No. 123

High School Debates

The semifinals in the high school debating contest will occur on Friday of this week. Of the four teams left in the fight, St. Paul and Austin will hold their contest in St. Paul and Fergus Falls and Minneapolis Central will fight it out on the old line in Minneapolis.

Many of the university students who are graduates of these high schools and of high schools which these teams have defeated will attend the debate. The final contest will be held in the University Chapel in April.

CARLO FISCHER

Who will Take Part in Saturday Evening's Concert

Carlo Fischer who will take part in Saturday night's concert comes of a prominent family in Washington, D. C., where his father was well known as a successful business man. Though intended for a business career, music was eventually decided upon as Mr. Fischer's live vocation, he from earliest childhood on, having showed a decided and unusual talent for music as embodied in the violin-cello. After several years of careful training and preparation in this country, he went to Germany and spent five years at Frankfurt-on-the-Main, where he studied with Prof. B. Cossman, Prof. Hugo Becker and others. Later, after occupying responsible positions in Opera, Symphony Orchestras and String Quartettes in Germany, Russia and Finland, he returned to this country in 1899, and was immediately engaged by Victor Herbert as cellist of the Pittsburg Symphony Orchestra. During the spring tour of 1901, of the Orchestra, he was appointed to the position of first cellist and appeared with great success as soloist in Baltimore, Md. Mr. Fischer resigned his position with the orchestra in the fall of 1902, and since has devoted his time and talent to concert work. The Baltimore News, says of his work while with the Pittsburg Orchestra: "Mr. Fischer made his initial appearance as a soloist with the orchestra and proved himself to be a virtuoso of high merit and the possessor of a musical temperament.

The Pittsburg Post says:—"Some beautifully rendered cello solos were given by Mr. Fischer of the Pittsburg Orchestra.

The Pittsburg Daily News says: Carlo Fischer, cellist with the orchestra, was enthusiastically received.

The University students are to be congratulated upon having an opportunity to hear such a noted celloist as Mr. Fischer.

Tickets for the concert are now on sale at the extremely low price of twenty-five cents at both book stores.

Castalian Literary

Program for March 26.—Recitation, Drake; Speech: Recent disturbances in Macedonia and their bearing on international politics, Blaisdell; Paper: Educational systems in England as changed by recent action of Parliament, Robie; Debate: "Resolved that the Government tax on State bank notes should be repealed." Aff. Youngquist and M. D. Aygarn; Neg. Guthrie and McManigal.

J. S. Cranston has been chosen as the head coach at Harvard.

INDOOR MEET

The Track Men Make Their First Public Appearance

This year's Annual Indoor-Athletic meet will be held on Saturday evening when the third annual indoor track meet will take place. These meets have always been full of interesting and close contests and this year's meet is surely not going to be an exception. The wealth of material is greater than ever before so that a large list of entries and plenty of competition is assured. There will be six events open to all the students for which the usual medals will be offered; they are as follows: 50 yard dash, 50 yard high hurdles, 50 yard low hurdles, high jump, shot put, and pole vault. There will also be an Interfraternity relay race, and Inter-Athletic team relay race, and a Freshman-Sophomore relay race, for which banners will be presented to the winning teams. The latter events are always full of excitement and interest and are in themselves an object of great attraction. The high school boys of the Twin Cities will also compete; a 50 yard dash, high hurdles, and relay race, have been arranged for them. The meet will begin at 8:00 o'clock sharp and the entry list will be kept open up to the beginning of the performance so nobody will get left out who has any desire to take part. A large attendance is hoped for, as this will be the first chance to get a line on the prospects for the season and give them the encouragement which they deserve.

Military Affairs

The medal drill which has been so effective in the past in producing a high order of work in the manual will not be allowed to lapse for want of a medal. A collection will be taken among the companies to raise a sum sufficient to replace the Glenn medal which Knowlton carried away with him last year by virtue of having won it three times in succession.

The competition will begin in the near future.

Interest in the target contest still holds, at present Company B. has the highest score. The best score made within the last week are as follows:

Captain Haney and Sergeant Schouten of the battery lead with a score of 18. Those next in order are Lieut. Stockman, Phillips with 16; Nelson, Williams, N. C. Nelson, Carlson, Bergson, Haney, Einerson, Fairchild, Toplin and Smith, 14.

Considerable dissatisfaction has been expressed by sophomores serving as corporals in the freshman companies over the fact that no regular arrangements have been made for them in the schedule of practice, but that they are left to hustle for a chance to compete with the privates of the sophomore battalion.

Those in charge have found it hard to accommodate all those wishing to compete for sharp shooter's badges, but it is probable that all who wish to will have a chance to shoot before the contest ends.

The new gymnasium at Princeton, on which work was started last spring will, it is claimed, be the largest building of the kind in the world. The gymnasium proper will be 100x166 feet in the clear without column or post of any kind.

In the Finals

Zeta Psi defeated Beta Theta Pi three straight games in the most sensational match of the season. The scores were 846-667; 837-819, and 820-736. The high scores were 205 by Von Rohr, Zeta Psi; and 203 by Smith, Beta.

Anent the discovery in the botanical department of a new variety of potato mushroom, it is in order for the department of animal biology to discover a new bug to prey upon the new potato.

NEW BOARD

Magazine Editors Elect Their Successors—Advisory Committee also Selected

The *Minnesota Magazine* Board yesterday chose the men who will constitute the Board of 1903-1904. The election came in the nature of a surprise, it being customary heretofore to elect in May. Nine men were chosen and assigned positions on the staff, as follows: Managing Editor, Richard Lavell, Editor-in-Chief, Geo. H. Stone. Literary Editor, W. H. McGrath. Exchange Editor, Le Roy Arnold. Secretary, A. R. Gibbons, Associate Editors, Richard Pattee and Lee Byard.

Business Manager, Louis L. Collins. Assistant Business Manager, John G. Holm.

The new managing editor is well known in University literary circles. In addition to college work he is employed in the public library in the compilation of a catalogue.

George H. Stone, as Editor-in-chief, judging from his work in college, will make a success. He is a member of Sigma Alpha Epsilon.

W. H. McGrath is on the *Gopher* Board and has won fame in oratorical and debating circles. He is a member of Phi Gamma Delta.

LeRoy Arnold is president of the University Dramatic Club and has different times contributed to the *Magazine*. His work in a literary line is exceptionally good. He is a member of Beta Theta Pi.

The Associate Editors,—Richard Pattee and Lee Byard are men of good ability. Pattee is a Phi Kappa Psi and has played on the football squad. Byard is a member of the Arena literary society and is very active in literary circles.

The business staff consists of Louis Collins and John Holm. Collins is managing editor of the '04 *Gopher*, a Chi Psi and a member of the Arena. Holm is a Shakopean and *Daily* Editor.

The members of the faculty advisory committee were elected at the same meeting. They are Dr. Richard Burton, Prof. McClumpha and Mr. Firkins.

Union Meeting Sunday

The address Sunday by Mr. Tom Jays of England will be delivered in Chapel at 3 o'clock and will be under the joint auspices of the Young Men's and Young Woman's Christian Associations. All are invited. Mr. Jays appeared on the program at the great Toronto convention last year and is now visiting a few of the largest institutions in this country.

Monday, March 23, a hand ball tournament was commenced at Harvard.

RECOMMENDED TO PASS

Amended Text of the Morgan Bill.—Seniors Exempt.—Five Dollar Fee

We give below the full text of the Morgan bill which has caused so much indignation in the law school. The bill is as it was finally drawn by the judiciary committee of the senate. Portions in italics are those which especially effect the college of law. The bill has been recommended to pass by the committee but has not yet come before the senate.

MORGAN BILL.

For an Act to Amend Section Seven (7) of Chapter Thirty-six (36) of the General Laws of 1891, as Amended by Chapter Sixty (60) of the General Laws of 1899, and to Repeal Chapter One Hundred (100) of the General Laws of 1901, Relating to the Admission of Practice of Attorneys and Counsellors at Law.

Be it enacted by the Legislature of the State of Minnesota.

SECTION 1. That section seven (7) of chapter thirty-six (36) of the General Laws of eighteen hundred ninety-one (1891), as amended by chapter sixty (60) of the General laws of eighteen hundred ninety-nine (1899), be amended so as to read as follows:

SECTION 7. No person shall hereafter be admitted to practice as an attorney and counsellor at law, or to commence, conduct or defend any action or proceeding in any of the courts of record of this state, in which he is not a party concerned, either by using or subscribing his own name, or the name or names of any person or persons, unless he has complied with, and been admitted under and pursuant to such rules as the supreme court of this state shall prescribe; provided, that the provisions of this act shall not apply to or affect persons admitted to the bar of this state under pre-existing laws; and provided further, that any citizen of the United States, who is a citizen and resident of the State of Minnesota, twenty-one years of age and of good moral character, and who is a graduate from any law school of good standing in said state may present himself for examination before said Board of Examiners in law, and shall be entitled to take such examination without having studied law in the office of a practicing attorney. *And provided further that the person so graduating from such law school and applying for such examination, upon presentation of his diploma of graduation therefrom accompanying the application for such examination, shall be required to pay said board of examiners the sum of five dollars as a fee for examination before and by said State Board of Examiners.*

SECTION 2. That chapter one hundred (100) of the General Laws of nineteen hundred and one (1901) be, and the same is hereby repealed.

SECTION 3. *This act shall take effect and be in force from and after the first day of July, 1903.*

An honor athletic fraternity has been formed at the University of Iowa. Chapters will be first established in the "Big Nine;" the membership being limited to men entitled to wear the "Varsity" initial of their college.

To-day's issue edited by
C. L. Gilman

The thorough and effective way in which the target practice by the members of the sophomore battalion has been conducted this year is a long step toward the complete establishment of this important branch of military instruction. The enthusiasm with which this work has been entered into by officers and privates alike promises a still higher development of the sport. But it is to be regretted that in making out the schedule no provision was made for the non-coms of the freshman companies.

These men are doing even harder work than their class mates in the sophomore companies and it is rather an injustice to overlook them in arranging this pleasant branch of military duty. Many of these men have shot with the regular squads but no provision has been made by giving them credit for their work. The present condition of affairs is probably due to an oversight on the part of those in charge and it is to be hoped that something will be done, if not to remedy the injustice this year, at least to prevent the repetition of it next year.

Dr. Folwell on Parks

"The City Beauteous" was the subject of an address by Dr. Folwell before the Congregational Club at the St. James Hotel Monday evening. The lecture was an exhortation to make our cities beautiful if we desire to have them well-governed and fit to live in. To the amusement of Dr. Folwell the Tribune reported the address as upon the Park system of the city of Minneapolis about which not a word had been said.

Monday at 4 o'clock in Chapel a lecture by Mr. Jackson on Life Insurance gave elements as a science, explained mortality tables, expectation of life and computation of level premiums, using the blackboard. Numerous questions were asked to which he replied with great good nature and intelligence.

The audience was larger than was expected and the lecture was very much enjoyed.

Strong Men at Work

The strong men are hard at work and already have the thermometer up to the highest point reached by last year's crop of Samsons. Already thirteen men have passed the 1000 mark and the highest record, 1661, made by H. P. Peterson, is only 130 less than that made by last year's champion. Those who are already in the work are doing hard and patient

training to raise their tests and all that is needed to run the record way up to the top is a little more interest among students generally.

Some surprising records have been made by men who are entirely new at the work and all men who want to find out where they are will be welcomed over at Dr. Cooke's end of the Army. Some of the best tests up to date are as follows:

Peterson H. P., 1661; Kuhlman, A., 1436.9; Mathews, J., 1374.3; Madden, F. M., 1353.4; Ruble, H. E., 1326.7.

Season's Round Up

On Friday, March 27 occurs the annual report day of the Young Women's Christian Association. Reports covering the past year will be given by the officers and various committees. This meeting will take place in the association room at the third hour and all members are requested to be present.

On Saturday the following day, there will be an Installation Service and a Spread in the Y. W. C. A. room. The installation of the new officers of the association and new members of the advisory board will take place and will be followed by a spread. All girls attending the spread are to be assessed 15 cents which they can either put in P.O. box 1397 or give to some one in the association room at the end of the second or fourth hours, beginning on Wednesday.

PROPOSED CHANGES.

Wednesday, March 18th, the executive committee of the Board of Regents met to give the representatives of the college of medicine and surgery a chance to be heard regarding the proposed reorganization of the medical department. After a full hearing, it was voted: "That Professors Westbrook, Nachtrieb, Lee, Siglerfoos, Beard and Frankforter, be appointed a committee to confer upon the proper work to be included in the proposed two middle years of the suggested medical course of six years, and to outline the work in each subject so as to avoid duplicating or paralleling of courses; and to report all duplicate courses which they find to exist at present. Said committee to report to the Executive committee not later than the 31st of March, 1903.

The medical course of six years is to be considered whether the medical college be divided in the middle or not."

Seven Yale Seniors are charter members of the Yale Pee-Wee club recently organized. No man over five feet five inches tall is eligible to membership. The purpose of this unique organization is to impress upon the public the numerous advantages of lack of size and the eminence in history of men of small stature.

SCHOOL EDUCATION COMPANY

ON THE CORNER

AT OTHER COLLEGES

A new Senior class organization, the "Elihu Club," has been formed at Yale, which is of social nature.

The iron framework of the new gymnasium at Stanford is being erected.

President Jordan, of Stanford University, leaves March 27th, for a trip taking him as far east as New York.

Hazing has been made a criminal offense by the Illinois legislature, the penalty being \$500 fine and six months in the bull pen.

For the first time in three years Yale is to have a professional coach for the baseball team. The services of a member of the St. Louis team of the American league have been engaged.

Present indications point to the gratification next fall of the desire of college men all over the country for contests on the football field between eastern and western teams. Negotiations are being carried on between the managers at Columbia and the University of Chicago which will probably result in arrangements for these two teams to meet on a gridiron in New York city early in November.

EXCHANGES

The Harvard-Yale whist tournament will take place March 27 and 28.

An elaborate memorial gate, given by the class of '93, is to be erected at Pennsylvania.

A new fraternity, Alpha Chi Sigma, open to chemical students, has been organized at Wisconsin.

Light work in football is to be begun at Stanford University soon after Easter.

BY THE WAY

Miss Olga Forsyth, '99, who is teaching in the state normal school at Madison, S. D., has resigned her position and may be back at the University to take up work in music. She writes that she is delighted to know that at last the University has recognized the importance of the subject of music and made provision for teaching it.

The senior electricals and mechanicals had their sixth monthly blow-out last Saturday. The proceedings began with a group picture; bowling followed and the appetites acquired, were more than satisfied by a dinner at the Rathskeller. After this the bunch split, some going to St. Paul to see Anna Held while the rest saw Faust at the "Met."

Lost

**SCHOOL OF AGRICULTURE COM-
MENCEMENT**

Last Friday the graduating exercises
of the school of agriculture were held.
The exercises of the day formed a fit-
ting close of a most successful year of
work. The graduating class numbered
eighty-three, one-third of the number
being young women. Principal Tucker,
in his remarks, made it very clear that
the school does not pretend to turn out
finished farmers or housewives, but that
it does aim to lay a broad scientific
basis for life work in these lines. It
aims to make the minds of the students,
both observing and receptive and able
to appropriate and make use of the ma-
terial within grasp. The addresses of
the students were of high character and
covered various phases of the subjects
studied in the school. President North-
rop made one of his short characteristic
addresses which was thoroughly en-
joyed.

A brief review of the topics discussed
by these graduates, shows that they
have been taught the vast possibilities
of farm life. They show also that the
school is turning out young men and
women who are to go out as practical
sociologists, and who have received a
training which fits them to help in the
solving of the greatest social problems
of the day, the preservation of proper
social and economic conditions of life
on the farm.

If Missouri should wear Mississippi's
New Jersey, what would Delaware?

is important that every man be there.

Y. W. C. A.

The subject for the Y. W. C. A. meet-
ing at the end of the fourth hour is
"Christ in His Home."

Another Discussion

Friday evening in Chapel Hall Mr. J.
M. Anderson, Pres. of the Metropolitan
Music Co., will say a few things which
will interest the men of the University.
Since the meeting Sunday there has
been considerable criticism heard and it
is hoped that there will be a general at-
tendance at the meeting Friday as an at-
tempt will be made to get at the truth
of the existing conditions here.

"I was yust biting mine girl goot night
ven her fadder setted der dog on me."
"Den vat yet?"
"Der dog bit me goot night, too."

Why does Mrs. Langtry wear a black
feather boa? Probably because she does
not like her white chinchilla (chin chil-
ly).

"Mary had a little lamb,
Its fleece was white as snow
It followed her to Minneapolis—
And now look at the darned thing!"
