The stone carvings, which flank the main Armory door at the University of Minnesota, were carved by pioneer immigrant craftsmen. They represent the original role of the U of M ROTC training as horse artillery. The stable where the artillery horses were kept may still be seen today in the Armory building.

Oath of Office

I, (State your full name), having been appointed a second lieutenant/ ensign, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office upon which I am about to enter, So Help Me God.

Dr. Stanley D. Sahlstrom Provost University of Minnesota Crookston

As provost of UMC, Dr. Sahlstrom is the chief administrative officer for the college. His responsibilities include development of college programs, employment of staff, and continuing improvement of facilities.

A native of Minnesota, the provost earned his bachelor of science, master of science, and doctoral degrees from the University of Minnesota. A past officer of four honorary fraternities, he has held national offices in Phi Delta Kappa international professional society. He came to Crookston in 1965 after holding administrative positions at St. Cloud State University. Among other posts, Dr. Sahlstrom has been an instructor at the University of Minnesota, St. Paul campus.

Nationally, Dr. Sahlstrom is listed in "Who's Who in American Education," as well as in "Who's Who in American College and University Administration."

He is active in a number of national educational associations, has been on the Rural Education Committee of NEA, and is past board member of the National Association of Colleges and Teachers of Agriculture. He is a consultant-examiner for the Commission on Institutions of Higher Education of the North Central Association and is past officer of the North Central Association of Community and Junior Colleges. In Minnesota, he serves on the advisory committee on agricultural education and is president of the Minnesota Council for Coordinating Education in Agriculture. Dr. Sahlstrom is the president of Post Secondary International Network (PIN), an association of two-year colleges from Canada and the United States.

In recognition of his long service on both the high school and collegiate levels, the Future Farmers of America have bestowed the Honorary Chapter Farmer and Honorary State Farmer degrees, the Distinguished Service Award, and in 1979 he was presented with the Honorary American Farmer degree at the national FFA convention. Dr. Sahlstrom received the National 4-H Alumni Award in 1982, having been previously named an Outstanding State Alumnus in 1958 by the 4-H clubs of Minnesota. He has been honored with the highest award by the American Cancer Society and is past president of the Minnesota division.

Locally, he belongs to Rotary, the American Legion, and the VFW, and was 1973-74 governor of District 558 of Rotary International. During his tour of duty in the Army from 1942-46, he attained the rank of captain. He retired from the Army Reserves with the rank of colonel. An elder in the Presbyterian Church, Dr. Sahlstrom is also on the board and past president of the Crookston Area Chamber of Commerce, receiving the President's Award for sincere and devoted effort in 1979 and the Chamber's highest award, the Certificate of Merit, in 1975. He presently serves as president of the United Way.

From 1962 to 1963 Dr. Sahlstrom was an educational consultant to the government of Cyprus under a Fulbright grant. In 1973 he researched technical education in Russia, and also visited schools in Switzerland, Austria, and Poland. In 1976 he visited colleges in England, Scotland, and Wales to further an exchange program of faculty and students between those colleges and UMC. During the spring of 1980 Dr. Sahlstrom served as a consultant to the United Nations to review education in agriculture in Saudi Arabia. He made recommendations on curriculum development, on the organization of centers for education in agriculture, and advised the Ministry of Agriculture on possible educational choices.

An avid equestrian, Dr. Sahlstrom is widely known as a judge of horse shows, is a winner of many honors as a horseman, and is past national director of the Morgan Club of America. Dr. Sahlstrom, who is married and has four children, spends his scant leisure time hunting, fishing, and golfing.

HISTORY AND PHILOSOPHY

The Reserve Officers Training Corps (ROTC) plays an important role in the national defense framework of our nation. The American tradition of military instruction on civilian college campuses began in 1819 when a former superintendent at West Point established the American Library, Scientific and Military Academy, which later became Norwich University. Military instruction soon spread to other institutions — Virginia Military Institute in 1839, the University of Tennessee in 1840, and the Citadel in 1842.

In 1862 the Congress of the United States, foreseeing the dual necessities of creating additional institutions of higher learning, as well as providing a means of schooling young men in the military arts, passed the Morrill Land Grant Act. This act provided money from the sale of government lands to establish colleges and universities and specified that courses in the military arts should be offered at these institutions.

The University of Minnesota opened its doors in 1869 through the benefits made available by the Morrill Act. One of the original nine faculty members was the University's first professor of military science, Major General Richard W. Johnson. For 70 years ROTC training at the University prepared young men for entrance into the Army. Then in 1939 a Naval ROTC unit was established, and in 1949 an Air Force ROTC program opened its doors to officer candidates.

For more than 150 years ROTC programs on civilian college campuses have provided intelligent, well-educated leaders for the national defense. This is in keeping with the typically American concepts of the citizen-soldier and civilian-oriented military officers from all geographic and social strata whose leadership has been characterized by initiative, ingenuity, and flexibility. Also, because ROTC officers may return to civilian status when they have fulfilled their military obligation, ROTC programs provide leadership resources not only for national defense but also for civilian enterprise.
