DULUTH --- Dr. Emmett B. Moore, Jr., former assistant professor of physics at UMD, will return to deliver a paper on "Some Experimental Methods in Studying the Structure and Behavior of Crystals" at 3:30 p.m. Wednesday (May 20) in Room 216, Science building.

Dr. Moore's appearance is being made possible through his present employer, the Boeing Scientific Research Laboratories in Seattle, Washington.

His talk is being co-sponsored by the Sigma Xi honorary science fraternity and the UMD Physics department.
