ARENA VS. MINERVA

First Inter-Society Debate to Take Place Tonight

Tonight, in chapel, occurs the Minerva-Arena debate.

Indications point to a splendid contest and if a casual observer may be able to judge, it will be the most hotly contested affair between the football seasons. Each society will have its rooters and enthusiasm will run high.

The Minervas will be represented by three of their strongest debaters. Miss Julia McDonough, a senior, is of known reputation as a debater; Miss Ursula James, a junior, is by no means without debating experience, and Miss Nellie Cashman, while a freshman in the University, it is said will uphold the Minerva standard as well as her associates.

John P. LeVaney is a freshman and a member of Prof. Sanford's debating class. He is a clever debater and may be expected to spring surprises. Albert B. Welles, a sophomore, is a strong man in literary lines and will add great strength to the team. Isaac W. Choate, the third representative for the Arenas, is the equal of his two colleagues in debating ability.

Interest in these debates has grown in less than three years, so that what then was merely a matter of interest to the societies concerned, is now a matter of interest to the whole University.

The debate will begin at 8 o'clock, and Miss McDonald, of the history department, Representative John Sweet and C. W. G. Hyde will officiate as judges.

RECEPTION FOR MISS PRICE

The reception for Miss Price, held by the University Y. W. C. A., at the home of President Northrop, was enjoyed by 120 guests, about half of whom were prominent East Side ladies. A number of ladies who are prominent in the association throughout the state, were also present to meet the visiting secretary.

Mrs. J. B. Gilfillan presided and Miss Price gave a delightful talk on College Women abroad. Miss Hiscock and Miss Woodbridge each rendered a vocal solo. President and Mrs. Northrop were present and assisted in receiving.

During the afternoon light refreshments were served.

Miss Price left yesterday morning for the Winona Normal and, after visiting that institution, she will go to New York.

Emil Schow, the famous center of Wisconsin's championship team, is likely to be back next year. Wisconsin football enthusiasts have, therefore, much cause for rejoicing.

Song for This Morning

Come, thou almighty King,
Help us thy name to sing,
Help us to praise;
Father! all-glorious,
O'er all victorious,
Come, and reign over us,
Ancient of Days!

Come, thou incarnate Word,
Gird on thy mighty sword;
Our prayer attend;
Come, and thy people bless,
And give thy word success;
Spirit of holiness!
On us descend.

THREE BIG MEETS

Minnesota Track Men Will Hold Dual Meets With Iowa and Wisconsin and Send Team to Chicago

MEDALS WILL BE AWARDED

For Winter and Spring Games Here.—Cups for Handicap Contests.—No Eastern Baseball Trip

The new Athletic Board of Control held its first meeting yesterday afternoon.

The faculty members, Professors Jones and Nachtrieb and the Alumni members were present to see that the new under-class men members were properly initiated and duly impressed with the weight of the responsibility resting upon them.

Dr. Williams also attended the meeting and assisted from time to time with recommendations and advice.

Among other important matters, it was decided to hold two track meets, one with Wisconsin on the 17th of May, and a return meet with Iowa on the 7th or 8th of the same month. The Wisconsin met will be held in Minneapolis.

It also developed that the announcement of a Beloit meet by the authorities of that institution, was very premature, as it was definitely decided that no such meet will be held this spring, at least.

The winter sports will be held the latter part of March, in the Armory. At that time a full program of events will be run off, including some high school events, one of which will be a relay race, open to all high schools of the state.

The board also voted to present three silver cups to be contested for in a series of handicap events, one of which will be held each week, beginning with one next week. These contests will be

conducted on lines similar to the ones laid down for last spring's high jump contest and are arranged in such a way as to give everyone who can do fairly good work a chance to capture a prize. The three events for which these cups will be awarded are the high jump, pole vault, and shot put and the marking will be on the basis of the points made in the entire series.

About May 1 the University spring sports will be held. At that time all the events on the regular inter-collegiate program will be run off. This contest will be open to all University men and the results will go far toward determining who will represent Minnesota at the Wisconsin, Iowa and Chicago games.

For both the winter and spring meets gold, silver and bronze medals, appropriately inscribed, will be awarded to the winners of the first three places.

Minnesota will be again represented this year by a full team at the Western Inter-collegiate games, held in Chicago, on May 31. These games are open to any western college or university, and beside teams from the nine conference colleges, representatives from many other institutions, including men from California and Leland Stanford, will probably compete.

A splendid baseball schedule in the west has been secured, but it was decided to give up the eastern trip which had been contemplated.

INTER-CLASS GAMES

Freshmen and Sophomores Win First Contests for Ecklund & Buck Cup

Yesterday afternoon, the first games of the series for the Ecklund and Buck cup were played. The Laws, handicapped by the absence of two men and playing against last year's champions, were overpowered to the tune of 43 to 1, but showed by their work that with their regular team they will be heard from yet. The other game, between the Freshmen and Senior teams, was more interesting because the teams were more evenly matched, but resulted in a score of 20 to 4, in favor of the Freshmen.

The next game of the series was to have been played Thursday, but, owing to the meeting held by Mr. Colton at the Y. M. C. A., it has been postponed until Friday.

AGRICULTURIST WANTED

President Northrop has received a letter from Booker T. Washington, president of the Tuskegee College in Alabama. Mr. Washington wishes President Northrop to recommend a negro graduate of the State Agricultural School for the chair of agriculture at Tuskegee. This will be impossible, since no colored man has yet graduated from the State Agricultural College.

STUDENTS STRIKE

There is trouble at the Colorado State School of Mines at Golden, Col. The students object to recent ruling of the trustees that in all matters relating to discipline or standing the decision of the faculty shall be final. The students threaten to apply to the courts and a strike is on. It is said that several other institutions of a similar nature have offered to matriculate the students in a body and several of the students have already entered other schools.

McLEAN CHOSEN

Malcolm McLean has been chosen by the Gopher board as second assistant business manager of this year's annual. Minneapolis and St. Paul offers too large a field to be worked thoroughly by two men and, although Messrs. Hughes and Williams have been hard at work, it is felt that a special effort must be made this year to meet the increased expenditure which is planned.

Mr. McLean is a rustler of the first quality and will be a valuable acquisition to the staff.

Jacob Prinzing, M. D. '01, has resigned his internship at the St. Mary's hospital, Rochester and is practising medicine at Racine, Minn. with Dr. Plummer.

Even Genius itself is dulled by the influence of a shabby coat.

Subscription price \$1 for the remainder of the college year. The business manager and all members of the corporation are authorized to receive money and issue receipts.

Notices, communications, and other matter intended for publication should be in the editors hands by 5 p. m. All communications must be signed. Forums will be held open for news matter up to midnight.

Advertising rates will be furnished on application.

A New Feature

The DAILY NEWS begins a new feature with today's issue. This is a column for literary notes and gossip which will be edited by George N. Northrop. This feature will appear weekly, on Wednesdays, and while it will be devoted largely to the work done by college people in the world of letters, it will cover a wider field and keep the students posted on the best things which appear from the pens of the well known writers.

Disapproves "Charitable"

The Honorable John W. Olsen, state superintendent of public instruction, and by virtue of his office a member of the Board of Regents of the University, and of the State Normal School Board, has sent out to every city and county superintendent of the state, with a request that they secure as many signatures as possible, a petition to the legislature, asking that body to take such action as will remove the state normal schools and the University from the category of charitable institutions.

Good Sport Assured

Never in the history of the institution has the prospect for good spring sport been so bright as this year. On the track and on the diamond, contests have been arranged which insure good sport in about as large quantities as the teams can handle. Two dual meets with our old rivals, Wisconsin and Iowa, are assured, as is the representation of Minnesota at the big inter-collegiate games at Chicago. This, with the indoor meet and the spring field day, will give the lover of athletics about all he could reasonably ask for.

The kind of a team which will represent Minnesota remains to be determined. Minnesota can turn out as strong a team as any in the west, but it will require that the best men in school turn out and that they get the

full benefit of the winter training. The winter work is very valuable in laying the foundation for a strong team in the spring. This is so far true that without it, no athlete can do himself justice in the spring contests.

Many will be attracted by the exceptional advantages offered this spring; but unless they get out now and begin they will find themselves seriously handicapped when the training for the special events begins.

The handicap contests arranged should prove an incentive to effort in these events and will partially take the place of the all round contests which have been dropped.

In baseball,—and, after all, there is no sport which lies closer to the heart of the great student body than the national game—Minnesota is assured of good sport. The eastern trip had to be given up, but this will probably result in bringing more games to Minnesota and in one way at least we will be the gainer.

Those who have had the preliminary work in charge have done their work and done it well. It remains for the students to carry out their part. To see that the men get out at once and that they train conscientiously after they are out.

LITERARY NOTES

John Philip Sousa has been wielding a new baton lately in the shape of a pen-holder. The result is a novel, entitled "The Fifth String." It will be interesting to admirers of the intrepid band-master to see if his usual success has attended this new venture.

Smith college may well feel proud of two of her fair daughters, Anna Hampstead Branch, and Josephine Dodge Daskam, who in their two years away from Northampton have been plucking laurel leaves for the mother-brow of Smith. Miss Branch shows wonderful originality and deep insight into the most sensitive places of the heart. Miss Daskam is captivating, a shower-up of the humorous, but none the less true side of human nature.

An English university has been harboring a man of great powers in fiction, Mr. G. B. Brown. Since his year away from Oxford, he has produced a most discussable book, "The House with the Green Shutters."

The February "Bookman" contains an article entitled "The Great Newspapers of the United States." The students in the class in journalism find this helpful.

Poultney Bigelow, whom the University will remember as a recent visitor, has a book out, entitled "The Children of the Nations." It should find many readers here among us who know and esteem Mr. Bigelow.

HIGH SCHOOL MEET

The Inter-Scholastic Athletic Association will hold their annual indoor meet in the University Armory, March 1, at which teams from the Twin City high schools, Duluth, Stillwater and Red Wing and other high schools of the state will compete. The meet is an annual event of great importance to the different schools and also brings to light much fine material for the "U."

H. A. Hildebrandt, Elect. '01, is now superintendent of the electric light plant at St. Peter.

Margaret Moore, '01, is teaching at Willmar, Minn.

Frank F. Jewett, '01, has been appointed second lieutenant in the regular army.

R. C. Farrish, M. D. '01, is filling the vacancy made by the resignation of Dr. Prinzing at Rochester.

MEDICS CELEBRATE

Their Strenuous Life Being Over, They Proceed to Enjoy Themselves

The Medics Post-Exam Jubilee, held in the Y. M. C. A. rooms, was a winner. A large and enthusiastic crowd of Medics attended, and before the evening was over, they had forgotten the trials and tribulations of the past week. Even those who expected to have a conference with the Dean managed to subdue their sorrows and join in the general jollification.

A very delightful program was rendered, which included solos by W. M. Brown and J. M. Freeburg, a talk by Miss Price, of Chicago, on "College Life in England and Scotland," and selections by the "U" orchestra. After the program, the crowd adjourned to take a course in Diatetics under Miss Wilkinson, which proved very profitable for the inner man. Then followed a course of frappe and pop corn. Games of various kinds were played and the new billiard table was kept especially busy.

All returned home in the best of humor and expressed their unqualified approval of the way in which they had been treated.

According to the Cardinal, the seven richest colleges in the country are as follows: Harvard, with property worth \$10,000,000; Girard, \$15,250,000; Columbia, \$9,500,000; Cornell, \$8,000,000; Chicago, \$6,500,000; Leland Stanford, Jr., \$3,350,000, and Yale, \$4,000,000.

WILL RESUME WORK

Anatomical Building to be Temporarily Repaired—Dissections Begin Next Week

Dr. Erdman announced yesterday that the Anatomical building would be sufficiently repaired in the course of a few days to allow the Sophomores to continue their work in dissection.

Only the dissecting room will be repaired at present and as soon as the spring work is completed, the building will be thoroughly renovated and put in shape for next year.

Various additional improvements are also being contemplated.

PLAYERS SCARCE

The University of Chicago is said to be unusually short on good ball players this season. There are few candidates in sight as yet and only a few of them turn out for regular practice. The only promising player as yet is Fraunfeller, a Harvard graduate, now a sophomore at the Rush Medical college, who has been asked to join the squad. He has had some experience as a pitcher and has expressed his willingness to try for the team.

MIND IS MASTER

The American School of Magnetism

is the only incorporated institution of its kind in the Northwest. The laws governing all psychic and occult phenomena are fully revealed and thoroughly demonstrated by efficient masters of the science, with special reference to *Personal and Vital Magnetism*. The whole world is governed by absolute and inflexible law, as unerring as the law of mathematics. To him who understands the law, the dark problems of life are easily solved. Success, financial or otherwise, is not a thing of chance, nor of labor, but is gained only by compliance with certain well-defined *psychic laws*. Graduates of the American school of Magnetism are not only enabled to cure every form of disease and sickness without drugs or surgery, but are positively enabled to command success in every line of human endeavor. The most fascinating, as well as vitally important study of modern times is this peculiar branch of science, a thorough knowledge of which is of more value than a college education. As a matter of self-protection against the undue influence of others—natural or acquired—it is becoming absolutely necessary. *Are you a sufferer from disease or habit?* Scores of people are being cured at the Gates Institute of Magnetic Healing after everything known to medical science has utterly failed. Consultation and diagnosis free. Call or write for *Magnetic Journal* twenty-eight pages, profusely illustrated; sent free. For further information address the secretary,
C. C. GATES,
355-363 Bank of Minneapolis Building,
Corner Third and Nicollet,
MINNEAPOLIS, MINN.

A Word to the Suffering

If you wish to enjoy perfect health and vigor, use nature's only reliable remedy, "OXYGEN" as applied by the "Perfected Oxygenor King." This instrument is more than 50 per cent stronger and in every respect far superior to any oxygenating instrument on the market. The Oxygenor will cure a Cold and break up LaGrippe in one night, and it will cure all kinds of fevers quicker than anything that has ever been used. It is also a certain cure for Rheumatism, Nervousness, Catarrh, Asthma, Blood Poison, Appendicitis, Kidney Disease, etc. It has a record of having cured 85 per cent of cases pronounced incurable.

GEORGE G. VALLENTYNE, Pastor Park Ave. M. E. Church, of Minneapolis. Says:—"I have used the Oxygenor with good success, and I count it worth its weight in gold. I cannot speak too highly of it."
Residence 3327 Fifth Avenue South.

E. BRIDGMAN, of 3041 Oakland Avenue, Minneapolis, Minn. Says:—"I have suffered from Rheumatism for many years and from Locomotor Ataxia for nearly two years, but was immediately relieved upon using the King!"

The Freshmen Engineers postponed the business meeting to be held today till next week Wednesday. It is presumed that the Engineers want to unite upon a man for class president and perhaps for other class officers. In that case, watch for some lively electioneering, both among them and the other Freshmen.

That the NEWS receives recognition from newspaper people is shown by the following extract from a letter received yesterday: "The steady improvement seen in each number of the DAILY NEWS assures it the success which its friends have prophesied for it, and gives promise of its future standing as an authority on University affairs and as a first-class newspaper in every respect."—S. M. Moses, associate editor "Events."

JUNIOR BALL ANECDOTE

Two University Men Endeavor to Get in Under the Tent

The twin city newspapers have been relating anecdotes of the Junior Ball ever since that glorious event, Under the title of "Seen by a Woman at the Junior Ball," many stories are being told. But there is one story that has not yet been disclosed. It is rather amusing, too. It would be more so if names were published. The NEWS refrains, believing in charity.

The story runs this way: On that memorable night of January 31st, when the festivities inside the Armory were at their height, two young men of University journalistic fame approached the desk on which reposed the list of those who were tripping the light fantastic within. This list was for the benefit of the twin city newspapers, and these young men, as was natural, began to copy it. They were not twin city newspaper men, however. When they had finished the copying they looked at each other and then slyly glanced around. No one was in sight, nobody could detect the deed. With great coolness and nonchalance, each young man added a name to the list of those attending at the '03 Junior Ball. They were modest young men.

THERE ARE OTHERS

The following from the Normal Eye shows that we do not suffer alone.

O Vaccination!
In all Creation
Thou art the worst invention.
I'm very sure
The pound of cure
Can't outdo this prevention.
Look out! Beware,
My friend, take care!
That left arm's very tender.
Ah! when its well,
No tongue can tell
The songs of joy I'll render.

President Roosevelt has issued an order forbidding all officers and employes of the United States to act as lobbyists.

LEAVE THIS MORNING

Musical Clubs Take the Road for the Annual Trip

The University Glee and Mandolin clubs left this morning at nine o'clock, over the Northern Pacific. The boys have provided themselves with a special car and intend to enjoy life. Four towns will be made on this trip, the first stop being St. Cloud, where they will give a concert tonight. From here they go to Brainerd and then to Duluth, where they will give a concert under the auspices of the Senior class of the High School. The funds derived from this concert will be utilized by the class as a memorial fund. The custom before has been to give a class play in order to raise a memorial fund. But this year it was decided to drop the play and substitute the University Glee and Mandolin clubs.

The last concert will be given at West Superior, on Saturday night, the club returning to Minneapolis Sunday evening. Some, however, will leave after the concert, Saturday night, to participate in the concert to be given by the Dellitante club, at the Lyceum, Sunday.

A pleasant feature of the trip will be a party given by the Senior class of the Duluth High School to the members of the club.

After returning, a concert will be given in St. Paul, Feb. 14th, under the auspices of the High School Athletic Association. Later, Feb. 28th, they will appear at the Lyceum Theater, Minneapolis. The seats will be on sale soon, and arrangements for boxes may be made with P. D. McMilleen.

GENERAL NEWS SUMMARY

Important Events of the Day Briefly Stated

Minneapolis business men have petitioned the legislature to delay action on the tax bill.

The Megard trial is about half completed, the defence having already begun its case.

The United States senate has voted down a proposition to increase the salaries of members to \$7,500 a year.

A change of venue to Sibley county has been granted by the judge in the Tanke murder case, being held at St. Paul.

Governor Taft, of the Philippines, declared before a senate committee that the war there is a crime against civilization.

Ben Daniels, who has served a term in prison, has been appointed United States marshal of Arizona by President Roosevelt.

The British war office is trying to find out who got the rake-off on a job lot of horses which were purchased four times.

The Morris bill, providing for the disposal of the Chippewa pine lands, which is now before congress, seems likely to fail.

The Minnesota legislature convened yesterday in St. Paul. The report of the tax commission and the railroad merger will be considered. Gov. Van Sant's message will be heard today.
