DULUTH--A record first term Summer Session enrollment of 1,040 students was announced today by UMD Provost Raymond W. Darland.

The total is 11 higher than the 1959 record and 35 higher than 1961, Darland said. Of the 1,040 students, 142 are graduate students and 898 undergraduates.

University Recorder True E. Pettingill said total University of Minnesota enrollment for first term is 10,459, 395 or four per cent higher than a year ago. For the entire University, 6,239 students are men, 4,220 are women.

Pettengill noted that a number of summer institutes at the University campuses helped increase the final count. The Morris campus registered 61 students for their first summer session since becoming a part of the University.
