on campus briefly

UMD Theatre opens with Moliere

UMD Theatre will open its winter season with the 17th Century French comedy classic "The Imaginary Invalid."

The play by Moliere, considered one of France's greatest dramatists, will be staged at 8 p.m. Jan. 14-17 and again Jan. 21-24 in the UMD Marshall Performing Arts Center.

Aided by Miles Malleon's contemporary adaptation of the original script, "Invalid" is a biting satire of the medical profession which becomes more enamored with rhetoric than actual practice.

The play, as timeless today as it was when it was first produced 300 years ago, also reveals all the humor possible when people deceive themselves and others.

Tickets for "Invalid" are \$4 for adults, \$3 for senior citizens and non-UMD students and \$1 for UMD students with a current activity card.

Reservations will be accepted beginning Jan. 6 at the Marshall Box Office, 726-8561.

Clarinet compositions debut in Jan. 12 recital

Clarinet music never before performed in Duluth will be featured at a recital at 8 p.m. Tuesday, Jan. 12, in the UMD Bohannon 90 auditorium.

UMD Associate Professor of Music Robert E. Williams said all but one of the works on his recital program will be performed in Duluth for the first time.

Featured will be compositions by Bernard Heiden, Italian composer Mario Castelnuovo-Tedesco and contemporary Polish composer Witold Lutoslawski.

Also featured will be two works for clarinet and tape, one by Michael Horvit and the second by Edward Miller, which Williams performed in Duluth approximately five years ago.

Williams, a member of the UMD faculty since 1966, received his bachelor's and master's degrees from the University of Arizona and the Ed.D. from the University of Illinois. He is the director of UMD's Varsity and Concert Bands and annually coordinates an Honor Band Clinic on campus.

Williams will be accompanied by pianist Patricia Laliberte, UMD assistant professor of music.

The public is invited to attend the recital Tuesday. There is no charge for admission.

Announcements

Vets Club reorganization. First meeting, January 20, 4:30 p.m. in the Veteran Affairs office, Administration Building. Call the Vets office for more info.

AFROTC positions available

If you are a college sophomore or have two years of undergraduate or graduate years left in higher education, you are eligible to apply for pilot/navigator training programs in the Air Force Reserve Officers' Training Corps (AFROTC) at UMD.

AFROTC officials report that the number of navigator positions available will be twice the number expected. Salaries for these positions, following graduation, begin at about \$17,889.

For more information about these positions or about the UMD ROTC program in general, call Capt. Rick McKee, 724-6926.

A course for teachers

Northern Minnesota educators can attend a special course on "Current Issues in Educational Administration: A Look at Curriculum" being offered by UMD beginning in January at the Hibbing Community College (HCC). Co-sponsored by the Educational Administration program at UMD and Continuing Education and Extension (CEE), UMD Center, the course includes a series of lectures on a number of curriculum topics including curriculum revision, early childhood education, mathematics education, and reading and language arts.

Instructors for the course will be Leonard Ojala, co-director of UMD's educational administration program and a number of instructors from UMD's Professional Education department. In addition, some administrators from area public schools will present special lectures.

Cost for the three-credit course, which meets on Thursdays at 6 p.m. in Room S109 at HCC from Jan. 14 to March 18, is \$79.50. Persons may register at the first class session January 14.

For information, call Ojala at 726-7516 or Terry Anderson at CEE, 726-8113.

Theatre buffs: We now have 16,000 scripts for your use

The Loan Play Library has a new home at UMD.

The Library, which will be housed in the UMD Department of Theatre, will provide students, educators, community and school theatre groups, and others with access to a collection of approximately 16,000 scripts ranging from ancient to modern avant garde.

Roger Schultz, UMD assistant professor of theatre who coordinated the move of the Library from the University of Minnesota Continuing Education in the Arts to UMD, said the collection also includes some one-of-a-kind manuscripts ranging back to the 19th Century.

The Library will operate on a membership basis and is expected to be operational by February. Schultz said the membership fee is yet to be set.

The Loan Play Library at UMD will operate with the support of the UMD Library, the UMD School of Fine Arts, and the UMD Department of English. It will be staffed with volunteer help from the UMD theatre faculty and staff.

More information can be obtained by writing Roger Schultz, UMD Department of Theatre, University of Minnesota, Duluth; Duluth, Minn., 55812, or by calling 218-726-8778.

Calendar

Friday, Jan. 8 - Men's Basketball: UMD vs. UM-Morris, Phy. Ed. Bldg., 7:30 p.m.

Saturday, Jan. 9 - Men's Swimming: UMD vs. St. Thomas, Phy. Ed. Bldg., 2 p.m.; Men's Basketball: UMD vs. Southwest State, Phy. Ed. Bldg., 7:30 p.m.; Men's Wrestling: UMD Invitational, Phy. Ed. Bldg., all day.

Sunday, Jan. 10 - "Spaceship Earth," free public program, Marshall W. Alworth Planetarium, 3 p.m.; Student Recital: Robert Boman, trumpet, Boh. Hall 90, 3 p.m.

Monday, Jan. 11 - Kirby Program Board Coffeehouse Concert: Scott Alarik, Bullpub, 7 p.m.

Tuesday, Jan. 12 - Kirby Program Board Coffeehouse Concert: Scott Alarik, Bullpub, 7 p.m.; Faculty Recital: Robert Williams, clarinet, Boh. Hall 90, 8 p.m.

Wednesday, Jan. 13 - Women's Basketball: UMD vs. St. Cloud State, Phy. Ed. Bldg., 7:30 p.m.

Thursday, Jan. 14 - UMD Theatre presents: "The Imaginary Invalid," Marshall Performing Arts Center, 8 p.m.

All Week: The Tweed Museum of Art is open from 8 a.m. to 4:30 p.m. on weekdays and from 2 to 5 p.m. on weekends. There is no charge for admission. Current exhibits: color nature photographs by Tom Martinson; drawings by Gendron Jensen.

ABC-TV wants you

ABC Entertainment's Casting Department will conduct its third annual talent search in Minneapolis during the week of February 13-17.

Gary L. Pudney, Vice President, Special Projects, and Senior Executive in Charge of Talent, ABC Entertainment, commented, "We feel it's very important to bring new faces and fresh talent to television, and our search underscores the commitment we've made for that purpose. We also feel it's important to look for new actors outside the major talent centers in New York and Los Angeles so that our programming maintains a creative mixture of styles and personalities. We plan to continue this effort aggressively in the future." Mr. Pudney also said that the Casting Department will emphasize prime time program needs in its search, but will consider actors for other programming as well.

Individuals who want to be seen by ABC's Casting Department during this search, are strongly urged to mail photographs and resumes, with return address and telephone numbers, IMMEDIATELY to Randall James, Manager of Casting, ABC Entertainment, 1330 Avenue of the Americas, New York, N.Y., 10019. ABC will then inform appropriate candidates of time and location for their appointment in Minneapolis.

Mr. James will be directing the talent search activities.

It is imperative that submissions be MAILED PROMPTLY since interview schedules are being arranged before the casting representatives arrive in Minneapolis. ABC plans to interview and test on video tape the strongest candidates.

For further information contact the Promotion Department at WDIO-TV.

Announcements

UN Association

The United Nations Association will be meeting tomorrow, Friday, January 8, at 3 p.m. in K351. On the agenda will be a sign-up for countries which we have been given to represent at the Model UN to be held this spring in LaCrosse, Wisc. Members will be able to choose among Sweden, France, Nigeria, and Australia as countries to serve on. Anyone interested is encouraged to attend.

"The Job of the Controller"

A seminar on "The Job of the Controller" will be held Jan. 14-15 at the UMD School of Business and Economics.

Sponsored by the Center for Professional Development (CPD), the seminar will cover the many changes the job of the controller has undergone in the last five years.

Seminar director will be Edwin B. Sheren, president of General Management Services, a lecturer, teacher and consultant with 30 years experience in accounting and controller procedures.

Registration information is available at CPD by calling 726-7946 or by writing the office at the School of Business and Economics.

Mock political caucus

Faculty, students and other interested persons are invited to participate in a simulated political caucus to be held by the American Association of University Women Saturday, January 16, from 9:45 to 12 noon at WDSE (Public Television Station), 1202 University Circle.

In Minnesota, persons elected during the Democratic and Republican caucuses in February and in those which follow will have a voice in selecting the candidates to represent their parties, i.e., to be their candidates for coming elections. Therefore, being elected a delegate at the political caucus or getting one's choice of delegates elected is very important.

Persons who are familiar with the caucus process are urged to come and help inform those who are not.

Jean Olson and Mary Ryland will be on hand to assist in the presentation.

Brown Bag

Brown Bag: "Women and Reproductive Rights," Tina Welsh, Administrator, Midwest Health Center for Women. A discussion of the moral issues of abortion, to be presented Monday, January 11 in Kirby 323 at noon.

Students file complaint

by Rob Cole

Several UMD students have filed a formal complaint against a UMD faculty member. The grievance was filed with the Student Affairs office of the College of Letters and Science. It was signed by twenty of the students that were enrolled in a three credit Communication course, entitled, "Public Relations, Advertising, and Promotional Communication." The formal student grievance was brought against the course instructor, Associate Communication Professor Jerry K. Frye.

Many students complained verbally to the CLS Student Affairs office during fall quarter when the class was offered by the Communication Department for the first time ever. The informal complaint resulted in some compromises, such as the three credits being offered as independent study under other Communication instructors' supervision. But some of the students decided to pursue the matter further.

Just before Thanksgiving, the first formal complaint was received by CLS Associate

Dean Robert E. Franz. The specific charges of this initial complaint included what the students viewed as a "lack of structure," including specific incidents describing what the students felt were "contradictory statements by Dr. Frye."

A second formal grievance was drawn up by the students that included specific recommendations. This grievance will be the subject of a hearing, where some of the students will voice specific grievances to Frye and CLS Dean George R. Rapp.

According to Franz, Frye will have an opportunity "to challenge" and "give his particular viewpoint." Franz adds that this is what has been proposed and that no final agreement on the procedure or date has been made as yet. Frye, who has been a faculty member at UMD since 1977, has received a copy of the formal grievance from the CLS office.

Joe O'Connor, a junior transfer student from St. Cloud State University, acted as a spokesperson along with senior Communication major, Dick Greeman. Even though O'Connor and Greeman received credit for

the course through independent study, they both felt that it was "best to go right to the Dean's office." O'Connor also thought that "it's the University's responsibility to oversee their instructor." O'Connor did not feel that any of the requests were "unreasonable."

Communications Department Head Jackson R. Huntley said that the role of the department in this matter would be "a party to the grievance hearing." Huntley said that "typically, a grievance would come to him," but in this case the Communication department was "bypassed," said Huntley. Huntley hopes that they can find a "working solution" where both the students and Dr. Frye can be "satisfied." Huntley has seen the formal grievance, and feels the requests are "reasonable."

Frye declined to comment at press time, feeling a statement would be "premature."

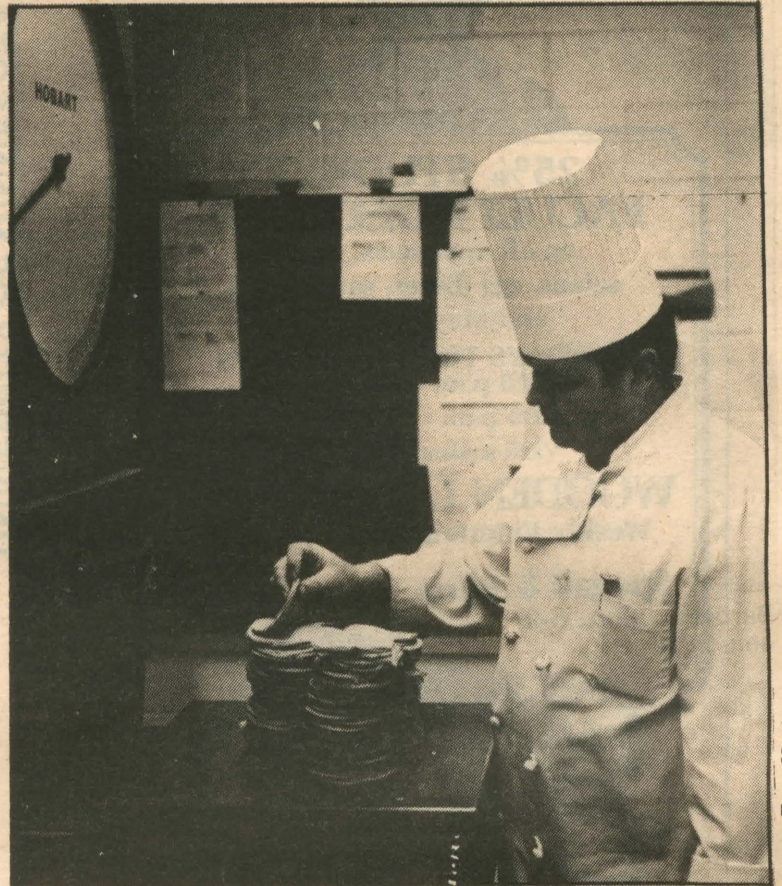

Photo: Terry Mentzoe

Dale Bruckelmyer begins his job as the new Food Service Production Manager by inspecting the food to be used.

Food Service names manager

by Angle Forrest

Shortly before Thanksgiving, Dale Bruckelmyer became the new Food Service Production Manager for UMD.

Before accepting the position at UMD, Bruckelmyer was the food service production manager at the Spirit Mountain resort. He and his wife moved to Duluth 10 years ago and now have 13 children, ages 14 months to 20 years.

Bruckelmyer began his career in food production management by attending a trade school for training in hotel and restaurant management. After completing the program, he worked in various positions in several restaurants, eventually undertaking management responsibilities in large hotel restaurants, such as the restaurant in the Minneapolis Radisson.

As UMD's Food Service Production Manager, Bruckelmyer supervises the purchasing and actual producing of the food products offered in the RHDC (Residence Hall Dining Center), Cafeteria, Bull Pub, Deli and Campus Club, a total of 6,000 meals per day.

Supervisors from each of the five food service establishments create menus that are based on a five week cycle. Each attempts to follow the other food service areas' menu as closely as possible in order

to avoid overloading the cooks.

Every week approximately 12 to 15 different food suppliers from Minneapolis and Duluth make bids for UMD's specific contract for that week. Bruckelmyer grants the contract to the bidder that meets UMD's qualifications for cost efficiency and quality of the food products.

Bruckelmyer considers the greatest challenge of the job to be "getting the people to work for you, with you and getting people to work as a team." Responsible for about 30 employees, he hopes to improve the organization of the workers in the kitchen, mostly through training, but generally he believes "they're doing a good job here."

Always open to new ideas and recipes, Bruckelmyer encourages patrons of food service to stop by his office with suggestions, complaints, or comments on the food service system. One may even tour the impressively large kitchen and food storage areas.

Bruckelmyer says that there are always some problems to solve in any institution, such as the familiar lack of ice for cold drinks experienced as the day progresses and the demand becomes greater than the supply. Presently, attempts are being made to obtain a larger ice machine, but lack of purchasing funds has hindered progress of this effort.

However, Bruckelmyer thinks UMD's food service facilities are excellent for the most part, and among its assets, cites the Deli as his personal favorite.

"I think we serve good food," said Bruckelmyer, adding, "you can't please everybody." But the food service attempts to please the largest possible number of people.

Task Force acts on requests

by Jane Strabala

The Task Force on Sexual Assault has gotten positive results from actions it has taken since its first meeting on December 16. The task force, organized by counselor Julie Westlund, has received and acted upon suggestions from students regarding safety from sexual assault on campus.

One of the many suggestions made was to leave lights on in stairways and hallways on campus, especially in the corridor connecting the residence hall and its dining area. The custodians are now leaving lights on in those areas. Students who wish to report an area where lights have not been left on can call campus police at 7197, talk to Captain Michalick or leave a message. Custodians in the area may also be notified.

A request for an outside phone to be installed in the math lab was made. During the discussion it was thought that it would be quite expensive to install a phone, but a memo requesting the service was sent to Provost Heller. As of this time, no response has been received. If a person on campus wishes to make an outside emergency call to the campus police at night, dial 9911. This makes a connection

to the city emergency assistance. Then request campus police and the call will be answered.

Evening bus service was suggested and there is now service available from Kirby Center making its last run from UMD at 11:52 p.m. Students using this service should be ready to signal the driver to stop as the bus may otherwise pass through.

Locks on campus housing were discussed and at present all apartments on the UMD campus and Lake Superior Hall have dead bolt locks. All other campus housing units have vandal-proof doors. Ground level windows on Lake Superior Hall and Griggs Hall have locks as well as hole and peg security devices that open only from the inside. Concern about custodial access to student dorm rooms was expressed, also. All housing staff members (ground workers, custodians, student workers and maintenance personnel) are required to wear name badges while on duty. If a student has a complaint, he/she may take it to the resident advisor or call John Weiske at 8178 in housing.

Since parking stickers which carry the name of the owner are displayed in car windows, a suggestion was made to not

require a name display decreasing the danger of a particular person being selected and waited for in ambush. People buying stickers are now being told that a signature is no longer required. Those who have a sticker with a signature are encouraged to remove the name.

It was decided that there would be no trial period set for the newly organized UMD Escort Service and equipment used will continue to be rented. There was discussion of women becoming involved in providing the service but no decision was reached.

The seven member Task Force on Sexual Assault includes Julie Westlund-7985, Bilin Tsai-7220, Susan Coultrap-McQuin-7953, Kathy Valentine, Lisa Hellervick, Captain Harry Michalick-7197, and Jim Rauker, assistant vice provost for student affairs-8501. Students, faculty, and staff may contact any of these members to check the progress of the requests and recommendations made, and also to express their concerns or suggestions. "I want to hear about them. That's the best way to get something done," Westlund emphasized.

The next task force meeting will be held Wednesday, January 6.

Barbara Flannery, UMD home economics instructor, shows the use of a light box which demonstrates the visual effects of incandescent and fluorescent bulbs.

Reports published

by Bob Brekke

A study of housing for the elderly in Duluth and an energy study dealing with interior designs conducted by Barbara Flannery, a UMD home economics instructor, has resulted in a number of publications.

A report entitled, "Housing Satisfaction of Elderly Residents of Government Subsidized Housing in

Duluth - A Summary of Data," summarizes data obtained from 183 residents of four Duluth senior citizen housing units.

The study was funded by grants from the U of M Graduate School, the Center for Urban and Regional Affairs, and the Lake Superior Basin Studies Center.

The purpose of the study was to gather information which could be used by local agencies and organizations in planning for the needs of the area's elderly population.

A questionnaire was given to the residents covering eight categories.

Five of the categories were demographic information, resident's primary reason for moving, general quality of life indicators, and knowledge and use of neighborhood and community activities and services.

The other three categories pertained to resident's satisfaction with the neighborhood, with apartment design, and with common areas in the building.

The demographic information included age, sex, marital status, education, monthly income, length of residency, number of bedrooms in the apartment and the previous type of home the residents had.

The results of the survey showed that financial considerations were the primary reasons for moving.

The percentage of residents who were satisfied with their quality of life was 82.8.

The average number of community resources used by an individual was four out of 27 resources listed in the survey.

The overall satisfaction in the apartment design was 89 percent while 85 percent of the residents were satisfied with common areas in the building and 84.4 percent were satisfied with the neighborhood itself.

Flannery's "Energy Efficient Interior Design" is a teacher's guide to a videotape series funded by a grant from the Minnesota Energy Agency.

The series has been used by over 100 teachers statewide, various county extension personnel, Minnesota Power and the Duluth Housing Redevelopment Authority.

The three videotapes included in the series are: Energy Efficient Window Treatments; Energy Efficient Floor Coverings, Furniture and Furniture Placement, and Use of Design Elements; and Energy Efficient Residential Lighting.

According to the guide, opaque window shades mounted as close to the window as possible will lower heat loss.

Draperies should have a cornice to avoid the draft tunnel syndrome that is created when air from the room is allowed to circulate behind closed draperies.

The use of acrylic pile rather than nylon carpet over concrete floors and floors above unheated crawl spaces will also result in fuel savings.

The placement of furniture away from heating and cooling vents is also important.

Warm colors such as red, yellow and orange will make a room seem warmer.

Fluorescent lamps are more efficient than incandescent lamps and are appropriate for all areas in the home.

Since most of the energy used by an incandescent bulb is lost in heat it is better to use one 150 watt bulb than three 50 watt bulbs.

Higher wattage bulbs give more light per watt than lower wattage bulbs.

The use of three-way bulbs increases the flexibility in a lighting design.

Flannery said, "Lots of people have done structural things to their homes to save energy. Additional savings can be realized by the use of energy efficient design."

Flannery also said, "The key thing is to remember energy efficient design when making changes in your home."

Consumption Quiz

Do you think you may have a drinking problem? Answer this short little questionnaire and see how you do.

Y N

1. Do you gulp drinks for the effect rapid drinking produces?

Y N

2. Do you start the day with a drink?

Y N

3. Do you drink alone to escape from reality, boredom, or loneliness?

Y N

4. Do you frequently overdose on alcohol or get drunk?

Y N

5. Do you drink to relieve a hangover?

Y N

6. Do you lose time from school because of drinking?

Y N

7. Do you drink to lose shyness and build up your self-confidence?

Y N

8. Is drinking affecting your reputation?

Y N

9. Do you drink to escape from study or home worries?

Y N

10. Does it bother you if somebody says maybe you drink too much?

Y N

11. Do you have to take a drink to go out on a date?

Y N

12. Do you ever get into money trouble over buying liquor?

Y N

13. Have you lost friends since you've started drinking?

Y N

14. Do you hang out now with a crowd where alcohol is easy to get?

Y N

15. Do your friends drink less than you do?

Y N

16. Do you drink until the bottle is empty?

Y N

17. Have you ever had a loss of memory from drinking?

Y N

18. Has drunk driving ever put you into a hospital or a jail?

Y N

19. Do you get annoyed with classes or lectures on drinking?

Y N

20. Do you think you have a problem with liquor?

Y N

21. Do you drink more than you intend to or more than you planned to?

Y N

If you circle "Y" on three or more of these questions, it may indicate a potential problem area for you. For more information contact:

UMD Alcohol/Drug Outreach
Peg, Mold, Coordinator
Health Service

Divided we fall: United we fall less often

Are you one of the many women who have returned to the classroom after some time away from formal education? Are you feeling a little anxious about competing with younger students? Worried about how you will be able to balance your family and student responsibilities?

If you would like to share your concerns with other women who also have become students at UMD, you are invited to come to WING (Women in New Goals) any Tuesday from 12 noon to 1 p.m. to discuss your unique needs and get support from others who have experienced or are now facing similar problems.

Where? Kirby 351

When? Tuesdays

Time? 12 noon to 1 p.m.

For further information, contact Hommey Kanter, Counseling, Career Development, and Placement Office, 139 Administration Building (726-7985).

Learn CPR

The Basic Cardiac Life Support/Instructor Certification or Recertification course will be offered for two Saturdays in January.

The class will be 15 hours in length with the first part on January 23 and the second portion on January 30, 1982. The class will run from 9 a.m. to 4 p.m. each day.

The cost for this class is \$12 and there is a limit of 15 persons.

Registration and payment for this class will be accepted until January 19, 1982, at the Health Service office.

The course will be taught by Adrienne Thureen of Health Service. If you have any questions, feel free to contact her at 8155.

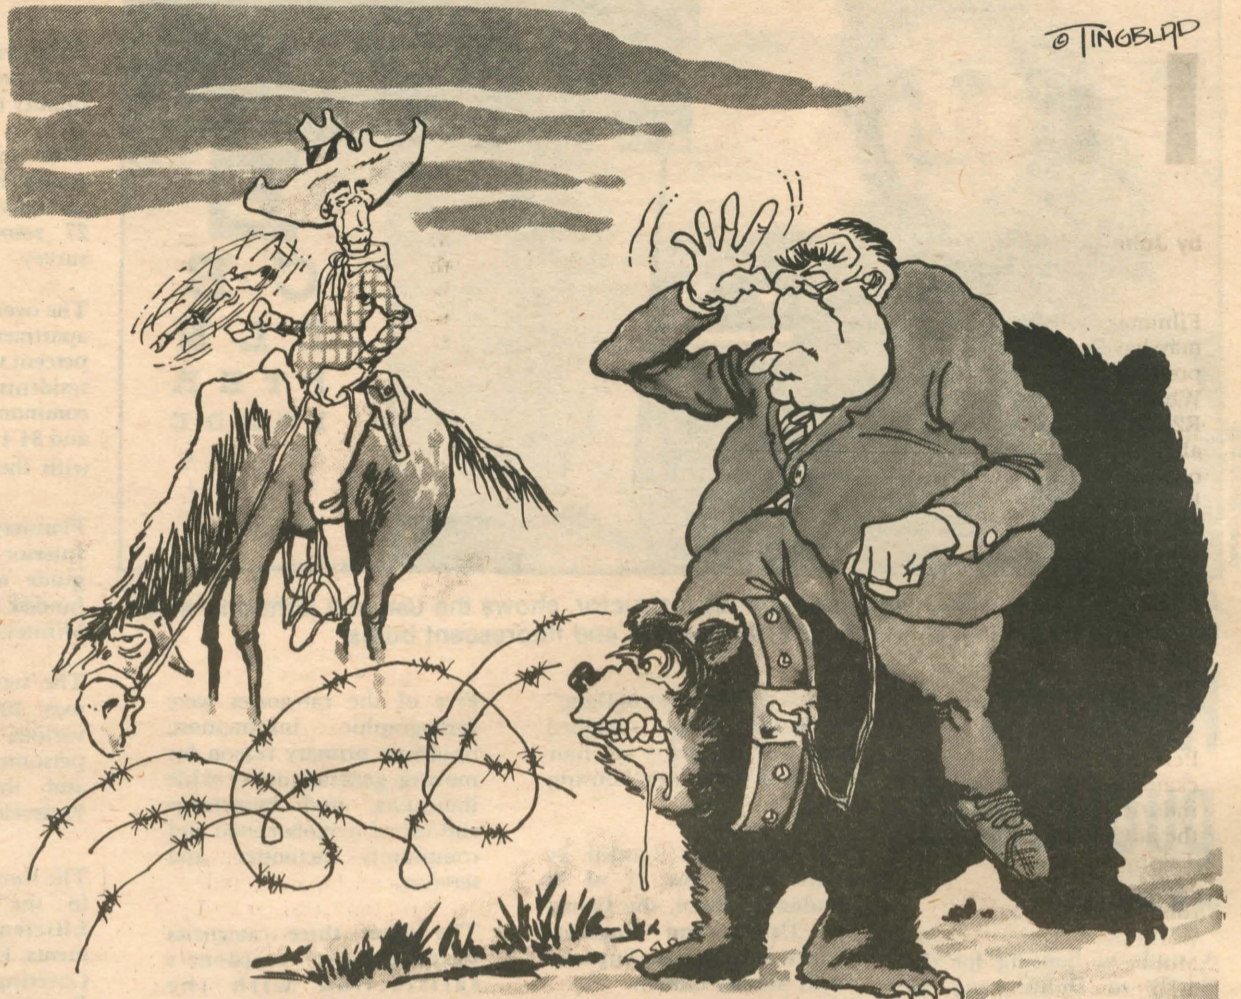

How come?

In our continuing effort to reach YOU our reading public, we've decided to ask you, after all, HOW COME? When the Statesman staff was around campus "digging" out the "news" this week, our roving reporters came up with some perplexing problems from UMD students. But the problems can not be solved that easily—not even from the great minds of aspiring journalists.

Here they are anyway.

How come:

- UMD has a winter quarter?
- Alternate side parking is always the wrong side?
- It always snows two feet the day after someone steals one of your skis?
- Duluth's hill is bigger than Superior's?
- No one talks to you until you're too busy to answer?
- When it finally snows, it's too cold to ski?
- Food service increases prices to afford new high-speed data terminals that take ten minutes to bill you \$24 for a medium Coke?
- The SA Food Store was the best kept secret of the fall quarter?
- You have to have a parking permit to park in the snow at the Oakland Apts.?

INTERNATIONAL DIPLOMACY?

- We don't have a swell newspaper faculty advisor like UW-Eau Claire?
- We never hear of Peter, Peter Pumpkin Eater anymore?
- Ruth of Duluth never changes clothes?
- Miller's socks never match (Get a clue!)
- Bathrooms never have any toilet paper?
- When my alarm works, it goes off on Saturday morning?
- We never see Provost Heller in our halls?
- The name plate on Al Quie's office says 'Governor'?
- If YOU, the faithful reader, have the answer to one or even more of these mind boggling problems, don't be afraid to "tip them off" to one of our semi-professional reporters.
- The Campus Cupboard didn't have a going out of business party?
- And to end, we offer you, the reader, a once-in-a-life-time challenge to rattle your cage and come up with some problems we could have missed—God forbid.

letters

Serious bathroom

To the Editor:

On December 11, some serious damage was done to the first floor bathroom of C-Section of Griggs Hall. This damage came to \$306 and has been billed to the residents of first floor.

Our complaint stems from the fact that only one resident of first floor was present during the time period in which the incident took place. All of the other residents have witnesses who can prove that they were not present during the time of the incident, but they have all been billed for this damage.

None of them have been questioned as to this incident and we feel that virtually no attempt has been made by Housing to find out who was actually responsible for the

damage. We believe that we are not any more responsible for the damage than any of the other residents of Griggs Hall, and should not have to pay for the repairs.

Spunky spotlight

Dear Editor:

I enjoyed your "Sports Spotlight" article (as I usually DO) on Varsity swimmer Julie Johnson in the Dec. 17 Statesman.

However, it is a real pity that such an inspiring article on Miss Johnson's athletic talent and enthusiasm had to be marred by the adolescent double-entendre of the headline ("Team person' J.J. willing to put out").

At best, such an example is inexcusable journalistic ignorance, at worst, a cheap attempt at humor Miss Johnson's expense.

The next time the paper wishes to "honor" someone, I suggest you learn the meaning of the word.

It's no tribute having an article with a headline likening you to a two-bit whore...

Sincerely,

Brian K. Gaus
Education

Editor's Note: Please see page 14, item one of Jock Talk.

Correction:
The Chuck Wow story in the Dec. 17 edition incorrectly identified Lynn Seacord as "she," which should have been "he." We regret this editorial error.

Cover Art: Kirk Tingblad

Question and answer

Editor,

On Monday, January 4, 1982, UMD Escort Service commenced operations. We were pleased on having numerous

calls on Monday and hope to have even more in the future.

This is a service being offered to the entire UMD community by a concerned organization. A person needing an escort whether it be from school to an apartment, parking lot, or from an apartment to school is welcome to use an escort.

Statesman

The UMD Statesman is the official newspaper of the University of Minnesota, Duluth, and is published by the UMD Board of Publications each Thursday of the academic year, excepting holidays and exam weeks. Opinions expressed are not necessarily those of the student body, faculty or the University of Minnesota.

Advertising inquiries should be directed to the advertising manager at (218)726-7112. The editorial phone is (218)726-7113. A subscription is \$2.50 per quarter and mailed upon request.

Offices are located at 118 Kirby Student Center, UMD, Duluth, Minnesota 55812. Second class postage is paid at Duluth, Minnesota.

All letters to the editor must be signed in the hand of the author, and submitted by Monday, 5 p.m. before the Thursday publication. Letters should not exceed 300 words.

opinions

I robot

by John D. Hawkinson

Filmmaker George Lucas may have been more prescient than he knew. While his fictional characters R2-D2 and C3P-0 shuttled about in "Star Wars," a quiet industrial revolution began in American factories. On the assembly lines, robots finally started displacing human workers. Today's robots neither look human nor do they speak; in their specialized functions they work as well or better than their human counterparts.

Perhaps the most striking example of the new industrial revolution is in the automotive industry. Taking a lesson from the Japanese (who own more robots than the rest of the world put together), General Motors has begun an ambitious "robotization" of its factories.

Over the next ten years, GM will spend over \$1 billion to purchase 13,000 industrial robots. These mechanized assembly-line workers will do everything from bolt together the chassis to paint the assembled car. And how does the United Auto Workers union react to this? Union Coordinator Thomas Weekley explained, "If our membership can be assured that they will have employment, we're in favor of automation."

That assurance will not be forthcoming. An assembly-line worker earns an average salary of \$18.10/hour in wages and benefits. An industrial robot doing comparable work (with

superior quality control) costs General Motors only \$5.50/hour to operate. Eager to reduce labor costs by 70 percent, GM and Ford may fire HALF their assembly line workers by 1990.

The Robot Revolution is not limiting itself to Detroit. Industries making everything from chocolate bars to jet aircraft are putting industrial robots on the assembly lines, displacing human workers in the process.

Up until recently, this displacement hasn't been a serious problem. Early robots were primitive, expensive, and difficult to operate. U.S. business leaders were hesitant to try out an untested concept. Big Labor did not object to automation as long as robots were introduced gradually. By 1980, however, the situation had started to change.

During the late 1970s, the cost of microprocessors (the "brain" of a robot) went down drastically. A robot that ten years ago would have been a multi-million dollar device resting in a lab at NASA or M.I.T. now costs \$20,000-\$100,000, well within the reach of many factories. Secondly, the Japanese, acknowledged leaders in robot technology, gave U.S. companies a painful and expensive lesson in the dangers of ignoring scientific and industrial breakthroughs. The Japanese found that products can be manufactured faster, cheaper, and better through automation. Now their American counterparts are scurrying to copy the Japanese model.

Many businessmen expect that American factories will become heavily automated within the next decade. Unaddressed is the problem of millions of workers who will be out of jobs as a result.

There have already been suggestions that Congress should pass legislation to severely restrict or ban outright the use of robots in factories. Several problems present themselves. For one, what exactly is a robot? A computer-controlled machine that welds car frames? A programmable drill press (which has been on the market for almost 30 years)? A pushbutton elevator? Without robots, can U.S. industries remain competitive with Japanese and European firms, or will our government pass restrictive trade sanctions against other countries in order to protect domestic industry?

History demonstrates that stopping progress has rarely been effective in the long run, although it often appeals to the short-range goals of special interest groups. On the other hand, dumping several million more Americans on the public welfare rolls is also not an appealing solution. Some sort of middle ground must be found during the next few years.

Any ideas, someone, anyone?

Hawkinson is a regular contributor to the STATESMAN who hasn't been replaced by a robot...yet.

Questions have been raised as to the motives of Alpha Phi Omega in forming this service. Some of the objections have been as follows:

1. Alpha Phi is just concerned about recognition.
2. Alpha Phi is not doing this for the community.
3. This is going to make women look as a subordinate role.

I'd like to answer all these statements with one response. We are doing this as a concerned organization. We are concerned about campus safety and making sure people can travel to any destination on campus safely whether they are male or female.

We would encourage all people to use the service.

a clown

by Marlon Gustafson

Whenever children get together to have fun, clowns always seem to pop up. At fairs, circuses, birthday parties, parades, even at hospitals, their fun and antics are shared and loved with all who are present. Clowns seem to take the bad and magically turn it into a humorous delightful spectacle. While they are laughing, others seem to join in laughing also.

That is exactly what the Clown Company is about. Chris Prudhomme and David Walbridge formed this corporation a few years ago. A small mime troupe named the Blackthorn Theater employed both of them. Their involvement in that and countless plays at the Depot and surrounding area gave them the idea to start their own little group. They have been working together professionally for about a year now.

Their shows are magic and jugglery. The show is designed to fit the needs of the children. If they're performing in a group of children, they are staged a little differently than when they are performing in front of an adult audience.

Money is usually a problem. The Clown Company charges \$50 for a show on stage and \$25 for street work. When the performers do a show at a fair or school, they are usually paid something equivalent to the street work.

Chris and David don't mind the money though. They think it's what makes them professional.

Both Dave and Chris thoroughly enjoy their work. Dave, a senior at East, has been in 'show biz' for nine years. When asked why he participates in the Clown Company, he replied, "I've been involved in theater for a long time, but there's a big difference between the stage and street performers. You share something with the audience that actors up on stage can't."

Chris agreed with Dave. He's a UMD student majoring in Technical Theater which gives him insight on how the backstage is run. "People feel a part of what's going on instead of watching it. There's a special reward from the audience. You're entertaining them and yourself. It's an art."

Chris and David don't mind the money though. They think it's what makes them professional.

Illness beware: Wellness is here!

by Dave Rasmussen

If you've been over to Health Service since Thanksgiving break, maybe you've noticed the Wellness Resource Center that's been added to the waiting room.

"The center was installed to help educate students about illness prevention and wellness life-styling," said Barbara Cardinal-Busse, nurse practitioner.

"Research shows many of the top ten causes of death are related to behavior, which makes them diseases of choice," Cardinal-Busse said.

"What we eat, do and live is killing us," she said. "By showing that a person is a whole system of interdependent parts, we hope to assist students in establishing lifestyles that will serve them well into the future."

"We hope to expand (the center) in the future," Cardinal-Busse said, "and hope people will feel free to offer suggestions."

Cardinal-Busse said she would encourage people to stop by and use the center rather than coming to Health Service only for treatment of an illness.

"The concept of wellness isn't new, but awareness of it is

Patti Sundland (right) and Betsy Ward (left), UMD students from Duluth view "The Addictive Personality," one of the many slide/tape presentations in Health Service's new Wellness Resource Center.

COVE CABARET 706 Tower Ave., Superior, WI

much greater recently," she said.

"We can't eliminate health risks, but once people are aware of them, we hope they will take responsibility for their own well-being.

"The center offers print and audio visual materials which explore the physical, emotional, spiritual and social dimensions of health," Cardinal-Busse said.

"The physical dimension includes nutrition and exercise, the emotional explores how to deal with stress and tension in a healthier way, the spiritual

refers to what makes life meaningful and the social refers to our interaction with others and with the environment," she explained.

Students may check books out for five days and audio-visual materials, appropriate for small group or classroom presentations, are available to faculty, staff or students for a maximum of two days.

The center offers a wide range of books and slide/tape programs, but space (or rather the lack of it) prevents listing them here.

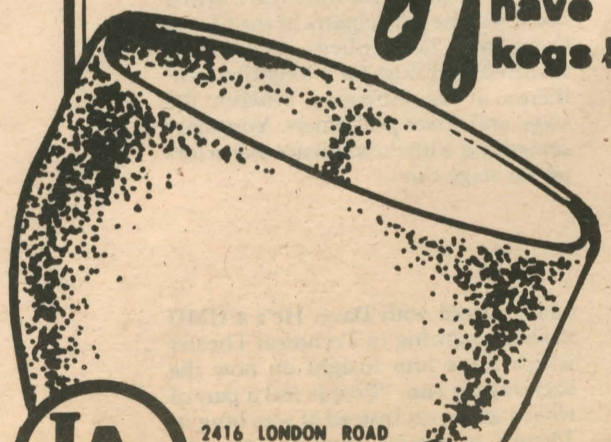

If you're interested, maybe you should go look for yourself.

Presenting Velvet Sam:

A man with songs in his heart

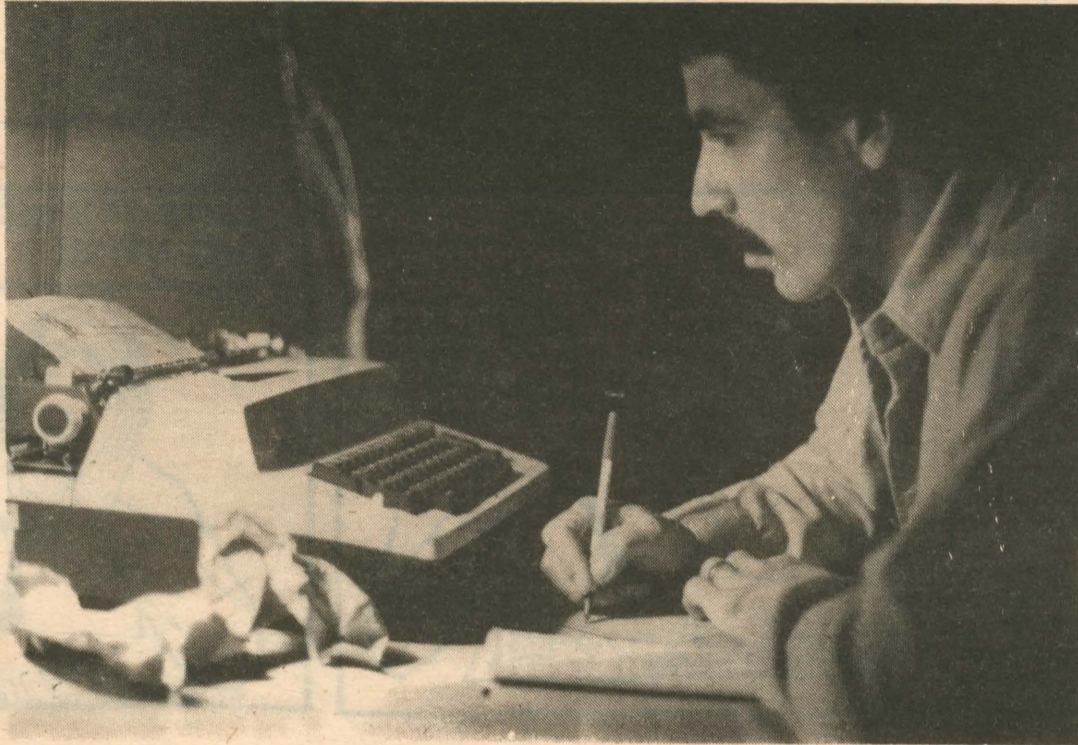

by J. Kyler Evenson

Most everybody has the urge to engage in an act of craziness, in hopes they can make someone laugh. For Michael Aguirre, craziness has been turned into a part-time job.

Craziness not in the sense of ridiculous but rather crazy in the name of fun. Few people, however, get the opportunity to turn good old fashioned humor into a financial nest egg. Aguirre and his wife Kitty are an exception to the rule. The Aguirre's own and operate a song gram service billed as "Velvet Sam's Song Grams." Michael does the creating and singing and his wife Kitty handles the business affairs.

Aguirre, who originated from the Southwestern United States, moved to Duluth about a year ago.

"I moved because I was tired of the big city," said Aguirre.

Michael Aguirre piecing together a special song for someone special.

Times were tough financially, but ironically on Thanksgiving Day, the song gram idea was first proposed to him.

"My brother-in-law was explaining how he had sent his

wife a song gram," explained Aguirre. "He suggested to me that I had the talent to start my own song gram business."

Humor and music have always intrigued Aguirre, but now he had a chance to combine the two and make some money besides.

"Song writing has always been kind of my 'main vein.' I've been a song writer for about 7 years, and even though I've never had anything published, I still care to write," he said.

So with a life-long love for music and some experience as a comedy writer from his days in L.A., Aguirre accepted the idea. But he still had a problem. He wasn't sure how to establish his new-found song gram business. After his brother-in-law did some poking around in other song gram business, however, he has plenty of information and "Velvet Sam's Song Gram" was born.

At first Aguirre felt his business would eventually involve expanding but the expansion never occurred.

"Velvet Sam's is different in that it's personally detailed. I wanted to avoid the gimmicks because they get old," said Aguirre.

Now with a year under his belt, Aguirre can look back only to be glad he made the change to "Velvet Sam."

data, he sits down and puts his creativity to work. The result is almost always a song you'll never forget and an embarrassing situation that the receiver should rather not remember.

Aguirre has taken his talent to a variety of places, from delivery rooms to dining rooms and bowling alleys to banks. He's sung for nurses and interested husbands as well as sheriffs and students.

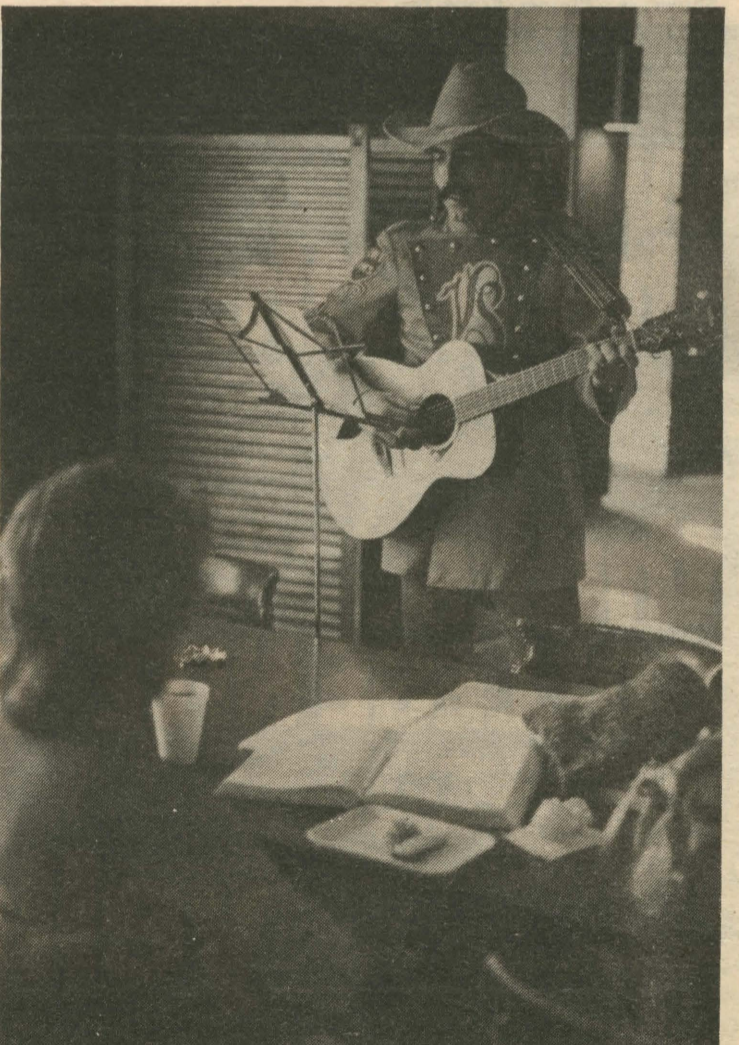

His talent hasn't gone unnoticed. He's made appearances on P.M. Magazine, Country Day, and on local news.

As Velvet Sam, Aguirre can be as wild and crazy as he feels, but he feels good knowing that he can shed that image so easily.

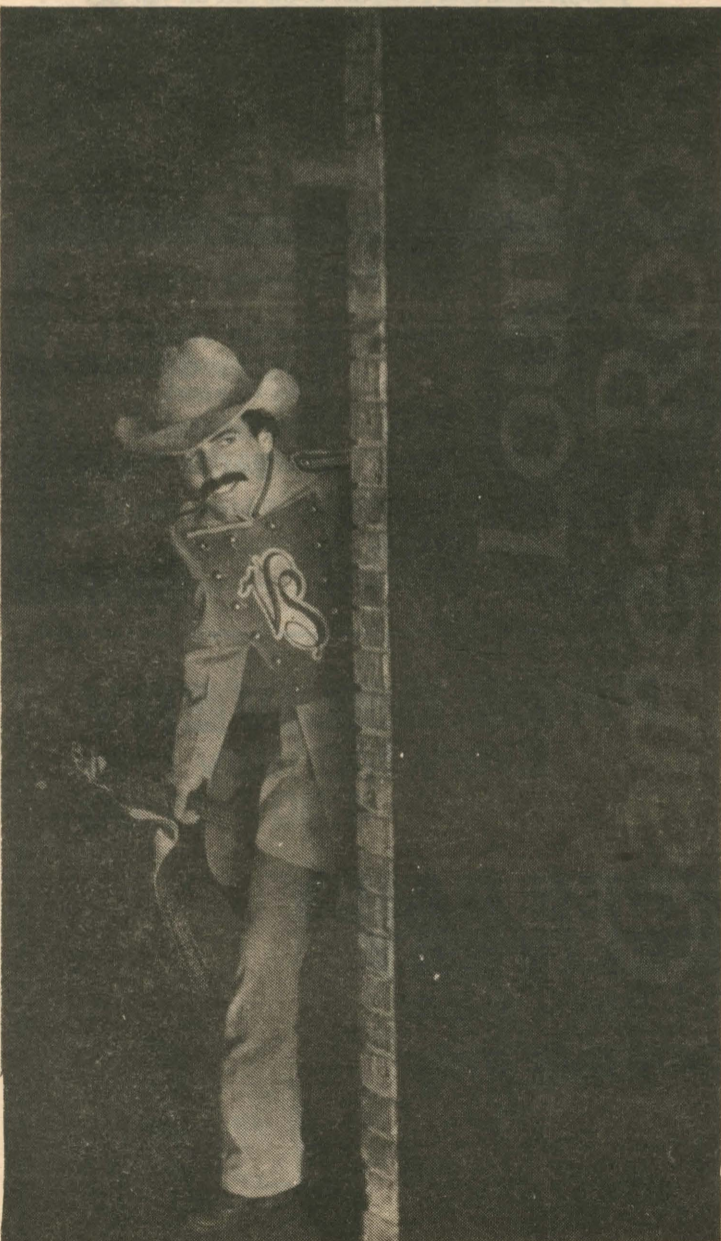

"I like having two identities because then I'm not stuck with Velvet Sam. When I take the uniform off, I'm just another crazy guy."

As for the future, he doesn't really worry.

"I guess people are always going to have birthdays and anniversaries," he concluded with a smile.

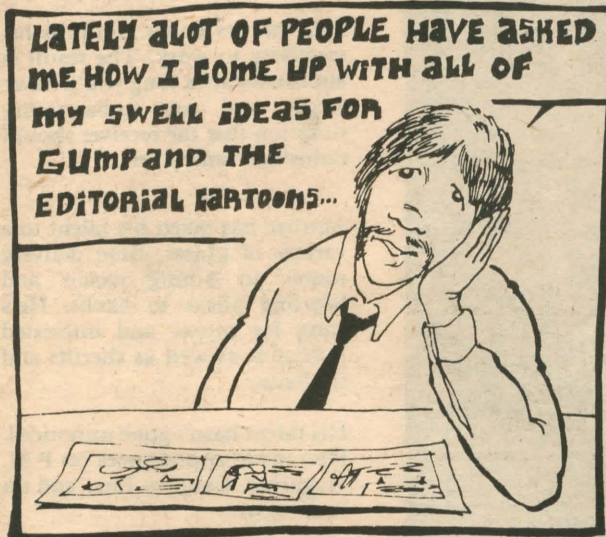

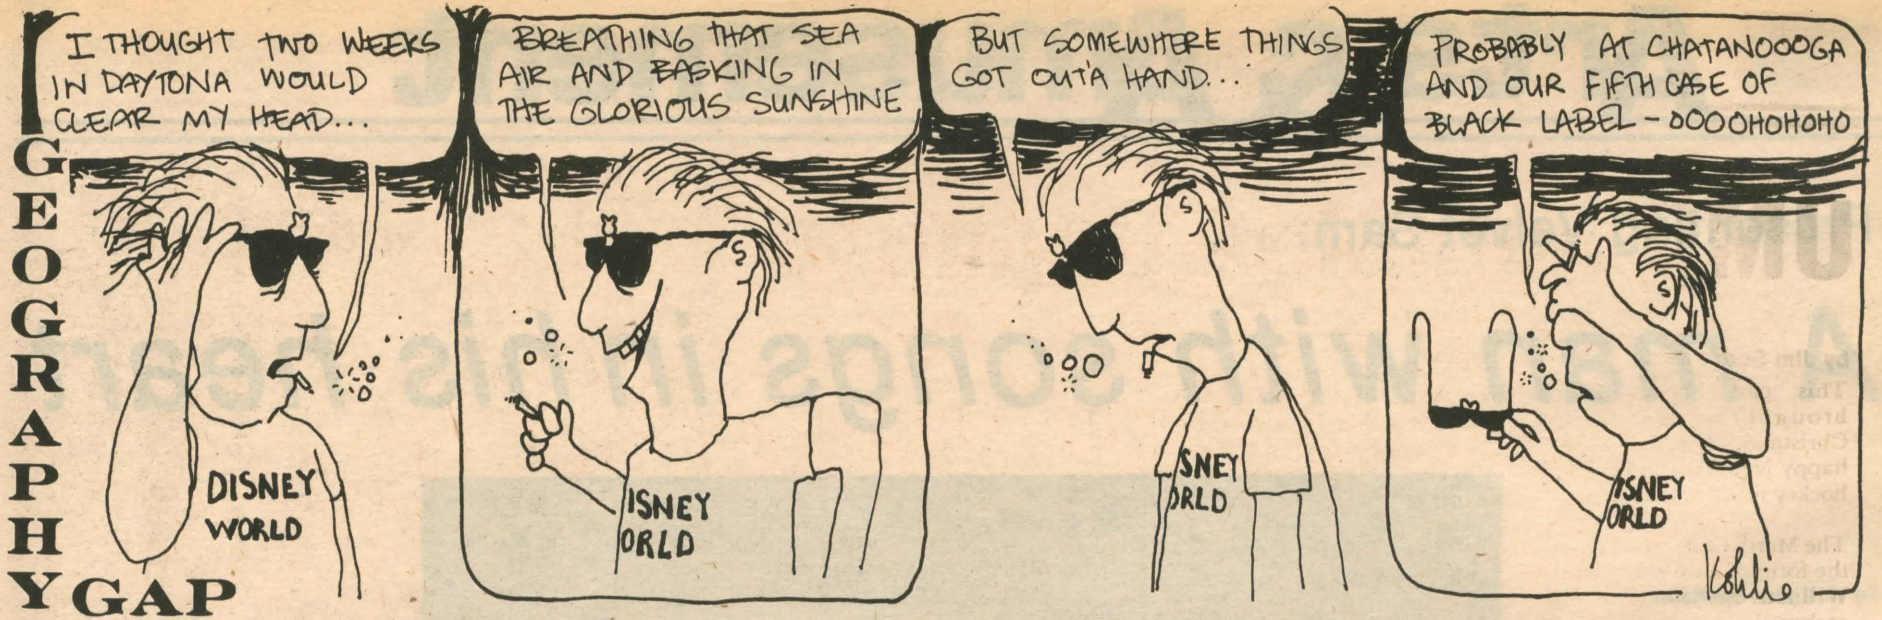

"Velvet Sam" in action.

"Velvet Sam" sneaking up on his prey.

Sports

UMD humbles Gophers

by Jim Sodergren

This past holiday season brought a very Merry Christmas, but not a very happy New Year to the UMD hockey team.

The Merry Christmas came in the form of a tie and a win at Williams Arena against their archrivals, the Minnesota Gophers. The two teams tied 6-6, with UMD taking a 4-2 decision the second night. The three points the Bulldogs earned raised their record to 3-6-1 in the WCHA, good for fifth place.

Forwards Dan Gerarden and Gregg Moore each had big scoring weekends picking up four points each. Moore had two goals and two assists while Gerarden had a goal and three assists. For his efforts, Moore was nominated as UMD's candidate for WCHA player of the week.

Senior right wing Gary DeGrio had two goals, including the winning one, in Saturday's 4-2 victory against the Gophers.

The New Year's holiday saw the Bulldogs hosting Lake Superior State, Northeastern, and the Air Force Academy December 31-January 2 in the first annual Jeno's Holiday Classic at the Duluth Arena.

Lake Superior State and the Air Force Academy opened the tournament in the first game New Year's Eve. The Lakers, under former UMD coach Bill Selman, took an easy 7-2 win from the overmatched Falcons from Air Force.

Pre-tournament favorites UMD and Northeastern squared off in the second game of the evening. The Boston based Northeastern Huskies surprised the host Bulldogs by taking a 6-5 win. Jim Madigan led the scoring for Northeastern with a pair of goals. Gregg Moore had two goals in a losing cause, while Dan Fishback, Bill Oleksuk, and Bill Mason each scored once.

Lake Superior State continued to surprise people when they captured a 7-4 decision over Northeastern in the second night of the round-robin competition.

In the nightcap, the Bulldogs exploded for six goals in the third period to break a 4-4 tie and take a 10-4 decision from the Air Force Academy. The line of Scott Carlston, Gregg Moore, and Dan Fishback were reunited for this game and had a spectacular evening scoring six goals. Carlston led the way with six points on two goals and four assists. Moore added another five points, scoring the hat trick and picking up a pair of assists, and Fishback had a goal and an assist.

The final night of competition saw Northeastern bomb Air Force by the score of 14-0.

The tournament finale matched UMD and Lake Superior State in what was the finest game of the tournament. It was an evenly played, up and down the ice game that justifiably ended in a tie that gave Lake Superior State the championship of the tournament.

The Lakers jumped to an early 2-0 lead in the first period before the Bulldogs' Mike Krensing drilled a shot from the point which the Laker goalie Pat Ansell initially stopped, but the puck dribbled between his legs to make it 2-1 after the first period.

The game remained this way until the third period when UMD's Bill Oleksuk knotted the game at 2-2 with a wrist shot from the left face-off circle. Lake Superior State grabbed the lead right back on a goal by Monty Beauchamp (his second of the game) less than three minutes later. Scott Carlston finished the scoring for the evening when he tied the game at 3-3 with assists from linemates Moore and Fishback.

The final standings for the tournament had Lake Superior State as champions with a record of 2-0-1, Northeastern in second with a 2-1-0 mark, the host Bulldogs third with a 1-1-1 record, and Air Force last at 0-3-0.

The all-tournament team featured three players each from Lake Superior State and from UMD. The Lakers placed forward Steve Mulholland, defenseman Dave Keegan, and goalie Pat Ansell on the squad, while Scott Carlston, Gregg Moore and Jim Johnson, who was outstanding in all three games, were the Bulldogs honored. The MVP of the tourney was Lake Superior State goalie Ansell.

UMD's Carlston was the leading scorer in the tournament with 39 goals and eight assists followed closely by teammate Gregg Moore with five goals and five assists.

Carlston's big 11 point weekend makes him the Bulldogs' fourth all-time leading scorer. The senior wing has scored 75 goals and 103 assists for 178 points in his career at UMD. He passes former Bulldog great and current Minnesota North Star player Curt Giles.

The Bulldogs played the tournament without the services of Tom Kurvers, Tom Herzig, and Dan Gerarden, who all were competing with the USA team in the World Junior Tournament held here in Minnesota over the holidays.

The Bulldogs return to WCHA action this weekend with a crucial series in Madison, Wisconsin against the WCHA leader Wisconsin Badgers. The Badgers have a 7-

1-1 WCHA record and are also ranked number one in the latest WMPL college hockey poll.

Coach Gus Hendrickson was disappointed in his team's play in the tournament, but feels his team is still capable of making a move in the standings in the second half of the season.

"To improve ourselves, we need to score on the chances that we get and need to cut down on our defensive lapses. Everytime we seem to make a mistake, it costs us." Another goal Hendrickson seeks is consistency of effort. "We played very well at Minnesota," Hendrickson noted, and added that, "if we get that type of effort the next few weeks we can make a move up in the standings."

The next two weekends are big ones for the Bulldogs as following the Badger series, they return home to meet arch-rival Minnesota in what is usually the highlight of local hockey excitement all year.

"If we can get three out of four wins in the next two weeks, it will do a lot to help our confidence and get us going

Four points set 'Dogs' NIC standing

by Karl Oestreich

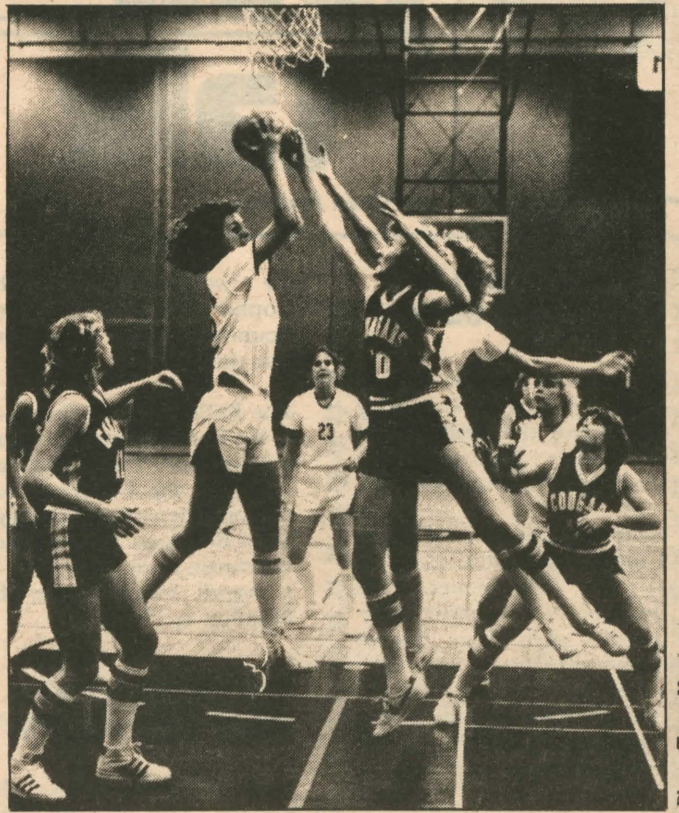

George Fisher's cage crew will be going after its first conference win when the Bulldogs head into a pair of Northern Intercollegiate Conference games this weekend.

The UMD men's basketball team hosts Minnesota-Morris on Friday and Southwest State on Saturday in the Phy. Ed. Building. Both games are slated for 7:30 p.m.

"We're looking forward to playing at home," said UMD basketball coach George Fisher, "and we need the student support."

Even though the 'Dogs have compiled a 9-4 record for the first half of the season, they have yet to win a conference game. Moorhead State and Northern State edged UMD in a pair of road games before the holiday break. Moorhead beat the 'Dogs 75-73 and Northern State beat UMD in overtime 74-72.

Just before New Year's UMD placed second in the Arrowhead Invitational in Turlock, California. An opening round victory over California-San Diego bought the Bulldogs a ticket to the championship game with California State-Stanislaus. "I thought that the two best teams in the tournament were California-San Diego and us,"

Photo/Terry Mentzos

Heather Nelson (left, in white) goes up for a tough rebound in Tuesday night's loss to UM-Morris. The Bulldogs lost the game 72-69, despite the 19 points Nelson scored.

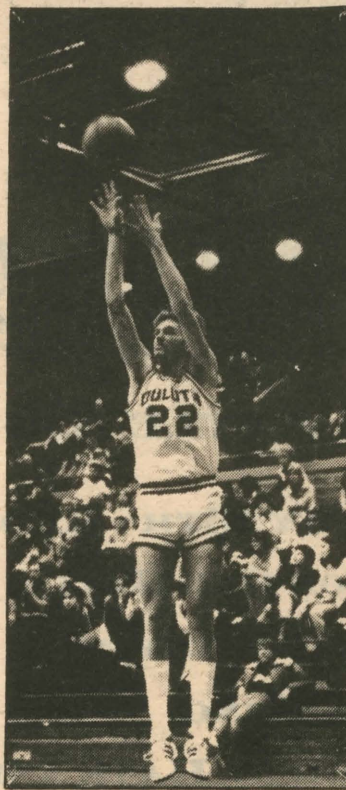

for the rest of the year," said Hendrickson.

COMMENTARY:

It was learned last week that UMD freshman forward Kevin Smalley was arrested by the

Duluth Police and charged with allegedly driving while intoxicated. Smalley has pleaded innocent to the charge. Any disciplinary action on the part of the UMD coaching staff is dependent upon the outcome of the case.

said Fisher. However, after ousting San Diego, the 'Dogs fell 66-61 to Stanislaus in the championship match.

Dan Sojka

UMD did leave sunny California on a high note though. Bulldog guard Chris Neumann was named to the all-tournament team. Fisher also hinted that reserve guard Brian Hansen played well

enough to make the all-tournament team.

Last weekend, the Bulldogs continued their supremacy over Twin Ports rival UWS by downing the Yellowjackets 83-64 for the fifth straight time in the past three seasons.

Neumann is still leading the Bulldogs scoring attack with a 15.5 game scoring average. Nicky Johnson and Brian Hansen follow Neumann with 11.2 scoring averages. Greg Larson leads the 'Dogs in rebounding with a 6.9 average.

Looking ahead to this weekend's action, "both teams like to run," said Fisher, "and are explosive offensive teams."

"Our defense is keeping us in it," said Fisher, "and we're a way from where we're going to be by the end of the season—defensively, we've been intense."

Minnesota-Morris brings an 8-2 record into Friday night's contest, while Southwest State brings in a 4-7 record in to Saturday night's matchup.

"Our next six conference games are at home," said Fisher.

But Fisher isn't looking too far ahead into the future. "We're just going to play one game at a time."

jock talk

by Dean Andress

OOPS! WELL... EXCUUUUSE ME!

There seems to have been a slight misunderstanding concerning the headline for the Sports Spotlight story about Julie Johnson (Dec. 17).

I came up with the headline so I should attempt to clear the air on this matter. The headline was almost completely taken from quotes from assistant swim coach Cathy Lawrence, and I regret that my error in punctuation may have been responsible for any subliminal implications. Anyway, it was a lot better than the one we had originally intended to use, but declined for that same reason.

A formal retraction might have been made except for the fact that it is rather difficult to take back what someone else has said.

There goes my career with the NATIONAL ENQUIRER.

NO SURPRISE

The Bulldogs put it to the University of Minnesota when the two teams squared off in a WCHA hockey series Dec. 18-19. UMD tied with the Gophers in the first game, 6-6, before 6,930 fans and defeated the Minneapolis branch the next night, 4-2. That series should intensify play between

the two teams when the Gophers venture to the North Country January 15-16. But, first things first...

The Bulldogs face Wisconsin at the Dane County Coliseum this weekend. The Badgers are 14-1-1 in the Coliseum and will provide a tough challenge to the Bulldogs. The top-rated Wisconsin team owns an 18-3-1 overall record, while the Bulldogs are 10-10-2.

TOURNAMENTS: PAST AND PRESENT

Tournament action over the holiday break was the main order of events for many UMD athletic teams.

In the Jenos Holiday Classic held in Duluth, the Bulldogs placed third of four teams with a 1-1-1 record. The Bulldogs were edged in placement by champion Lake Superior State and Northeastern, MA, and ended up in front of Air Force, who placed last.

In basketball, UMD traveled to sunny California to compete in the Arrowhead Invitational held in Turlock. The 'Dogs placed second, as they fell to California State-Stanislaus 66-61, in the championship game.

In an upcoming tourney, UMD will host the North County Wrestling Invitational this Saturday. The

Bulldogs, now 7-0 in dual meets this year, will be one of 10 teams competing for top honors.

The meet will get underway at 8 a.m.

NSC OPENERS

The ladies' basketball team saw no action over the holiday break, but they will open up Northern Sun Conference play this week, facing UM-Morris, Mankato State and Winona State.

Junior Heather Nelson leads the Bulldogs in scoring with a 15.2 average, followed by Sue Sajevic with a 13.8 clip. Freshman Cathy Rose leads the way in rebounding with an average of 9.5 grabs per game.

IM NOTES

Fitness Inventory and Testing (FIT) is available to students at no cost. A student has a physical at Health Service and then consults with John Keene of Physical Education to do fitness testing. An exercise program prescription is then developed to fit the individual needs. Persons interested in this program should contact the Rec Sports office.

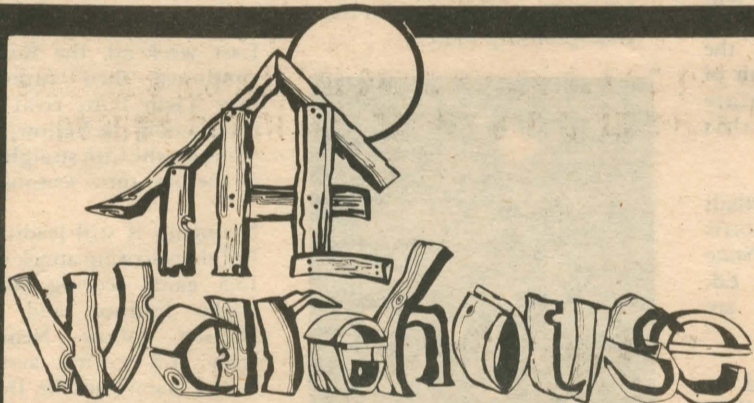

Entries are available for the Frisbee Ultimate (football) Tournament. Deadline for entering is Tuesday, January 12.

Table Tennis entries are available today. Entry deadline is January 18.

Photo/Terry Mentzos

Head basketball coach George Fisher shouts encouragement to his Bulldog squad in a recent game. Despite a 9-4 record, UMD is 0-2 in conference play, having lost games over the holiday break to Moorhead State (75-73) and Northern State (74-72). UMD's next home game will be on Friday, when the 'Dogs take on UM-Morris in further conference play.

I plan on living a long and healthy life, so I get regular cancer checkups. You see, the best time to get a checkup is *before* you have any symptoms.

So take care of yourself, now. Call or write your local unit of the American Cancer Society for a free pamphlet on their new cancer checkup guidelines.

Because if you're like me, you want to live long enough to do it all.
