AND SOCIETY OF TRAINING DIRECTORS

DULUTH--William Gomberg, professor of industrial engineering at Washington university, St. Louis, Mo., will speak on "The Changing Nature of Industrial ~~Relations~~ Relations" at a northern Minnesota conference on industrial relations ~~this week~~ in Duluth this week.

He will address the conference dinner at 6:30 p.m. Thursday (Oct. 16) in Hotel Duluth. ~~The conference will be held Friday~~ Other conference sessions Thursday and Friday will be ~~held~~ in Kirby Student center on the UMD campus.

~~Professor Gomberg is currently~~ visiting professor at Columbia university, New York. ~~He is a pioneer in the field of industrial engineering~~ He founded the ~~management engineering department of the International Ladies' garment Workers union.~~ PROFESSOR GOMBERG

~~The department is~~ frequently consulted by AFL-CIO unions. A ~~most~~ prolific author and busy lecturer, he ~~has written~~ wrote in 1955 "A ~~Trade Union Analysis of Time Study~~," now in its second edition, and "Handbook of Industrial Engineering and Management."

He also has served as consultant to the Economic Cooperation administration and the Mutual Security administration. In the latter capacity he conducted three missions in Europe in the years 1950 to 1952.

The ~~management engineering~~ ALSO department furnishes a free consulting engineering service to garment manufacturers in contractual relations with the union. Trained engineers and technicians assist ~~the~~ garment manufacturers in developing more efficient production.
