THE WORLD'S LARGEST COLLEGE DAILY—UNIVERSITY OF MINNESOTA WEDNESDAY, FEBRUARY 4, 1925

No. 71

## ARABS CELEBRATE START OF YEAR'S WORK AT BANQUET

**Elaborate Production Planned; Name For Manuscript Not Yet Selected**

## MEETING AT 6:00 TONIGHT

**Bandits Are Subject Of Plot; Try-outs For Chorus To Occur Thursday**

To mark the opening of the work on their annual play, The Arabs, dramatic club of the technical colleges will hold its annual banquet tonight at 6 o'clock at the Chateau tea rooms.

This year's production will be the most elaborate ever attempted by the club. Though a name has not yet been selected, the manuscript has been completed, and is ready for production. The author, Theodore Jan Pritchard, is a senior student in the College of Architecture who has taken several active roles in past productions.

**Holman Presides**  
Dr. William F. Holman of the College of Engineering, and president of the inter-fraternity council, will be toastmaster at the banquet, according to Richard Jones, president of The Arabs. Dr. Holman has been an honorary member of the organization for several years.

Awards have been offered for the best musical numbers, to be printed and placed on the market when selected. One of the most popular sheet music numbers of the play two years ago, "I've Been a Fool," was written by Al Holmer, a member of the club. The piece achieved much popularity after it had been placed on the market.

**Orchestra Important**  
"We realize that much of the success of the play depends on the orchestra," Mr. Jones said yesterday, in commenting on the emphasis that was being placed on the orchestral part of the play this year. "It will help greatly to put the show across if the music is all new."

The plot, a dashing bandit story, is laid in central Europe, and will require elaborate staging. Work on the background will start within the next month. The club numbers among its members John Davidson, stage manager for the Minnesota Masquers, as well as Gerald Kronick and others who designated the settings for "Kismet," Mr. Jones said.

Tryouts for the chorus will be held Thursday at 11:30 a. m. in room 19 of the Music building. Students in the technical colleges have been asked to come, as there are still vacancies to be filled in the cast.

## LUTHERANS HOLD BANQUET TONIGHT

**Committees Report Everything Completed For Dinner At 6 P. M.**

Committees in charge of the annual Lutheran student's association banquet to be given tonight at 6 p. m. in the Minnesota Union report that the final arrangements have been completed. Approximately 150 tickets have already been sold, but anyone who wishes to attend but who has not purchased his ticket may obtain one through Josephine Jensen, P. O. 2391. Dr. L. W. Boe, president of St. Olaf college, the principal speaker of the evening, will talk on his recent travels in Germany and Scandinavia. Several musical selections and character interpretations by Paul Johnson, WCCO announcer, will constitute the remainder of the program.

Several booths have been constructed in which the handwork and arts of Japan, China, and other countries in which Lutherans have been carrying missionary work, will be displayed.

C. Walter Young, president of the association will exhibit collection of old Japanese wood-block prints of various scenes in Japan. The remaining booths are all in charge of active members of the organization.

## W.S.G.A. Big Sisters Sponsor Social Hour

Co-operating with the W. S. G. A. social committee in giving the social hour for women students in Shevlin hall from 3:30 to 5:30 Friday, Feb. 6, will be the big sister committee. W. S. G. A. is the only organization on the campus which includes in its membership all University women.

Dance music will be furnished by Dorothy Womrath and Janet Ahearn. A feature of the entertainment is a skit presented by Margaret Bringgold. Other features have been planned as well.

"Everyone is urged to come to the affair. Tea and refreshments will be served," according to Martha Cooper.

A crossword puzzle of intricate design was used recently by a Wellesley girl to announce her engagement.

**WEATHER**  
Forecast—Cloudy and warm on Wednesday. Sun rises, 7:31 a. m. sets, 6:23. Moon rises, 1:03 p. m.

## Legislature Will Not Cut '26 Budget for University

### Petitions Due for Post On All-University Council

Candidates for membership on the All-University Council from the College of Education must file their petitions in P. O. box 1254 by 5 p. m. The petitions must be signed by 25 students of that college.

The election will be held on Friday. William Foote and Levi Osburn are reported to be in the lead.

## CIVIL SERVICE IS LAUDED BY YOUNG

### State's Adoption of System Is Praised by Prominent Faculty Member

Adoption of the civil service system by the state was praised by Jeremiah S. Young, professor of political science, who declared that it will result in greater efficiency of state employees.

The adoption of the system was one of two innovations in the government of Minnesota which are provided in the report of the interim committee. The report has been published and will be discussed on the floor of the legislature as soon as it has been referred to the proper committees.

### New Position Established

One of the new offices will be that of director of personnel. He will classify the minor employees of the state, fix salaries for each class, and put into effect a modified civil service system.

"The civil service or merit system is an excellent idea," said Professor Young, "and should have been adopted by the state long ago."

"It is no more than right that a man should show his fitness for a position, and the adoption of the merit system will result in greater efficiency of state employees."

The second innovation is the controller who will pass on every expenditure before it is made. He and his associates will approve each supplementary budget, and the governor must also approve each estimate of expense. This constitutes "pre-auditing" expenses.

### Expense Check Lacking

Under the present system there is no checking of expenditures before the bills are received. There is no centralized control of the yearly \$85,000,000 income and outgo, except the legislature which is in session but 90 days during each two years.

The department of administration and finance, under the new plan, is directly responsible to the governor. Its three commissioners are appointed for six-year terms, overlapping, but the officers may be removed at the discretion of the governor, who dictates the policy of the department.

Under the proposed plan, the governor is put in direct control of the state departments, just as the general manager is head of a corporation. The legislature corresponds to the board of directors.

The proposed system was reported on in the Minnesota legislature by a committee in 1911. Many states have since then followed the lead of Minnesota in considering the plan, and 10 have completely or partially reorganized their state governments, adopting features advocated by Minnesota's committee of 1911.

## LAW SENIORS EDIT 'REVIEW' SECTION

### Minnesota Bar Publication Has Article by Judge Waite On Child Labor

Seniors in the Law school will edit one section of the February number of the Minnesota Law Review, the monthly publication of the Minnesota Bar association. Ralph H. Dwan, senior law student, is president of the student editorial board of the magazine. Henry J. Fletcher, professor of law, is editor-in-chief, and R. Justin Miller, is associate editor.

"Child Labor Amendment," an article by Edward F. Waite, district judge of Hennepin county, will be the leading feature of the February issue. This edition will include the "Valuation in Rate Cases," an article by Prof. Henry Rottschaefer of the Law school. The concluding section of an article on the "Permanent Court of International Justice," translated from the French of Antonio S. de Bustamante y Sirven, will also appear in this issue. John Donald Robb and Raymond Harper of the New York Bar have translated this article.

Student work in this issue consists of notes on cases, book reviews, and the "Bench and Bar" section.

## Quota to Increase in Proportion to Change in Enrollment; Unaffected by New Economy Program

Assurance that the budget of the University for the coming year will not be cut was made in a statement by the administration yesterday. The announcement came following Governor Christianson's message to the legislature in which he stated that maintenance appropriations for the University and state teachers' colleges should be based on the proportion of the increase in attendance.

The present plan of appropriations will not have any effect on the building plans for the coming year because a definite amount is set aside annually by the Cass-Gilbert plan which is to be used for construction purposes, it was said.

Instead of the \$614,000 asked by the University and the \$1,282,992 for the teachers' colleges, the governor's budget increases the amount to be received only in proportion to the increase in attendance, with no allowance for construction or parking. The exact amount to be received by the University will not be known until definite figures can be obtained as to the increase in attendance over last year.

According to the administration, Governor Christianson should be commended for the attitude which he took in singling out the state educational institutions from the other state budget recipients.

## \$150 PROFIT MADE BY MORTAR BOARD

### Benefit Movie Results in Net Gain For Co-operative Cottage Fund

Final results of the Mortar Board benefit movie, given last week Monday at the University theater, show a net gain of \$150 to be used in the Mortar Board co-operative cottage fund. Approximately \$15 was earned from the home-made candy sold at the theater, and the rest was proceeds from ticket sales.

"We are very well satisfied with the results, and feel especially grateful to the many campus organizations which have helped in selling tickets," said Dorothy Hawkins, chairman of the publicity committee for the benefit.

Campus sororities took between 15 and 30 tickets each and many of the fraternities took large numbers of tickets. Gray Friars and Iron Wedge, senior men's honorary fraternities, assisted Mortar Board with the affair.

The co-operative cottage fund for which the proceeds will be used is a fund which was started several years ago by Mortar Board. The final aim of the organization for the fund is to build for the University a permanent co-operative cottage. The project is highly endorsed by many of the members of the faculty.

## New Instruction Methods Sought By High Schools

To encourage individual and effective methods of instruction, Leo J. Brueckner, head of the department of theory and practice in the College of Education, will confer with the teachers of West and Central high schools this week, to work out a plan whereby the drill and cultural methods of teaching may be properly avoided.

Dr. Brueckner believes that the analytical method of dissecting literature, line by line, is faulty, and that students appreciate poetry and stories more if they approach the study of them in a more cultural way.

The use of the drill method in the teaching of courses in mathematics and beginning foreign languages, is advocated by Dr. Brueckner. He believes, however, that superior, average, and sub-normal students should be placed in separate classes, in order that they may progress according to their own rate of ability.

## Two Prizes Awarded Student Architects

Peter Bross, Rochester, Minn., and Miss Mary Slocumb, Minneapolis, senior students of architecture at the University of Minnesota, have been announced as winners of the annual prizes offered by the Minnesota chapter of the American Institute of Architects of students of architecture who made the highest general scholastic average in their junior year. Mr. Bross will be awarded the first prize of \$50 and Miss Slocumb \$25, the money is for purchase of books on architecture.

A faculty prize of \$35 and \$15 in books to students attaining highest general average of sophomore year in course in architecture, is offered each year, but is this year given to the architectural library.

The University of Wisconsin is teaching 8,000 students in a plant built for 5,000 students.

## UNIVERSITY FARM PLANS LIVESTOCK JUDGING CONTEST

**Hogs, Horses, Poultry Entered For Feb. 7; Sheep and Cattle Feb. 14**

## HELD IN PAVILION ARENA

**Winners Will Get Gold Watch Fobs; Former Team Members Manage Event**

Plans for the annual student judging contest at the University Farm were announced Tuesday by Silas Sampson, member of the University Stock judging team and general manager of this year's contest which will be held Feb. 7 and 14.

Block and Bridle, an organization of men specializing in animal husbandry, is sponsoring the event this year as in years previous. Management of the contest is in the hands of students of the University, inasmuch as he is a graduate of Minnesota himself.

"In this year's service, Mr. Chapman has come into contact with a great number of problems which affect the smaller banker."

Although another gathering will also be held tomorrow at the convocation hour, when Elizabeth A. Drew, English lecturer from Oxford University speaks on George Bernard Shaw, it was found necessary to schedule the all-business convocation at the same hour.

## ELECTRICIANS PLAN ENGINEERS' PARTY

**Biennial Affair Will Be Held In New Building; Radio 9XI On Program**

Electrical engineers will give their biennial electrical party the first of the spring quarter in the new engineering building. It is sponsored by the American Institute of Electrical Engineers. The party will be the first one held in the new building.

The finance committee, headed by Clement R. Tunell, plans to make the party more of a financial success than those of past years. Winfred C. Hilgedick, chief operator of 9XI, has been put in charge of the radio preparations. It is planned to have the radio station in operation for the benefit of all the guests. Harold H. Heins, chairman of the decorations committee, is planning on having much more extensive decorations than ever before. The entire building, inside and out, will be adorned in honor of the event.

## MINNESOTANS AT ROCHESTER MEET

**Old Times Are Celebrated by Alumni Unit; Pierce Gives Talk, Movies of Games**

"Hail, Minnesota," the "Rouser" and the new "fight" song were sung many times over with great enthusiasm and spirit by the Rochester alumni unit, last Friday at the Kahlor hotel, Rochester, according to E. B. Pierce, general alumni secretary.

Pierce's presentation of movies on the Stadium dedication and Illinois game was also very well received, as was his short talk on "Minnesota Gossip." C. A. Chapman, Law '08, a Rochester banker, was elected president of the unit for the ensuing year, and Miss Ethel Curry, B. A. '14, was appointed secretary-treasurer.

Prof. C. K. Webster of Wales college, was the principal speaker at the meeting. In his lecture, he attempted to show that it was neither disarmament nor universal brotherhood, but a world tribunal, as the League of Nations, that would establish and maintain a world peace.

On the trip back to Minneapolis Saturday, Prof. Webster got his first taste of real American life in the small "main street" town. He was very much impressed by the cordiality and simplicity of the American country people, he said.

## Stars Call Lone Student To Astronomer's Career

**Louis Berman, Junior in Academic College, Only Student to Feel 'Inner Urge' Since the Great War, Says Beal**

In the hectic hurry of University life, one student on the Minnesota campus has found time to feel the glory and majesty of the stars so deeply that he has decided to devote his life to the study of them. Louis Berman, a junior in the academic college, is the only student who has felt this "inner urge" for astronomy since the war, according to William Beal, instructor in the department of astronomy.

"In the 20 years between 1893 and 1913, Prof. Francis Leavenworth, head of the department, trained many students for the profession of astronomy. They are now working in observatories and teaching in colleges and universities throughout the country," Mr. Beal said yesterday. "But the war changed people's standards and they began to look for professions which would be most economically remunerative."

"During the period directly after the

## Rochester Bank Head to Address Business School

Students of the School of Business will hold their winter quarter convocation tomorrow at the convocation hour in the Music auditorium. C. A. Chapman, president of the First National Bank of Rochester, Minn., and past president of the Minnesota Bankers' association, will speak on "Some Experiences of a Country Banker."

The music for the assembly is to consist of several selections on the organ. Although no one has been selected at present, it is expected that some one connected with the faculty of the department of music will be secured.

Tomorrow's convocation is held in accordance with the custom of the school in having one convocation each quarter at which all business and pre-business students, and members of the School of Business faculty meet to hear a special speaker.

Dean George W. Dowrie characterizes Mr. Chapman as a man who is particularly well qualified to speak to students of the University, inasmuch as he is a graduate of Minnesota himself.

"In this year's service, Mr. Chapman has come into contact with a great number of problems which affect the smaller banker."

Although another gathering will also be held tomorrow at the convocation hour, when Elizabeth A. Drew, English lecturer from Oxford University speaks on George Bernard Shaw, it was found necessary to schedule the all-business convocation at the same hour.

## MINNESOTANS AT ROCHESTER MEET

**Old Times Are Celebrated by Alumni Unit; Pierce Gives Talk, Movies of Games**

"Hail, Minnesota," the "Rouser" and the new "fight" song were sung many times over with great enthusiasm and spirit by the Rochester alumni unit, last Friday at the Kahlor hotel, Rochester, according to E. B. Pierce, general alumni secretary.

Pierce's presentation of movies on the Stadium dedication and Illinois game was also very well received, as was his short talk on "Minnesota Gossip." C. A. Chapman, Law '08, a Rochester banker, was elected president of the unit for the ensuing year, and Miss Ethel Curry, B. A. '14, was appointed secretary-treasurer.

Prof. C. K. Webster of Wales college, was the principal speaker at the meeting. In his lecture, he attempted to show that it was neither disarmament nor universal brotherhood, but a world tribunal, as the League of Nations, that would establish and maintain a world peace.

On the trip back to Minneapolis Saturday, Prof. Webster got his first taste of real American life in the small "main street" town. He was very much impressed by the cordiality and simplicity of the American country people, he said.

## Two Ags to Broadcast Lectures From KYW

Victor Christgau of Austin, Minnesota, and Rudolph Froker of Askov, graduate students in economics in the College of Agriculture have been selected by the American Farm of special programs to be broadcast from station KYW Chicago. They will broadcast a dramatic debate from the Westinghouse station at 7:30 Thursday night on the topic, "Does an Agricultural Education Pay?" Mr. Christgau is author of the debate.

## Mines School Offers New Extension Course

An extension course in metallurgy and heat treatment of iron and steel, of practical interest to heat treaters, foundrymen, machinists, superintendents, and inspectors, began Monday, at the School of Mines building. The work will include both lectures and laboratory experiments.

While emphasis will be placed on practical things, the theory will be discussed sufficiently to give correct knowledge of the principles involved. The course will be in charge of Dr. O. E. Harder, professor of metallurgy.

## Ags and Foresters to Hold Stag Mixer

Ags and Foresters will mix freely and democratically with graduate students and faculty members at the stag mixer which is to be held on the night of February 13 in the Ag gymnasium. Leo Knuti, chairman in charge of general arrangements for the affair announced that committee heads for the affair would be announced Wednesday.

## 'Shaw and Society' is Oxford Woman's Topic

Elizabeth A. Drew, graduate of Lady Margaret hall, Oxford, and a native of England, will be the speaker at the regular weekly convocation, Thursday, in the lower lecture room of the Old Library. Her subject will be "Modern Society and George Bernard Shaw."

Miss Drew has lectured at more than 45 colleges and educational institutions throughout the United States.

From 1916 to 1919 Miss Drew was a lecturer in English literature at Girton college, Cambridge university. As head of the woman's staff, department of education, of the British army, she was with the Army of Occupation on the Rhine. Miss Drew has also been a contributor to the Atlantic Monthly and the Westminster Gazette.

## FRENCH MUSICIAN PLAYS TOMORROW

**Mme. Boulanger, Composer and Pianist, Presented At Lecture-Recital**

Madame Nadia Boulanger, French organist, pianist, composer and lecturer, will be presented in a complimentary recital tomorrow night at 8:30 p. m. in the Music hall auditorium under the direction of Mr. and Mrs. Carlyle Scott. Invitations have been sent out to Twin City music lovers as admission will be by invitation only.

Madame Boulanger comes from a family of distinguished musicians. Her mother is a daughter of Mychetzke, and her father is professor at the Conservatory in Paris. It was Madame Boulanger's sister, Etil Boulanger, who died at the age of twenty-five, who composed the expressive "Pour les Funerailles d'un Soldat." A biographer is quoted as calling it "the noblest inspiration that has been revealed to us since the funeral march of the Eroica symphony."

Madame Boulanger received the highest honor at the Conservatory; in 1898, first medal; in 1903, first prize in piano accompaniment, organ, counterpoint and fugue; in 1908, second grand "Prix de Rome." She was graduated from the Conservatory when she was sixteen.

Her compositions, of which there are a considerable number, reveal a rich gift for strength, originality and conservatism. The most noted, is "La Villa Mortie," in which she composed in collaboration with the late Raoul Pugno, a tragedy in four acts by d'Annunzio who wrote for them a special version of his celebrated play.

## BIBLE LECTURES RESUMED TODAY

**C. A. Wendell Will Speak On 'The War With Theology' At 4:30 P. M.**

C. A. Wendell will continue his course dealing with "Biology and the Bible" in room 204 Folwell hall at 4:30 this afternoon. Because of the large attendance at the "first great battle" of the series, it was found necessary to change the meeting place for the group to a larger room than was originally used.

The title of the lecture this afternoon is "The War With Theology." Included in the subject will be a short synopsis of the historic background of the conflict between theology and biology and a story of the "first great battle." A discussion of the question as it applies to modern times will close the meeting.

Mr. Wendell's lectures have been received with much enthusiasm, according to Erma Schurr, assistant Y. W. C. A. secretary. Everyone is invited to attend this meeting which is the third of a series of six.

## GREEK FRESHMEN ORGANIZE SOCIETY

**Inter-Fraternity First Year Club Granted Charter; Known As 'Black Knights'**

With the aim of fostering a better fraternity spirit among freshman men, an inter-fraternity freshman club was organized last Wednesday under the name of the Black Knights.

The officers chosen were Jack Rheinstrom, president; Jack Coolidge, vice president; Edward Davidson, secretary; and Charles Zinn, treasurer. Fourteen fraternities are represented in the association which is a regular chartered organization.

The plans and organization of the group have been approved by M. P. Skinner of Dean Nicholson's office. Members of the group have made tentative plans for social affairs for the future and intend to take a part in the social life on the campus.

One of the principal aims of the "Black Knights" is to raise the scholastic standing of fraternity men, officers announced yesterday.

**Law School Has Banquet**  
Speaking on Roosevelt, the man, the statesman, the naturalist, the explorer, and the soldier, C. W. Farnham, St. Paul attorney, addressed approximately 100 students and faculty members of the Law School at their regular monthly dinner held Tuesday night in the Minnesota Union.

## LOADING ON THE JOB

at the University is as serious as neglecting any other business duties—study while you can.

## GOPHER'S FATE IN BALANCE, CLAIM, AS 'CLEAN-UP' STARTS

**Mediocre Or Poor Publication Possibility If Students Are Apathetic**

## 1,000 SUBSCRIBERS, GOAL

**150 Workers Out to Give Minnesotans Last Chance to Purchase Book**

With preparations completed and plans laid at a final organization meeting last night, 150 solicitors were to invade the campus this morning for the Gopher clean-up campaign in an effort to raise 1,000 additional subscriptions to the annual.

"Unless the student body turns out and supports the drive for 1,000 more subscriptions to the 1926 Gopher, present plans for a first class annual this year can not be carried out; the book will sink into either the mediocre or the poor class of publication," said Ernest L. Gutteresen, business manager of the book, at a meeting of the various college heads yesterday.

Final instructions given. Every college was well represented at the meeting except the Academic college which had only a few men present. The purpose of the gathering was to give out final instructions to the campaign leaders and to give final plans for the drive, which starts today.

"Gopher drive workers are requested to keep in touch with their captains each day, and report the progress of the campaign in their colleges," said Robert P. Miller, director of the drive last night.

"There's a reason; buy a Gopher," was the new slogan adopted by the solicitors at their final meeting before the campaign yesterday.

A bulletin outlining the instructions for the campaign were given to the college heads by Robert P. Miller, director of the drive.

In addressing the meeting yesterday, Lee Deighton, head of the Academic college solicitors, told of the fact that many people on the campus were not willing to put their time and efforts on a thing unless they would benefit directly from their work. He stressed the point that it was the duty of every solicitor in the Gopher drive to concentrate his efforts so the University could publish an annual which would uphold the standards set by staffs of previous years.

"The Gopher is a direct reflection of the student life for the year and if the student body as a group fails to give the book the support it deserves, the 1926 Gopher will not come up to the mark set by the staff this year," said Mr. Deighton. "If the campaign is a failure it will be reflected in the book for it will be impossible to publish the Gopher without sufficient funds."

**Dependent on Student Body**  
The fact was emphasized that although the Gopher is published by members of the junior class, it is entirely dependent on the support of the entire student body. According to the business department, over three-fifths of the students in attendance at the University have not subscribed to this year's book.

"We have received many subscriptions from prominent alumni and if they are interested enough to mail in their money for the book there is absolutely no reason why the students on the campus cannot give their whole-hearted support," said Gutteresen. "The other Big Ten schools support their annuals with subscriptions."

**FOR A BETTER MINNESOTA**  
 (Editorial policy chosen by student and faculty subscribers)  
 Suppress snobbishness; promote sociability.  
 Organize non-fraternity students.  
 Encourage intellectual activities.  
 Maintain clean campus politics.  
 Abolish Sunday blue laws.

**SCHOLARSHIP AND THE GREEKS**  
 At the annual inter-fraternity banquet scheduled for the evening of Monday, Feb. 9, the scholarship cup will be awarded to the Greek-letter organization which has during the past year achieved the highest scholastic standing on the campus.

Since 1913 the fraternities at Minnesota have vied with one another for possession of the cup, which symbolizes scholastic supremacy. Of late years interest in the race has become keener and keener as the conviction has spread through the fraternities themselves that scholarship transcends all else in University life, until at the present time this traditional fraternity award is more highly prized than any other honor on the campus.

Yet paradoxically, and in spite of this interest, for the second time since 1913 the general fraternity average has dropped below that of the general male average. Fraternity men are at a loss to account for the defection, but they promise to make ample atonement for it by a unanimous resolve to surpass all established scholastic records during the current year.

**EXTENSION STUDENTS OF MINNESOTA**  
 The banquet held last Saturday evening of the University Extension students at which Governor Christenson was the principle speaker was representative of a department of Minnesota which includes 158 courses and over 3,000 students. The considerable size of the extension department makes it a force to be reckoned with in any inclusive estimate of the University.

The attitude towards education of these students is necessarily from the nature of their approach different from that of the younger and less serious students of the other departments. Their philosophy of education, it would be inferred, is that of people who have met life in its reality and who are motivated so strongly towards educational things that they are working overtime to realize their advantages.

Governor Christenson spoke with understanding and appreciation of their efforts, seeing in them the class of students who are strongly motivated and keenly purposive, as against that second class of students who are "sent" to colleges by their self-made parents who expect that in the academic halls the magic "open sesame" will be spoken which shall waken their sons and daughters from the long sleep of stupidity and laziness.

The Governor further saw his listeners as enjoying advantages of the new democracy in education which is attempting to answer the artisan and technician in his desire for training as well as the academic few which have enjoyed the major benefits in the past. While it is true that not all agree with the Governor in his endorsement of this system, while alert minds everywhere are concerned with the consequences of the "educated follower" philosophy of education, it remains true that education, democratic in that it offers itself to all who may apply themselves seriously, is making itself beautifully practicable in the extension department. In this department, education is going to those students whom the condition of life have not allowed residence at college; it is a fine, democratic tribute to the industry and ideals of those who are searching out through difficulty the better things of life.

Co-eds at Heidelberg University, Ohio, are demanding the right to pay for their own movies and parties. Tuition for men will probably soar to a new high level.

Northwestern University has three dateless nights a week. Minnesota has six sleepless nights a quarter. Scholastic averages must be raised.

Mr. Joseph M. Thomas indulges in golf, but is apparently normal in all other respects.

## The Higher Lunacy

"All men are necessarily mad; not to be mad would amount to another form of madness."  
—Fassal.  
The Hired Hand, P. O. 2236

Little did our physicist (that's hard to spell) realize the pending reaction upon his little article relative to the smoking co-eds. Following is the depiction of the motherly instinct as expressed by . . . I don't know whom:

"Why are my cheeks so pale and wan,  
When others' cheeks are red?"  
The co-ed clasped her little one  
And sadly bent her head:  
"One day I puffed some nicotine  
While I was supping ale.  
And now my darling child you know  
Just why your cheeks are pale."  
Even the Hired Girl makes her retort:  
"Oh, Co-ed for publicity  
'Twould seem that you are doomed.  
If it's not your socks  
It is your hair, your shortened skirts,  
Or arctics.  
And now they say she's smoking.  
Oh! You people that do moralize,  
I beg you do not tamper, for 'tis  
These very morals  
That fan the Co-ed's fate  
And only do exaggerate  
The elements in sporadic state."  
—The H. G.  
(No reference to the Historian.)

And then this:  
"Prof. Zeleny tells us that 100,000 smokers die annually. Yes, and do you know, I have it on reliable authority, that several million water drinkers also die each year."  
—Canterbury.

Well, let me add:  
Zeleny says that girls shan't smoke  
It hurts their thyroid gland.  
So listen, girls, donate your cigs  
To the needy Hired Hand.

**LET ME INTRODUCE MY BROTHER**  
 "Sir:  
 Have you perchance met 'the other hired hand,' an ex-lumberjack, who, after eating his first ice cream cone, was heard to remark that he ate the dam thing bark and all."  
—1138.

People who bore me: The girl who watches me take lecture notes; musicians and instructors who wear spats; Genevieve when she doesn't wait for me after class; the Editor-in-Chief who scratches my unholiness; benefit ticket sellers; the check girl who thinks my dime is a paltry offering; and the girl at the Health Service who asks me for my card number.

**ATTENTION CHARLIE ET, AL**  
 Down in you garden sweet and gay,  
Where bonnie grows the lily,  
I heard a fair maid sighing say,  
"Now, Charlie, don't be silly."  
My overshoes took the route of the waistline. I trust that the disappearance is only temporary.

**HELP! SUCCOR! AID!**  
 If we get immunity  
From vaccination,  
I need a shot  
For oculation.

I found out last night that Eunice makes a hobby of interior decorating.

**TO ARMS!**  
 A scuffle of noise along the street.  
The smell of powder . . . the tramp of feet.  
A flash of color beneath the sky.  
Hats off! A co-ed passes by.  
—H. R. H.

My heart aches and a drowsy numbness pains.  
—The Hired Hand.

**WHO'S WHO**  
 At Minnesota U

**ALBERT ERNEST JENKS**  
 Among the prominent men of the University, who are absent for purposes of study or research, or who are representing the University in some activity which carries them away from the campus, is Dr. Jenks, who has been absent on leave for nearly two years.

Dr. Jenks was born at Ionia, Michigan, in 1869. He holds a B. S. degree from Kalamazoo College, a B. S. degree from the University of Chicago, and a Ph.D. from the University of Wisconsin. Upon completing his university work, in 1899, he became Economic Editor of the American Thresherman, a position which he held for two years.

He left this work to become an ethnologist for the Bureau of American Ethnology, at Washington, D. C., and later he became the Chief Ethnologist for the Department of Philippine Exhibition at the St. Louis Exposition. Dr. Jenks was presented with a Gold Medal of Honor by the Philippine government in recognition of his work. One of his best known books is The Bon-toc Igorot of the Philippines, which is also a result of his research work in that field.

Dr. Jenks came to Minnesota in 1906 as an Assistant Professor of Sociology. In 1907 he became Professor of Anthropology, and in 1915 he was made Chairman of the Department of Sociology and Anthropology. In 1918 a change was made in the grouping of the courses, and Dr. Jenks became Chairman of the Department of Anthropology and Director of the Americanization Training Course.

Dr. Jenks has visited Europe and studied the problem of immigration at its source. He has done much work along the line of the physical amalgamation of different races, particularly the Indian and the Caucasian races. He is an author of considerable note, and beside the work mentioned, he has written a book dealing with the economic life among the Wisconsin Algonquin Indians—the Wild Rice Gatherers of the Great Lakes region. He is also the author of many reviews and articles published in scientific magazines and other periodicals.

Dr. Jenks has been serving as Chairman of the Section of Anthropology and Sociology of the National Research Council at Washington, D. C., and sails this month for Europe, where he has an interesting four and a half month itinerary. He will return to the University in the fall of 1925.

## 'U' Professor Writes Book On Mountains of Kentucky

D. H. Davis of Geography Department Discusses Physical Characteristics, Economic Conditions in New Geography

Darrell Haug Davis, associate professor of geography, is the author of "Geography of the Mountains of Eastern Kentucky" which has just been published. Professor Davis spends his summers in Kentucky making studies of different parts of the state, and this report is the result of field work done in the summer of 1922, in the eastern part of Kentucky.

"The purposes of this geographic reconnaissance study of the Kentucky mountains," said Professor Davis, "are to describe and explain existing conditions of human occupation in terms of regional opportunity or handicap wherever possible, to differentiate between the various portions of the area on the basis of differences in physical equipment and variations in the response, and to indicate the opportunities for advantageous future development."

**Treats Environment Theory**  
 "The subject is treated in two parts," Professor Davis said. "Part one consists of a definition of the area and a general discussion of its space relationships and physical characteristics. Part Two is a survey of present-day economic conditions, together with an explanation of such conditions, with particular reference to the opportunities afforded by the environment and the local handicaps. In cases where present-day conditions represent a survival of institutions which have no actual explanation in the present, a limited historical background is introduced to account for the existing condition."

The Kentucky mountains, according to Professor Davis, have served to isolate the inhabitants and retard development and progress. These mountains have been extensively covered in fiction because they represent people in the same condition as they were during the Revolutionary war. The hilly nature of the territory, the unfavorable conditions, have cut off the people of that territory from the rest of the country.

**Isolation Decreasing**  
 At the same time, changes are occurring rapidly in this area, and its isolation is decreasing from year to year. Where in one place you find a typical one room log house, with a door as the only opening, in another you see a house not at all unlike ordinary suburban homes. One locality has a road that can hardly be called such, another a highway that couldn't be better. Two conditions exist in the same place. The coming of railroads has helped to decrease the isolation.

Conditions of life in the rural districts and mining centers, highways and transportation, scenic assets, mineral resources, use of the land, and urban development are discussed in Part Two. In the explanation of existing economic conditions, climate, soils, topography, and other environmental factors are taken into account. The publication is well illustrated, showing scenic views, living conditions, and the economic activities of the area.

## Bib and Tucker Tea Thursday In Shevlin

Bib and Tucker, fresh girls organization, will give a tea Thursday, Feb. 5, at 2:30 p. m., in Shevlin hall. All freshman girls are asked to come whether they have paid their dues or not. New girls are especially urged to attend.

There will be a short business meeting with dancing afterwards. Marion Bardwell, secretary, requests that dues for the winter quarter be paid at this time.

Those in charge are Eldora Ricker, publicity; Eva Hammerbacher, refreshments; and Kathryn Haven, entertainment. This is expected to be the largest held by the organization this quarter.

## Pill Rollers' Ball Planned For Feb. 20

In preparation of the annual Pill Rollers ball, to be given by the Wulling club in the Minnesota Union Feb. 20, a committee composed of representatives from the senior, junior and freshman classes has been appointed by Hjalmer Weberg, president.

Mary K. Keenan is chairman of the committee. She will be assisted by Dorothy B. Champlin and M. H. Noun, seniors; Byron Farley and M. Anderson, juniors, and Marvin Rohrer, freshman.

## Win a Box of Green's Candies

We will give two 1-lb. boxes of Green's Love Bird Quality Chocolates and Bonbons for the two nearest correct solutions of this puzzle received by us by Friday noon.

**Technical Men Sought For Six-Month Course**  
 H. J. Robinson, head of the special training department of the Westinghouse Air Brake Co., Wilmerding, Penn., is seeking technically trained men in the different universities throughout the country to take the six-month training course at their plant next June after they graduate from college.

In a talk to Minnesota mechanical engineers last Monday, Mr. Robinson stated that the course is highly specialized, and treats air braking systems only. After completion of the six-month course, students are accepted by the company to engage in special research and field work. Wages are paid during the period of training.

## Fate of '26 Gopher In Balance, Is Claim

Continued from page 1

amounting to at least 60 or 75 per cent of the student body.

The Minnesota Gopher is sold at a very low price as compared to the amount charged by the other colleges of the United States. The cost of the Gopher is \$5.00 while other schools charge as high as \$15.00.

"We are selling the Gopher at a below cost price; the actual cost of publishing the book is \$7.50," said Gutteresen. "It is only through the sale of pages to the various fraternities and sororities, and through the money received from the group pictures that we can depend on other sources of support; so it can be readily understood why the students must lend their support."

**Co-operation Stressed**  
 "The reason why so many annual campaigns are not successful is because of the attitude of the students," said Floyd Thompson, of the publicity staff. "The 'don't care' attitude which the school takes has caused the necessary publication of many poor annuals and such will also be the case at Minnesota unless the co-operation of every person on the campus is concentrated toward the success of the 1926 Gopher cleanup drive."

Last year the Gopher was awarded a trophy by the Arts Crafts guild for having the best annual in the country. If the cup is to stay in the possession of the Gopher, the 1926 annual must win the award again this year. According to members of the business staff this will be an impossible unless 1,000 more subscriptions are received in the present drive.

A group of co-eds at Northwestern University who believe that love and marriage are degenerating into a childish game have formed a club.

**THE MEDICAL SCHOOL**  
Department of Preventive Medicine and Public Health Mental Hygiene, course No. 61, meets in the Faculty room in Millard Hall, at 8:30 a. m., February 6th, 13th and 20th.

**MILITARY DEPARTMENT**  
R. O. T. C. Uniforms  
Members of the R. O. T. C. who have dropped drill for any reason, must turn in their uniforms and other military equipment immediately.

**DEPARTMENT OF AGRICULTURE**  
The faculty of the College of Agriculture, Forestry and Home Economics will meet at 4:00 p. m., Monday, February 9, in room 1, Plant Pathology building.

**Journal Club**  
At the regular meeting on Wednesday, at 4:30 p. m., in room 211, Animal Biology building, Professor Riley and Messrs. Philip, Robinson and Stirret will discuss recent work on Malaria, Hookworm, and Natural Control of Insect Pests.

**MISCELLANEOUS**  
Society for Experimental Biology and Medicine. The meeting called for Feb. 4 has been postponed until March 4. F. H. Scott, Secretary.

**Social Science Research Fellowships Established**  
Cost Will Be Covered By Laura Spelman Rockefeller Memorial; Prof. F. Stuart Chapin Heads Committee

Establishment of research fellowships for workers in the fields of economics, political science, sociology, and statistics as well as other closely allied social sciences has been announced by the Social Science Research Council. Prof. F. Stuart Chapin, of the University department of sociology and secretary of the council, has stated that the fellowships will be awarded May 1, 1925.

A special committee on research fellowships, has been appointed, whose duty it is to recommend applicants to the board of directors of the Social Science Research Council. Members of the committee are: Wesley C. Mitchell, Columbia university, chairman; Prof. F. Stuart Chapin, University of Minnesota, secretary; and Charles E. Merriam, University of Chicago. The board of directors, of which Dr. Chapin is a member, will elect persons to fellowships.

Substantial stipends conditioned by the requirements of each particular project and the needs of each particular case will constitute the awards. The term of the fellowship may range from several months to two years, depending upon the character and needs of the subject.

The special committee will be considered, and the length of the fellowships. If it is certain that the research work will require travel in this country or abroad, this fact will be taken into account, in determining the amount of the award.

Those who are appointed to fellowships will be subject to the supervision of the research fellowship committee. They may also receive aid from this body in constructive counsel and advice.

"Problems of politics, economics, and industry, social problems in general that are very complex and difficult to deal with," said Dr. Chapin, "need scientific study in order that we may base our remedies or reforms on fact rather than on mere opinion. These research fellowships are expected to do more than anything else to encourage and promote a scientific collection of facts about perplexing social, economic, and political problems of present day society."

All persons interested in these research fellowships are requested to apply to Dr. Chapin, secretary of the special committee, room 17, Fowell hall. Regular application forms will be sent on request. All applications must be in the hands of the secretary not later than March 1, 1925.

**For Young Men**  
There is nothing like a STETSON

MOST young men today know the importance of looking fit. Good appearance counts much in the game of life. The young man who dresses with taste has a decided advantage.

But—it is surprising how little thought the average man gives to his hat. It is his crown, yet he seems to stop dressing at the neck.

Be careful in your selection of your headwear. When you buy a hat, select a Stetson. Its style is right, its quality means long wear.

### TUX PARTY GIVEN AT CURTIS FRIDAY

Ten-Piece Orchestra to Play Four Hours At Inter-Fraternity Formal

Four hours of dancing to a ten-piece orchestra has been provided for those who attend the "Tux" club inter-fraternity formal dance next Friday night at the Curtis hotel.

Osborne's collegian orchestra of ten pieces, headed by "Norvy" Mulligan and Jerry Frankman, will play from 9:30 p. m. to 1:30 a. m., according to Robert Van Fossen, who is in charge of general arrangements.

The dance is the yearly social event of Tau Upsilon Kappa, inter-fraternity club whose members are selected from the academic fraternities on the campus.

Attention of the student body has been attracted to the event by the novel advertising methods used. Crossword puzzles and card rules from Hoyle have been worked into advertising copy and distributed about the campus on placards.

The committee in charge includes Ray Archer, tickets; Jerry Frankman, music; Don Davidson, chaperones; and Robert Van Fossen, general arrangements. Tickets are being sold by all club members or may be obtained at the door for \$2.75.

Gabe Shurman of the Electrical Engineering class of '21 has resigned his position as superintendent of the water and light plant of Keewatin Minnesota.

**Swimming Class Organized**  
A swimming class is being organized for the non-professional women employees of the University. An instructor will be secured to take charge of the class, and all women, whether they swim well or not are invited to enroll. The instruction given them will be adapted to their individual needs. Application may be made to Richard R. Price, director of the extension department.

# GOPHER PUCKSTERS HUMBLE MARQUETTE

## MINNESOTA WILL END MARQUETTE SERIES TONIGHT

Olson and Bros Tie For Honors As Iverson Squad Wins Initial Battle

By Dick Walrath  
Playing with dazzling speed on the offense, and battling from start to finish on the defense, the Gopher hockey squad skated over the sheets to a 3 to 0 victory in the first contest of a two-game series with Marquette University at the Minneapolis Arena last night.

The Iverson sextet will tackle the Hilltoppers for the second game tonight at 8 o'clock on the same rink.

Ed Olson and Ken Bros tied for the honors in the Gophers' victory, and although Olson led with the scoring, passing the Marquette goalie for two counters, Bros played the rink with exceptional skill.

Marquette Play Ordinary  
Marquette was outskated from the first going, and showed nothing but mediocre play during the entire game. Captain Nic Carle, at center, was not only the leader of his team in name, but was easily the star of the Hilltopper sextet.

Eddie Olson started the scoring for the Gophers after three minutes of play in the first period, when he snatched the puck from the Marquette forward line for a lightning dash through his opponents' defense and past the net tender. It was a clever bit of stick-handling, and served as an impetus for a harder fight by the battling Gophers during the remainder of the clash.

Van Fossen Scores  
Bob Van Fossen, who started the game at right defense, struck the Milwaukee goalie to one side of the net, flipping the puck past the line for the second score, a minute later.

After five minutes of play in the second session, Olson strengthened the Minnesota lead with a trick shot into the net while down on the ice. He was accidentally tripped, as he swooped down on the goal, and instead of losing the elusive hint of rubber, as is usually the case in such an event, he hooked the puck into the goal while on his stomach.

Reserves Show Up Well  
Percy Flaaton, Vic Gilbraith and Henie Kuhlman showed much better form than in many of the practices on the University rink, and may be considered capable reserves in the future. Bob Van Fossen practically earned a place for himself on the varsity by his showing in the game last night, taking advantage of all the breaks in his favor, and with a few more battles under his belt, he will be a stellar man on the backward line.

The line-ups:  
Minnesota  
Olson ..... R.W. Marquette  
Flaaton ..... L.D. Thomas  
Bros ..... C. La Valle  
Van Fossen ..... C. Corcoran  
Scott ..... L.D. Bryant  
Schade (C) ..... G. Montague

## A.P.X. SETS NEW MARK IN TOURNEY

Kendall Leads Local Entry In Bowling Tournament

In winning the Big Ten bowling championship the Alpha Rho Chis set a new Minnesota fraternity record with a total score of 2653 for the nine games. Although this is not a conference record, the new champs held a comfortable advantage of 44 points over the Beta Theta Pi's of Wisconsin, who rolled into second place with a 2609 total.

The winning of the title by the Alpha Rho Chis was not due to a "flash in the pan," as they have approached this mark several times in the season's play, and their score in the games with the Alpha Sigis for the campus championship was high enough to assure them of high honors in the Big Ten tourney.

Kendall Rolls 576  
Kendall was the high man for the three games with a total of 576, and he also rolled the high single game of 225. Gerlach and Olson also did some consistent bowling, with scores of 570 and 545 respectively.

Score By Game:  
Olson ..... 179 203 166 548  
Flegal ..... 134 156 168 458  
Freeberg ..... 167 183 151 501  
Kendall ..... 187 163 226 576  
Gerlach ..... 191 177 202 570  
Team ..... 858 882 913 2653

Badger Entry Runners-up  
The ten high teams in the Western conference bowling tourney:  
Alpha Rho Chi, Minnesota, 2653  
Beta Theta Pi, Wisconsin, 2609  
Alpha Kappa Lambda, Illinois, 2576  
Psi Upsilon, Wisconsin, 2522  
Theta Delta Chi, Illinois, 2457  
Phi Sigma Kappa, Wisconsin, 2456  
Delta Phi, Michigan, 2456  
Pi Kappa Alpha, O. State, 2434  
Alpha Chi Sigma, Wisconsin, 2390  
Tau Delta Tau, Illinois, 2382

A successful student campaign has recently been carried on at the University of North Dakota by a senior in the school of journalism for the abolishment of fraternity forms.

## Minnesota Quint Prepares for Purdue Battle Next Saturday

### Frosh Track Entries Drill For Big Meet

Jumping Pits to Be Ready For Saturday's Classic; 100 Men Already Entered

With over 100 entries in already and many more coming in every day for the freshman track meet next Saturday, preparations are being made to include both the track and the field events. The jumping pits will be completed before the end of the week. It is hoped that the novel "circular" track will be ready for the long runs.

A freshman may enter in three events only, either two track and one field event, or two field and one track. The program for the day includes high hurdles, low hurdles, 440 yard dash, 220-yard dash, 75-yard dash, mile and the two-mile runs. The field events will consist of high jump, pole vault, broad jump, and the shot put.

Cross Country Men Out  
Several men from the freshman cross country team are out drilling for the coming meet. Among them are Dodge, Wexman, Hall and Ed. Nelson.

Competition will be keen in the half mile. Three capable men, Bernhagen, MacCrae and Etter, have entered in this event. Altfillish, in the dashes, and Coolidge in the quarter-mile, are both expected to place in these runs.

Track Assistants Needed  
Ronald Havstad, former North high track star, has entered in the quarter-mile run and the pole vault. Cromby is another freshman who is expected to clear the bar at a high mark. Garry is the outstanding candidate in the broad jump.

Irving Nathanson, student track manager, announces that there is still room for a few more candidates for the managerial position. The four regular assistants now out are Oswald Gjerset, Frank Engstrom, John Redding and Paul Rauscher.

### Hoosier Cagers Meet Purdue '5' In Deciding Tilt

Chicago, Ill., Feb. 4.—Purdue and Indiana clash tonight at Bloomington to decide who will fall into the second division of the Big Ten race. Both teams have a standing of 500 per cent, and a defeat of either will mean loss of all hopes for conference honors.

Ohio State strengthened its hold on second place by winning from the strong Minnesota quint at Minneapolis Monday night.

Next Saturday, Purdue will travel to Minnesota to battle the Gophers. The outcome of this game will have little bearing on championship standings unless the Boilermakers upset Indiana.

Iowa and Northwestern will clash the same night at Evanston, while Michigan travels to Chicago to meet the Maroons. A win for the Wolverine quint will strengthen their position at third place. Illinois tops the conference race with a perfect rating, having won four and lost none.

Rockne Will Conduct Grid Coaches' School  
Williamsburg, Va., Feb. 3.—Knut Rockne, coach of the championship Notre Dame eleven, has accepted an offer to conduct a two weeks' coaching school at William and Mary College, according to an announcement given out today by the athletic authorities of this institution. It will begin at the opening of the coming summer session.

The Daily Lariat, a publication at Baylor university, has begun a new column under the head of "Styles and Fashions that Come and Go".

Cross word puzzles have been added to the curriculum of the Engineering course at the University of Kentucky.

### MIKE'S MUSINGS

By M. J. FADELL

Now that Bill Spaulding has signed on the dotted line, and has expressed his opinion on remaining at Minnesota for the next two years, the administration, together with the athletic officials, are going ahead with the program of giving Bill a real staff of assistant coaches to help mould the Gopher eleven into shape next fall. It will be three or four weeks before this department will be complete, but the Minnesota officials will scour the country in that time in search of good men for next fall's coaching staff.

Purdue and George Spradling are here Saturday night, and another crowd of basketball fans will undoubtedly be on deck at the Kenwood Armory to watch the Gopher machine work against the Boilermakers. Spradling was high score man in the Big Ten last year, but will play his first conference game of the 1925 season tonight when Purdue plays Indiana at Bloomington.

The veteran Buckeye machine was going at high gear when they took the Gophers into camp at Kenwood Armory Monday night, while the Minnesota team did not play the brand of basketball which they are capable of. It would have taken a powerful team to down the Buckeyes at the rate Johnny Miner, Cunningham and Shaw were sinking baskets Monday night. Nevertheless, the two Ohio guards made it plenty rough for the Gophers, and both of them were put out on personal fouls.

### I-M Teams Swing Into Final Play

Phi Gamma Delta Team Retains Lead In First Division; Chapman Stars

Acacia defeated Sigma Nu in a one-sided game last night in the intramural division 1. Wilson, of the Acacia team, was individual star for his side, scoring 11 points, and working smoothly in the team work of his team. The final score was 25 to 10.

The Phi Gamma Delta retained their lead as head of the first division by winning from Pi Kappa Alpha, 22 to 12. This puts the Phi Gamma Delta team the probable champions of this division. The game was fast, throughout, and it was only in the last few minutes that the winners were aware of their victory.

Chapman, playing forward for the Phi Gamma team, dropped in three baskets in the last quarter. He was the star for his team, scoring 10 of the 22 points.

The Sigma Phi Epsilons won a fast game from Theta Delta Chi. Darber of the winners made six baskets and two free throws. He was also effective in team work and guarding.

Phi Kappa Psi forfeited to Delta Chi.

In the handball games, Carl Lidberg, playing for the Sigma Chi, defeated Leslie Buck of the Delta Kappa Epsilon, in two straight games, 21 to 12, and 21 to 14. Gallaas of Sphinx defeated J. A. Dashiell of Sigma Nu, 21 to 9, and 21 to 7.

Robertson, of Alpha Kappa Psi, won from Ryan of Psi Omega in the professional league, taking both games, 21 to 12, and 21 to 18.

### Big Ten Standings

W. L. P. P.	Illinois	4	0	1,000	111
	Ohio State	5	1	833	163
	Michigan	3	1	750	118
	MINNESOTA	3	3	500	120
	Iowa	2	2	500	105

	Indiana	2	2	500	116
	Northwestern	1	3	250	64
	Chicago	0	4	000	66
	Wisconsin	0	4	000	60

### BOILERMAKERS TO BE STRENGTHENED WITH SPRADLING

Coch Taylor Drills Varsity For Clash With Hoosier Five At Kenwood Armory

Temporarily classed among the 500 percenters by virtue of their part in the performance Monday night, the Gopher cagers worked out in a stiff session at the Kenwood Armory yesterday afternoon in preparation for the fracas with Purdue Saturday.

The Boilermakers will show their wares against the Indiana quint at Bloomington tonight in a game which will be viewed with much interest in Big Ten circles. The Hoosiers will come on the floor with a veteran team and with the advantage of being on their own playground and booked to give Purdue a hard battle.

Spradling Returns  
Spradling, all-conference forward and high point man in the Big Ten race last year, will be making his initial showing since his return from California, and will in all probability be displaying his old time form by the time his team arrives to take on the Minnesota aggregation.

He plays a fast dribbling game, and seems to have an uncanny power of making the leather drop through the basket. Besides his activities on the maple floor, Spradling is a star half-back, and a half-miler.

Robbins Long Shot Artist  
Another man who will keep the Maroon and Gold warriors on the run is Robbins, who holds down the running guard position, and is rated as one of the most dangerous long shot artists in the conference. His work makes up a combination similar to that of the flashy Ohio State scoring machine.

On the defense, the Boilermakers have a veritable bulwark of strength in the playing of Captain Wellman, who has occupied the back guard post for three years. Wellman is about six feet one, and weighs around 190.

Cramer, at center, plays a game

### Weekly Meeting of 'M' Club, Wed. at 12:30

According to an announcement from Lloyd Vye, president of the "M" club, the weekly meeting of the organization will be held in the Minnesota Union at 12:30 Wednesday. All members are urged to be on hand promptly as several very important matters will be discussed.

### Faculty Shows Much Interest In I-M Sports

Great interest is being shown by the faculty men in their sport hour this year. They meet on Tuesdays, Thursdays and Saturdays from 11:30 a. m. until 1:40 p. m., each week. This plan was started two years ago; but this year it is more popular than ever.

Each day that they meet there are between 75 and 80 men on hand. Volley ball is the most popular game with hand-ball running a close second. The faculty men have private locker rooms, private showers, and University towel service. These facilities have been furnished by the intramural athletic department.

Tuttle Tried At Forward  
Coach Taylor plans to work his men hard during the remaining few days before the next tilt, and will shift them in all sorts of combinations. Mason, who was tried at forward last week, will probably be worked again at this position. Lidberg and Tuttle were put in as forwards last night, during the scrimmage, and the odds are about even that either one of them may start in the next contest.

Tuttle, although primarily a center, is an accurate shot, and works in well with the other members of the team.

### GOPHER GUNNERS STRENGTHENED BY RETURN OF CHIEF

Twelve Matches Won and None Lost Is Record of Gopher Lead Slingers

Boostered by the return of their Captain, Herman Beseler, who removed his ineligibility Friday afternoon, the Varsity ninnyrod came through last week with a total of 3772 for their three matches last Saturday, winning both matches heard from, making a total of 12 wins straight and no losses in the intercollegiate shooting.

Only 11 men fired last week due to the sickness of four of the team members who have been out each week and have played in the majority of the matches this season. They are expected to fire during this week so that the team will not have the handicap of firing less men than the regulations of their matches allow.

Wilberforce University was downed by the Gunners 3772 to 2849 and the Michigan Agricultural College 3772 to 3604.

Stassen High Point Man  
"Red" Stassen, Premier shot of last year again forged to the front and captured high place for the week with 391, one point lower than his score of last week that tied Emmet Swanson, who has been leading the team in its shooting this year.

Swanson was second with 390, followed by Captain Herman Beseler with 384. Donald Letson tied Beseler for third place. The others playing with the lead slingers for one fourth of a letter were Donald Gibson, L. W. Orr, W. A. Katter, K. Umbahecker, E. Knoblauch and H. Hillaboe.

Varsity has 100% Record  
Firing will continue for the next three weeks on the range, competing with 26 more gun teams in regular matches and four special matches. By continuing as they have in the past four weeks, maintaining a 100% record, the Varsity should win the remaining 30 matches to be fired and the one to be heard from.

## An Honest, Satisfactory Way of Conducting A Reduction Sale

As Fine Suits and Overcoats as are Manufactured in this Country. The Fabrics are from Well Known Domestic and Foreign Mills

ORIGINAL price tickets remain on every garment. Simply deduct the discount and you are sure you are getting the value and the price that you should expect at this season of the year. No question of exaggerated comparative prices—no question about the previous selling prices of the merchandise.
