Equipment not returned will be charged to the student concerned.

R. M. West, Registrar

### FALL QUARTER REPORTS TO STUDENTS

Fall quarter reports will be mailed to students by the Registrar's office before January 2, 1926. In sending out these reports the Address Book will be followed. Students for whom only one address is given (in the Twin Cities), will receive reports by U. S. mail. All others will be delivered through the University Post-office. Students are held responsible for reporting changes of address to General Information window, Registrar's office, before the close of this quarter.

All students who receive delinquent grades in fall quarter work making it necessary to change their registration for the winter quarter, must make such changes on the dates announced for the college in which they are enrolled in order to avoid the customary penalty.

R. M. West, Registrar

### FALL QUARTER FINAL REPORTS

All members of the teaching staff are reminded that under the regulation of the University Senate, final reports for the Fall quarter are due in the registrar's office not later than 12 o'clock noon, December 23. The Registrar's office is planning to make every effort to have all final grades for the fall quarter recorded and forwarded to students before the winter quarter opens, and without interfering with the winter quarter registration procedure. This will make it possible to give complete and accurate information to such faculty committees. It will be possible to do this only if instructors with examinations on Wednesday and Thursday, December 16 and 17, will file their reports before the 23rd. It is requested that reports on such classes be submitted by December 20th or earlier if possible.

U OF M BINDERY

The co-operation of each member of the teaching staff is solicited.

Blank forms for reports may be obtained from the offices of heads of departments or by telephoning the Registrar's office.

R. M. West, Registrar

### NOTICE OF REGISTRATION FOR THE WINTER QUARTER

#### College of Engineering and Architecture

Sophomores, Juniors, and Seniors in the College of Engineering and Architecture who had no grades of E or F, nor more than one D on their mid-quarter records will be permitted to register for the winter quarter between December 14 and 17, inclusive, by special appointment with their respective classifiers. A list of these students and classifiers, and the procedure for registration will be posted on the Dean's bulletin board in the Main Engineering Building. Students who complete their registration during this period will be excused from attendance on the regular registration day, Saturday, January 2, 1926, unless they fail in any subject at the end of the quarter. Changes in program will be permitted in these cases on January 2, 1926, without a penalty fee.

All students not included in the above notice will be expected to register on January 2, 1926. Late registration penalty after January 2, 1926.

### WINTER QUARTER FEES

1. Statements covering winter quarter fees were mailed on December 1st to students now registered at the University. December 23rd is the last date of payment without penalty. Payments received after that date must bear a postmark date prior to 12 o'clock midnight on December 23rd to avoid penalty. The penalty for late payment is \$2.00 to January 4th, and then increases at the rate of \$1.00 per day. Students are cautioned against mail delays which occur incident to holiday congestion, and are urged to remit fees far enough in advance of December 23rd to avoid possible complication. Students who must write home for money or make loans are especially urged to complete such arrangements within the time limit in order to avoid the penalty.

2. Fee statements are issued on the basis of the records as they now appear. Approved petitions or memoranda modifying the records and the amount of the fee statement must be filed within the time limit, or the student should pay the amount of the original fee statement and receive a refundment when such petition is filed.

3. Remittance must be for the exact amount of the fee statement. The Bursar cannot accept checks, drafts, or money orders for an amount in excess of the fee statement. Insufficient remittances will be returned to the student at his own risk. The student's registration will remain incomplete until his fees are paid in full.

4. All checks, drafts, and money orders should be made payable to the University of Minnesota, and should be accompanied by all three sections of the fee statement. In remitting by mail, the Bursar's envelope received with the fee statement should be used.

5. Failure to receive a fee statement cannot be accepted as sufficient reason for late payment or non-payment of the fees. Any student who does not receive a fee statement in his University postoffice box within a reasonable time may secure a duplicate fee statement at the Registrar's office. Students whose work takes them from the campus must inform the Registrar's office promptly of change of address.

6. Trainees of the U. S. Veterans' Bureau, the State Division of Re-Education, Foreign Government Students, and beneficiaries of scholarship funds of miscellaneous agencies must secure the written approval of the Assistant Registrar on their fee statements and present them to the Bursar within the time limit in order to avoid penalty.
