

THE MINNESOTA DAILY

PLAY BY DRAMATIC CLUB SUCCESSFUL

The play "Pillars of Society" given yesterday afternoon at the Lyceum by the Dramatic Club was a decided success, and was given with much better effect than any play that the club has yet attempted.

In the first place, it was a more serious play than any the Club has given before and contained more power of plot, and more dramatic situation. The students succeeded in handling the difficult emotional scenes very successfully and also in completely holding the audience.

All the actors seemed to have thoroughly mastered their parts, and these parts were so well taken that the cast proved itself an "all star" one. Altogether the play showed no signs of amateurism.

The leading roles were so clearly cut as to be especially praiseworthy.

George Walker acted the part of the leading man in a truly professional way. David West succeeded in giving a good portrayal of the Consul's younger son. Frances Chamberlain made a decided success of the exceedingly difficult part of Mr. Bernick's sister, and Cornelia Hollinshead showed real genius in the role of Lona Hessel.

RAIN INTERFERES.

Spring football practice will continue when weather improves.

In answer to the call for men for spring football practice quite a number turned out Monday afternoon and went thru a light practice under the direction of Captain Currant.

Kicking and passing the ball were the main things indulged in.

The weather since has been of such a character as to necessarily stop all practice for the time being at least; but it will be continued as soon as the weather will permit.

FACULTY-SENIOR GAME.

The Faculty-Senior baseball game has been postponed on account of the bad weather. It will probably be held the first of next week.

MISS PECK ENTERTAINS.

Reading of Ibsen's "Doll House" by Miss Dearborn.

Last night the members of Miss Peck's modern drama class and the students taking the Teachers' Course were royally entertained at Mrs. Potter's home.

During the evening, Miss Dearborn read Ibsen's play, "The Doll House." Every one of the fifty girls present report a delightful evening.

WILL WED.

Announcements are out for the marriage of John Hawett, '04, and Miss Della Frykholm of Buffalo, Minn., next Thursday, May 18.

Mr. and Mrs. Howett will make their home in Washington, D. C.

DENTS' EXAMINATION.

The State Board of Dental Examiners will meet in the Medical building at 8:15 a. m., June 6 and 7.

The Senior Dents will take their written and practical examinations at that time and the clerk would like to fill about 150 more appointments for gold filling.

There will be a similar opportunity for free dental work on June 1, 2, and 3, when the State Society of Dental Practitioners hold their convention at the University.

EAST vs. WEST.

Probable that track meet will be held between winners.

It is probable that arrangements will soon be made for holding regular intercollegiate track meets between the winners of the big eastern and western contests.

The track men of the eastern and western universities have been corresponding with each other for some time, and it is thought that plans will be further discussed at the next meeting of the intercollegiate track association at New York.

The present plan is to hold the games in the east one year and in the west the next. It is said the western universities will do all they can to make these meets possible.

FREE CONCERT TO BE GIVEN FRIDAY

A concert will be given on the campus by the band early Friday evening if the weather permits.

A good deal of popular music is included in the repertoire of the band, besides heavier pieces, so all tastes will be suited.

The plan is to hold a concert each week till school is out and with fair weather their success is assured.

ENGINEER NOTES.

E. D. Jackson, E. E. '05, has accepted a position with the Bullock Electric Mfg. Co., Cincinnati, Ohio.

Geo. L. Andrews, M. E. '05, has designed a large Brakett cradle dynamometer and is constructing it now in the mechanical shops.

For our Mechanical Engineering graduates there is a demand by the railroad companies which exceeds the supply. Among those who will follow this line of work are H. Gerrish, who will enter the service of the Milwaukee and Frank Cutter whom the Wisconsin has secured.

NOTICE '07 GOPHER BOARD

There will be a meeting of the '07 Gopher Board at 1:30, Friday in Chemistry Building, Room 11. All members must be present.

FOR IOWA DEBATE.

Preliminary contest for places on team comes October 15.

The preliminary contest for places on the Iowa Debating team will take place about October 15. The question to be debated is as follows:

"Resolved, that the United States should establish a fiscal protectorate over any West Indian, Central or South American republic which shall manifest a chronic failure to meet its foreign financial obligations.

Granted, that neither these republics nor any other foreign nation would object."

The tryout is open to all, and it is urged that preparation be made during the summer. Iowa has the affirmative. The prizes are \$60, \$40, and \$25, with \$50 additional to each member of the team if the debate is won.

LECTURE ON RUGS.

Mrs. Mary Beach Langton of St. Paul, who has written a book on oriental rugs, will give a very interesting lecture on the subject in Prof. Hall's lecture room in Pillsbury Hall, at 4 p. m. to-day.

MASS MEETING IS CALLED TOMORROW

TO WORK UP ENTHUSIASM FOR TRACK TEAM ATHLETES.

Coach Holland of Northwestern arrives with fast bunch tomorrow.—Dean Jones will preside.—Rain prevents hard work by squad, but track should be fast.

A mass-meeting will be held tomorrow in Chapel for the purpose of raising some enthusiasm for the coming meet to be held Saturday with Northwestern.

Dean Jones will preside. The following men will speak: Dean Downey, Nachtrieb, Harding, Stringer, Pierce, Captain Murphy, and Doctor Williams.

Coach Holland of Northwestern University with his bunch of track athletes will arrive in this city tomorrow morning.

The men who come with him are all reported to be in fine shape and Minnesota will have to be at her best to win over them. Some of the visitors will probably be in chapel tomorrow at the proposed mass-meeting, if they arrive in the city early enough.

This week's rain has been both beneficial and otherwise. It has proved a severe check to the progress of the track team, while on the other hand it has put the cinder path in remarkably fine shape. It has packed solidly and as soon as it has once been rolled, it will permit of the fastest kind of time on Saturday.

Doctor Williams is at present applying the finishing touches to the men, and seems very hopeful for the outcome of the meet.

Three men will be allowed to start for each team. Those for Minnesota will be picked from the following list of men:

Dashes—Dougherty, Shedd, Robertson, Hunter and Redman.

Quarter-mile run—Murphy, Malmgren, Robertson, Shedd, Hunter, Tierney, Dougherty and Martin.

Half-mile and mile—Greaves, Ellison, Smith, J. Dougherty, Pratt, Van Meter, Snyder, Colburn, Thayer, Freeman.

120-yard hurdles—Woodrich, Stubb, Kremer, O'Brien and Bohland.

220-yard hurdles—Sprague, Van Vorst, Shedd, O'Brien, Bohland, Ostvig, Robertson and Stubb.

Jumps—Norcross, Twidt, Edwards, Lammers, Miller, Jackson, Robertson, Stubb and Bohland.

Pole-vault—Lammers, Powell, Jensen and Pryor.

Shot-put and hammer-throw—Vita, Ittner, Kremer, Davis, Stensvad, and Carey.

Discus—Brown, Kremer, Davis, Smith, Ittner, O'Brien.

Relay race—Robertson, Murphy, Malmgren, Shedd, Hunter, Dougherty, Tierney, Redman.

The interest in this meet is exceptionally strong and undoubtedly it will bring out the biggest crowd that has turned out this spring.

The track men are particularly pleased with the idea of a mass-meeting Friday as they feel that any such show of interest and backing by the students will be a material aid in winning the meet.

WILL BE THE LAST.

On Friday afternoon the Engineers Society will listen to the last of the series of addresses by prominent practicing engineers.

Mr. Charles L. Pillsbury of St. Paul, will lecture on "Shop Driving by Electric Motors," in Dr. Frankforter's lecture room, 2:00 p. m., Friday.

TO ATTEND CONFERENCE.

Four delegates have been elected by the Y. M. C. A.

John Ray, J. M. O. Gudal, M. L. Steward and Wm. O. Tuthill have been elected student delegates to the Lake Geneva Conference to be held at Lake Geneva, Wis., June 16 to 25.

This is one of the seven annual Conferences of the student Y. M. C. A.'s of the country, and fully 500 college men will be present.

E. W. Peck, state secretary of Minnesota will have charge of the music and take a prominent part in the program.

The Kappa Sigma fraternity will give its formal party Friday night, at the Minnehaha Club house.

MAJ. MORGAN TO PURCHASE SWORDS

Major Morgan has made arrangements with the War Department to purchase all the swords and belts now owned by cadet officers.

These will be loaned to those who receive commissions next year.

As the sword and belt item amounts to between 15 and 20 dollars apiece it is probable that many cadets will return as officers next year to the cadet corps who would otherwise be unable to do so.

Monday and Tuesday over two hundred cadets took the annual spring examinations for next year's promotions. There will be a large number of vacancies to fill and they will be announced next week.

YEAR-BOOK OUT THE 20th.

Volume XIII of the Engineers' Year Book will soon be ready for distribution to the engineering public.

Following is table of contents: "Flennro in Reinforced Concrete Beams," by Professor Constant, ably discussed "in the light of recent research."

"On Oil-Gas Plant," by Mr. R. S. King, treating the manufacture of gas ("Greasd Air") from crude oil.

"A Modern Railway Test," by Messrs. H. E. Cornish and H. C. Cutter, describing and illustrating complete tests on freight and passenger trains.

"Modern Street Railway Power House Equipment," from the designer's standpoint, by Mr. L. H. Scofield, Chief Engineer for the Twin City Rapid Transit Company.

"Steam Separator Tests," by Professor Wm. H. Kavanaugh, giving a complete and concise discussion of the subject.

"Civil Engineering," A. S. Cutter.

The board of editors: Editor-in-Chief, W. G. Adams; Business Manager, C. B. Smith.

Department Editors: Mechanical Engineering, A. G. Johnson; Electrical Engineering, A. E. Fairchild; Civil Engineering, A. S. Cutter.

TRIANGLE CLUB TO-NIGHT.

The Triangle Club will give a party tonight at the Nicollet Avenue Rink. Arrangements have been made for both roller skating and dancing, and frappe will be served.

Upperclassmen can be invited by the members of the Club. The program will begin at 10:30 and continue until 12:30. Tickets for admission are 75 cents.

ARE NEARLY GONE.

The management of the '06 Gopher reports that there are still two Gophers left, which are on sale at the post-office.

TO BE SUBMITTED TO STUDENT BODY

The following recommendations were made by the committee on student publications, to the faculty and were accepted by them.

At the mass-meeting which will take place tomorrow the student body will be asked to take the initiative in the matter and draw up some definite plans to be presented to the faculty. These are published so that the student body may know along what lines to work.

"To the faculty of the college of science, literature, and the arts:

"The committee appointed for the purpose of considering what duties should be discharged by the committee upon student publications begs leave to report the following recommendations:

"That steps should be taken by this faculty to bring about the establishment of a thoroughly representative auditing board, vested with authority to require reports and to audit the accounts of all student organizations which receive money from classes, colleges, the University at large or the general public.

"In our judgment, this board ought to consist of four faculty members and three student members. The faculties of the college of science, literature, and the arts, engineering, law and medicine should each elect one member. The student body in three of the colleges should each elect one member to serve for a period of one year, the privilege of choosing members to be enjoyed by the colleges of science, literature, and the arts, the college of engineering, the law school, and the department of medicine.

"(2) That the same steps should be taken for the establishment of University press bureau.

"(3) That the present standing committee upon student publications should be discontinued as soon as the projected auditing board and press bureau are in working operation.

"Respectfully submitted—Frank Maloy Anderson, Chairman; Wm. S. Schaper, Ada L. Comstock, John Zeleny."

GIRLS' TENNIS.

Winners of Varsity tournament to play Central.

The Girls' Tennis Club Tournament will be held just as soon as the sun finds it advisable to come out and stay out. The courts are all prepared, the girls are ready, the only necessary thing lacking is good weather.

One tournament will be held between the University girls and a second one between the winners of the first tournament and the girls tennis association of Central High School.

The Alpha Phi sorority will give an informal party at the home of Mrs. McLaughlin, Groveland Terrace, May 19.

PROFS GET RAISE.

Five of the professors have received a raise of \$100 in salary. They are Professors West, Eddy, Nachtrieb, McMillan and Flathers.

Monday night the Alpha Delta Phi's will have an informal gathering at the home of Don Taylor at White Bear Lake.

GREAT GENEROSITY.

The Business Manager of the '06 Gopher announces that all Juniors can obtain their Gopher cuts free of charge by calling at the Gopher Hole, Chemistry building during the fifth and sixth hours.

Are You Going to Teach School?

Many calls for teachers are coming in daily and we are looking for candidates to fill them. Our Minneapolis Office needs one hundred high school teachers at once.
Would you like a western position? Our Spokane Office is fairly "swamped" with calls for teachers and has comparatively few applicants. This is not merely a local agency.

No agency in the country gives more faithful service or secures positions for a larger proportion of its candidates than the Hazard Teachers' Agency. No other agency is filling so many of the northwestern positions.

A friendly call costs nothing. We shall be glad to discuss vacancies with you, and will tell you just what we can offer.

During April no Advance Fees Required of Class of 1905 if you mention The Minnesota Daily.

It will be up to the student body tomorrow to decide what will be done in regard to a faculty auditing committee.

It will be for the students to decide the number of men on this committee, how many there shall be from the faculty and how many from the student body. They must decide upon the length of term and upon the duties of the men.

The faculty has its own idea about the matter but must leave the final action to the students.

The plan is in the main very wise, but there is some question if there should not be a representative from each department named all the time, making four student and three faculty members.

As the Daily has before suggested, it would be very undesirable for the academic department from which the support for practically all these enterprises comes, to find itself absolutely unrepresented every fourth year.

LETTER FROM JEROME.

Prof. Haynes of the Engineering department has received the following letter from Charles W. Jerome:

My Dear Professor Haynes—You will permit me to send in my bit, tardy as the remittance is, for the floral decoration of the graves of the University student-soldiers of the Spanish War. Doubtless you have already made arrangements for this. When I was on the committee we found that by arranging a good while before we could get better prices on flowers and wreaths.

It is most wholesome and inspiring to the entire student body, chiefly—also, perhaps, to the faculty—to thus gratefully acknowledge the debt we owe to those brave boys for their service to their country and the honor-surpassing and all possible collegiate honors—that they have most really conferred upon their alma mater.

I was pleased to see, some time ago, a newspaper half-tone of that very artistic monument that you are fathering, to the student soldiers, living and dead. I am very glad that it is so artistic and lifted above the commonplace that decorate soldiers' cemeteries.

Most cordially yours, and with kind wishes for your own health, success and happiness,
As ever,
Charles W. Jerome.

Friday, May 26th, V Hour Classes.

Saturday, May 27th, VI Hour Clas-
ses.

Conditions.

Condition examinations for the re-
moval of conditions of the first semes-
ter will be conducted according to the
following program:

N. B.—A fee of \$1 must be paid by
students for each examination taken,
and no student will be admitted to ex-
amination until the said fee is paid.

Saturday, May 13, 4 p. m.—French,
German, Geology, Greek.

Monday, May 15, 4 p. m.—History,
Latin, Pedagogy, Physics.

Tuesday, May 16, 4 p. m.—English,
Rhetoric.

Wednesday, May 17, 4 p. m.—Mathe-
matics, Philosophy, Psychology.

Thursday, May 17, 4 p. m.—Animal
Biology, Botany, Scandinavian.

Friday, May 19, 4 p. m.—Astronomy,
Chemistry, Economics Drawing.

Conflicts.

If this program causes a conflict in
the case of any student the student
should take one of the examinations at
the appointed time and make arrange-
ments with the other department to
take the examination on another date.

N. B.—Students are allowed only one
chance to remove conditions, and in

case of failure to pass a condition of
the first semester will be held to take
the work over in class as in the case
of other failures.

A Complete Encyclopedia of Amateur Sport
Spalding's Official Athletic Almanac For 1906
Edited by J. E. SULLIVAN (Chief of Department of Physical Culture, Louisiana Purchase Exposition).
Should be read by every Minnesota student, as it contains the records of all Minnesota athletes and all amateur events in this country and abroad. It also contains a complete review of the Olympic Games from the official report of Director Sullivan and a resume of the two days devoted to sports in which savages were the only contestants, in which it is proved conclusively that savages are not the natural born athletes we have heretofore supposed them to be. This is the first time in which the athletic performances of savages have ever been systematically recorded.
This is the largest Athletic Almanac ever published, containing 300 pages. Numerous illustrations of prominent athletes and track teams.
Price 10 Cents
