No. 5.

ARE FIGHTING FOR PLACES

Many Open Places Makes Practice Games Very Spirited.

The first and second teams lined up last evening in a half-hour spirited practice. The game was characterized by frequent fumbling but considering that this is one of the first scrimmages of the year not much blame can be attached to them for this failing.

The practice started by kicking the ball around and then the two teams went through a spirited signal practice.

Many men were tried in the game and they all did their utmost to play their best. The following men were used on the first team: Davis and Van Valkenburg, right half; O'Brien and Bockman, left half; Liggett and Downing, full back; Harris, quarter; Tuck and O'Brien, right end; Thorpe and Downing, right tackle; Flynn and Thorpe, right guard; Pattee, McCarthy and Webster, center; Sanborn, left guard; Evans and Van Valkenburg, left tackle; Irsfield, left end.

McCarthy appeared on the field for the first time this year and appeared to do fair work on the second team. On the second down O'Brien broke away from the bunch and ran about thirty yards for a touchdown. He also was used, with good effect, to buck the line. Sanborn played a good game at left guard and showed up excellently for a new man. Davis smashed into the line several times and made good gains.

The boys are getting their soreness worked-out and by the time of the first game should be in very fair condition. The first game will be played a week from today with the Minneapolis and St. Paul Central teams. One half will be played with each team as was done last year. These first practice games go a long way in developing a team for the big games and they are always watched with a great deal of interest by the rooters.

Rally a Success

The I. O. O. F. Hall was filled to overflowing last night with students and East Side voters. Among the speakers who addressed the meeting were Fred M. Powers, Dr. Nelson, Representative Deming, George Gillette, Rev. Wilkinson, Judge Steele, A. H. Bright and Mayor Jones, who came to plead the cause of Alderman Chatfield.

Pillsbury Hall Improvements

A great improvement is noted in the large museum of natural curiosities. New shelves adorn the walls which have been newly frescoed. Specimens have been rearranged so as to present a more tasty appearance and on the whole the work is worthy of Pillsbury Hall.

The lack of room in this building probably prevents another greatly needed improvement. The fine large specimens tucked away in the glass cases are worthy of larger quarters. At present they do not show off to any advantage at all; and the first improvement needed should be the provision of large and commodious quarters for these fine articles.

SONG FOR THE MORNING

Nearer, My God, to Thee,
Nearer to Thee!
E'en though it be a cross
That raiseth me!
Still all my song shall be,
Nearer, My God, to Thee,
Nearer to Thee!

There let the way appear,
Steps unto heaven;
All that Thou sendest me,
In mercy given;
Angels to beckon me
Nearer, My God, to Thee,
Nearer to Thee!

ADDRESS TO THE LADIES

Association Room Crowded To Hear Prexy Northrop Yesterday.

The announcement that the regular meeting of the Y. W. C. A. was to be addressed this morning by President Northrop was responsible for the crowded room which greeted him. His remarks were helpful and earnest and especially appropriate for the occasion of the beginning of the school year. He spoke first of the old conception of Christianity, a mere passive recognition of certain creeds and doctrines, having none of that spirit of practical service which we have come to believe so absolutely essential now. True Christianity is essentially a spirit of divine love, manifested to those about us in countless ways. It is more of this love, found to such a perfect degree in Christ, that is needed in the world to-day—a love which enables us to love our enemies, to evince a spirit of charity and helpfulness to those around us, to influence others for good, and above all to draw us out of ourselves and rid us of the worm of selfishness and egoism, and it is just in so far as this love, emanating from us, influences others, that we are Christians and are following the example of Christ.

He closed with an earnest and stirring appeal to all to manifest more of that spirit of Christ-like love, for it is by helping and giving of ourselves to others that we ennoble our own characters and unconsciously become truer, better women.

The Catholic Association

The regular Sunday meetings of the U. C. A. will be resumed this year as usual with Rev. Father Moynihan of St. Paul Seminary as director.

The plan of work to be followed this year has not been announced as yet but will be similar to that pursued during the past year.

Owing to the fact that President Northrop is to speak next Sunday afternoon there will be no U. C. A. meeting called for that date. The season's work will commence on the following Sunday, Sept. 21st, at which time the plans for the year's work will be outlined. Watch the DAILY for further announcements.

The members of the Association are congratulating themselves on having secured Father Moynihan to take charge of its meetings again this year. The lectures given last year were of a high intellectual character and both interesting and instructive to those who were so fortunate as to hear them. That they were appreciated by the students of the University was evidenced by the large regular attendance from Sunday to Sunday.

UNIVERSITY MEN RUNNING

Three Prominent Alumni Among the Candidates for Nomination at Primaries

Three prominent alumni and staunch friends of the University are among the candidates for nomination at the coming primaries. Hon. John Lind, who will receive the Democratic nomination for Congress; John C. Sweet, who has for the past year represented the University district in the state legislature and who seeks the Republican nomination for state senator; and Edward C. Chatfield, candidate for the Republican nomination for alderman of the Second Ward.

Governor Lind's loyalty to the University and services as Regent are too well known to need repetition.

Mr. Sweet is not only a graduate but a member of the Law faculty. He has served a term in the state legislature and materially aided in securing appropriations and favorable legislation for the University.

Mr. Chatfield graduated from the University in '74. He was chairman of the Pillsbury Monument Association and has taken care of the University interests in the city council.

Tennis Tournament Planned

Quite a number of men attended the tennis meeting this morning. Newhall, the vice-president conducted the meeting in President Deering's absence. A committee of two was appointed to look after the fixing up of the tennis courts which is to be done with all dispatch. Keyes was appointed to receive all the entries to the tournament which is to be held next week. All wishing to enter the tournament must hand their names to him. It is desired that all who ever played should join the club.

Dr. Schaper Off Duty

The classes of Dr. Schaper are some what at sea owing to the fact that all his work is being delayed by the professor's illness. He has been attacked by a severe throat trouble and at present is unable to speak above a whisper. It is hoped he will recover sufficiently to meet his classes within a few days.

Beardshear Memorial Services

The I. S. C. Student of Sept. 10, contains a detailed account of the memorial services recently held at Ames college in honor of the late Dr. W. M. Beardshear. Loving tribute was paid to his memory and lofty words of eloquence told of the great mind and noble soul that passed with the death of their president.

BASKET BALL MATERIAL

Minnesota's Champion Team Has Another Season of Victories in Prospect.

Minnesota's prospects in basket-ball for the ensuing year seem exceedingly bright. All the old men are back, with the exception of Holden and Pierce. Holden had played on the team for a number of years and was considered one of the best forwards in the business. Pierce made the team and gained his M last year but was unable to return to school. Varco and Capt. Deering will probably hold down the forward positions, and they should make a good pair of forwards, Deering's clean, careful work offsetting Varco's snappy and more aggressive style of play.

Brown, of the 1905 freshman team will make a strong bid for one of the forward positions and cause the older players to hustle some. Leach, Kiefer and Ireland of last year's team are here and in them we have three about as good guards as can be found. Leach made the team last year and played a sure and steady game at guard, his long suit is shooting baskets. Tuck last year's centre is well remembered by the rooters. At center he is a puzzle to all of his opponents. It seems to be impossible for them to get above him, and in shooting baskets he towers above all the rest. There are also some good men from last year's freshman team, Brown, who was mentioned, McRae, a forward, who played a good steady game, H. E. Leach at guard, who will rival his brother for that great position on the varsity teams; Redman, guard, who is a good hard worker, and Pierce, the captain. Collins and Remele of the '04 team will be out again and work for the positions of center and guard, respectively. It is also reported that there are two or three men here from Iowa who are considered as very good players, and two new men from Fargo may get into the game. The schedule for the year is not filled out as yet, but it will be made as interesting as possible, having such games as Iowa, Nebraska, and Wisconsin. A trip to the East is being contemplated, and that at least, should be an incentive for players to get out and practice. On this trip, games will probably be played at Chicago, Milwaukee, one in Ohio, one at Yale, Harvard, Princeton, Pennsylvania U., and other leading colleges of the East. The trip will be made during the Christmas vacation and there will probably be seven or eight games played in about two weeks. If it becomes a certainty, practice will commence very soon, in order that the good men may have plenty of chance to show their ability. There will probably be ten men taken on the trip, and so there is a chance for all. Notice will be given when practice will commence and under the coaching of Dr. Cooke, and Capt. Deering, there is no doubt but what a very fast team will be developed.

W. L. Lindsley, Dent '02, is now practicing his profession in this city. The doctor is nicely located at 4th Ave. S. and Franklin, and reports business "on the gain." He has already ordered a season ticket for the football games.

Who Can Vote.

The DAILY has been asked whether the University students can vote here so many times within the past few days that we publish the following statement in regard to the matter:

Any one can vote at the primary election who will be eligible to vote at the regular election in November. That is, 21 years of age, a resident of the precinct 30 days, and of the state six months. If a man will be 21 years of age at the time of the regular election he is entitled to a vote at the primaries although he may not have attained his majority at that time. As all of us will have been in the precinct more than the required 30 days before Nov. 4th, the only question which is likely to perplex the students is as to whether or not we are residents. This is a pretty difficult question to settle but the judges of election have always been inclined to regard any student who expects to stay here and take a course at the University as a resident.

Three Papers by Mr. Gale

Three articles by Mr. Harlow Gale have appeared during the vacation months. In "The Professor's Office," in the June number of the *Journal of Pedagogy*, this very modern educational institution is found to be the outgrowth of the many committees for prodding education into laggards and of the athletic committees of the faculty. This "Office," with its spirit and methods, is contrasted with a modern idealized teacher's study.

In "The Pastor's Office," in the June number of the *International Socialist Review*, this same tendency of introducing business methods into religious and ethical culture is contrastingly shown.

The July number of the *Journal of Childhood and Adolescence* prints the paper on the "Early Reasoning of Children," by Mr. and Mrs. Gale, which he read at Chicago University a year ago. It is the first study of its kind ever published and one of much value.

To-night

The annual opening social for men occurs tonight at the Y. M. C. A. The Building will be filled surely as it always is, and the old students will not forget the good times at former similar occasions.
All men invited.

Electives in Soph. Science

The Scientific department announces an important change. In previous years no electives were offered upon the completion of the first year course. Hereafter in addition to histology two courses are scheduled, one in entomology, and another in comparative anatomy. The latter is intended as a preparatory course for anatomy in the Medical College. Assistant Brown is giving a new course in Ornithology in addition to the above courses.

Pleasant Event in Prospect

A reception given especially to the Freshmen girls will be held today at 2:30 by the Y. W. C. A. in the Association room in the Library building. Several beautiful posters have been placed around extending invitations to the girls in the University to attend this reception. The young women who are to act as hostesses have spared no time in arranging for this opening function of the college year, and all the freshmen girls ought to go and meet each other and the members of the upper classes.

Practice at Nebraska

Football practice has been ushered in in earnest on the campus of Nebraska university, with Coach Walter C. Booth in active charge. The big ex-Princeton center is in fine physical trim, having been rigorously training during the entire summer, and is prepared to lead the corn-huskers' squad a merry chase. About fifteen players, marshaled by Captain Westover, appeared for initial practice, and this number is expected to increase gradually until sixty or more men have donned the mole-skins.

Booth, never over-confident, despite the fact that Nebraska has achieved more distinction since his tutelage began two years ago than ever before, is a bit elated over the cornhuskers' prospects for the coming gridiron season. Captain Westover reports that the presence of at least ten veterans from former first teams will be in school to contest with the substitutes and new-material for places on the team.

The practice for the present will consist almost entirely of falling on the ball, catching punts, rushing down the field and short runs for wind. Next week Booth will put the squad through signal practice and a few minutes of actual scrimmages, by way of preparation for the first practice game of the year against Lincoln high school, on Saturday, Sept. 20.

BY THE WAY.

The Electrical Engineering College is better filled than ever before. Each of the four classes contain nearly twice as many students as were registered in those classes last year. Prof. F. W. Springer states that, notwithstanding the fact that the number of students is remarkably larger, the department will be able to take care of them without any trouble.

Miss Edna Twombly, '02, is teaching Grand Forks, N. D.

The arrival of J. P. DeVarney, the president of the '05's, is being daily expected.

E. B. Pierce, president of the present junior class, will not be back this year. He is teaching manual training at Mankato.

Mrs. J. D. Downey and Miss Mary Norton have been pledged to Gamma Phi Beta—

The cloakroom men and the assistant librarians in the Law department have been chosen. For the first J. R. Johnson, E. G. Closner and E. A. Williams have been named, while O. A. Lende, E. L. Younberg and J. P. Smith, will assist in the library.

Miss Edith Snell, '01, now teaching mathematics in the St. Peter high school visited University friends yesterday.

Charles S. Moot, '06, of Brooklyn, N. Y., a member of Sigma Lambda Nu, has been pledged by Alpha Tau Omega.

The friends of Edgar Huyck, School Chemistry, '05, will be pleased to know he is recovering from a very severe run of typhoid fever.

The sophomore engineers went out for their first field work yesterday. Everyone is getting down to hard work and all are enthusiastic.

Owing to the unprecedented increase in numbers Dr. Eddy has found it necessary to divide his class in mechanics into two divisions.

His many friends are glad to welcome back to the "U" Prof. Shaler who had

work in the Mechanical Engineering department of the University of Montana for the past year. He formerly had charge of a class in mathematics here and is now instructor in mechanical drawing and mechanical laboratory.

Those wishing to enter the tennis tournament are requested to hand their names to Robert Keyes, Box 526. As the tournament is scheduled to commence next Friday, all names should be in by the first of next week.

S. P. Ness, '01, Kenyon, Minn., was at the Law building yesterday. Mr. Ness has spent the Summer looking up a location and he has decided to let his light shine in the far West. He is about to open up his office on the Pacific Coast.

Mr. L. B. Pease who formerly had charge of the Freshman chemistry laboratory, will this year devote his attention to laboratory work in mineralogy. This being now an elective science in the freshman year necessitates increased quarters and more instructors.

Prof. Sigerfoos has received two large King crabs direct from the Atlantic coast. They were shipped last Saturday and arrived Wednesday. Our remoteness from salt water makes the live specimens quite a curiosity.

John Currant, '02, greeted old friends at the "U" yesterday. Mr. Currant is at present engaged in land business and took the occasion of a business trip to Minneapolis to visit the University and old acquaintances. Mr. Currant will return to the "U." for study next year.

Delta Delta Delta has pledged Helen Mayo of Minneapolis.

All Freshmen desiring to commence debate have an excellent chance to do work in argumentation at the 3d hour. The course counts a full credit, and may be taken in place of rhetoric. All Freshmen desiring to try for the class debate team must take argumentation and any material will be welcome in this 3d hour class.

PIANOS

The tendency in prices of all manufactured goods has for years been steadily downward. In most lines the quality has gone down with the price. The public has gone bargain mad.

We deplore the fact that this spirit has invaded the fine arts—and people are buying pictures, books and musical instruments at "so much a square yard." But there is no royal road to true culture. A highly artistic musical instrument cannot be made by the "hit or miss" process, and sold for a trifle. A good piano is the result of painstaking, intelligent effort and costs a fair price. It is cheaper at a fair price than cheap stuff is at a trifle.

The Ludwig Piano

represents the highest possible standard of merit at the lowest possible cost. Not a dollar put in for the non-essentials, and not an essential left out. A full assortment of these artistic pianos always on exhibition on our floors. Sold on easy payments. Write for free catalogue.

DR. NORTHROP
SUNDAY

Will Address Students at 3 P. M.
in Chapel—Dean Pattee
Will Preside.

Chapel Hall will be crowded Sunday afternoon no doubt for the address from the President. It will be an event of great importance. Last year it was late in the second semester before the students were given such an opportunity of hearing a formal address from the President. To add to the attractiveness of the occasion, Dean Pattee will preside and special music will be provided by Mr. J. M. Freeburg, director of the Glee Club, who is also chairman of the music committee of the Y. M. C. A.

The service is under the auspices of the Christian Associations.

He Brings Lunches

The "lunch-man" has already become a familiar figure and is very popular with a large number of students who are in the habit of taking their noonday meal on the campus. Instead of carrying their lunches with them as in past years, they find it a great convenience to have a box lunch delivered to them right on the campus. The idea is new at the Varsity and seems to meet with great favor among the students.

ANNOUNCEMENTS

On next Sunday evening at Andrew Presbyterian church, Rev. Martin D. Hardin will begin a series of sermons to which students of the University are cordially invited. The course is designed to meet a real need in the life of most young men and women newly entering University life, and will be upon the following topics: Sept. 14,

"Home-sickness," Sept. 21, "How much ought a freshman to know?" Sept. 28, "Sowing and Reaping," Oct. 5, "The Practical value of Religion."

Interest on Deposits
2% subject to check.
3% on 3 months certificates.
4% on 6 months certificates.
4% on savings accounts.
Interest on check accounts is figured on daily balances and is credited monthly.
Interest on time deposits commences on the DAY OF DEPOSIT. On savings accounts it commences the FIRST OF EACH MONTH and is compounded quarterly. Portions of deposits may be withdrawn without affecting the interest on the remainder.
