SR Education Group, the creator of OnlineU.org, implemented a methodology to compile the 2014 Most Affordable U.S. Online College Rankings. To be considered for inclusion in the rankings, online colleges were required to currently be accredited by an agency recognized by the U.S. Department of Education and offer fully online programs, so that students located anywhere in the country may pursue their degrees. All rankings were then compiled based on annual tuition for an online bachelor's degree for 24 specific subject areas. To see all subject areas, go to www.onlineu.org/college-rankings/most-affordable.

Today the University of Minnesota Crookston delivers 29 bachelor's degree programs, 20 minors, and 36 concentrations on campus--as well as 13 degrees online--in the areas of agriculture and natural resources; business; liberal arts and education; and math, science and technology. With an enrollment of 1,800 undergraduates from more than 20 countries and 40 states, the Crookston campus offers a supportive, close-knit atmosphere that leads to a prestigious University of Minnesota degree.
