WOMAN'S LEAGUE OPERATTA AN OVERWHELMING SUCCESS

The much talked of operetta, "Dame Firefly," was presented Friday afternoon and evening to two packed houses at the Lyceum Theater.

We had heard at length of the brightness and beauty of the little opera, but everyone present at the performance Friday will understand that no description in mere words, could possibly do justice to its vivid coloring, catchy music and charming whole.

The

Particular Delight

of the operetta was the smoothness and ease with which it ran, lacking entirely the hitches and dreadful pauses which mar so many amateur performances.

The children, 150 in all, were perfectly trained and made the brightest of fairies. They danced and laughed and sang with their whole hearts while their self-confidence added not a little to the pleasure they gave the audience.

Among the boys, who were all dressed as

Imps, in Bright Scarlet,

there were several stars. Jean Pauly's voice was very high and wonderfully sweet.

A Sailor Song was very prettily sung by Howard Gorel and Alan Broderick was very good in his "Zulu Song." John Crosby also sang his solo part with much expression.

Three Faeries

with the sweetest of voices were Grace Emery, Bessie Hasset and Corimie Frank.

The dance of the evening star by little Dorothy Lyons was enthusiastically encored.

The work of the

University Students

in the leading roles and dances was indeed praiseworthy.

Frances Chamberlain's rich, deep voice was extremely well fitted for the title role of "Dame Firefly."

The part of Vetta Vhey the little princess was beautifully sung by Louise Leavenworth.

As Titania, the Good Spirit, Florence Brazie was a great favorite. She was attended by two of the tiniest and brightest little cupids imaginable.

The part of Giant Longtooth was very well taken by Mendellsohn Jones.

The most effective of the dances was

The Moon Dance,

by Katherine DeVeau. She was grace personified and the dance was encored again and again.

The Patriotic Drill was exceedingly bright and enjoyable. The ten dancers dressed in red, white, and blue were Vera Cole, Madge Bogart, Agnes Loes, Josephine Schain, Edna Gould, Faith Wheaton, Maud Johnson, Mildred Lauderdale, Julia and Clara Bearnese.

(Concluded on page 13.)

The Piano House of the Northwest

For 25 years we have been selling Steinway, Knabe, Ivers & Pond, Emerson, Ludwig, Gable and other fine pianos to the people of the Northwest. Our customers will tell you whether they are pleased or not. We want your orders now or in the future.

Frank S. Lyon, '07, Advertising Mgr.

The plans which have been agreed upon by both the Board of Regents and the Board of Control, for a new main building, will call for an outlay of something like \$300,000. It is the intention to make the building fireproof. The plans, in their present status, call for a building three hundred and eight feet long. A sixteen-foot hall runs the full length of the building, with class rooms on one side and studies and seminar rooms upon the other side of the hall, making a very convenient arrangement.

The location of the building seems to be settled for University avenue, extending practically from 15th to 16th avenues. The Weekly simply voices the sentiments of a vast number of those interested in the University, when it says that the location of a building of the size proposed, or indeed any building at that place will rob the campus of one of its main beauties. The argument that this is the most central point upon the cam-

pus and that this building, which is to house the largest number of students should be located at the most central point, is one that will have little weight as opposed to the preservation of the natural beauty of the campus.

When the law building was located, a number of years ago, the argument was put forth, that the moving it to one side a few feet, would make possible the preservation of a group of beautiful oaks. One of the Regents, who by the way is no longer a member of the Board, remarked that the University's purpose was to raise men and not oak trees. While this is undeniably true, the fact remains that men can be raised in one spot as well as another, while trees, such as adorn the campus can not be replaced in a hundred years, and such trees have no small share in the making of men what they ought to be. The strictly utilitarian has too strong a grasp on the present generation and a University ought to stand as a leader in things that are best and opposed to that which, while it may not be bad in itself, has a tendency which few of the thoughtful like to see so prevalent.

The student body has become so imbued with "short cut" ideas that the beautiful campus is being robbed of its beauty by unsightly paths running in every conceivable direction. As soon as the authorities find that students are bound to go in a particular way, and lay out new walks so as to avoid disfigurement of the campus, the students immediately discover that they can save a few steps by striking out in some new and wholly unexpected direction and immediately a new path is started and a new walk must be laid.

and the campus made to look like a checker board, divided off into squares by cement walks, or else like a cow pasture with its net work of paths which chance has dictated and in which art has no place.

The campus has been a thing of beauty of late years, thanks to the kindness of Mrs. Gale, who has given so liberally in erecting the fence and otherwise adding to its beauty, but it seems likely to degenerate to its old-time form, when it was known as the most disreputable looking spot in the city, unless steps are taken to preserve what has already been accomplished for its reclamation and beautifying.

The students ought to take pride in keeping the campus a thing of beauty that it may be "a joy forever." And without the cooperation of the students, an amount of money will keep it in proper shape. A little attention, in the way of putting waste paper into the boxes provided for the purpose, and keeping to the walks instead of making paths across the campus in every direction would aid more in maintaining the beauty of the campus than an annual expenditure of several thousand dollars.

AITON'S REPORT

The *Weekly* has just received a copy of Mr. George B. Aiton's eleventh annual report as Inspector of State High Schools. The report is an exceedingly thorough setting forth of the high school situation, as it exists in this state to-day, and contains much valuable information and interesting material which we shall be glad to note more fully in some later issue of the *Weekly*.

The Thanksgiving number of the *Ladies' Home Journal* presents a beautiful poem entitled "Thanksgiving," by Irene P. McKeehan, '02.

"THE CITY"

The poem-drama "The City" by Arthur Upson, a University student is receiving much favorable criticism and what is more, is selling well for a book of its class. Mrs. Frances Potter, of the English department, writes of this poem, in last Sunday's *Times*, as follows:

The story is founded on an old church legend which it amplifies and fills out with much originality. A king of Asia Minor, afflicted with serious disease, sends to Jesus, the Judean healer, to come and cure him. The messenger returns with the news of the great Hebrew's death, but he brings also a message from Jesus of double prophetic import which first restores the monarch to health and is finally fulfilled in his heroic martyrdom. The dramatic incidents of the story are finely grouped. The poetic justice of the catastrophe satisfies the demand of the greatest of classic critics that the highest tragedy must purify the soul through pity and awe. The story unfolds quietly and inevitably from the beginning, and it has the external features one wishes in its Greco-Asiatic staging. The royal garden with its classic marbles, great wall and brazen gateway; the Doric portico of the palace; the sun-dial; the flowers and the flower-like palace maidens the oft-recurring music, choral and single songs, now martial, now loving—all these give the poem a setting of rare richness and beauty.

As a whole the poem is serene and high. Its second meaning shrouds it with a veil of mysticism that is never obscure or obtrusive, which always remains a second meaning back of the first, a fainter and higher reflection of the first, as the second rainbow sometimes over-arches the first. It is a piece of beauty so fine and noble in its conception and completion that one can hardly be too generous in praising

it. It haunts one. Like the finest and highest music, it drifts across the memory, now in broken phrases, again in whole scenes. Its length and its sustained power place it far beyond the great mass of poetry of the present time. Its author has all the excellence of his earlier work, and he has well-nigh cured its defects. He is already across the threshold of a large and assured reputation.

The report that Phil King wants to come back to the west and coach the Wisconsin team is probably a newspaper story. But now that such a story is going the rounds, football enthusiasts will watch anxiously to know whether there is any foundation for the report.

Raymond P. Chase, '03, who has been pursuing his law course at the University, and assisting in the department of rhetoric, was called home recently by the sudden and serious illness of his brother, Roe G. Chase, of Anoka, Minn., a former student of the University. It was feared at first that he would be compelled to give up the University for the remainder of the year, and this report caused no small consternation in debating circles, for Mr. Chase is considered the mainstay of the debating teams in the University. A later report says that he is likely to be able to return to the University, as his brother is recovering.

THE GRAND CHAMPION STEER OF 1904, "CLEAR LAKE JUTE 2nd."

The Minnesota Agricultural College had the honor of winning the Grand Championship at the International Live Stock Exposition held in the Union Stock Yards, Chicago, this year, with the Aberdeen Angus steer, "Clear Lake Jute 2nd." This steer was raised by Mr. George E. Williamson of

Jackson, Minn., a breeder of pure-bred Aberdeen-Angus cattle, and was purchased by Dean Liggett of the Minnesota Agricultural College, who showed rare ability in selecting a steer with so wonderful a future. Mr. Williamson had shown him in the calf class at the International in 1902, where he won the championship over all breeds in the calf class. At the International in 1903 this steer was again shown as a yearling and won the Reserved Grand Championship, and contrary to the general run of winners in the earlier stages, this steer went on and took the Grand Championship over all breeds and all ages at the International this year in competition with the very cream of the cattle raised in this country as well as from abroad. Much credit is due to the faculty of the Minnesota Agricultural College for the splendid object lesson taught to the students and to the public. This steer was handled under the direct supervision of Andrew Boss, Professor of Animal Husbandry in the Minnesota College, and was cared for by Mr. George Craig, the herdsman of the College and a graduate of this school, who has manifested a lively interest in the welfare of this steer from the time he came into his hands until finally disposed of in public auction at the International. This animal being three times Champion was the center of attraction at the Fat Stock Show and was indeed an object lesson to the cattle feeders of the country.

"SAM" REYNOLDS GONE

The news that "Sam" Reynolds has left the city on account of poor health will be received by a vast number of those who have known him with real regret. He expects to spend the winter in San Diego and it is probable that he will never return to this city to live. "Sam" has hosts of friends who will wish him a speedy recovery.

PERSONALS

Lillian Fuller, '93, is teaching in the Government Schools at Batangas, P. I.

C. A. Mayo, '02, is with Hennepin Lumber Company, at Wheaton, Minn.

Abbie Morgan, '99, is spending the winter in California, her address is 1595 W 37th St., Los Angeles.

R. H. Toll, M. '00, is superintendent of the Mancos Consolidated Gold Mines and Developing Co., of Mancos, Col.

Jay Todd, Law '01, is practicing law in Seattle, Washington. He was married to Miss Miller of this city before he went.

Laura E. Frankenfield, '94, resides at 301 E 3rd St., Duluth. She is at present starring in a company of her own, playing Ibsen's "Ghosts."

Violet Jayne Schmidt, (nee Violet Jayne, '03) is travelling with her husband in Europe. Mrs. Schmidt has been dean of women of the University of Illinois.

H. M. Williamson, '73, one of the two members of the first graduating class is editor of the Oregon Agriculturist and Rural Northwest, issued at Portland, Oregon.

Mr. J. H. Lewis, '78, writes that he still considers himself a resident of Minnesota, and expects to return to his old home, at Hastings, after a winter spent in California.

Fred Reynolds, ex-'82, is practicing law at Duluth, Minn. He is in partnership with Hugh McClearn, under the firm name of Reynolds & McClearn, with offices in the Torrey Bldg.

Members of the class of '00 will be pleased to learn that a son was born to Mrs. Benham (nee Agnes Rich, '00) and Allen R. Benham, '00, November 19th. Both mother and child are doing well.

Henry J. Ramsey, M. S. '04, who has been connected with the College of Ag-

riculture at Brookings, S. D., has gone to the New York Agricultural Experiment Station, where he is connected with the department of Botany. His address is Geneva, N. Y.

Roy Y. Ferner, '97, computer in the Bureau of Standards at Washington, D. C., voices the minds of many when he asks—"Why cannot the eastern papers be impressed with our worth more? Everything is Michigan when they talk of Western teams."

Kay Todd, Law '00, is the youngest man who has ever been a member of a republican state central committee. He is in partnership with Mr. Daggett, Law '00, with offices in the German American Bank Building. The firm is meeting with marked success in its practice.

Miss Laura Carroll, Pharm. '03, is in a drug store at Bismarek, N. D. Phoebe Clune, Pharm '00, resides at 134 Highland avenue, Minneapolis. Miss Cora Fairbanks, Pharm. '98, and Miss Helen Byrnes, Pharm. '03, were among the number who passed the state board at the November examination.

The "cock and bull" story which appeared in the Tribune last Monday, concerning the athletic situation at the University, called out a severe arraignment of the supposed author, by the Minnesota Daily. It is rumored now that the Daily is to be a defendant in a libel suit. Verily college journalism is not without its excitements.

Timothy E. Byrnes, '79, has been appointed assistant to the president of the New York, New Haven and Hartford Ry Co., with offices at Boston, Mass. The position carries with it a fat salary, and Mr. Byrnes' friends will feel disposed to congratulate him, though they are sorry that his acceptance of the position will take him from the state,

William A. Brand, Med. '04, is practicing medicine at Redwood Falls, Minn.; he was married last July to Miss Irene Ross of Minneapolis.

Last week Governor Van Sant appointed H. H. Bonniwell, '81, as municipal judge at Hutchinson, the first municipal judge the town ever had.

Julius H. Johnson, and wife, nee Lydia Carlson, have removed from Clinton, Iowa, and are living at Fort Pierre, S. D., where Mr. Johnson is engaged in the law business.

Charles J. Brand, '02, is on a long trip through the West, organizing experiments on alfalfa and clover for the United States department of agriculture. He expects to be in Minneapolis in the course of a few weeks.

Freedom C. Masee, '93, and G. A. E. Finlayson, '90, Law '94, are practicing law in partnership at East Grand Forks, Minn. Mr. Finlayson was married last May to Miss Elizabeth J. Blakeley, of West Superior, Wis.

Roy R. Ireland, '01, E '02, who is in the employ of the Western Electric Co., is at present at Madison, O., installing switch boards for the company. This work will of necessity keep him on the move for the rest of the winter, his permanent address will be 828 6th St., S. E., Minneapolis.

Mr. Ralph Hoagland, '04, who has been employed in the Chemical laboratory of the Agricultural Experiment Station has been appointed Assistant Chemist in the State Dairy and Food Commission in place of F. W. Bedford, '00, who has gone to Chicago, a chemist for Sprague, Warner & Co.

Bert Russell, '02, has recently entered upon his duties as assistant examiner of patents in the patent office, Washington, D. C. He reports that he enjoys his work very much. It is reported that Mr. Russell and Miss Alice Dyar, '02, of Winona, are to be married very soon, at the home of Miss Dyar's parents in Winona, Minn.

Minnesota Alumni Weekly:

I am anxiously waiting for the appearance of the Directory for through it I can keep track of those of whom I can know in no other way.

I appreciate the Weekly for the same reason, but to a greater extent on account of football news.

Living as I do in the hot-bed of Michigan University spirit, I find it difficult to get an unprejudiced view of Western football. I cannot understand why Minnesota is the black sheep among the Universities. Almost everything done in football affairs gets a rap from Michigan, no difference whether it is good, bad or indifferent. For a long time I thought I was the only alumnus in Detroit, but now there are eight here who are either graduates or former students.

We were glad to welcome Janet Priest who was here Thanksgiving week in "The Maid or the Mummy" company. She was very well received.

Coming back to football again, I hope next year that Minnesota can be above reproach as to rough playing, inelligible players, lack of big games, slumps, etc., for each of these only adds to the number of things laid up against them. Very little of the good things about our university ever gets notice down this way.

Sincerely yours,

H. C. Hamilton.

MORE OF THE MISSING

The following is the list of the cards which have been returned the past week, "not found:"

Charles R. Bates, Law '91, Little Rock, Ark.

Robert M. Bell, '83, Los Angeles, California.

James Buer, '98, Faribault, Minn.

Russell S. Bunker, Law '00, Seattle, Wash.

Benedicta L. Carlson, H '89, Chicago, Ill.

George Cudhie, Law '95, Seattle, Wash.

Andrew O. Cunningham, E '98, New Orleans.

John G. Dresen, Law '94, Des Moines, Iowa.

Dan E. Farmer, '96, Des Moines, Ia.

J. Frank Garrison, Med. '00, Butte, Mont.

Eva E. Greer, Phm. '01, St. Louis, Mo.

Henry H. Hammer, Law '95, Everett, Wash.

Martin O. Hanson, Med. '01, Madelia.

William L. Hoffman, Med, '02, Sioux Falls, S. D.

Noah Johnson, E '94, Little Rock, Ark.

Albert W. McMillan, Law '94, Seattle, Wash.

John W. Marshall, '98, Law '03, Minneapolis.

Herman H. Matteson, '96, Butte, Mont.

Alma E. Morrison, H '92, Denver, Colorado.

Albert I. Reed, E '85, Green Bay, Wis.

Halfden Slippern, M '95, Seattle, Wash.

Edward D. Walker, '93, Law '94, Seattle, Wash.

Horace R. Wells, Med. '98, Lansing, Mich.

A. L. Ward, Med. '00, Boulder, Col.

Ernest A. Woods, Med. '99, Chicago, Ill.

Information as to their present whereabouts will be thankfully received.

Tuesday evening in a practice game, the faculty basket ball team defeated the embryo varsity quintet.

The faculty played an unusually strong game and scored over twenty points. Hugh Willis did exceptional work for the professors.

TO EXPOUND THEORY

The Graduate Club has asked Chas. D. Poore instructor of chemistry, who recently invented new methods of the teaching of chemistry, to give an explanation of his system. Definite arrangements have been made for such a meeting to be held in chapel, Monday evening, December 12.

This will be the first public presentation of the new system and will be of especial interest to students as it will treat particularly of that portion which deals with reactions.

GRADUATE MEETING.

The Graduate Club met Monday evening in the Medical building.

About one hundred and fifty were present and the meeting was not only entertaining but very profitable. Addresses were made by Dr. Erdmann, and Dr. Hare, the subject of their discourse being "Man's Place in Nature."

After the lectures the rooms and museum were thrown open for inspection and study.

Refreshments were served in a very unique manner and the members of the Graduate Club were entertained by the Department.

A Freshman's Tale of Woe.

(Or Horner's solution for incommensurable roots.)

W. G. Horner
Sat in a corner,
Working equations and roots.
With Taylor he dabs,
Then elsewhere he grabs;
But I understand not what it boots.

I listen to Brooks
And look in the books
But I can't make out much fun.
But Algebra goes,
For Horner, he knows
Equations in x.

A. F. M.

OF GENERAL INTEREST

Fr. Byrne addressed the University Catholic Association, Sunday, December 4th on "The Scripture and Tradition."

The Sophomore civil engineers are making elaborate preparations for a dinner to be given at the Nicollet on the evening of December 10.

The Theta Delta Chi fraternity is moving into its new house on the corner of Beacon street and the river boulevard.

The house has been in course of construction during the summer and fall.

The University of North Dakota has challenged Minnesota in debate. They desire to have a series of debates extending over a number of years, but the Debating Board has declined for the present year on account of the unusually heavy schedule.

The Senior class of all departments will give a class party at the Armory, on Wednesday, December 14.

The party will be for Seniors exclusively, and will be followed by a series of informals, given by the class, open to all classes.

Sigma Tau is the name of the new Senior Society which has been formed during the past two weeks.

The Society is composed of thirty-five representative Senior girls and the object is to promote good feeling and social intercourse among the members.

The Big Nine Conference has barred first year men from inter-collegiate contests, but Freshman athletes will, nevertheless, have a chance to distinguish themselves.

The athletic management has decided to allow the youngsters to compete with each other for honors such as were given out several years ago to those whose names are now on the shields in the gymnasium.

There will be no circus this winter. This was finally decided last week by the members of the new athletic club, who have been booming the project and making plans for another stupendous exhibition such as the one last year, and is the result of a conference with Dr. Cooke over the matter.

Not content with inter-society strife on the campus, the Forum literary society is seeking other worlds to conquer. A challenge has been issued to the Atheni literary society of Hamline for a joint debate. No answer has yet been received but the Forums expect to hear any day.

Invitations are out for the '05 frolic which will take place at the armory on December ninth.

Those in charge of the affair are working hard to make it a success, and hope to get out a full attendance of the Junior class.

The frolic is not restricted to Juniors as anybody may attend.

Dr. Schaper of the University has recently been elected vice-president of the Minnesota Conference of Charities and Corrections.

At the Conference held in Faribault an address was given by Dr. Schaper on the study of Civil Government in our public schools, showing the present system to be inadequate and deficient.

The Minervas were very pleasantly entertained at the home of Miss Alice Kercher, Wednesday evening, at 626 16th Ave., S. E.

The first part of the evening was taken up with the inauguration of the new officers and their inaugural addresses.

Following this, the regular program was rendered after which a social time was had. The Minervas are having a series of meetings at the homes of the girls and they are proving most enjoyable.

GIRLS' BASKET BALL

The first basket ball practice of the year was held at the armory last Wednesday.

There were about thirty girls out in suits, and many more enthusiasts on the floor and in the gallery.

Coach Leach was able to line up six teams and in this way everybody had a chance to play.

The Varsity will undoubtedly be an "all star" team, and as the squad can furnish plenty of good material for class teams, the inter-class tournament this year will be the greatest event of the season in girls' athletics.

AGGIES GIVE BALL.

The students of the College of Agriculture gave a grand ball Wednesday evening before Thanksgiving.

The ball was given in the Refectory of the college which was beautifully decorated for the occasion with maroon and gold bunting. One hundred and twenty-five couples were present and enjoyed the dancing.

LAW ASSIGNMENTS

The Senior day laws will start the subject of Equity the latter part of the week, lectures to be given by Dean Pattee.

The Middlemen have finished Code Pleading and Liens. They start the subject of Private Corporations under Fletcher.

The Juniors are now taking Common Law Pleading and Domestic Relations.

California alumni are about to build a \$100,000 alumni hall on the campus.

At Pennsylvania University, there are only two fraternities that have not started classes for bible study.

CHRISTMAS DAILY

The 1904 Christmas Daily will make its appearance on December 13th.

The edition will be a souvenir of the past year at the university, including articles, about all college organizations, together with literature appropriate to Christmas.

Among the especially new and interesting features of the issue will be the words and music of the new Minnesota song, "Alma Mater," by Truman Rickard, which has never been published hitherto.

MORE ABOUT MAIN.

On Thursday, J. T. Wyman, President of the Board of Regents, and President Northrop met the members of the state board of control to decide in regard to appropriations for the University from the next legislature.

The members stated that the amount required was \$250,000, as they have \$58,000 and want over \$300,000 to cover the building of the new Main.

It will be a three-story, pressed-brick building with granite trimmings and with four entrances. It will probably be about 300 feet by 50 to 100 feet deep.

Insurance to the amount of \$63,000 will be realized by the state board of control on the loss by fire of the "Main" building.

The damage done to the Mechanic Arts building and laboratory apparatus is estimated at \$4,900.

The most important gifts to Yale during 1904 were as follows: \$100,000 for a mining laboratory, \$50,000 to the medical school, \$40,000 to library funds and a bequest of \$250,000 for the construction and maintenance of a building as a memorial to Dr. Jared Linsly.

See WYVELL-HARRINGTON CO., for City and Suburban Realty.

This space is reserved for

LOFGREN & LUNDQUIST,

FASHIONABLE TAILORS,

14 So. Fifth St.

Owing to the fact that part of the dramatis personae of "One of My Relations" are unable to make the proposed trip during the Christmas holidays, this play may not be presented by the Dramatic Club.

It is not finally decided yet that the trip will be given up, and a large majority of the Club would be loath to abandon the project.

But if it should be found necessary it is probable that another play will be put on the stage in the twin cities sometime next spring.

There has been some little difficulty in satisfactorily assigning the parts of "One of My Relations," and it is thought that some other play could be more successfully rendered.

"Bill" Deering, the veteran forward and captain of the '02 and '03 teams, will coach the basket ball team this season.

The board of athletic control decided yesterday afternoon to engage Deering as coach and he will take charge at once.

FOOD FOR THOUGHT

Dr. Edmund J. James, in the last report as president of the trustees of Northwestern University, says the disappearance of men students from the co-educational institutions in the Mississippi valley may be only a matter of time. Dr. James quotes figures on the attendance in the College of Liberal Arts of Northwestern to prove his theory. These show that in

the last four years the percentage of women students has increased from 46.1 to 56.6.

SPANISH CLUB.

The "University Spanish Club" is attracting much attention among the Spanish students of the University.

There are twenty-six on the membership roll, and many others have made application for a place among them. Meetings are held once every two weeks at the home of various members and a social time is mixed with the study of the language.

The last meeting was held at the Kappa Alpha Theta sorority house. A business meeting was conducted entirely in Spanish, the constitution being read and adopted in that language, and during the entertainment that followed only Spanish was spoken.

Mr. Melom and Mr. Frelin of the Spanish department are honorary members of the Club, and very enthusiastic over its work.

The Club offers an excellent opportunity for those interested in Spanish to become better acquainted with it, and also with each other.

Riccoche is the name of the new and popular game that is now being played at the Armory and which bids fair to take the place of basket ball as an indoor game.

It resembles hockey in some ways. A rubber ball and racquet is used and the racquets are constructed in such a way that the ball can be carried or thrown as well as pushed.

A CHORUS OF 2000 VOICES Sings the Praises of the COLLEGE INN.

Take a Business or Stenographic Course in the
STATE BUSINESS COLLEGE

Corner of Nicollet Avenue and Seventh Street

MINNEAPOLIS, MINN.

The Big Nine has made several new rules in regard to eligibility this year.

The most important matter passed upon at the meeting was the

One Year Residence

rule advocated by the presidents of various colleges.

Minnesota opposed this rule and was warmly supported by Iowa. These two thought it an injustice to bona fide freshmen to bar them from athletics and also opposed the rule because the good results anticipated by the promoters of it were largely imaginary.

These two thought that proselyting would not be stopped by such a ruling.

It was finally decided to amend this rule by making it cover one semester instead of a year. This will enable Chicago and some other of the colleges to enter a man in college for the spring semester thus enabling him to play football the next fall. The player must have, however, credit for a full semester's work before engaging in any athletic pursuit.

It was decided that the first three intercollegiate football games of the season

Would Not Count

against a new player as a year's playing. This will give the coaches a chance to try out their new men in these games.

Rank Injuns as Colleges

Carlisle and Haskell Indian Schools were raised to the level of colleges.

This will not bar any men who are already attending college, and who have played on the above named teams.

It was decided that any man who wished to play

Summer Baseball

must receive the written consent of the athletic committee or be barred from college athletics. This does not mean professional base ball, but any base ball at all.

There is a

Tacit Agreement

between Wisconsin and Minnesota to the effect that no protests shall be entered less than two weeks before any contest.

There is a tacit understanding between Iowa and Minnesota that no protests shall be made unless a reasonable length of time before the contest.

What "Intercollegiate" Means

Professor Jones wants it understood now that inter-collegiate means between two colleges, not only between big nine colleges but any schools that hold the rank of college.

BASKET BALL TALK

Columbia University at New York has written to Manager Reed, asking for a basket ball game to be played at New York the last week in January.

Yale Won't Play.

Inasmuch as Yale will not come West this year, a Southern trip being taken instead and as the schedule of home games is full, it is probable that

Minnesota will accept the offer of a game with Columbia.

Manager Reed is negotiating with Colgate University at Hamilton, N. Y., for an exchange of games.

DAME FIRE FLY

(Continued from page 1.)

Twelve girls dressed in pink with

Big Green Hats,

took part in the Rose Dance.

They were: Eva Blaisdell, Catherine Rittenhouse, Agnes Matson, Lucile Higgins, Jessie Hill, Janet McClure, Mildred Brown, Helen Gallop, Martha Dever, Lora Gooding, Katherine Spooner and Jessie Lockman.

The most novel of the dances was the Japanese drill, to the tune of

"Pinky Panky Poo,"

seven girls with gorgeous kimonoous and slanting eyebrows and seven boys in white suits and with yard-long queues danced and marched and sang to great delight of the audience. The encore

was given with all the lights turned out and only the burning joss sticks showing in the dancers hands. Those who took part were Mary Morgan, Alice Stratton, Florence Hofflin, Rachael Beard, Mary Holldiday, Hazel Lovell, Grace Grygla, and Nathan Blackburn. Lynn Farnam, Orrin Keelar, Carleton Lehart, Henry Mitchel, Cyrus Brown, and Webster Tallant.

Miss Cundiff personally directed the orchestra. She has reason to be extremely proud of the overwhelming success of the operetta.

The University College at the Fine Arts building of the University of Chicago has opened an evening school for the study of railway work. The course is largely intended for railroad clerks and officials who wish to study railroading from the economic view.

In institutions of higher learning there are 628 Columbia graduates holding positions.

The University of Munich has opened its doors to women. It is the first of the German universities to do so.

Because of the increasing interest in international arbitration, Yale has established a course of lectures upon the subject and invited Robert Morris of New York to deliver the lectures during the ensuing term.

Humor.

College students are a good deal alike after all. Some are fired by ambition, some are fired by patriotism, and some are just fired.

More Awards.

The University of California has again brought honor upon the state by being awarded three grand prizes for her exhibits at the St. Louis exposition. The awards to the university were made for the general exhibit, the Lick observatory exhibit, and the display of the College of Mines. The two latter have attracted much attention at the exposition from the representatives of other institutions. The prizes won by the university are added to the large list of educational awards already secured by California.

The Ohio legislature has appropriated \$750,000 for the use of the State University.

Princeton will soon have its annual cane spree. The way they conduct the spree at old Nassau is to have three men to represent each side, one a heavy-weight, one a middle-weight, and one a light-weight, and let them fight it out.

NEBRASKA DECLINES.

The Daily Nebraskan denies the report that Heston, Michigan's famous half back will coach the Nebraskans next year. As a matter of fact, the Nebraska authorities have entered into no negotiations whatever with Heston or any other man for the position, nor will they do so until it is ascertained whether Coach Booth will remain next year. It is the opinion at Lincoln that next fall will find Booth in his old position of head coach.—"The Michigan Daily."

A RIGHTEOUS RULE.

One rule adopted by the recent conference at Chicago, will be received with genuine pleasure by those who have followed the fortunes of this season's team. The rule allowing a man to play in three minor games in his first year and yet not have that year counted as one of the four for which he is allowed to play is a just rule, and its adoption by the conference shows that the colleges composing the conference conceded that Captain Strathern was barred by a technicality rather than by a violation of an important rule. It is too bad that the rule was not adopted one year earlier so as to have allowed Strathern to have completed the season with the team. The record of the Northwestern and Iowa games would have been vastly different with "Mose" in the line-up.

Walter Williams, the well known Missouri editor, in an address to Missouri University students on "Why Study the Bible," characterized the book of Luke as the best text-book of Journalism to be had. "Luke," he said, "is always clear, courteous, truthful—first lessons to be learned by the young journalist."

No. 14

"Ich Bin Ich"

No, I will never be downed by this science of things,	Multiplied millions of creatures on earth, in the sea,
World, I will face you full front with my head lifted high;	Ever the same unto death in a day you shall go;
Yea, in your vastness my soul shall find room for its wings,	I am not one of you, ranked with you I will not be,
Glorying, boasting, exulting that I am still I.	For in your mighty unconsciousness, I only know.
Star beyond star in the infinite reach- es of space,	Epochs of time that stretch backward deep into the night,
Numbers that cannot be numbered though ages one strive;	Though unto futures unknowable far you may roll,
Me all your glorified deadness can never abase,	Yet I am older than you in eternity's sight,
I, though a mote in the universe, I am alive.	I shall continue forever, for I am a soul.

All the great universe lies in the
sweep of my mind;
Death I can look in the eyes and not
fear though I die;
Life's throbbing heart I can touch with
my hands and I find
In every beat of it I am eternally I.

GREENLEAF CLARK

The Honorable Greenleaf Clark, president of the Board of Regents, died Wednesday, December 7, at La Manda Park, California, his winter home. Judge Clark, as he was always called, was appointed to the Board of Regents December 15, 1879, and served from the day of his first appointment to the day of his death, making the longest record for continuous service of any member who ever served on the board. Judge Clark has always been one of the most useful members of the Board of Regents. His high minded devotion to duty and his high ideals of what a university ought to be and ought to stand for, made themselves felt in the development of the University. His judicial bent made him a wise and careful counsellor, and his broad mind and generous heart made him stand always for those things that were best.

He represented the high-water mark of what a member of the Board of Regents may be, and the University owes to his wise counsel and keen foresight no small degree of gratitude for what it is to-day.

Personally Judge Clark was the finest type of a gentleman—honest, straightforward, of kindly and generous spirit—he was a man to win, and who did win, the love of all with whom he was brought in contact. He will be missed not only, or most, because of his service to the State and the University, though his service to both has left its lasting impress, but because he was a loved and lovable man.

THE DIRECTORY

The alumni are no doubt wondering what has become of the directory. The directory is coming along, and about half of it is in type, but so many of the alumni have not reported that it has taken a great amount of time to get information and get it in proper form for the directory. At least one-third of the alumni, about fifteen hundred, have not reported. About two-thirds of this one-third have been located by the editor through inquiries among friends of those not reporting, by searching the directories of the Twin Cities and by advertising in the Weekly. This leaves about one-ninth, or five hundred not located, and it looks now as though this number would not be located before the directory goes to press. It is hoped to have the directory ready to mail to subscribers before Christmas, but it may be delayed a few days beyond that time.

A SUGGESTION

The Weekly would like to suggest to the Athletic Association, that it amend its constitution so as to provide for the appointment of two alumni members, by the Board of Directors of the General Alumni Association. At the time the provision was made for securing alumni representation on the athletic board of control, there was no such representative body to which such an appointment could be delegated, and so it was delegated to the only available source for such an appointment, a self constituted body representing the football interests among the alumni. This body has long since ceased to have an existence and a new and more representative body has come into existence, which represents not one department but all departments, not one particular sport, but all the interests of the alumni of the University. Since Charles E. Guthrie left the city, the alumni interests have been represented by but one member, George K. Belden, and he has served without re-appointment because that was the only way in which he could serve and the only means by which the alumni could have anything to say about athletics. Mr. Belden has done some most excellent work upon the board, and it may well be that he would be the best man for the board of directors to appoint, but he ought to have the moral support that would be afforded by an appointment by a representative body of alumni and the support of a colleague on the Board. This is really a matter of great importance and we hope that the athletic association may make the proposed change at its next meeting.

"Clear Lake Jute 2nd" was sold at auction to the Union Dressed Beef Company of New York City, for 36 cents per pound, live weight.

A SIGNIFICANT VISIT

Last Tuesday morning the Honorable Mr. Clague, who is to be speaker in the next house of representatives in company with Byron H. Timberlake and Howard B. Chamberlain, graduates of the University, and elected to the legislature from the University district, visited the University grounds and buildings in company with President Northrop. Messrs. Timberlake and Chamberlain were of course conversant with the needs of the University, and the visit was for the purpose of impressing Speaker Clague with the needs of the institution. The visit will undoubtedly bear its results in the legislation which is to be enacted next winter.

A GREATER CAMPUS

Last Friday there was a meeting of the alumni held in the office of C. J. Rockwood to consider plans for securing additional land for the campus. The matter has been talked over more or less for several years, but definite plans are just taking shape. The proposition is to submit the following plan to the Board of Regents at its next meeting. If the Board approves the plan then to make a strong push in the legislature for the necessary funds to carry out the plan.

The plan contemplates the securing of the block opposite the campus, between University and Fourth street and 14th and 15th avenues. This block to be made into a park and eventually the railroad tracks would be arched over, making a most beautiful approach to the campus.

Then on the opposite side of the campus, it is proposed to secure the land between the campus and the river including the strip bounded by State Street and the river and the campus and the river, in all four full and four half blocks.

The plan is one that ought to be carried out at once. The University needs more land and it will never be possible to secure the land needed at any less price than it can be secured today.

From an artistic point of view it would add immensely to the attractiveness of the campus. At the present time the approaches to the campus leave anything but a favorable impression upon visitors, while the carrying out of the proposed plan would make it possible to make the approaches to the campus as attractive as the campus itself.

JONES' PLURALITY SAFE

The recount of votes in the mayorality contest are favoring Mayor-elect Jones, on the whole, and there is no question that he will be declared elected by a safe majority.

The 'Varsity quint defeated the alumni by a score of 39 to 15. At the end of the first half the score stood, Alumni 14, 'Varsity 12. The showing made by the 'Varsity was very encouraging.

PROPOSED CHANGES IN RULES

The usual post season talk of change of football rules seems to be crystallizing about the proposition to require the making of ten yards in three downs. A modification of this rule requiring three yards to be made on first down is also receiving some consideration. Walter Camp is back of the proposition this year and it is quite likely that something may come of it. Changes of this sort have little consideration if the first suggestion comes from the west. This is demonstrated by the fact that when the same suggestion was made by our coach, Dr. Williams, two years ago, it did not receive serious consideration. The east catches on after the west has pointed out the way. That

is, it catches on after sufficient time has elapsed for the country to forget and so give the proposition from the east the appearance of originality.

GREENLEAF CLARK

The following sketch of Judge Clark's life is reprinted from the Weekly of December, 16, 1901:

Greenleaf Clark was born in Plaistow, Rockingham county, New Hampshire, August 23, 1835. He is from Puritan stock and is the son of Nathaniel (the seventh of that name in direct line) and Betsy (Brickett) Clark. The first Nathaniel was an Englishman by birth, who settled probably at Ipswich, Mass., some time during the first half of the seventeenth century, and was married on November 23, 1663, at Newbury, in the same state, where he then resided, to Elizabeth Somerby, granddaughter, on the mother's side, to Edmund Greenleaf, who was of Huguenot origin, and came to Newbury in 1635. The paternal grandfather of John Clark enlisted March 14, 1781, at the age of sixteen, in war of the Revolution. He was wounded during his service, which was continuous from the date of his enlistment to the end of the war.

Judge Clark attended the public schools of his native town, and was fitted for college at Atkinson Academy, in New Hampshire. He matriculated at Dartmouth College in 1851, and was graduated with the degree of bachelor of arts in 1855.

Immediately after graduation he began reading law in the office of Hatch & Webster, at Portsmouth, N. H., and after a short period of study entered Harvard Law School from which he was graduated, with the degree of laws in 1857. During the same year he was admitted at Boston to the Suffolk bar.

In the fall of 1858 he came to St. Paul and engaged as clerk in the law

office of Michael E. Ames. After a brief term of service in that capacity, he entered into partnership with Mr. Ames and ex-Judge Sherburne under the firm name of Ames, Sherburne & Clark.

From the date of his coming to Minnesota, 1858, until he gave up the practice of law in 1888, Judge Clark was recognized as one of the foremost lawyers of the Northwest. His services were in constant demand in cases where large interests were involved. It was said of him by one who often sought his counsel in matters of the greatest magnitude, that if he had to drive a tack he took a sledge hammer to do it. This was not meant as sarcasm, but simply an exaggerated way of saying he was thorough in all that he did.

For many years he was largely engaged in the legal service of the leading railroads of Minnesota. His services were most in demand in matters connected with the organization and construction of extensions and proprietary lines and properties and preparation of trust deeds and securities connected with the financing of the various companies.

A well-authenticated incident illustrates this. Judge Clark was called upon about the time he was quitting practice, by the president of a new railroad to draft a contract. Judge Clark told him to get some one else, that he would have to charge him too large a fee. The president asked him how long it would take him he said five days and five nights (meaning thorough work), and his fee would be five thousand dollars. The president went away, but returned the next day and laid down his bundle of papers, saying that he wanted Judge Clark to do the work. The reply was it was too late; he was going to New Hampshire to visit his mother. The thoroughness of driving tacks with a sledge

hammer pays when it comes to the great interests of modern industrial development, as it does in all things else.

1881, Judge Clark was appointed to the supreme court by Governor Pillsbury to fill out the term made vacant by the death of Judge Cornell. He served for one year as associate justice and then went back to the practice of law. While Judge Clark's period on the bench was very brief, a number of his opinions delivered during that time have become leading cases and landmarks in the law. It was during his term of service that the important case involving the constitutionality of the legislative enactments for the adjustment of the Minnesota State Railroad Bonds was decided.

Judge Clark resumed his practice, but in 1888 overwork had so wrought on his vigorous health that his physician advised him to quit work altogether. He could well afford to do so. Nearly thirty years of close application had carried him well to the head of his profession, and secured him an ample fortune.

It cost him a struggle to abandon his profession at the height of its honors and income, but he wisely chose to do so.

He has since employed his time, not in idleness, but in useful public and semi-public duties, and in many ways is active in promoting schemes and enterprises in the direction of the public welfare.

PRESIDENT NORTHPROP'S TRIBUTE

"He was a gentleman of the old school, with all the regard for honor which characterized the best men of the generation to which he belonged. He was a native of New Hampshire, a graduate of Dartmouth College, in N. H., and at the last Commencement

Judge Clark was honored by Dartmouth with the degree of Doctor of Laws.

"All his life of many years in Minnesota, Judge Clark was the close and confidential friend of Governor John S. Pillsbury, and he became President of the Board of Regents after Governor Pillsbury's death in 1901.

"A more loyal friend, a more honorable gentleman, a citizen more devoted to the welfare of the state, or an officer of the University with more wisdom and devotion to its interests does not survive him—for there was no one in all these respects superior to him.

"I feel his death as a personal bereavement.

"He was the last member of the Board of Regents as it was constituted when I was called to the State. Other men are living who were then Regents, but they are no longer Regents. He has been continued as a member of the Board during all these twenty years and he has always been a wise counselor and the truest of friends."

PERSONALS

L. W. Anderson, Med. '04, is interne at the Bethesda Hospital, St. Paul.

The address of Miss Hattie L. Andrews, who is spending the winter in California, is 767 S. Los Robles ave., Pasadena.

Miss Lella P. Johnson, '93, is state secretary of the Y. W. C. A. of Michigan. Her address is Philharmonic Hall, Detroit, Michigan.

Louis H. Fligman, Med., '01, has just returned from Europe, where he has been for the past seven months. He is located at Helena, Mont.

A. R. Gibbons, '04, is assistant manager of the South Chicago Store of S. H. Knox & Co. His address is 9118 Commercial Ave., So. Chicago.

Harry L. Dixon, '97, is theatrical manager and actor. His permanent address is Northfield, Minn.

Walter J. Allen, '00, is editor of "The Dawn," a magazine published at the Connecticut State School for boys. He is also instructor in printing in the same school. His address is Meriden, Conn.

Miss Alice Craig, '99, is teaching in the high school at Portland, Oregon. Her address is 474 Hall Street. Mrs. Marion Jean Craig Wentworth, '94, is living at Marquan Lake Farm, South Hanson, Mass.

Paul E. Potter, Law '02, of the firm of Potter & Potter, Toledo, O., the Drummond Building, writes to say that he enjoys the news which the Weekly brings him and the recollection of the many pleasant hours spent in the University of Minnesota.

Charles T. Conger, '90, is instructor in history in the Orange Union High School of Orange, Cal. He says that "oranges, roses, and sunshine tell the story. No umbrellas, furs, ulsters, or anthracite are need here. I pity you these mornings during the 30 below zero weather."

Fred U. Davis, '98, Med. '02, was married Monday, November 28, at St. Johns Episcopal Church, Mankato, to Miss Erna M. Lossow, of St. Clair. Miss Lossow is the daughter of Mr. and Mrs. Frederick W. Lossow. Harvey S. Clapp, Law '04, was best man. Dr. and Mrs. Davis will be at home to friends after January 1st, at St. Clair. The note which appeared in the Weekly some time ago concerning the marriage of Dr. Fred U. Davis, should have read Dr. Fred W. Davis. With this change the note was correct.

The Fencing Club under the direction of Prof. Penwell is arousing great interest among the students of the University.

Miss Alice Child, '01, who has been travelling with her mother in the east visited the University last week.

Miss Mary Woodward, '02, is at her home in St. Paul Park taking a year's rest.

Miss Elizabeth Barstow, '02, is spending the winter with her sister, Mrs. H. W. Seager of Redlands, Cal.

Miss Maud Wheaton, '00, is principal of the high school at Little Falls this year.

Miss Rose Simmons, '96, is teaching in the high school at Brainerd, Minn.

Mr. Thomas Strate, Eng. '01, was married last October to Miss Dahl of Moorhead, Minn.

Dr. Daniel A. Nicholson, Med. '97, has resigned his position in the state hospital at St. Peter and will locate at Seattle, Wash., about the first of the year.

Dr. Norman Cox, '99, Dent, '61, has entered into partnership with Dr. Holmberg, Dent, '01, at St. Peter.

Miss Mable Case, '01, will enter St. Luke's Hospital 113th Street and Amsterdam Avenue, New York City, about the first of the year to study nursing.

The death of Judge Greenleaf Clark and the election of Elmer Adams, '04, will leave two vacancies on the board of regents to be filled by appointment of the Governor.

Cleve W. Van Dyke, ex-'95, of Alexandria, has been appointed Governor's executive clerk by governor-elect, Johnson. Mr. Van Dyke was a candidate for congress this fall on the democratic ticket and has served several terms as county superintendent in this state.

It will be of interest to the alumni to know that Governor-elect Johnson has reappointed Honorable John W. Olson as superintendent of public instruction and Mr. Schulz has been reappointed as assistant superintendent of public instruction.

Two of the leading articles in the December number of Education are by alumni of the University. David E. Cloyd, '01, superintendent of schools, at Wheeling, West Virginia, writes upon city school administration, while Elizabeth H. Avery, Ph. D. '95, professor of history and literature at Redfield College, contributes a suggestive article entitled, the historical solution of a literary problem.

SIGNIFICANT

The Minnesota game was in some respects more disappointing than the one with Michigan. The score was the same but, as noted, Wisconsin made first down but five times and generally was less effective.—Wisconsin Alumni Magazine.

The football banquet will be held December 15, at the West Hotel. Isaac Kaufmann, the football enthusiast, entertained forty guests including members of the team at his home on Franklin avenue south, last Saturday evening.

MOSE STRATHERN

"Mose" Strathern will be nominated for the office of President of the Athletic Board of Control at the election to be held next January.

A strong sentiment in favor of last season's football captain for that office has developed among the students during the past two weeks, and from present indications it seems certain that he will not only receive the nomination but go to the polls with a tremendous backing.

"Mose" has always been wonderfully popular with the students and he is a man who has their entire confidence.

The honor would come as one entirely unsolicited as it is doubtful if Strathern knows any thing of the plan on foot.

His election is warmly advocated not only by the students but by the faculty as well.

LAW ITEMS

Mr. Abbott who was instructing a class in Private Corporations has not met his classes for several days on account of the serious illness of his wife.

Mr. Willis opened the subject of Bailments and Carriers to the middle laws last week.

Dean Pattee has started a course of lectures to the Senior Night Class in addition to their regular work upon the subjects of Legal Ethics, Criminal Proceedings, Bankruptcy and Minnesota Real Property.

PAYING THE PIPER

Wednesday night at the National hotel the Phi Kappa Psis tendered a banquet to the Chi Psis.

The banquet came as a result of a foot ball game which was played between the two fraternities in October, and which was won by the Chi Psis by a score of 6 to 4.

About 40 members of the two fraternities partook of a sumptuous repast after which songs and speeches were indulged in.

Deke-Alpha Delta

A similar banquet will be served in the near future by the Alpha Deltas in honor of their friends the Dekes, who won out in an exciting contest by a score of 16 to 0.

JUNIOR JAMBOREE

Till the early hours of the morning, "froliced" the gay crowd that filled the armory Friday night at the Junior party.

As a social event the party met with unparalleled success, and the financial result was such as to be exceedingly gratifying to both the managers and the class as a whole.

The Junior Frolic will be numbered among the most important events of college life.

PEAVY PRIZE DEBATE

The Peavy Prize Debate, otherwise known as the Freshman-Sophomore debate, will be held in chapel Monday night at 7:30.

The prizes for this debate are given by

Mrs. Hefflefinger

the daughter of Mr. Peavy, thus keeping up the custom of her father in making these yearly bequests in the interest of debate in the University. The prize consists in \$25 to each member of the winning team.

The Question

will be, "Resolved that the Presidents policy in the Panama matter should be condemned."

The Freshman debating teams will be represented by Hugh McCune, Albert Evans and Milton Firestone. All of these contestants have had special preparation in their high school work and the grade of work becomes markedly better each year, due to the High School Debating League.

'04's ONCE MORE

On the evening of December 29, the class of '04 will hold a grand reunion at the Armory. The first part of the evening will be given up to the production of a play entitled "A New Hamlet," written by Wm. Hawley Smith.

The play is a parody on Shakespeare's play of "Hamlet" and "Romeo and Juliet" and has its great grand finale when Hamlet marries Juliet and Romeo is captivated by Ophelia's charms.

The whole play is bubbling with humor and the festive '04s certainly have a delightful evening in store for them.

Tokio is the largest university in the world, for not less than 48,000 young Japanese are studying in it. The favorite courses are law and civil and mechanical engineering.

KENNEDY PROMOTED

Arthur H. Kennedy, '01, who has been disbursing clerk in the customs office at Manila has recently been promoted to the position of special agent in the office of the collector of customs for the Philippine archipelago. His duties take him all over the islands and he has at his disposal one of Uncle Sam's revenue cutters, Sora.

Lyman L. Pierce, '02, General secretary of the Y. M. C. A. of the city of Washington has just returned from Cuba where he went for the purpose of taking part in the institution of a Young Men's Christian Association at Havana. The organization was formally started at a big dinner which was attended by President Palma. Mr. Pierce read a letter from President Roosevelt approving the plans and methods of the organization. Mr. Pierce was able to raise about one-half of the total amount needed to put the organization on its feet.

WILL PUT ON "A PAIR OF SPECTACLES" AGAIN

A coup d'état for the Dramatic Club. It will present "A Pair of Spectacles" at the Metropolitan for three successive performances the second week in January.

The offer to take on the Dramatic Club came Thursday morning from the booking agent of the Metropolitan Theater and the young Thespians were given until evening to decide whether they would "show" before a Metropolitan audience for half a week.

The manager and his staff awakened from the slumber which has held them fast for the six weeks and were busy yesterday telegraphing to Duluth and Chicago to two of the principals in "A Pair of Spectacles" which was presented at the Lyceum November 4.

Early in the afternoon word came that Dr. Burton would reach Toledo, Ohio, that afternoon, to deliver the last of his series of lectures in the Chicago University Extension Course. Word was at once sent to Toledo.

Several members of the cast were down at the telegraph office all evening, waiting anxiously to hear—and just before 10 o'clock, they went right up in the air for the following words from "Mr. Benjamin Goldfinch," otherwise Dr. Burton, came off the tape.

"Delighted to hear it. Will be with you first week in January for rehearsals."

YOST HURRYING UP

Yost has written letters to the two most promising players in the twin cities asking them to come to Michigan.

John Marks, fullback on the North Side High School team and acknowledged as one of the best men that ever played on a high school team received a letter urging him to come to Ann Arbor and setting forth the advantages of Michigan, particularly in the line of athletics. Frykman, of the East Side Team, an all-star man, and phenomenal punter was the recipient of a similar letter.

These men belong properly to Minnesota; if they were to make an unbiased choice of colleges they would naturally choose Minnesota.

They have been reared in Minneapolis and doubtless the first gridiron they saw or heard of was Northrop Field. They have been supporters and rooters for the Minnesota team and the ambition of their lives should be to shine on that team.

Northwestern plans to have President Roosevelt dedicate its new athletic field.

FRESHMAN TEAM PLANNED

Next year Minnesota will have a Freshman football team. A special coach will be engaged for this team and it will play a short schedule of its own.

This action was taken by the Athletic Board at its meeting last night, and was done for the purpose of bringing out and developing material among the first year men.

Seventeen men have been recommended by Dr. Williams and Captain Strathern to receive the 1094 "M."

The matter will be considered at the Board's next meeting and most of the men so recommended will get the coveted emblem.

Those who get the "M" will be lucky indeed, for besides the regular annual banquet given them by the Board, they will receive gold football fobs, and varsity sweaters of a new pattern.

The exact pattern of these sweaters is somewhat of a mystery, but it is known that the initials on them will be white instead of maroon as heretofore, and will be of silk woven into the sweaters.

The banquet at which these will be presented will be held the evening of Decemebr 15, at the West Hotel.

Next year's Captain will be elected at that time.

Dr. Thomas Drown, who has been President of Lehigh University for the past nine years, has just died. Dr. Drown was one of the charter members of the American Institute of Mining Engineers.

CHRISTMAS MAGAZINE

The Christmas Issue of the "Mag" is well under way and the students will receive a literary treat when it appears.

Professor Schlenker has contributed a fine article on "Christmas Customs in Germany" which should not only be entertaining but very instructive.

Another article of great interest is Miss Firkins' contribution on "Rare Books in our Library." We have a great many that have been gathered together in recent years but that the student body knows almost nothing about.

There are also four first-class short stories that have been sent in by students.

In a football game with Kalamozoo College, Heston of Michigan, made 515 yards.

One-half of one per cent. of the population of the United States is college-bred. From this small number, 36 per cent. of congressmen, 45 per cent. of senators, 56 per cent. of vice-presidents, 65 per cent. of speakers of the house of representatives, 83 per cent. of supreme judges and 70 per cent. of presidents have been chosen.

Harvard's Sophomore class has honored itself by electing as president W. H. Keeling of Sioux City, evidently the most popular and proficient member, notwithstanding that he is earning his way through college by serving as waiter.

MUCH MONEY MADE

There is at present \$17,000 in the strong box of the Athletic Association.

Outstanding debts remain unpaid, aggregating about \$5,000.

This means that after all accounts are settled, Manager Reed will have cleared

Some \$12,000,

as a result of the past football season.

This is a remarkable showing, considering the schedule which Minnesota played. All the big nine teams she met were teams which had been previously defeated and consequently failed to draw the crowds they should.

Only \$1,200

was received by Minnesota as her share of the gate receipts at Cedar Rapids.

With the proceeds of the football season, the other branches of athletics will be supported. Baseball and track athletics never pay for themselves and indeed all minor branches of athletics depend upon the premier sport for their funds.

Although all arrangements had been made to present a Dramatic Club play in seven of the smaller towns of the state, the idea had to be given up because of the lack of time for preparation before the Holidays.

All members of the Club regret that this decision is final and they are already busy planning for a second play to be given during February.

LIBERAL ASSOCIATION MEETING

The Liberal Association will hold a students' meeting Tuesday evening of this week in the Y. M. C. A. rooms.

The general subject of the meeting is to be "University Needs and Reforms." No lecture is to be provided but every one who has at heart any interest of the University will have full liberty to advocate any original scheme for reform, or to attack, defend or criticise any practice or institution, present or future, actual or theoretical from the board of control to the cultivation of barbed wire fences on the campus.

Among the subjects of debate will certainly be the new buildings, library reforms, the present curriculum and the matter of saving a memorial from the ruins of the Old Main, perhaps also the honor system, the sick fund, and a method for preventing conflicts among university functions.

BASKET BALL

Columbia and Minnesota meet in a basket ball contest in New York on the 6th of February.

The contest is the result of the negotiations which Manager Reed has been carrying on with Columbia during the past week.

The date is only provisional, however. The game will not occur unless the Minnesota team makes an eastern trip at that time, as it would be impossible to take the team to New York just for the one contest.

OUTDOOR WORK

A recently published report from the department of physical culture of Amherst College in regard to an experiment in open air athletics, shows remarkable results. Some ninety freshmen who heretofore had exercised in the gymnasium with dumb-bells, this year were taken to Pratt field every day and put through regular athletic work, the class being divided into squads according to ability. At the end of the outdoor training these men, who had been weighed and measured at the beginning of the training, were again examined and great improvement in their physical condition was found. Each man has grown an average of one-fifth of an inch taller and increased in weight seven pounds.

Bowden College recently celebrated the hundredth anniversary of the birth of Nathaniel Hawthorne. He, with Longfellow, graduated from this institution in 1825.

Father Byrne addressed the University Catholic Association Sunday, Dec. 11th, upon the subject, "The Tribunals of Tradition."

The Chinese government has presented the Chinese Department at Columbia, a standard Chinese encyclopedia which consists of more than 5,000 volumes, or the equivalent of 100 volumes the size of an ordinary encyclopedia.

About fifteen men are getting out regularly for basket ball practice, and a strong team is being developed in the armory.

If you wish to secure a position to teach, write to James F. McCullough, Railway Exchange Building, Chicago.

A TEAPOT TEMPEST

Owing to the report that Miss Florence Stone of the Ferris Stock Co., at the Lyceum Theater is going to act one of the leading roles in the class play, the Senior class play committee is having all kinds of trouble.

Many of the illustrious members of that class, who have shown their dramatic talent in so many amateur performances in local theaters can't understand why the committee should think of bringing in any professional talent, when there is such an overabundance of it right in the class.

The Senior class play always has been and, they think, always should be given by home talent, and they do not wish to depart from this precedent.

With an extra watchman to watch the buildings and a new system of watching the watchman, the campus will be afforded greater protection in the future.

Senior girls made their initial appearance with caps and gowns in the Chapel Saturday. There was the largest representation ever seen before for the first appearance and they occupied eight rows in the front of chapel.

BANQUET FOR EDDIE

Section D, of the Freshmen Engineers showed their appreciation of E. P. Sanford by giving a dinner at Donaldson's Saturday evening.

After the feed there were speeches.

H. C. Estep spoke in behalf of the class, remarking that any man who could make literature and engineers mix deserves great credit.

Mr. Sanford responded, saying that he liked to see the breaking down of the barriers between student and instructor. He then gave an interesting discourse on the "Scientific Demonstration of a Future Life."

Early last week the faculty met and suspended a student who wrote up the Dame Fire-Fly report which appeared in the Times, and which caused such a rumpus among the members of the Woman's League. Friday the faculty met again and the man was reinstated. This is a changeable world and while not of the world, the faculty are still decidedly in it.

Chances are that a lecture system will be established here this winter which will enable students to hear various speakers of the day.

A PERSONAL WORD.

The Weekly was established in the spring of 1900, although the first number was not issued until September of that year. It was the outgrowth of a suggestion made by the present editor to the business manager of the Minnesota Daily. The original idea was simply to pick out the most interesting news items appearing in the Daily during the week, and print them in a single number at the end of the week. It was estimated that if three hundred alumni could be secured to subscribe for such a paper it would pay expenses. The plan was brought up at the annual meetings of the various alumni associations and the idea was received with such great favor, that, at the close of ten days, more subscriptions than were necessary to secure the expenses of the movement, as first planned, were secured. The idea grew and developed, and as there were a sufficient number of subscribers secured to warrant larger plans, such plans were made.

At the request of President Northrop the present editor undertook the task of editing the paper, and has continued to edit it from the beginning down to the present time. Last spring the editor offered to turn the Weekly over to the General Alumni Association and to edit the same for the present year. Owing to certain complications, it was thought inadvisable for the General Association to accept the offer of the editor, so the Weekly remains under the sole direction of the present editor, although it has been officially declared, by the General Association of Alumni as the official paper of the Alumni of the University.

The Weekly up to the present time has not been a paying investment, and it is only due to the fact that the present editor has served without remuneration, that the Weekly has been able to live and expand as it has during the three years and a half of its existence. The alumni into whose hands this copy may fall are urged to subscribe for the Weekly. In order that the Weekly may be of the greatest use to the University and to the alumni it is necessary to secure a material addition to the number of subscribers.

The Weekly has shown its right to exist and will undoubtedly continue to be published, since it has proved already so valuable a means of communication among the alumni that its subscribers would not be willing to see it discontinued.

The editor of the Weekly would be ungrateful if he did not take this occasion to thank those who have stood by the undertaking so loyally, and have supported the Weekly by their subscriptions, and who have encouraged the editor in his work by their sympathy and words of appreciation and kindness in sending in interesting items of news. The present editor will continue to edit the Weekly for some time to come, probably until the general alumni association can see its way clear to assume full control.

In order to give the alumni, who are not already subscribers, a chance to make the acquaintance of the Weekly, the following proposition is made:

The Weekly will be sent to any address, for the balance of the present year, for fifty cents. The money must be paid in advance as the margin of profit is too small to allow for any expenses for printing and postage which are required when subscriptions are not paid in advance. This will give those taking advantage of this offer, twenty numbers of the Weekly for the small sum of two and a half cents a copy.

The Weekly has been spoken of, not a few times, as a "letter from home," and to those who look back upon Alma Mater as a second home the phrase is not inappropriate. The Weekly will report, from week to week, corrections to the directory as they may be reported. It is expected that a large number of the 500 who have not been located will be reported when the directory reaches the alumni generally. That is, the Weekly will furnish a supplement to the directory and keep it always up to date.

The Weekly sends to all the Alumni of the University a hearty,

Merry Christmas,
and a no less hearty
Happy New Year.

PERSONAL

In order to secure sufficient advertising to cover a portion of the expenses to make the WEEKLY come out even on the venture, it was found necessary to agree to send the directory to all the alumni, whether subscribers or not. The income in sight is not quite sufficient to make the venture pay for itself, though the amount lacking is comparatively small. Any alumnus into whose hands the directory may fall, who has not already subscribed for a copy, who thinks the directory worth fifty cents may send the amount to the editor of the WEEKLY. REMEMBER that you are not urged to do this and that you are under no obligation, moral or otherwise to do anything about this matter.

General Alumni Association of the University of Minnesota

FEBRUARY 11th, 1905, 6:30 P. M. SHARP

At the Armory on the University Campus

Plates 75 Cents

Signed :

**The Board of Directors of the
General Alumni Association**

REMEMBER THE DATE

AN OPEN LETTER TO THE ALUMNI OF THE UNIVERSITY OF MINNESOTA.

The Board of Directors of the General Alumni Association realize more than ever before that if the Association is to be a permanent influence for the good of the University, the necessary funds must come from a source more reliable than the annual dues. Letters have been sent to all the alumni accessible urging each one to send ten dollars for the life membership fund or, if unable to do this at present, to send at least fifty cents as annual dues.

The number that have replied is discouragingly small. Are you one of those who failed to respond? If you are, respond now before you forget it. The Association is still in debt for postage, printing, etc., required in connection with the circulars sent out and the reception held in honor of President Northrop. Yet we are 5,000 strong (!?)

Of course the sending out of more notices and announcements is impracticable under such conditions. Even this open letter is made possible only thru the loyalty and kindness of the editor of the Alumni Weekly.

Mr. Johnson also printed and is sending this Alumni Directory to every alumnus at his own expense. This surely is a work that properly belongs to the General Alumni Association and every alumnus that can should show his appreciation of Mr. Johnson's interest and self-sacrifice by helping him to bear the financial burden to the extent of the price of the directory. Many even neglected to return the stamped data cards Mr. Johnson sent out relative to the Alumni Directory. Make amends now by responding to one or more of the points made in this letter, and help the Board of Directors to place the Association on an assured financial basis.

Saturday evening, Feb. 11th, 1905, has been decided upon for the annual dinner and business meeting of the General Alumni Association. The dinner will be served at 6:30 p. m. sharp. Plates, 75 cents each.

The business meeting and social time will come immediately after the dinner. Prominent alumni will make addresses upon important and timely matters. You will also have an opportunity to speak or sing or do both.

Come to hear the report of the Board of Directors—

Come to hear the speeches—

Come to express your thoughts and feelings—

Come with your hammer and your harp—

Come to have a good time with other alumni at the Armory on the campus Feb. 11th, 1905.

HENRY F. NACHTRIEB,

President of the General Alumni Association of the University of Minnesota.

AMEN! AND AMEN!

The meeting of the alumni which is to be held February 11th, 6:30 p. m. sharp, is one that every graduate of the University should attend if by any means he can make it possible to do so. Every one who attended the meeting last year will surely be there. Not one would be willing to miss such an opportunity to meet and greet old friends and to enjoy once more the enthusiasm which they enjoyed as students, when Minnesota was victorious on the football field. Come out and forget that you graduated ten or more years ago. Let yourself loose and if you let your enthusiasm get the better of you and attempt to cut such pranks as you used to when a student, you need not fear the policeman for is not Percy Jones a graduate of the University as well as mayor of the city.

COME OUT! LET OUT!

As Professor Nachtrieb says,

"Bring your hammer or your harp,"

or bring both, each is quite as useful as the other in its proper place, and both are needed in this world. If you come once you will never miss another meeting of the kind.

"It is to laugh." Likewise it is to have a really enjoyable time. Likewise it is to think and plan and do for Alma Mater.

Come.

Come

COME.

"The most insidious of all forms of selfishness is inertia."

THE DIRECTORY.

The present editor of the *Weekly* made a requisition to the regents to be allowed to issue a directory for the present year. The Regents felt, that in view of the present state of University finances they could not issue the directory. Upon request of the editor, they authorized him to issue an official directory, provided the University would be at no expense other than for the postage necessary for collecting information. Cards were sent out and the alumni, by their general response, showed their hearty approval of the plan. This directory is a result of the effort. No one realizes more fully than the editor does how incomplete and far from ideal this directory is.

The following statement is given, not as a complaint, but simply to explain why so many names are given without addresses and why so many are given with incorrect addresses. Nearly one-third of the alumni, practically fifteen hundred, failed to respond at all to the cards sent them.

Of this one-third, the editor was able to locate about two-thirds through inquiries among friends, searching the twin city directories and advertising in the *Weekly*. This left practically five hundred still not heard from. Most of these names are given with the last address known, and any of the alumni, into whose hands this directory may fall, who know of a change in address, will confer a great favor upon the University by reporting such corrections immediately. It is proposed to get out a supplement of this directory next fall, with a complete directory of the class of 1905, and all changes which are reported before the time of going to press which will be about the first of next November. The subscribers of the *Weekly* will get a copy of this supplement free, others can secure a copy by the payment of fifty cents.

All has not been smooth sailing by any means. The indifference of such a large body of the alumni to their own interest and the interests of Alma Mater has been actually painful. Some of the disagreeable features of the task are indicated by the following: One graduate took pains to write a full page letter suggesting a change in the form of the directory to make it more useful. The following of the plan suggested would have made a very decided increase in the expense of issuing the directory, and then he forgot to subscribe for a copy.

When the directory of 1902 was issued, a copy chanced to fall into the hands of a graduate whose address and occupation the editor had been unable to secure, though diligent inquiry was made in that particular case.

This graduate sat down and wrote the editor a "rich brown roast," but failed to give the information needed to correct the directory, but said that "if all the information is as correct as that concerning my address and occupation, I fail to see its value."

To which the editor of the directory replied that he did not suppose the directory was very valuable, but that if all of the alumni would show the same interest in the matter that this gentleman had, he could easily see how it might be made very valuable, and then called attention to the fact that the letter making the complaint failed to give the information desired and requested a report that would enable him to make the necessary corrections.

The gentleman saw the force of the indictment and "came down" very magnanimously, and has taken pains to keep in touch with the "I" ever since.

Such experiences have been the exception and not the rule, and the editor feels profoundly grateful that it has been his privilege to come into personal contact with so many of the noble men and women who make up the great body of alumni of the University of Minnesota. The great majority are loyal through and through, and it is probable that the large majority of the alumni who have not responded this time have failed to respond, not so much through real indifference to the University, as through a failure to appreciate the necessity of attending to such things and attending to them at once.

The editor of the *Weekly* desires to personally thank the alumni, who have taken an active interest in forwarding the project of is-

uing a directory, most heartily, for their kind words of commendation and offers of assistance and actual assistance rendered. It has been impossible to make a personal acknowledgment in each case and the editor begs to assure those who have assisted, in any way, that their kindness has been appreciated.

A GREAT CELEBRATION.

On the evening of September 30th, there was celebrated the seventieth anniversary of President Northrop's birthday, the forty-third anniversary of his wedding and the beginning of the twenty-first year of his administration as president. The occasion was most notable. Over four thousand persons stood patiently in line for an opportunity to greet the President and to wish him God-speed.

PRESIDENT NORTHROP'S GREETING.

To the Alumni of the University of Minnesota—
To everyone of you I send greetings with heartiest good wishes.

It is a great pleasure to me to hear, as I often do, of your success in life. I have been greatly cheered of late by the marked interest which the Alumni have taken in the welfare of the University and the generous plans they have devised for increasing the usefulness of the Institution. You do not know what a comfort it is to me to feel the rising tide of influence exerted by our graduates and affecting in no small degree the public sentiment of the state as well as its policy in legislation. You who are outside of the direct management of the University can do far more for it than those who are in special charge, because you are less open to suspicion of having any personal interest to serve. The University can not be what it ought to be and what you would like to see it, until it has larger means at its disposal than at present. It can not enlarge its work, and it can not do even its present work in the best way. Only those who believe in the higher education as productive of good to the state, far exceeding the cost, can be expected to show a hearty satisfaction in expending what is necessary to make this education general. I am sure the graduates of the University do thus believe, and are ready to help. With the compliments of the season, and best wishes to all, I am yours,

CYRUS NORTHROP,
President.

BASKETBALL.

In basketball, the seasons of 1903 and 1904 left Minnesota with a clear claim to the championship of the United States. The teams made remarkable records in both seasons, coming thru without being defeated by a single college team. In 1902 the team defeated Yale in one of the fastest games ever seen in the west. The defeat was clear and decisive, and left Minnesota's claim to the championship of the United States undisputed.

THE BOARD OF CONTROL.

DR. FOLWELL'S GREETING.

"Have you not some message for the Alumni?" is your inquiry, Mr. Editor.

I have always the short message of goodwill and Godspeed for the alumni, more especially for that section of them whom it has been my privilege to instruct. I have now been so long commorant on the campus, and according to the almanac have tallied up so many years that I might be justified in assuming the paternal attitude, and reach out hands of benediction over them. It has, however, not yet come to that. I am still a fellow-worker with my students, past and present. It was Niebuhr who said that his pupils were "the wings with which he flew." I know this is the fact in my case. The interest and sympathy of my students is absolutely necessary to me. If the time shall come when I can not deserve them, or at least obtain the show of them, I will vacate my long accustomed chair.

My message to my old students then is less one of blessing than of gratitude. You have my warmest thanks for your co-operation and friendship. Happy moments are those when an old student comes to see me or writes me and has some little word of appreciation for some thing said or done, which has helped him.

My counsel for you is all summed up in the well-worn line of Virgil, "I, macte nova virtute, puer; sic iter ad astra." Go on, keep on, in that path of virtue which leads heavenward.

The increasing interest and devotion of the old students to Alma Mater, is most grateful to us who are charged with administration and instruction in the University. There will never be a time when such devotion will not be needed. Alma Mater is ever to be justified by her children.

Already the seed sown in the good ground of your hearts and minds is bearing fruit. University graduates are filling executive chairs, are seated on the judicial bench, and their voices are heard in legislative halls.

On the morning of Trafalgar, Lord Nelson signalled to the fleet, "England expects every man to do his duty." The "Varsity" expects—she does not ask, that were superfluous—she expects every alumnus to do his duty.

WILLIAM WATTS FOLWELL.

UNIVERSITY MAN MAYOR.

The election of D. Percy Jones, '83, as mayor of Minneapolis in spite of the strongest opposition of the elements which have disgraced the fair name of Minneapolis, is a triumph not only for Mr. Jones, the man, but a triumph for decency in municipal affairs, and shows that the University is doing its part to bring about a better administration of public affairs.

For many years the University was governed by a board of regents appointed by the governor, and confirmed by the senate of the state, and during the years of such rule the University prospered and not a word of criticism could be passed upon the financial management of the institution. The record of those years of administration are an open book, which all may read and know. The history of how the board of control came to be placed in charge of the finances of the University is such recent history, that it is probably familiar to most of the University alumni. Lest some should not have the matter clearly in mind, the following condensed statement is made. The board of control bill was before the legislature, a University alumnus was its special champion and defender. There came a moment when the enemies of the bill were determined to defeat the bill at all hazards. As a last resort they determined to make the bill odious by bringing under its provisions the educational institutions of the state. The man who offered this amendment had no other thought in mind, but the gentlemen who most closely represented the University interests, as well as being a special champion of the board of control bill met the opposition acceding to the demands and allowing the educational institutions of the state to be brought under the provisions of the bill. The bill in its amended form passed. It was believed by the friends of the University that the bill, in the form in which it was passed, was unconstitutional since the title of the bill was not amended to include the educational institutions. The governor signed the bill with that understanding in mind, and for something over a year the board of regents continued in full exercise of their complete authority over the affairs of the institution. The normal school board voluntarily waived what it considered its legal right and placed itself under the charge of the board of control. Within a few weeks friction arose and there was trouble between the two boards concerning the division of authority. The normal school board attempted to withdraw from the position in which it had voluntarily placed itself. This attempt was resisted in the courts and the matter was brought before the supreme court of the state, and the court decreed that educational institutions of the state were included in the title of the bill under the provision for the care of "charitable" institutions. Such a decision, of course, had to stand, although including the educational institutions with the "charitable" institutions is undoubtedly repugnant to the sensibilities of all right thinking people. The regents were allowed to continue in exercise of full authority in matters relating to the University, and when the legislature met, the matter was brought to them and a special attempt made by the friends of the institutions located at Faribault and Owatonna to secure the release of those institutions by using the University and normal schools as a whip. A bill passed the house removing all of the institutions from the provisions of the board of control bill, but was defeated in senate. Another bill originated in the house removing simply the Faribault institutions, the normal schools and the University passed the house, but was defeated in the senate. A third bill removing simply the University and the normal schools from the provisions of the bill originated in the senate, passed that body but was defeated in the house. Friends of the other institutions, grasping at the last straw that seemed to offer any hope of their ever being released from the board of control, turned against the University and secured the defeat of the bill. The legislature adjourned and it seemed to the regents that since the legislature had had the question fairly before it and not removed the University from the provisions of the bill, the proper thing for them to do was to accept the will of the people, as expressed through the legislature, and overtures were made to the board of control and an attempt made to come to some agreement concerning the powers of each board. A *modus vivendi* was established and the board of control is now in the second year of the financial management of the institution. The year and a half during which the two bodies have had each partial control of the institution has determined

beyond a doubt that such control is not for the good of the institution. The board of control put itself on record as opposed to such control, before assuming the financial charge of the University, and more recently in a preliminary statement of their forthcoming report, given to the press, has again committed itself as opposed to such control. The regents have put themselves on record as opposed to such control; Governor Van Sant has urged such relief and the departments of the University are a unit in their belief that the present system is both cumbersome and inefficient and opposed to the true interests of the University.

Of late the University has been threatened with a new, and it is believed by most friends of the University, a still greater peril in the form of an educational board of control. Friends of this idea propose to use the present unfortunate condition of affairs as a whip to force through the new educational board of control bill. It therefore becomes the duty of every alumnus of the University, and its other friends, to do all in their power to prevent the consummation of this unfortunate plan.

The election of Governor Johnson removes a large share of the danger from this plan, as he has pledged himself to do all in his power to prevent the passage of such a bill, and such a bill cannot be passed over his veto. But this is not enough—every member of the legislature should be made to pledge himself absolutely to work and vote for the repeal of the present law so far as it relates to the University. The peril is a real one, and the friends of the University should rally to its support. It is an exceedingly distressing state of affairs when friends of one institution of the state can use the greatest educational institution in the state, as a whip, to secure their selfish ends. The affairs of the University should be considered on their own merits, and absolutely independent of all other considerations, save the good of the state as a whole, and the interests of the University, and the interests of the state are one.

No friend of the University will object to any act of the legislature intended to secure economy and carefulness in the determining of what expenditures shall be made and any act which the people of the state feel is necessary to secure this end, and yet not hamper the institution in its development, will be welcomed by the friends of the University, but there is no question that a bill giving partial control of the institution to each of two boards amounts to neither board being able to control it. All expenditures must be the result of compromise and such compromises cannot but result in a loss of efficiency in the work of an institution of such a kind. It is hoped that every friend of the University may come to see and appreciate the full force of the situation as it exists today, and be on the alert to assist in removing the University from the present situation and placing it in a position where it will again stand unhampered in its work for the good of the state.

THE WOMAN'S BUILDING.

It is plainly seen that the women of the University are in earnest with regard to the building which they hope to see erected on the campus in the near future. That such a structure is the greatest need the University has, excepting the Main building, is granted by everyone who is at all in touch with campus affairs, and it is too clearly demonstrated every day that the institution is most incomplete without this proposed addition.

One scarcely realizes that nearly five hundred of the seven hundred and seventy-five girls who are at present attending the University are Twin City residents and they are, almost without exception in the buildings all day. The remaining number, boarding near the campus get home for lunches, but during the remainder of the day suffer the unavoidable inconveniences whose name is legion. These consist in the main, of negative evils, the lack of necessities, without which no college is complete, and which the new building proposes to remedy.

The college women, organized as the "Woman's League," have been hard at work for two years with this end in view, and in that time

have succeeded in establishing a fund amounting to about \$1300, which is constantly growing. This year it is hoped that the legislature will see its way clear to appropriate a sufficient sum for the erection of the Woman's building, and it should be the self-imposed duty of every loyal Minnesota alumnus and alumna throughout the state, to arouse in those who have the power of making such an appropriation a vital interest in the subject, and a realization of how great a need the present one is.

RITA KENDALL.

The Weekly desires to emphasize, very strongly, the statements made by Miss Kendall, the president of the Woman's League, in the foregoing statement.

The women of the University have long needed such a building, and they have shown such a commendable spirit of helping themselves that they deserve the support of everyone interested in the University. Few organizations of the University ever engaged in a more worthy work. May success crown their efforts to secure the building which they so much need.

A WORD FROM PROFESSOR SANFORD.

The Department of Rhetoric is indebted largely to the alumni for the maintenance of that system of prizes which has given such an impetus to the work in debate and oratory. Again and again have members of the alumni responded generously when the need of money for these prizes was presented to them; and for this aid I wish most heartily to thank them. They have helped us to gain the proud position we hold among the universities of the northwest, and they have a right to claim part of the honor of every victory we win.

The burden ought not to fall too heavily upon those who have already borne it. Are there not many who will gladly take a share in the stock? The dividends are sure.

MARIA L. SANFORD.

A UNIVERSITY SONG.

There has been a very strenuous effort made by the students to secure the adoption of a University song. In many respects the song of the class of 1904 is satisfactory for this purpose, and the proposition to adopt this as the University song is meeting with pretty general favor.

That the alumni may come to know the song it is given herewith. The first verse is general in its application and answers to the requirements for a University song. The second verse is a special tribute to President Northrop, and while very beautiful and appropriate as such a tribute, it does not answer to the requirement of an Alma Mater song which should be general and for all time in its application.

The third verse given meets this general requirement and is offered by the board of editors of the Minnesota Magazine.

After all is said, the fact remains that a college song cannot be made to order, nor can one already made be made to live, unless it has in it that which will appeal to the vast throng who call the University of Minnesota Alma Mater.

If this song is the song it will live; if it should not prove to be the song it will give place in time to another which will live, for Minnesota love and loyalty to Alma Mater is bound, eventually, to find voice in a song which will express the devotion which every loyal son and daughter feels for Alma Mater.

HAIL! MINNESOTA.

Music by T. E. Rickard.

Min-ne-so-ta hail to thee! Hail to thee our col-lege
 dear! Thy light shall e-ver be A
 bea-con bright and clear. Thy sons and daugh-ters
 true Will proclaim thee near and far. They will
 guard thy fame and adore thy name; Thou shalt be their Northern Star.

DEBATE AND ORATORY.

"The Freshman-Sophomore contest for the Peavey Prizes in debate was the best ever held."

This sentence appeared in one of the daily papers after the contest Monday night, December 12th, and indeed it has appeared so regularly of late years that close observers with good memories must begin to wonder why we are not distancing all our competitors and standing on the verge of perfection—with no room for improvement beyond. There is no immediate danger of cutting off progress by reaching perfection because in all lines the ideal keeps well in advance of the real. But there is truth in the sentence. Each contest is better than its predecessor. The standard is, possibly slowly, but surely rising. We are not defeating our opponents in all inter-collegiate contests, to be sure, because with them too the standard is rising, but not so rapidly as with us. It is dangerous to assume the role of the prophet, but I am willing to go on record with the statement that within ten years Minnesota will be winning more than her fair share of the victories in all forensic contests unless her competitors bestir themselves, because we are perfecting one of the best organized systems for the development of good speakers of any state in the union—and this is a day in which organization counts.

This system is not due to the unaided efforts of any individual but it is a composite—made up of the efforts of many persons, both students and faculty. Space forbids a full discussion of what has been done and what is contemplated, but a few leading features may be mentioned. The unselfish expenditure of a great deal of time and valuable counsel on the part of Dr. White, of the department of History, and Dr. Schaper, of the department of Economics, has made possible the indispensable feature of faculty control in debate and oratory. It is doubtful if any other members of the faculty, outside of the rhetorical department, could be induced to take such an active interest in work not entirely their own. It is University work, to be sure, but aside from their special interests. These gentlemen are members of the debating board, which is composed of four professors and three students, and they probably give more time to this work than any other faculty member is called upon to give to his committees. The Board meets weekly throughout the school year and supervises all forensic work both local and inter-collegiate. Through its efforts "juggling with judges" and "sharp practices" of various kinds have disappeared and the whole work has been placed upon a higher and more honorable plane.

We distribute annually nearly \$1,700.00 in prizes to successful writers and speakers and thus release many a poor but gifted student from newspaper-carrying and other menial but honorable employment and enable him to devote more attention to the work of his choice. As an example of this may be mentioned a law student of recent years who paid the tuition of his entire course from prize money. This is a larger sum than any other university—east or west—distributes among its students for the same purpose. It should be said in passing that these splendid prizes have been placed before the students through the personal generosity and untiring efforts of Professor Sanford more largely than any other individual.

The Forensic Honor League is an organization of recent origin but of great promise. Its purpose is to keep alive and unite more closely the bond of sympathy between the alumni who have been successful in this work and the undergraduates in the same line. It is an organization in which brains, application and courage count, and clothes, pull and money are eliminated, and is destined therefore to become as honorable a society as Phi Beta Kappa. Membership depends upon ability to represent Alma Mater in an inter-collegiate contest and the right to do this is earned through a long series of the severest kind of local and preliminary contests.

One of the most vital factors in the evolution of a higher standard of University debate and oratory is the High School Debating League. One or two events of recent occurrence will illustrate this. A year ago this month the fresh-

man-sophomore contest for the Peavey prizes was pronounced by competent judges to be the best ever held. This was undoubtedly true and yet so effective had been last year's high school training of this year's freshman class that they had almost closed up the gap of a year between themselves and the sophomores. After the preliminaries this fall for the choice of the freshman-sophomore teams, Mr. McElmeel, an old and honored inter-collegiate debater, remarked that the new men would defeat their older opponents unless the latter put forth unusual efforts. His prophecy proved correct, for on December 12th the freshmen defeated their opponents by a unanimous decision of the judges. Their rebuttal was unquestionably the best ever presented in the chapel by freshmen, and rebuttal is the final test of the debater.

Take a second illustration. Previous to last year the freshman-sophomore oratorical contest for the Peavey-Dunwoody prizes was appended to the debate, one orator from each class appearing. Last year interest had increased to such an extent as to warrant an independent contest with four representatives from each class. Still the interest grows and this year—December 17th—thirty papers were submitted for the contest, many of them surpassing in literary merit anything that has yet been done by undergraduates. Similar instances of striking improvement in local conditions might be mentioned and traced directly to the efficient work of the High School League.

Other units might be mentioned in the complete system that is being built up at the University, such as the Literary Union which is composed of the members of the five literary societies and holds a literary and social meeting once a month. The idea of the Union had its origin with Mr. Dow of the present senior class and the society is proving itself a valuable factor in cementing the scattered interest of literary work.

Finally, with the Forensic Honor League—an organization which keeps alive the interest of the alumnus in the undergraduate and in the honor of his Alma Mater; with the state High School Debating League—turning the attention of promising young men and women to this line of work and the honors and rewards it offers in the University; with the whole knit together into one complete system by faculty control, five good literary societies, the Literary Union and numerous prizes judiciously distributed the University of Minnesota can hardly fail to improve rapidly in both spoken and written English in the years to come.

E. E. McDERMOTT.

HONORS IN ORATORY.

Word has just been received that Theodore Christianson has earned the right to represent the University of Minnesota in the Hamilton Club Oratorical contest to be held in Chicago on the 11th of January. Mr. Christianson is a junior academic; a member of the Forum Literary society and president of his class. Since coming to the University he has been active in all literary work, and besides being a good orator, he is an excellent debater and has represented his class in both the Peavey and Dunwoody contests and has represented his society in a contest for the Jacobs prize cup, and won honors in the John S. Pillsbury oratorical contest. Through the efforts of Professor McDermott the University was admitted to the Hamilton Club contest last spring, although it had been organized for two years. The Club offers prizes of \$100 and \$50 to the successful contestants. Each of the eight large central universities between Minneapolis and Ann Arbor hold regular contests and choose their representative. From the orations thus submitted to the club, four are chosen for delivery before the Hamilton Club. This opportunity itself is a high honor. Mr. Christianson won one of the four honors. The Club requires the orations to be written on Hamilton, his contemporaries or events connected with his times, and some very interesting work has been done by the young orators on this important period in American history.

OF GENERAL INTEREST.

The following items of news are given as being among the most important events that have occurred at the University since the former issue of the directory in September, 1902. No attempt has been made to put the items in chronological order, but they are simply given as they presented themselves to the mind of the writer:

The New Course of Study.

Perhaps one of the most important changes made during the two years is the change made in the course of study, and plan for recitations in the college of science, literature and the arts. The working week is extended over the six days, and the course of study arranged so as to give courses of three instead of four as heretofore, and the work of the course is made almost wholly elective, the only requirements remaining at the present time being that mathematics and rhetoric must be pursued and that five two year courses must be chosen from the elective subjects, three of these courses being required to be chosen from five general groups specified.

This course has been in force during the present college year, and it is yet too early to speak of its general utility. The plan certainly has its advantages and it has probably come to stay.

ENTRANCE ENGLISH.

The following item will be of interest to the alumni. The Regents, at the suggestion of the faculty of the college of science, literature and the arts, adopted the following regulation:

Every person admitted to the University is examined in reading, writing, spelling and composing the English language, and all who fail to obtain a grade of seventy-five per cent are required to pursue a course of instruction to be provided, and no person is ever to receive a diploma or other certificate of merit or proficiency until he has passed such examination and obtained the specified credit.

Owing to various causes, not the least of which was the disorganized condition of affairs subsequent to the fire, the regulation was not strictly enforced this fall, but all students entering this fall will be required to pass the prescribed examination before entering upon the work of the sophomore year. Of those taking the examination this fall, thirty per cent failed to pass and under the terms of the regulation are being required to make further preparation in this subject.

THE BURNING OF THE "OLD MAIN."

The burning of the "Old Main" building on the morning of September 24th, of the present year, removes the last land mark of the University as it was at the beginning. The fire was discovered early in the morning and the building was burned to the ground, the walls of the back part of the building falling during the course of the fire, the walls of the front part remaining intact, but the entire inside of the building being consumed. The loss was very heavy as the building housed some of the most valuable libraries of the University. These libraries in some cases were totally destroyed, although a few departments were able to save some part of their libraries.

The older alumni will mourn the loss of this building as the only landmark with which they are familiar, but no doubt the destruction of the building will prove a blessing in disguise. The faculty arose to the necessity of the occasion, and on Monday morning following the fire class work was resumed in all departments, the classes having been distributed through the other buildings of the campus. Of course, this arrangement interferes with the efficiency of the year's work and causes untold inconvenience to the various departments deprived of their homes by the fire.

The plans for a new building are assuming definite shape, and the Regents voted at their last meeting to ask the legislature for \$425,000 to replace the old main building. The new building will be about three hundred and eight feet long and something like one hundred feet wide. It will provide for all departments formerly

housed in the old main, and probably for some of the other departments that are crowded in their present location. It is probable that the building will be located on University Avenue and extend practically from 15th to 16th avenues. The plans are being pushed and as soon as an appropriation is secured from the legislature work will be begun, but it is probable that the departments will not be able to occupy the building during the coming year. The departments will have to do their work as best they can subject to the possibility of arranging for rooms in the other departments which are already overcrowded.

A few weeks after the burning of the Main, a fire was discovered in the basement of the Mechanic Arts building. The fire was fortunately confined to one room and the loss was about six or seven thousand dollars. This fire caused the Regents to take heroic measures to prevent a recurrence of such an event. Two night watchmen are now employed and a system of clocks to watch the watchmen has been installed.

THE GREATER CAMPUS.

The movement for a greater campus has at last taken definite shape. It has been talked of more or less sub rosa for a good many months; the first public announcement followed a meeting held in the office of C. J. Rockwood, '79, who has been at the bottom of this movement. A number of prominent alumni met and appointed a committee to meet the Regents and present to them the desirability of securing additional land as shown in the accompanying map. It is figured that this would require an outlay of something like \$200,000, but the necessity for more land is apparent, and it will never be cheaper than at the present time.

MAP SHOWING PROPOSED ADDITION TO UNIVERSITY CAMPUS.

The committee met the Regents at their meeting not long since, and while the plan met with the most hearty approval, it was not thought wise for them to make a request to the present legislature to secure an appropriation for this purpose, being compelled to ask for so much for the new main building. It was thought that this was all that could justly be asked of the legislature at present. Just what the outcome of this movement will be remains to be seen, but there is no question about the need of more ground, and there is no question but that it can be secured at the present time under more favorable terms than it ever can be secured again.

THE MEMORIAL FENCE.

Since the last issue of a directory, the memorial fence which Mrs. Sarah Pillsbury Gale, '88, erected to the memory of her father, John S. Pillsbury, "Father of the University," has been completed. This fence adds greatly to the general appearance of the campus, and has already become one of its most prized features. In addition Mrs. Gale has given liberally of her time and money to the general improvement of the campus. New walks have been put in where needed and the campus has been kept up in first class shape.

GREATER NORTHPROP FIELD.

During the past two years greater Northrop Field has been improved and enclosed, with a brick wall. The main portion of the expense of securing the additional land and the entire expense of enclosing the field with the brick wall has been borne by Alfred Pillsbury, Law '94. The field is now one of the finest in the country and without any question is the finest field in the west.

SOLDIERS' MONUMENT FUND.

The Soldier's monument fund, upon which Professor Haynes has spent so much time and effort, is close to completion. A few hundred dollars more will make the amount needed to complete the monument, and it is hoped that by another year, it may be placed on the campus as an enduring testimonial of appreciation, from the alumni and students, of the patriotism of the alumni and former students who served in the War of the United States against Spain.

DEATH OF JUDGE CLARK.

The death of Judge Greenleaf Clark, on the 7th of the present month, removes the last member of the board of regents who has served since the early days. Judge Clark has served continuously since December 15, 1879, the date of his first appointment. He was one of the most useful members of the board and will be sorely missed in the councils of the University. He has been succeeded by Daniel R. Noyes, of St. Paul, who has also been elected to the executive committee of the board of regents, which position Judge Clark held. Mr. J. T. Wyman was elected president of the board of regents.

President Northrop has been granted a two months leave of absence, and will leave some time this week for the south and east. He does not know just what his itinerary will cover, but he expects to spend some time in the Bahamas.

LITERARY WORK.

The number of the literary societies is so great that it is impossible to name them all in the limits to which we are restricted, but it may be said that never in the history of the University has there been greater activity among these societies, and never has there been more conscientious and effective work done. The line of activity has a decided bent toward debate, of late years, and the inter-society debates have brought out some remarkable talent.

Of debating interests Professor McDermott speaks at length in another place. The recent Freshman-Sophomores Debate was said to be of unusually high order and the debate put up by the freshmen, who won, would have done credit to members of the senior class.

CHANGES IN REGISTRAR'S OFFICE.

The following is given as it is an item that may be of interest to many of the alumni who have not previously heard of it. Mr. Johnson, who has been registrar of the University for the past sixteen years, severs his connection with the University at the close of the present year. He has bought an interest in the H. W. Wilson Company and will have charge of the publishing end of the business of that firm. Mr. Ernest B. Pierce, '04, has been elected to fill the position and has been assisting in the office during the past two years, "learning the ropes." Miss Wood, who was for many years in this office, and who will be remembered so pleasantly by so many of the alumni, was married

last June to Mr. Herbert P. Leach, of Fairbault, Minn., where Mr. and Mrs. Leach now reside. Her place is taken by Miss Jane McKay, and so the office has an entirely new set of occupants.

CHRISTIAN WORK FOR WOMEN.

The Young Women's Christian Association, under the direction of Miss Mary Sanford, '04, is doing a wonderfully effective work for the young women of the University. The burning of the Old Main, seriously crippled the year's work by cutting off the use of everything but the little room which was formerly occupied by the accountant.

In spite of all obstacles the association is active and aggressive, as the following statements will show. The membership is now three hundred and fifty; there are one hundred members enrolled in eight classes for Bible study; thirty members enrolled in five mission classes, studying China and Japan. Two hundred dollars has been raised for the support of Miss Morrison, '02, whose work in Japan has given a new interest to the missionary work of the association. There are five missionary volunteers among the young women.

In social life the association has also been active for the help of the student body. With an opening reception for the young women in September, a Bible study tea in October, a Christmas party ten days ago and the weekly "noon chocolates" the young women have been brought together in close and helpful companionship. The noon chocolates are held every Wednesday noon; the young women bring their lunches and chocolate is served by the association and a delightful half hour is spent, followed by the regular weekly prayer meeting. The average attendance at these meetings has been about sixty.

Eighty girls have been helped to find rooms and boarding places; twenty-four provided with room-mates and ten helped to secure employment.

The loss of the parlor, through the burning of the Old Main meant more than the mere loss of a meeting place; it meant the destruction of many beautiful and valuable pictures given by friends and the loss of a piano which was not quite paid for.

The great need of the association is adequate quarters. The securing of a woman's building, concerning which we have something to say in another column, means that the association will be provided with the needed facilities for doing its work in the most effective way.

Miss Sanford and her co-workers are to be congratulated upon the wonderful way in which they have succeeded in spite of seemingly overwhelming odds against them and for the very effective and needed work which they are doing for the young women of the University.

CHRISTIAN WORK AMONG MEN.

The Young Men's Christian Association has been doing a good work during the past two years. The association has succeeded in removing the load of debt by which it has been handicapped and has done some very effective and useful work as the following tabulated statement will show:

Bible Study—240 men in systematic Bible study classes; 7 courses; 17 classes.

Religious work—Sunday meetings from time to time with average attendance of 62; two men have decided to live a Christian life; two others have decided to go into Christian work; 11 men who plan to go into the Christian ministry have organized as a club for fellowship and study.

Missions—Eight men have volunteered for foreign missionary work; three men sailed last year. One is now under appointment; Missionary meetings are held from time to time; Mission study classes were started in November; \$50.00 was given to missions last year; Club organized to supply workers in mission Sunday Schools.

Social—Opening reception attended by over 800 people; 2 socials held for men; Secretary has made 188 personal calls on men in their rooms.

Educational—113 are making up entrance conditions in 19 classes.

Employment—71 men given permanent work which enables them to attend college. 66 others given odd jobs. (Over \$6300.00 was earned this way last year.)

Building—Located on campus with parlor, game room, reading room, office, etc., used as a club house by University men.

General—133 letters of inquiry answered; 50 personal letters sent to leading papers in state for publication before college opened; 2000 leather-covered books distributed to men; 1400 men assisted in securing rooms and room-mates; three days visit from secretary of International Committee; 380 letters sent to churches in state inviting their co-operation.

Finance—The expense of carrying on so large and so varied a work is considerable. \$1,200.00 must still be raised in order to continue the work through the year.

Peter Hanson, '01, who has been in charge, asked to be relieved of the work so as to go into the mission fields of Africa, but up to the present time the Board of Directors have not seen their way clear to let him go and he has given up, for the year, his cherished plans in response to what he considered the call of duty. Mr. Hanson has really done a wonderful work. Considering all the difficulties which confronted him when he took up his work, the showing which he has made is the most remarkable ever achieved by any secretary of the association.

FOOTBALL.

During the seasons of 1902, '03, and '04, the Minnesota football team made a splendid record. In 1902 the team was defeated by Michigan by a score of 24 to 6 on Thanksgiving day, the only defeat of the season. In 1903 the team came through the season without a defeat. The score with Michigan was a tie of 6 to 6. The plot of the playing shows that during the sixty minutes of the game Minnesota forced the fighting. The Western Championship belonged equally to the two teams at the end of the season. During the season of 1904 the following schedule shows the games played and the scores made:

Minn. vs. Twin City H. S.	176-0
vs. University of South Dakota	77-0
vs. Shattuck	74-0
vs. Carleton College	65-0
vs. St. Thomas	47-0
vs. North Dakota	35-0
vs. Ames	32-0
vs. Grinnell	146-0
vs. Nebraska	16-12

vs. Northwestern	17-0
vs. Iowa	11-0

724-12

This year the team did not meet Michigan, owing to Michigan's unwillingness to schedule a game with Minnesota. Both teams having gone through the season without defeat the western championship honors are again divided between the two institutions. The 1904 team has made a remarkable record for the total score, breaking the world's record in this respect, and also breaking the world's record for the highest score in a single game. Toward the end of the season the team, owing to causes which we cannot go into at present, became somewhat demoralized and the showing made in the last two games was disappointing.

Earl Current, the fullback on this year's team, has been elected captain of the team for 1905.

GENERAL ALUMNI ASSOCIATION.

One of the most important events of the past two years was the banquet held last January, at which the new General Alumni Association was formally launched. The banquet was an unqualified success, and a great many more attended than had pledged themselves to attend. It was the most enthusiastic banquet ever held by the alumni of the University. The spirit

exhibited at that meeting showed that the graduates are loyal through and through to their Alma Mater. The association formed at that time elected a board of directors, and a board of representatives of the alumni have been quietly at work since then. The board will make its report at a similar meeting of the alumni to be held February 11, 1905, in the University Armory. Special attention is called to a statement made by the board of directors in another column.

HOME STUDY COURSES.

Dr. D. L. Kiehle, formerly professor of pedagogy in the University, has recently organized, with the approval and co-operation of the department of public instruction, a home study and correspondence course of instruction. The idea upon which the plan is based is to continue, at home, courses begun in the University Summer School, or to finish in the summer school courses begun at home. The instruction is under the direction of University professors, for the main part, and some exceedingly interesting and valuable courses are provided. The University professors giving instruction are: Professors James, pedagogy; Johnston, psychology; McVey, political science; Pike, Latin; Potter, English; Sanford, Rhetoric; Schlenker, German; West, History; Wilde, philosophy. Professor Lehnerts of the Winona Normal School, geography, and Mrs. Jean Sherwood Rankin, author of "Everyday English," English. Anyone who is interested in this matter can secure further information by addressing Dr. D. L. Kiehle, 2801 Portland avenue, Minneapolis, Minn.

PROFESSOR NACHTRIEB.

President of the General Alumni Association.

II.

Hail to thee, our Prexy, Sire!
Thou has made us all thine own
And our hearts one boon aspire
That our love may be thy throne.
Throughout our future years
Naught can 'ere thy memory mar.
We will shout thy fame and adore thy name
Thou shalt be our Northern Star.

III.

Like the stream that bends to sea,
Like the pine that seeks the blue,
Minnesota, still for thee
Thy sons are brave and true.
From thy woods and waters deep,
From thy prairies waving far,
At thy call they come with their shout and song
Hailing thee, their Northern Star.

The "personal" notes occupy about sixty pages this week and we trust that the notes will be appreciated by the alumni generally.

For Christmas Presents

PHOTOGRAPHS

Sole Proprietors of a New Copyrighted Birdseye View of the University Campus

The Finest View ever taken of the Campus

25 cents to \$3.00

The \$1.00 size is 18 x 6 on heavy beveled board.

A LARGE COLLECTION AT VARIOUS PRICES

UNIVERSITY PENNANTS

In Satin, Felt or Leather, 60 cents to \$4.00

FRATERNITY PENNANTS

Popular Styles in stock and Special Styles made to order at Prices Lower than can be had in the East. 60c to \$4

MINNESOTA STORIES, \$1.00

A collection of characteristic college stories, most of the stories in the collection have appeared in various publications. Bound in a beautiful Maroon cloth with gold lettering and embellished by a halftone of the University main entrance and memorial gateway. Something to bring back the memories of college days and friends.

The University Souvenir, 35c.

The Souvenir is by all odds the most satisfactory souvenir ever issued for the University. It contains a short history of the University, and a statement of its present status, illustrated by seventy-five beautiful halftone views of University, grounds, buildings and interiors, printed in double tone brown ink on heavy plate paper.

An Optimistic Equation, 50c.

By E. B. Johnson, Registrar of the University.

A book that is full of real cheer and which points out the bright side. Bound in sage green boards it makes a most attractive Christmas booklet and will be prized for its own intrinsic worth.

All three of the above in one order, \$1.50 delivered.

We can supply ARTHUR UPSON'S NEW BOOK

THE CITY

Price \$1.20 Delivered.

MINNEAPOLIS

A COMPLETE DIRECTORY

OF THE

ALUMNI

OF THE

University of Minnesota

1873-1904

COMPILED BY

E. B. JOHNSON, '88

AND ISSUED BY

The Minnesota Alumni Weekly

THE PLAN.

It will be noted that all of the alumni of the various colleges of the University are given first in one alphabetical list; the college being indicated as follows:

- E—College of Engineering.
- M—School of Mines.
- A—College of Agriculture.
- L—College of Law.
- R—College of Medicine and Surgery.
- H—College of Homeopathic Medicine and Surgery.
- D—College of Dentistry.
- P—College of Pharmacy.
- C—School of Chemistry.

Graduates of the college of science, literature and the arts are given without any distinguishing letter.

The second list is arranged by location, an arrangement which was followed in the directory of 1902, and which proved so useful and so acceptable to the alumni generally.

A

- Aaberg, Arne O., '01, M.A. '02 Glenwood, Minn
Principal of Glenwood Academy
- Aarnes, Alvildda, '02, Montevideo
Abbtmeier, Charles D. A. F., '00 St. Paul
Concordia College

CREE-DICKSON Sectional Bookcases & Filing Cabinets

"In selecting a bookcase look first at the doors."

About Bookcases

Cree-Dickson Sectional Bookcases are so designed that the doors open downward and outward. The doors when open form rigid shelves for easy reference, and close automatically when books are removed. Cree-Dickson cases are of simple construction and few parts—no rollers, rods, or runways to get out of order. The patent interlocking device makes these cases dust-proof and easily moved.

Send for our illustrated catalogue showing styles, sizes and prices.

**Cree-
Dickson
Mfg.
Co.**

About the Filing Cabinets

No modern improvement in the business office has been more readily accepted than the Vertical Letter and Card Files. Professional Men, Business Men, Bankers, etc., pronounce Cree-Dickson Cabinets superior to all others. They have easy-running, ball-bearing drawers, detachable sides, and skeleton interior construction. The Cree-Dickson interior construction is comprised of narrow strips (not solid board partitions) so joined and dovetailed (on the truss or bridge principle) that they make the strongest and lightest cabinet made.

Note the detachable sides. Buy your first cabinet and save from \$4.00 to \$6.00 on each additional cabinet.

SEND FOR ILLUSTRATED CATALOGUE.

Cree-Dickson Mfg. Co.,

513 First Avenue N. E., MINNEAPOLIS, MINN.

The University of Minnesota Summer School

SIX WEEKS SESSION—JUNE 19th-JULY 28th

Organized in Two Sections

Elementary—Especially for grade teachers, giving instruction emphasizing the subject matter of the courses and also methods of instruction.

Advanced—For high school teachers desiring better preparation, and also for those desiring to gain University credits. Much of the work if completed in a satisfactory manner will be credited towards State Teachers Certificates. Fees nominal for teachers who are residents of the state; for others, \$10.00.

Home Study and Correspondence Courses, under the direction of University Professors and Instructors. For fuller particulars address the Registrar of the University or

CASPER WHITNEY'S ULTIMATUM

In the January number of "Outing" Caspar Whitney makes some comparisons between the eastern and western football. He makes a comparison of the eastern teams and then comes out to the middle west. Minnesota and Michigan are put at the head with the remark that Minnesota is considered by those who have seen both teams play to be a little stronger than Michigan."

Comment is made on the alumni coaching system of Wisconsin and he urges the Badgers to stick to the system saying that while they may lose games at first, they will come out ahead in the end.

In regard to the overwhelming scores run up by both Minnesota and Michigan against lighter opponents he says that they are coached to do so and goes on to say: "It is my opinion based on the Michigan-Chicago game that Michigan would

be beaten by any one of six of the leading

Eastern Teams."

He makes out a list of the leading teams thus:

1. Yale.
2. Pennsylvania.
3. West point.
4. Princeton.
5. Harvard.
6. Dartmouth.
7. Minnesota.
8. Michigan.
10. Chicago.
13. Wisconsin.
16. Nebraska.

The all-American team was made out composed only of eastern men.

On the backfield deserving special mention, he gives Kremer from Minnesota, and Thorpe is named as an honorable mention guard. Smith is also given an honorable mention for his good work during the football season.

E. B. JOHNSON, '88, - - Editor
Frank S. Lyon, '07, Advertising Mgr.

W. M. Hayes of the University of Minnesota has been appointed Assistant Secretary of Agriculture by President Roosevelt and has already entered upon his duties. His family will remain in this state for the winter.

Professor Hayes has for many years been on the faculty of the College of Agriculture, and during that time his work in plant breeding and farm management has won him a national reputation. His statistical methods of recording plant and animal growth and development are now in general use at experiment stations thruout the country, and it was the recommendations he received from prominent agricultural scientists which persuaded the President to appoint him to so responsible a position.

Professor Hayes is a personal friend of Secretary Wilson and will no doubt work in close harmony with his chief.

His appointment to so honorable a position is not only a high testimonial to him personally, but is an honor to the University which he has served so ably.

A basket-ball game has been scheduled with Chicago to be played on Feb. 22, in the Windy City.

GOOD!!!

The Weekly is indebted to W. A. Chowen, Eng. '91, of New York, for the following clipping:

The question of why the eastern colleges refuse to play football with Michigan and some other large western institutions was effectually settled the other night by Max Hardman, a westerner in attendance at the Columbia Law School, who was dining with a number of Columbia men.

"You eastern chaps are like a little Irish tailor of whom I once heard. He was the proud possessor of an enormous nerve, and the only thing that kept him from being annihilated was that at crucial moments his discretion mastered his valor.

"One morning Mrs. Murphy, a customer, entered the shop, and finding him busily engaged with pencil and paper, asked him what he was doing.

"'O'm makin' a list av the min on this block who Oi kin lick,' said he pompously.

"'Hev yez got Murphy's name down?' asked she.

"'Murphy heads me list,' was the reply.

Mrs. Murphy hurried home to her lord and master with the news, and he came down to the shop with fire in his eye.

"'Me woman tells me that ye're afther makin' a memorial tablet ov the min thot yez kin lick, and that ye've got me down at the head of it. Is thot true?' said the irate Murphy.

"'Sure an' it's true. Phwat of it?' returned the other.

"'You good-for-nothing little grasshopper, I could commite suicide on yez wid me little finger. I could wipe up de flure wid yez wid me hands tied!'

"'Are ye shure about thot?' asked the tailor.

"'Sure I'm sure about it.'

"'Well then,' sighed the knight of the shears regretfully, 'I'll scratch ye aff de list.'

ALUMNI ATHLETIC CONTROL.

December, 16, 1904.

The Minnesota Alumni Weekly:

I note in your December 12th issue, article entitled "A Suggestion," and find that the same has to do with the matter of the Alumni representation on the Athletic Board of Control. I wish to correct one statement which you have made in this article, namely, that the body representing the football interest among the Alumni, has long since ceased to have an existence. This, to a certain extent, is true, but as a matter of fact, this organization is still in existence and has its officers and Board of Directors, altho the reason for the existence of this association has ceased to exist, which reason was the deplorable condition into which athletics had fallen several years ago. Inasmuch as athletics are now in a most healthy condition, naturally the Athletic Association has no particular duties to perform; altho we have regularly called a meeting of this association and elected officers and directors. I am inclined to agree with you on the point that it is much better to have the Board of Directors of the General Alumni Association appoint the representatives for the Alumni, and would suggest that the matter be gotten at by having the University Athletic Association recommend to the Alumni Athletic Association that these members be appointed by the Directors of the General Alumni Association as per your article. My appointment was properly made by the Directors of the Alumni Athletic Association, altho I am under the impression that there was not a quorum of the Directors present at the last meeting, and I am therefore holding over as no members were appointed at that time. From four or five years' experience on the Athletic Board of Control, I am thoroly convinced that it is to the best interest of athletics at the University that there be at least two members of the Alumni on this Board, and I am heartily in favor of adopting your suggestion; but in view of the fact that the Alumni Athletic Association is still in existence, believe it would be wise to have this Association consent to this change at its next meeting, which will be immediately after the first of the year, and then have the University Athletic Association make this recommendation to the General Alumni Association and thus have the two representatives

appointed at the next annual meeting of the Alumni Association.

Please pardon me for writing at length on this matter, but inasmuch as you have made this suggestion and I am more or less in touch with the situation, I wish to endorse your article and will use my influence to have the same put into effect.

Very truly yours,
Geo. K. Belden.

CAMP'S CURIOUS CONCLUSIONS.

Here is Walter Camp's "All-Middle" team:

Left End—Bush, Wisconsin.

Left Tackle—Curtis, Michigan.

Left Guard—Thorpe, Minnesota.

Center—Remp, Wisconsin.

Right Guard—Fairweather, Illinois.

Right Tackle—Bertke, Wisconsin.

Right End—Rothgeb, Illinois.

Quarter—Eckersall, Chicago.

Left Half—Heston, Michigan.

Right Half—Vanderboom Wisconsin.

Fullback—Bezdek, Chicago.

The list is valuable as a demonstration of how little Camp really knows about western football. Wisconsin and Chicago who are rivals for fourth place are represented by six men while Minnesota and Michigan who stand head and shoulders above both as rivals for first position get but three places.

If Wisconsin and Chicago had so many better men than Minnesota and Michigan, why did they get so ingloriously licked by inferior teams?

As a consolation prize for the tail-enders it is a great success.

THE CHRISTMAS DAILY

Owing to the press of work in getting out the Alumni Directory notice of the Christmas edition of the Daily was entirely overlooked. This number was one of the best ever issued at this institution. Its summary of the football season and half-tone cuts of members of the team was by all odds the best ever presented in such an edition. The general summary of student organizations and activities is well done and exceedingly interesting. Alumni who would like a copy can secure the same by addressing the business manager of the Minnesota Daily. Price 15c.

FROM JAPAN.

The following report from G. Sdney Phelps, '99, is given in full, because it contains so much of such intense interest:

Imadegawa-dori, Kyoto, Japan, Nov. 12th, 1904.

The near approach to Thanksgiving Day has set me to thinking about my blessings. It is a favorable time to recount them, not only because the beautiful Indian summer weather makes us all feel so well and happy, but also because it seems as though God were using the sunshine to warm the chilled hearts of the many friends about us who are thinking of their sons, fathers and husbands as the terrible news comes from the battlefields. We often think that it does not seem quite right that we should be rejoicing in such health of body, happiness of heart and progress in our work while these friends and neighbors are laboring under such a load of sorrow and care. Still we feel that what we find in the work to please us is the most needed thing in their lives, and we try, in addition to do what we can to alleviate the suffering and to show our sympathy for them in general. Our interest is perfectly sincere, too, for the more we see of the Japanese and the more we get beneath the surface of their lives, the more respect we have for them, both as a nation at war and as individuals.

Mrs. Phelps [Mary Ward, '97] has found an opportunity for appreciated service in the Red Cross Society. This society is highly and excellently organized, is well supported both by the imperial Household and by private persons, and is doing a splendid work for the soldiers. Mrs. Phelps attends a class of nurses for lessons in bandaging and "First Helps to the Wounded," and goes to the station once a week to help receive the hospital trains that pass through the city twice a day. Each train carries about 60 wounded soldiers. They are cared for by the surgeons at the station, given tea and other comforts by the ladies, and generally looked after and made to feel that they are a precious asset of the country. These invalids are not the worst off, as the more serious cases are retained nearer the front. These are being sent to the northern hospitals and resorts. There are now three big hospitals. I have seen the one at Osaka.

There are 250 buildings there, with accommodations for 15,000 wounded soldiers. The hospitals at Hiroshima and Tokyo are as large, and besides these, there are innumerable smaller hospitals. Some of these last are no more than temples turned over for hospital uses. These are extremely convenient for such purposes, as they have the best locations, are clean and can be had at any point and on the shortest notice. Mrs. Phelps is often called on to attend the funeral of some soldier. There are always several representatives of the Red Cross, a squad of soldiers, priests, and the customary huge bouquets of flowers. The presence of a foreign lady is greatly appreciated by the family, so we like to go for the good it does in breaking down prejudice against foreigners as well as for the sympathy which it shows to the bereaved.

We have seen many opportunities opened up to us as a result of the war. I think there is no doubt but that there is an increased openness to the gospel message. At any rate, it is the easiest thing in the world to teach the Bible or to do personal work. Then, too, the widespread advertising of the sympathy of America and England has done a great deal to break down prejudices and to give the Japanese a new consciousness of the solidarity of civilized nations. The attempt of certain Buddhists at the beginning of the war to make it a Holy War has failed completely and has helped Christianity in proportion. The story of a Japanese Christian who was shot by the Russians as a spy after showing such devotion to the Emperor, and at the same time witnessing so boldly for Christ that the Russian general commuted the sentence of hanging to that of being shot, has gone the rounds of the papers with great effect. To fully appreciate the meaning of these things, one must remember that up to the present time the Christian religion has been quietly repressed in both branches of the military force on the ground that it undermined the patriotism of the soldiers by destroying the belief in the divinity of the Emperor. It is because of this that it seemed almost hopeless to try to get permission to do Christian work among the troops. It is because of this also that we consider it so significant for the Minister of War, with the concurrence of the Prime Minister,

to issue official orders giving the Association permission to open up army work at Antung on the Yalu River, and at Yinkow, the seaport of Newchwang. We already have one outfit at Antung under the direction of Hibbard and two Japanese secretaries. They have a full army outfit, including a graphophone, magazines, newspapers, books, games, writing materials, a barber's outfit, bath tubs, and various things for the comfort of the men. They serve ten pallsful of tea a day, Hibbard writes, and do a great deal of hospital work. On an average, 200 soldiers use the tent a day. They have given out 1,500 copies of gospels to men who wanted them. The work has so appealed to the authorities that they have given us free transportation on the government railroad, and have given us a hint that we may go to other important points when the way is clear, i. e., when Port Arthur falls. The Committee is now sending an outfit to Yinkow where the work is to be managed by the Japanese Committee, but is to be financed by the Chinese Associations—another lesson in the fraternal force of our organization. The Osaka Shosen Kraisha has also given up free transportation on their steamers to these two points.

The work in Kyoto is encouraging. First of all we are thankful for our efficient secretary, Mr. Yoshizaki. He is a splendid fellow. There are two hundred young men in the night school; the Sunday meetings are well attended; two Bible classes have an attendance of about fifteen each; the last Saturday evening popular lecture was attended by over 250 and many were turned away at the doors; plans are made for a big Bible rally during three days next week; the membership is constantly increasing, and altogether there is cause for thanksgiving. The new Commercial School Association has eighty members, of whom only seven are Christians. This Association has just joined the new one in the Middle School had eighteen present last week. Mrs. Phelps leads two singing classes of students.

Our health is excellent this fall. I put this in with emphasis, because a recent letter from America brought the disquieting news that I was on the point of a breakdown. There is no foundation for that concern, for I

am in better health than I was in America the last two years before I left. I am taking good care of myself by getting an extra hour of sleep a day, but I work as hard and as effectively as I ever did. The language is beginning to give way a little, though, of course, I must continue to give the best of my strength to it.

Last Wednesday we had the rare treat of being entertained by a Count. He invited us to visit his summer residence at a place near Kyoto. It is a beautiful location on the bank of a famous river opposite a high mountain, the side of which is covered with maple trees now in their glory of autumn colors. This place is also famous for its cherry blossoms in the spring. The Count is a nephew of the Prince Fushimi who is now in America. We met him a year and a half ago when Mr. Levering was here. It is customary in Japanese houses to present each guest with a few cakes which the guest usually takes home with him. In this case we were given the daintiest basket of cakes in the form and colors of autumn maple leaves and acorns. Very soon they disappeared, as is usual, to appear again at the door when one leaves. This time, however, when we left we saw nothing of them and thought it strange. What was our surprise when we reached home to find two of these little baskets on the hall table. The hospitable Count had sent a man in with them on the train ahead of us.

I am off to see some champion jiu-jitsu. The students are to have matches this afternoon. Last week I attended the field meet of the Middle School, with the result that about twice as many boys as usual were at my Bible class the next time it met. Two weeks ago the boys of the Commercial School Association invited me to go with them on a "mushroom hunt." We walked about four miles out of the city to a heavily wooded hill on the top of which we found that coolies had set up a camp and had great caldrons of hot water ready for the rice to be cooked for dinner. Seeing this, we all made haste to find the plot of ground roped off for us in which to search for mushrooms. The boys had hired about an acre at a cost of two dollars or so. In an hour we returned loaded with the desired fruit of the pine, as they call

them, and soon we were called to eat rice cooked with mushrooms, boiled mushrooms, roasted mushrooms and fried mushrooms. I never ate so many in my life all put together, but the exertion has given me an appetite for anything. Before we returned, the boys had a little season of prayer on top of the hill. I take great delight in these experiences.

As this will not reach most of you until near the holidays, I will here wish you a Merry Christmas and a Happy New Year!

Faithfully yours,
G. S. Phelps.

WASHINGTON ALUMNI ASSOCIATION.

There are about thirty graduates of the University of Minnesota residing in Washington, and they have been talking for some time of forming an alumni association. A meeting was held in the Journal bureau on December 21st, at which a temporary organization was effected, with Max West as president, Carl S. Schofield vice-president, Roy Y. Ferner secretary and Bert Russell treasurer.

The first of several events planned by the members is a reception to Professor W. M. Hayes when he comes to Washington to assume the duties of assistant secretary of agriculture.

ALUMNI IN CALIFORNIA.

An organization known as "Minnesota Alumni Association for Northern California" has been formed with headquarters in San Francisco. Mr. G. A. Clark, '91, is president and a banquet is to be held on Friday, Jan. 20th. Arrangements for this celebration are in charge of Dr. B. L. Newkirk, '97, Mr. William C. Fitch, '00, Dr. B. P. Shepherd, '95, Mr. B. C. Carroll, '93, Mr. O. H. Eggen, '99, and Mr. H. B. Humphrey, '99, make up the committee on organization. Frank V. Cornish, '98, has been chosen secretary and treasurer.

DIED.

Mrs. Eva Carris Woost, who was for several years telephone operator at the University and who won so many friends by her cheerful and obliging ways, died just before the Christmas vacation. A new born baby girl whose life went out with the mother's was buried in her arms.

Dewey C. Squyer, Min. '04, was accidentally killed in a mine near Butte, Mont., recently. Shortly after graduation he accepted a position with the Belle mine at Butte. While he was coming up the shaft he suddenly fainted and fell over the side of the cage so that his head protruded. He was crushed against one of the heavy shaft timbers before his friends could drag him out or danger.

FARIES GOES TO DULUTH.

Rev. John C. Faries, '89, has accepted a call to the pulpit of the Glen Avon Presbyterian church of Duluth. Altho Mr. Faries held a pastorate about two years at Waverly, Minn., since his course at McCormick Theological seminary, he has devoted his time mainly to other forms of church work. He was editor of the North and West, a religious weekly, at the time of its consolidation with the Interior, of Chicago. Afterwards he represented that paper in the northwest and acted as associate editor. In presbytery and synod, Mr. Faries has been active officially, being considered an authority on church canons and presbyterian form of government.

Although spending considerable time in foreign travel, he has acted frequently as supply for different pulpits in the state and city.

The following item from the Dubuque Globe Journal is self-explanatory:

Announcement of the engagement of Prof. William Shaper of Minneapolis and Miss Gayle Hamilton of this city, has been made. Miss Hamilton is the elder daughter of Dr. and Mrs. William Hamilton, and is prominent in Dubuque social and literary circles. Prof. Shaper was formerly instructor in science, in the Dubuque high school, and now holds the chair of political science at the University of Minnesota. Their marriage will take place during the coming summer.

Dr. Cooke recently received word that the University of Minnesota was awarded a silver medal for graphic and photographic displays at the St. Louis World's Fair.

Gold, silver and bronze medals were awarded and although the Gophers did not land a gold one, the display received many favorable comments from visitors.

PERSONALS.

Andrew Kaess, Med. '03, is located at Fargo, N. D.

Ernest Laycock, Law '04, has located at Brandon, Man.

Mary I. Davidson, '96, is principal of the high school at Caledonia, Minn.

John G. Briggs, '94, is pastor of the First Baptist church of Waukeegan, Ill.

Miss Helen Currer, '02, of LeSueur, visited the University one day last week.

Andrew Stene, Ag. '97, is assistant horticulturist at the Rhode Island Experiment Station, Kingston, R. I.

Ernest W. Major, Ag. '99, is professor of Animal Husbandry in the University of California, Berkeley, Cal.

Henry O. Borge, Law '98, is a member of the state legislature. His home address is Lake Park, Minn.

P. F. Schroeder, Law '03, was elected county attorney of Becker county last fall. His address is Detroit, Minn.

Albert I. Reed, Eng. '85, resides at 804 Racine street, Milwaukee, Wis. He is United States Assistant Engineer.

Fred J. Gillilan, '95, is said to be operating a hotel on the Tacoma and Eastern Railway about thirty miles from Tacoma.

Rose A. Bebb, '91, Med. '97, is located at Seattle, Wash., as bacteriologist of the Washington State Board of Health.

Henry O. Sorkness, Ag. '06, is at Redlands, Cal. In his last communication he did not state the nature of his occupation.

Ada E. Daniels, '98, was married something over a year and a half ago, to Dr. Fred Huxley, Med. '06, of Faribault, Minn.

C. E. Weatherson, '96, is superintendent of schools at New Richland, Minn., a position which he has held for a number of years.

W. E. Bush, '03, superintendent of schools at Jordan, Minn., was married December 28th to Miss Beth Fairchild of Garden City.

Laura A. Henry, '99, lives at 2129 Commonwealth avenue, St. Paul, instead of 228 University avenue S. E., as given in the directory.

"Billy" Simonton, '94, who is editor and proprietor of the Glenwood Press, writes that things are coming his way and that the future looks promising.

Dr. E. R. Barton is practicing medicine at Frazee, Minn. "Eddie" still retains his old time interest in everything connected with the University.

Harold L. Lyon, '00, instructor in botany University of Minnesota, was, last week, appointed by President Roosevelt as consul to Chungking, China.

B. M. Bouman, Eng. '04, and C. K. Cannon, Ex-'05, send the electrical museum an interesting sample "wireless telephone" from the Stromberg-Carlson factory at Rochester, N. Y.

Chas. E. Tullar, Eng. '01, has recently resigned his position with the St. Paul Gas Light Company, having received an appointment at Washington under the classified civil service.

A. B. Loye, Law '99, is spending the winter in California for his health. At the present time he is located at Los Angeles.

Amor F. Kuehne, Min. '04, who located, soon after graduation, at Cableville, Ore., has removed to Sumpter, Ore. He is assistant engineer with the Killen-Warner-Stewart Co.

Noah Johnson, Eng. '94, was married last summer to Miss Bessie Hall. Mr. and Mrs. Johnson now reside in Kansas City, Mo. Mr. Johnson is to be addressed care of the Union Pacific Ry.

Dr. Willard B. Pineo, B. M., '85, resides at the Holmes hotel in this city, instead of St. Joseph, as given in the directory. Dr. Pineo is an oculist and aurist and has offices in the Pillsbury building.

Arthur J. Glover, Ag. '01, has been chosen as one of the editors of Hoard's Dairyman at Fort Atkinson, Wis.—a very desirable position both financially and otherwise. He assumed office January 1st.

Mrs. Estelle H. Bennett Boot, who will be remembered so pleasantly by so many of the Alumni as a former general secretary of the University Y. W. C. A., resides at 1943 Sherman avenue, Evanston, Ill.

Sivert Pederson Law, '01, practicing at Appleton, Minn., his home town, is doing a very good business in law and real estate. Mr. Pederson was married in October, 1903, to Miss L. Osmundson of Appleton, Minn. He was urged to become a candidate for county attorney last fall but could not be prevailed upon to make the run.

Wm. C. Palmer, '00, up to within the last two months has been editor of the Minot Optic, a daily and weekly paper published at Minot, N. D.

He is still interested in this paper, but at the present time he is employed with Supt. O. C. Gregg, at Lynd, Minn.

The note in the Weekly of several weeks ago to the effect that Dr. N. J. Cox, '98, Dent, '01, was about to locate at St. Peter, was erroneous. Dr. Cox is still a resident of this city with offices in the Masonic Temple. Dr. A. H. Cox, Dent, '04, has located at St. Peter.

Horace E. Bagley, '94, who is president of a bank at Towner, N. D., visited the University last Saturday, while on his way to visit his old home at Owatonna, Minn. Mr. Bagley reports business good and still maintains his interest in the University and University affairs.

The name of Mrs. James E. Rea, nee Pansy Frances O'Brien, was accidentally omitted from the directory. The "total depravity of inanimate objects," to-wit, linotype slugs was entirely to blame in the case. The address of Mr. and Mrs. Rea is 147 Kent street, St. Paul.

Miss Clara Knips, who completed the teachers' course several years ago, writes to protest against putting the new main building on University avenue and to favor the acquiring of the block shown in the plate which was given in the directory. Miss Knips resides at Lismore, Minn.

C. B. Smith, E. D. Jackson and C. A. Davis, senior electrical engineers, made a series of tests of the electric generating plant of the Red Wing Gas and Electric Company during the Christmas recess. This plant, which contains some of the largest gas engines in the northwest, is managed by W. R. Putnam, '97.

Dr. Rose V. Vallyely, Med. '01, has returned from New York, where she

has been taking a special course in skin diseases, and will change her office from the Andrus building to 402 Evanston building, corner Sixth and Second avenue S.

H. G. Spaulding, '00, of Brooklyn, N. Y., writes that he is looking forward to an opportunity to see the Minnesota basket-ball team wipe the floor with the Columbia University team. If the game takes place he expects to get up a crowd of "U" people to cheer the Minnesota players.

Paul A. Ewart, '99, of Pipestone, who retired as assistant attorney general last week, has landed another official position. He becomes second assistant district attorney for Minnesota, taking the place made vacant by the resignation of Al J. Smith and the promotion of J. M. Dickey. The Ewart appointment has been announced by District Attorney Haupt.

Barry Dibble, Eng. '02, is now with the Shawinigan Water and Power Company at Shawinigan Falls, Province of Quebec, where he is an operator in the largest electric power plant now operating in Canada, transmitting power at 55,000 volts a distance of 85 miles to Montreal. They are now installing a generator of 10,500-horse power and expect to install a similar one next summer.

Kockendorfer and Ryan, senior electrical engineers, are conducting regulation tests on small gasoline engines for electric lighting purposes. By an ingenious device made by them in the electrical laboratory, they are able to measure the variations in angular velocity in different parts of each revolution when the engine is running at three or four hundred revolutions per minute.

Gamma Tau chapter of Sigma Nu, the seventeenth national men's fraternity to enter the University, was installed Saturday, December 11th. There are sixteen charter members.

Professor N. H. Winchell has recently received, personally, a gold medal from the St. Louis Exposition for the geological reports which he prepared for the State of Minnesota. This is the second gold medal given these reports and speaks well for the character of the same.

FOLWELL TO THE FRONT.

Capt. Wm. Folwell, a former student of the University, and the son of Dr. Folwell, has been honored with a position of great importance at Fort Snelling. His duties correspond to those of a municipal judge, as he conducts a military court for offenses not demanding a court martial.

During the past six years he has risen from the position of adjutant general of the University battalion to the rank of captain in the United States army. At the opening of the Spanish war he went to Cuba as second lieutenant and at the close of the war was appointed deputy collector of customs.

Captain Folwell will soon leave for Leavenworth, Kansas, to rejoin his regiment which is coming home from the Philippines.

SCHACHT TALKS.

Dr. Fred E. Schacht, a former Minnesota football player, and tackle on the All-American team of 1902, regarded by Walter Camp as one of the most scientific and effective football men in the United States, is optimistic about football conditions on the coast.

Dr. Schacht has the following to say in regard to coast football:

"I see no reason why California and Stanford should not evolve teams as strong as any in the east. You have here three vital elements in successful football—material, spirit and money. I believe that with proper training along recognized lines there is nothing either of these teams might not do. The game with Colorado has undoubtedly drawn the attention of eastern football men this way, and there is considerable speculation as to what showing they would make against one of the 'big elevens.'"—The Daily Palo Alto of Stanford University.

A NEW REGENT.

S. G. Comstock, of Moorhead, has been named a member of the board of regents of the University, taking the place made vacant by the resignation of Elmer E. Adams, of Fergus Falls, who is now a member of the legislature.

Mr. Comstock is now a member of the normal board and resident director of the Moorhead normal school. It is claimed that there is no obstacle to his retaining both positions until his term as normal director expires.

He brings to his new office great experience and an unusually wide acquaintance with educational problems.

PRESIDENT HEARD FROM.

Word received from President Northrop states that he is at Columbia, S. C., where he will attend the Centennial Exercises of the South Carolina College. The exercises will be held from Jan. 8th to 10th. President Northrop has been asked to respond to a toast, "Universities and Colleges of the United States."

After leaving South Carolina President Northrop will proceed to the Florida coast, and from there set sail for Nassau, on the Bahama Islands.

LIGHT IMPROVEMENT.

The lighting system of the armory hall and gymnasium has undergone a great change during the past week. The arc-lamps have been replaced by 192 incandescents. Of these there are 144 in the main hall and 24 in each gymnasium.

The lamps are fastened to the iron beams extending across the halls, each light being surrounded by a neat wire cage.

The new system of illumination is a great improvement over the old flickering arc-lights, and gives the desired brilliant appearance to the hall for festive occasions.

For Safe Investments see Wyvell-Harrington Co., 401-403 Andrus Bldg., M'p'ls.

A GOOD MOVE.

A meeting of a body representative of the University has been called to take action in regard to the rules for the Big Nine Conference made at Chicago.

The body will be composed of faculty members from the different colleges of the U, the deans of the colleges appointing members from that department. In the lesser colleges the deans alone will represent the college.

This is the first time a body representing the faculties of all the colleges has been assembled and is regarded by many as a step toward a University senate, which will represent all the colleges of the University.

President Northrop, now taking a short vacation in the south, arranged for the meeting of this body just before he left.

ATTEND SCIENTIFIC ASSOCIATION.

Among those from the University who attended the American Scientific Association in Chicago were Dr. Folwell, Dr. McVey, Dr. Schaper, Dr. West, Prof. Anderson, Mr. Ellison and Mr. Lovinger. On their trip to Chicago they were delayed fourteen hours by the snow storm.

In the convention three associations were included: the American Economic Association, the American Historical Association and the American Political Science Association. The attendance was large and the program was very profitable.

The freshmen and sophomores are at outs again. At the present writing the freshmen have riveted their sheetiron banner to bands of steel about the big chimney. The sophomores are cogitating how to remove the same.

ENGINEERING MATTERS.

The firm of Keuffel & Esser, manufacturers of engineering instruments, have recently presented the Engineering Department of the University with an eighty-inch slide-rule for use in the mathematical department. The gift is fully appreciated by the department.

The work of repairing the basement of the Engineering building has been completed and the machinery is being set up ready for use. New cabinets for the instruments have been installed and the machine-room is in even better condition than it was before the fire.

The addition to the building which has been under construction during the last few months has been completed and the new recitation-rooms are now ready for occupation.

BASKETBALL.

Iowa will play here January 13, and Nebraska will play two games, January 20 and 21.

The schedule of games for the trip East are not yet completed.

Miss Laura Lewis, '04, who is teaching in the Anoka high school, spent a few days at the university this week.

Quite a number of alumni visited the campus yesterday and renewed old acquaintances.

Ruth Cole '04, and Kelsey Chase, Law '03, now Mr. and Mrs. Chase, were at college in the morning.

Miss Grace Jenks, Acad. '04, who is now teaching at Bird Island, was also a campus visitor.

CONGRATULATIONS.

Bert Russell, '02, and Miss Alice Dyar, '03, were married in Winona, on Monday, January 2nd.

Mr. Russell has a position in Washington, D. C., where the young couple will reside. He is treasurer of the Minnesota Alumni Association of that city.

Peter Hanson, general secretary of the Y. M. C. A., has entered the matrimonial state.

The lady in the case was Miss Nina Della Olds of Chicago. The wedding took place on Dec. 28 at the home of the bride's parents.

Mr. and Mrs. Hanson will be at home to their friends after Feb. 1.

The present Board of Control has decided to recommend to its successors that in view of the fact that last season's baseball team was a financial failure it would be advisable to abandon that sport for the coming year.

"JOHNNY" FLYNN HERE.

J. C. Flynn, '03, better known as "Little Johnny," All-Western guard, captain of the '02 team, and several other things, was one of the grads who put in an appearance on the campus recently. Flynn is at present assistant engineer of the Bell mine at Butte, Montana.

Thursday night the "M" football men in a body attended the play "Strongheart" at the Metropolitan.

Manager Scott had reserved three boxes for the boys and had designated the event as

"Minnesota Football Night."

The Weekly has received a copy of "The Most Popular College Songs," published by Hinds, Noble and Eldredge of New York. The collection contains many of the old favorites as well as some of the later favorites. The selection has been made with admirable good judgment and many will be glad of an opportunity to own these songs in such convenient form.

CHANGES IN ENTRANCE RE- QUIREMENTS.

At the meeting of the Minnesota Educational Association, held in St. Paul during the Holidays, one of the questions brought up was that of dropping higher algebra and solid geometry from the entrance requirements of the University. A letter from Pres. Northrop was read in which he stated that if the Association considered it best the faculty of the University would drop these subjects from the entrance requirements, substituting other subjects in their place. The Association then decided to cut these subjects from the high school course, with the condition that they may be offered as electives. These subjects will therefore become a part of the regular University work.

The question of establishing a separate school of pedagogy at the University was also agitated and a committee was appointed to lay this matter before the State Legislature.

Some of the University professors, by whom addresses were given at the M. E. A. convention were Prof. E. E. McDermott, Prof. Maria Sanford, Prof. James, Dr. Bauer, Dr. S. G. Smith and Dr. Granrud.

OUT OF THE EAST.

The following from the Manila Times can hardly be classed as news but, nevertheless, is of considerable interest:

"The Minnesota University football team scored a victory over the Varsity boys of Nebraska on Saturday the 29th instant. The game was pulled off at Minneapolis and the score stood sixteen to twelve in favor of the home team.

"A private telegram received in this city yesterday stated that there were thousands present from both states and that the game was a highly interesting one. Another game will be played in about two weeks."

A LITTLE NONSENSE

Bill had a bill board; Bill also had a board bill. The board bill bored Bill so that Bill sold the bill board to pay his board bill.—Case Tech.

Gophers Have High Score.							
The following summary shows the points scored by and against the football teams of the principal colleges in the East and West, during the entire season. It develops the interesting fact that of all the big teams during the season, Pennsylvania, with the loss of only four points, suffered the least, and Stanford followed with a loss of ten. The number of points scored against the other teams varies from 12 against Minnesota to 116 against Indiana. By scoring 725 against her rivals Minnesota has won the greatest number of points during the season.	Princeton8	2	181	34

THE '06 GOPHER.

If the plans of the '06 Gopher Board are carried out, the next annual to appear will be a "hummer." The Board has gone at the matter in a most businesslike manner and have determined to print no more copies than are actually ordered in advance. They have already secured sufficient assurances of support to warrant them in saying that they are to spend more money on this issue of the junior annual than was ever spent before for a like publication.

Byron and Willard are to do the printing and this fact alone assures a production of the highest order as to workmanship. The Northern Engraving Company of St. Paul have the contract for the engraving. There will be many color forms which will add greatly to the attractiveness and artistic merit of the book. The Board began work early and promise the Gopher at the time announced—without fail.

Dr. Gratton Gulness of London gave an address in chapel Wednesday on "Certainty in Religion."

He has been a missionary worker for fifty years and is a man of forceful and impressive personality.

His address was one of unusual interest and was listened to by a large number of students.

MINNESOTA PIONEER SKETCHES.

Minnesota Pioneer Sketches. Frank G. O'Brien. Published by H. H. S. Rowell, of the Housekeeper Press, 377 pp. 27 illustrations. 6x9. \$1.50 net.

A copy of Minnesota Pioneer Sketches has just come to our desk. The author, Frank G. O'Brien, has been a resident of this city since 1855, having come to the city at the age of twelve years. The book does not pretend to be a history of Minneapolis or the state, but, as its title implies, is a collection of sketches having to do with the pioneer days in Minnesota, especially in the vicinity of St. Anthony. One can scarcely credit the reality of the fact that the largest city in the great Northwest was but fifty years ago, a mere primitive village on

the extreme western border of civilized settlements.

While in no sense history, these sketches contain vast stores of facts that will be of use to the future historian and will enable the historian to impart a real flavor of the life of the pioneer days to his cut and dried statements of facts covering that period.

As to the sketches themselves, they are decidedly interesting and touch upon almost every conceivable phase of human experience, from "His first shave," to "An octogenarian's birthday," and from "playing marbles" to the establishment of Minneapolis' greatest industries.

The book is published by H. H. S. Rowell, '84, of the Housekeeper Press, is well printed on an excellent quality of paper, and illustrated with many interesting half-tone cuts of rare pictures of the early days.

THE LEGISLATURE

Last week a bill was introduced into the legislature by Representative Perley of Moorhead, removing the university and normal schools from the jurisdiction of the Board of Control. A duplicate bill will be introduced in the senate by Senator Peterson of Moorhead, and an effort will be made to force the passage of both at an early date. A bill essentially the same as the Perley bill passed the senate two years ago, and as the senate is constituted as it was two years ago there should be no trouble in putting the present bill through the senate. The fight on the bill will come in the house and the strongest opposition will be made by the friends of the Owatonna and Faribault institutions. This opposition will come not from any love for the board of control, but the friends of these institutions have said in effect, "Unless the Faribault and Owatonna institutions are

removed, the university and normal schools shall not be removed." At the last session of the legislature a bill providing for the removal of all the institutions in question from the jurisdiction of the Board of Control passed the house but was defeated in the senate while the senate bill met a like fate in the house.

The University and normal schools are determined to take no chances and will force the issue from the first and will see that the desired relief is secured early and not run the risk of a set back in the last days of the session when no time is left to get their forces together for a winning fight.

Now is the time for the alumni to do some effective work for the University. See to it that your senator and representatives are impressed with the necessity for early and favorable action on these bills.

The Regents are opposed to the present state of affairs.

The Faculty are likewise a unit against it. The Board of Control itself is on record as opposed to it.

The alumni can force a change.

In the language of the day—It is up to you.

What are you going to do about it?

AGRICULTURAL SCHOOL.

The Polk county delegation are working to secure the establishment of an agricultural school at the experimental farm near Crookston.

This school would be in effect a branch of the school of agriculture at St. Anthony Park. It is not impossible nor indeed improbable that the plan may carry.

LEGISLATIVE COMMITTEE.

W. P. Roberts, of the Hennepin delegation, is chairman of the appropriations committee recently framed by Speaker Clague. The following University graduates are members of this committee: Thomas E. Fulton, Med. '02, White Bear Lake; Byron H. Timberlake, '91, Minneapolis; Elmer E. Adams, '84, Fergus Falls. Mr. Putnam, of Red Wing, a member of this committee has had three children graduate from the University.

With the University so well represented on this most important committee, its interests are pretty sure to receive full and fair consideration and treatment.

The University Committee is headed by Howard B. Chamberlain, Law '99, and member of the legislature from the University district.

A COLLEGE OF PEDAGOGY.

The plan which met the approval of the Minnesota Educational Association, namely, the establishing of a School of Pedagogy at the University, has such strong backing that it is likely to be heard from many times before the close of the present session. The plan contemplates the establishment of an independent college, with its own faculty, as entirely distinct and separate from all existing colleges as each college is now independent of the other colleges. There are certainly many arguments to be put forward in favor of this plan and we shall watch with interest future developments. The movement is one that originated outside the University and is being backed, in the main, by influences, which, while friendly to the "U" are yet entirely independent.

PARDON US

We don't like to speak of this matter but it would save us much worry

and no little postage if some of our subscribers would remember that newspapers can only be run on the reciprocity plan. Please do not take this to heart unless you have been one of the thoughtless ones.

THAT MEMORIAL

The petition which is going the rounds, and which will be very largely signed by the students and faculty of the University, asks the Regents to allow a portion of the wall of the real part of the building to remain standing and to train over the same ivy and woodbine. While it is undoubtedly true that the sentiment of the student, faculty and alumni body calls for some sort of a memorial of the "Old Main," and while it is equally true that the proposed plan for a memorial has features which commend itself as desirable, the fact should not be overlooked that the stone in the walls of the rear part of the building are in such a state of preservation that they would not last ten years under a heavy growth of woodbine.

It seems to the editor of the Weekly that a better plan would be to use the stone in the walls of the front part of the building to erect a building for the literary societies upon the spot where the old building stood.

The Weekly will gladly give space to any of the alumni who have ideas upon the question of a memorial to the "Old Main."

GERMLSHAUSEN.

This is the title of a drama in four acts which has just come from the H. W. Wilson Company's press. The drama is the result of the collaboration of Mary Gray Peck, Carl Schlenker and Frances B. Potter, all members of the University Faculty. An extended notice will be given in the next issue of the Weekly.

PERSONALS.

Thomas E. Kepner, Law '94, is practicing law in Manila.

George H. Stone, '04, is studying law at Jamestown, N. D.

Helen R. Fish, '02, is teaching in the high school at Renville, Minn.

M. A. Nye, '04, lives at 1501 Girard avenue north. He is with the Union Investment Company.

Mr. and Mrs. Guy B. Huntington (Mrs. Huntington, nee Laura C. Mahoney '03), are living at Lamar, Colorado.

Chas. H. Jones, Med. '90, is practicing medicine at Tempe, Arizona, and is president of the Board of Medical Examiners of Arizona.

Charles W. Quandt, Law '00, was elected county attorney of Sibley county at the last general election. He resides at Winthrop, Minn.

Mrs. F. G. Titus (nee Gertrude Rogers), '98, is no longer at Montevideo, Minn., but has removed to 31 South K. street, Tacoma, Wash.

Miss Francis M. Tobin, '01, who was teaching at Red Lake Falls, in this state, earlier in the year, has gone to Salt Lake City, Utah, to teach.

Word has come that Gertrude E. Baker and Claude Z. Luse, both of '01, were married some time since and are residing at West Superior, Wis.

Oliver J. Egleston, Mines '00, who has been engaged in construction engineering work at West Jordan, Utah, has removed to Kennett, California.

The address of Henry D. Silliman, Eng. '97, is 1835 Mahiki street, Honolulu, T. H. He is connected with the department of public works.

A card bearing date of December 14th announces the arrival of a baby boy at the home of Mrs. Charles Sheldon (nee Ethel Burnham, '00), of Groton, S. D.

The Rev. A. J. Finch, '99, who was formerly president of the Baptist college at Sioux Falls, S. D., is now pastor of a Baptist church at Winfield, Kansas.

Robert M. Bell, '83 who is listed in the directory as practicing medicine in California, is said to be teaching German in Clark University at Worcester, Mass.

Saturday, January 7th, ten women of the class of '00, spent two hours talking over old times at Dayton's tea rooms. It is needless to say that a good time was enjoyed.

Frank O. Fernald, Eng. '04, is at Livingston, Mont., as assistant engineer of the N. P. Ry. His postoffice address is P. O. Box 117. He expects to be located at that place for some time.

Miss Grace Simms, '03, is now Mrs. Warren Wright and lives in Brooklyn, N. Y. Anyone who may chance to know a more specific address for Mrs. Wright will confer a favor upon the editor by reporting the same.

John A. Cull, '03, writes from the office of the Provincial Board of the Province of Union, to wish the Weekly well and to express his continued interest in everything connected with the "U."

S. E. Ferree, Law '90, who resides at Encampment, Wyo., has just taken up the reins of office as Justice of the Peace. In that state the Justice of the Peace has much larger jurisdiction that was formerly enjoyed by a J. P. in this state.

G. Elmer Strout, Med. '01, is practicing medicine at Winthrop, Minn. Dr. Strout is the secretary of the Sibley County Medical Society and has been located at Winthrop since he graduated from the University. The address given in the directory is incorrect.

At the seventeenth annual meeting of the Geological Society of America, Charles P. Berkey, '92, Ph. D., '97, and formerly instructor in mineralogy in the University of Minnesota, gave two ten-minute talks upon "Palaeography of St. Peter's Time" and "Stratigraphy of the Uinta Mountains. Dr. Berkey is now connected with the Columbia School of Mines.

A copy of the "Red and White," the college magazine of the A. and M. college at West Raleigh, S. C., has just come to our desk. This number contains a very full write-up of football affairs in that institution. It will be remembered that W. S. Kienholz, '03, has charge of the team of that institution. Mr. Kienholz has succeeded, in a single season, in turning out a first-class team that made most enviable record.

A. C. Knudson, '93, disclaims responsibility for the title attached to his name in the directory. He is Professor of Philosophy and the English Bible in Allegheny College. Mr. Knudson voices the sentiment of many when he expresses a desire for an arrangement of the directory by classes as well as in one alphabet and by location. Perhaps some day the "U" may be rich enough to afford such a directory but at present it seems out of the question.

The address of George T. Plowman, Eng. '92, should be 1739 Virginia street, Berkeley, Cal., instead of care of the Faculty Club, as given in the directory. Mr. Plowman is the superintendent of construction for the architect of the University of California. A pamphlet recently received from the University of California shows the plans and the steps that are being taken to realize those plans in buildings. California is wonderfully

blessed in the friends who are giving so liberally to make it an ideal institution in every sense of the word.

DIED.

Dr. William A. Norred, Med. '02, committed suicide last Wednesday by shooting himself. His father, Dr. C. H. Norred, has recently undergone an operation for appendicitis and it is said that the terrible deed was caused by despondency over the critical condition of his father. The relation between father and son is said to have been unusually close and sympathetic. Dr. Norred spent two years in graduate work in Chicago, after graduating at the "U" and had already secured a good practice.

JANUARY MAGAZINE.

The Minnesota Magazine for January will appear during examination week. This month's issue will contain much good cheer for its readers. A full list of the articles contributed can not now be given, but some of them are as follows: "Elsinore Revisited," a criticism of Hamlet, by Arthur Upson; a sketch of European travel, entitled "Glimpses," by Ada Comstock; an essay on "The Novel," by Katharine Taney; stories, entitled, "The Little Brown Cakes," by Amy Oliver and "The Tumbledown House," by Winifred Smith. Ruth West contributes a sonnet and Catherine Rittenhouse a "Slumber Song." Alfred C. Whitney has an article on "Indian Oratory." In addition to these there will probably be several more stories and poems. Many of these contributors are well known to the Magazine readers and this issue will be awaited with pleasant anticipation.

Dr. C. A. Erdmann, of the medical faculty, has been invited to deliver a lecture on student life in Germany before the Elks' Club next Wednesday evening.

THE '03 LAWS.

The Weekly has just received from Mr. Jay A. Kennicott, the class letter of the law class of '03, which consists of 29 closely type-written pages. All but five members of the class are represented and the editor is to be congratulated upon the result of his untiring efforts in getting together such a letter.

We clip the following from the editorial and shall make use of some additional material in a later issue:

The Grim Reaper has taken from us two of our members, Chas. P. Sterling and John Knox, both of them cut down in the prime of young manhood without warning. Mr. Sterling having died in Mountain Lake, from the effect of a blood clot in the brain, and Mr. Knox being drowned the 23d day of May in Shoal Lake, Manitoba, while on a trip in search of water fowl's eggs. Each year no doubt it will be the sad duty of the editor of these letters to record the loss of members but I trust that we may all have as clean records as have these two brothers who have gone from us this year. Each member that passes leaves us as a class one less, there is no way of recruiting our ranks and this makes it more important that we do not lose track of any of those left with us, from year to year.

It is with great pleasure that I have labored on the letter this year, I have found it very hard to spare the time necessary, and it takes much more time than one would think, as time goes on and our lives grow fuller we will each year find it harder to steal the time away from our other work but this is a work of love, and cannot be neglected. If there is any member of the class that feels that he can spare the time and has the inclination to take the Letter off my hands I should be pleased to be

relieved, but rather than have it die by the wayside, I am again willing to edit the works of the class.

BUDDHISM

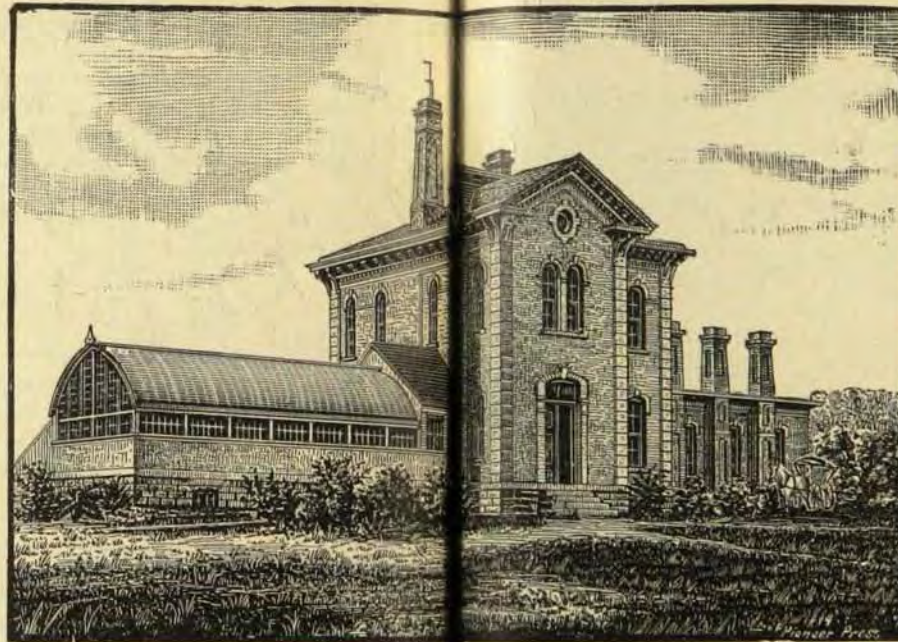

The following is clipped from the Burmah Mission Herald and is from the pen of B. M. Jones, '03.

Some months ago an article appeared in the Chicago Record Herald from Wm. E. Curtis giving a list of those whom he considered the twelve greatest men in human history outside of the Bible. It may have surprised some to see the names of Buddha, Confucius and Mohammed heading the list. Mr. Curtis has traveled extensively and has a reputation of being an accurate observer. One cannot but admit such accuracy who has read his letters from Burma to the Record Herald; but even the most accurate sometimes err. For example, Mr. Curtis makes the statement in one of his letters that the business part of Rangoon "is a mixture of heavy masonry and bamboo huts." There are doubtless as many bamboo huts in the business part of Rangoon as there are in Chicago or New York. For some years an ordinance has been rigidly enforced excluding all such combustible structures from an area that includes not only the business section, but extends well out into the residence portion of the city. This and other slight errors that might be pointed out in these letters only serve to show that a traveler, be he ever so accurate an observer, is not in the best position to judge, and should beware of making general statements from specific instances. Such errors as the one mentioned do not detract from the interest of American readers and do but little harm; but when they concern the influence of heathen religions, either in the way of enlargement or commendation they cannot be passed by without comment.

Mr. Curtis places Buddhism first in the list of religions as to the number of adherents, making that number 400,000,000. Both Professor T. W. Rhys Davids, Professor of Pali and Buddhist Literature in the University of London and Secretary of the Royal Asiatic Society, and Sir Monier Williams, probably the highest authority on Buddhism, point out that this enumeration is a source of gross error; that a majority of these so-called Buddhists are equally Confucianists, or Taoists, and if compelled to choose, would adhere to Confucianism. Sir Monier Williams places Buddhism fourth in the list of religions, according to the number of adherents, making that number about 100,000,000. And Mohammedanism, which Mr. Curtis estimates at 300,000,000, he places below Buddhism in the list.

The matter of numbers, however, is of small importance. Mr. Curtis states that his judgment of a man's greatness is based on the influence he is able to exert upon the race. Whether or not that is a fair criterion depends somewhat on the accepted definition of the word influence. If it is something that changes only the name of a man's religion, his attitude while in the act of worship, the cut of his dress, or his choice of victuals, to originate such an influence is scarcely an indication of greatness. On the other hand he who injects into society a force that changes the characters of men, increases their ability, extends their liberty, makes them more industrious, and develops the spirit of brotherhood and equality has a just title to greatness. All this Gautama attempted, but, that he accomplished it in any considerable degree, will scarcely be claimed by anyone acquainted with conditions in this country. Buddhist laws of kindness to animals and regard for life seem so different in a paper or magazine read at an American fireside from what

they are in the daily life of a Burmese village. That very law against taking life, based of course on the doctrine of the transmigration of the soul and the belief that if a man kills a pig he may be killing his own grandmother, gives rise to horrible cruelties. In the villages one finds literally hundreds of dogs, mongrel curs, that are half-starved, skulking about, picking up what morsels of food they can find during their spare time when they are not fighting each other or the vermin that overrun them, and keeping up an almost constant howl. We have seen these dogs with great sores eating away their feet, or into their vitals, and tormented, meanwhile, by vermin and by other dogs; but they must live on, and the people must endure such loathsome

The Old "Agricultural" Building where the Chemical Laboratory now stands. Destroyed in the Spring of 1889.

sights because it is against the Buddhist law to take life. On the other hand, a goodly proportion of the people live by fishing and the rest eat the fish.

A Buddhist periodical recently made the statement that Buddhism is the sole great religion which places men and women on an equal footing, and that, in Burma, women have more freedom than in any other country of the world. Whether the statement is made ignorantly, or is a deliberate falsehood, the author of it may choose; but each week, as we have had occasion to travel up and down these rivers and have seen gangs of women carrying paddy from the boats to the mills, or unloading broken stone, broken brick, and concrete from the boats, doing work that Burmese cool-

ies cannot be hired to do in this section, and which only Indian coolies and Burmese women will do, we have felt that this statement ought to be branded as false. As a matter of fact, and we think we are reliably informed on this point, Buddhism places the male dog above woman in the scale of being, and the very best a woman may hope for is to be born a man in her next transmigration. Of course, in Burma she has freedom in commercial life. She could not make a living for her husband and her family and herself if she did not have such freedom.

Does Burma justly represent Buddhism? Let one of their own expounders answer. This from a tract widely published by the Buddhist Society of Rangoon: "If I were asked 'What is a Burman?' the answer I would make would be 'A Burman is a Buddhist,' and I do not think I could describe him more accurately." And, that Buddhism has done nothing to improve the condition of the people in Burma has failed to exert any influence worthy of the name, is plainly demonstrated by the state of the country at the time of the British occupation.

GIRL'S BASKET BALL.

Tuesday night the Girls' Varsity Basket Ball Team played a practice game with the Drummond Hall quint. As the regular Varsity team played, their ability to win was unquestioned.

The line-up was as follows: Forwards, Hattie Van Bergen, Captain, and Bessie Cox; Guards, Sylvia Frank, Isabel Dunn and Mable Stocking, Center, Julia Bearnnes and Rowena Harding.

The score at the end of the first half stood 25 to 5 in favor of the Varsity.

Final score, 53 to 15.

FIRST SCALP.

Minnesota triumphed over Iowa in the first championship game of the gopher basketball season. The score was 49 to 17. The game was played in the armory Friday night and was well attended.

The Minnesota team showed its superiority at every point. In team work and individual play the gophers were always a shade the better of their opponents, though the latter put up a plucky and skillful game. The next game will come next Friday evening, when the Nebraska university team will be played. The cornhuskers will also be played Saturday afternoon, January 21, making two games here at the end of the week.

The university band furnished music between the halves last evening and after the game the orchestra played for informal dancing.

SHAW HONORED.

Professor Thomas Shaw, formerly a member of the faculty of the state agricultural school, but now editor of the Farmer, was the recipient of a happy surprise Friday evening. After having been invited to attend a meeting in the chapel of the college, he was presented with a handsome gold watch, the gift coming from the faculty and students of the college.

The formal presentation speech was made by Dean Liggett of the college, and other speeches were made by Professors Green, Snyder and E. W. Randall, a newly appointed member of the board of regents.

Y. W. C. A. AFFAIRS.

At this time when all organizations which are of any importance are issuing calendars, the Y. W. C. A. has one which it thinks will be of interest to

all girls, though it covers only three weeks.

Jan. 21, 8 p. m.—The Post Exam Jubilee, Armory.

Jan. 29—Parlor talk given by Y. W. C. A.

Feb. 1-3—Miss Ruth Rouse.

Feb. 1, 4 p. m.—Informal tea, Y. M. C. A. rooms, for Miss Rouse.

Feb. 2—Noon, Miss Rouse speaks to all girls in Y. M. C. A. rooms.

Feb. 10—Twilight Concert, by Mrs. Charles Holt, in chapel at 4 p. m.

An opportune and cordial invitation comes to all girls from the cabinet and general secretary of the Y. W. C. A. to make the Association office their headquarters during the week of examinations.

The Daily will not be issued during that time, so there will be more room for the girls to make themselves comfortable. For the first four days hot tea will be served at the noon hour to all girls, whether they are association members or not, who may wish to bring their lunches to the Association headquarters.

The time when you will be most welcome will be just after you have failed.

For the next semester the Young Women's Christian Association offers two short courses in Bible study. They will begin February 1st and will continue for ten weeks.

The Association has been so fortunate as to secure Miss Comstock for a course on the Psalms or on Job. The class in personal work will be continued from last semester under the charge of Miss Sanford.

Elizabeth McLaughlin, '04, who is teaching in the St. Cloud High School, visited friends here last week.

For Safe Investments see Wyvell-Harrington Co., 401-403 Andrus Bldg., M'p'Is.

OF GENERAL INTEREST.

Preparations for the Pan Hellenic Ball to be held at the Armory on Feb. 3rd, are fast being completed. The program of dances will be ready in a short time for publication.

The subject which the Minervas and Forums will debate on in the preliminary of the Inter-society contest is as follows: Resolved, That the federal government should grant all articles of incorporation to corporations doing interstate business.

A meeting of the University Liberal Association was held Saturday evening in Dr. McClumpha's class room.

Miss Peck spoke on the subject, "Tendencies of the Modern Drama." Her address was one of decided interest. Many were present.

The Sophomore preliminaries for the Sophomore-Freshman oratorical contest were held Tuesday afternoon.

Out of nine men who were trying for places the following four were chosen: A. S. Dowdahl, O. L. Stensvad, L. A. Frye and Marten Oyen. The subjects of their orations are respectively "Ideals of Government," "The Erring Offspring of Prohibition," "Independence in Politics" and "False College Spirit."

The exact date for this contest has not been set, but it will occur some time in February.

The freshman contest was held Monday afternoon, and the freshman did themselves proud in the contest. The sophomores will have to be up and doing if they hope to carry off the honors, when they meet the freshmen a few weeks hence.

Plans for the annual spelling match are going forward and the event promises to be one of unusual interest.

A GUEST OF THE Y. W'S.

Miss Ruth Rouse, a graduate of Girton College, Cambridge, will spend three days, Feb. 1-3, at the University.

Miss Rouse has spent some time in India and for the past few years has traveled among the college women students in Europe.

A great variety of functions have been planned with the view to give every University girl a chance to meet her personally.

REED RE-ELECTED.

Frank E. Reed was re-elected manager of athletics Monday night. There was no opposition.

The board of athletic control offers to Mr. Reed a year's contract with the privilege of renewing it for a year.

Hugh Leach was elected assistant business manager.

Assistant Coach Gilmore Dobie was re-elected.

The board also ratified the basket ball contract with Nebraska and passed on a large number of bills.

WOMEN'S BASKETBALL.

Saturday evening the alumnae of Central High at the University defeated the Central High team by a score of 30 to 10.

It was apparent from the start that the University girls would be the winners, altho only one of the players was of the regular Varsity team.

Of the fifteen baskets made by the alumni, Sylvia Frank shot seven, Dora B. Rosenstein, five, and Julia Bearnese, three. The star players on the Central team was Rhodessa Rosenstein, who made two baskets. The others on that team who won points were Wales, two baskets, and Brown, one.

within the next two weeks.*

BASKETBALL SCHEDULE.

A basket ball schedule of eleven games in the east is nearly completed, and the team will start on its eastern trip early in February.

The list of games as far as completed is as follows:

Feb. 10—Rochester, N. Y.

Feb. 11—Schenectady.

Feb. 13—Columbia.

Feb. 14—Newark, N. J. (probable.)

Feb. 15—Washington, D. C., Y. M. C. A.

Feb. 16—Carlisle Indians.

Feb. 17—Open.

Feb. 18—Open.

Feb. 20—Ohio University.

Feb. 21—Purdue.

Feb. 22—Chicago University.

Don't forget Nebraska games, Friday and Saturday evenings, at the Armory.

See the Gopher "ad." above. The Gopher is going to be a good one and well worth the price.

LACK OF INTEREST.

Interest in special gym work at the Armory has suffered considerably this year. Although there is an abundance of promising material at hand and instructors ready to give their time and knowledge to the training of the athletes in order to meet the representatives of other colleges, yet there is no evidence of team work at the gym.

Last year a full squad was out in earnest training for the intercollegiate meet. Our men went east and altho they did not carry off the highest honors, yet their work was highly commended and was very encouraging to the instructors. The University circus proceeds furnished the necessary means to send the team east. This year there is to be no circus and hence it seems no means for sending our men to the intercollegiate meet at Chicago in March. With the place of meeting so near, it is especially to be regretted that we cannot send out our men this year.

ELIGIBILITY RULE REJECTED.

The one semester residence eligibility rule has been rejected by Minnesota.

This was the result of a meeting of the General University Committee yesterday afternoon. All the other rules and amendments proposed at the last meeting of the conference colleges were ratified.

The rule proposed by the conference is that no man be permitted to represent any conference college in any inter-collegiate athletic contest who had not been registered in that college for at least the preceding semester. The effect of this rule would be to

Bar Freshmen

from football, but to admit them to track and other spring athletics.

This rule was adopted by the conference only after some very strenuous opposition on the part of Dean Jones, and the Iowa representative.

Minnesota's refusal to ratify this rule will knock it out unless it is supported by the votes of three-fourths of the conference colleges at the spring meeting.

It is understood that several of the colleges represented are opposed to this rule, tho it received their vote at

the fall meeting and it is very probable that it can not be re-enacted over Minnesota's veto.

The most important of the rules ratified is the rule declaring that the first three games of the football schedule shall be classed as practice games and that playing in them shall not count on a man's four year limit, and the rule classing Carlisle and Haskel as colleges in football matters. This last rule means that a year on either of the Indian teams will count as a year of college football.

The

General University Committee

which passed on these proposed rules and amendments, is one recently created by President Northrop for that purpose. It consists of the deans of the colleges of Science, Literature and the Arts, Engineering, Law, Medicine, Chemistry and Mines, and three, one, and one additional representative from the academic, engineering, medical and law departments respectively. The medical representatives also represent the colleges of dentistry and pharmacy.

This committee will remain in existence and continue to act in the matter of these rules. It may receive enlarged authority from the President.

SMALLEST COLLEGE.

The smallest University in the world has just commenced its twenty-third year of active work. This is the American Classical University of Athens, and the unprecedented total of six students is sufficient evidence of its popularity. The scholars are all Americans, engaged in classical research work, and a notable fact about this student body is that each one holds a fellowship. Yale, Harvard, Dartmouth, Smith, Massachusetts Institute of Technology, and Wesleyan University are represented.

Our own Dr. Brooks was director of this college during his year's residence in Greece.

RHODES SCHOLARSHIP.

An exchange in speaking of the advantages of a Rhodes scholarship, said:

"Many students apparently do not realize the exceptional opportunities offered by the Rhodes Scholarship Committee. The large annual sum which is awarded to the winner of the scholarship can be made to provide for more than the work at Oxford. It is sufficient to carry one thru the long vacations also, and during these a student has the advantage of seeing much of Europe, and attending, if he so wishes, the summer sessions of the greater European universities."

THE HAMILTON CONTEST.

Minnesota took third place in the Hamilton contest held in Chicago last week. It is said that the contest brought out some unusual talent, the man from Knox college, especially, presented an oration that showed a grasp of his subject that won the admiration of all who heard him and won for him first place.

"KIT" GRAHAM HONORED.

Last Friday Governor Johnson announced the appointment of Dr. Christopher Graham, '87, of Roches-

ter, to the State Board of Health, to succeed Dr. Charles M. Mayo. The appointment is a well-deserved recognition of Dr. Graham's merits. The appointment will meet the hearty approbation of all who know him personally or by reputation.
