SENIOR WOMEN

Will meet this evening at the annual Cap and Gown dinner. It will be held in the ballroom of the Minnesota Union.

ADVISORY BOARD PLANS FRESHMAN WOMEN WELCOME

Grace Gardner, Chairman, Calls First Meeting of Next Year's Committee

20 SELECTED TO ASSIST

Booklet Will Be Published and Distributed to Entering Women in Fall

Preparations to welcome next year's freshman women were started yesterday when the W.S.G.A. senior advisory board for next year met for the first time. Names of all board members were announced by Grace Gardner, chairman, at that time. Following out a new plan, the School of Nursing will be represented on the new board. Ella Judd will be in charge of senior advisory work in that college.

Board Members Chosen
As assistant senior advisory chairman, Katherine Whitney will be in charge of a pamphlet to be sent to all freshman women. Theta Sigma Phi, journalistic sorority, is editing the booklet, the purpose of which is better orientation of freshman women to campus life.

Phyllis Frederick has been appointed chairman of advising officer students. The 20 members of the board next year have been chosen on a basis of "scholarship, reliability and service to the University." The upperclasswomen serving in this capacity are Mary Carpenter, Clara Rue, Alexandra Graf, Harriet Ellis, Roberta Kendrick, Charlotte Putnam, Millicent Quenfold, Ann Haycraft, Ann Jacobson, Mary Semer, Imelda Ertz, Borghild Gunstad, Jean Nicholson, Karla Jorgensen, Louise Benion, Frances Murphy, Thelma Hertz and Dorothy Pockrandt.

Big Sister Tea Planned
The Big Sister tea which will be given in honor of freshman women on Tuesday of Freshman Week, will be directed by a group of sophomore women with the assistance of the board. A group of small parties fettering freshmen is being planned by the chairmen. One of the purposes of senior advisory work this year will be to continue assistance to freshmen who need it during the whole first year as well as making them acquainted with the campus at the beginning of the year.

Each of the board members will have ten Big Sisters serving under her direction, and these Big Sisters will be chosen next week. Altogether about 200 juniors and seniors will be active in advising the women of the class of 1930.

BANDSMEN HONOR SENIOR MEMBERS

Service Awards Will Be Made at Banquet Tonight in Minnesota Union at 6:30

Bandmen will assemble this evening at 6:30 in the Minnesota union to honor the graduating members at the annual band banquet held at the end of the school year. Thalmann U. Fretheim, treasurer of the band, is in charge of arrangements for the banquet. President James K. Honey will act as toastmaster.

The seniors to be honored at the banquet are W. E. Crowe, Ray Fowler, Clarence Johnson, Morris Katzoff, Paul B. Nelson, George Pulkrabek, Robert Swanson and Joseph Urdahl.

Eleven prominent members of the faculty have been invited to attend the banquet. Those invited are Deans Coffey, Dowrie, Nicholson and E. B. Pierce, Major Bernard Lentz, Carlisle Scott, Frank K. Walter, Charles Mann, Otto Zeller, Conrad Seitz, Minton Anderson.

Keys signifying four years' service in the band and other qualifications will be awarded at the banquet. Committee chairman assisting Fretheim are Carl Salden, guests; Rudolph Westberg, entertainment; and George Pulkrabek, invitations.

SENIORS TO GIVE RECITALS TONIGHT

Margaret Adolfsen, Evelyn More Florence Karp Will Offer Varied Program

Florence Karp, pianist, Margaret Adolfsen, violinist and Evelyn More, soprano, will appear in senior recitals tonight in the Music hall at 8:15.

Miss Karp will open the program with a number of Haydn Variations in F Minor. She will also play three German pieces of Schumann, and three other numbers to close the program. Miss Adolfsen, accompanied by Mrs. Signe Adolfsen Anderson, will play a sonata for violin and piano in F Major, with Allegro, Andante, and Allegro movements composed by Wagner, Weber and Tschakowsky, also. Miss More will sing five songs, one of which is Mimi's Aria from "La Boheme" by Puccini. Hedwig Staland will be her accompanist.

Biology Head Here Chosen for Research in Panama

Dr. W. A. Riley Is Member of Commission to Study Hook Worm Situation in Southern Countries This Summer

Dr. W. A. Riley, chief of the department of animal biology, has been selected as a member of a commission chosen to study the hook worm situation in Nicaragua and in the Republic of Panama.

The commission will be headed by Dr. W. W. Cort, professor of medical zoology in the Johns Hopkins School of Hygiene and Public Health, and a graduate and former professor of zoology at Macalester college, St. Paul. Other members of the commission are Dr. Arnold Augustine, also a graduate of Macalester and now an assistant professor in the Harvard Medical school; Dr. C. M. Hall of the Bureau of Animal Husbandry, Washington, D. C.; and Dr. N. P. Stoll of the Johns Hopkins school. The party is sent out under the joint auspices of the Johns Hopkins and the International Health Board, an organization in the Rockefeller foundation.

By the original plan, Dr. Riley and Augustine and native helpers were to work in Nicaragua while the others were in Panama. A revolution now raging has changed this arrangement and all the scientists in the party will have their headquarters in Penonome, Panama, a town of 1,200 inhabitants, about 75 miles north of the canal zone, reached by coastwise or schooner or by horseback.

Dr. Riley and members of the group will leave for New Orleans on Friday, May 28, and will sail south from that port about June 5. They plan to spend four months in the tropical jungles.

Since 1914 the government of the Republic of Panama and the International Health Board, backed by the Rockefeller millions, have been co-operating in the campaign to stamp out hookworms. Members of the American commission will evaluate this work in the republic and make a full report of results already achieved.

This is the second time that Dr. Riley, who was formerly chief of the division of entomology at University farm, has been called upon to serve on a Rockefeller foundation commission. A few years ago he was sent to the island of Iloilo in the Philippines to study a somewhat similar mission.

\$1000 Worth of Gophers Uncalled For; Seek Owners

There is more than \$1,000 in the Gopher office.

The 250 students to whom it belongs refuse to call for it. So the Gopher staff, sits patiently by its lone window looking out upon the grass and waiting for the students who do not call.

There was a time when money had a lure, and Americans chased the almighty dollar. But now times are different, according to the walls of grief that come from the Gopher staff.

Today 250 paid Gophers are piled about the office and for almost a week, hardly a student has called for his year book. Whether it is fatigue, business, or malice that prevents them from calling for their possessions, Warren Smith, business manager, can not tell. He can only hold his hands and sit by the window.

On the study of the payment blanks there is a clause which makes it possible for the Gopher office to sell all uncalled for year books at the end of a specified time. By June 1 all remaining Gophers will be put on a public sale. This sale will include all partially paid and fully paid for year books.

Young Physics Professor Here Has National Fame

J. H. Van Vleck Characterized by Department Head as 'Man Who Will Rank Among U. S. Foremost Physicists'

By Philip Burger
In 1922 a young physics instructor, only a year before graduated from Harvard, read a brilliant paper at the meeting of the American Physical society at Toronto.

A professor in the physics department at Minnesota reported that he was "the type of man we need here." Other favorable reports about him were received and a year later that same man became an assistant professor at the University.

Last March the National Research council published a 316 page monograph on "Quantum Principles and Line Spectra," written by this same young man as the result of three years of theoretical research.

MIDDLEBROOK WILL HEAD UNIVERSITIES' BUSINESS OFFICERS

Comptroller Elected at Annual Sessions of Association of State Business Officers

W. T. Middlebrook, University comptroller, was elected president for the coming year of the Association of College and University Business Officers at their annual session at Ohio State university, it was announced on his return yesterday.

More than 72 institutions were represented at the conference which includes nearly every leading university and college in the country with the exception of the Pacific coast schools.

Resolution Introduced
During the course of the meeting a resolution was introduced by a committee of eastern universities favoring the entire payment of the cost of education by the students.

Committee Appointed
The officials considered forming a mutual fire insurance company among the colleges and universities to escape the prohibitive rates which the insurance companies now charge.

The colleges, except those that carry their own insurance, were urged to show combined annual budgets of \$115,000,000 and assets at \$462,000,000. Mr. Middlebrook gave Minnesota's figures as \$7,000,000 for the budget and \$35,000,000 as her total assets. These figures compare very favorably with those of the other schools represented, he believes. He estimated that the assets of the entire 72 schools in attendance would amount to half a billion dollars had all the universities given estimates.

MUSIC CONVOCATION SLATED FOR TODAY

Annual Assembly Sponsored by Phi Mu Alpha, National Fraternity

A program of American music will be offered during convocation hour today by Phi Mu Alpha, professional musical fraternity, in the Music auditorium. Each quarter convocation hour is given over to music, and the University public is invited.

- The program which begins at 11:30 follows:
1. American Music. Donald Ferguson
2. Group of songs by Sidney Homer.
(a) Sing me a song of a lad that is gone.
(b) The Unforgotten
(c) The Pauper's Ride
Joel Dolven, baritone
3. Romanza from string trio, by Donald Ferguson
Violin—Karl Scheurer
Viola—Abe Pepinsky
Cello—Walter Bloch
4. Tragic Sonata for Piano, by Lento, Allegro.
Paul Oberg

All the artists appearing on this program are members of Phi Mu Alpha, and are students or faculty members in the University school of music.

Michigan May Offer New Highway Course

Adoption of a five year course in highway transport and traffic engineering under the auspices of the civil engineering department has been recommended by the engineering college faculty of the University of Michigan. This course will correspond to the lengthened course in mechanical engineering, and will lead to the special degree of bachelor of science in engineering and includes courses in economics, business administration, political science, psychology and extra English courses.

For the first time, a girl has won the Lowden prize in Mathematics at the University of Iowa.

The University of Wisconsin has two swimmers on the all-American team.

Dancing Classes Interpret Niebelung Legend Tonight

Minnesota Coeds Present Story of Stolen Ring in Traditional Dance Program on Campus Knoll; Starts at 6:15

Minnesota co-eds tonight will be prepared to thwart the anticipated attack of a dangerous gang of Chicago dwarfs on Olaf Siegfried and Hilda Brunhilde, a pair of German lovers, who are now in possession of a stolen ring belonging to a band of Hopkins nymphs who are known to have hired the Chicago gunmen for a daring raid on the lovers.

Forewarned by police, co-eds in the guise of interpretative dancers are organized to resist any mass attack of the dwarfs. The ring, which is now in the possession of Brunhilde, is said to have been moulded out of gold stolen several years ago by a dwarf known as Niebelung, alias Jerry, the dip who is alleged to have a long record with foreign police authorities.

After a checked career, in which Wotan, a Swedish match potentate, figured prominently, the ring was finally swallowed by a dragon. The dragon was killed by Mr. Siegfried last year while on a hunting trip, and so passed into the hands of the endangered pair.

All these events and more take place tonight when the members of the interpretative dancing classes of the University give their traditional dance programs on the knoll at 6:15. The theme of the program will be the story of the ring of the Niebelung, which Wagner made into an opera.

The characters, who were chosen on the basis of their ability to represent their respective parts in the fairy opera are: Siegfried, Helen Krause, Brunhilde, Mabel Carlson; Alberich (the dwarf) Mildred Greenberg; the Ring (dwarfs signifying the curse) Grace Newman; Virginia Blanford, Florence Warnock, Minnie Fineman. The parts of the warming Valkyrie will be taken by Gertrude Mooney, Elinor Belair, Elinor Di Marco, Blythe Schee. Water nymphs will be Charlotte Winget, Virginia McCleary and Elinor Belair.

The poem telling the story of the opera was written by Mabel Prother, a music student. Miss Gertrude Baker is directing the program, assisted by students majoring in physical education.

Johnsons Are Too Plentiful; Student Wants New Name

What's in a name? Not so much when 6,000 people answer to the same one. And when in class, eight or ten students raise their hands to "W. Johnson," it is high time to draw the line.

That's what Wallace Eric Johnson, junior in the School of Chemistry, thinks. One hundred eight-two Johnsons in one school is a bit too much, he thinks, and so he is petitioning the district court to change his name to Jordan. There is a philanthropic motive in the idea also, because he is afraid that the printers will get paralysis writing it so many times.

There are 6,000 Johnsons in Minneapolis, 59 who have the initial "W." Sixteen Walter Johnsons and 22 William Johnsons are listed.

Wallace Johnson is hoping that the three Jordans in school will object to one more being added to the list. At least four Jordans isn't as bad as 182 Johnsons.

Seniors of the University of California will hold a Hard Times party the night preceding graduation ceremonies.

Of the 15 track records in the Pacific conference, seven are held by Leland Stanford university.

'U' Swedish Cadets Form Guard for Crown Prince

Members of R. O. T. C. Here Volunteer Services to Pay Homage to Royal Visitor at Appearance in Stadium June 29

University students of Swedish extraction who are members of the University cadet corps will form a guard of honor for the Crown Prince Gustaf Adolf and Crown Princesses Louise of Sweden when they appear at the Memorial stadium Tuesday afternoon, June 29.

The cadets will line up in a double rank before the stadium and salute the prince, as he passes, by presenting arms. The entire stadium track will be roped off for the occasion to permit the prince to make a complete circuit about the field in an automobile.

MY GRANDMA

Stepped upon a cigar butt during the dance rehearsal on the knoll yesterday and it just simply raised hell with the motif!

LESTER RAINES TO LEAVE UNIVERSITY FOR STUDY ABROAD

Director of Dramatics and Public Speaking Professor Will Resign This Summer

DESTINATION IS EUROPE
Graduate of Illinois Has Been in Charge of Major Play Productions for 2 Years

Lester Raines, director of dramatics and assistant professor of public speaking, will leave the University at the end of the summer session to study art and dramatics in Europe.

Most of his time will be spent in London and Paris. Mr. Raines will leave for Europe with his younger brother early in September. The length of their stay in Europe is undecided. Mr. Raines declared, but he will spend at least two weeks in London and another fortnight in Paris.

Formerly at Ames
Following his studying abroad, he will resume his work in dramatics. He is undecided whether to go in the professional field or continue as an instructor.

Mr. Raines has been connected with the University since the fall of 1924, when he took charge of campus dramatics. Previous to his arrival at Minnesota he was an instructor in dramatics and public speaking at Iowa State college, Ames, Iowa. From 1919 to 1922 he held a position in the dramatic department at the University of Pittsburgh. In 1918 he graduated from the University of Illinois, and then followed up his studies of dramatics with graduate work at Harvard and the Carnegie Technical Institute. In the capacity of advisor to the Minnesota Masquers, a dramatic club formed by the merging of four University dramatic organizations, Mr. Raines has had charge of play production, and student acting at the University. In addition, he is an instructor in public speaking, and has charge of the play production classes.

Summer Plays Planned
During the past year productions he has staged include "Richelleu," "Romeo and Juliet," "The Gay Lord Quex," "Romeo for a Fortnight," "Paolo and Francesca" and "The Lady of Belmont." His major production last year was "Kismet." During the coming summer session many of the plays will be repeated. A play will be given each Wednesday night starting June 23.

In his studies abroad he will follow the latest European stage productions. "There are many European stage tricks of the more modern school that the American drama is just beginning to learn," Mr. Raines declared.

SPEAKMAN TAKES FINAL PLAY LEAD

The Second Mrs. Tanqueray' Presentation Planned Saturday Afternoon, Night

Walter Speakman will take the leading male role in the dramatic department's next production, "The Second Mrs. Tanqueray." The complete cast of 11 characters was announced yesterday by Lester Raines, instructor in the drama department.

The last production of the quarter, this play includes several actors who are well known to campus audiences and is directed by Charlotte Johnson. It will be given on Saturday afternoon at 2:30 in place of the regular dramatic hour and the same evening at 8:15.

The cast of characters is as follows: Enza Zeller, Paula, the female lead; Walter Speakman, Aubrey Tanqueray; Virginia Collins, Ellear; Roberta Kendrick, Mrs. Cortelyou; Gordon Fairclough, Captain Hugh Ardale; Ward Dexter, Cayley Drummond; Frank Johnson, Frank Mesquith; George Benedict, Dr. Jayne; Conway Bolstad, Sir George Orreyed; Meredith Langworthy, Lady Orreyed; and William Haggerty, Morton, the butler. Violet Kohlstadt is in charge of ticket sales.

Minnich Writes for New Health Journal

Dr. Dwight E. Minnich, associate professor of animal biology, has contributed an article to the current issue of the Northwest Health Journal on the subject of the "Importance of a Knowledge of the Principles of Heredity as a Social Factor."

"Eugenics has its bitter opponents and its over-zealous advocates. Between the views of these extreme groups lies a middle course, which is backed by sound scientific opinion," Dr. Minnich declares.

"Three aims, which such a course has are: more intelligent marriage; the encouragement of reproduction by good human stock; the prevention of reproduction by the worst human stock."

Brigham Young university has an annual sports carnival known as Girls' Day.

W. T. Middlebrook, Comptroller at the University for only a year, W. T. Middlebrook has been elected president of the Association of College and University Business officers for the coming year.

COFFMAN TO GET REPORT ON DRILL

Faculty Committee Investigates Advisability of Optional Military Training

A complete report by a faculty committee investigating the advisability of making military drill an optional course will be submitted to President Coffman next week.

The committee of seven appointed by the president and headed by Dean J. B. Johnston, will hold its last meeting June 2, for a final discussion of the drill problem before submitting the report to the president. The report will cover investigations covering a wide range of universities and colleges.

The committee began its investigations early in the year to consider the possibilities offered by optional drill, or the retaining of the present compulsory drill. Members were selected from different colleges, and one military officer was included in the committee.

All findings of the committee have been kept secret. No reports upon the investigations will be made public until the matter has been submitted to the president as the report given out at Dean Johnston's office yesterday.

Compulsory drill and optional drill discussions have been prominently discussed at many universities this year. Ohio State university took a student ballot on the matter. In most schools the students oppose compulsory drill while the faculty and administration support it strongly.

Chicago Pastor Will Give Baccalaureate

Rev. John Timothy Stone, pastor of the Fourth Presbyterian church of Chicago, is the speaker obtained for the graduating class baccalaureate service, Sunday, June 13, in the armory, according to E. B. Pierce, general Minnesota alumni secretary.

Mr. Beal is a graduate of Earlham college, of Richmond, Indiana, where he received his B.A. degree. At different times, Mr. Beal took up graduate work at the University of Chicago. Before accepting the position of instructor at Minnesota, Mr. Beal taught at Michigan college, Lansing, Michigan, and at Illinois college, at Jacksonville, Illinois.

to see the prince at close range," Major Bernard Lentz, declared.

More than 100,000 people are expected to be present to see the prince, who will spend the entire day in Minneapolis.

A "Frontier Day" celebration was recently sponsored by the students of the Agricultural school at the University of Illinois.

The Minnesota Daily

Official Newspaper of the University of Minnesota
Member Western Conference Editorial Association

Published every morning except Sunday and Monday by The Minnesota Daily at the Posten Press, Sixth Avenue and Seventh Street South, Minneapolis, Minnesota.

Subscription rates for mailing, \$1.25 per quarter, \$3.75 per year. Single copies, five cents each.

Entered as second class matter at the postoffice at Minneapolis, Minnesota, under the act of March 3, 1879.

Offices: First floor of Old Library Building, University of Minnesota.

Telephone: Discontinue 2165; then ask for "Minnesota Daily," telling operator whether you wish to speak with the news, business, sports, exchange, or editorial departments. (After 7 p.m. call Geneva 1487, or bring copy to The Minnesota Daily night editor at the Posten Press, corner of Sixth Avenue and Seventh Street South.)

THE FACULTY PROBLEM

It is customary on the loss of prominent members of the University faculty to make some editorial expression of appreciation of the services of those who are leaving. Because the professor, as well as any other worker, is worthy of appreciation as a part of his hire, we join the student body and the faculty in our commendation of the work of the six faculty members now leaving. We are sure that students in the departments which will suffer will feel the loss of familiar figures next year.

George W. Dowrie, for several years head of the school of business, is leaving for a position in California. Francis P. Leavenworth of the department of astronomy, is retiring after a lifetime of faithful and outstanding service. Professor Manuel C. Elmer, of the department of sociology, leaves to become head of a department of sociology at Pittsburgh. George B. Frankforter of the department of chemistry, leaves to become a professor-emeritus of this university. Carl V. Lashley, professor in the department of psychology, leaves to take a full-time research position in Chicago. F. W. Washburn, professor of etymology, is retiring after a lifetime of service here.

These men have been leaders as Minnesota faculty members. They represent an achievement of Minnesota administration, and a great achievement.

To use a homely peasant phrase: good professors and research doctors do not grow on bushes. They are difficult to find because they are few in number and are in great demand. Once secured by a university they are difficult to retain. Efforts of the administration of forward-looking universities are untiringly directed toward searching for such men; are untiringly devoted to keeping them once found.

There is a tendency among many who comment on universities to consider first the size of buildings, the number of students in attendance, or the yearly outlay for maintenance. Though this is of importance, we believe that it is given secondary consideration by Minnesota's administrative officers. Of first importance to any university is the calibre of its faculty members, and the achievement of its research doctors. A great university is one which, throughout the years, succeeds in getting and in retaining men of outstanding calibre and professional achievement.

In this as in other things there are ups and downs. There are years when word goes out over the world that Minnesota has a splendid faculty and a productive corps of research doctors. There are other years when it is known wherever universities are properly evaluated, that Minnesota is losing ground. With the loss of six prominent faculty members—prominent because of teaching ability and research achievement—Minnesota is having a lean year.

During the coming summer and the next year administrative officers, department heads and college deans, face the problem of securing outstanding men to replace those who have been lost. We wish to extend our sympathy to the administration as it works to recuperate its losses. We wish to express the hope that it will be as successful as it has been in the past.

WARE THE WOLVERINE BACILLUS

The staid dignity of Lansing, capital city of Michigan, was rent to shreds and cast to the winds by the vociferous demonstration of students wildly exuberant over an athletic victory won on Monday afternoon.

According to newspaper reports the celebration broke forth spontaneously, there being no previous planning of a celebration program drawn by committees. Nothing like that. The jamboree gained momentum like a rolled snowball and was split only by the prolonged wailing of sturdy police clubs at the expense of undergraduates' craniums.

After the building of a huge bonfire in front of the state Capitol, the participants thought the idea such a fine one that they employed it in a more apropos location, in front of the central fire station.

Their flaming spirits still unquenched, the jubilant

tricksters hit upon their own campus as a site for a good old bonfire and succeeded in achieving their ambition of seeing the center field bleachers in flames. The disastrous reprisal for this bit of hilarity took the form of probation and fines plastered on ten students.

The occasion which inspired the students of Michigan state college to such heights of artistic revelry was the victory of that institution's team over the University of Michigan team, the first scored in ten years.

The sport which raised such football enthusiasm was not the gridiron game, but the sport so lukewarmly received by most colleges, namely baseball.

Should this spirit prove infectious, one shudders in contemplation of the fate of woody real estate on the campus in the event of a Minnesota football victory over Michigan next fall.

THE HARRIS AWARDS

In winning first place in the Harris awards for the year 1925, Minnesota has once more established her claim among the universities of the northwest for high percentage of individual achievement in the field of political science.

Always a formidable entry in this contest, the school this year has fairly romped off with first honors and the more subtle honors of honorable mention. Consistency in gaining places in the Harris contest over a period of several years indicates that our political science department seems to have the commendable knack of bringing to an effective state the creative writing of students on the department subject.

The essays in the contest are in a sense an academic exercise and in another, an actual attempt upon the part of students of the problem to deal in a real and effective way with the world problems of political science. With either motivation the entrants gain a deal of benefit from having given their serious thought and effort to the aims of the contest.

It is to be hoped that in the future Minnesota will continue to be as worthy a contestant as she has been this year, and that the proteges of the political science department will be as deeply inspired by matters of world political conduct as they have been in the past.

We see by the papers that John Paul Jones has been elected to the Hall of Fame as a "hero of the seas." The Sea Beast ought to get in next time.

Porch Swing: The gallows whereupon a good line swings many a victim.

We have seen a moth bawl when it was taken out of a dress suit.

"What color bathing suit did Dorothy have on?"
"I couldn't see. She was reading a book."

paltry prattle
By Nutty Nits
P. O. 1287

TO THE WOMEN

They tell us our tongues are too glib,
We're too vain for the cut of our jib,
We care not a fudge
For why should man judge,
Since we're made from Adam's spare rib?

Most of the businessmen of today would rather be on the inside than on the right side.

Love is a gift; marriage a token; divorce a souvenir.

Some men say it is surprisingly easy to kiss a girl who won't let you.

Don't let the hair on your head beat you to it in coming out on top.

Said the chopstick to the lipstick,
"You are certainly a flip stick."
"But at least I am not a flop stick."
Said the lipstick to the chopstick.
—Judge.

John Barrymore, my jo, John
When we were first acquaint,
A six-bit or a dollar seat
Was good for any gent.
But now you hit my roll, John,
For three and four per throw.
You surely clamp your lunch-hooks on,
John Barrymore, my dough.

A FOOL THERE IS
There's a fool, I'm told, who is young, though old,
And who's seen life's best with a sigh;
Who has watched her frown as he made his round,
And who now is willing to die.

He cast his fate with the ones called great,
And has played their sport with a sneer;
He has mixed with the worst 'til his heart has burst,
And his face wears a constant leer.

He has formed his creed that there is no need
For a man with a high ideal:
That the one who'll win, though he's black as sin,
Is the man who will lie and steal.

So he's burned his soul, and he's taking toll
As the world of fools goes by:
He has drifted here with his twisted leer
And that fool, I tell you, am I.
—The Court Jester.

Sometime in the night between twelve and two
Through a hole in my screen a Culex flew,
Tired and hungry, his feet damp with dew,
His abdomen so thin you could almost see through.
He alighted on me without further ado,
Attached his proboscis, and his body grew
And grew and grew and grew and grew,
And changed from transparent to a purplish hue.
When his fill was extracted his beak he withdrew,
And leaving me sleep he took his adieu
Without even a hint of "Kind sir, I thank you."
Of my corpulence he took a thousand or two,
And now the doctor gives me quinine by the ton—
Boo Hoo!
—J. B.

I looked out the window
And thought I saw
The Winged Victory;
But it was
Only
The blonde next door
Drying her hair
That windy afternoon.

I beg to remain the same!

Formals Planned

Sigma Alpha Mu will give their formal at Radisson Inn May 30, under the direction of John Aldes and Carl Lefeser.

Kappa Eta Kappa, professional electrical engineering fraternity announces the pledging of Melvin Elmquist of Copas, Milton Anders of Dilworth, and James Bailey of Anoka.

John Healy was in charge of the Chi Delta Xi formal held May 21 at the White Bear Yacht club.

CLASSIFIED WANTS

The University of Minnesota OFFICIAL DAILY BULLETIN

VOL. VIII THURSDAY, MAY 27, 1926 NO. 139

NOTICE TO INSTRUCTIONAL STAFF
Copies of a tentative list of candidates for June degrees have been sent to the head of each department where they may be obtained by members of the teaching staff.
(D) Students whose names appear on this list are entitled to the privilege of an early examination or exemption from examination as provided in the regulations of the several colleges. For explanation of starred names, see statement following the name of the college concerned.
(E) Final grades for the work of the current quarter for all students on the list, in accordance with the action of the University Senate, are due in the office of the Registrar not later than noon, Monday, June 7th. Instructors are requested to make every effort to comply with this regulation to insure that no student entitled to receive his degree at this time is omitted on account of failure to receive reports on final grades.
R. M. West, Registrar.

NOTICE TO CANDIDATES FOR DEGREES
All final reports on candidates for June degrees are due in the Registrar's office before noon, Monday, June 7th. Candidates not exempted from final examinations who are registered in other than regular senior classes are responsible for making arrangements with their instructors for early finals.
R. M. West, Registrar.

LIBRARY NOTICE
The University library will be closed all day Monday, May 31, according to University regulations. The library will close at 6 p. m. Saturday, May 28.
Books which would fall due on May 31 should be returned before 6 p. m., May 29, to avoid fines.
Frank M. Walter, University Librarian.

NOTICE OF REGISTRATION FOR 1926-27
COLLEGE OF SCIENCE, LITERATURE, AND THE ARTS
(A) Preliminary Registration for Next Year—All students now in residence in the College of Science, Literature, and the Arts must register this spring for next fall quarter, if they are to be in the junior college then, and for the next fall, winter, and spring quarters. Registration for the summer session is made at the close of this quarter.
(B) Summer Session—All students who plan to attend the first term of the summer session will be expected to register for the summer session when they register for next year. Summer session fee statements will be issued when the registration blanks are returned to the proper windows of the Registrar's office. Summer session fees must be paid by June 15. The usual penalty for late payment will be in force after June 15.
(C) The Essential Records—The only records which officially concern the student this time and in which the Registrar's office is primarily interested are (1) the official registration sheets, and (2) the Deposit Fee Account Cards, properly filled out. There must be a separate registration blank for each quarter for which the student is registering.
(D) Deposit Fee—Registration blank each student will be handed a "Deposit Fee Account" card. On this card should be written on the appropriate lines only (1) the full name of the student in the college in which he is registering, and (2) his permanent address to which the balance of his deposit fee will be mailed at the close of next year. The card will be filled out in the same manner. Cards should be attached to and handed in with the registration blank.
(E) Penalty Fees—Students who fail to make appointments for registration or fail to return their registration blanks within the stated time period will be liable to pay the usual penalty fee.
(F) Notice to Students in Journalism—The program of courses in Journalism for 1926-27 will be announced until next fall. Students who expect to register for courses in Journalism should ask for permission to postpone their registration until September 22-24, 1926, without penalty.
(G) Programs for 1926-27—Summer Session Bulletins may be secured at the Registrar's office. Copies of the program of the College of Science, Literature, and the Arts for the year 1926-27 will be available at the same window on and after June 1st.

Registration in the Junior College
Freshmen and sophomores must report during the period from May 28 to June 6, in room 106, Folwell Hall. Registration blanks and Deposit Fee Record books must be handed in not later than June 11, at the appropriate windows of the Registrar's office. Students are urged to report early. Those who delay may find classes for which they are filled to capacity.

Notice to Freshmen
Students who are expected to be classified either as freshmen or sophomores next fall are expected to call at room 106, Folwell Hall, and ask the clerk for a copy of instructions. Otherwise it will be taken for granted that the student prefers to register without consulting the Registrar's office.

Notice to Sophomores
Students who are sophomores now and expect to enter the senior college next fall should appear before the Registrar's office who will be in the hall quarter in room 106, Folwell Hall, and ask the clerk for a copy of instructions. This notice does not concern sophomores who will enter one of the professional colleges next fall.

Registration in the Senior College
Those whose names are on the list of students to be registered in the senior college from June 1 to 8, should call at room 106, Folwell Hall, and ask the clerk for a copy of instructions. Their blanks must be returned not later than June 11. The registration blanks for N through Z will be returned to the Registrar's office, and all Summer Session blanks to the proper window. Registrar's office, STUDENTS WHO DO NOT REGISTER AT THE APPOINTED TIME WILL BE HELD FOR THE PENALTY FEE FOR LATE REGISTRATION.

Regular Registration in the Senior College—Sophomores who will have completed the Junior College requirements at the end of this quarter, and desire to enter the Senior College next fall, are expected to register during the period, June 1 to 8.
Provisional Registration in the Senior College—Sophomores who will have earned 60 credits and 20 honor points, but who will not have actually completed all other Junior College requirements at the end of this quarter, and desire to enter the Senior College, probably be allowed to register provisionally in the Senior College during the period, June 1 to 8. (See above).

Registration Procedure for Seniors—Those seniors who apply should report to the appropriate window, Registrar's office, during the period, June 1 to 8, and request a memorandum from the Junior college clerk, Room 219 Folwell Hall, who will supply further instructions to complete registration.

COLLEGE OF SCIENCE, LITERATURE AND THE ARTS
Examinations for Seniors
Reports on seniors who are candidates for graduation in June are due in the office of the Registrar for Monday, June 7. Final examinations for these seniors who are not exempted by the rules of the faculty will be held Thursday, Friday, and Saturday, June 3, 4, and 5. The schedule for these examinations will be arranged by the Assistant Dean for the Senior College and notices sent to the Head or Chairman of each department. Questions to the Assistant Deans should be sent to the examination questions to Assistant Deans Thomas before noon, June 2.
J. B. Johnston, Dean.

COLLEGE OF DENTISTRY
Examination Meeting
The faculty of the College of Dentistry will meet Monday, June 7, 1926, at 8:00 p. m., in Room 308, Dentistry Building.
R. M. West, Secretary.

GRADUATE SCHOOL
The preliminary examination of Mary Margaret Shirley, candidate for the Ph. D. degree, major Psychology, minor Physiology, will be held Thursday, May 27, 1926, in Room 301 Psychology Bldg., at 2 p. m.

MILITARY DEPARTMENT
A list showing the status of each man required to continue drill the remainder of the quarter is posted on the Bulletin Board in the Armory.
Students who are not positive as to their status are advised to consult this list before discontinuing drill.
Don F. Pratt, Adjutant.

NOTICE
Those students required to drill for the remainder of the quarter and those having drill to make up may do so, in uniform, at any hour from 9:00 a. m. to 10:00 p. m. on Monday, Tuesday, Wednesday, Thursday, and Friday, and from 9:00 a. m. to 12:00 p. m. on Saturday, or at their regular drill hours.
Don F. Pratt, Adjutant.

DEPARTMENT OF AGRICULTURE
Home Practice Examination in Foods will be offered to all who have fulfilled the requirement, before the close of the spring quarter. Anyone wishing to take the examination, leave a copy of schedule with Miss Solvay in Room 102 before Saturday, May 29th.

College of Agriculture, Forestry, and Home Economics
Memorandum to Faculty Advisers
Your attention is especially called to the notice for fall registration, published in the Official Daily Bulletin. It is requested that all advisers be available as indicated in these notices on the day or days for registration in the Official Daily Bulletin. If unavoidably absent, please make arrangements for taking care of any students who may wish to consult you on registration days. It is hoped that we will have the best co-operation possible so that the registration may be effectively and satisfactorily completed on June 4 with the least possible inconvenience to the faculty and the greatest efficiency in assisting students to register.
E. M. Freeman, Dean.

College of Agriculture, Forestry and Home Economics
Registration for the Fall Quarter 1926-27
All registrations for the fall quarter must be completed on June 4.
Home Economics: All seniors and students entering the senior class will register on June 1. Advisers should be consulted on that day in Room 318 in the Administration Building, classes and those not yet completing the freshman year will register on June 4, in the Administration Building on that day.
Agriculture and Forestry Students: Registration must be completed on June 4. Students are urged to have their programs fully prepared before that date. Advisers will be in their offices on June 4.

Alf Ostle is planning the Kappa Sigma formal to be held June 2 at the Lafayette club.
June 12 the Chi Psi formal will be held at Frontenac. William Graham is in charge.

Interfraternity Council
Members of the professional interfraternity council will meet in room 102 of the armory at 5 p. m. today.

AN OPPORTUNITY FOR A HIGHLY REMUNERATIVE SUMMER VACATION

Students Listen to Helium Atoms Rattle Over Radio

Radio fans at the University of Minnesota last week listened to the noise made by single atoms of helium rattling around in a Leyden jar in a laboratory at the University of Kansas. And this in spite of the fact that each atom was so small it would take 20,000,000,000,000,000,000,000 of them to make a single crystal of sugar.

The sound which resembles that made by a plucked violin string, was broadcast throughout the central west over KFKU with an explanatory talk by Dr. H. P. Cady, assisted by John Strong, both of the department of chemistry at the University of Kansas.

"If a single crystal of sugar were divided into a billion parts, and this billionth were again divided into a billion parts, the fraction would still be 2 times as large as the atom of helium used in the experiment," said Dr. Cady. These helium atoms were produced by radio-active substances. The Leyden jar which was the basis of the experiment has been used for static electrical experiments since even before the time of Benjamin Franklin. The negative pole of the jar was connected with a fine point talking machine needle, set like a lightning rod in the center of the jar.

A brass cylinder was suspended so as to surround the negative point, the electricity passed across the intervening space between the cylinder and the point until the difference in potential was reduced to 4,000 volts. The resistance of the air stopped the discharge here. This was done until a radio-active substance was brought within a few inches of the upper opening of the brass cylinder and just above the talking machine.

The alpha particles from the radium entered the cylinder, producing ions from the air. These multiplied by collision until the electric current could pass again. By means of a three-stage amplifier, this current, which was multiplied between 10,000,000 and 100,000,000 times, was multiplied 70,000 times within the Leyden jar. This power produced a tone like that of a small bell struck sharply and then muted, or a plucked violin string, when heard in the loud speaker.

The retiring officers, who will turn over their posts in ceremony at the banquet are Ralph Levine, president; Pearl Tiber, secretary; Robert Karon, treasurer; and Irving Rayhill, sergeant-at-arms.

An elaborate program has been planned for the dinner by Morris Berman and Jack Mirviss, which reviews the entire season's activities in a novel way.

The principal speaker will be Gustavus Loevinger of St. Paul. The new officers to be installed are: president, Arnold Karins; vice presidents, Beryl Bearman, Al Rich and Morris Berman; treasurer, Harry Liff; secretaries, corresponding, Jerome Labovitz, recording, Helen Berg, alumni, Arnold Edelmann; and sergeant-at-arms, Abe Gilman.

The University of Minnesota Menorah society will take place at the annual banquet to be held this year at the Radisson Hotel Japanese room at 6:30 Saturday. The dinner will be followed by dancing at 9:30 in the Flame room. David Goldstein, former president of the Menorah, will be toastmaster. Harold Godenberg is in charge of arrangements.

MENORAH INSTALLS OFFICERS-ELECT

Annual Banquet Scheduled for Radisson Hotel Saturday at 6:30

Installation of the officers-elect of the University of Minnesota Menorah society will take place at the annual banquet to be held this year at the Radisson Hotel Japanese room at 6:30 Saturday. The dinner will be followed by dancing at 9:30 in the Flame room. David Goldstein, former president of the Menorah, will be toastmaster. Harold Godenberg is in charge of arrangements.

The principal speaker will be Gustavus Loevinger of St. Paul. Wrist Watch, solid white gold platinum trimmed case, 4 sapphires and 2 diamonds.

715 NICOLLET AVENUE

Stadium Plaque Will Be Finished by Commencement

Final Wording of Inscription for Tablet Decided Upon; Design Carved from White Limestone; Rounded 'U' Used

The tablet over the main gate of the Memorial stadium will be completed by commencement week, Frederick J. Mann, head of the architectural department and members of the Greater University corporation, said yesterday when he announced the final wording of the inscription.

The 'U' with rounded bottom instead of the architectural 'U' will be used on the tablet. This point, which was discussed at length during the winter quarter, was decided yesterday when the inscription was announced.

The form of the inscription will be as follows:
THIS STADIUM WAS ERECTED BY THE MEMBERS AND FRIENDS OF THE UNIVERSITY TO HONOR THE MEN AND WOMEN OF MINNESOTA WHO SERVED THEIR COUNTRY IN TIME OF WAR
A. D. MCMXXIV

Unveiling exercises for the tablet probably will not be held because of the lateness of its completion, and the full program which has already been arranged for commencement day.

The whole tablet was designed and carved in the white limestone with which the stadium is trimmed, by David K. Rubens, Minneapolis sculptor. Mr. Rubens won the Paris prize, the highest honor open to students of sculpture in this country.

The tablet is designed with two figures on each side and a large open space, 7 feet high by 11 feet wide, for the inscription. The figures were completed some time ago, but action was delayed until a permanent inscription could be worked out.

The figure on the left of the tablet is that of a young man looking ahead, ready to go forward. At his side and unnoticed by him is the allegorical figure that moves youth to go on. The figure is handing a sword to the youth.

The main character to the left is a young woman moved by the spirit to go out and give ministering comfort. The symbol being placed in her hands is the insignia of the medical corps.

Interfraternity Council Members of the professional interfraternity council will meet in room 102 of the armory at 5 p. m. today.

GOPHER NINE OPPOSES FORMER TEAMMATES TODAY

RUFUS CHRISTGAU LEADS I. H. C. TEAM IN PRACTICE GAME

Soo Line Boys Turned Back With 9 to 5 Score; Rognlien Pitches Well

By Joe Mader, Jr.
As a final preparation for the long jaunt to Illinois and Northwestern this weekend, Major Watrous this afternoon will send his baseball nine against the International Harvester Company's aggregation, made up largely of prominent stars formerly at the University.

Rufe Christgau, captain of the 1925 team, will mix things with his former teammates from a catcher's position. Among the other former Gophers in the I. H. C. lineup are the two Ross brothers, Ray and Don, Johnny Hall, and Cliff Thompson.

Chances for victory are even on either side, since the business league team boasts of some heavy hitters, Rufe being not the least prominent. The team leaves Friday night for Urbana, where they will tussle with the Illinois nine, and then moves on to Evanston to play the Northwestern team on Memorial day.

Defeat Soo Line 9-5
Facing the Soo Line team last night, the Gophers had little difficulty vanquishing them, 9 to 5, in a contest that was listless save for a highly interesting fifth inning. Redding started on the mound for the Maroon and Gold team, but he gave way to Rognlien after the second. "Lefty," though a bit wild to begin with, controlled the opposing batters well throughout the five remaining innings, allowing only two hits, and two runs.

Most of the Minnesota men had a good day at bat. It was particularly pleasing to note that Mason continued hitting the stride at the rubber which he started in the last two games. Watrous used nearly his whole squad during the seven inning contest, and many of the reserves showed to a good advantage.

Fruitful Fifth Inning
The railroad team led after two innings, 3 to 2, with one home run giving them the lead. A sudden onslaught on Marsh, the Soo pitcher, in the fifth stanza brought in six runs. Nydahl began the assault with a single that turned out to be a double when the fielder threw wild to first. Ascher singled, and then and struck out two men to retire the side.

Marsh pitched the entire game for the Soo line, while O'Donnell did the receiving. Bakke, Redding and Rognlien did battery duty for the Gophers. Pelton, Gay and Davidson worked part time in the field. Gay and Pelton had successful trips to the plate. Norgorden relieved Stark at short-stop for half the game.

Some of these reserves will likely be taken on the two-game trip Friday. Morlock or Gay may be taken along as relief catchers, while Gay may also be called on for fielding duty. The other men to be taken on the trip are: Redding, Clark and Anderson, pitchers; Bakke, catcher; Captain Guzy, Stark, Ascher, and Mason, infielders; Serline, Nydahl and Krogh, outfield. A last minute decision may find another reserve taken along for outfield duty.

Northwestern Elects Track Leader
Darwin Furrey, Evanston, a middle distance runner and member of the Northwestern university relay team which won the two-mile event at the Kansas relays, will lead the Purple track team in '27.

A summer school course for athletic coaches will be included in the curriculum of Purdue university this year.

Women's Week at Northwestern
University will be formally opened at the annual Matrix banquet on May 18.

Two-thirds of the 180 students who had automobiles at Purdue last year received one or more conditions in their studies.

The University of Missouri has been presented with an ancient stone toro, or ceremonial lantern, by the American-Japan Society of Tokio.

Sigma Nu and Theta Tau Win Academic and Professional League Diamondball Titles

Defeat Phi Kappa Psi 9-7 in Overtime Game; Delta Sigma Delta 9-1, for Respective Championships; Play Friday for Interfraternity Honors

An eighth inning home run by George Huck opened a rally that brought the Academic diamondball championship to the Sigma Nu house last night by a 9-7 extra-inning victory over Phi Kappa Psi. At no time until the final out was made could the winner of the game and the title that went with it be predicted. The effective pitching of Ed Mather and his spirited support finally won the decision.

In the other semi-final game the Theta Tau aggregation registered 12 hits in six innings for a 11-1 win over Delta Sigma that gives the Professional league championship to the hard hitting engineers without further play. Contrary to the game for the Academic title, this contest was never in doubt as the Theta Taus took the lead in the first inning and rolled it skyward.

Heleniak Fans Nine
George Heleniak stole the thunder of Ed Mather by copping nine strikeouts while the Sigma Nu pitching ace was satisfied with an even half dozen.

Mather's plans were hard to see. Robert Peplaw connecting for the only solid hits of the game by driving out three doubles in four times at the plate.

N. Anderson was the hitting ace of the Sigma Nu's, his three attempts yielding a triple, a double and a single.

The winners starting in a vigorous fashion scoring three runs in the first two frames.

In their half of the second the Phi Psi's connected for a volley of base hits that yielded a run for each of 4 bingles.

At the opening of the fifth the count was five all. In that inning, two were scored by each team.

In the crucial seventh, the Sigma Nu's were set down in one, two, three fashion. Peplaw pounded out a two bagger that threatened to start a winding rally for the Phi Psi, but he died on base when Huck made a difficult catch of Pickler's long fly.

Huck Hits Four-bagger
Huck, battling first for Sigma Nu in the eighth inning, then met the first ball pitched and pounded it over the center fielder's head for a circuit about that sent his brothers wild with frenzy. Wilson hit and came home on Boss' two-bagger, giving them a two run lead.

Mather was wild in the final part of the eighth, walking Wilde, but the Phi Psi were unable to score, the next three men going out on infield hits.

Sigma Nu will meet Theta Tau Friday at 5 o'clock to decide interfraternity honors. The former has stepped through four victories in the divisional play and then won from Phi Gamma Delta and Phi Kappa Psi respectively to win the Academic cup from a field of 16 strong contenders.

The Theta Taus have also gone through their season without a defeat, and have won from Lambda Theta Phi and Delta Sigma Delta in the professional playoff.

The game for the interfraternity title will bring together these 1000 per cent aggregations, showing some of the best diamondball on the campus.

While the engineers have shown a hard-hitting lineup, they have yet to come up against excellent mound work and will meet an effective battery in Mather and Anderson.

All-U. T. June 1
Because neither of these teams have played against any of the same opponents predicting is difficult. If the Sigma Nu batting lineup and battery are both in good condition, the final score should read in their favor although the Theta Tau's may assimilate some of the qualities of the lighting in their laboratory.

The winner of the interfraternity gonfalon will play June 1 for the all-University title, their opponent to be decided from the Agriculture, Engineering, Independent and Late divisions winners.

MEGAPHONING
The heaviest part of the baseball schedule is awaiting the Minnesota varsity when they start their foreign invasion of Big Ten camps. First on the calendar comes the game with Illinois at Urbana Saturday afternoon. Illinois is one of the first division teams and will give our team strong opposition. On Monday afternoon while the campus is celebrating Decoration Day, Major Watrous' men will be playing a return game with Northwestern at Evanston.

A week from Saturday, another return engagement will be played at Bloomington, Indiana, when the Gophers will be the guests of Coach Dean and the Indiana nine. The final episodes in the season's activities will be staged at Columbus when the Maroon and Gold meet Ohio State in a two game series. The dates for these two games are June 11 and 12, or about the time the rest of us will be undergoing the ordeal of final examinations.

The next two weeks will see the passing of a number of Minnesota athletes, men who have made their mark in their respective field and who will leave the campus in pursuit of other activities. On the baseball team there is Captain Pete Guzy, Herman Ascher, and Henry Anderson. Guzy cut quite a figure in sports during his three years' of competition. Prior to this season he rated as the outstanding pitcher in the Big Ten, and would have been pitching again this season if the injury which he received in football had healed. Guzy's outstanding performance on the gridiron came when he was playing quarterback on the varsity and went into the Wisconsin game at Madison a year ago last fall, and led the team to a tie score, after the Gophers were behind.

Ascher, besides leading the football team as captain last fall, won his spurs on the baseball team and now has offers from baseball clubs after he receives his diploma in June. Ascher was out for basketball—and worked in a few games last year. Hank Anderson will close his career as a pitcher with his work this year being the outstanding of his entire work on the baseball team.

Captain Gruenhagen on the track team will graduate, while Fred Just of both football and track fame, will finish his collegiate career with the class of 1926. Gordon Fisher starred in both football and track and also served as student representative on the Senate Committee of intercollegiate Athletics. Hirt and Swanson are the other two men on the track team who will carry the colors of Minnesota for the last time in the Big Ten conference meet at Iowa Saturday.

Betas, Theta Kaps to Open Baseball Title Schedule

Nines Meet on Parade at 4:30; Psi O's Score 4 in Fifth to Trim O. U. P. 6 to 5; Theta Xi's Win

Beta Theta Pi and Theta Kappa Nu nines will mix this afternoon at 4:30 in the first game of the round robin schedule for the academic baseball title. The game was moved up from Friday and will be played on the parade as Northrop field will be used by the varsity nine against the International Harvester team.

Theta Xi entered the championship round by disposing of the Phi Sigma nine yesterday by a 15 to 5 score. Their win gives them a clear record for the season.

Psi Omega practically cinched the title in the first professional division by trimming Omega Upsilon Phi, 5 to 5, yesterday. They still have an unfinished game with Phi Beta Pi to be played. If they lose this game it will be necessary for Phi Beta Pi to replay their tie with Triangle and in the event that they win they will then be in a deadlock with Psi Omega for the title.

A walk, three singles, and Skogsberg's pinch double scored four runs in the last inning to win for the Psi O's.

Two hits and an error counted twice for Omega Upsilon Phi in the opening inning but the Psi O's came back to knot the count in their half with two passes and a single. L. Larson's single, a fielder's choice, and Grant's triple scored twice again for Omega Upsilon Phi in the third.

Fighting an up hill battle all the way, the Psi O's responded with another run in the last half of their fourth after Omega Upsilon Phi had rushed over two counters in their half of the same inning. With three runs needed to tie and four to win the Psi O's staged their rousing finish in the fifth after their opponents had went scoreless.

Ringle pitched a good game for the losers until he blew in the fifth, allowing but two hits and whiffing six up to that time. Beaudin, Psi O hurler, twirled a fair game, the losers getting to him for seven safeties and fanning five times.

Bjornberg and Skogsberg starred at bat for Psi Omega and L. Larson, Grant, and Ringle scintillated with the stick for Omega Upsilon Phi.

Psi O-U.P. score by innings:
R. H. E.
Psi O 1 0 0 1 4-6 6 1
O. U. P. 1 0 2 2 0-5 7 0
Batteries—Psi Omega, Beaudin and Skogsberg; Omega Upsilon Phi, Ringle and Ederer.

Past Two Weeks See Field Records Broken

Roland Locke, famous University of Nebraska sprinter, set what is believed to be recognized as a new world record when he ran the 220 yard dash in 20.7 seconds on May 15 at the Missouri-Nebraska dual meet.

A new time was set in the 100 yard dash by Charlie Paddock at Los Angeles when he navigated the distance in 9.5 seconds with the wind against him.

In the weight events John Kuck, phenomenal weight heaver of the Emporia Teachers' College, threw the javelin 214 feet 2 1/2 inches for a new intercollegiate distance.

The pole vault distance was assailed by Lee Barnes of the University of Southern California, when he succeeded in going over the 13 foot 8 inch mark.

GOPHER TENNIS TEAM PLAYS AT CHICAGO TODAY

Opponents Not Announced Yet Butler Ineligible for Competition

Minnesota's varsity tennis team is all set to battle for conference honors when they play their first match of the Big Ten conference meet this afternoon at Chicago. Only nine Big Ten teams will compete this year as Indiana has withdrawn. The tourney this year is limited to conference teams which will keep Butler, who won both singles and doubles titles last year, from competing.

Although the drawings have been completed, it has not yet been announced who will oppose the Gophers in their opening match today. The winner of the meet will get a trip to the national collegiate net meet at Philadelphia in July.

Armstrong Regains Form
Minnesota's hopes rest with Bob Shay, Joe Armstrong, Bruce Weatman and Homer Tatham. Bob Shay left last night for the scene of the conflict and will meet the other team members who stayed down in the windy city after meeting the Purple on Saturday.

The team should be in good shape to enter the competition following their four days' rest. Bob Shay was off his usual form in the encounter with Northwestern Saturday but should come back with his fast driving style of play and register a win. Joe Armstrong came out of the slump he was in and had an easy time downing his adversary Saturday. He uses a chop stroke which, coupled with his accurate placement, makes him a feared opponent.

Doubles Are Weak
Weatman is a steady, consistent player who plays two out of the three matches played this year. He is a trifle erratic with the first game or so but then settles down into his even stride which piles up the points. Tatham uses a hard drive which is very effective when in control but he has found it hard to keep it in bounds in several of the deciding games in his matches.

Minnesota's strength seems to lie in the singles while their weak point is in the doubles. If they can overcome their erratic style in the combinations they will be dangerous opponents.

The meet promises to be a hard fought one with Michigan and Illinois strong contenders. Eliminations will continue today and Friday with the two winners of the first two rounds of play fighting it out for premier honors on Saturday.

I-M BASEBALL STANDINGS

| ACADEMIC LEAGUE | | | |

Snappy Gopher Second Base Man's Hit Takes Victory From Carleton

Five Straight Wins Practically Cinch Division Champ at Stake Friday

ELDON MASON, who has been doing stellar work on the second sack this season, turned defeat into victory for Minnesota with his homer in Tuesday's game with Carleton. His fielding has been the headlight of most of the Gopher games. He is expected to show well in today's game.

Hamline Blanks Macalester, 3-0
The Hamline baseball team scored a shutout when Jacobson hurled his team to a 3 to 0 victory over Macalester on the Piper field Tuesday. Although allowing seven scattered hits, the Hamline moundsman whiffed nine batters, two in the final frame when the Macs had two men on bases.

Overcome their erratic style in the combinations they will be dangerous opponents.

The meet promises to be a hard fought one with Michigan and Illinois strong contenders. Eliminations will continue today and Friday with the two winners of the first two rounds of play fighting it out for premier honors on Saturday.

PHI DELTA CHI TO BATTLE THETA TAU FOR CHAMPIONSHIP

Five Straight Wins Practically Cinch Division Champ at Stake Friday

With five victories already tucked in their golf sack Phi Delta Chi expects to cop the championship of the Late Division Friday when they meet Theta Tau.

McKanna and Gendron are the two who have carried the Phi Delta Chi colors through the season without nary a set-back. They have defeated representatives of Delta Tau Delta, Alpha Sigma Phi, and Phi Epsilon Phi. Forfeits have been given them by Mortar and Ball and Lambda Chi Alpha.

Even in case of a loss to Theta Tau, Phi Delta Chi can gain no worse than a tie for the title. The division is composed of both academic and professional fraternities.

GOPHERS GET TWENTY ST. PAUL HIGH SCHOOL STARS

ALL FROSH SQUADS TO RECEIVE MEN FROM PREP RANKS

Two Mechanic Arts State Title Basketball Satellites to Matriculate Here

By W. T. Thompson
Minnesota's freshman athletic squads will receive an addition of twenty athletes from the four major high schools of St. Paul, namely Mechanic Arts, Humboldt, Central, and Johnson, according to a survey made of St. Paul schools.

Mechanic Arts heads the list with seven athletes graduating in June who are intending to matriculate at Minnesota. Ray "Swede" Nelson and Steve Schult were the two outstanding graduating senior athletes in basketball. They were members of the state championship team of 1924-25, and who later in the season won lasting fame for themselves by going into the semi-finals at the national tournament at Chicago.

All-city Men
Nelson in addition to being a basketball player of talent is one of the best tackles ever turned out of a St. Paul high school; Nelson is big and fast, weighs 190 pounds and should be a valuable addition to Coach Finger's freshman squad. Schultz played full-back for three years and was named at the fullback position on the all-city teams of 1923-24-25.

St. Paul Central, alma mater of "Black" Rasey will be represented at Minnesota by their star athlete, Paul Berry. Berry comes to Minnesota with the reputation of being one of the best athletes turned out at Central since the days of Rasey and Dick Reardon.

Humboldt High school was handicapped in all sports this year by the inexperience of its athletes. Bill Parker one of the new veterans was the main cog in three Humboldt athletic teams. Bill played end in football and was named on the St. Paul all-city team of 1925. In hockey Parker was named on the all-city team as a forward for three consecutive years and was honored with captaincy of team in 1925.

Johnson Sends Stars
Johnson High school whose teams are noted for their fight though handicapped by their smallness of stature, had hard sledding in football. Johnson made a brilliant record in basketball. Ray La Favor was the outstanding senior athlete. He played half-back on the St. Paul all-city second team last fall.

The list of St. Paul athletes matriculating at Minnesota are as follows: Mechanic Arts—Ray Nelson, football and basketball, all-city teams both sports; Steve Schultz, football and basketball and baseball, all-city teams; Eddie Ziegler, football, baseball and hockey; Victor Lenard, northwest junior skating champion in 1924; John Klubunder, Y. M. C. A. fancy diving champion in 1924; John Eldredge, hockey, two years all-city selection; Dave Haynes, track, three years.

Humboldt Represented
Humboldt—William Parker, football, basketball, baseball, hockey, four years; George Hagney, football, two years; Willis Eubenberg, baseball, four years; Ernest Mathes, football, two years; Ray Yeager, football, four years.

Central—Julian Madison, all-city forward, basketball, two years; Paul Berry, football, three years, all-city team; Howard Callendar, football, three years, all-city team; Russell Eckblad, football, basketball and track two years.

Johnson—Ray La Favor, football, three years, all-city second team 1925; Stan Shergren, football, three years; Luther Rolig, hockey, all-city second team 1925.

Varsity Crew Selected for Second Boat Race

Owen Whiteside Gives Men Pointers on Rowing; Financial Side Discussed; Bucket May Be Passed to Meet Expenses

With the staging of the second crew race only ten days away, the unattached varsity crew was selected yesterday and an intensive series of practices will be held to get these men in shape.

Owen Whiteside, coxswain and coach gave out the following list of men for the first string: Bow, Williams; second-oar, Person; third-oar, Pederson; fourth-oar, Walso; fifth-oar, Clark; sixth-oar, Bennett; seventh-oar, Nelson; stroke, Giles; Ferry, former Annapolis man, who is a veteran rower, is also one of the likely candidates who may grace the first string when the race with the Minnesota Boat club is started on the river course June 8.

About 30 men met at the Sigma Chi house yesterday and discussed the coming race. All were interested in rowing but the lack of time will make it impossible to use many of the men who were out for the team. Owen Whiteside talked to the men on training for the race and gave them a few pointers on rowing. Robert Miller, also talked to the men and gave them some information on the financial side of the race.

In order to meet the \$25 charge for the use of the shell, the breakage fee, and the transportation to the boat club, it may be necessary to pass the buckets among the people who attend the race June 8. Just whether this plan will be adopted was not decided. The expense of the staging of the race may be handled through public subscriptions.

The second practice for the candidates will be held at 3:30 this afternoon and from present indications the Minnesota Boat club will have plenty of opposition when they oppose the select student rowers.

All of the men have had considerable experience with the Duluth club and most of them are in condition to meet the best that the downriver club may have to oppose the Minnesota boys.

The men realize that the success of the sport here at Minnesota hinges on their showing in this race. If they can defeat the Minnesota boat club eight, they will have conclusive proof that the campus has the rowing talent and will give Minnesota a first class rowing crew.

Big Ten Tennis Meet At Chicago Saturday

Tennis stars of the Western conference were arriving today for the University championship tourney on the University of Chicago courts tomorrow, Friday and Saturday, in which every Big Ten school except Indiana, is entered. Drawings for the opening rounds were made today.

The tourney this year is limited to conference competition, which will prevent Butler, last year's winner of both the doubles and singles play, from competing. Illinois rules a slight favorite in what promises to be a bitter struggle for conference honors, with a trip to the national collegiate net championships at Philadelphia in July as an added prize.

Illinois Shuts Out Chicago Nine 13-0

Urbana, Ill.—The hard hitting Illinois nine blanked the Maroons 13-0 here. The Illinois pitching was the feature of the game. The Chicago pitchers could not stem the tide of hits chouted out by the Illinois in their next game Saturday at Urbana.

STAR HURDLERS COMPETE AT IOWA

Werner of Illinois and Guthrie of Ohio State Expected to Decide Supremacy

At the Big Ten Track and Field meet scheduled for the Iowa field this Friday and Saturday as classy array of hurdlers as has ever been seen on a Big Ten Track will perform for their respective followers.

Guthrie of Ohio State and Chick Werner of Illinois are the class of the conference as hurdlers deluxe. These men have sought to assert their superiority over each other all season with neither man having the edge so far. The coming race between these two men should be a real classic.

However, these two star performers will not be allowed to carry off supreme honors without stiff competition from other sterling conference hurdlers. Bab Cuhel of Iowa, Patterson of Minnesota, Voelker of Michigan, Beanzel of Indiana, McKinney of Chicago, all will have something to say about who will capture the hurdle races.

The Iowa flash tied the conference record in the low sticks in the Iowa-Illinois dual meet two weeks ago, the record, incidentally, having been set by Charles Brookins, famed Iowa timber topper. Cuhel is not so skilled in the high sticks and is not expected to give Guthrie and Werner as much competition in that event as in the lows.

Students of Brigham Young university observe a music week.

FRESHMAN TENNIS SQUAD TO BE CUT

Men to Enter in Competitive Play-off—Four Numerals to Be Given

The Frosh tennis squad enters the last open competition for numerals this week. Forty men have still been turning out for the matches in the peg tournament, and next week the squad will be cut to the eight men who remain in the lead. Yesterday the yearling racquet wielders scrimmaged with the Varsity net men; the practice being played in the form of matches between the individual men.

The eight men who remain on the squad next week will continue a competitive playoff of four matches each to decide who will receive the four numerals to be awarded. Gale, Cornell, Flannigan, James, Peterson, Gibbs, Craigie, and Edelman are the eight leading players at present, but there is a possibility that these standings will be changed during this week.

Freshman tennis material has been exceptionally good this year, according to Coach Harold Taylor, and the leaders have emerged from strong competition. Gale and Cornell who top the list at present, finished second in the state doubles tournament last year and represented Minnesota at the national tennis meet in Boston.

Gusties Swamp Teachers, 20-3
Gustavus Adolphus college swamped the St. Cloud Teachers' college, 20 to 3. The tutors failed to score until the eighth frame, when they ran in three runs. Despite the one-sided score, Coach George Myrum of the Gusties used three pitchers in the fray, starting Nordstrom on the hill and following him with Olien and

CARLETON SENIORS HAVE BUSY WEEK

Class Meetings, Dinners, Luncheons and Parties Planned for June 12, 13, 14

Seniors at Carleton college, Northfield, Minnesota, are looking forward eagerly to their commencement week, with the announcement of the program arranged for their final three days at the school at which they have spent the last four years.

Class meetings, campus theatrical engagements, luncheons, dinners, parties, athletic events and major commencement exercises are all on the busy social program of the departing students.

Sir Robert Falconer, president of the University of Toronto, will deliver the commencement address at 3 p.m. Monday, June 14.

The program for the closing days of commencement week follows:

Saturday, June 12—12 noon, society luncheons and reunions; 3 p.m., college play; 5:30 p.m., society luncheons and reunions; 8:15 p.m., concert in the Skinner Memorial chapel.

Sunday, June 13—8:30 a.m., class breakfast and reunions; 10:30 a.m., baccalaureate service with sermon by Ambrose White Vernon, D.D., L.L.D., professor of biography, Dartmouth college; 4:45 p.m., organ recital; 6 p.m., informal supper and sing in the Gridley Quadrangle; 8:15 p.m., Margaret Evans Huntington memorial service.

Monday, June 14—9 a.m., board of trustees meeting; 9:30 a.m., Senior Class Day exercises; 11 a.m., alumni reception for Professors Herbert Couper Wilson and Isabella Watson, alumni members of the faculty retiring from active service; 12 noon, alumni luncheon and business meeting; 2:45 p.m., academic procession; 3 p.m., commencement exercises; 6:30 p.m., college dinner in the Sayles-Hill gymnasium; and 9:30 p.m., campus illumination.

S. D. ALUMNI DAY PLANS BALL GAME

Contest Between Faculty Members and Student Champions Arranged

As the feature of the annual alumni day held at the University of South Dakota during commencement week activities, a baseball game which has more than ordinary interest attached to it has been arranged for the benefit of the "old timers" and the recent alumni who return to their alma mater for the celebration of the time-honored day.

The cause for the great interest in the game is the fact that the all star team composed of only members of the university faculty will battle for supremacy with the student team, winner of the world series, which is the contest between fraternity and non-fraternity members.

A challenge has been broadcast by L. B. White, of the journalism department, who is managing the college paper calls "Iron Man," will try to fool the student batters from the mound, while C. A. Hunter, college catcher, will take his offerings.

Frank Ward, a veteran of an Iowa league, will hold down the first sack; while Coach Vince Montgomery will handle the second. W. D. Powell and C. T. G. Stripe, both vets of the diamond, will complete the infield.

In the outer gardens will be R. O. Shoe, H. H. Day and H. S. Schell.

Students From 22 High Schools at Rochester

Enrollment figures of the Rochester Junior college disclose the fact that students from 22 high schools situated in various sections of the state of Minnesota are in attendance at the present time at the Rochester Junior college.

A survey conducted at the institution showed that a total of 65 per cent of the student body are partially self-supporting. Figures also show that eight per cent are wholly self-supporting, while six have other dependents upon them for financial support.

Thirty-four students enrolled in the college would have been compelled to delay entering college if there had been no local junior college, the survey showed.

That Rochester's fame as a medical center was not overlooked by the students was indicated by the fact that medicine led in the professions that had been definitely selected, with dentistry next.

\$1000 Fellowship Given to Pierre, S. D., Co-ed

To miss Cassil Heggland of Pierre, a member of the 1926 graduating class of Dakota Wesleyan, is awarded a \$1,000 fellowship, plus tuition, at the New York school of social work, it was announced here today. This is a graduate professional institution affiliated with Columbia university. Miss Heggland was selected from candidates all over the country.

Queer Churn-like Affair Found on Shore of River

Crowd Examines Abandoned Model Invented by J. W. Ingesson to Utilize River Current for Production of Electrical Power

Down near the municipal docks, just across the Mississippi river from the campus, lies a long, large screw or churn-like affair, built of quarter-inch strips of oak to a diameter of five and one-half feet and a length of 35 feet.

A crowd yesterday examined it thoughtfully. "Too big for a propeller, but it may be a suction pump of some kind. At any rate it's a mighty clever piece of work," they decided.

The mystery of the thing has been cleared up by George Medvic, resident of the river flats, who with two other men, built the screw.

Several years ago J. W. Ingesson, then a pastor in North Dakota, got an idea on how to utilize the current of a river to produce electrical power.

Coming to the cities, he had a model built of sheet iron. The model consisted of two tanks, below which were hung on brackets a pair of miniature screws. The water would drive the screws, the screws would drive gears, and the gears would drive generators.

In company with two engineers and Medvic, who was then in his employ, Mr. Ingesson put the model to a test. It worked fine, and by computation it was decided that an economically built screw would develop 50 horse power in a three to five-mile current.

Material was ordered and the three men were put to work in a vacant garage at Tenth and Franklin to construct the original screw. For over three months the three men worked, ten hours each day, laying slab upon slab of three by one-quarter inch oak strips in spiral shapes around a three-inch oak core.

Mechanical precision methods failed and the men were given orders to "put her together anyway." As the work progressed, the men contrived crude, yet efficient gauges for their work, and finally reached a point where they could lay four strips a day, and bore the holes, through which bolts would be passed later.

Gradually each of the four great wings of the screw, with its 120 individual strips of oak, was completed. The barge under which the screw was to be hung was ready. But the river failed to live up to specifications, which called for a ten-foot draught and five-mile current.

The work lagged, the screw laid on its supports on the river bank, and some young lads cut the tow lines of the barge.

All this was in the fall of 1918. Today the screw still is there in all its mystery, 35 feet long, 5 1/2 feet through, and comprised of almost 5 miles of 3/4 inch oak strips, cunningly put together. The barge lies along the Lake street bridge.

It is believed that Mr. Ingesson, still the owner of the screw, barge, and extensive patent rights, is running a small farm near Robbinsdale.

'U' ASTRONOMERS WRITE FOR PAPER

Francis Leavenworth, Louis Berman Contribute to National Journal

Francis P. Leavenworth, professor of astronomy, and Louis Berman, graduate student in astronomy, have combined in writing an account for the "Astronomical Journal," of the computation of the orbit of an asteroid.

This asteroid was discovered by George Van Biesbroeck, eminent astronomer, who sends the data to the astronomy department here.

This astronomical one of the outstanding journals of astronomy in America, and its records and discoveries reach all the astronomical points of United States.

Mr. Berman has had his work published in the journal before. He is the only student majoring in astronomy and has received the departmental scholarship. Professor Leavenworth's work in his specialization of measurement of double stars receives a great deal of attention from the journal.

Van Vleck Receives National Prominence

(Continued from Page 1) nis, attempts the flute, and when the faculty dancing club holds their frequent meetings one can find him prominent there.

The instincts of the young student shows itself in Mr. Van Vleck's interest in the latest developments in science. The quantum theory, one of special lines of study, is one of the two outstanding developments in theoretical physics, the other being the theory of relativity developed by Einstein.

The quantum theory, says Mr. Van Vleck, was developed primarily by Planck and Bohr, and deals with the radiation emitted within the atom. It represents the first successful attempt to predict theoretically the colors (wave lengths) of the spectral lines emitted by the various chemical elements.

The book which Mr. Van Vleck has written on the subject is the latest of a series of bulletins on current physical problems which has been published under the auspices of the National Research council. His book is intended for the use of graduate students in physics and contains reference to over 250 different authors.

With a record that lies principally in the field of theoretical research, Mr. Van Vleck also has done great work in the classroom. He is principally a teacher for advanced and graduate students.

Besides his recent book which was published as a report of the national research council, Mr. Van Vleck has published many other works since he has been at the University. On the strength of several of these he was elected to Sigma Xi, honorary scientific fraternity, in the year following his appointment to the faculty at Minnesota.

His works include such highly technical subjects as a work on "Temperature Variations of the Specific Heat of Hydrogen," another on "The Normal Helium Atom and Its Relation to the Quantum Theory," "Quantum Conditions," "Absorption of Radiation by Multiple Periodic Orbits," and "The Correspondence Principle of Absorption."

Descending from two generations of scholars in mathematics and science, Mr. Van Vleck has perhaps inherited some of his great liking for these subjects and his habits of study. His father, E. B. Van Vleck, is now head of the mathematics department at the University of Wisconsin. His grandfather was professor of astronomy at Wesleyan university, Middletown, Mass.

The younger Van Vleck studied at the University of Wisconsin where he graduated with a bachelor of arts degree in 1920. He went to Harvard the next year where he obtained his master of arts degree in 1921 and his Ph. D. degree a year later. He was made an instructor in physics the following year and was teaching there when he was asked to come to Minnesota. He came to the University as assistant professor of physics in 1923 and has held the position since.

In his short work in the scientific field he obtained comparatively great prominence and is a member of several scientific organizations. Besides Sigma Xi, he is a member of the American Physical society, the committee on ionization and potential in the National Research council, the American Association for the Advancement of Science, and the Optical Society of America. Besides these scientific organizations he is a member of Phi Beta Kappa, honorary academic fraternity, and Gamma Alpha, graduate fraternity.

10 Students at Michigan State Arrested in Riot

Ten students of Michigan State college were arrested and fined \$40 for participating in a riot staged by students in celebration of their first baseball victory in ten years over the University of Michigan.

The celebrating students built bonfires in front of the fire department and the capitol building in Lansing before police could restore order. Police and firemen extinguished the blazes, and were jeered by students who refused to disperse. This clash with the police occasioned minor fights with the students with the result that several students and officers were injured.

After the leaders were jailed, the students formed around the jail and demanded the release of those held. When they were not released, they retired to the campus and continued their celebration by burning the centerfield bleachers at Michigan State. The students who participated in the melee have been placed on probation for the rest of the college year.

Robertson New Head of Gamma Epsilon Pi

Officers for the coming year were elected at the election tea which Gamma Epsilon Pi, national honorary commerce sorority, gave for the University Business Women's club Tuesday afternoon.

Grace Robertson will act as president for next year, while Marie Ekstrom is the new secretary, and Aileen Stubbs will be the treasurer. The board of directors will consist of Marion Knudson, Thelma Herter and Harriet Zuppinger.

Seven track stars will be lost through graduation at Stanford University this year.

Stiffy Sez: Here I sit trying to think when I ought to be out hollering Fore! Guess I won't think.

CAP-GOWN FINAL BANQUET TONIGHT

Seniors Choose Spectacles as Favors for Traditional Meeting in Union

Spectacles, symbols of seniority and scholarship, will be distributed as favors at Cap and Gown's traditional final banquet tonight in the ballroom of the Minnesota union.

A special blues chorus will be the feature of the entertainment program. Frances Coleman, Katherine Grill, Elizabeth Schmitt, and Corice Woodruff compose this chorus. A dance act and a skit will complete the program. Speakers will be Dean Anne Dudley Blitz, Izzetta Robb, Helen Caine, Minnette Crouch and Winifred Lynskey. Barbara Harris, president of Cap and Gown, will preside as toastmistress.

Lulu Hanson is in charge of general arrangements, and is being assisted by Sybil Tompkins, Jean Cotton, Sara Jane Olin, Ruth Crandall, Eleanor Abbott and Dorothy Hosking. Tickets are on sale in the booth in the post office or in the lobby of Shevlin hall.

Member of Parole Board Writes Defense of Body

Minnesota Law Review Prints Article by Henry C. Swearingen; Professors Anderson, McClintock Contribute

In defence of the Minnesota State Board of Parole as an organization which tries conscientiously to protect society, Henry Chapman Swearingen, member of the board and minister of the House of Hope, Presbyterian church, St. Paul, has written one of the leading articles in the May issue of the Minnesota Law Review, journal of the State Bar association, just out.

The two other leading articles in the Review are by professors of the University. William Anderson, professor of political science writes on "The Extra-territorial Powers of Cities," and Henry L. McClintock, assistant professor of Law, on "Conflict of Laws as to Contracts: Minnesota Decisions."

"The system of Indeterminate Sentence and Parole is not new," Mr. Swearingen states in his article under the same title. "Neither was it born in the minds of hair-brained theorists. Boards of control and other governing bodies, wardens and superintendents of prison and prison physicians are among the chief advocates of the system."

He traces the origin and growth of the board from its beginning 37 years ago; he gives the details of its organization and make up and shows its duties as a parole board.

In defending it against political charges he says, "The smell of politics has never been detected on the garments of this board. Among all the criticisms leveled against it in the entire 15 years of its service, no responsible person has ventured to charge that the Board of Parole has ever been swayed by political, social or business consideration."

Parole, he writes, is nothing more or less than "testing" of an inmate's conduct outside of the institution and under as favorable conditions as can be created for him before the state removes from him entirely its hand of penal authority.

"An inmate on parole is just as truly a prisoner as one who is behind the bars. He is still a ward of the state."

When a man is paroled he is not released until a job has been secured for him and the board sees to this task. There are certain places he must not go, Mr. Swearingen states, there are things he must not do and a violation of these forbidden things means a return to the institution from which he was committed.

"Any plan which will wield reason-able assurance that a good proportion of prison inmates will never go back, has accomplished something of the highest importance for the safety of society. The records go to show that such a result is being achieved, particularly here in Minnesota."

In conclusion of the article, Mr. Swearingen writes that the Board of Parole for Minnesota neither offers alibi for its mistakes nor seeks to escape responsibility for any of its actions. It asks only that it be judged in the light of definite knowledge of all the facts in cases under dispute.

PHARMACY COLLEGE GIVEN HIGH RATING

New Jersey Board Chooses 24 Schools in Country on Approved List

The College of Pharmacy of the University of Minnesota has recently been placed on a list of 24 pharmacy schools in the United States which are approved by the New Jersey State Board of Pharmacy.

Out of the 90 schools of pharmacy in the country a certain number are elected to the American Association of Colleges of Pharmacy, and it is out of this group, to which Minnesota belongs, that the best have been chosen. The high graduation requirements of this college, according to a recent report, are also a basis for the honor, as a three-year course is required. A four-year course will supplant the three-year course next year, but the 170 students now enrolled will be allowed to finish as they enrolled.

Increasing of the requirements for registration and licensure by many of the colleges of pharmacy in the country prompted the investigation.

Pi Kappa Alpha formal will be held May 28 at the Lafayette club. George Russell and Don Templeton are in charge of the plans.

Phi Kappa Sigma will hold their house party May 29 and 30 at the Dahl's house at Chicago City. Cleary Fredell is in charge of the general arrangements.

Chairmen of other committees are Evelyn Bergstrand, refreshments; Lila Binnie and Marjorie Sanders, entertainment; Marjorie Fitch, decorations; and Violet Lippard, posters.
