THE REGENTS MEET

Important Meeting of the Governing Board of Our Institution Yesterday

The Regents held a very important and interesting meeting yesterday in which many matters of interest to the students came up.

John D. Ludden of St. Paul turned over to the Regents \$5,000 in N. P. 4 per cent bonds, the income to be used in aiding students in the school of agriculture.

Degrees were voted as follows: W. E. Rowe, bachelor of arts; William E. Grimshaw, mechanical engineer and Paul E. Von Kuster, bachelor of laws.

Professors West and McVey appeared before the Regents to ask for more room for their departments and also for \$16,000 for books for the department. The matter was taken under advisement.

Drs. Todd, Beard and Wesbrook appeared before the Regents to ask for an addition to the free dispensary and for an additional building to be shared between the University and the State Board of Health.

Regent Liggett and Professor Snyder were appointed delegates to attend the national convention of agricultural colleges and experiment stations to be held at Atlanta, Georgia October 7.

One hundred dollars was voted to the Minnesota Magazine to aid in offering prizes for contributions for the magazine. In return for this grant the Magazine is to send one hundred copies to the high schools throughout the state.

It was also voted to promote several instructors and assistants in the Medical department.

Dean Wulling made a request for a new building for the college of pharmacy. The request was referred to the building committee.

Rabbi Samuel Deinard was appointed to give instruction in Hebrew in place of Dr. Jewett who resigned and whose resignation was accepted.

Dr. George F. James was made professor of pedagogy.

Professor Shaw was appointed delegate to attend the national irrigation convention to be held at Colorado Springs.

President Northrop was appointed delegate to attend the inauguration of Woodrow Wilson as president of Princeton.

President Northrop was given a week leave of absence to attend the inauguration of President James of Northwestern University.

In the appointment of the members of the Board of Regents there has been three mistakes made in the times of appointment and so it has come about that four regents will have terms expiring next January a contingency which the legislature provided against originally but which has been brought about by the mistakes made by the governors in making their appointments. The law committee of the Regents was instructed to look into the matter and to recommend suitable legislation to straighten things out in accordance with the original intention of the legislature.

Frank E. Dean, '98, who is employed by the Anaconda Copper Mining Company, at Anaconda, Mont., was at the University Tuesday, the 23d. He is enthusiastic over the west.

SONG FOR THE MORNING

Nearer, My God, to Thee,
Nearer to Thee!
E'en though it be a cross
That raiseth me!
Still all my song shall be,
Nearer, My God, to Thee,
Nearer to Thee!

There let the way appear,
Steps unto heaven;
All that Thou sendest me,
In mercy given;
Angels to beckon me
Nearer, My God, to Thee,
Nearer to Thee!

MASS MEETING TODAY

The Rooters' Club Will Be Organized After Chapel

There will be a rousing mass meeting after Chapel today in the interest of the Rooters' Club. This Club is an organized band of students whose main duty it is to be present at every foot-ball game and to cheer on the team to victory. The object of the Club is organized Rooting.

Tomorrow the election of officers will take place and speeches will be made by several prominent men.

The opening gun of the Foot-ball campaign will be fired tomorrow at the Ames game, and every loyal student is expected to be present and get his voice in trim for this occasion. Two candidates for President have already appeared in the field. Namely, J. Mac Martin, Acedenic '03 and John N. Thelan, Law '04.

Prof. Chas. P. Berkey spent almost the entire summer in eastern Oregon where he is interested in some mining property. The company operating this property is composed largely of Minneapolis men, among whom are one or two University professors.

AMES VS. MINNESOTA

The First Big Contest of the Season Saturday Morning

Tomorrow's game with Ames College will begin at 3:30 sharp and everybody should be in their places by that time in order that rooting may begin as the team appears on the field.

Ames has always played fast foot-ball and this year under their new Harvard coach they are likely to prove very dangerous opponents.

The line is an extremely heavy one for a College team and they are all players of experience. The back men are not very heavy but are said to be very fast and this combination of heavy line and fast backs is a hard one to defeat.

Coach Ristine, of the Ames team, has been drilling his men according to the method that the champion Harvard team used last year and the men are taking to the system in a way that will make Minnesota work to beat her.

Twenty men will be in the Ames squad and among them will be the following men:

Ends, Tellier and Matteson; tackles, Williams and Shealy; guards, Nelson and Warden; center, Byl; quarters, Tenner and Daniels; half backs, Deshler and Nichols; full back, Shuler.

AT FIVE P M

Trials For Places on the Glee Club—Successful Year Expected

Tomorrow at 5 p. m. in the Armory will occur the trial of voices for all those wishing to join the University Glee Club. Anyone who has any talent at all in this direction is urged to attend and make a trial for the club. There are many vacant places in the club this year and men are wanted for each part. It is the desire of the club to secure the best talent in the University but this cannot be done unless every man who can sing will turn out and show what he can do. Last year was a very successful one. The clubs taking two extended trips. One including the towns from here to Winnipeg and the other to Duluth and Superior. Several trips are planned for the musical trips during the coming year. One or two good ones are certain.

ALL PROMENADE

Another Rushing Party Indulged in—Four Cops Are Persuaded to Leave

More than ever determined in his ambition to stop bicycle riding upon the now famous 15th Ave. oval, Supt. Berry of the Park board yesterday sent four minions of the law to guard the sacred spot. At the close of the first hour some student saw them standing bashfully upon the corner of University and 15th. The alarm was immediately given. And in an instant the blue coats were surrounded with a howling mob of students from every department until a crowd of nearly 1000 had congregated. For a while everything was lovely and the only damage done was to the natural serenity of the above mentioned minions, who were jostled around considerably. But the fun began when one of the persecuted officers began to show

Continued on Page 2.

PRESIDENT NORTHROP'S VIEWS

He Expresses His Opinions in Regard to the Recent Disturbances

It was the logical consequence of the police battle Wednesday that every one who participated should go to chapel to hear what President Northrop would have to say about the matter.

When he appeared on the chapel rostrum he was greeted by a hearty applause and when he had finished reading the notices everybody leaned forward so as not to miss a word of what Prexy said. Prexy advised the boys not to break any laws. He told them that in spite of the unpopularity of the course taken by the Park-board authorities, their actions in arresting parties found riding upon the sidewalk was upheld by the law. He said that the students of the University were not exactly an abused down-trodden class of men and women. While there was undoubtedly a great deal of excitement connected with such proceedings as those of the the last two days, it was hardly work of chivalry for several hundred able-bodied athletic young men to go in a body against one or two poor little policemen. He said that the Board of regents were now in session and some satisfactory arrangement between the Park board and the regents would be made which would probably end all future hostilities.

Agricultural School Opens

The Agricultural College opened Wednesday with an attendance of over 400 in the regular three years course. With nearly as many more in the Dairy and other special departments. The Dairy School Course will open Nov. 1 instead of Jan. 1, as usual and will continue fourteen weeks. Many improvements have been made during the summer and two new buildings are ready for occupancy, which will naturally relieve the congested condition which existed last year.

The new Chemistry Building is an elegant structure and will naturally strengthen the work in that line.

There is also a new Veterinary Building which cost \$25,000. It will be devoted to the physiological department, live stock judgment and clinic work.

The great increase in attendance and the increased facilities, will no doubt, make this school year the most profitable in the history of the Institution.

High School League

The High School Debating League, organized a year ago, under the supervision of Prof. McDermott, while not yet fully underway for the coming year, has nevertheless a very promising outlook. Already several High Schools have joined the organization, and as a great many of them are new ones the membership this year will doubtless exceed that of last.

The silver cup donated by the Journal is still offered as a prize, the conditions concerning this cup being that the High School which wins it three successive times may retain it permanently. Great interest was aroused last year in this League and it is safe to predict that the competition and rivalry this year will be very keen.

We Are Not Really Bad

The war between the Park board and the students is apparently over and the school authorities and Supt. Berry will both doubtless heave long sighs of relief.

The students are not as a general thing, unfair or unreasonable, and, as one of the Professors remarked the other day, "They are the easiest people possible to manage for one who has tact and good sense." But these are the very qualities which have been lacking in Sup. Barry's handling of the matter. Where tact and a knowledge of student nature would have urged diplomacy and conciliation, he used threats. He was undoubtedly right as to his legal right in the manner, but no law was ever yet successful which was not upheld by the sentiment of the people upon whom it fell and there was no sentiment in favor of enforcing the sidewalk regulation among the people who used the campus walks.

It is all over now and the quicker it is gotten over the better. We are all glad that no serious damage was done and we are glad to see this spirit in the students when used in a just cause. Let us sincerely hope that it will not breed a spirit of lawlessness which will lead them to attempt the same methods when their cause is less just.

Ames Rooters Here

Yesterday morning Manager Luby received a telephone message from the West Hotel which stated that a score of Ames students were already here and wanted a block of seats for the Saturday game.

This early arrival of Ames shows that they are taking unusual interest in the game, and is an indication that many will follow in their footsteps.

A DAILY reporter interviewed one of the Ames men yesterday in regard to their team. He said—"The team is in excellent physical condition and is the biggest and strongest lot ever turned out since I have been in college, but don't think for a minute they are slow. They are just as fast as they are big. We confidently expect at least to score and perhaps to do better."

This coming from an Ames supporter shows what we can expect.

Secret Practice Fierce

The Northrop Field gates were not opened at all last night. The crowd which had gathered were forced to content themselves with listening to the sounds which told of a fierce conflict being waged within.

Those who were permitted to see the

practice saw one of the fiercest games of the year.

The team was given an unusually long signal practice and then lined up for fifteen minutes against the fourth team before their regular game against the college eleven.

The play was fairly fast and spirited to a degree but it showed that the team is gaining but slowly in team work. The line too was far from puncture proof and it took a long hard twenty minutes play before they secured their one touchdown. The work tomorrow night will probably be light, thus giving the men a chance to get into the best possible condition.

Eichman Will Manage Clubs

At the meeting of the Glee and Mandolin clubs last evening, it was decided to place the management of the club as heretofore in the hands of W. H. Eichman of the Northwestern Lyceum Bureau. This insures financial success and will release the members of the club from work and worry incidental to such management. The work of the year was discussed in general, including plans for the trip which will probably occur about Feb. 1.

All Promenade

Continued from Page 1.

his temper. It was decided then that they should be tied up. A rope was obtained, but this was cut by the policemen so as to render it useless. A lawn hose taken from an adjoining residence met the same fate. Then a chain was procured but the officers saw it coming and broke ranks and made for safety. Matters began to look serious when some one upset a pail of water upon one of the worthies, and still another youth repeated the performance. The crowd now became tumultuous and kept the officers on the run until they reached the car tracks, where one of them was sent east upon an Oak St. car and the other three bid a hearty farewell and were placed upon a down town car. This ended the entertainment and class work was resumed as usual.

Several trophies were obtained by ambitious students during the melee. This was attested by the fact that all of Supt. Berry's men returned minus their impressive helmets. One lost a glorious star, another was separated from his revolver while still another had his club snatched away by some ruthless prober. Taking it all in all the Policemen retired in a rather undignified manner much the worse for wear.

One thing should be noted, and that is that the students paid for the hose which was destroyed.

If Supt. Berry maintains his threat, the whole park detail may be expected today and interesting developments can be expected.

Harry C. Lawton, of St. Paul, has been pledged Delta Upsilon.

U C A Reception

The University Catholic Association will hold its annual reception to the students tomorrow night at the Y. M. C. A. rooms, at which it will welcome the freshmen and entertain its friends.

This will be the first social meeting of the year. A short musical and literary program has been arranged after which a few hours will be spent in renewing old acquaintances and making new ones. The entertainment and refreshment committees will lend their aid to the evening's enjoyment. All new Catholic students are especially invited to come.

Geo. A. Nelson, '05, Dent., of Kasson Minnesota, has been pledged Alpha Tau Omega.

Hostilities Will Cease

The Park board will not send any more policemen to bother university students, for the present at least.

This has been definitely decided upon by Prof. Folwell, President of the board in an interview in which he says that he feels justified in stating that under the circumstances the park board will send no more blue coats to these parts until the matter is definitely settled. In this connection Supt. Berry howls a little and says the trouble was all unnecessary as the Park board was within its rights and that the officer employed did not attempt to enforce the strict let-

ter of the law. Many will take exception to this latter statement.

At the next regular meeting of the board, Oct. 6, the question will be taken up and definitely settled. Until then nothing will be done.

BY THE WAY.

George Cudhie, Law '95, has moved to Seattle, Wash., where he is engaged in the practice of his profession.

Dr. John V. O'Connor, Med. '95, is practicing medicine in St. Paul and has an office in the Baltimore Block.

James H. Lonie, Eng. '97, is located at Roanoke, Va., and is engaged in civil engineering work with one of the railroads centering at that point.

Harry L. Dixon '01, is advance manager for the Sanford Dodge Company this season. Last season he signed himself advance agent for the William Owen Company.

A letter comes from W. C. Nason in far off Narvacan, Ilocos Sur, P. I., enclosing subscription for the Merger which was the name of the Daily when he knew it last.

Cards are out announcing the marriage of Miss Melva Kamrar, '02, to Mr. James Furber, '00, which will take place at the Como Congregational church on October 1st.

PIANOS

The tendency in prices of all manufactured goods has for years been steadily downward. In most lines the quality has gone down with the price. The public has gone bargain mad.

We deplore the fact that this spirit has invaded the fine arts—and people are buying pictures, books and musical instruments at "so much a square yard." But there is no royal road to true culture. A highly artistic musical instrument cannot be made by the "hit or miss" process, and sold for a trifle. A good piano is the result of painstaking, intelligent effort and costs a fair price. It is cheaper at a fair price than cheap stuff is at a trifle.

The Ludwig Piano

represents the highest possible standard of merit at the lowest possible cost. Not a dollar put in for the non-essentials, and not an essential left out. A full assortment of these artistic pianos always on exhibition on our floors. Sold on easy payments. Write for free catalogue.
