

# THE MINNESOTA DAILY

VOL. IX.

THE UNIVERSITY OF MINNESOTA, TUESDAY, OCT. 1, 1907.

NUMBER 11

## SENIOR CLASS ELECTION PROMISES MUCH RIVALRY

John Ray Sets October 4th for Senior Election—Names of Candidates Announced.

Friday, the 4th of October, is the time set definitely by President Ray for the Senior Class election.

With the announcement that the time of election is but four days away, consternation has spread among would-be senior class presidents. Several are known to covet the honor, but everyone up to the present time has tenaciously withheld his name. With the realization that to win spells "get busy," the political pot yesterday began boiling furiously.

Four names were mentioned for the presidency. They are Chester Wilson, H. H. Morse, Charles Remer, and Winslow Elliot. It is probable that several others will announce themselves as candidates to-day or to-morrow. No one has yet come out for the offices of vice-president, secretary or treasurer. The little bee is due to sting candidates for these positions to-day. It is thought that John Ray will likely fall heir to the position of sergeant-at-arms without opposition.

The Juniors are getting active and their election off before getting into the limelight. No candidates have yet been mentioned, but the ambitious members of the class will no doubt appear in due season.

## NEW MEMBERS NAMED

Nine New Men in Musical Organization—The Names.

Last week the University Mandolin Club held its annual tryout and the musicians who were successful in the contest are named. Mandolin, E. W. Johnson, C. G. Watrous, S. W. Reasoner, B. H. Rogers, H. Brucholtz; guitar, A. R. McFarlane, C. H. Wash; cello, Edgar Allen.

Many of the old men are back this year; among others, Earl Huntley, Will Simmons, Roy Campbell, Arthur, Mallory, Walter Mallory, Louis Diamond, Krushke, Costello, Gessell, Foulke, Thompson, Hoyt, McGrew, Ralph Knight (Manager), Jack Haynes (director).

The club is prospering beyond expectation this year. More guitar players, another cello and a violin soloist are still wanted. Any one desiring information as to these places can drop a note in box 1786.

## ATTENTION.

We want a few good solicitors for the Minnesota Daily, and we are willing to pay for good service. For the largest subscription list made by 5 o'clock Saturday, Oct. 5, we will pay a special unconditional prize of \$5.00 in gold. Call on the business manager at chapel time if you can use money.

Albertina Hall, '10, is attending the Normal School at Stevens Point, Wis.

## DR. WILLIAMS DISCUSSES THE FOOTBALL SITUATION

Football Team Works Under Difficulties—Ittner, Vita, Case Badly Needed.

Dr. Williams is laboring under difficulties. At least so it is claimed by those who have secured admittance into the secret mysteries of Northrup field. But a week and a half remains before the team will play its first game, with Captain Schuknecht the only "M" man in the bunch and with probably a portion of the team with almost no football experience.

The conference rules forbid alumni games, and the second team contains no seasoned men, so that there are no players of experience for the new men at Dr. Williams' disposal to work out against. As a result, Williams says progress is very slow.

"They don't learn much about football working against men even greener than they are," says "Doc." "We are up against it in this respect: The only way out of the difficulty is for the old men now in school who are barred on account of conference rulings, but who have had lots of experience, to get out and work with the scrubs. Otherwise it will be a very green bunch which meets Ames a week from Saturday, and not much better a week later."

It is a thankless task which Williams can offer to the old "M" men who are out of the game as far as interscholastic contests are concerned. It means many a hard bump.

(continued on third page)

## DENTS SPREAD OUT.

Tooth Pullers Get Branch House on Washington Avenue.

More room will be made to accommodate the Dents. The brick store and flat on Washington Ave., S. E. between Church and State Sts. has been bought by the University and will be used for a dentistry building. Remodeling of the structure will be begun in about a month.

## LOCKERS SOON HERE.

Unceasing care and trouble has been Dean Downey's motto in providing fixtures for Folwell Hall. The lockers, which are now on their way, are the very finest procurable. They are to be of steel construction with triple locks, that is, one turn of the key slips three locks at the top, centre and bottom of the door. These lockers are well ventilated but dust-proof. Another desirable feature is the size. They are five feet high with a sixteen inch door for coeds, and a twelve inch door for men. They will be installed in the basement and ready for use by October 15th.

Sarah Preston, '07, was visiting college last week, and she says that she is learning to cook. Some of these girls must have an object in view who are getting so industrious in household ways.

Rose Marie Schaller, '07, was visiting on the campus Saturday.

Earle Buell, '10, is in Grand Forks, N. Dak.

Elizabeth Fairfield, '07, is principal at the Brown's Valley High School.

## ENGINEER POLITICS DEAD; FOOTBALL TEAMS DEVELOP

Editors of Year Book Solicit Student Contribution—New Features for Engineers' Society.

Class politics, as far as the senior engineers are concerned, seem to be dead. No one has announced himself for any of the class offices and no one seems to care whether there is a class election or not. In all due time however it is expected that the senior engineers will bestir themselves and set the political pot bubbling.

The senior electrical and mechanical engineers' football teams are busy practicing. The electricals were seen running through light signal practice Saturday morning and while their team work is crude they have the material for a formidable aggregation. The mechanicals seem to intend to rely more on foot work and open tactics and have spent most of their time running under punts. The schedule of games is not yet ready for publication.

One of the features of the Engineers' Year Book for this year will be the student contributions. If any student has any engineering ideas that he would like to see printed the editors would be glad to consider his contribution.

Regular meetings of the Engineers' Society will be held hereafter on the first and third Friday evening of every month. The program committee has several new features in mind which will be announced later. All who are interested are invited to attend these meetings.

You can help to make a better Daily if you will hand in personal items, bits of news, and your name for a year's subscription.

## LITERATI ELECT.

Various Womens' Literary Societies Choose Officers for Coming Year.

Theta Epsilon held a meeting Friday afternoon and elected officers to fill the vacancies caused by graduates. Myra Southworth was chosen vice-president and Mayfied Briggs treasurer.

The Acanthus Literary Society will banquet at Donaldson's tea-rooms next Wednesday evening. The society plans to study Wm. Dean Howells and Henry James this winter. Their election is scheduled to come some time within the next week.

The Thaliens at a preliminary meeting last Thursday elected the following new members: Elizabeth Starr, Margaret Buchanan, Helen Dean and Margret Deufeldt. The first regular meeting of the club comes next Thursday.

## NO EXPLOSIONS.

There will be no more explosions or odors of evaporating substances in Freshman chemistry, according to Miss Cohen.

Every pupil who causes an explosion will be suspended from the class. And every time a pupil evaporates a substance without using the hood, he will be fined 10 cents. The fund hereby derived to be used in buying new books for the library.

## OUTCOME OF TRIALS FOR EUTERPEAN CLUB ANNOUNCED

Mr. Scott Gives List of Successful Candidates for Euterpean Club.

After much deliberation, Prof. Scott has given out his decision in regard to the Euterpean Club trials. He says that there were so many good voices among the applicants that it seemed a pity the club could not have a larger membership. With a lot of good material the club expects to do some great work this year. They will put on a Japanese operetta and take several small trips thruout the state. The accompanist for the coming year is to be Gertrude Hull, who sang soprano with the club last year. The list of new members as given out by Mr. Scott is as follows:

### SOPRANOS.

Mary Tisdale, Anne Yorke, Margaret Knappen, Harriet McKenzie, Florence Buck, Bess Martindale, Dagny Knudson, Alice Smart, Helen Schutte, Maud Hyser, Florence Castner, Hedwig Bruhn, Marie Hodgson, ALTOS.

Ruth Harrison, Frances Demming, Catherine Crocker, Stella Greeley, Florence Buswell, Helen Painter, Georgia Yorke.

Besides these Mr. Scott has made out a waiting list of nine or ten girls who may be called on at any time to fill vacancies caused by non-payment of dues or failure to attend practice. The names of those on this list follows.

### ALTO.

Ethel Cosgrove, Clara Gleason, Ruth Bell, Marie Elmquist, Olivia Klossner.

### SOPRANOS.

Frances Lowell, Eva Sherwin, Portia Deming, Loraine Solon, Laura Hutchinson.

Regular practice will be held Thursday at 4 o'clock in Alice Shevlin Hall.

## DRAMATIC CLUB TRYOUTS TO-DAY AT TWO O'CLOCK

Everyone With Histrionic Talent Is Urged to Try for Place—Men Needed.

First trials for the Dramatic Club will be held in Dr. Burton's room in the library Tuesday afternoon from 2 to 4 o'clock. Only those whose names begin with A to H inclusive will be expected to appear. There is a special opportunity open for men.

Each person will be allowed from three to four minutes to give a reading. The committee before whom the prospective Thespians will appear is composed of Dr. Burton, Mrs. Potter, Miss Peck, Chas. Hensel, Elsa Ueland, and Clarence Harter.

## LIGHTS IN FOLWELL.

Members of the Literary Societies will be glad to hear that the illumination of the building will be finished by the last of the week. As yet the handsome assembly room, designed for their benefit, has been inaccessible because of no lighting facilities.

The freshman class at Syracuse numbers over 1500.

## MUSICAL SITUATION AT MINNESOTA.

W. W. Norton Discusses Needs and Prospects of the Local Clubs.

Realizing the lack of recognition of music as a strong educational factor in the University of Minnesota, a musical federation, comprising all musical organizations and interests at the university, has been organized. Its purpose is to concentrate our efforts in arousing an interest in music among the students, faculty and regents. Other universities recognize the educational value of music and as evidence of the same have a college of music with a faculty comprising from five to thirty teachers in the department. Its affiliation with a university makes its influence far greater than that of any independent school of music since its students are pursuing other branches related to the work in the college of music.

This branch of our work at Minnesota has not only been neglected but is hardly recognized. Mr. Carlisye Scott is the only instructor in the department. His work is of the highest character and has at last thru his patient effort received recognition in the university. But no credit is given for work in the Euterpean Mandolin Club or Orchestra, or Men's Glee Club. Other universities give credit for this work. Why is it not recognized at Minnesota? The musical clubs seem to be regarded as social institutions which do no real work. It is a misconception.

Other universities pay the men that play in the band. We lost a man this year to Chicago. That university will pay him \$150 for the year's work. The amount is small enough but it shows that they recognize the value of the work. Mr. Scott is not paid as he should be for his services. Mr. B. A. Rose has been offered three times the salary he receives here, to go to other institutions.

Although the federation was organized late last spring, the fruits of its work are in strong evidence this year as shown in the variety and amount of material which has been available for the different organizations. Mr. Scott tried out seventy-one voices for the Euterpean Club. The director of the Men's Glee Club and conductor of the "Messiah" chorus tried out some eighty voices and the most of the material has been found good. Mr. Haynes, director of the Mandolin Club is very optimistic. Mr. Rose feels that he has the best band prospects in many years. He will attempt work this year never before possible.

## ZOOLOGISTS TRAVEL

The members of the advanced zoology class, under the guidance of Dr. Sigerfoos, took an all-day trip to Lake Johannes last Saturday. Seven miles of the distance was traveled on foot.

Frank W. Peck, who left the '09 law class last spring, has spent a delightful half year in California and the West. He arrived in Minneapolis on Monday, but will probably not return to college.

fore possible.

The orchestra, tho organized only last year has come to the front remarkably. The leader, Elmer Bunce, is greatly encouraged. The playing of the "Messiah" will be a great study and the boys have shown unusual interest in anticipation of such a privilege. I understand that more violins can be used. They wish to have forty-five pieces in the orchestra.

We hope to see the time when the faculty instead of regarding this musical study as an encroachment upon the other duties, will regard it as a positive necessity in University training.

Altho our prospects are bright students are joining organizations outside of the university who ought to use their influence and strength in support of the local institutions. There is use for the talent of every one.

W. W. NORTON,  
Pres. Musical Federation.

## ENGINEERS STILL UNREGISTERED.

So far 426 engineers have completed their registration. This means their slips have been approved, fees paid, and class cards issued. Ten others are still in statu quo.

**THEATERS.**

"The Man of the Hour," at the Metropolitan all week, will be found interesting by the average theatre goer. In technique it resembles "The Lion and the Mouse," but is even better constructed than the Klein effort. The presenting company headed by Irvin Johnson and Frances Ring is a splendid one. It is of interest that the play's author—Mr. Broadhurst—was a former Minneapolis newspaperman and theater manager.

"The Volunteer Organist," at the Bijou. This old favorite is chock full of stirring climaxes, maudlin sentiment and far-fetched comedy, things which Bijou audiences revel in. The company is adequate.

Grace Van Studdiford, — former star in "The Princess Chic," "Red Feather," and with The Bostonians, heads an otherwise weak bill at the Orpheum.

"The Wife," one of David Belasco and Cecil De Mille's efforts is the attraction at the Lyceum this week. It will please the patrons of that house. The company is good.

**BONE SAWYERS WILL RAISE RUMPUS—MORE CANE RUSH**

Sophomore and Freshmen M. D.'s Will Exchange Buffets in Cane Rush To-day.

The annual Medic cane rush will be pulled off to-day on the Medical College campus. The officials are not fully decided upon yet, but Oscar Frykman will probably referee the boxing and wrestling bouts. Beard will be requested to officiate as referee of the rush.

The freshmen will strive to duplicate the performances of their academic brethren, but the sophomores are confident of being able to turn the tables. The sophs are counting on winning all the boxing matches. Tyrrel, who won his match last year, and Schmidt, whom Bandelin defeated by a narrow margin, are both counted upon as point winners. But the freshmen are relying upon a cousin of Joe Gans, who claims he can defeat any two sophomores, and, altho they boast not, their confident smiles bode evil for the chesty sophs.

Altho this will be a function of the medical department, it is announced that the affair will not be exclusively for medical students. Ladies from all departments will be welcome, and gentlemen who conduct themselves in a quiet and orderly manner will be tolerated. But any rowdyism, loud talking, or other infringements of medical decorum will be promptly suppressed.

**DR. WILLIAMS TALKS**

(Continued from first page)  
for practice is far more strenuous than regular play, and within the close locked portals of Northrop Field there is little applause for this class of work. But nevertheless it is a crying need which must be met at once if Minnesota's gridiron fighters are to show up in the best possible form when the heavy play commences. To be definite, it is up to Iltner and Vita and Case and Atkinson and any other man of football experience in school to get out and help teach Dr. Williams' proteges a few of the elements of the great game that "Doc" has taught these men in seasons past.

**FORESTRY STUDENTS GET UNIFORM.**

Forestry Freshman are full of funny freaks this year. Never before has a Forestry Class had so large a membership. And they intend to celebrate accordingly.

Members of the class will wear nifty corduroys, and high tan shoes. Samples of the former are being critically examined, but the future propagators of our forests are divided on the color question.

Some want green, and others won't have any thing but salmon pink. It will all be decided however, in a few days.

The class this year numbers about forty. This is about five times any previous year's enrollment.

**RELEVANT AND IRRELEVANT.**

Paul Kurtzman, '06, who has been spending the summer in the west, is seen again about college.

Wm. Kennedy, Sigma Xi, '07, is acting as assistant in the chemical laboratory at Boston Tech, where he expects to secure his M. S. degree.

James Maurice Doran, Sigma Xi, class of '07, has accepted a position as tester of foods in the U. S. revenue office at Washington, D. C.

Belle Wyman, '05, is studying music under Carlyle Scott.

**JUNIORS THINK POLITICS; NO ANNOUNCEMENTS AS YET**

1909 Political Pot Is Boiling at a Lively Rate—Developments Promised Soon.

Small groups of '09 men about the campus and in the corridors of Fowell Hall indicate that there is some thing going on in the junior political camp. No candidates have announced themselves, but rumors are many.

There is some talk that the juniors will wait until senior politics are of the boards, so it is hard to say just when the '09 slate will appear.

In the past two years there seemed to be but few 1909 men available for class honors. This year, on the contrary, strong material is actively in evidence, and the present situation forecasts an animated struggle for the offices in the gift of the class.

**RESULT OF CAMP AT LAKE GENEVA.**

An interesting Geneva rally was held at the Y. M. C. A., yesterday during noon hour. The success of this year's camp was brought out by the talks of the several members.

Out of a total Minnesota representation of 35 college men, 18 were from the University. This was the largest delegation which ever represented this institution.

The camping experience was a general triumph. In athletics, Minnesota in spite of small numbers easily outstripped her larger competitors. Uzzel Bros. won first honors in the aquatics; Drew of Hamline took second place in the track meet; Squire of the same school took first place in the tennis tournament; and the delegation as a whole held out in the semi-finals in base-ball.

#### WILL ARRIVE SOON.

Miss Margaret Burton, the new general secretary of the Y. W. C. A., will be here this week to begin her work. The new secretary has spent one year at Vassar and four years at Chicago University and has also taken up courses in Bible study which will fit her especially for her work here.

Miss Burton will reside at the home of Dr. Clark on Tenth avenue. She invites the women of the university to call and see her personally at her office in Alice Shevlin Hall.

#### SAVE 'EM.

Can you think of a better souvenir of your college days than a file of the Minnesota Daily. Save them all. Subscribe if you haven't already done so. We will give you the back numbers.

The First National Bank, Minneapolis located corner First avenue south and 5th st. invites students attending the University to open their savings bank account with the bank. Interest paid quarterly. Capital and Surplus, \$3,850,000.

#### GEROULD PRESIDES.

On Friday and Saturday of last week, the State Library Association met in St. Paul. Professor Gerould of the University library presided at the meeting of the State normal and college section. The subject of the address delivered was "Aspects of Cooperation between school and library."

#### HERE IS THE PROGRAM.

- \* Sen. Robert La Follette. Oct. 18.
- \* John Kendrick Bangs, Dec. 11.
- \* The Messiah Jan. 25.
- \* F. Hopkinson Smith Jan. 25.
- \* Dr. Frank Gunsaulus Feb. 21.

#### MATERIAL IS RICH.

Wide Opportunities for Selection of "Messiah" Parts—First Rehearsal a Success.

Seventeen tenors and fifteen basses were present at the first rehearsal of the "Messiah" last Friday night. Feminine voices were not so well represented, but forty-four sopranos and thirty-one altos have been selected from the number who tried out. Thirty-four tenors and forty basses have been chosen from the men.

The material is considered especially rich in tenor voices, which are usually scarce and difficult to obtain.

Negotiations are being carried on with a contralto in Toronto who has been engaged to sing in both the "Elijah" and the "Messiah" in that city. The tenor soloist will undoubtedly be selected from material in Kansas City, while the Twin Cities afford a sufficiently wide field for the selection of the soprano and bass soloists.

The next rehearsal will be held Thursday in Chapel from 8 to 9:30 p. m. and a full attendance is desired.
