## TO THE STUDENTS OF THE SUMMER SESSION

We wish to ask your coöperation in the Better Minnesota Movement, which aims in various ways to develop a fine morale among the students. One of the tangible results which we seek is a neat and clean campus.

You will observe two things: First, that no fences, chains, or wires obstruct your free passage across the campus. This fact does not mean that you are at liberty to make paths. It does mean that you are at liberty to study on the knoll and elsewhere. Our students have agreed not to trample down the grass or to make paths, and to accomplish this result by strong student opinion rather than by material barriers which disfigure the campus. They have kept their agreements, and we feel confident that you only need to be informed of these plans to continue them in the same spirit.

Secondly, you will observe that receptacles for waste paper and other articles have been provided at all convenient places. You are asked to help keep the campus clean. Do not throw on the campus waste paper, wrappings, fruit peelings, or anything which mars the appearance of the campus. Insist upon others acting in accordance with these ideals.

We want a clean campus because it makes for clear thinking and high standards of living. A well-ordered, wholesome environment is essential to real scholarship and high character.

M. L. BURTON, President

## TO INSTRUCTORS IN THE SUMMER SESSION

All instructors in the summer session are requested to send to my office today a statement showing the number of students registered in each of their classes.
