Schindel to Upham.....	Wednesday,	March 19
Van Ness to Zimmerschied.....	Thursday,	March 20

Registration material will be given out at window 7, Registrar's Office.
E. B. PIERCE, Registrar

FACULTY MEN, TAKE THIS HOME TO YOUR WIVES

The March meeting of the Faculty Women's Club will be held on Saturday, March 15, in Shevlin Hall, promptly at three o'clock. After a brief business meeting, where final reports of receipts of the Minstrel Show will be presented, there will be a very interesting program illustrated with stereopticon views. The speakers are to be Father Jager, Chief of the Division of Bee Culture in the Agricultural College, Professor Coates P. Bull, of the Department of Agronomy, and Dr. Caryl Storrs, of the Tribune staff. These men were members of an Agricultural Mission sent by the Red Cross to Serbia, and will tell of their experiences there.

The Dames of the University, an organization consisting of the wives of men students, and the Cosmopolitan Club, are to be the guests of the Faculty Women's Club at this meeting.

The Mothers and Juniors Mothers Sections will conduct the second of their food sales after the program. In this way they are raising funds to support the French orphan they have adopted.

Tea will be served.

R. O. T. C. MEN, NOTICE

The following letter has been received from Washington, explaining the present status of the question of credit for military service:

"The importance of giving suitable credit under Reserve Officers' Training Corps system for service during the present

emergency is fully appreciated. It is absolutely necessary to secure an amendment of the National Defense Act of June 3, 1916, in order to allow students with military experience during the war to be admitted to the advanced course and to receive commutation of subsistence, etc.

"It was hoped that service of commissioned officers, service in France and Italy, in cantonments in the United States, and officers' training camps, and former R. O. T. C. and S. A. T. C. units, would be given credit toward the advanced R. O. T. C. course. Serious effort was made to have resolutions adopted during the past session of Congress, but you will understand why they failed.

"The question is so important that we have not lost hope and shall do everything in our power to push the matter to a successful adjustment."

THE SENATE COMMITTEE

ON THE RELATION OF THE UNIVERSITY TO OTHER INSTITUTIONS OF LEARNING

will meet with the committee representing the Superintendents of the State, on Thursday, March 13, at 4:00 o'clock in Room 121, Folwell Hall.

WILL ALL STUDENTS in the University who intend to do practice teaching during the spring quarter see Mr. Reeve, Principal of the University High School, some time during this week concerning their teaching program. It is very important that this matter be attended to at once.

NOTICE TO FRESHMEN

OF THE COLLEGE OF SCIENCE, LITERATURE, AND THE ARTS

You will shortly be summoned to meet your adviser to make out your registration for the spring quarter. Please keep the appointment made for you, as it may not be possible to secure another in time to avoid the fine for late registration.

R. R. SHUMWAY,

Chairman of Administrative Board

THE TRIANGLE CLUB will hold a short but important meeting tonight at 7:30 at the Beta house. Cider and doughnuts will be served after the meeting.

(OVER)

FRESHMEN GIRLS, NOTICE

Special Conference Hours for Freshmen will be held every afternoon this week, except Thursday. All girls are urged to come to talk over their plans for their future work. If you have not decided what you are going to do, come and find out what other women are doing. If you have chosen your vocation come and find out what is necessary for thorough preparation. There are interesting magazine articles about women's work that you might like to borrow.

Special appointments can be made by telephone. Come and get acquainted, even if you have no questions to ask.

KATHARINE F. BALL,
Vocational Adviser for Women

CONCERNING THE PAYMENT OF FEES

At the registration period of the second quarter nearly one hundred students were caused considerable delay and some trouble because money orders or checks were made out improperly.

In order to facilitate matters, students are asked to be careful about three items:

1. Make all checks payable to the University of Minnesota.
2. The amount of check or money order should be the exact total on fee statement; no more, no less.
3. Be sure to have statement of fees accompany check or money order, when sending remittances to the Cashier.

Attention to these details will be appreciated by all concerned with registration.

E. B. PIERCE, Registrar

THE ALL-UNIVERSITY COUNCIL

will meet this noon at 12:30 in Room 245½, Chemistry Building.

THE HOUSE COUNCIL

will meet this evening (Tuesday) at 7 o'clock in Shevlin Hall. All members are urged to be present. The meeting will be short.

PRE-MEDICS, NOTICE

All pre-medic students, freshmen, sophomores, and others, are requested to meet in the Chemistry auditorium at 4:30 Wednesday, March 12, for consideration of registration for next quarter.

Bring your present quarter program and a list of the courses you now expect to take next quarter.

W. H. HUNTER

JUNIOR AND SENIOR MEN

taking advanced work in Military Drill will meet in Room 25, Folwell Hall, Wednesday, at the eighth hour.

DEPARTMENT OF AGRICULTURE

The faculty of the School of Agriculture will meet Wednesday, March 12, at 4:30, in Room 1, Plant Pathology Building.

R. M. WEST, Secretary

UNIVERSITY HEALTH BULLETIN

"Health for Health's Sake.—Health of itself makes life a perpetual joy. Nothing daunts, nothing overawes, nothing discourages, and nothing overpowers the man and woman possessed of health. Health means not only vigor and energy of body, but also clarity and strength of mind; purity and beauty of soul. The healthy person dominates life, instead of allowing life to dominate him. To him the body is one harmonious whole. He is a unit, a being, a man; complete, vigorous, perfect. To such a man work is a joy. He regards obstacles as but opportunities for testing his strength. He hardly knows what weariness is. He never experiences exhaustion. Health supplies the courage, the aggressiveness of life. Without health one is a bankrupt regardless of what his financial condition may be. He becomes a cipher in the world of real men and women.

"Overdrawing Your Health Account.—We are all more or less familiar with the strict rules of banks in regard to individual credit. We do not expect to be permitted to overdraw our accounts. But the majority of us expect more liberal treatment with our drafts on the Bank of Health. Overdrafts, promises to pay, and notes are given with a prodigal spirit, and we grow mightily if called to account by Mother Nature for extravagance.

"Everyone begins life with a certain amount of capital in the way of health and resistance to disease. This capital varies in different individuals, according to the physique inherited from parents and the environment provided. We start life as men and women with this variable amount of capital to our credit. When it is fully expended, we are through. Every dissipation and illness, which means the expenditure of physical energy, withdraw just so much from the health account. Every illness leaves an imprint upon the system, and even though no decided change is felt by the individual, there is invariably some decrease of the normal resistance.

"Expend your energies with discretion and keep the balance of your health account as large as possible."—Michigan State Board of Health.
