### Legislative Update

The Committee has received regular updates on the current status of the legislative request. It now appears that the legislature will continue to be in session until the middle of May. No final decisions have been made on the Music Performance Laboratory or the Bulldog Sports Center. At the present time, the Music Performance Laboratory is in the Senate compromise bill at \$6.1 million and the Bulldog Sports Center is in the Senate bill at \$2 million for planning. Conference Committees have not received their fiscal targets as of this date.

### Scholarships

Last fall, the Committee asked for a report on Scholarships. Brenda Herzig, Dire 77
