3:00-3:30 Narratives

Prompts: How do you connect with your former students or your former college teachers? How does your alma mater connect with you? What is *your* Citizen Alum story?

3:30-4:00 Connecting Citizenship to Our Work

Move from stories to a discussion of your work identities and roles. “What do you need to fully activate the roles and the projects that really matter to you?” (Sylvia Gale). As your team moves forward with Citizen Alum, what big ideas will guide your decisions about what projects to pursue and what organizations to work with?

4:00-5:00 Team Vision/Action Statement

Different constituencies on your campus—and different people on your team—will use different terms for building democratic institutions and communities. Or they may use the same word (“engagement”) to communicate different meanings. This part of the session asks you to work together to state what you will do in 2013-2014, while thinking about how you will articulate your goals and aspirations for the coming year.

5:00-6:00

Team Report-Backs & Wrap Up

Each team will briefly report on their progress from Session I.
Daily diary: Final thoughts at the close of day one.
