The Board of Regents has committed itself and the University of Minnesota to the policy that there shall be no discrimination in the treatment of persons because of race, creed, color, sex, or national origin. This is a guiding policy in the admission of students in all colleges and in their academic pursuits. It is also to be a governing principle in University-owned and University-approved housing, in food services, student unions, extracurricular activities, and all other student and staff services. This policy must also be adhered to in the employment of students either by the University or by outsiders through the University and in the employment of faculty and civil service staff.

<b>TO</b>	Bell Telephone Operator	Dial "9" and "0"
Long Distance		See page vii
For Telephone Repair		Dial "9-410-2234"
In case of an EMERGENCY such as serious accident, illness, or fire, or for police, emergency repairs, etc.		Dial "0" and report to University Police

## Dial "9" for an Outside Line

From a Twin Cities campus telephone, DO NOT wait for a second dial tone. Just continue dialing; the second dial tone is applied to the circuit instantaneously and will be continuous with the dial tone you hear when you first pick up the phone.

## Don't Delay When Dialing

The University's CENTREX equipment includes a "time out" feature. This means that once having started dialing, you must finish dialing within a specified amount of time or the "time out" equipment will automatically cut you off and your call will not be completed. Should this happen to you, hang up for a few seconds and then dial the call again.

## Telephone Calls Cannot Be Transferred

The CENTREX system will not allow calls to be transferred from one University extension number to another. Attempting to do so will cause the caller to be cut off. When an off-campus caller reaches your phone by mistake, find out who the caller is trying to reach, check the staff listings, and inform the caller of the correct CENTREX number.

## 376- Exchange

Some telephone numbers with a 376- exchange have been assigned to University telephones. These numbers are part of the regular CENTREX system and should be treated like the familiar 373 numbers. On-campus callers should dial the last five digits of the number (6, and then the extension number). Off-campus callers dial the whole seven-digit number.

# Long Distance and Telegrams

## PERSONAL LONG DISTANCE CALLS

University telephones shall not be used for personal long distance calls. Such calls constitute avoidance of state and federal taxes. Further, personal calls, when charged to the University, are clearly contrary to the proper usage of these facilities for University business only. Such calls must be charged to one's residence telephone or personal credit card or made from a pay station telephone.

## LONG DISTANCE CALLS

From University telephones, place all long distance calls directly—DO NOT place long distance calls with the University Operator. Remember that Direct Dialing is both quicker and less expensive than operator-assisted calling.

## AUTOMATIC LONG DISTANCE BILLING

Long distance calls placed from University telephones are automatically charged against the departmental account for the CENTREX telephone number from which the call was placed. Each department is sent a monthly statement showing the calls billed against each of its telephone numbers.

Departments are responsible for controlling and recording all long distance calls made from their telephones. Individuals who are not authorized by their departments to make long distance calls must use pay phones.

## TO MAKE DIRECT DIAL CALLS

1. Look up proper area code and telephone number; write it down for future reference.
2. Dial "9" for an outside line.
3. Dial "1."
4. Dial the area code if different from your own.
5. Dial the telephone number.
6. Make a note of the call for your departmental records.

If you reach a wrong number, dial the Bell Telephone Operator immediately and report the wrong number call so that you will not be billed for the call.

If you need assistance, are cut off, encounter difficulty in hearing, or experience any other trouble, dial the Bell Telephone Operator and report it.

## TO MAKE OPERATOR-ASSISTED CALLS: PERSON-TO-PERSON, COLLECT, CREDIT CARD, OR SPECIAL BILLING

1. Look up proper area code and telephone number; write it down for future reference.
2. Dial "9" for an outside line.
3. Dial "Operator."
4. Dial area code if different from your own.
5. Dial the telephone number.
6. Make a note of the call for your departmental records.

When the Operator asks, "May I help you?" simply say on a:

Person call: the name of person called.

Collect call: "collect" and your name.

Credit call: credit card number.

Special Billing call: charge to area code and telephone number.

If you reach a wrong number, are cut off, or cannot hear, flash the Bell Telephone Operator by depressing the receiver button.

## CANADIAN CALLS

Many Canadian cities can now be dialed direct. Please consult the area code section of your city telephone directory for further information. Or call University Telephone Services (3-3945) for assistance.

## OVERSEAS CALLS

Place all overseas calls with the Bell Telephone Operator. Dial "9" and then "Operator."

## HOW TO FIND AREA CODES

You will find most area codes, listed by city, in the introductory pages of the Minneapolis or St. Paul telephone directory. Area codes for unlisted cities can be obtained by dialing "9," then "Operator." Ask the Operator who answers for the desired area codes.

## YOUR AREA CODE IS 612

When calling within your home DDD area, the 612 area, or roughly the central part of Minnesota, do not dial the 612 area code.

When arranging for a call-back from a place outside the 612 area, be sure to leave your 612 area code and your complete CENTREX number.

## HOW TO OBTAIN LONG DISTANCE NUMBERS

If you do not know the out-of-town number you wish to call, you may dial directly, without charge, to the Information Operator in most cities. Consult the area code section in the Minneapolis or St. Paul telephone directory to see if the city you wish to call is listed. If it is, proceed as follows:

1. Dial "9" for an outside line.
2. Dial "1."
3. Dial the area code of the city you are calling—except when that city is in your own 612 DDD area.
4. Then dial "555-1212." This will connect you to the distant Information Operator.

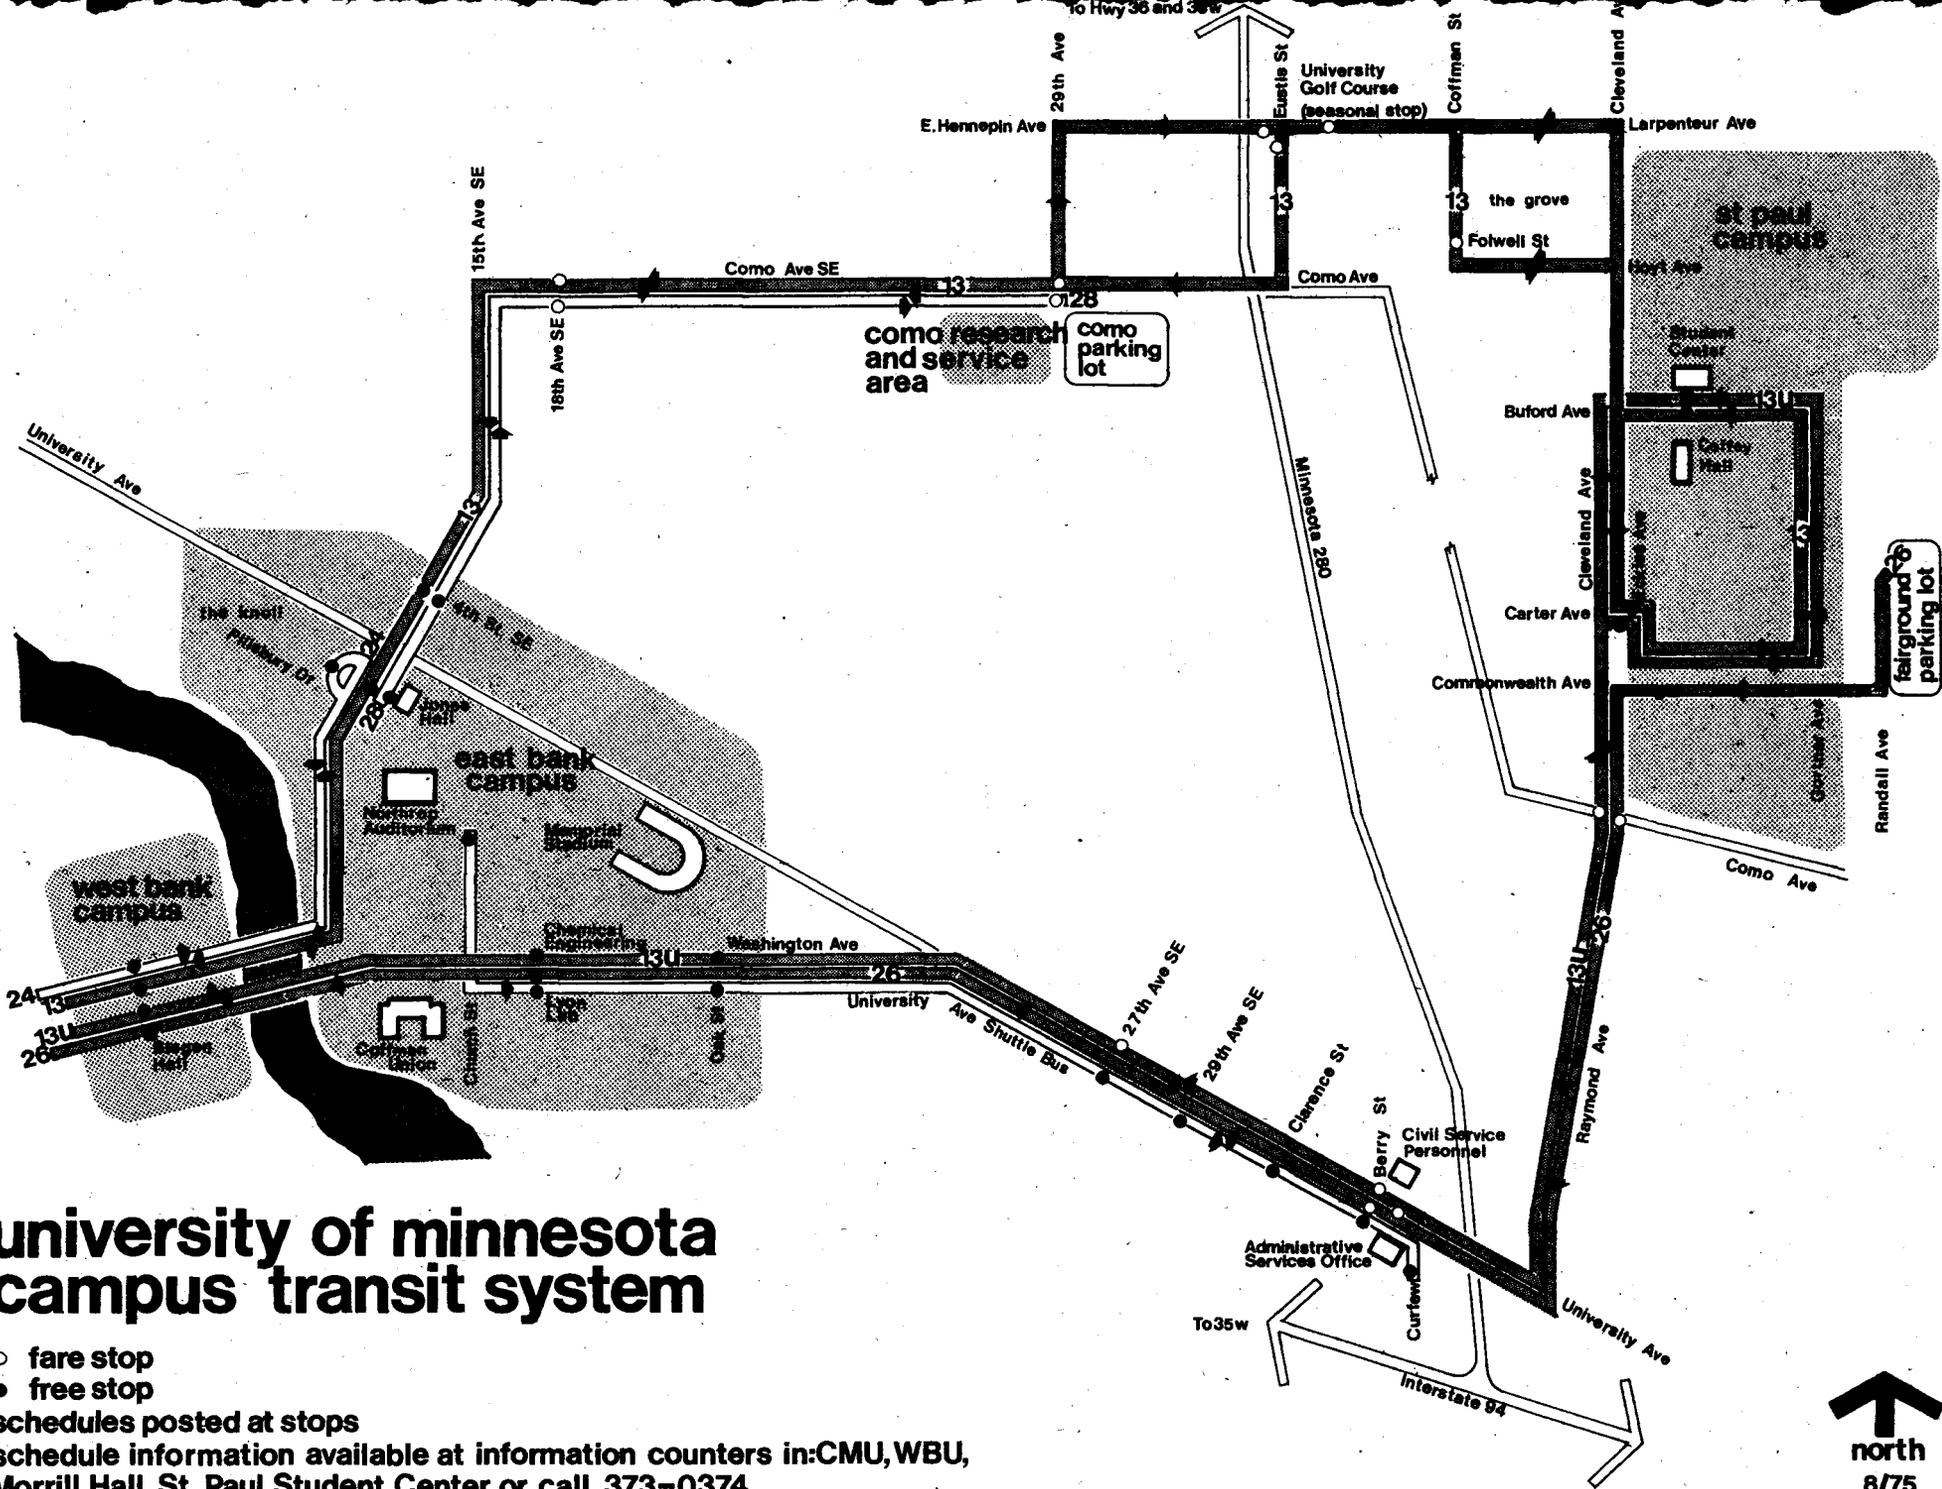

If the desired city is not included in the DDD network, ask the Bell Telephone Operator (dial "9," then "Operator") to connect you to the Information Operator in that city.

Record your frequently called long distance numbers for future reference.

## TELEGRAMS

Place telegrams directly with Western Union, NOT through the University Operator. Telegrams placed from a CENTREX telephone will be charged against the budget of the department controlling that CENTREX number.

To send a telegram from a "373-" or "376-" number, dial "9" + "1" + "800" + "325-5300." When the Western Union Operator asks for your telephone number, give your complete seven-digit CENTREX number.
