November 3, 1967

Duluth--- Physics seminars for the 1967-68 academic year at the University of Minnesota, Duluth, (UMD) will begin Wednesday November 8.

The seminars will begin at 4:30, with a coffee social preceding the seminars at 4 p.m. All the seminars are open to the public as well as to faculty, staff, and students.

The schedule of speakers and their topics:

- Nov. 8 -- Dr. Howard Hanson, professor and head of physics, UMD
"Atomic Fluorescence of Sodium Iodide"
- Nov. 22 -- Donald Olson, assistant professor of physics, UMD
"Auroras and Atmospheric Electricity"
- Dec. 6 -- Dr. Edward Ney, professor physics, University of Minnesota, Minneapolis
"Sizes of Photons and Stars (Stellar Interferometry)"
- Jan. 10 Dr. George Freier, professor of physics, University of Minnesota, Minneapolis
"Changing Mechanisms in Thunderstorms"
- Jan. 24 -- Dr. James Nichol, professor of chemistry, UMD
"Effective Electrical Potential on Diffusion Boundaries"
- Feb. 7 Dr. Michael Sydor, assistant professor of chemistry, UMD
"Photoconductivity of Alkali Halides"

More speakers will be added to the winter quarter schedule at a later date.
