hartman said.

Making all teenagers safe drivers is not the ultimate goal of driver education, Hartman told his audience.

"Developing the learner's ability to operate an automobile safely and efficiently is the immediate practical purpose of driver education, but it constitutes only one part of the program," Hartman said. "The ultimate goal is helping each student to realize fully his lifetime role in a traffic society."

(MORE)

Hartman said this implies a willingness to assume responsibility in helping to provide safe and efficient traffic conditions at the local, state and national levels.

Hartman said the ultimate goal cannot be reached by driver education courses which consist of little more than on-the-road training behind the wheel of a dual-control automobile. Because this part of a driver education program is often seen by the public, he pointed out, many people believe the entire program consists of no more than this.

To reach the ultimate goal---"a lifetime of responsible civic action for traffic safety improvement"---driver education programs must include materials from many areas, said Hartman. Materials from the social studies, physical science, industrial technology and other fields must all contribute to such programs, he said.

'U' MUSIC HOUR
TO PRESENT SALEM
CHOIR IN DRAMA

(FOR IMMEDIATE RELEASE)

"The Adoration of the Magi", a 13th Century liturgical drama, will be presented on the special hour-long holiday presentation of "At Home With Music" from 9 to 10 p.m. Monday (Dec. 31) by KTCA-TV, Channel 2.

The "At Home With Music" program is a regular Monday presentation on the University of Minnesota Hour and is sponsored by the University's department of music, featuring music department faculty and students.

The play will be presented by choirs of Salem Lutheran church, 4150 Dupont ave., No., Minneapolis, from the play book prepared by Vern Sutton, 3613 Zenith ave., N. Sutton, a graduate student at the University, is a vocal student of Roy A. Schuessler, professor of music, and is working for his doctor of philosophy degree in musicology.

Featured in the production, in addition to the large cast of angels, shepherds, Magi, guards, scribes and interpreters, will be such musical instruments from the era as recorders, trumpets, oboes, violas, bells and percussions.

The play was first presented by the Salem choirs at the national convention of the Lutheran Society for Worship, Music and the Arts held last June in St. Peter, Minn.

520 PARTICIPATE
IN WINTER QUARTER
ORIENTATION AT 'U'

(FOR IMMEDIATE RELEASE)

Approximately 520 new University of Minnesota students are attending winter quarter orientation meetings which began Thursday (Dec. 27), according to Leon Rottmann, student activities bureau orientation director.

First of two groups of new students participated in the two-day orientation program Thursday and Friday (Dec. 28). The second two-day session began Friday and will continue Wednesday (Jan. 2) after the New Year's Day holiday.

The quarter opens Thursday, Jan. 3.

The two-day orientation sessions for the new students---some entering freshmen, the balance, transfer students from other schools---open at 8 a. m. each morning with the groups meeting in Room 320, Coffman Memorial Union. The first day's schedule is filled with group appointments, Rottmann said, with individual appointments completing the orientation work on the second day.

New to orientation this quarter is the schedule for the women students' time---customarily taken by a "coffee break"---while the men are being given information on Reserve Officers Training Corps. University women students, working with Rottmann and the dean of students office, will meet with the new women and inform them about University regulations concerning evening "hours" for residence hall and sorority residents. Rules concerning physical education classes for women also will be discussed by the women students in the meetings held in the Women's lounge in Coffman Union.

HUMPHREY TO REPORT ON LATIN-AMERICAN TRIP
IN HILLMAN LECTURE AT 'U' THURSDAY EVENING (Jan.3)

(FOR RELEASE SUNDAY, DEC. 30, 1962)

Senator Hubert H. Humphrey will speak on "Alliance for Progress: A First-Hand Report" at 8 p. m. Thursday (Jan. 3) in Northrop Memorial auditorium at the University of Minnesota. The lecture will be open to the public free.

The United States Senator will report, in part, on his recent fact-finding trip to Latin America. His talk will be the seventh Sidney Hillman lecture presented by the University of Minnesota through a gift from the Sidney Hillman Foundation. The lecture will commemorate the 100th anniversary of the signing of the Emancipation Proclamation by Abraham Lincoln on Jan. 1, 1863.

The Hillman lectures were established in honor of the late Sidney Hillman, founder and first president of the Amalgamated Clothing Workers of America, AFL-CIO, and a founder of the Congress of Industrial Unions. Hillman was a pioneer in obtaining economic and social benefits for labor.

Senator Humphrey was graduated magna cum laude from the University of Minnesota in 1939 with a bachelor of arts degree. He served on the University's political science faculty in 1940-41 and taught at Macalester college and the University of Louisiana, where he received a master of arts degree. He was a member of the Works Progress Administration staff and assistant regional director of the War Manpower commission. From 1945 to 1948, just before his election to the United States Senate, he served as mayor of Minneapolis.

Humphrey received the University of Minnesota's Outstanding Achievement Award in 1959, and was the recipient of the first Congressional Distinguished Service Award given by the American Political Science association.

Arts and Dollars---
POPULAR ARTS
TELEVISION SERIES
TO BEGIN JAN. 2

(FOR IMMEDIATE RELEASE)

"Arts and Dollars", a new 13-week television series on the popular arts, will open on the University of Minnesota Hour, 9 p.m. Wednesdays, Jan. 2-March 27, on KTCA-TV, Channel 2.

The program, characterized by its moderator, William A. Mindak, University associate professor of journalism, as "a frequently irreverent but, we hope, stimulating look at the 'popular arts' or the commercial application of the fine arts, attempts to answer the questions, What happens when 'arts' meet dollars? How do the popular arts influence the fine arts and vice versa?"

Top local figures in the field of both "commercial" and "fine arts" representing music, the graphic arts and advertising agencies will meet with Professor Mindak and attempt to answer the questions.

Frederick Fennell, associate music director, Minneapolis Symphony Orchestra, and Professor Norman DeWitt, chairman of the University's classics department, will be Professor Mindak's guests on the opening program Wednesday evening (Jan. 2). The questions, "What's So Fine About the Fine Arts?---What's So Commercial About the Commercial Arts?" will be discussed in the fields of scope, background and development of the "popular arts" or "mass culture". A question to be raised, according to Mindak, will be, "Does taking money for selling a product or an idea or concept render commercial art less artistic?"

(MORE)

Other programs listed in the series, and the guest artists:

- Jan. 9 ----"What Did Currier Tell Ives?", guest: Kermit Downs, art director, Campbell-Mithun advertising agency.
- Jan. 16 ----"From Cave Paintings to Calendars", guest: Clair Fry, art director, Brown and Bigelow.
- Jan. 23 ----"Inside the Juke Box---Popular Music", guests:Frederick Fennell and Leigh Kamman, program director, KSTP.
- Jan. 30 ----"And All That Jazz", guests: Leslie Rout, teaching assistant, University history department, jazz performer, and Herb Pilhofer, composer and musician.
- Feb. 6 ----"This Lyre for Hire"----The Advertising Commercial, guests: Bradley Morison, copy chief, Batten, Barton, Durstine and Osborne agency, and Herb Pilhofer.
- Feb. 13 ----"Better Read than Dead"----The Commercial Poet, guests: Bradley Morison and Bill MacKay, public relations.
- Feb. 20 ----"Shakespeare Was a Hack"----The Commercial Dramatist, guests: Arthur H. Ballett, associate professor, speech and theater arts, Professor DeWitt.
- Feb. 27 ----"Pogo, Peanuts and Politics"----Comics and Cartoons, guest: Scott Long, cartoonist, Minneapolis Star-Tribune.
- Mar. 6 ----"Candid Cameras"----Commercial Photography, guests: R. Smith Schuneman, photography instructor, University school of journalism, and Merle Morris, Morris film studio.
- Mar. 13 ----"What's Playing at the Bijou?"----Movies, guest: Professor George Amberg, interdisciplinary studies, University of Minnesota.
- Mar. 20 ----"And Now a Word from Our Sponsor"----The TV Commercial, guest: Ron Oakland, Knox Reeves agency.
- Mar. 27 ----"Opening The Time Capsule"----The Future of Popular Arts, guests: Fennell and DeWitt.

SYMPHONY TO HOLD
PUBLIC REHEARSAL
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Thursday's (Jan. 3) rehearsal of the Minneapolis Symphony Orchestra in Northrop Memorial auditorium will be open free to the public at 11:30 a. m. as a University of Minnesota convocation offering.

The orchestra, with its associate music director, Frederick Fennell, conducting, will be in rehearsal for its Friday (Jan. 4) night concert. The rehearsal will have started earlier in the morning. The audience will be admitted at 11:30 a. m.

This will be the first opportunity University students will have to hear and see Fennell conduct the orchestra at a University convocation. A rehearsal of the orchestra conducted by Stanislaw Skrowaczewski, music director, was opened to the public for a convocation during fall quarter.

University convocations are sponsored by the department of concerts and lectures.

•U• TO OPERATE EAST-WEST BANK BUS
SERVICE FOR STUDENTS WINTER QUARTER

(FOR IMMEDIATE RELEASE)

Bus service between the east and west bank areas of the Minneapolis campus will be provided during winter quarter, beginning Thursday (Jan. 3), for University of Minnesota students who have classes on the west bank, C. Luverne Carlson, director of University Services, reported Friday (Dec. 28).

The service will be operated during the winter so students will not have to walk across the Mississippi river on the windswept Washington avenue bridge during severe weather, Carlson said.

Non-stop, express buses will run Mondays through Fridays between the east and west bank campus areas starting at 7:40 a.m. The first bus will leave the east side terminal in front of Jones hall at that time. The last bus will leave the west bank terminal, at the west side of the new classroom building, at 5 p.m. Between those times, buses will leave every 20 minutes---20 minutes before the hour, on the hour and 20 minutes after the hour---from both sides of the campus. They will cross the Mississippi river via the Tenth avenue bridge since the Washington avenue bridge is closed to bus and truck traffic.

The buses will be operated by the University under contract with Minnesota Enterprises, Inc., which operates city buses in Minneapolis and St. Paul.

Free passes for the intracampus bus between the east and west sides will be available only to students who have classes on the west side. Passes may be obtained only at the University bookstore in the west bank area classroom building. They will be issued upon presentation of a paid fee statement for winter quarter.

Paid University fee statements will be accepted in lieu of passes on the first two days of service, Thursday and Friday, Jan. 3 and 4, Carlson said.

Other University students may ride the buses by paying the regular fare of 25 cents or by presenting an intercampus (St. Paul-Minneapolis) bus ticket.

Carlson also reported that splash guards three-feet high are being erected on the Washington avenue bridge to protect pedestrians from slush and water splashed by passing cars.
